Angela Calvillo
Clerk of the Board
1 Dr. Carlton B. Goodlett Place
City Hall, Room 244
San Francisco, CA 94102-4689

Dear Ms. Calvillo,

Please see the enclosed Certificates as required under 2002 Proposition E related to the following authorizing legislation:

 Wastewater Enterprise: File No. 240453 and Board of Supervisors Ordinance No. 125-24

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Nikolai J. Sklaroff Capital Finance Director San Francisco Public Utilities Commission Office: (415) 551-2973

London N. Breed

Mayor

Certificate of City and County of San Francisco Planning Department Regarding Proposed
Sale of Wastewater Revenue Bonds, Including Notes, Commercial Paper, and Other Forms of Indebtedness, with a combined not to exceed issuance amount of \$1,715,671,086¹ for Capital Projects budgeted in Fiscal Year 2024-25 and
Fiscal Year 2025-26

I, Lisa M. Gibson, Environmental Review Officer of the Planning Department of the City and County of San Francisco (the Planning Department), hereby certify as follows:

- 1. As the Environmental Review Officer (ERO) of the Planning Department, I am authorized to certify as to the compliance of the San Francisco Public Utilities Commission (SFPUC) with applicable requirements of the California Environmental Quality Act (CEQA).
- 2. After consultation with the SFPUC, I understand that the SFPUC proposes to sell Wastewater Revenue Bonds and Other Forms of Indebtedness (the "Revenue Indebtedness") to finance certain improvements to the Wastewater Enterprise of the City and County of San Francisco (the "City"). The improvements proposed for financing include those projects described in the following document, attached to this Certificate as Exhibit A and may represent a subset of the total available authorization.
- 3. I understand that Section 8B.124 of the City Charter grants authority to the City's Board of Supervisors to approve the issuance of Revenue Indebtedness, including revenue bonds, notes, and commercial paper, by ordinance upon two-thirds vote of its members and under certain conditions. The ordinance related to the debt issuance, is attached hereto as Exhibit B (the Ordinance).
- 4. I understand that one of the conditions to the Board of Supervisor's authorization of such Revenue Indebtedness is the delivery of a certificate of the Planning Department regarding the projects or additional projects to be financed under the authorization provided in Exhibit B, the Ordinances.
- 5. The San Francisco Planning Commission certifies Environmental Impact Reports as they are completed pursuant to CEQA. In addition, the Planning Department approves Initial Study/Mitigated Negative Declarations, and the ERO approves Categorical Exemptions.
- 6. Based on a preliminary review of the additional Projects and discussions with the SFPUC regarding the requirements for undertaking such additional Projects, I certify that the Projects under the jurisdiction of the SFPUC to be funded with proceeds of the Revenue Indebtedness, as described in the Ordinance, (a) are not considered to be projects under CEQA, (b) are projects under CEQA and a CEQA determination has already been issued, or (c) are projects under CEQA and will undergo CEQA review prior to approval. Pursuant to the provisions of Chapter 31 of the San Francisco Administrative Code, any additional Project to be financed will comply with applicable requirements of CEQA prior to any draw on the Revenue Indebtedness proceeds to finance the acquisition or construction of such facilities.

In witness whereof, the undersigned has executed this certification as of this $\underline{1st}$ day of August, 2024.

Lisa M. Gibson

Environmental Review Officer

¹ Amount does not include projects that are currently revenue funded that may be reappropriated in the future.

ORDINANCE NO. 125-24

San Francisco Public Utilities Commission Wastewater Revenue Bond Issuance and Other 1 Forms of Indebtedness Issuance - Not to Exceed \$1,715,671,086] 2 3 Ordinance authorizing the issuance and sale of tax-exempt or taxable Wastewater 4 Revenue Bonds and other forms of indebtedness by the San Francisco Public Utilities 5 Commission ("Commission") in an aggregate principal amount not to exceed 6 \$1,715,671,086 to finance the costs of various capital wastewater projects benefitting 7 the Wastewater Enterprise pursuant to amendments to the Charter of the City and County of San Francisco enacted by the voters on November 5, 2002, as Proposition E; 8 9 authorizing the issuance of Wastewater Revenue Refunding Bonds and the retirement of outstanding Wastewater Enterprise Commercial Paper; declaring the Official Intent 10 of the Commission to reimburse itself with one or more issues of tax-exempt or taxable 11 12 bonds or other forms of indebtedness; and ratifying previous actions taken in connection therewith, as defined herein. 13 14 NOTE: Unchanged Code text and uncodified text are in plain Arial font. **Additions to Codes** are in *single-underline italics Times New Roman font*. 15 **Deletions to Codes** are in *strikethrough italics Times New Roman font*. Board amendment additions are in double-underlined Arial font. 16 Board amendment deletions are in strikethrough Arial font. Asterisks (* * * *) indicate the omission of unchanged Code 17 subsections or parts of tables. 18 Be it ordained by the People of the City and County of San Francisco: 19 20 Section 1. Findings. The San Francisco Board of Supervisors ("Board") hereby finds 21 and declares as follows: 22 On November 5, 2002, the voters of the City and County of San Francisco 23 ("City") approved Proposition E ("Proposition E", City Charter Section 8B.121(a)), which,

among other things, provides that the Commission shall have exclusive charge of the

24

25

construction, management, supervision, maintenance, extension, expansion, operation, use and control of all water, clean water and energy supplies and utilities of the City as well as the real, personal, and financial assets that are under the Commission's jurisdiction or assigned to the Commission under Charter Section 4.132.

- b. Proposition E authorized the San Francisco Public Utilities Commission ("Commission") to issue revenue bonds, including notes, commercial paper or other forms of indebtedness, when authorized by ordinance approved by a two-thirds vote of the Board of Supervisors, for the purpose of reconstructing, replacing, expanding, repairing or improving water facilities or clean water facilities or combinations of water and clean water facilities under the jurisdiction of the Commission; and
- c. The Commission adopted the Indenture dated as of January 1, 2003, as further amended and supplemented from time to time ("Indenture"), between the Commission and U.S. Bank National Association and in connection with the Indenture has from time to time issued revenue bonds to finance projects benefitting the Wastewater Enterprise; and
- d. Under San Francisco Administrative Code Chapter 43, Article V, Section 43.5.1, et seq., the Commission may by prescribed procedure issue short-term indebtedness, including the issuance of commercial paper in anticipation of the issuance of revenue bonds; and
- e. As prescribed by Administrative Code Chapter 43, Article V, the Commission may issue short-term indebtedness for the Wastewater Enterprise under the Wastewater commercial paper program ("Wastewater CP Program") up to an aggregate principal amount not to exceed \$750,000,000 of commercial paper notes outstanding at any one time (see Commission Resolution No. 17-0086 (April 25, 2017) and Board Resolution No. 193-17 (May 23, 2017)), and the Commission has caused Wastewater Enterprise commercial paper to be issued from time to time; and

- e. On February 13, 2024, by Resolution No. 24-0031 ("Commission Resolution"), the Commission determined to issue Wastewater Revenue Bonds ("Wastewater Revenue Bonds") and other forms of indebtedness (including without limitation State Revolving Fund Loans borrowed from the State Water Resources Control Board ("SRF Loans"), other State and Federal Loans, all as described below), and interim funding vehicles such as commercial paper to be issued, revolving credit agreements, bond anticipation notes or other forms of notes, which interim funding vehicles will be issued in advance of being paid off by either Wastewater Revenue Bonds and other forms of indebtedness (including without limitation SRF Loans, and other State Loans and Federal Loans, all as described below), to finance the costs of various capital projects benefitting the Wastewater Enterprise ("Capital Improvement Projects"), such projects being more fully described in the Commission Resolution), pursuant to Proposition E, and the Commission has formally requested this Board to authorize the issuance and sale of Wastewater Revenue Bonds and other indebtedness for such purposes, such Commission Resolution being on file with the Clerk of the Board of Supervisors in File No. 240453; and
- g. In order to finance the costs of the Capital Improvement Projects, the Board now desires to authorize the issuance and sale of Wastewater Revenue Bonds and other forms of indebtedness as described above, for such purposes, including obtaining SRF Loans ("State Loans"), grants from the State Water Resources Control Board, loans from the Water Infrastructure Finance and Innovation Act ("WIFIA") program, and/or other Federal loans (WIFIA and other Federal loans being, "Federal Loans"); and
- h. The Commission has paid, beginning no earlier than 60 days prior to the adoption of this Ordinance and will pay, on and after the date of this Ordinance, certain

expenditures ("Expenditures") in connection with the acquisition, construction and/or equipping of the Capital Improvement Projects; and

- i. This Board is concurrently considering with this Ordinance, related supplemental appropriation ordinances for Fiscal Years ("FY") 2024-25 and 2025-26, including expenditures of the proceeds of the Wastewater Revenue Bonds and other forms of indebtedness (including, without limitation and for illustrative purposes only, State Loans, Federal Loans (including WIFIA Loans), commercial paper, revolving credit agreements, and bond anticipation notes); and
- j. This Board, on behalf of the Commission, adopts this Ordinance as official action of the Commission in order to comply with Treasury Regulation §1.150-2 and any other regulations of the Internal Revenue Service relating to the qualification for reimbursement of Commission expenditures incurred prior to the date of issue of the Wastewater Revenue Bonds and other forms of indebtedness (including, without limitation and for illustrative purposes only, State and Federal Loans, commercial paper, revolving credit agreements, and bond anticipation notes).
- Section 2. Authorization to Issue Wastewater Revenue Bonds and other forms of indebtedness. The Board hereby authorizes the issuance and sale of taxable or tax-exempt Wastewater Revenue Bonds (including for illustrative purposes only, commercial paper, bank liquidity or credit agreements, State and Federal Loans, or bond anticipation notes) in one or more series from time to time by the Commission pursuant to Proposition E and in accordance with the Commission Resolution, , in an aggregate principal amount not to exceed \$1,715,671,086 (inclusive of financing costs) bearing a maximum rate or rates of interest of not to exceed twelve percent (12%) per annum to finance a portion of the costs of the design, acquisition and construction of the Capital Improvement Projects. Without limiting the foregoing, the Commission shall also be authorized to incur State and Federal Loans at such

time, in such amounts, and upon such other terms and conditions as the Commission may deem advantageous, and to approve any financing documentation related thereto consistent with this Ordinance. The Commission is hereby further authorized to determine the timing, amount and manner of sale (i.e., competitive or negotiated) of, or borrowing under each, series of Wastewater Revenue Bonds, bond anticipation notes, revolving credit agreements, commercial paper, or State or Federal Loan pursuant to this authorization; provided however, the Commission's authorization to issue Wastewater Revenue Bonds, bond anticipation notes, revolving credit agreements, or commercial paper, or to borrow under a State Loan or Federal Loan, is subject to approval by the Commission of the form of substantially final offering document related to such obligations (if any) and the approval of any related agreements, financing documents and the filing with its Board and the Clerk of the Board any certifications required by Proposition E prior to the issuance of any bonds or incurrence of any indebtedness herein authorized. The Commission shall also file, within 30 days of closing any Wastewater Revenue Bond or other form of indebtedness (including State and Federal Loans and bond anticipation notes) transactions authorized hereby, with the Clerk of the Board of Supervisors a report showing the results of the transaction, including (i) principal amount sold and method of sale, (ii) true interest cost, (iii) final maturity, (iv) the facilities constructed and/or improved, and (v) a statement about the remaining bonding authorization under this Ordinance ("Bond Report"), provided that the failure to file such Bond Report shall not affect the validity of any debt authorized hereunder.

Section 3. Authorization to Issue Wastewater Revenue Refunding Bonds; Commercial Paper Retirement. Notwithstanding Section 2 immediately above, the Board further authorizes and approves the issuance by the Commission of Wastewater Revenue Refunding Bonds ("Refunding Bonds") without limitation as to principal amount, in one or more series on one or more dates, at a maximum interest rate or rates of interest not to

exceed twelve percent (12%) per annum, provided that each such Refunding Bond issue is permitted under the applicable policies and procedures of the City and authorized by Section 9.109 of the Charter (including related ordinances and resolutions of the Board). The Refunding Bonds may be issued as taxable or tax-exempt obligations, or any combination of such obligations. Refunding Bonds authorized hereunder shall be subject to the further following conditions, that: (i) three percent (3%) net present value debt service savings or greater is achieved to ensure ratepayer savings (exclusive of any issuance to refund commercial paper, revolving credit notes, or bond anticipation notes); (ii) that the maturity of the refunded bonds is not extended (exclusive of any issuance to refund commercial paper, revolving credit notes, or bond anticipation notes); (iii) this authorization is subject to a 5-year term through June 30, 2029, at which time this Board may consider an extension; (iv) principal payments and term may be adjusted, where permitted under federal and state tax law, only if and when the underlying capital asset funded through said refunded bonds has a useful life not in excess of any limit permitted under federal and state tax law than the refunded term; and (v) the Commission shall within 30 days of any executed refunding transaction provide a refunding savings report ("Bond Refunding Savings Report") prepared by its municipal advisors (that reflects at least a three percent (3%) net present value debt service savings) to the Board, together with a copy of the final Official Statement (if any) with respect to such series of Refunding Bonds, provided that the failure to deliver such Bond Refunding Savings Report shall in no way affect the validity of any Refunding Bonds. Notwithstanding the foregoing, the Commission is authorized to issue Refunding Bonds that do not meet all of the foregoing conditions provided that the Commission makes a finding, by resolution, that significant non-economic factors exist that justify the waiver of the three percent (3%) net present value debt service savings test and other conditions set forth above. Such noneconomic factors may include, by way of illustration and not limitation, eliminating onerous

25

covenants and obsolete provisions contained in the Commission's indenture or other security documents, or restructuring a series of bonds in response to then-current market conditions. In furtherance of the purpose of managing the Commission outstanding indebtedness, the General Manager is hereby authorized to use Available Wastewater Enterprise Revenues and other funds as appropriate to retire outstanding Wastewater Enterprise Commercial Paper and other forms of indebtedness at such times and in such amounts advantageous to the Commission.

Section 4. Declaration of Official Intent. The Board, on behalf of the Commission, hereby declares the official intent of the Commission to reimburse the Commission with proceeds of the Wastewater Revenue Bonds or other forms of indebtedness (including State or Federal Loans, commercial paper, revolving credit notes, or bond anticipation notes) for the Expenditures with respect to the Capital Improvement Projects made on and after a date that is no more than 60 days prior to the adoption of this Ordinance. The Commission reasonably expects that it will reimburse the Expenditures with proceeds of the Wastewater Revenue Bonds or other forms of indebtedness (including, without limitation and for illustrative purposes only, State or Federal Loans, commercial paper, revolving credit notes or bond anticipation notes). Each Expenditure was and will be either (A) of a type properly chargeable to a capital account under general federal income tax principles (determined in each case as of the date of the Expenditure), (B) a cost of issuance with respect to such obligations, (C) a nonrecurring item that is not customarily payable from current revenues, or (D) a grant to pay a party that is not related to or an agent of the issuer so long as such grant does not impose any obligation or condition (directly or indirectly) to repay any amount to or for the benefit of the Commission. The Commission will make a reimbursement allocation, which is a written allocation by the Issuer that evidences the Commission's use of proceeds of the Wastewater Revenue Bonds or other forms of indebtedness to reimburse an Expenditure, no later than 18

25

months after the later of the date on which the Expenditure is paid or the component of the Capital Improvement Projects is placed in service or abandoned, but in no event more than three years after the date on which the Expenditure is paid. The Commission recognizes that exceptions are available for certain "preliminary expenditures," costs of issuance, certain de minimis amounts, expenditures by "small issuers" (based on the year of issuance and not the year of expenditure) and expenditures for construction projects of at least five years.

Section 5. General Authority. The Controller of the City ("Controller"), Treasurer of the City ("Treasurer"), the City Attorney and other officers of the City, including the Director of the Office of Public Finance, and their duly authorized deputies and agents are hereby authorized and directed, jointly and severally, to take such actions and to execute and deliver such certificates, agreements, requests or other documents, as they may deem necessary or desirable to facilitate the issuance, sale and delivery of the Wastewater Revenue Bonds, State or Federal Loans, bond anticipation notes, commercial paper or Refunding Bonds, to obtain bond insurance or other credit or liquidity enhancements with respect to any such obligations, and otherwise to carry out the provisions of this Ordinance. The Commission is hereby directed to provide the final form to the Clerk of the Board of any disclosure document (if any) prepared in connection with the execution of any Wastewater Revenue Bonds, State or Federal Loans, bond anticipation notes, commercial paper or Refunding Bonds, and the final executed Installment Sale Agreement or other document reflecting the incurrence of a State or Federal Loans, within 30 days of the closing of such transactions; provided however that failure to provide such document shall not affect the validity of the obligations authorized hereunder. The Commission is further directed as a part of the two-year budget review to provide to this Board of Supervisors a written report about Wastewater Revenue Bonds authorized under this Ordinance, detailing the total amount authorized, the total amount sold,

25

1

the remaining authorized but unissued amount, and the bond authorization no longer necessary due to changes in projects and project financing.

Section 6. Ratification of Prior Actions. All actions authorized and directed by this Ordinance in connection with the issuance of the Wastewater Revenue Bonds or other forms of indebtedness (including, without limitation and for illustrative purposes only, State or Federal Loans, bond anticipation notes or commercial paper), Refunding Bonds, and heretofore taken are hereby ratified, approved and confirmed by this Board.

Section 7. Additional Definitions and Terms Pertaining to Proceeds. The following additional definitions and declarations of the Board shall be as follows:

Financings. For all purposes of this Ordinance and any related Commission a. Resolution, a Financing ("Financing") is: (i) any issuance of tax-exempt or taxable revenue bonds, notes, bond anticipation notes, commercial paper, bank liquidity or credit agreements, certificates of participation or other obligations for borrowed money, including, without limitation, any financing lease, installment purchase or sale agreement, or other similar financing agreements or arrangement; and (ii) any indebtedness to a State or Federal lender, program, or funding source, including, without limitation, any State or Federal Loan, and any borrowing from a similar programs or replacement programs that may come into existence after the adoption date of this Ordinance; and (iii) any funding to the Commission arising from a joint powers agreement between the Commission and one or more other public agencies for the joint acquisition, construction, operation and/or management of infrastructure or facilities; and (iv) any financial award from a Federal, State, or local government authority or a private grantmaking foundation or a private nonoperating foundation or a Section 501(c)3 charitable organization; and (v) any funding from a securitization that involves the issuance of debt instruments.

- b. For all purposes of this Ordinance and any related Commission Resolution, a Financing Agreement ("Financing Agreement") is: any contract, agreement, financing lease, installment purchase or sale agreement, application, draw notice, joint powers agreement, securitization agreement, or other similar financing agreements or arrangement, or amendment to any of these, entered into by the Commission in connection with any Financing.
- c. The Chief Financial Officer or the Deputy Chief Financial Officer of the Commission, or their designee(s), is authorized to ask the Controller to record the substitution of funds arising from any Financing Agreement (whether already in existence as of the date of this Ordinance or entered into in connection with a Financing that is approved hereunder) with separate and other Financing Agreement transactional funds, all as necessary to conform to (i) Generally Accepted Accounting Principles and other laws and (ii) the terms of any Financing Agreement. Commission funds held by the Controller generally remain subject to Article VIIIB of the Charter and Article XIIIC and Article XIIID of the California Constitution.
- d. In accordance with Section 3.105 and Section 9.113 of the Charter, at the closing of each Commission transaction involving a Financing Agreement, the Chief Financial Officer or the Deputy Chief Financial Officer of the Commission, or their designee(s), shall ask the Controller to independently confirm whether sufficient unencumbered balances are expected to be available in the proper fund(s) to meet all payments under such obligations as they become due, if any, and the Controller shall issue related certifications.
- Section 8. File Documents. All documents referred to as on file with the Clerk of the Board of Supervisors are located in File No. 240453.

///

Section 9. Effective Date. Pursuant to Charter Section 8B.124, the remainder of this Ordinance shall take effect thirty (30) days after its adoption.

Date Approved

Certificate of the Consulting Engineers

in connection with Section 8B.124 of the Charter of the City and County of San Francisco and the Indenture of the San Francisco Public Utilities Commission (SFPUC) authorizing the Sale of Wastewater Revenue Bonds and / or Other Forms of Indebtedness, including Commercial Paper and State and Federal Loans

This Certificate has been prepared by AECOM Technical Services, Inc., (AECOM), an independent consulting firm, at the request of the San Francisco Public Utilities Commission (SFPUC) in connection with the issuance by the SFPUC of its Wastewater Revenue Bonds and/or other forms of Indebtedness, including Commercial Paper and State and Federal loans.

Proposition E requires certification by an independent consulting engineer that, among other things, "(i) the Projects to be financed with proceeds of bonds under Proposition E, including the prioritization, scheduling and cost estimates thereof, meet generally accepted utility standards."

Section A below includes projects in the Wastewater Capital Programs, including Sewer System Improvement Program (SSIP), Facility and Infrastructure, Repair and Replacement (R&R and other portions of the capital programs, and certifies that (i) the anticipated projects to be financed by the proposed Revenue Bonds and/or Commercial Paper Notes (the "Notes"), or State and Federal loans including the prioritization, cost estimates and scheduling, meet generally accepted utility standards.

The findings and conclusions in this Certificate are based on AECOM's review of the following Documents, references and data provided by the SFPUC:

- Quarterly Report, Wastewater Enterprise Programs, October 2023 December 2023, March 14, 2024
- Wastewater Enterprise FY2025-2034 Ten Year CIP and Project Datasheets, January 26, 2024
- List of projects to be funded in FY 2024-25 and FY 2025-26, as listed in the file "Wastewater FY 25-34 Capital Plan Prop E.xlsx" provided by SFPUC on March 22, 2024 (Projects or Project List)
- Other documents produced by SFPUC to support certification
- Discussions with SFPUC staff
- 1. Based upon review of the Documents, and in reliance on the information presented in the Documents, references and data, and in reliance upon conversations and representations of SFPUC staff, the undersigned certifies that the Projects, including prioritization, cost estimates, and scheduling, meet generally accepted utility standards.
- 2. The Documents contain information about the current status, estimated completion dates and cost of completion of some of the Projects.

While developing the Certificate, AECOM reviewed the Documents and consulted with SFPUC staff. This Certification is based on the information provided by the SFPUC. The conclusions and observations contained herein constitute only the opinions of AECOM. The various background documents, statements, and other information supplied by the SFPUC, its employees, and other consultants have been relied upon as being accurate in the performance of these analyses; however, no assurances are given nor warranties implied by AECOM as to the accuracy of such information. AECOM makes no certification and gives no assurances except as explicitly set forth in this document.

SECTION A: CERTIFICATION OF SSIP AND OTHER PORTIONS OF THE WASTEWATER CIP

AECOM's review of the Documents for Section A included a "programmatic approach" such that AECOM certifies that the revenue bonds and/or commercial paper proceeds or state or federal loans are intended to be used by the SFPUC to fund the capital projects included in the Wastewater Enterprise's SSIP and other portions of the Wastewater Enterprise's capital programs. Projects may be moved on or off the CIP list, modified, delayed or accelerated as necessary due to scheduling, budgeting, or other constraints.

Based upon our review of the Documents provided by the SFPUC, and in reliance upon conversations and representations of SFPUC staff, AECOM certifies that the projects, as listed in the Project List, to be financed by the revenue bonds and/or commercial paper program, as identified in the Wastewater Enterprise's SSIP and other portions of the Wastewater Enterprise's capital programs including the prioritization, cost estimates and scheduling, meet generally accepted utility standards.

Dated this 20th day of June, 2024

AECOM Technical Services, Inc.

Derrick Wong, P. E. Civil Engineer

Attachment A

List of projects to be funded in FY 2024-25 and FY 2025-26, as provided by SFPUC on March 22, 2024.

FROM: Alex Handlers, Bartle Wells Associates

RE: Wastewater Financial Projections for Proposition E Compliance

Background

Bartle Wells Associates (BWA) was retained by the San Francisco Public Utilities Commission (SFPUC) to develop financial projections in support of San Francisco Charter Article VIIIB, Section 8B.124, as established by Proposition E which was approved by the voters of the City and County of San Francisco on November 5, 2002. This section of the Charter a) authorizes the SFPUC to issue revenue bonds and other forms of indebtedness and b) authorizes the Board of Supervisors to take actions necessary for the issuance and repayment of such debt subject to various conditions including "that estimated net revenue after payment of operating and maintenance expenses will be sufficient to meet debt service coverage and other indenture or resolution requirements, including debt service on the bonds to be issued, and estimated repair and replacement costs."

Financial Projections

BWA developed financial projections based on data provided by the SFPUC as well as a number of independent calculations and assumptions which constitute such examination or investigation as is necessary to enable BWA to express an informed opinion as to whether the requirements of Proposition E have been satisfied. Based on the projections, the Wastewater Enterprise will generate net revenues (as defined per the Indenture securing the SFPUC's outstanding Wastewater Revenue Bonds) that are at least 1.25 times Annual Debt Service in each fiscal year from Fiscal Years 2023-24 through 2032-33. In accordance with the requirements of Proposition E, BWA certifies that estimated net revenue after payment of operating and maintenance expenses will be sufficient to meet debt service coverage and other indenture or resolution requirements, including debt service on projected bonds to be issued, and estimated repair and replacement costs.

Attached Tables

The attached tables include:

- **Table 1 SFPUC Wastewater Cash Flow Projections** This table was developed by Bartle Wells Associates based on information provided by the SFPUC and independent debt service projections, and includes projections of future fund balances, revenues, expenses, net revenues, and debt service coverage.
- Table 2 Cash Flow Assumptions This table describes assumptions used in developing the financial projections.
- **Table 3 10-Year Capital Improvement Program & Funding Sources** This table shows projected SFPUC wastewater system capital improvements and anticipated sources of funding.
- **Table 4 Estimated Debt Service** This tables estimates annual debt service on future bonds per each \$100 million of project funding.
- **Table 5 Projected Bond Issues** This table shows projected debt issued by fiscal year and calculates annual debt service for each bond issue.
- **Table 6 Projected Debt Service on Future Bond Issues** This table projects debt service by fiscal year for each water debt issue and shows a schedule of projected debt payments.
- **Table 7 Outstanding Debt** This table shows debt service due on outstanding debt issues.

The tables are based on information provided by the SFPUC as well as a number of independent calculations and assumptions. BWA takes no responsibility for the accuracy of information provided by the SFPUC, nor for any errors or omissions in information provided.

Table 2 SFPUC Wastewater Financial Projections Cash Flow Assumptions

SFPUC Model Basis	Financial projections are based on SFPUC's FY25 New Wastewater Financial Model
	provided 03/05/05.
Rate Adjustments	Based on SFPUC projections.
Change in Sales Volume %	Based on SFPUC projections.
Beginning Fund Balances	Based on SFPUC estimates for 06/30/23 adjusted by the annual change in projected
	revenues less expenses.
Revenues	Based on SFPUC projections.
Operation & Maintenance Expenses	Based on SFPUC projections.
Debt Service	Debt service on outstanding bonds and SRF Loans is based on SFPUC debt service
	schedules. Projected debt service is based on SFPUC projections of annual debt financing
	requirements and BWA projections of debt service as shown on Tables 4 and 5 with a
	schedule of projected debt service by fiscal year shown on Table 6. Debt service payments
	in the cash flow projections reflect the amounts due and payable each fiscal year net of
	capitalized interest.
Non-Operating/Capital Expenses	Based on SFPUC projections.
Net Revenues Current Basis	Pursuant to the Indenture, Net Revenues are defined as Annual Revenues (excluding
	interest earnings on any bond funds including the reserve fund, capitalized interest fund,
	and improvement fund; but including fund reserves available to pay debt service assuming
	the Commission determined such reserves should be "Revenues" under the Indenture)
	less Operation and Maintenance Expenses. Certain revenues and expenses are excluded
	from the definitions of Annual Revenues and Operation Expenses.
Net Revenues Indenture Basis	Based on Net Revenues Current Basis plus ending Fund Balances.
Debt Service Coverage,	Based on annual Net Revenues Current Basis divided by annual Debt Service reduced to
Current Basis	account for BABs Subsidies.
Debt Service Coverage,	Based on annual Net Revenues Indenture Basis divided by annual Debt Service reduced to
Indenture Basis	account for BABs Subsidies.
