

TO: San Francisco Recreation and Park Department

**RE: In-kind Award
Fillmore Turk Park, Landscape Architecture Services**

Dear San Francisco Recreation and Park Department,

TS studio is providing in-kind landscape architectural services for up to \$200,000 for the Fillmore Turk Park.

Since 2014 TS studio has actively collaborated with New Community Leadership Foundation, SF Beautiful and SFRPD in re-design of this park. We recognize that giving back is a rewarding experience for ourselves, the local community, and our parks.

Many of the projects that are envisioned through community voice often do not have the outlet nor the funding to move forward from vision to design through construction, but we believe the revitalization of these spaces is vital to our health and vibrancy. We offer our design services so funding can be directed towards the project's construction, as we recognize the re-design of this small space has the unique and meaningful opportunity to strengthen and revitalize the social fabric of this neighborhood.

Thank you,

J. Lee Stickle

Principal
TS studio
