STOP CRIME SF: AMENDMENTS

1. Exclude SFO and the Port and the Giants's Stadium and large crowd events from certain requirements. They are uniquely vulnerable.
2. Require funding in each year's budget. Don't create unfunded mandates.
3. Require a cost benefit analysis of any reasonable alternatives to security technology. What does it cost the public and the City?
4. Exclude sharing of surveillance evidence from residents and businesses with the SFPD and DA. Your ordinance prohibits "entering into agreement with any non-city entity to acquire, share or other use surveillance technology."
5. Create a 1-year sunset clause if you prohibit facial recognition technology, which is rapidly improving.
6. Don't prohibit acquisition and use of police body cameras, or use of security tech in the jails.
7. Other suggestions are in our letter to the Board from 2 weeks ago.
