21 Be it ordained by the People of the City and County of San Francisco:

22 Section 1. Environmental and Land Use Findings.

23 (a) The Planning Department has determined that the actions contemplated in this
24 ordinance comply with the California Environmental Quality Act (California Public Resources
25 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
Supervisors in File No. 250886 and is incorporated herein by reference. The Board affirms

1 this determination.

2 (b) On October 23, 2025, the Planning Commission, in Resolution No. 21853,
3 adopted findings that the actions contemplated in this ordinance are consistent, on balance,
4 with the City's General Plan and eight priority policies of Planning Code Section 101.1. The
5 Board adopts these findings as its own. A copy of said Resolution is on file with the Clerk of
6 the Board of Supervisors in File No. 250886 and is incorporated herein by reference.

7 (c) Pursuant to Planning Code Section 302, this Board finds that this Planning Code
8 amendment will serve the public necessity, convenience, and welfare for the reasons set forth
9 in Planning Commission Resolution No. 21853, and the Board incorporates such reasons
10 herein by reference.

11

12 Section 2. General Findings.

13 (a) The Planning Code offers certain historic properties additional use flexibility in a
14 limited number of districts through three separate programs with varying eligibility and
15 approval criteria. These programs apply to Residential Districts (Section 186.3), Eastern
16 Neighborhood Mixed Use Districts (Section 803.9), the Residential-Commercial District, and
17 the Folsom Street Neighborhood Commercial Transit District (Section 703.9).

18 (b) Offering additional flexibility for the uses that may occupy historic buildings is an
19 existing tool for supporting the economic viability of buildings of historic importance. Historic
20 buildings are subject to additional protections under Articles 10 and 11 of the Planning Code
21 and/or the California Environmental Quality Act that restrict renovations and alterations to
22 character-defining features. This means that historic buildings are often more constrained in
23 the type of uses and businesses that they can accommodate compared to non-historic
24 buildings because the physical form of a historic building is less flexible. To counterbalance
25 the physical limitations that apply to historic properties, this ordinance offers historic buildings

1 greater use flexibility to support their economic viability and continued preservation.

2 (c) A significant concentration of historic buildings are located within the Mission
3 District, which has been the focus of multiple Citywide efforts to address the retention of low-
4 and moderate-income residents, organizations, and businesses, including the Planning
5 Department’s Mission Action Plan (“MAP2020”), launched in 2014, and the latest iteration of
6 the Mission Action Plan (“MAP2030”), endorsed by the Planning Commission in December
7 2024, each of which aim to preserve the district’s socioeconomic and cultural diversity and
8 prioritize the presence of community-serving uses in the Mission District.

9 (d) This ordinance allows historic buildings throughout the City to benefit from
10 additional use flexibility and consolidates these allowances into a single program. It creates a
11 consistent standard for building eligibility and applicable approval process. The types of uses
12 permitted or conditionally permitted vary by zoning district based on the characteristics of
13 each district. Additionally, certain uses are excluded from the program entirely or in certain
14 areas. This ordinance offers the consistency of a single program, while recognizing the unique
15 character of each district, thus balancing the benefits of historic preservation and economic
16 development with the goals of community stability.

17
18 Section 23. Articles 1.2, 1.7, 2, 3, 7, and 8 of the Planning Code are hereby amended
19 by adding Sections 202.11 and 205.8; revising Sections 136.1, 209.1, 209.2, 209.3, 209.4,

1 Section 56. ~~Proposition X, Planning Code Section 202.8, and Two-Thirds Vote~~
2 ~~Approval Requirement.~~

3 Section 4 of this ordinance amends Planning Code Section 202.8. In November 2016,
4 the voters of San Francisco approved Proposition X, which added Section 202.8 to the
5 Planning Code, regarding conversion of PDR, Institutional Community, and Arts Activities
6 uses in certain districts. Subsection 202.8(i) provides that the Board of Supervisors “by
7 ordinance and by at least a two-thirds vote of all its members” may amend Section 202.8.

8 The amendments shown in Section 5 of this ordinance result in no change to the
9 existing text of Planning Code Section 202.8. Portions of Section 202.8 previously marked for
10 deletion in the version of the ordinance originally introduced (ordinance version 1) were
11 restored by Land Use and Transportation Committee amendments (ordinance version 2).
12 Accordingly, the two-thirds vote requirement in Proposition X (2016) does not apply to this
13 ordinance.

14
15 Section 7. Formatting of Ordinance; Explanation of Fonts.

16 (a) This ordinance was introduced at the Board of Supervisors on September 2, 2025,
17 in Board File No. 250886, and was amended by the Land Use and Transportation Committee
18 on February 23, 2026.

19 (b) As the ordinance in File No. 250886 proceeded through the legislative process,
20 other ordinances addressing some of the same Planning Code sections amended in this
21 ordinance were enacted and considered by the Board of Supervisors, including the
22 ordinances in Board File Nos. 250701 and 251099 (the “Recent Ordinances”).

23 (c) To clearly understand the proposed amendments to existing law, the ordinance
24 shows in "existing text" font (plain Arial) the law currently in effect, as amended by the Recent
25 Ordinances, that became effective after this ordinance in Board File No. 250886 was first

1 introduced. Code text that was deleted by the Recent Ordinances has been omitted from this
2 ordinance. This ordinance shows in “Board amendment” font all amendments to existing law
3 (as enacted by the Recent Ordinances) made after the ordinance was introduced.

4
5 Section 68. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors
6 intends to amend only those words, phrases, paragraphs, subsections, sections, articles,
7 numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal
8 Code that are explicitly shown in this ordinance as additions, deletions, Board amendment
9 additions, and Board amendment deletions in accordance with the “Note” that appears under
10 the official title of the ordinance. An exception to this general principle is Section 34 of this
11 ordinance, which in a different manner provides for amendment of the Planning Code.

12
13 Section 79. Effective Date. This ordinance shall become effective at 12:00 a.m. on the
14 31st day after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor
15 returns the ordinance unsigned or does not sign the ordinance within 10 days of receiving it,
16 or the Board of Supervisors overrides the Mayor’s veto of the ordinance.

REVISED LEGISLATIVE DIGEST
(Amended in Committee – February 23, 2026)

[Planning Code - Adaptive Reuse of Historic Buildings]

Ordinance amending the Planning Code to allow additional uses as principally or conditionally permitted in Historic Buildings citywide, and make conforming amendments to provisions affected by the foregoing, including zoning control tables; affirming the Planning Department’s determination under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1, and making findings of public necessity, convenience, and general welfare under Planning Code, Section 302

Existing Law

The Planning Code establishes which land uses are permitted, conditionally permitted, or not permitted in each zoning district in San Francisco. The zoning controls are different for each district, with the controls for individual uses typically shown in a comprehensive Zoning Control Table. In some residential, neighborhood commercial, and mixed use districts, additional uses are permitted or conditionally permitted if the subject property is a certain type of Historic Building.

Procedures regarding historic preservation are provided in Article 10 of the Planning Code. Section 310 of the Planning Code specifies that Article 10 has its own procedures, and that the procedures of Article 3 do not apply to Article 10.

Amendments to Current Law

This ordinance modifies which uses are permitted, conditionally permitted, or not permitted in each zoning district, where the subject property is a Historic Building. Generally, the ordinance makes uses more permissive in Historic Buildings, to encourage and improve the feasibility of projects for adaptive reuse of Historic Buildings, provided certain conditions are met.

In specified Residential Districts (RH, RM, and RTO), when located in a Historic Building, any use that is not permitted in the District, but is permitted or conditionally permitted the ground floor in the NC-1 District, is conditionally permitted. In most Eastern Neighborhoods Mixed Use Districts (CMUO, MUG, MUO, MUR, SALI, SPD, UMU, WMUG, and WMUO), Downtown Residential Districts (DTR), Commercial Districts (C-2 and C-3), and the Residential Commercial District (RC), all uses are permitted in Historic Buildings. In RED and RED-MX Districts, Arts Activities, Community Facility, Private Community Facility, Public Facility, School, Social Service or Philanthropic Facility, and Trade School uses are permitted in Historic Buildings; Retail Sales and Services uses and Office uses are conditionally permitted, with limited exceptions. In Neighborhood Commercial Districts, Production, Distribution, and Repair (PDR) Districts, and all other districts, uses that are conditionally permitted are

permitted in a Historic Building; uses that are not permitted are conditionally permitted in a Historic Building.

Certain uses are excluded from these more permissive zoning controls for Historic Buildings, including Industrial uses other than Agricultural and Beverage Processing 1 and Light Manufacturing, Cannabis Retail uses, Hotel uses, and any use that is also a Formula Retail use. In a specified geographic area in the Mission District, the following additional uses are excluded from the more permissive zoning controls: Adult Business, Adult Sex Venue, Bar, Chair and Foot Massage, Cannabis Retail, Electric Vehicle Charging Location, Fleet Charging, Fringe Financial Service, Gym, Hotel, Laboratory, Life Science, Liquor Store, Massage Establishment, Nighttime Entertainment, Office, Private Community Facility, Restaurant, and Tobacco Paraphernalia Establishment.

Additionally, the Planning Director may authorize any Retail Sales and Service or Entertainment, Arts and Recreation use as a temporary use within any vacant Non-Residential space in a Historic Building. The ordinance includes minor amendments to individual districts' Zoning Control Tables and various other sections to reflect the new, more flexible controls for Historic Buildings.

Procedures regarding historic preservation continue to be provided in Article 10 of the Planning Code. Section 310 of the Planning Code, which confirmed that Article 10 has its own procedures, and that the procedures of Article 3 do not apply to Article 10, is unnecessary and is deleted.

Background Information

The Planning Code defines a Historic Building as a building or structure that meets at least one of the following criteria: 1) is individually designated as a landmark under Article 10; 2) is listed as a contributor to an historic district listed in Article 10, or if the historic district does not list contributors, is determined to be a contributor through historic resource review; 3) is a Significant or Contributory Building under Article 11, with a Category I, II, III or IV rating; 4) has been listed or has been determined eligible for listing in the California Register of Historical Resources; or, 5) has been listed or has been determined eligible for listing in the National Register of Historic Places.

This ordinance was originally introduced on September 2, 2025 (Version 1) and was amended by the Land Use and Transportation Committee ("LUTC") on February 23, 2026 (Version 2). Version 1 included an amendment to Section 202.8 regarding PDR replacement space and conditional use authorization; Version 2 removed that amendment. Version 1 excluded Industrial uses other than Agricultural and Beverage Processing 1 and Light Manufacturing from the additional flexibility allowed for Historic Buildings. Version 2 also excludes Cannabis Retail and Hotel uses, and all Formula Retail uses, as well as specified other uses, in a portion of the Mission District.

Adaptive Reuse of Historic Buildings
Board File No. 250886

Planning Commission Action: Adopted a Recommendation for Approval

Dear Ms. Calvillo and Mayor Lurie,

On October 15, 2025 and October 23, 2025, the Historic Preservation and the Planning Commission, respectively, conducted duly noticed public hearings at regularly scheduled meetings to consider the proposed Ordinance, introduced by Mayor Lurie. The proposed ordinance would amend the Planning Code to allow additional uses as principally or conditionally permitted in Historic Buildings citywide, exempt Historic Buildings in certain Eastern Neighborhood Plan Areas from Conditional Use authorization otherwise required to remove Production, Distribution, and Repair (PDR), Institutional Community, and Arts Activities uses, and from providing replacement space for such uses, make conforming amendments to provisions affected by the foregoing, including zoning control tables. At the hearings, both the Historic Preservation Commission and the Planning Commission each adopted a recommendation for approval.

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Please find attached documents relating to the actions of the Commissions. If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

Aaron D. Starr

RESOLUTION ADOPTING A RECOMMENDATION FOR APPROVAL OF A PROPOSED ORDINANCE THAT WOULD AMEND THE PLANNING CODE TO ALLOW ADDITIONAL USES AS PRINCIPALLY OR CONDITIONALLY PERMITTED IN HISTORIC BUILDINGS CITYWIDE, EXEMPT HISTORIC BUILDINGS IN CERTAIN EASTERN NEIGHBORHOOD PLAN AREAS FROM CONDITIONAL USE AUTHORIZATION OTHERWISE REQUIRED TO REMOVE PRODUCTION, DISTRIBUTION, AND REPAIR (PDR), INSTITUTIONAL COMMUNITY, AND ARTS ACTIVITIES USES, AND FROM PROVIDING REPLACEMENT SPACE FOR SUCH USES; AFFIRMING THE PLANNING DEPARTMENT’S DETERMINATION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT; MAKING FINDINGS OF CONSISTENCY WITH THE GENERAL PLAN, AND THE EIGHT PRIORITY POLICIES OF PLANNING CODE, SECTION 101.1; AND MAKING FINDINGS OF PUBLIC NECESSITY, CONVENIENCE, AND WELFARE UNDER PLANNING CODE, SECTION 302.

WHEREAS, on September 2, 2025 Mayor Lurie introduced a proposed Ordinance under Board of Supervisors (hereinafter “Board”) File Number 250886, which would amend various existing Planning Code provisions and create a new Section 202.11 to make uses more permissive in Historic Buildings to improve the feasibility of projects for adaptive reuse, provided certain conditions are met;

WHEREAS, the Historic Preservation Commission (hereinafter “Commission”) conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance on October 15, 2025; and,

WHEREAS, the proposed Ordinance has been determined to be categorically exempt from environmental review under the California Environmental Quality Act Section 15378 and 15060(c); and

WHEREAS, the Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of Department staff and other interested parties; and

WHEREAS, all pertinent documents may be found in the files of the Department, as the Custodian of Records, at 49 South Van Ness Avenue, Suite 1400, San Francisco; and

WHEREAS, the Commission has reviewed the proposed Ordinance; and

WHEREAS, the Commission finds from the facts presented that the public necessity, convenience, and general welfare require the proposed amendment; and

MOVED, that the Commission hereby adopts a **recommendation for approval** of the proposed ordinance. The Commission's proposed recommendation(s) is/are as follows:

Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The Commission finds that the Ordinance's allowance of greater use flexibility and other benefits to Historic Buildings supports their adaptive reuse and activation. This will help to ensure that Historic Buildings do not remain vacant and are instead actively used, maintained, and preserved instead of falling into dereliction. The Ordinance also corrects the piecemeal nature of current use flexibility provisions and their variable standards, simplifying the Planning Code and providing a consistent approach around eligibility and process for all Historic Buildings citywide.

General Plan Compliance

The proposed Ordinance is consistent with the following Objectives and Policies of the General Plan:

URBAN DESIGN ELEMENT

OBJECTIVE 1

CONSERVATION OF RESOURCES WHICH PROVIDE A SENSE OF NATURE, CONTINUITY WITH THE PAST, AND FREEDOM FROM OVERCROWDING.

Policy 2.4

Preserve notable landmarks and areas of historic, architectural or aesthetic value, and promote the preservation of other buildings and features that provide continuity with past development.

By offering greater use flexibility to Historic Buildings, this Ordinance promotes their activation, maintenance, and continued preservation.

COMMERCE AND INDUSTRY ELEMENT

OBJECTIVE 2

MAINTAIN AND ENHANCE A SOUND AND DIVERSE ECONOMIC BASE AND FISCAL STRUCTURE FOR THE CITY.

Policy 2.1

Seek to retain existing commercial and industrial activity and to attract new such activity to the city.

OBJECTIVE 4

IMPROVE THE VIABILITY OF EXISTING INDUSTRY IN THE CITY, THE EQUITABLE DISTRIBUTION OF INFRASTRUCTURE, AND THE ATTRACTIVENESS OF THE CITY AS A LOCATION FOR NEW INDUSTRY.

Policy 4.1

Maintain and enhance a favorable business climate in the city.

The proposed Ordinance allows new commercial activity and other uses in Historic Buildings. This added commercial activity will help maintain a favorable business climate in San Francisco as it adds to the number of spaces available for new uses and activates new spaces that contribute to the economic, social, and cultural vitality of the City.

MISSION AREA PLAN

OBJECTIVE 1.1

STRENGTHEN THE MISSION'S EXISTING MIXED USE CHARACTER, WHILE MAINTAINING THE NEIGHBORHOOD AS A PLACE TO LIVE AND WORK

Policy 1.1.2

Revise land use controls in portions of the Northeast Mission Industrial Zone outside the core industrial area to create new mixed use areas, allowing mixed income housing as a principal use, as well as limited amounts of retail, office, and research and development uses, while protecting against the wholesale displacement of PDR uses.

The proposed Ordinance supports the mixed use character of the Mission District. The loosened use permissions apply exclusively to Historic Buildings, rather than the Mission District as a whole, ensuring that it will only allow for incremental changes to the mix of uses and will not result in the wholesale displacement of PDR uses in the northeast Mission.

OBJECTIVE 3.1

PROMOTE AN URBAN FORM THAT REINFORCES THE MISSION'S DISTINCTIVE PLACE IN THE CITY'S LARGER FORM AND STRENGTHENS ITS PHYSICAL FABRIC AND CHARACTER

Policy 3.1.9

Preserve notable landmarks and areas of historic, architectural or aesthetic value, and promote the preservation of other buildings and features that provide continuity with past development.

CENTRAL SOMA AREA PLAN

OBJECTIVE 7.5

SUPPORT MECHANISMS FOR THE REHABILITATION AND MAINTENANCE OF CULTURAL HERITAGE PROPERTIES

POLICY 7.5.5

Encourage the use of existing strategies and incentives that facilitate the preservation and rehabilitation of designated cultural heritage properties.

DOWNTOWN AREA PLAN

OBJECTIVE 12

CONSERVE RESOURCES THAT PROVIDE CONTINUITY WITH SAN FRANCISCO'S PAST.

POLICY 12.1

Preserve notable landmarks and areas of historic, architectural, or aesthetic value, and promote the preservation of other buildings and features that provide continuity with past development.

The Ordinance will support the historic preservation goals articulated in the above objectives and policies from the Mission, Central SoMa, and Downtown Area Plans. By ensuring that Historic Buildings remain viable for new tenants and new uses, the Ordinance will help to ensure that these buildings remain activated, maintained, and preserved as part of the City's cultural and architectural heritage.

Planning Code Section 101 Findings

The proposed amendments to the Planning Code are consistent with the eight Priority Policies set forth in Section 101.1(b) of the Planning Code in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

The proposed Ordinance would not have a negative effect on neighborhood serving retail uses and will not have a negative effect on opportunities for resident employment in and ownership of neighborhood-serving retail.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

The proposed Ordinance would not have a negative effect on housing or neighborhood character.

3. That the City's supply of affordable housing be preserved and enhanced;

The proposed Ordinance would not have an adverse effect on the City's supply of affordable housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking;

The proposed Ordinance would not result in commuter traffic impeding MUNI transit service or overburdening the streets or neighborhood parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

While the proposed would allow for some office uses in a select few existing industrial buildings with historic designations, the proposed Ordinance would not cause significant displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposed Ordinance would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

The proposed Ordinance would not have an adverse effect on the City's Landmarks and historic buildings and would instead encourage their continued preservation.

8. That our parks and open space and their access to sunlight and vistas be protected from development;

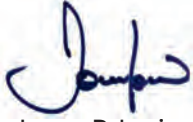

The proposed Ordinance would not have an adverse effect on the City's parks and open space and their access to sunlight and vistas.

Planning Code Section 302 Findings.

The Commission finds from the facts presented that the public necessity, convenience and general welfare require the proposed amendments to the Planning Code as set forth in Section 302.

NOW THEREFORE BE IT RESOLVED that the Commission hereby ADOPTS A RECOMMENDATION FOR APPROVAL of the proposed Ordinance as described in this Resolution.

I hereby certify that the foregoing Resolution was adopted by the Commission at its meeting on October 15, 2025.

RESOLUTION ADOPTING A RECOMMENDATION FOR APPROVAL OF A PROPOSED ORDINANCE THAT WOULD AMEND THE PLANNING CODE TO ALLOW ADDITIONAL USES AS PRINCIPALLY OR CONDITIONALLY PERMITTED IN HISTORIC BUILDINGS CITYWIDE, EXEMPT HISTORIC BUILDINGS IN CERTAIN EASTERN NEIGHBORHOOD PLAN AREAS FROM CONDITIONAL USE AUTHORIZATION OTHERWISE REQUIRED TO REMOVE PRODUCTION, DISTRIBUTION, AND REPAIR (PDR), INSTITUTIONAL COMMUNITY, AND ARTS ACTIVITIES USES, AND FROM PROVIDING REPLACEMENT SPACE FOR SUCH USES; AFFIRMING THE PLANNING DEPARTMENT’S DETERMINATION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT; MAKING FINDINGS OF CONSISTENCY WITH THE GENERAL PLAN, AND THE EIGHT PRIORITY POLICIES OF PLANNING CODE, SECTION 101.1; AND MAKING FINDINGS OF PUBLIC NECESSITY, CONVENIENCE, AND WELFARE UNDER PLANNING CODE, SECTION 302.

WHEREAS, on September 2, 2025, Mayor Lurie introduced a proposed Ordinance under Board of Supervisors (hereinafter “Board”) File Number 250886, which would amend various existing Planning Code provisions and create a new Section 202.11 to make uses more permissive in Historic Buildings to improve the feasibility of projects for adaptive reuse, provided certain conditions are met; and

WHEREAS, the Historic Preservation Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance on October 15, 2025 and adopted a recommendation for approval; and

WHEREAS, the Planning Commission (hereinafter “Commission”) conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance on October 23, 2025; and

WHEREAS, the proposed Ordinance has been determined to be categorically exempt from environmental review under the California Environmental Quality Act Section 15378 and 15060(c); and

WHEREAS, the Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of Department staff and other interested parties; and

WHEREAS, all pertinent documents may be found in the files of the Department, as the Custodian of Records, at 49 South Van Ness Avenue, Suite 1400, San Francisco; and

WHEREAS, the Commission has reviewed the proposed Ordinance; and

WHEREAS, the Commission finds from the facts presented that the public necessity, convenience, and general welfare require the proposed amendment; and

MOVED, that the Commission hereby adopts a **recommendation for approval** of the proposed ordinance. The Commission's proposed recommendation(s) is/are as follows:

Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The Commission finds that the Ordinance's allowance of greater use flexibility and other benefits to Historic Buildings supports their adaptive reuse and activation. This will help to ensure that Historic Buildings do not remain vacant and are instead actively used, maintained, and preserved instead of falling into dereliction. The Ordinance also corrects the piecemeal nature of current use flexibility provisions and their variable standards, simplifying the Planning Code and providing a consistent approach around eligibility and process for all Historic Buildings citywide.

General Plan Compliance

The proposed Ordinance is consistent with the following Objectives and Policies of the General Plan:

URBAN DESIGN ELEMENT

OBJECTIVE 1

CONSERVATION OF RESOURCES WHICH PROVIDE A SENSE OF NATURE, CONTINUITY WITH THE PAST, AND FREEDOM FROM OVERCROWDING.

Policy 2.4

Preserve notable landmarks and areas of historic, architectural or aesthetic value, and promote the preservation of other buildings and features that provide continuity with past development.

By offering greater use flexibility to Historic Buildings, this Ordinance promotes their activation, maintenance, and continued preservation.

COMMERCE AND INDUSTRY ELEMENT

OBJECTIVE 2

MAINTAIN AND ENHANCE A SOUND AND DIVERSE ECONOMIC BASE AND FISCAL STRUCTURE FOR THE CITY.

Policy 2.1

Seek to retain existing commercial and industrial activity and to attract new such activity to the city.

OBJECTIVE 4

IMPROVE THE VIABILITY OF EXISTING INDUSTRY IN THE CITY, THE EQUITABLE DISTRIBUTION OF INFRASTRUCTURE, AND THE ATTRACTIVENESS OF THE CITY AS A LOCATION FOR NEW INDUSTRY.

Policy 4.1

Maintain and enhance a favorable business climate in the city.

The proposed Ordinance allows new commercial activity and other uses in Historic Buildings. This added commercial activity will help maintain a favorable business climate in San Francisco as it adds to the number of spaces available for new uses and activates new spaces that contribute to the economic, social, and cultural vitality of the City.

MISSION AREA PLAN

OBJECTIVE 1.1

STRENGTHEN THE MISSION'S EXISTING MIXED USE CHARACTER, WHILE MAINTAINING THE NEIGHBORHOOD AS A PLACE TO LIVE AND WORK

Policy 1.1.2

Revise land use controls in portions of the Northeast Mission Industrial Zone outside the core industrial area to create new mixed use areas, allowing mixed income housing as a principal use, as well as limited amounts of retail, office, and research and development uses, while protecting against the wholesale displacement of PDR uses.

The proposed Ordinance supports the mixed use character of the Mission District. The loosened use permissions apply exclusively to Historic Buildings, rather than the Mission District as a whole, ensuring that it will only allow for incremental changes to the mix of uses and will not result in the wholesale displacement of PDR uses in the northeast Mission.

OBJECTIVE 3.1

PROMOTE AN URBAN FORM THAT REINFORCES THE MISSION'S DISTINCTIVE PLACE IN THE CITY'S LARGER FORM AND STRENGTHENS ITS PHYSICAL FABRIC AND CHARACTER

Policy 3.1.9

Preserve notable landmarks and areas of historic, architectural or aesthetic value, and promote the preservation of other buildings and features that provide continuity with past development.

CENTRAL SOMA AREA PLAN

OBJECTIVE 7.5

SUPPORT MECHANISMS FOR THE REHABILITATION AND MAINTENANCE OF CULTURAL HERITAGE PROPERTIES

POLICY 7.5.5

Encourage the use of existing strategies and incentives that facilitate the preservation and rehabilitation of designated cultural heritage properties.

DOWNTOWN AREA PLAN

OBJECTIVE 12

CONSERVE RESOURCES THAT PROVIDE CONTINUITY WITH SAN FRANCISCO'S PAST.

POLICY 12.1

Preserve notable landmarks and areas of historic, architectural, or aesthetic value, and promote the preservation of other buildings and features that provide continuity with past development.

The Ordinance will support the historic preservation goals articulated in the above objectives and policies from the Mission, Central SoMa, and Downtown Area Plans. By ensuring that Historic Buildings remain viable for new tenants and new uses, the Ordinance will help to ensure that these buildings remain activated, maintained, and preserved as part of the City's cultural and architectural heritage.

Planning Code Section 101 Findings

The proposed amendments to the Planning Code are consistent with the eight Priority Policies set forth in Section 101.1(b) of the Planning Code in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

The proposed Ordinance would not have a negative effect on neighborhood serving retail uses and will not have a negative effect on opportunities for resident employment in and ownership of neighborhood-serving retail.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

The proposed Ordinance would not have a negative effect on housing or neighborhood character.

3. That the City's supply of affordable housing be preserved and enhanced;

The proposed Ordinance would not have an adverse effect on the City's supply of affordable housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking;

The proposed Ordinance would not result in commuter traffic impeding MUNI transit service or

overburdening the streets or neighborhood parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

While the proposed would allow for some office uses in a select few existing industrial buildings with historic designations, the proposed Ordinance would not cause significant displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposed Ordinance would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

The proposed Ordinance would not have an adverse effect on the City's Landmarks and historic buildings and would instead encourage their continued preservation.

8. That our parks and open space and their access to sunlight and vistas be protected from development;

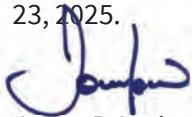

The proposed Ordinance would not have an adverse effect on the City's parks and open space and their access to sunlight and vistas.

Planning Code Section 302 Findings.

The Commission finds from the facts presented that the public necessity, convenience and general welfare require the proposed amendments to the Planning Code as set forth in Section 302.

NOW THEREFORE BE IT RESOLVED that the Commission hereby ADOPTS A RECOMMENDATION FOR APPROVAL of the proposed Ordinance as described in this Resolution.

I hereby certify that the foregoing Resolution was adopted by the Commission at its meeting on October 23, 2025.

RECOMMENDATION: Adopt a Recommendation for Approval

Planning Code Amendment

The proposed Ordinance amends the Planning Code to allow additional uses as principally or conditionally permitted in Historic Buildings citywide, exempt Historic Buildings in certain Eastern Neighborhood Plan Areas from Conditional Use authorization otherwise required to remove Production, Distribution, and Repair (PDR), Institutional Community, and Arts Activities uses, and from providing replacement space for such uses. The proposed Ordinance would also make conforming amendments to provisions affected by the foregoing, including zoning control tables.

The Way It Is Now:

Currently, the Planning Code offers certain historic properties additional use flexibility in a limited number of districts through three separate programs with varying eligibility and approval criteria.

Table 1: Existing Use Flexibility Programs				
	Districts	Use Flexibility	Eligible Buildings	Approval Requirements
1	Residential Districts (RH, RM, RTO, RTO-M) (Sec. 186.3)	<u>Conditionally permits</u> any use permitted on the ground floor in the NC-1 district	Article 10 Landmarks only.	[none described]
2	Folsom Street NCT and RC Districts (Sec. 703.9)	<u>Principally permits</u> Non-Retail Professional Service, Retail Professional Service, Community Facility, Private Community Facility, Social Service and Philanthropic Facility, Financial Service, Gym, Limited Financial Service, Health Service, Personal Service, and Instructional Service; <u>conditionally permits</u> Nighttime Entertainment on the third floor and above (except principally permitted at St. Joseph’s Church).	Article 10 Landmarks, Article 11 significant buildings or contributors, and buildings listed on or eligible for the state or federal historic register.	<u>Feasibility determination:</u> The Zoning Administrator, with advice from the Historic Preservation Commission (HPC), must determine that the proposed use would enhance the feasibility of preserving the building. <u>HPC Review:</u> The HPC must review the project for compliance with the Secretary of the Interior’s Standards. <u>Historic Building Maintenance Plan:</u> The sponsor must submit a maintenance plan for the building.
3	Eastern Neighborhoods Mixed Use Districts* (Sec. 803.9)	CMUO, MUG, MUR, MUO, UMU, RH-DTR, and SPD Districts: <u>Principally permits</u> all uses except for Nighttime Entertainment. WMUG: <u>Principally permits</u> Office uses. RED and RED-MX Districts: <u>Principally permits</u> Arts Activities, Community Facility, Private Community Facility, Public Facility, School, Social Service or Philanthropic Facility, and Trade School uses; <u>conditionally permits</u> Retail Sales and Services uses and Office Uses; may not contain Nighttime Entertainment or Adult Business uses.	CMUO, MUG, MUR, MUO, UMU, RH-DTR, and SPD Districts: Article 10 Landmarks and buildings listed on or eligible for the California Register. WMUG, RED, and RED-MX Districts: Article 10 Landmarks, Article 11 significant buildings or contributors, and buildings <i>individually</i> listed on or eligible for the California Register.	<u>Feasibility determination</u> and <u>HPC Review</u> , as described for Folsom Street NCT and RC Districts, above.

***PDR Replacement Exemption:** In Eastern Neighborhoods Mixed Use districts, exemptions from protected Production, Distribution, and Repair (PDR), Institutional Community, or Arts Activity space replacement requirements apply only to Landmarks or buildings listed on the National Historic Register of July 1, 2016 that convert no more than 50% of such protected space up to 49,999 square feet, or up to 75% of such protected space if the property owners offer below-market-rate leasing of the remaining space.

The Way It Would Be:

This Ordinance would allow Historic Buildings citywide to benefit from additional use flexibility and consolidate these allowances into a single program. It would create a consistent standard for building eligibility and applicable approval process. The types of uses permitted would still vary by zoning district based on the characteristics of each particular district. It would also apply the exemption from PDR replacement requirements to all Historic Buildings subject to this program in the Eastern Neighborhoods Mixed Use Districts.

Background

Protections for Historic Buildings

This Ordinance would *not* change the local, state, and federal regulations that are intended to protect the character-defining features and/or which govern a Historic Building. At the local level, exterior work will

continue to require either a Certificate of Appropriateness for Article 10 Landmarks, or a Permit to Alter for Article 11 Significant or Contributory Buildings. As a matter of state law, the California Environmental Quality Act (CEQA) requires most discretionary permit approvals to provide an analysis of any significant impacts to historic resources. All of these requirements would continue to apply to projects subject to this Ordinance.

Further, the Ordinance requires all projects to comply with the Secretary of the Interior's Standards for the Treatment of Historic Properties. These standards do not permit the demolition of Historic Buildings. In addition, these Standards mandate compatible new construction and/or modification of a Historic Building in a manner that preserves the character-defining features.

PDR Replacement Requirements

Proposition X (2016) places limitations on the conversion of Production, Distribution, and Repair, Institutional Community, or Arts Activity uses in the Eastern Neighborhoods Plan Areas. This includes requiring a Conditional Use Authorization for projects that propose the conversion of such uses and requiring the replacement of such uses in the same building according to replacement ratios that vary by district. These limitations are intended to help the city retain PDR, arts and community spaces in transitioning industrial neighborhoods.

The Planning Code currently exempts a narrow subset of projects in historic buildings from PDR replacement requirements: buildings listed on the National Historic Register as of July 1, 2016 that convert no more than 50% of a property's PDR, Institutional Community, or Arts Activities space, subject to a 25% bonus for the below-market-rate rental or sale of the remaining PDR, Institutional Community, or Arts Activities space.

Issues and Considerations

Flexibility Encourages the Use and Preservation of Historic Buildings

Through the existing use flexibility programs discussed above, the Planning Code already recognizes that offering additional use flexibility to buildings subject to historic protections is a tool "for support[ing] the economic viability of buildings of historic importance." Historic Buildings are subject to additional protections under Articles 10 and 11 of the Planning Code and/or CEQA that restrict renovations and alterations to character-defining features. This means that Historic Buildings are often more constrained in the type of uses and businesses that they can accommodate compared to non-historic buildings by virtue of the fact that the physical form of a Historic Building is less flexible. To counterbalance the physical limitations that apply to historic properties, the Ordinance offers Historic Buildings greater use flexibility to support their economic viability and continued preservation.

The Ordinance operates under the same logic of the existing historic building flexibility programs mentioned above, applying it to Historic Properties citywide under a unified set of eligibility and process criteria. As such, this Ordinance would correct the piecemeal approach to use flexibility by expanding its scope while simplifying the Planning Code programs that implement this concept.

To counterbalance the physical limitations that apply to historic properties, the Ordinance offers Historic Buildings greater use flexibility to support their economic viability and continued preservation.

Examples of Change of Use Projects in Historic Buildings

Several projects have undertaken the kind of conversions targeted by the proposed and existing use flexibility programs:

St. Joseph's Church - 1401 Howard St. (RCD)

The long entitlement history of St. Joseph's Church reflects the complexity of the various use flexibility programs and the need for flexibility in Historic Buildings:

- In 2012, the Article 10 Landmark St. Joseph's Church originally received a Certificate of Appropriateness and a CUA to undergo seismic upgrades and convert the church into office, retail, and assembly space, using a Landmarks use flexibility program in place at the time under Section 803.9 (which has since been updated).
- In 2015, the project sought re-entitlement due to Eastern Neighborhoods Planning Code changes, using the Section 703.9 program applicable to Landmarks in the Folsom Street NCT and RCD. Under Section 703.9, the project did not require a CUA that would otherwise have applied for an office use. However, a CUA was still required due to use size limits applicable within the RCD.
- In 2019, the City adopted legislation to provide greater flexibility in the Folsom NCT and RCD by principally permitting Arts Activities uses and conditionally permitting Nighttime Entertainment in Landmark buildings, *except* at St. Joseph's Church, where Nighttime Entertainment is principally permitted. The building now operates as a arts activities, events, and nighttime entertainment space.

Gregangelo Museum - 225 San Leandro Way (RH-1-D)

In 2024, the Gregangelo Museum, a museum space and artist collective operated out of a restored Mediterranean Revival style house, received an Article 10 Landmark designation. This allowed the Gregangelo Museum to benefit from the Section 186.3 use flexibility program to conditionally permit a General Entertainment use.

Sacred Heart Church and Parish Complex (aka Church of 8 Wheels) - 554 Fillmore St (RM-1)

The Sacred Heart Church and Parish Complex received an Article 10 Landmark designation in 2024. In 2024, it received a four-year Temporary Use Authorization for Church of 8 Wheels' entertainment, arts, and recreational events.

572 7th St (UMU)

In 2012, the Art Moderne industrial building located at 572 7th Street was individually listed on the California Register of Historic Places. In 2013, The project used the Eastern Neighborhoods Mixed Use flexibility provisions under Section 803.9 to permit an office use on the ground floor, which is otherwise not permitted in the UMU district.

Iglesia de Nuestra Senora de Guadalupe/Our Lady of Guadalupe Church - 906 Broadway (RM-2)

The church was originally designated as an Article 10 Landmark in 1993, and the designation was amended in 2019 to recognize its interior features. On October 2, 2025, the property sought a CUA from the Planning Commission to authorize a change of use under Section 186.3 to convert the vacant church to a General Entertainment event space focused on daytime and evening events.

Tenderloin Museum/Cadillac Hotel - 398 Eddy St (RC-4)

The Cadillac Hotel was designated as a Article 10 Individual Landmark in 1984. It is also a contributor to the Uptown Tenderloin Historic District (designated in 2009), listed on the state and national historic registers. The Tenderloin Museum, a non-profit museum that celebrates the rich history of the Tenderloin, is a current tenant of the Cadillac Hotel. The Museum is currently proposing an expansion within existing Cadillac Hotel space for a total use size of over 13,000 square feet. Currently, the RC-4 district requires a CUA for non-residential uses of 6,000 SF. If passed, the proposed Ordinance would allow the Museum expansion to proceed without requiring a CUA.

Easing PDR Replacement Requirements

PDR, Institutional Community, and Arts Activity replacement requirements place significant constraints on the use of Historic Buildings. The PDR replacement requirements contemplate new development projects that add significant net-new square footage and thus are better enabled to reserve a portion of that new square footage for protected PDR uses. However, in Historic Buildings, where regulatory protections limit the expansion of the building envelope and creation of new square footage, these PDR protections make it practically impossible to establish a new use in Historic Buildings with prior PDR, Institutional Community, or Arts Activities uses.

These PDR replacement protections apply In Eastern Neighborhoods Mixed Use Districts, where the use profile has changed from one with predominantly PDR uses to a mixed-use character. Further, the City, via the Eastern Neighborhoods Plans, has prioritized PDR Districts (as opposed to the Eastern Neighborhoods Mixed Use districts at issue here) for maintaining PDR uses. Allowing Historic Buildings greater flexibility with respect to PDR replacement requirements recognizes the physical constraints on accommodating PDR replacement space in such buildings supporting uses that will remain compatible with mixed-use neighborhoods.

Simplifying Code Requirements

The three existing use flexibility programs that apply in Residential Districts, Folsom Street NCT and RCD, and Eastern Neighborhoods Mixed Use Districts all have different criteria and process requirements that create complexity for Department implementation and confusion for potential project applicants. Even within the Eastern Neighborhoods Mixed Use District program (Section 803.9), building eligibility varies across specific zoning districts. Creating a unified set of eligibility and process standards across all districts simplifies Department implementation, improves Code legibility, and reflects good-government reforms that prioritize clarity and predictability.

General Plan Compliance

The Department finds that the proposed Ordinance is consistent with the General Plan. Urban Design Element Policy 2.4 is to “Preserve notable landmarks and areas of historic, architectural or aesthetic value, and promote the preservation of other buildings and features that provide continuity with past development.” By offering greater use flexibility to Historic Buildings, this Ordinance promotes their activation, maintenance, and continued preservation. Commerce and Industry Element Policy 2.1 is to “Seek to retain existing commercial and industrial activity and to attract new such activity to the city” and Policy 4.1 is to “Maintain and enhance a favorable business climate in the city.” The Ordinance's approach to offering greater flexibility in certain buildings will help encourage commercial and industrial activity and allow businesses to occupy spaces that were formerly not available to them.

Racial and Social Equity Analysis

Understanding the potential benefits, burdens and the opportunities to advance racial and social equity that the proposed Ordinance provides is part of the Department's Racial and Social Equity Action Plan. This is also consistent with the Mayor's Citywide Strategic Initiatives for equity and accountability, the Planning and Historic Preservation Commissions' 2020 Equity Resolutions, and with the Office of Racial Equity mandates, which requires all Departments to conduct this analysis.

The Ordinance prioritizes the activation of vacant and underutilized historic buildings across the City, including in Cultural Districts and Priority Equity Geographies. These changes will help to ensure that Historic Buildings do not fall into disuse and dereliction and limit the adverse impacts on communities that results from vacant buildings, especially vacancies larger buildings that adversely impact entire city blocks. To further understand the impacts of this Ordinance, the Department can monitor the types of new uses that occupy Historic Buildings using the proposed provisions and monitor changes in surrounding communities to ensuring that any economic benefits are broadly distributed.

Implementation

The Department has determined that this ordinance will not impact our current implementation procedures.

Recommendation

The Department recommends that the Commission ***adopt a recommendation for approval*** of the proposed Ordinance and adopt the attached Draft Resolution to that effect.

Basis for Recommendation

The Department finds that the Ordinance's allowance of greater use flexibility and other benefits to Historic Buildings supports their adaptive reuse and activation. This will help to ensure that Historic Buildings do not remain vacant and are instead actively used, maintained, and preserved instead of falling into dereliction. The Ordinance also corrects the piecemeal nature of current use flexibility provisions and their variable standards, simplifying the Planning Code and providing a consistent approach around eligibility and process for all Historic Buildings citywide.

Required Commission Action

The proposed Ordinance is before the Commission so that it may adopt a recommendation of approval, disapproval, or approval with modifications.

Environmental Review

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c)(2) and 15378 because they do not result in a physical change in the environment.

TENDERLOIN MUSEUM

2-23-26

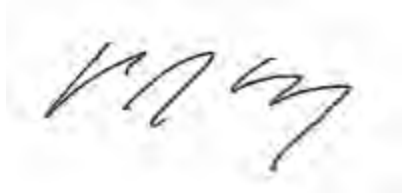

Dear Land Use Committee,

The proposed legislation, “Adaptive Reuse for Historic Buildings,” would significantly benefit the Tenderloin Museum's expansion project and countless other cultural institutions throughout our city. As a small cultural organization serving a low-income community, we operate sustainably but face constant resource constraints. The current conditional use permit process imposes substantial financial and administrative burdens that divert critical resources from our core mission.

The laborious permitting requirements consume both time and money and are a significant burden on small businesses. These bureaucratic obstacles force us to choose between advancing our community programs and navigating complex regulatory processes. For organizations like ours—committed to stewarding historic buildings while serving underserved populations—streamlined permitting is essential to our continued operation and growth.

We need a permit process that supports rather than undermines cultural institutions working to strengthen their communities. This legislation would enable us to focus our limited resources on what matters most: preserving our neighborhood's history and providing vital cultural programming to residents.

Warmly,

Supervisors and Clerk Carroll

Ramadan Mubarak & Happy New year The excellent & prescient 2004 legislation written by Matt Gonzalez regarding 'formula retail' is relevant today in light of the deceptively named "Adaptive Reuse of Historic Buildings" in front of the commission, file 250886, item 29 today 2/23/2026.

If enacted this proposal would bypass public hearing, and in some cases also bypassing Historic Preservation review and further incentivizes eradicating neighborhood local businesses for higher paying chains & box stores e.g. Starbucks, The Gap etc. This is a devious & destructive proposal: it contains a hidden impact on labor if a hotel is built a Historic Preserved building. A provision which protects labor called a 'card check neutrality' which ensures that if workers want a Union-management can't interfere would be eradicated by this proposal, this is not a trivial consequence of this proposal.

This is the Mayor's way of seeking to deregulate land use and he is hoping we won't know what the consequences are to working people and our unique neighborhoods, it's no accident they are unique because people in this body in the past looked to the future and legislated responsibly - this proposal should be stopped here, not moving forward.

Onward together,

8 December 2025

Dear Chair Melgar, Chair Chen & Supervisor Mahmood,

I am writing in strong opposition to the Adaptive Reuse of Historic Buildings legislation.

Per the Community Report Request Memo, this item is purportedly deemed to be a matter of "urgent nature" and follows with an intent to forward it to the full board.

This legislation is overly broad, and may well have unintended consequences. What is the urgency? Why is this being rushed through without clearer, specific language and analysis? We have been bombarded with legislation coming from the State as well as local ordinances within a very short period of time and as residents, we are trying to understand how all of these pieces fit together. We need the opportunity to see careful analysis of who benefits and who may be harmed by this legislation. As former Supervisor Matt Gonzalez notes in his letter to this committee, we, San Franciscan voters passed Prop G, requiring Conditional Use Authorization. Do not allow this "backdoor" attempt to chip away, eliminate formula retail prohibitions that have served us well in protecting, supporting our mom & pop small businesses.

Thank you for your consideration

Dear Land Use and Transportation Committee,

The proposed legislation, "Flexible Uses for Historic Properties," would significantly benefit the Tenderloin Museum's expansion project and countless other cultural institutions throughout our city. As a small cultural organization serving a low-income community, we operate sustainably but face constant resource constraints. The current conditional use permit process imposes substantial financial and administrative burdens that divert critical resources from our core mission.

The laborious permitting requirements consume both time and money and are a significant burden on small businesses. These bureaucratic obstacles force us to choose between advancing our community programs and navigating complex regulatory processes. For organizations like ours—committed to stewarding historic buildings while serving underserved populations—streamlined permitting is essential to our continued operation and growth.

We need a permit process that supports rather than undermines cultural institutions working to strengthen their communities. This legislation would enable us to focus our limited resources on what matters most: preserving our neighborhood's history and providing vital cultural programming to residents.

Warmly,

Chair Melgar and supervisors Chen and Mahmood,

I see from the Land Use and Transportation Committee agenda that you intend to entertain a motion to refer item 250886 (Planning Code - Adaptive Reuse of Historic Buildings) to the full board for consideration.

San Francisco Heritage reviewed an early draft of the mayor's proposed ordinance **but do not support it at this time.**

As a nonprofit with two historic buildings, we believe that easing and expediting permitting could be beneficial to the economic versatility of historic structures and thereby assist in their long-term maintenance and preservation.

But it was our understanding when this legislation was first scheduled for the Land Use and Transportation Committee that, as drafted, it opened up a number of unintended consequences affecting hospitality and formula retail controls in the city. It was further our understanding on its continuance that these potential conflicts were to be addressed before the legislation was reintroduced.

While we encourage more work on this idea of streamlining permitting for historic buildings, San Francisco Heritage does not support this proposed ordinance as written.

Dear Chair Melgar and Members of the Land Use and Transportation Committee:

I am writing in opposition to Item No. 3 on today's Land Use Committee agenda (File No. 250886). While the legislation purports to allow flexibility for uses in historic buildings it would have the effect of reversing the formula retail prohibitions in the Hayes Valley and North Beach Neighborhood Commercial Districts and eliminating Conditional Use requirements for Formula Retail in the city's other Neighborhood Commercial Districts.

In 2004 I sponsored Ordinance 62-04 (File No. 031501) to amend the Planning Code by adding Section 703.3 to define formula retail uses and prohibit formula retail uses in the Hayes-Gough Neighborhood Commercial District. Subsequently legislation was passed in 2005 to prohibit formula retail uses in North Beach and then in 2007 the voters passed Proposition G, requiring Conditional Use Authorization in most neighborhood commercial districts citywide.

I see that the item is calendared as a Committee Report to be voted on by the full board of Supervisors tomorrow. I respectfully suggest that this item be continued in the Land Use and Transportation Committee so that the unintended consequences of undermining the popular

and successful formula retail controls can be fully addressed.

Sincerely,
