Subject: Report of Assessment Costs for Sidewalk and Curb Repairs through the Public Works Sidewalk Inspection and Repair Program

Dear Members of the Board:

The California State Highway Code Section 5611 and San Francisco Public Works Code Section 706 require property owners to maintain the sidewalk adjacent to their property. Under the proactive Sidewalk Inspection and Repair Program ("SIRP"), Public Works inspects and notifies property owners of sidewalk defects requiring repair.

Under SIRP, property owners may elect to have City contractors perform the necessary abatement work and have the repair costs placed on their property tax.

Alternatively, if a property owner does not request City abatement and fails to repair the defects themselves, the City will repair the sidewalk and bill the property owner for inspection fees and repair costs. If the property owner fails to pay the bill pursuant to the provisions of Public Works Code Section 706.9 and Administrative Code, Section 80, Public Works will submit an assessment for the outstanding amount to the Board of Supervisors for consideration to include in the next regular tax bill.

Enclosed for your review and approval are:

1. A list of properties that have either chosen to have the City perform the repairs and have the associated costs placed on their property tax and/or property owners who have failed to reimburse the City for sidewalk inspection and repair fees.
2. A Resolution confirming the Order. Public Works conducted eleven public hearings throughout the year to allow property owners the opportunity to dispute the area required for repair and associated costs prior to proceeding with repairs.

Please calendar this item for consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mohammed Nuru", written over a horizontal line.

Mohammed Nuru
Director of Public Works

Attachments: As noted above.
