I consider myself a people person who can get along with just about anyone. I'm just as comfortable talking to the CEO of tech startups, as to lawyers and judges, as to homeless people, as to gangbangers. I received my education at the University of San Francisco, and was quickly drawn to the tight knit family of the tenderloin. I worked in and around the neighborhood for 5 plus years, and watched many friends go through addiction, dealing, and crime. I've seen the city's responses over the years, and what works and what doesn't. I watched when the city hosted community events for kids at the very intersection that drug dealing took place. I've watched convenience stores turn into children's community centers. From a time in my life five to ten years ago when I came very close to joining those of my community members who lost their lives on to Tenderloin drug dealing, I've come a long way. Now, I work closely with legal professionals every day, from UC Hastings to my other office - on opposite edges of the Tenderloin. I still walk through the Tenderloin every day to get my breakfast (Un cafecito) and say hi to friends running community organizations. I'm blessed to have worked at Second Chance in San Diego - which gave me a basic training in restorative justice at SDSU - and to have been able to save many young peoples' lives - either from prison or death. At thirty years old, I've spent years of my life brushing elbows with drug dealers, to where I am now brushing elbows with judges and politicians. I can speak the legal language, and that of the street, and I am the intelligence and the experience to come up with innovative solutions, understand the ideas of others, and convey my thoughts concisely. I spend much of my free time thinking of the kinds of policies and businesses I'd promote if I had a hand in the legal system, and believe I'd be an important addition to this task force. In my current job as a legal media producer and a teacher, I spend most of days listening to - and speaking with - legal thought leaders. I have only recently had to relocate out of the city after facing an owner move in eviction last month, and being forced to the East Bay for cheaper rent. I still work in the Tenderloin - where my girlfriend still lives - and spend more of my time there than anywhere else.

Business and/or professional experience:

-Educator at Second Chance:
-Worked with 16-22 year olds in prison deferment programs or recently incarcerated individuals helping them to avoid becoming repeat offenders.
-Received restorative justice training to work towards replacing prison sentences for drug dealers and criminals with alternative forms of justice, such as meeting with victims' families
-Work closely with UC Hastings Innovation Center
-Helped organize tenderloin based thinktank to address homeless legal gaps (mainly issues related to accessing identification
-Work at a college (makeschool) aimed at giving low income and minority students a way to get high paying jobs in their own city for no tuition
-Own successful and influential legal media company working closely with justices, judges, members of congress, professors, and other legal thought leaders to promote access to justice and restorative justice practices.
-Facilitated interview with new DA
-Ran a community organization throwing art and music shows for - and featuring - community members
-worked with congressional candidates to organize their events.

Civic Activities:

-member of Tenderloin Community Council
-volunteer at Homeless Advocacy Project
-volunteer at multiple Tenderloin based community groups.
-host podcast featuring members of tenderloin
-20+ years volunteering with low income, addicted, and at risk populations

I am a highly energetic, young, and determined 66 year old, but in this job experience with these areas for decades might be a good thing. I have been involved with the drug world since my teens, first as a user for thirty years with experience with virtually every CNS (central nervous system) drug, a long and varied list too numerous to mention. I understand the subject well enough to have written a book on drugs and the drug life called "Drug Realities" which can be found online, but it's visibility was wrecked by a mistake made by my webmistress. It was and is a very good book on the subject. I have been in recovery with a few very brief relapses since 1999, and do not drink or take any street drugs for over two decades.
I have been in twelve step groups off and on since 1993, when I was treated for multiple addictions at a Psychiatric Hospital. This was experience and I agreed to be treated in New York City in 2009-2011 at the Bellevue Hospital Chemical Dependence Outpatient Program, which I attended daily for two years, four hours a day. The program included many different therapists and therapy and was immensely instructive. I am very well connected with street life and understand all kinds of related subject, including the recognition that those deeply in drug dealing and consuming are sometimes in a different reality than those of us who are clean, and how to bridge that gap. I have excellent communications skills after working in telephone sales and fundraising for over a decade. I know how to paint mental pictures. I SPEAK EXCELLENT SPANISH which seems important and also DUTCH and Portuguese after living in a total of 10 countries.
I am extremely empathetic, yet know toughness and firmness, but people with all kinds of problems find me exceptionally easy to deal with and trust. I know so very well the differences between different drug addictions and more importantly today, the difference between REAL AND FAKE DRUGS, poisonous ingredient substitution like fentanyl of poisonous cuts (in street drugs). I have ABSOLUTELY no racial or any similar type negative attitudes and often enjoy people of other groups than mine more than my own.
I have written numerous sales pitches, business plans, funding applications, and can breeze through any paperwork that people being impacted would have to be saved or fixed out for any reason and can analyze street situations quickly and, perfected with a small amount of experience, have no fear of the street and feel confident moving through it.
I HAVE RECENTLY TAKEN CLASSES FROM THDCC AND HOSPITALITY HOUSE IN COMMUNITY ADVOCACY, PROTEST, AND THE MAKING OF CHANGE. I AM COMPLETING A VIDEO MAKING CLASS, WHICH COULD BE GOOD IN AN OCCASIONAL CIRCUMSTANCE. I HAVE CONCERNED OF WRITTEN BUSINESS PLANS FOR, FUNDED, AND OPENED THREE HIGHLY CREATIVE CORPORATIONS (WITH SHAREHOLDERS), TWO OF WHICH WERE GREAT INNOVATIONS, ONE OF THOSE WAS NUMBER ONE IN THE WORLD ON THE YAHOO SEARCH ENGINE, NUMBER ONE ON THE FIRST PAGE, FOR FIVE YEARS.
I HAVE NO DIRECT EXPERIENCE WITH HELPING PRISONERS RE-INTEGRATE BUT HAVE NO TROUBLE DEALING WITH OR IN SOME CASES BEFRIENDING THEM, IF APPLICABLE, AND NO FEAR OF LEARNING MORE IN THIS AREA.
MY SISTER WAS A HUGE ADDICTED - TO - PAINKILLERS PERSON DUE TO EXTREME PAIN ASSOCIATED WITH ENDOMETRIOSIS AND OTHER PEOLVIC DISEASES, AND SHE DIED OF A DRUG OVERDOSE AFTER SUFFERING 17 YEARS, WHICH WAS VERY DESTRUCTIVE TO MY FAMILY - IN ALL WAYS, ALL OF IT, BUT IT WAS EXPERIENCE.
SORRY I AM WRITING TOO MUCH ASK ME FOR MORE, THERE IS MORE. I AM AN OPERATOR AND A SMART, GOOD, BUT TOUGH PERSON WHO DOES NOT PLAY AROUND!

Business and/or professional experience:

I have spent most of my adult life as a salesman in one way or another, of many different products and services. I opened the first company in internet history advising people about personal problems without the use of phones, photos, or Skype or any visuals. My working of written correspondence, was number one in the world on the then prevalent Yahoo search engine, even a bit before Google. I have had no other corporate structured businesses with Shareholders. I funded (search for angel capital) all three companies myself and the one mentioned above was especially successful, and I performed all necessary duties myself.

I have been a pawnbroker. I am an antiques and jewelry expert after 40 years of buying and selling. SELLING is a necessary skill in any type of street work involving an effort to influence people to behave in different ways than they are. I speak excellent Spanish, and have lived in Honduras, where many of the street crack dealers are from. I know all about the big big money fake crack business in San Francisco. I live in a building full of death, overdoses, drug dealing and addiction, and outside the door are a horribly many group of total crack addicts who must deal with moderately every day, but I deeply resent the dealers making thousands of dollars a day poisoning other people with poisonous, fake drugs, which most "crack" and "speed" are these days. I have done many things professionally, but more important I think is my massive experience with the drug world in San Francisco and in many other cities. I live right here in the Tenderloin, obviously. I do not hesitate to call myself a master communicator and painter of mental pictures, both so important for this. My massive experience with drugs of every type in my teens, twenties, and thirties mainly, will not hurt, and I can communicate ABOUT drugs, recovery, harm reduction, protection from overdose and response to same, situations where police will not arrest dealers because they know (without admitting it) that it is difficult to prosecute people for possession or sale of fake drugs that have no illegal substances, although some drugs, the Opiates, Heroin, Fentanyl and pain pills however are very real. I AM ON BUPRENORPHINE and it has kept me off opiates and opioids since 1998. I am squinted already with the pharmaceuticals that treat addiction, such as Buprenorphine, Methadone, Nacran, and many others. I can explain without playing doctor much about these aids to quitting. I also know how to describe other avenues to recovery to those who are not yet far down the addiction path. If you want more info, please ask.

I have no problems with working with, even joking with, the police who seem to be quite human in San Francisco, relatively

IN THE PAST, I HAVE STAYED AT SHELTERS AND KNOW THAT WORLD TOO, AS THE LIFE OF A PERSON LIKE ME HAS NECESSARY UPS AND DOWNS.

I AM CURRENTLY STUDYING INVESTMENTS LIKE BITCOIN AND OTHER CONTRA/DOLLAR AND POSSIBLE ESCAPE ROUTES OUT OF POVERTY TO PEOPLE, IF THEY WANT TO KNOW.

Civic Activities:

MANY CIVIC ACTIVITIES AND TRAINING FOR THEM AND OTHER THINGS WITH TNDC AND HOSPITALITY HOUSE. STREET DEMONSTRATIONS, A TRIP TO SPEAK OUR MINDS ON ISSUES IN SACRAMENTO BEFORE STATE GOVERNMENT, DEMONSTRATIONS AT CITY HALL, I KNOW MATT HANEY AND WORKED TO GET HIM ELECTED. MY EMPHASIS IN THE PAST HAS BEEN MORE STREET AND LESS CIVIC BUT THAT CAN BE ALTERED.

SORRY THIS SOFTWARE DOES NOT UNDERLINE SPELLING ERRORS. THANKS

APPLICATION FOR CITY AND COUNTY BOARD FOR STREET LEVEL DRUG DEALING
TASK FORCE –

TO BE RECEIVED WITH THE APPLICATION FOR

POSITION NUMBERS 2,3,4,5

My experience with dealing with a broad spectrum of street life, drugs, drug-related life issues, treatment, recovery, relapse, harm reduction, and a wide variety of issues and categories of life in the drug world IS VERY EXTENSIVE. I am 66 years old but very youthful and able to function with rapidity. My greatest abilities involve things like:

I am a speaker of four languages including excellent Spanish, and have lived in Honduras, where a great amount of street dealers in San Francisco hail from for a temporary period. I have seen the same Hondurans here and then later in Honduras, where dealing \$\$\$ money saved over around 18 months of dealing on our streets will buy them a small house when they return to their country.

I am very experienced with gay, transsexual, bisexual, and "straight" communities and can blend in to any of these. I have massive experience with the drugs themselves, and have written a serious book, "DRUG REALITIES" which is findable on the internet. This is a good and serious book but a major mistake by the editor/" Webmaster" damaged its salability. It is very real however and can be had as a Kindle. I have been in recovery with or without 12 step technologies, and with the help of some medications, for about 25 years. I have been homeless and have stayed in shelters in San Francisco, Tucson AZ and New York. I have been through and am aware of programs available both for re-orienting people into supportive housing and work and hooking them up with phone.

I have taken courses at TNDC and Hospitality House aimed at Community Organizing and Self Discovery. I studied Criminal Justice at Heald College on Howard Street. I was not able to graduate but only because of my inabilities with math. I have a high level of understanding and ability to relate to criminality with or without high levels of judgement or with different attitudes for different offenders and addicts. I am also not afraid with dealing with people of any race, sexual orientation, or any other feature of that nature. I am aware and can speak at length about the nearly impossible hold that addiction and drug use have on a

MANY OF THEM on the streets of the city, and I need to know what kinds of leverage, and how much force, will be the expected norm in this new kind of policing.

In 2009-2011, I was treated at the Bellevue Hospital Chemical Dependency Outpatient Unit for two years, with usually four therapists giving various types of therapy per day five days a week. It is, again, unclear to me how forceful this process is expected to be, and am very curious to know, although my condition will permit me to function at any level. I also know the difference between real and fake drugs like "crack" and "speed", know how the fake drugs (as sold by the Honduran dealers, among others), are extremely toxic and can be deadly long or short term, and how this endangers those who would deal as well, legally. I believe the greatest problem with drugs at this time is that what is being sold is chemical poison, and great harm is being done to the community by it, by fentanyl laced drugs, by fentanyl itself, and by the tendency of today's illegal drug manufacturers to be more involved in killing their clients than they are in serving them.

Those who deal or would deal need to be educated about the financial hardship, famine, and homelessness that their poisonous products produce. What leverage non-policial street drug dealing efforts can use is something I am very curious about.

I also know how to work with "THE GREAT DENIAL" – The sheepish, uninformed, and unchallenging of fake information the majority of the people who are the most critically in need of greater and truer awareness of what is going on both in San Francisco and the United States that CONSTITUTE GREAT POSSIBLE DANGERS REGARDING GOVERNMENT INCARCERATION (POSSIBILITY), POSSIBLE LOSS OF BENEFITS, ETC. puts them. And how essential it is and how there is an increasingly greater need to stop throwing their money at poisons, as, as many of their supportive services are not to be taken for granted and economics are likely to become more and more a great problem for the homeless and drug addicted communities. They need much work in this area. I AM FASCINATED TO LEARN THE BASIC CONCEPTS AND TECHNIQUES WE WILL USE IN NON-POLICIAL POLICING OF DRUG DEALING. I DO BELIEVE, HOWEVER, IN THIS APPROACH. I DO NOT

I owned a business in Los Angeles in the 1990s that specialized in helping homeowners who could not sell their properties to get them to market and sell them.

I owned an editing and ghost writing business in Tucson, Arizona, for two and a half years.

On LinkedIn, I was chosen as the number one writer out of 7,003 members of the Spiritual Writers club, having my photo featured on that sub-page of the LinkedIn website, along with three other writers only. I was number one for the year and a half I kept contributing to daily.

The point is not that I have done a huge quantity of work with the street, but that I am very knowledgeable and adaptable and have the verbal, written, sales (control and influence) and lingual abilities to handle this work. I am not applying as a hugely community based work experienced person, but as someone who has an unusual amount of qualifications in the areas of drugs, knowledge of drugs, smuggling and distribution of drugs, The laws as they apply to drug dealing, alternatives to dealing drugs(which I have never been involved with but I have seen and been around for years); interdiction with dealers of toxic, dangerous fake drugs, (am I the only ones who does not group these toxic salads as having its own problems, challenges, and areas of expertise brought into need by these substances? and an encyclopedic knowledge of CNS (Central Nervous System) drugs themselves. Some say that "past community involvement" is the number one qualifier for these positions, but I believe that other areas of expertise can be just as valuable, while accepting that the art of "Policing without Police or Penalties" is a new subject for me that does not in any way intimidate me, as I have always shown that I can blend in with virtually any community, nationality, and even mafia-like group mostly as a function of my knowledge of their countries and lives and difficulties in those native countries.

FOR CIVIC ACTIVITIES, SEE THE RESPONSE ON THE REGULAR APPLICATION FORM AND ACCEPT THAT MY CONSIDERABLE EXPERIENCE IS STREET RATHERN THAN GOVERNMENT, ALTHOUGH I FEEL COMPLETELY CAREFUL TO ATTEND TO ALL CIVIC ACTIVITIES INCLUDING MANIFESTOS, DEMONSTRATIONS, COMMUNITY ACTIVISM, ETC. I HAVE RECENTLY BEEN TRAINED IN THESE AREAS.

Pursuant to Charter section 4.101 (a)1, please state how your qualifications represent the communities of interest, neighborhoods, and the diversity in ethnicity, race, age, sex, sexual orientation, gender identity, types of disabilities, and any other relevant demographic qualities of the City and County of San Francisco:

After immigrating from S. Korea, I grew up in low-income housing and experienced a range of community violence and drug dealing. As a young child, my family lived in with undocumented families from Latin countries working in the service and farming industry on the Central Coast. I spent my adolescence living in government subsidized housing predominately occupied by African American and Southeast Asian families. While my childhood was spent in a smaller city, I was exposed to domestic violence, open-air drug dealing, and frequent property crimes. Racial and ethnic tensions were also significant between African Americans, Asian refugees and immigrants, and the predominately White residents of the surrounding neighborhoods. These early experiences informed my career pursuits in community mental health and social justice.

Business and/or professional experience:

I am a licensed clinical psychologist (PSY23558) and have worked at GLIDE Foundation since 2015, first as Clinical Director and now as Sr. Director of Programs. My speciality is in trauma, community violence, and program development for marginalized communities living in poverty. My experience in foster care included working with SUD, including co-occurring disorders, use of methamphetamine, and harm reduction approaches. I currently oversee GLIDE's Harm Reduction Programs as well as other programs providing basic needs, navigation, and case management for individuals, children, and families.

Civic Activities:

In 2018, I led the Safer Inside Demonstration Project in collaboration with SF AIDS Foundation, Drug Policy Alliance, Drug User's Union, St. Anthony's and other community organizations supporting drug user's health and harm reduction policies. This full-scale, operational demonstration model of an overdose prevention site within a multi-service agency. The week-long project hosted 70 tours for nearly 700 attendees, 147 organizations that included community-based organizations, city departments, government offices, medical institutions, and universities. The press tour, which featured Mayor London Breed, was covered by 30 media outlets: 10 Local TV Stations, eight local print/web news, three national print/web news, three radio news stations, and several representing Chinese and Spanish languages. I represent GLIDE on the Domestic Violence Consortium Steering Committee and TLHIP's Community Advisory Committee.
