RE: Donation of holiday snowflake light decorations

The Market Street Association, a not-for-profit organization, would like to donate our Market Street holiday outdoor snowflake light decorations to the San Francisco Public Utilities Commission. Over the past ten years our organization has been purchasing these 5X5 LED snowflakes and placing them on the historic "Path of Gold" lampposts along Market Street.

Several new snowflake lights were purchased each year. Over the past ten years we have accumulated 276 snowflakes valued at approximately \$134,757.00.

We are hopeful that the SF PUC will continue to hang these holiday decorations on Market Street.

Please feel free to contact me if you have any questions or concerns.

Thank you,

Carolyn Diamond  
Executive Director
