Requesting/Inquiring: Requesting the City Attorney to draft legislation that provides requirements that all capital development projects that receive Government Funds (Local, State, or Federal) must develop and present a feasibility study that considers the build out of an on-site child care facility when constructing, rehabilitating, improving, or providing major renovations to the building.

The feasibility study will determine the need for on-site child care within the building based on the child care needs of the City's employees to be housed in the building and in the immediate surrounding area. And in order to promote the provision of high quality, affordable child care, the feasibility study shall explore options to mitigate rental and development costs for the space allocated for the child care facility; furthermore the development of the child care facility shall include the finishes, furnishings, and equipment required for use in both the interior and exterior spaces for such facilities as required by State Community Care Licensing.
