- **Suspending the Proposition C baseline.** Previously, there was a local source/general fund baseline obligation of \$93 million.
- Baseline and budget would fund at \$73 million instead of \$93 million in the first year (FY 23-24). Creating a general fund (GF) savings of \$20 million.
- Second year (FY 24-25), the Mayors proposes to fund the baseline at \$83 million, which would generate a \$10 million GF savings for a total of \$30 million of general fund savings over two years.

BLA RECOMMENDATIONS

File # 23-0206

- Director provides a presentation on total disbursements under the CARES 3.0 program and Early Educator Salary Support Grants program during the Department's budget presentation in June 2023

What is the ECE Workforce Compensation Initiative?

San Francisco voters approved Proposition C in June 2018. It established a gross receipts tax that would provide additional City funding to support early care and education (ECE) for 0–5-year-olds. First, of its kind, Prop C underscored the need to improve the workforce conditions for thousands of early care professionals, primarily led by women of color, with one of the most important responsibilities: providing the foundation of all our children’s futures.

Workforce Compensation Initiative

The Department of Early Childhood's compensation initiative is a tiered system for agency administrators to access funding for the ECE workforce.

Based on tiers, compensation is funded based on the percentage of children enrolled with Federal, State, or Local subsidies and teacher education level.

ECE Workforce Compensation Program Descriptions

All educator registry IDs tracked to ensure no duplication of payments

CARES 3.0

1,502 Educators - \$17.5M

40 Centers, 279 FCCs, 32 SFUSD Sites

Support Type

- Stipends granted to individual ECE teachers, with stipend amounts based on level of permit/education, teaching role, full-time or part-time status, and share of students receiving ECE subsidies.

- All staff directly educating children (including substitute teachers) at childcare centers serving at least 50% of students who are subsidy eligible

1. Number of positions and grant amounts are estimated as Centers include expected hiring during the grant period; Total grant support is reconciled end of year using payroll records for the period.

Prior to DEC's Workforce Compensation Initiative

- ECE compensation data is based on city-funded programs self-reporting during the compensation planning process.
- Average hourly wage for teaching positions was \$24.00
 - **Broken down further:**
 - Lead teachers - \$27.70 p/hour.
 - Assistant teachers - \$20.60 p/hour.
- DEC is building workforce data to better understand the wages and conditions for San Francisco's teachers in centers and family childcare (FCC) homes.

Wage Enhancement for Aides, Teachers, Lead Teachers, Directors

- Launch of the Early Care Educator Compensation (EESSG) and CARES 3.0 provides wage enhancement through employer and/or stipend.
