Re: File No. 170456

Hearing on the San Francisco Groundwater Supply Project, the safety of the drinking water, and testing standards; and requesting the San Francisco Public Utilities Commission to report. [sponsors: Norman Yee, Jeff Sheehy, Ahsha Safai, Mark Farrell]

I have an elaborate water filter system attached to my kitchen faucet, so have not noticed any change in the taste or smell of the water since groundwater blending started in my neighborhood (Cole Valley) mid-April. But my cats sure noticed the quality had changed!

I have two water bowls for the cats: one in a bedroom filled with water from the bathroom tap, and another in the living room filled with filtered kitchen tap water. They used to drink from the bedroom bowl the most but now won't touch it, starting mid-April. None of the cats will drink water that comes from the bathroom unfiltered tap anymore. They all come into the living room to use the bowl that is filled with filtered tap water.

So that's the only proof I need to ask the Supervisors to please force the PUC to stop adding groundwater to our SF water since it clearly (to my sensitive cats' noses anyway) has lowered the quality of our drinking water.

--Paula Kotakis, Cole Valley
