Hello,

I'm reaching out to express my support for Supervisor Mandelman's "A Place for All" legislation.

For too long, the city has spent more and more money on homelessness without a concrete plan and the number of people forced to live on the streets has only increased.

I believe we need to end the homelessness crisis and that we should efficiently use our city's resources to shelter as many people as possible. Supervisor Mandelman's "Place for All" would finally require the city to develop a plan to do that.

I hope you will support this plan.

Thank you.

Sebastian Gallese

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

The solution for homelessness is housing, but the waiting line for housing cannot be on our streets. It's time for our City to provide adequate shelter to end our street sleeping crisis. I join with RescueSF in urging you to support "A Place for All". "A Place for All," sponsored by Supervisors Mandelman, Haney, Stefani, Melgar, and Mar, establishes a City policy to provide adequate shelter for people living on our streets. It requires the City to develop an implementation plan that expands the number and types of shelter, including tents, cabins, navigation centers, and traditional shelter. The Board of Supervisors will have an opportunity to review the plan, costs, and funding sources before approving the final plan. This is a sensible approach. Please pass "A Place for All" (File #220281) out of committee.

Thank you.

Sincerely,

William Jaeck
District 8 resident

Dear Supervisor Ronen,

I'm a resident of District 9. I'm reaching out to express my support for Supervisor Mandelman's "A Place for All"

While permanent housing is obviously the best option, shelter that meets people where they are is much better than our current approach. Tiny houses, safe spaces to pitch a tent...all of these are imperfect but much better than constant harassment while sleeping on the street and rising tensions between unhoused and housed neighbors.

The current legislation to require the city to come up with and consider a plan to shelter our unhoused population is a small step in the right direction.

Please do not let the perfect be the enemy of the good. Let's improve the circumstances of our unhoused in whatever ways we can, as quickly as we can.

Thanks,
Amy Lamboley

The solution for homelessness is housing, but the waiting line for housing cannot be on our streets. It's time for our City to provide adequate shelter to end our street sleeping crisis. I join with RescueSF in urging you to support "A Place for All."

"A Place for All," sponsored by Supervisors Mandelman, Haney, Stefani, Melgar, and Mar, establishes a City policy to provide adequate shelter for people living on our streets. It requires the City to develop an implementation plan that expands the number and types of shelter, including tents, cabins, navigation centers, and traditional shelter. The Board of Supervisors will have an opportunity to review the plan, costs, and funding sources before approving the final plan. This is a sensible approach.

Please pass "A Place for All" (File #220281) out of committee. Thank you.

Dear Supervisor Mandelman,

I so admire your leadership on mental health, housing and safe public spaces!

I'm a resident of District 8. I'm reaching out to express my support for Supervisor Mandelman's "A Place for All" legislation.

For too long, the city has spent more and more money on homelessness without a concrete plan and the number of people forced to live on the streets has only increased.

I believe we need to end the homelessness crisis and that we should efficiently use our city's resources to shelter as many people as possible. Supervisor Mandelman's "Place for All" would finally require the city to develop a plan to do that.

I hope you will support this plan.

Thank you.

In the decade that I have lived in San Francisco I have witnessed the homeless situation reach unimaginable and unacceptable depths. In a city with so much wealth and voters who have said 'yes' repeatedly to more funding to address this problem with little to no success nor accountability - it is time for new approaches.

The solution for homelessness is housing, but the waiting line for housing can no longer be on our streets. It's time for our City and you, our government officials, to provide adequate shelter to end our street sleeping crisis. I join with RescueSF in urging you to support "A Place for All."

"A Place for All," sponsored by Supervisors Mandelman, Haney, Stefani, Melgar, and Mar, establishes a City policy to provide adequate shelter for people living on our streets. It requires the City to develop an implementation plan that expands the number and types of shelter. In my opinion, the City should also outlaw setting up residence on our city streets and create deterrents to having other cities and states dump their homeless on San Francisco streets. Set up a tracking mechanism and bill their home city or state back for the expenses we incur for caring for their homeless.

The Board of Supervisors will have an opportunity to review the plan, costs, and funding sources before approving the final plan. This is a sensible approach.

Please pass "A Place for All" (File #220281) out of committee. Thank you.

Hi everyone,

I think you know Mandleman introduced some hollow legislation entitled A Place for All which basically calls on city to expand massively expand shelter without any funding attached and without looking at exits into housing to ensure turnover. We are trying to amend legislation to look at whole system, but also to bring back the 311 system.

DHS is saying that 311 system led to empty beds which we need to call out as wrong.

Funny they are bringing that up now after saying it was a technical issue before and now suddenly they are saying 311 is unable to get in touch with folks and beds go vacant. Even though how it worked before was folks would go into a drop in or call 311 when they knew they were getting close to the top of list and would give people beds if they are close to the top.

They want to have HOT control shelter access to have for sweeps.

THIS IS SO MEAN -- ELDERLY PEOPLE HAVE NO WAY TO GET SHELTER WHEN THEY WANT IT JUST SO CITY CAN CONTROL ACCESS.

There are 9k people passing through our shelter system each year, and an answering machine ain't going to cut it.

Can you call in or show up to support amendments???

The call in instructions are below.

The item is number 3, Thursday 5/12 at 10 am is when committee starts, and probably come up around 10:30 am

[Here](#) is link to detailed information and talking points.

Main idea is: DON'T SUPPORT THIS LEGISLATION UNLESS YOU CHANGE IT TO LOOK AT WHOLE SYSTEM AND BRING BACK 311 SHELTER RESERVATION SYSTEM.

RE: Inner Mission Neighbor Association urges you to support "A Place for All" - File # 220281

Dear Supervisors -

My organization Inner Mission Neighbor Association supports A Place for All legislation sponsored by Supervisors Mandelman, Haney, Stefani, Mar, and Melgar. It creates a City policy to shelter all who will accept it. It also requires the City to develop an Implementation Plan with a budget so that our Supervisors and City officials can then devise a plan to fund it.

The solution for many who are experiencing homelessness is housing. However, the waiting line cannot be on our streets. We need enough interim shelter to enable those who want shelter to get off the streets.

Nearly 90% of a sample of San Francisco voters believe that homelessness and street behavior has gotten worse. And 74% rated interim shelter as a high priority to address it. ([2021 CityBeat Poll sponsored by Dignity Health.](#))

Please vote for "A Place for All" (File #220281) to provide those living on our streets with a safe and stable place to shelter while they await housing.

Subject: I support "A Place for All" to end street homelessness

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor Stefani,

I'm a resident of District 2. I'm writing in support of Supervisor Mandelman's "A Place for All" legislation.

We need to end the homelessness crisis and we should use our city's resources to shelter as many people as possible. Supervisor Mandelman's "Place for All" would require the city to develop a plan to do that.

I hope you will support this plan.

Thank you.

James Forcier

RE: Support for Shelter Expansion Program

Dear San Francisco Board of Supervisors,

We are writing in regard to Supervisor Mandelman's "A Place for All" legislation. San Francisco continues to struggle to provide shelter and housing solutions for people experiencing homelessness. At the last Point in Time Count, there were roughly 8,000 individuals experiencing homelessness with over 5,000 of them being unsheltered. We need to ensure that we have a diverse set of housing options available, including robust temporary shelter facilities for those who may only need a short stay or those who are waiting for a permanent housing placement. We support the key elements of this ordinance, including the need to offer someone experiencing homelessness in San Francisco a safe place to sleep, a program implementation plan, and a multitude of options for shelter types.

However, our support for this direction is not an endorsement for any specific site, but rather an endorsement of the need for more shelter solutions and our interest in seeing a well thought out plan on how to get there.

Additionally, it is critical that the City ensures that the shelter sites maintain cleanliness and safety for those seeking shelter, but also for the employees, visitors, and businesses nearby. Visitors to San Francisco and employees of the tourism industry express concern for those who are unsheltered and have deteriorating health conditions on our streets. These adverse perceptions contribute to the difficulty that San Francisco is having to rebound and recover economically.

In 2019, San Francisco welcomed over 25 million visitors who spent over \$11 Billion during their stay and generated over \$770 Million in taxes and fees for our City's General Fund. In order for San Francisco and its tourism industry and associated jobs to recover to pre-pandemic levels, the City needs to continue exploring ways to support the most vulnerable in our communities and this ordinance is a move towards a new set of options and temporary solutions for those who are unhoused.

We look forward to continuing to partner with the city to find new solutions for shelter and housing.

Thank you,

Joe D'Alessandro
President and CEO

Re: A Place for All Ordinance File #220281-SUPPORT

Dear Supervisor Mandelman,

On behalf of the Building Owners and Managers Association (BOMA) San Francisco, I write to you in support of your A Place for All Ordinance, file #220281, which would require the Department of Homelessness and Supportive Housing to submit to the Board of Supervisors and the Mayor a plan to implement a program to provide unsheltered persons in San Francisco with a safe place to sleep overnight, including a cost estimate of implementation, and request that HSH fully implement the program.

BOMA supports this proposal's objective of working towards policy solutions that present sustainable and scalable alternatives for San Franciscans experiencing homelessness other than sidewalks, parks, or plazas as shelter of last resort. Although we recognize the critical need for more affordable housing and permanent supportive housing units in our City, we believe that the ultimate goal of ending street homelessness will require creative policies that provide both immediate and longer-term solutions. BOMA believes that we must prioritize workable policy alternatives that promote safety while affording individuals experiencing homelessness with more opportunities to be connected to health, sanitation, and housing. We acknowledge that there is no "one size fits all" approach to providing these safe spaces and encourage further discussion on the expansion of policies that meet these goals.

Lastly, while we do acknowledge the critical role that more robust supportive housing and triage systems will play in ending homelessness, we support this proposal's focus on prioritizing the increase of interim shelter capacity. It is essential that our City promotes policies that will address unsheltered homelessness in a manner that is as cost effective and rapid as possible. We stand ready to find ways in which our business community can be proactive in finding solutions to this crisis. Thank you for authoring this important legislation.

Sincerely,

John R. Bryant
CEO, BOMA San Francisco

RE: Support A Place For All

Dear Chair Mar and Supervisor Stefani,

On behalf of the board of directors of the Castro Community Benefit District (Castro CBD), I am writing to update the attached letter of support the Castro CBD sent last February in support of A Place for All.

The board of directors, still, whole heartedly supports A Place For All and understands that enough shelter, with a pathway towards recovery and permanent supportive housing, for our unhoused neighbors is a critical part of the solution to addressing the crisis of homelessness in San Francisco. Housing takes a long time to build, even under the best conditions. We support the creation of permanent supportive housing. But, without enough shelter, thousands of people will continue to live on the sidewalks of San Francisco, continue to use substances in public view, continue to experience escalating mental health crisis on the street, and continue to die on the sidewalk, in public view.

The Castro CBD's Community Ambassadors have recently been trying to help a young unhoused couple find shelter. The wife suffers from PTSD and has been sober for 3 months. The husband doesn't use and has been trying to get on his feet and has begun applying for jobs. But, living in a tent in Land's End, yes, they have a tent in Land's End but come to the Castro during the day, makes it difficult to keep their phone charged and to be clean and organized to follow through on job searches and interviews. They came to our attention in early April and asked for help

Castro Community Benefit District
693 14th Street
San Francisco, CA 94114
www.castrocbd.org

finding shelter, but because of the wife's PTSD, she needed to stay with her husband, they needed a couples bed. We connected them with SF HOT and we stayed in touch with them on and off for 3 weeks. At one point, SF HOT told them, they just gave their last two couples beds away, they had two separate beds, but, nothing for both of them together. In the entire city there are only a handful of beds available on any given day. This is a couple who is sober, the husband is employable and the wife desperately needs mental health services and a stable place to live so she can begin to function and not slip back into substance use. They probably do not need permanent supportive housing they need shelter to stabilize for a few months. But the city cannot offer them even shelter. Data is not on their side. The data shows that the longer people stay on the streets the greater chance of them remaining on the streets. In this particular situation, the wife is at risk of slipping back into her substance use disorder. If that happens, both the husband and wife become even more destabilized.

A Place For All is focused on increasing shelter beds. It mandates the city to create a detailed plan for creating shelter for all. This focus is important, and it is important to keep the existing city services developed to triage and place people in shelter intact.

Thank you for considering this legislation and we urge you to support A Place For All.

If you have any questions, please contact me at: andrea@castrocbd.org or 415-500-1181.

Sincerely,

Andrea Aiello
Executive Director

Sent: Thursday, May 12, 2022 11:49 AM
To: Somera, Alisa (BOS)
Subject: Comment on Agenda Item 3, "A Place for All," BoS Public Safety & Neighborhood Services Committee

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the Members of the BoS Public Safety & Neighborhood Services Committee:

My name is Conrad Amenta, and I'm the Executive Director of the San Francisco Marin Medical Society. The Medical Society is a nonprofit association representing over 3500 physicians in San Francisco and Marin counties, a large majority of which are in San Francisco.

I'm writing on behalf of the Medical Society's physician leadership and would like to express the Medical Society's support for this proposed ordinance.

Our physician members are on the frontlines of care to our most underserved and underrepresented patient populations, and so bring a unique perspective to issues of housing and homelessness.

The shortage of safe, sanitary shelter options in San Francisco has a tangible effect on the health outcomes of our communities. Of specific concern to the Medical Society is that a lack of shelter capacity and a lack of the opportunities for linkage to social services which arise from having adequate shelter capacity can contribute to unhoused individuals arriving in already overwhelmed emergency rooms ill-suited to provide for their needs.

This places further strain on our physician workforce and on our hospitals, which have been stretched to the limit by the COVID-19 pandemic. Additional strain on our emergency rooms affects everyone in our communities, from reducing overall capacity at hospitals, to increasing physician burnout, which is at an all-time high due to the pandemic, to increasing the cost of care, which costs are ultimately passed on to health insurance policyholders and the public purse.

While we respect the issue is complex and that the proposal will require ongoing dialogue regarding implementation, and we agree that we should continue to work toward expanding permanent housing in our community, the Medical Society applauds the initiative's goal of offering unhoused individuals safe and dignified alternatives on a timeline that will reduce the current strain on our emergency rooms and physicians. We believe approval of the proposal will advance this cause and are enthusiastic to participate in the dialogue.

Thank you for your time and consideration, and the opportunity to provide this comment.

All the best,
Conrad

Date: May 13, 2022
To: San Francisco Board of Supervisors

Dear Board of Supervisors,

The Duboce Triangle Neighborhood Association (DTNA) Board of Directors present this letter in full support of ***A Place for All***, the legislation introduced by our Supervisor, Rafael Mandelman.

April 11, 2022, Supervisor Mandelman and Legislative Aide, Jackie Thornton attended our the DTNA Public meeting to take questions. Neighbors and the board alike, discussed what type of impact this piece of legislation would have. Safety of our neighbors is a DTNA priority and we want an environment that protects all our neighbors, including those seeking shelter. This piece of legislation isn't the fix to this very complex problem, but it is an opportunity to help in real time those seeking safe shelter.

San Francisco can do better. Waiting until 10-15,000 affordable housing units are built is not realistic. These are real people, with real needs, they need more shelter now. Expanding shelter and creating additional options is key. Providing the tools for Department of Homelessness and Supportive Housing to act within reasonable time, simply makes sense. People's health, safety, and lives are at stake, and that's why DTNA supports *A Place for All* legislation.

Thank you for considering this legislation. *A Place for All* is a step forward; it's not the end-all in legislation but it is the beginning. Help us create a psychological sense of security that people need and let's get more shelters in place.

If you have any questions, please contact me at, frank.tizedes@dtna.org or 415-595-5966

Regards,

Frank Tizedes

Subject: Vote no on "A Place for All" unless rewritten
Date: Thursday, May 12, 2022 10:48:19 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Vote no on "A Place for All" unless rewritten to not just focus on expanding and comparing costs of shelter alone but to include a comparison and expansion of prevention and housing. Housing and keeping people housed not only solves homelessness, but it is key to freeing up shelter space. In addition, we are concerned that because this legislation is unfunded, it could lead to cannibalizing working solutions such as housing and prevention. Lastly, Mandleman has made clear his intentions - he wants the system to have shelter beds to offer in order to remove people from public spaces. Any plan aiming to end unsheltered homelessness needs to move us towards ending homelessness, not just provide justification to criminalize unhoused people in public space through warehousing humans. We need a thoughtful and data driven approach to homelessness and "A Place for All" as written gets us "A Place for Nobody".
