Project Description

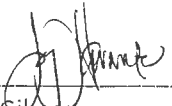

The project will redevelop approximately 27 acres of surface parking and surrounding structures in the 43-acre (including 2 acres of public right-of-way) Stonestown Galleria shopping mall site into a master-planned, multi-phased, mixed-use community. Under the project, 710,000 square feet of the existing mall will remain, with changes to the façade, entrances, and exits. The existing parking garage in the southwest corner of the project site, the vacant theater at the northwest corner of the site, the CitySports building, and the commercial building at the northeast corner of the site will be demolished as part of the project. The project will include up to 3,491 residential units; up to 160,000 sf of retail sales and service use space; up to 96,000 sf of non-retail sales and service use; approximately 63,000 sf of institutional uses; approximately 4,861 parking spaces; and approximately 6 acres of open space.

The project required amendments to the San Francisco General Plan, San Francisco Planning Code and Zoning Map, including the creation of a new special use district and special sign district. The existing height limits of 40 to 65 feet were modified on all parcels other than the mall parcels to allow heights ranging from 30 to 190 feet. The existing 65-foot height limit applicable to the mall parcels was not modified. The project also includes transportation, circulation, and utility infrastructure improvements.

Determinations

The City and County of San Francisco decided to carry out or approve the project on August 1, 2024. The Final Environmental Impact Report (FEIR) was certified on May 9, 2024 by the San Francisco Planning Commission. The deadline to file an appeal of the FEIR certification was June 10, 2024; no appeals were filed. The FEIR and record of project approval may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103, under case number 2021-012028ENV.

1. An Environmental Impact Report has been prepared pursuant to the provisions of CEQA. It is available to the public and may be examined at the Planning Department at the above address.
2. A determination has been made that the project in its approved form will have a significant effect on the environment.
3. Mitigation measures were made a condition of project approval for the project.
4. A mitigation and monitoring reporting program was adopted for this project.
5. A statement of overriding considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.
