1 anticipation notes) (in one or more series from time to time by the Commission pursuant to 2 Proposition E and in accordance with the Commission Resolution, in an aggregate principal 3 amount not to exceed \$1,054,138,857 (inclusive of financing costs), bearing a maximum rate 4 or rates of interest of not to exceed twelve percent (12%) per annum, to finance a portion of 5 the costs of the design, acquisition and construction of the Capital Improvement Projects. 6 Without limiting the foregoing, the Commission shall also be authorized to incur State and 7 Federal Loans at such time, in such amounts, and upon such other terms and conditions as 8 the Commission may deem advantageous, and to approve any financing documentation 9 related thereto consistent with this Ordinance. The Commission is hereby further authorized 10 to determine the timing, amount and manner of sale (i.e., competitive or negotiated) of, or borrowing under each, series of Water Revenue Bonds, bond anticipation notes, revolving 11 12 credit agreements, commercial paper, or State or Federal Loan pursuant to this authorization; 13 provided however, the Commission's authorization to issue Water Revenue Bonds, bond 14 anticipation notes, revolving credit agreements, or commercial paper, or to borrow under a 15 State Loan or Federal Loan, is subject to approval by the Commission of the form of 16 substantially final offering document related to such obligations (if any) and the approval of 17 any related agreements, financing documents and the filing with its Board and the Clerk of the 18 Board any certifications required by Proposition E prior to the issuance of any bonds or 19 incurrence of any indebtedness herein authorized. The Commission shall also file, within 30 20 days of closing any Water Revenue Bond or other form of indebtedness (including State and 21 Federal Loans and bond anticipation notes) transactions authorized hereby, with the Clerk of 22 the Board of Supervisors, a report showing the results of the transaction, including (i) principal 23 amount sold and method of sale, (ii) true interest cost, (iii) final maturity, (iv) the facilities 24 constructed and/or improved, and (v) a statement about the remaining bonding authorization

under this Ordinance ("Bond Report"), provided that the failure to file such Bond Report shall
 not affect the validity of any debt authorized hereunder.

3 Section 3. Authorization to Issue Water Revenue Refunding Bonds; Commercial
4 Paper Retirement.

5 Notwithstanding Section 2, the Board further authorizes and approves the issuance by 6 the Commission of Water Revenue Refunding Bonds ("Refunding Bonds") without limitation 7 as to principal amount, in one or more series on one or more dates, at a maximum interest 8 rate or rates of interest not to exceed twelve percent (12%) per annum, provided that each 9 such Refunding Bond issue is permitted under the applicable policies and procedures of the 10 City and authorized by Section 9.109 and Article VIIIB of the Charter (including related ordinances and resolutions of the Board). The Refunding Bonds may be issued as taxable or 11 12 tax-exempt obligations, or any combination of such obligations. Refunding Bonds authorized 13 hereunder shall be subject to the further following conditions, that: (i) three percent (3%) net 14 present value debt service savings or greater is achieved to ensure ratepayer savings 15 (exclusive of any issuance to refund commercial paper, revolving credit notes, or bond 16 anticipation notes); (ii) that the maturity of the refunded bonds is not extended (exclusive of 17 any issuance to refund commercial paper, revolving credit notes, or bond anticipation notes); 18 (iii) this authorization is subject to a 5-year term through June 30, 2030, at which time this 19 Board may consider an extension; (iv) principal payments and term may be adjusted, where 20 permitted under federal and state tax law, only if and when the underlying capital asset funded 21 through said refunded bonds has a useful life not in excess of any limit permitted under 22 federal and state tax law than the refunded term; and (v) the Commission shall within 30 days 23 of any executed refunding transaction provide a refunding savings report ("Bond Refunding 24 Savings Report") (that reflects at least a three percent (3%) net present value debt service savings) to the Board, together with a copy of the final Official Statement (if any) with respect 25

1 to such series of Refunding Bonds, provided that the failure to deliver such Bond Refunding 2 Savings Report shall in no way affect the validity of any Refunding Bonds. Notwithstanding 3 the foregoing, the Commission is authorized to issue Refunding Bonds that do not meet all of the foregoing conditions provided that the Commission makes a finding, by resolution, that 4 5 significant non-economic factors exist that justify the waiver of the three percent (3%) net 6 present value debt service savings test and other conditions set forth above. Such non-7 economic factors may include, by way of illustration and not limitation, eliminating onerous 8 covenants and obsolete provisions contained in the Commission's indenture or other security 9 documents, risk mitigation, or restructuring a series of bonds in response to then-current 10 market conditions. In furtherance of the purpose of managing the Commission's outstanding indebtedness, the General Manager of the Commission ("General Manager") is hereby 11 12 authorized to use Available Water Enterprise Revenues and other funds as appropriate to 13 retire outstanding Water Enterprise Commercial Paper and other forms of indebtedness at 14 such times and in such amounts advantageous to the Commission.

15

Section 4. Declaration of Official Intent.

16 The Board, on behalf of the Commission, hereby declares the official intent of the 17 Commission to reimburse the Commission with proceeds of the Water Revenue Bonds or 18 other forms of indebtedness (including State or Federal Loans, commercial paper, revolving 19 credit notes, or bond anticipation notes) for the Expenditures with respect to the Capital 20 Improvement Projects made on and after a date that is no more than 60 days prior to the 21 adoption of this Ordinance. The Commission reasonably expects that it will reimburse the Expenditures with proceeds of the Water Revenue Bonds or other forms of indebtedness 22 23 (including, without limitation and for illustrative purposes only, State or Federal Loans, 24 commercial paper, revolving credit notes or bond anticipation notes). Each Expenditure was and will be either (A) of a type properly chargeable to a capital account under general federal 25

1 income tax principles (determined in each case as of the date of the Expenditure), (B) a cost 2 of issuance or capitalized interest with respect to such obligations, (C) a nonrecurring item 3 that is not customarily payable from current revenues, or (D) a grant to pay a party that is not 4 related to or an agent of the issuer so long as such grant does not impose any obligation or 5 condition (directly or indirectly) to repay any amount to or for the benefit of the Commission. 6 The Commission will make a reimbursement allocation, which is a written allocation by the 7 Issuer that evidences the Commission's use of proceeds of the Water Revenue Bonds or 8 other forms of indebtedness to reimburse an Expenditure, no later than 18 months after the 9 later of the date on which the Expenditure is paid or the component of the Capital 10 Improvement Projects is placed in service or abandoned, but in no event more than three years after the date on which the Expenditure is paid. The Commission recognizes that 11 12 exceptions are available for certain "preliminary expenditures," costs of issuance, certain de 13 minimis amounts, expenditures by "small issuers" (based on the year of issuance and not the year of expenditure) and expenditures for construction projects of at least five years. 14

15

Section 5. General Authority.

The Controller of the City ("Controller"), Treasurer of the City ("Treasurer"), the City 16 17 Attorney and other officers of the City, including the Director of the Office of Public Finance, 18 and their duly authorized deputies and agents are hereby authorized and directed, jointly and 19 severally, to take such actions and to execute and deliver such certificates, agreements, 20 requests or other documents, as they may deem necessary or desirable to facilitate the 21 issuance, sale and delivery of the Water Revenue Bonds or other forms of indebtedness, 22 including Refunding Bonds or State or Federal Loans, and to obtain bond insurance or other 23 credit or liquidity enhancements with respect to any such obligations, and otherwise to carry 24 out the provisions of this Ordinance. The Commission is hereby directed to provide the final form to the Clerk of the Board of any disclosure document prepared in connection with the 25

1 execution of any Water Revenue Bonds, other forms of indebtedness, or Refunding Bonds, 2 and the final executed Installment Sale Agreement or other document reflecting the 3 incurrence of a State or Federal Loan, within 30 days of the closing of such transactions provided that the failure to deliver such document shall not affect the validity of the 4 obligations authorized under this Ordinance. The Commission is further directed as a part of 5 6 the two-year budget review to provide to this Board of Supervisors a written report about 7 Water Revenue Bonds authorized hereunder, detailing the total amount authorized, the total 8 amount sold, the remaining authorized but unissued amount, and the bond authorization no 9 longer necessary due to changes in projects and project financing.

10

Section 6. Ratification of Prior Actions.

All actions authorized and directed by this Ordinance in connection with the issuance of the Water Revenue Bonds, other forms of indebtedness (including, without limitation and for illustrative purposes only, SRF Loans, federal loan, commercial paper, revolving credit notes, or bond anticipation notes) or Refunding Bonds and taken prior to the enactment of this Ordinance are hereby ratified, approved and confirmed by this Board.

REVISED LEGISLATIVE DIGEST

(Amended in Committee, 6/13/2025)

[San Francisco Public Utilities Commission Water Revenue Bond and Other Forms of Indebtedness Issuance - Not to Exceed \$1,054,138,857]

Ordinance authorizing the issuance and sale of tax-exempt or taxable Water Revenue Bonds and other forms of indebtedness by the San Francisco Public Utilities Commission ("Commission") in an aggregate principal amount not to exceed \$1,054,138,857 to finance the costs of various capital water and Hetch Hetchy Water projects benefitting the Water Enterprise pursuant to amendments to the San Francisco Charter enacted by the voters on November 5, 2002, as Proposition E; authorizing the issuance of Water Revenue Refunding Bonds and the retirement of outstanding Water Enterprise Commercial Paper; declaring the Official Intent of the Commission to reimburse itself with one or more issues of tax-exempt bonds or other forms of indebtedness; and ratifying previous actions taken in connection with the previously listed matters.

Existing Law

This is new law.

Background Information

On November 5, 2002, the voters of the City and County of San Francisco approved Proposition E ("Proposition E") which authorized the San Francisco Public Utilities Commission ("Commission") to issue revenue bonds, including notes, commercial paper or other forms of indebtedness, when authorized by ordinance approved by a two-thirds vote of the Board of Supervisors, for the purpose of reconstructing, replacing, expanding, repairing or improving water facilities or clean water facilities or combinations of water and clean water facilities under the jurisdiction of the Commission.

The proposed Ordinance authorizes the issuance of tax-exempt or taxable Water Revenue Bonds and other forms of indebtedness, including State and Federal Loans, in an amount not to exceed \$1,054,138,857. Proceeds of the Water Revenue Bonds and other forms of indebtedness, including State and Federal Loans (such as WIFIA Loans and CWIFP Loans), will be used to finance the costs of various capital projects benefitting the Water Enterprise ("Capital Improvement Projects"). The Ordinance also reflects the Water commercial paper program, available in an aggregate principal amount not to exceed \$750 million of commercial paper notes outstanding at any one time. The Water Revenue Bonds will be issued under an Amended and Restated Water Indenture dated as of January 1, 2002, as further amended and supplemented from time to time ("Indenture"), between the Commission and U.S. Bank National Association, as the trustee.

The proposed Ordinance also authorizes the issuance of Refunding Water Revenue Bonds to refund outstanding indebtedness of the Water Enterprise subject to the following conditions, among others (i) three percent (3%) net present value debt service savings or greater is achieved; (ii) the maturity of the refunded bonds is not extended; and (iii) the refunding authorization sunsets on June 30, 2030, unless extended by the Commission. Staff is required to provide a savings report within 30 days following the bond sale.

The proposed Ordinance also authorizes the Commission to issue Refunding Bonds for noneconomic factors which may include, by way of illustration, eliminating onerous covenants and obsolete provisions contained in the Commission's Indenture or other security documents, risk mitigation, or restructuring a series of bonds in response to then-current market conditions.

MANDATE STATEMENT

Charter Section 8B.124 states that the Public Utilities Commission is authorized to issue revenue bonds and other forms of indebtedness, when authorized by two-thirds vote of the Board of Supervisors.

Charter Section F1.113 states that 0.2 percent of the City's budget, excluding bond debt, must be set-aside for the Controller's audit fund.

City Charter Section 9.101 provides for two-year budgets and authorizes the Board of Supervisors to determine by resolution which budgets are on a two-year fixed budget. Section 9.101(g) provides for the Mayor to submit an ordinance to the Board of Supervisors, amending the second-year budgets of City departments with fixed two-year budgets, if the Controller projects that the City will experience significant increases or decreases in revenues or expenditures during the second year of such budgetary cycle.

File 23-1196 approved fixed two-year budgets for the Airport, Port, and Public Utilities Commission for FY 2024-25 and FY 2025-26 and defined "significant" budget changes as a five percent or more change in revenues or expenditures in non-General Fund funds and 2.5 percent change in General Fund funds.

City Charter Section 9.105 states that amendments to the Annual Appropriations Ordinance, after the Controller certifies the availability of funds, are subject to Board of Supervisors approval by ordinance.

BACKGROUND

The Public Utilities Commission (PUC) plans its capital spending over two- and ten-year time frames. The two-year capital budget accompanies the PUC's two-year operating budget and both two-year spending plans are subject to Board of Supervisors approval. In June 2024, the Board of Supervisors approved the SFPUC two-year FY 2024-25 and FY 2025-26 capital budget (File 24-0452). PUC capital projects are primarily funded by revenue bonds and operating revenue. Exhibit 1 below shows the PUC approved 10-year capital plan for each enterprise.

10-Year Financial Plan

According to the PUC's 10-Year Financial Plan for FY 2025-26 – FY 2034-35, ratings agencies expressed concern about the forecast of debt service coverage in the Water and Wastewater Enterprises, and the potential depletion of reserves. According to PUC staff, the projected decrease in debt service coverage was still in compliance with the agency's financial policies. In 2024, S&P Global Ratings affirmed the Wastewater Enterprise's AA rating but lowered the outlook of the Wastewater Enterprise bonds from "stable" to "negative". Maintaining high bond ratings allows the PUC to access lower interest rates on revenue bonds, lowering borrowing costs and annual debt service. Additionally, PUC is required by charter section 8B.125 to "Establish rates, fees and charges at levels sufficient to improve or maintain financial condition and bond ratings at or above levels equivalent to highly rated utilities of each enterprise".

As a result of the ratings concerns, and as a result of lower volume forecasts, the PUC made changes to its 10-Year Financial Plan and plans to raise projected rates in the Water, Wastewater, and Power Enterprises to enhance forecasted debt service coverage and reserves. The PUC is also proposing to make changes to the funding sources for its two-year capital budget for the Water Enterprise. Specifically, the PUC is proposing to offset approximately \$14 million in revenue funding for water capital projects with debt through the issuance of additional corresponding Water Revenue Bonds in order to optimize debt service coverage in the budget and in future years.

Rating agencies affirmed the Water Enterprise's credit rating and stable outlook in March 2025, subsequent to the adoption of the 10-Year Financial Plan.

DETAILS OF PROPOSED LEGISLATION

File 25-0600 is an ordinance that appropriates and de-appropriates funding for the SFPUC's capital projects budget for a net de-appropriation of \$86,916, with no change to capital project expenditure budgets.

File 25-0602 is an ordinance that de-appropriates \$12,990,064 from SFPUC's operating budget in FY 2025-26.

File 25-0601 is an ordinance (a) authorizing the issuance and sale of tax-exempt or taxable Water Revenue Bonds by the San Francisco Public Utilities Commission (SFPUC) in an aggregate principal amount not to exceed \$1,054,138,857 to finance the costs of Water Enterprise capital projects; (b) authorizing the issuance of Water Revenue Refunding Bonds and the retirement of outstanding Water Enterprise Commercial Paper; (c) declaring the intent of SFPUC to reimburse itself with one or more issues of tax-exempt bonds or other forms of indebtedness; and (d) ratifying previous actions taken in connection with the issuance.

Capital Budget Sources Appropriation Changes (File 25-0600)

As mentioned above, the PUC is proposing changes to its capital budget to change the mix of revenue and debt funding sources for projects in order to optimize for financial policy goals regarding rate changes, debt service coverage and reserve levels. There are no changes to the

SAN FRANCISCO BOARD OF SUPERVISORS

adopted capital project expenditure budget. As shown below, the overall change in funding is a reduction in \$86,916, which is not material across a \$1.8 billion budget. The PUC is proposing to offset approximately \$14.1 million in revenue funding for additional bond funding for the Water and Hetch Hetchy Water Enterprises and conversely to offset approximately \$5.2 million in bond funding for revenue funding for revenue funding for the Hetch Hetchy Power Enterprise.

Despite the proposed increase in debt funding in FY 2025-26, over the 10 Year Financial Planning period, PUC is overall decreasing its reliance on debt funding as part of its efforts to enhance its financial sustainability policy metrics over time. The latest plan projects 29 percent revenue funding vs. 22 percent in the prior version of the 10-year plan, exceeding the PUC's minimum policy target of 15 percent according to PUC staff.

Exhibit 2: Capital Budget Sources De-Appropriation and Appropriation Changes

Water Enterprise and Hetch Hetchy Water

As part of the PUC's 10-Year Financial Plan for FY 2025-26 – FY 2034-35, the PUC revised water and wastewater volume forecasts down, mainly due to slower post-pandemic and drought recovery. In addition, as explained above, due to rating agency concerns about weak financial metrics, PUC built in an additional buffer in revenue projections to improve debt service coverage and reserves metrics. Lastly, the mix of debt vs. revenue funding for capital projects was adjusted across the 10 year forecast window to optimize for annual rate changes, debt service coverage and reserve levels in each year. This optimization of debt vs. revenue funding resulted in a reduction in the revenue contribution for capital projects of \$12.6 million in the Water Enterprise and \$1.5 million in the Hetch Hetchy Water Enterprise, for a total reduction of \$14.1 million in water revenues going to capital in FY 2025-26. The PUC is proposing to offset this reduction in revenue funding with additional water revenue bond funding for capital projects in these enterprises, including an increase of \$12.8 million in the Water Enterprise and an increase of \$1.5 million in Hetch Hetchy Water.

The Water Enterprise provides both regional water conveyance and local (in-city) water distribution.¹ The changes in funding for local water capital projects are offsetting changes in funding for regional water capital projects. Revenue funding for regional water projects is increasing by \$15.0 million (and is being offset by lower bond funding) due to the same reason as above. The PUC made changes in the 10-year financial plan to optimize for annual rate changes, debt service coverage and reserve levels in each year. Revenue funding for local water projects is decreasing by \$27.6 million (and is being offset by increased bond funding).

Power Enterprise

According to PUC staff, PUC is proposing to increase appropriations for power revenues for Hetch Hetchy Power Enterprise capital projects by \$5.3 million, again to optimize for debt vs. revenue funding for capital projects. This increase in revenue funding is offset by a proposed reduction in power revenue bond funding of \$5.5 million.

Operating Budget Appropriation Changes (File 25-0602)

The proposed ordinance that de-appropriates approximately \$13 million from the PUC's FY 2025-26 operating budget reflects the proposed changes to the capital budget. The proposed ordinance includes reductions in transfers of water revenues to capital projects.

Water Revenue Bond Issuance (File 25-0601)

In June 2024, the Board of Supervisors approved the issuance of \$1,040,007,350 of new Water Revenue Bonds to finance capital projects in the two-year capital budget (File 24-0455). According to PUC staff, the proposed ordinance updates the amount of the prior authorization to \$1,054,138,857, an increase of \$14.1 million, rather than authorizing an additional \$1.054 billion in water revenue bonds. However, this is not clearly stated in the ordinance. We recommend that the Board of Supervisors amend the proposed ordinance to clarify that the proposed authorization increases the aggregate principal amount of water revenue bonds by \$14,131,507.

¹ The regional water system includes the New Irvington Tunnel conveying water from the Hetch Hetchy Reservoir, the San Antonio and Calaveras Reservoirs in Alameda County, and the San Andreas and Crystal Springs Reservoirs on the Peninsula. The in-city distribution system is a series of pipelines that distributes water from the regional water system to residences and businesses in San Francisco

The PUC is proposing to increase the amount of water revenue bonds to offset a reduction in revenue funding for Water capital projects, as discussed above. File 25-0600 appropriates the proposed increase in water revenue bonds for water capital projects.

The proposed ordinance allows the issuance of commercial paper or other interim debt to finance the projects prior to the issuance of the revenue bonds and provide for SFPUC to access California Water Resources Control Board revolving loan funds or grant funds.

The SFPUC may issue taxable or tax-exempt bonds in one or more series through either a negotiated or competitive sale. Each bond authorization ordinance requires the SFPUC to report to the Board of Supervisors within 30 days of the bond issuance: (i) the principal amount sold and method of sale, (ii) true interest cost, (iii) final maturity, (iv) the facilities constructed and/or improved, and (v) a statement about the remaining bonding authorization.

In addition, the SFPUC may issue refunding bonds to repay outstanding Revenue Bond debt if the issuance of the refunding bonds results in net present value debt service savings of 3 percent and does not extend the maturity date. If the SFPUC issues refunding bonds, then the SFPUC needs to submit to the Board of Supervisors the final official statement for the refunding bonds and a statement from the financial advisor on the 3 percent net present value debt service savings. The Commission may also authorize refunding bonds if other benefits accrue. The authorization to issue refunding bonds extends through June 2030.

Proposition E Bond Funds

San Francisco voters approved Proposition E in 2002 and Proposition A in 2018, providing for the Board of Supervisors to authorize issuance of Water, Power, Wastewater Revenue Bonds and other forms of debt with two-thirds approval of the Board members. As shown below in Exhibit 3, the Board has authorized \$15.24 billion, of which \$10.73 billion has been issued and \$4.51 billion is authorized but not issued.

Approval of the proposed bond authorization ordinance would increase the amount of bonds authorized in accordance with Proposition E to \$15.25 billion. The SFPUC plans to issue approximately \$10.28 billion in revenue bonds between FY 2025-26 to FY 2034-25, as per their 10-year Financial Plan (amounts are preliminary and subject to change due to market conditions and actual project spending).
