be submitted to the qualified voters of the City the following proposition:

WATER SYSTEM IMPROVEMENT REVENUE BONDS AND IMPOSITION OF SURCHARGE ON RETAIL WATER CUSTOMERS.

Shall the Public Utilities Commission, or any successor thereto, issue revenue bonds and/or other forms of revenue financing in a principal amount not to exceed \$1,628,000,000 (the "Bonds"), to finance the acquisition and construction of improvements to the City's water system; provided that the bonds may not be issued unless Administrative Code Chapter 37 (Residential Rent Stabilization and Arbitration Ordinance) is amended to provide that landlords may pass through to residential tenants 50% of the water bill costs attributable to water rate increases resulting from issuance of the Bonds where a unit is in compliance with any applicable laws requiring water conservation devices, tenants may file hardship applications with the Rent Board for relief from all or part of the cost passthrough and their affected landlords may utilize any available Public Utilities Commission low-income rate discount program or similar program for water bill reduction based on the tenants' hardship status; and further provided that the principal amount of the Bonds may be reduced if the City's Board of Supervisors determines the greatest economic value to San Francisco ratepayers will derive from having the San Francisco Bay Area Regional Water System Financing Authority finance, in whole or in part, those projects designed and intended in substantial part to improve the reliability of the City's regional water system, and if the Authority does finance such projects, shall the Public Utilities Commission be authorized to impose a surcharge on retail water rates for San Francisco customers' to pay the retail water customer's share of the debt service on bonds issued by the Authority and the operating expenses of the Authority?

For purposes of this Resolution and the proposition, the following terms shall have the following respective meanings: "improvements" shall mean improvements that will restore, rehabilitate and enhance the ability of the Public Utilities Commission to deliver water to users of the City's water system, such improvements to include, but are not limited to, water delivery and seismic improvements, water quality improvements, water supply improvements, and watershed and environmental improvements as set forth in the San Francisco Public Utilities Commission's Capital Improvement Program (the "CIP"), as such CIP may be amended from time to time; the "City's water system" shall mean the entire water supply, storage, treatment and distribution system and auxiliary and related facilities under the jurisdiction of the Public Utilities Commission, as such system may be modified and extended from time to time; "other forms
