Total								12

Comments (If you are not in compliance with Reflectiveness/Vacancies/Representation, please provide a detailed and succinct narrative on how you plan to comply): In late 2014, the Membership Committee chose to suspend the new member application process in preparation for an upcoming merge with the HIV Prevention Council. However, in order to better reflect the demographics of the local HIV epidemic, the Membership Committee recently decided to re-open the application process. In September 2015, the Membership Committee will be interviewing four applicants, two of whom are African-American and one who is Latina.
