#### ENVIRONMENTAL REVIEW

The Major Environmental Analysis section of the Planning Department completed Environmental Review of the Mission Bay Final Subsequent Environmental Impact Report (FSEIR). The FSEIR included analysis of regulatory and physical aspects of the Plan, including: the vacation of public rights-of-way, property acquisition, acceptance of offers of dedication of land for road rights-of-way, and acceptance of offers of Dedication of horizontal improvements (street and public rights-of-way, stormwater and sanitary sewer pump stations), among other actions.

The Final Subsequent Environmental Impact Report for Mission Bay (FSEIR) was prepared pursuant to the California Environmental Quality Act and was certified as adequate, accurate and objective in the following actions:

1. Redevelopment Commission Resolution No. 182-98 on 9/17/1998
2. Planning Commission Case 1996.771E, Resolution No. 14696 on 9/17/1998, certifying the FSEIR
3. Board of Supervisors affirmed the Planning Commission's certification of the EIR by Resolution No. 854-98 on 10/19/1998.
4. Redevelopment Agency issued Addendum #6 to the FSEIR on 9/10/2008.
5. All of the projects included and referenced as part of this Project were analyzed in the FSEIR and Addendum # 6; it is available for review in the subject case docket (Exhibit J).

The Environmental Planning Section of the Planning Department determined that further Environmental Analysis is not required, as the subject project (acceptance real property and acceptance of dedication of public infrastructure including the referenced project) was analyzed as part of the FSEIR certified by the Planning Commission and affirmed by the Board of Supervisors, as amended by subsequent Addenda. In addition, acceptance of infrastructure improvements (non-physical actions) is exempt from further environmental review, pursuant to Sec. 15060(c) (2) of CEQA guidelines.

Att. 1 Project Description, listing all project elements, including acceptance of land and acceptance and dedication of Public Infrastructure. Attachment 1 provides a list of the Exhibits contained in Planning Department Case 2011.1139R docket, available for review at the Planning Department offices.

PLANNING CODE SECTION 101.1(B) PROVISIONS- EIGHT PRIORITY POLICIES

Planning Code Section 101.1(b) establishes the following eight priority planning policies and requires review of permits for consistency with said policies. The subject project is found to be consistent with the Eight Priority Policies of Planning Code Section 101.1(b) in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced.  
*The project would not affect neighborhood serving retail uses or opportunities for employment in or ownership of such businesses.*
2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.  
*The Project would not affect the City's housing stock or neighborhood character.*
3. That the City's supply of affordable housing be preserved and enhanced.  
*The Project in itself (accepting real property and infrastructure improvements) would have no effect on the City's supply of affordable housing. Implementation of the Mission Bay North and South Redevelopment Plans, as adopted and approval of the Project actions would ultimately result in increasing the City's supply of affordable housing through adherence to the Community Redevelopment Law that requires at least 15% of all new and substantially rehabilitated dwelling units developed within the Project Area be affordable and occupied by, persons and families of low- or moderate income as defined by the California Health and Safety Code.*
4. That commuter traffic not impede Muni transit service or overburden our streets or neighborhood parking.  
*The Project would not adversely impede MUNI transit service or overburden city streets and neighborhood parking. The land proposed to be accepted by the City and infrastructure improvements proposed to be accepted and dedicated for public use have been designed and constructed consistent with approved plans for the Mission Bay Redevelopment Project Area. The public rights-of-way and related infrastructure proposed to be accepted for public dedication have been designed to accommodate all users and would enhance a mix of transportation modes.*
5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced.  
*The Project would not affect the industrial or service sectors or future opportunities for resident employment or ownership in these sectors. The property was once the site of rail yards and related development; however, it has subsequently been vacant*
6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.  
*The Project, limited to acquisition of real property and acceptance of public infrastructure improvements (once constructed consistent with approved plans) would not adversely affect City preparedness against injury or loss of*

*life in an earthquake. All development would be constructed consistent with current Building and Seismic Codes and regulations.*

*The Project would not negatively affect preparedness against injury and loss of life in an earthquake.*

7. That landmarks and historic buildings be preserved.

*The Project would not affect any landmark or historic buildings.*

8. That our parks and open space and their access to sunlight and vistas be protected from development.

*The Project includes acceptance and dedication of real property and infrastructure improvements including streets and related infrastructure and landscape improvements. The project would have no adverse effect on parks and open space or their access to sunlight and vistas.*
