**MANDATE STATEMENT**

Section 2A.173 of the City’s Administrative Code authorizes the Airport to negotiate and execute leases of Airport lands and space in Airport buildings without undergoing a competitive bid process, as long as the original term of the lease does not exceed 50 years.

City Charter Section 9.118(a) states that contracts entered into by a department, board, or commission that (i) have anticipated revenues of \$1 million or more, or (ii) have anticipated revenues of \$1 million or more and require modifications, are subject to Board of Supervisors approval.

**BACKGROUND**

**2011 Airport Lease & Use Agreement**

According to Airport staff, there are currently 60 airlines operating at the Airport. Of the 60 airlines, 40 signatory airlines are under the Airport’s 2011 Lease and Use Agreement and 20 are “non-signatory airlines” operating under month-to-month Airline Operating Permits and Terminal Space and Use Permits. The airline lease and use agreement set the rate making methodology, legal and business terms for the operation of airlines at the airport, and gate allocation and operating procedures. Non-signatory airlines pay a 25 percent premium on landing fees and a higher security deposit compared to signatory airlines.

The original term of the 2011 Lease was July 1, 2011 through June 30, 2021. According to a February 7, 2023 memorandum from the Airport Director to the Airport Commission on the award of the 2023 Lease and Use Agreement (2023 Airport Lease Award Memo), airport staff and signatory airlines suspended negotiations of a new lease due to the impact of the COVID-19 pandemic on airport operations, and the Airport Commission approved a two-year extension of the term for the 2011 Lease for a new expiration date of June 30, 2023, which was approved by the Board of Supervisors in May 2021 (File 21-0335). The Airport and signatory airlines later resumed negotiations of a new lease and have agreed to the terms of the 2023 proposed lease.

**Residual Rate Setting Methodology**

The rent and landing fees, which are charged by the Airport to the airlines, are determined by the Airport’s “residual rate setting methodology (breakeven policy)” set forth in the 2011 Lease. Under such methodology, the rental rates, landing fees, and related fees are adjusted annually such that the total amount of airline revenues received by the Airport together with non-airline revenues received by the Airport, including concession and parking revenues, is equal to total Airport costs, including debt service and operating costs.

According to Exhibit O of the 2023 proposed lease, each airline’s terminal area rentals are calculated by multiplying the terminal area rental rate by the airline’s leased terminal space (in square feet). Terminal area rental rates are based on net terminal area expenses and gross terminal space and vary according to five categories of terminal space (i.e., the rental rates for check-in counters are different than the rental rates for baggage claim lobbies). Landing fees are

calculated by multiplying net airfield area expenses by the airline's projected share of total landed weight (in thousands of pounds). In addition, each airline pays a surcharge (which is applied to both terminal area rentals and landing fees) to cover the expenses of public space in the terminal. The Pro Forma for FY 2023-24 from Exhibit O of the 2023 proposed lease showing the calculation of terminal area rentals, rental rate structure, and calculation of landing fees is provided in Attachment 1.

### **Airport Economic Recovery**

According to traffic and non-airline revenue performance data presented to the Airport Commission on January 17, 2023, the number of enplaned passengers for both domestic and international air travel was 82 percent of 2019 levels in November 2022, and non-airline revenues were 104 percent of 2019 levels due to strong parking, ground transportation, and car rental revenues according to the meeting minutes. Although air traffic has not fully recovered, Airport staff report that airline revenues continue to be sufficient together with non-airline revenues to cover the Airport's costs due to the breakeven policy.

## **DETAILS OF PROPOSED LEGISLATION**

**File 23-0204** is a resolution that would approve the 2023 Lease and Use agreement between the City and 29 airlines to conduct flight operations at the Airport for a 10-year term from July 1, 2023 through June 30, 2033.

**File 23-0342** is a resolution that would approve the 2023 Lease and Use agreement between the City and an additional 11 airlines to conduct flight operations at the Airport for a 10-year term from July 1, 2023 through June 30, 2033.

The proposed resolutions would also affirm the Planning Department's determination under the California Environmental Quality Act and authorize the Airport Director to enter into immaterial modifications to the lease.

### **Signatory Airlines**

All signatory airlines execute the same form of the lease with slight differences reflecting the specific airline's allocation of space. To date, the Airport Commission has awarded the proposed 2023 lease to 40 airlines. The Airport Commission awarded the proposed 2023 lease to the following 29 signatory airlines on February 7, 2023:

- |   |  |
|---|--|
| 30. Air Canada                              | 36. Frontier Airlines, Inc.                              |

| 34. China Airlines, Ltd.                    | 40. WestJet  |
| 35. China Southern Airlines Company Limited |  |

File 23-0204 would approve leases between the City and airlines one through 29 above, and File 23-0342 would approve leases between the City and airlines 30 through 40. According to the 2023 Airport Lease Award Memo, the proposed 2023 lease has been offered to all airlines operating at the Airport and will continue to be offered to all other airlines, including new entrants, through the remainder of its term.<sup>1</sup>

### Key Lease Terms

Key lease terms are summarized in Exhibit 1 below, based on the 2023 Airport Lease Award Memo.

---

<sup>1</sup> According to Airport staff, there were fewer signatory airlines initially under the proposed lease (29) compared to the existing lease (40) because some airlines could not get the necessary corporate approval within the timeframe or may elect not to sign the 2023 lease.

**Exhibit 1: Proposed 2023 Airport Lease and Use Agreement Terms**

Term	July 1, 2023 through June 30, 2033 (10 years)
Rate-Making Methodology	Existing residual rate setting methodology (described above) is maintained. Signatory airlines pay terminal area rentals, landing fees, and other usage fees, which are adjusted annually by the Commission to ensure that total airline and non-airline revenues are equal to total airport costs, including debt service.
Annual Service Payment	Existing Airport Annual Service Payment to the City's General Fund is maintained at the greater of \$5 million or 15% of Airport concession revenues.
Operating Reserve and Capital Improvement Fund	Establishes an operating reserve and capital improvement fund totaling \$800 million over the 10-year term and adjusted annually for inflation.
Shared Use Equipment	Expands rights of the Airport Commission to install shared use equipment throughout the Airport, including in exclusive use spaces of airlines, to enhance operational efficiency.
Preferential Use Gate Allocation	Expands review period of airline seat capacity to allocate preferential use gates to encourage consistent use of preferential use gates throughout the year.
Gate Accommodations	Enhances rights of the City to accommodate flights at preferential use gates of signatory airlines to maximize the use of a gate and capacity and efficiency of the Airport.
Sustainable Aviation Fuel Working Group	Establishes a Sustainable Aviation Fuel Working Group of Airport staff and signatory airlines that would determine how the parties can cooperate to increase the uptake of sustainable aviation fuel at the Airport. The working group will be chaired by the Airport Director.
Ground Service Equipment Electrification	Establishes a mutual goal to achieve 100% electric-powered ground service equipment at the Airport.
Airline Relocation Costs	Clarifies financial liability for airline relocations. If an airline initiates its relocation within the Airport, that airline is financially responsible for the move and for any required secondary relocations of other airlines. If the Airport initiates relocation of an airline, the Airport is financially responsible, subject to rate recovery under the lease.
Digital Information Working Group	Establishes a Digital Information Working Group chaired by the Airport Director and consisting of Airport staff and signatory airlines that will identify data on airport infrastructure and airline operations that could be exchanged to enhance Airport operations and improve the experience of Airport guests.
Commercialization of Digital Assets	Acknowledgement that the Airport has the sole and exclusive right to control, manage, and utilize all Airport Proprietary Content.

**Operating Revenue and Capital Improvement Fund**

As shown in Exhibit 1 above, the proposed lease creates a new Operating Revenue and Capital Improvement Fund (ORCIF) totaling \$800 million over the 10-year term and increases annually to account for inflation. According to the proposed lease, ORCIF funds “may be used for any lawful purpose for which Airport Revenues may be used.” Expenditures on capital improvements from the fund are subject to the lease’s review process for capital improvements. The proposed lease establishes a minimum and a maximum annual ORCIF deposit for each year and states that no deposit shall be made to the fund in any year when the unencumbered and unallocated balance of the fund exceeds \$650 million. Deposits to the fund will be funded by airline revenues.

**FISCAL IMPACT**

As shown in Exhibit 2 below, the proposed new lease and use agreement with the 40 signatory airlines are estimated by the Airport to provide approximately \$6.1 billion in revenues to the Airport, over the 10-year lease term.<sup>2</sup> In FY 2023-24, total airline rents are budgeted at \$371.5 million, of which \$283.1 million is provided by the Lease and Use Agreement for the 40 airlines, with the remaining \$88.4 million in rental revenues coming from non-signatory airlines. Total landing fees are budgeted at \$300.4 million in FY 2023-24, of which \$217.4 million is provided by the Lease and Use Agreement, with the remaining \$83.0 million in landing fees coming from non-signatory airlines.

<sup>2</sup> File 23-0204 would generate an estimated \$5.1 billion in revenues over the 10-year term from 29 signatory airlines, and File 23-0342 would generate an estimated \$1.0 billion in revenues over the 10-year term from 11 additional signatory airlines.

The estimated revenue is based on: (a) projected terminal use and landed weight of the 40 airlines through FY 2027-28; (b) proforma terminal area rental rates from the proposed lease, increased annually by three percent per year; and (c) proforma landing fee rates from the proposed lease, increased annually by two percent per year.

As discussed above, the revenues generated by the proposed leases are calculated by the Airport's residual rate setting methodology (breakeven policy), such that the proposed new leases would continue to result in the Airport's budget being fully balanced by the revenues paid by the airlines to the Airport after considering the Airport's budgeted expenditures and all non-airline revenues. Changes to Airport expenses, including debt service, and non-airline revenues will result in changes in airline revenues.

<b>Items 9 &amp; 10</b> <b>Files 23-0204 &amp; 23-0342</b>	<b>Department:</b> Airport
---	-------------------------------

**EXECUTIVE SUMMARY**

**Legislative Objectives**

- **File 23-0204** is a resolution that would approve the 2023 Lease and Use agreement between the City and 29 airlines to conduct flight operations at the Airport for a 10-year term from July 1, 2023 through June 30, 2033.
- **File 23-0342** is a resolution that would approve the 2023 Lease and Use agreement between the City and an additional 11 airlines to conduct flight operations at the Airport for a 10-year term from July 1, 2023 through June 30, 2033.

**Key Points**

- According to Airport staff, there are currently 60 airlines operating at the Airport. Of the 60 airlines, 40 signatory airlines are under the Airport’s 2011 Lease and Use Agreement and 20 are “non-signatory airlines” operating under month-to-month Airline Operating Permits and Terminal Space and Use Permits. Non-signatory airlines pay a 25 percent premium on landing fees and a higher security deposit compared to signatory airlines.
- The original term of the 2011 Lease was July 1, 2011 through June 30, 2021. Airport staff and signatory airlines suspended negotiations of a new lease due to the impact of the COVID-19 pandemic on airport operations, and the Board of Supervisors approved a two-year extension of the term for the 2011 Lease to a new expiration date of June 30, 2023.
- Rental rates, landing fees, and related fees are adjusted annually according to the Airport’s “residual rate setting methodology (breakeven policy)” such that the total amount of airline revenues received by the Airport together with non-airline revenues received by the Airport, including concession and parking revenues, is equal to total Airport costs, including debt service and operating costs.
- The proposed lease creates a new Operating Revenue and Capital Improvement Fund (ORCIF) totaling \$800 million over the 10-year term and increases annually to account for inflation, among other changes. According to the proposed lease, ORCIF funds “may be used for any lawful purpose for which Airport Revenues may be used.”

**Fiscal Impact**

- The proposed new lease and use agreement with the 40 signatory airlines are estimated by Airport staff to provide approximately \$6.1 billion in revenues to the Airport, over the 10-year lease term, including \$3.4 billion in airline rents and \$2.6 billion in landing fees.

**Recommendation**

- Approve the proposed resolutions.

**MANDATE STATEMENT**

Section 2A.173 of the City’s Administrative Code authorizes the Airport to negotiate and execute leases of Airport lands and space in Airport buildings without undergoing a competitive bid process, as long as the original term of the lease does not exceed 50 years.

City Charter Section 9.118(a) states that contracts entered into by a department, board, or commission that (i) have anticipated revenues of \$1 million or more, or (ii) have anticipated revenues of \$1 million or more and require modifications, are subject to Board of Supervisors approval.

**BACKGROUND**

**2011 Airport Lease & Use Agreement**

According to Airport staff, there are currently 60 airlines operating at the Airport. Of the 60 airlines, 40 signatory airlines are under the Airport’s 2011 Lease and Use Agreement and 20 are “non-signatory airlines” operating under month-to-month Airline Operating Permits and Terminal Space and Use Permits. The airline lease and use agreement set the rate making methodology, legal and business terms for the operation of airlines at the airport, and gate allocation and operating procedures. Non-signatory airlines pay a 25 percent premium on landing fees and a higher security deposit compared to signatory airlines.

The original term of the 2011 Lease was July 1, 2011 through June 30, 2021. According to a February 7, 2023 memorandum from the Airport Director to the Airport Commission on the award of the 2023 Lease and Use Agreement (2023 Airport Lease Award Memo), airport staff and signatory airlines suspended negotiations of a new lease due to the impact of the COVID-19 pandemic on airport operations, and the Airport Commission approved a two-year extension of the term for the 2011 Lease for a new expiration date of June 30, 2023, which was approved by the Board of Supervisors in May 2021 (File 21-0335). The Airport and signatory airlines later resumed negotiations of a new lease and have agreed to the terms of the 2023 proposed lease.

**Residual Rate Setting Methodology**

The rent and landing fees, which are charged by the Airport to the airlines, are determined by the Airport’s “residual rate setting methodology (breakeven policy)” set forth in the 2011 Lease. Under such methodology, the rental rates, landing fees, and related fees are adjusted annually such that the total amount of airline revenues received by the Airport together with non-airline revenues received by the Airport, including concession and parking revenues, is equal to total Airport costs, including debt service and operating costs.

According to Exhibit O of the 2023 proposed lease, each airline’s terminal area rentals are calculated by multiplying the terminal area rental rate by the airline’s leased terminal space (in square feet). Terminal area rental rates are based on net terminal area expenses and gross terminal space and vary according to five categories of terminal space (i.e., the rental rates for check-in counters are different than the rental rates for baggage claim lobbies). Landing fees are

calculated by multiplying net airfield area expenses by the airline's projected share of total landed weight (in thousands of pounds). In addition, each airline pays a surcharge (which is applied to both terminal area rentals and landing fees) to cover the expenses of public space in the terminal. The Pro Forma for FY 2023-24 from Exhibit O of the 2023 proposed lease showing the calculation of terminal area rentals, rental rate structure, and calculation of landing fees is provided in Attachment 1.

### **Airport Economic Recovery**

According to traffic and non-airline revenue performance data presented to the Airport Commission on January 17, 2023, the number of enplaned passengers for both domestic and international air travel was 82 percent of 2019 levels in November 2022, and non-airline revenues were 104 percent of 2019 levels due to strong parking, ground transportation, and car rental revenues according to the meeting minutes. Although air traffic has not fully recovered, Airport staff report that airline revenues continue to be sufficient together with non-airline revenues to cover the Airport's costs due to the breakeven policy.

## **DETAILS OF PROPOSED LEGISLATION**

**File 23-0204** is a resolution that would approve the 2023 Lease and Use agreement between the City and 29 airlines to conduct flight operations at the Airport for a 10-year term from July 1, 2023 through June 30, 2033.

**File 23-0342** is a resolution that would approve the 2023 Lease and Use agreement between the City and an additional 11 airlines to conduct flight operations at the Airport for a 10-year term from July 1, 2023 through June 30, 2033.

The proposed resolutions would also affirm the Planning Department's determination under the California Environmental Quality Act and authorize the Airport Director to enter into immaterial modifications to the lease.

### **Signatory Airlines**

All signatory airlines execute the same form of the lease with slight differences reflecting the specific airline's allocation of space. To date, the Airport Commission has awarded the proposed 2023 lease to 40 airlines. The Airport Commission awarded the proposed 2023 lease to the following 29 signatory airlines on February 7, 2023:

In addition, the Airport Commission awarded the proposed 2023 lease to the following 11 airlines on March 21, 2023:

- |   |  |
|---|--|
| 30. Air Canada                              | 36. Frontier Airlines, Inc.                              |
| 31. American Airlines, Inc.                 | 37. Philippine Airlines, Inc.                            |

| 35. China Southern Airlines Company Limited |  |

File 23-0204 would approve leases between the City and airlines one through 29 above, and File 23-0342 would approve leases between the City and airlines 30 through 40. According to the 2023 Airport Lease Award Memo, the proposed 2023 lease has been offered to all airlines operating at the Airport and will continue to be offered to all other airlines, including new entrants, through the remainder of its term.<sup>1</sup>

### Key Lease Terms

Key lease terms are summarized in Exhibit 1 below, based on the 2023 Airport Lease Award Memo.

---

<sup>1</sup> According to Airport staff, there were fewer signatory airlines initially under the proposed lease (29) compared to the existing lease (40) because some airlines could not get the necessary corporate approval within the timeframe or may elect not to sign the 2023 lease.

**Exhibit 1: Proposed 2023 Airport Lease and Use Agreement Terms**

Term	July 1, 2023 through June 30, 2033 (10 years)
Rate-Making Methodology	Existing residual rate setting methodology (described above) is maintained. Signatory airlines pay terminal area rentals, landing fees, and other usage fees, which are adjusted annually by the Commission to ensure that total airline and non-airline revenues are equal to total airport costs, including debt service.
Annual Service Payment	Existing Airport Annual Service Payment to the City's General Fund is maintained at the greater of \$5 million or 15% of Airport concession revenues.
Operating Reserve and Capital Improvement Fund	Establishes an operating reserve and capital improvement fund totaling \$800 million over the 10-year term and adjusted annually for inflation.
Shared Use Equipment	Expands rights of the Airport Commission to install shared use equipment throughout the Airport, including in exclusive use spaces of airlines, to enhance operational efficiency.
Preferential Use Gate Allocation	Expands review period of airline seat capacity to allocate preferential use gates to encourage consistent use of preferential use gates throughout the year.
Gate Accommodations	Enhances rights of the City to accommodate flights at preferential use gates of signatory airlines to maximize the use of a gate and capacity and efficiency of the Airport.

The working group will be chaired by the Airport Director.
Ground Service Equipment Electrification	Establishes a mutual goal to achieve 100% electric-powered ground service equipment at the Airport.
Airline Relocation Costs	Clarifies financial liability for airline relocations. If an airline initiates its relocation within the Airport, that airline is financially responsible for the move and for any required secondary relocations of other airlines. If the Airport initiates relocation of an airline, the Airport is financially responsible, subject to rate recovery under the lease.
Digital Information Working Group	Establishes a Digital Information Working Group chaired by the Airport Director and consisting of Airport staff and signatory airlines that will identify data on airport infrastructure and airline operations that could be exchanged to enhance Airport operations and improve the experience of Airport guests.
Commercialization of Digital Assets	Acknowledgement that the Airport has the sole and exclusive right to control, manage, and utilize all Airport Proprietary Content.

**Operating Revenue and Capital Improvement Fund**

As shown in Exhibit 1 above, the proposed lease creates a new Operating Revenue and Capital Improvement Fund (ORCIF) totaling \$800 million over the 10-year term and increases annually to account for inflation. According to the proposed lease, ORCIF funds “may be used for any lawful purpose for which Airport Revenues may be used.” Expenditures on capital improvements from the fund are subject to the lease’s review process for capital improvements. The proposed lease establishes a minimum and a maximum annual ORCIF deposit for each year and states that no deposit shall be made to the fund in any year when the unencumbered and unallocated balance of the fund exceeds \$650 million. Deposits to the fund will be funded by airline revenues.

**FISCAL IMPACT**

As shown in Exhibit 2 below, the proposed new lease and use agreement with the 40 signatory airlines are estimated by the Airport to provide approximately \$6.1 billion in revenues to the Airport, over the 10-year lease term.<sup>2</sup> In FY 2023-24, total airline rents are budgeted at \$371.5 million, of which \$283.1 million is provided by the Lease and Use Agreement for the 40 airlines, with the remaining \$88.4 million in rental revenues coming from non-signatory airlines. Total landing fees are budgeted at \$300.4 million in FY 2023-24, of which \$217.4 million is provided by the Lease and Use Agreement, with the remaining \$83.0 million in landing fees coming from non-signatory airlines.

<sup>2</sup> File 23-0204 would generate an estimated \$5.1 billion in revenues over the 10-year term from 29 signatory airlines, and File 23-0342 would generate an estimated \$1.0 billion in revenues over the 10-year term from 11 additional signatory airlines.

The estimated revenue is based on: (a) projected terminal use and landed weight of the 40 airlines through FY 2027-28; (b) proforma terminal area rental rates from the proposed lease, increased annually by three percent per year; and (c) proforma landing fee rates from the proposed lease, increased annually by two percent per year.

As discussed above, the revenues generated by the proposed leases are calculated by the Airport's residual rate setting methodology (breakeven policy), such that the proposed new leases would continue to result in the Airport's budget being fully balanced by the revenues paid by the airlines to the Airport after considering the Airport's budgeted expenditures and all non-airline revenues. Changes to Airport expenses, including debt service, and non-airline revenues will result in changes in airline revenues.

# Airport Lease & Use Agreement

Use of Airline Revenues and Discussion  
of Operating Reserve & Capital  
Investment Fund (ORCIF)

May 3, 2023

SFO

# WHAT ARE THE SOURCES OF AIRLINE REVENUE?

## Two Primary Sources of Revenue Paid by Airlines to SFO

### Terminal Rent

5 categories of terminal rental rates (\$ per square foot) are set each year

- Most expensive: Ticket counters, holdrooms, service counters, kiosks
- Least expensive: unenclosed space and covered ramp level areas

### Landing Fees

Each aircraft is charged an activity-based fee set at a rate per 1,000 pounds of landed weight

# HOW AIRLINE REVENUES ARE USED

## Under Airport's "breakeven" financial framework in the 2023 Lease & Use Agreement:

### Total Revenue

Airline Revenue +  
Non-Airline Revenue  
(e.g., concessions, parking)

### Total Expenses

O&M + Debt Service +  
Deposits to Operating Revenue & Capital  
Investment Fund (ORCIF)

- To breakeven, Total Annual Revenue is set to equal Total Annual Expenses by adjusting the amount of airline revenue required each year
  - \$6.0 Billion in airline revenues (over 10 years) from the initial group of 40 airlines will be combined with revenue from other airlines and non-airline revenue to yield Total Revenue
  - Total Revenue will pay O&M, Debt Service and ORCIF deposits over the 10-year term of the lease agreement

# OPERATING RESERVE AND CAPITAL INVESTMENT FUND

**Background: Under the Airport's "traditional" breakeven financial framework (dating to 1981):**

**Virtually all capital investments were required to be bond financed or grant-funded**

- This kept near-term costs lower, but increased future costs compared to cash-funding some portion of the Airport's capital improvements

**Airport retained limited amount of liquidity (days cash on hand)**

- Days cash on hand is a key measure of financial health, but airports using a breakeven financial structure usually accept lower liquidity

# OPERATING RESERVE AND CAPITAL INVESTMENT FUND

**Purpose of ORCIF - Create a Fund that provides the Airport with:**

## **Ability to Cash-Fund Capital Projects**

A major funding source for capital investments that supplements the Airport's bond financing program

## **Improved Financial Stability**

Ability to stabilize airline rates & charges and to meet unforeseen operating needs  
(increasing days cash on hand)

# USES OF ORCIF

- **“Any lawful airport purpose”**
  - Funds can be used for Airport operating, maintenance and capital investment purposes
  - Language complies with FAA requirements regarding using airport revenue only for airport purposes
- **Most likely use is to invest in capital projects without requiring Airport to issue bonds**
  - Lower long-term cost
  - Types of possible capital investment projects:
    - ✓ Real estate acquisitions near the airport, which may require faster execution than would be feasible if a bond financing were required
    - ✓ Projects that could increase non-airline revenue
- In addition, the available balance in the ORCIF helps protect the Airport’s competitive position by providing a source for **airline rate stabilization**, if it is ever needed

# HOW ORCIF FUNDS WILL BE DISBURSED

## **ORCIF funding and uses are to be included in Airport's Two-Year Budget**

- Internal capital project review process will be used to identify capital projects that may be appropriate to be funded with ORCIF rather than bond funds, such as real estate acquisition
  - Identification of projects and uses will need an internal "Finance Committee" review to ensure that projects could increase non-airline revenue or aviation operational efficiency. The "Finance Committee" will make recommendations to the Airport Director regarding the use of the ORCIF funding
- Airlines will have a Majority-In-Interest review of ORCIF funding projects as specified in the Lease and Use Agreement for capital projects.

# Potential Projects for ORCIF Funds

- **Property acquisition to build and operate an offsite catering facility for airlines serving SFO**
- **Property acquisition to build an SFO Academy**
  - Potential uses can be a site to restart the Airframe and Powerplant license program formerly run by City College San Francisco
  - An SFO training center can be a location to introduce young students to careers in aviation
  - A location to hold Civil Service Exams for the trades
  - Training center for SFO staff and tenants
- **Purchase of a Point-of-Sale system for all concessions so SFO management can run real-time revenue reports on the purchase of goods and services**
- **Development of passenger amenities such as an on-airport gas station and convenience store for arriving and departing rental car customers**

	Once signed or stamped and dated, this document constitutes a n exemption pursuant to CEQA Guidelines and Chapter 31of the Administrative Code. In accordance with Chapter 31 of the San Francisco Administrative Code, an appeal of an exemption determination to the Board of Supervisors can only be filed within 30 days of the project receiving the approval action.	

## STEP 7: MODIFICATION OF A CEQA EXEMPT PROJECT

### TO BE COMPLETED BY PROJECT PLANNER

In accordance with Chapter 31 of the San Francisco Administrative Code, when a California Environmental Quality Act (CEQA) exempt project changes after the Approval Action and requires a subsequent approval, the Environmental Review Officer (or his or her designee) must determine whether the proposed change constitutes a substantial modification of that project. This checklist shall be used to determine whether the proposed changes to the approved project would constitute a "substantial modification" and, therefore, be subject to additional environmental review pursuant to CEQA.

### MODIFIED PROJECT DESCRIPTION

Modified Project Description:
-------------------------------

### DETERMINATION IF PROJECT CONSTITUTES SUBSTANTIAL MODIFICATION

Compared to the approved project, would the modified project:	
<input type="checkbox"/>	Result in expansion of the building envelope, as defined in the Planning Code;
<input type="checkbox"/>	Result in the change of use that would require public notice under Planning Code Sections 311 or 312;
<input type="checkbox"/>	Result in demolition as defined under Planning Code Section 317 or 19005(f)?
<input type="checkbox"/>	Is any information being presented that was not known and could not have been known at the time of the original determination, that shows the originally approved project may no longer qualify for the exemption?
<b>If at least one of the above boxes is checked, further environmental review is required</b>	

### DETERMINATION OF NO SUBSTANTIAL MODIFICATION

<input type="checkbox"/>	The proposed modification would not result in any of the above changes.
If this box is checked, the proposed modifications are exempt under CEQA, in accordance with prior project approval and no additional environmental review is required. This determination shall be posted on the Planning Department website and office and mailed to the applicant, City approving entities, and anyone requesting written notice. In accordance with Chapter 31, Sec 31.08j of the San Francisco Administrative Code, an appeal of this determination can be filed to the Environmental Review Officer within 10 days of posting of this determination.

FROM: Airport Director

SUBJECT: Award of the 2023 Lease and Use Agreement with Certain Airlines Operating at San Francisco International Airport

DIRECTOR'S RECOMMENDATION: ADOPT THE ACCOMPANYING RESOLUTIONS AWARDING THE 2023 LEASE AND USE AGREEMENT TO CERTAIN AIRLINES OPERATING AT SAN FRANCISCO INTERNATIONAL AIRPORT, AND DIRECT THE COMMISSION SECRETARY TO FORWARD THE AGREEMENTS TO THE BOARD OF SUPERVISORS FOR APPROVAL.

**Executive Summary**

A majority of airlines serving San Francisco International Airport (SFO or Airport) currently operate pursuant to the 2011 Airline Lease and Use Agreement (2011 Lease). The 2011 Lease expires on June 30, 2023. Airport staff and airline representatives have negotiated a new form of a Lease and Use Agreement, which will commence July 1, 2023 for a ten-year term (2023 Lease). Staff seeks Airport Commission (Commission) award of the 2023 Lease to the airlines listed in Attachment 1 to this Memorandum.

**Background**

Airline lease and use agreements generally set the rate-making methodology, gate allocation and operating procedures, and general business and legal terms for the operation of airlines at an airport. Most of the airlines serving SFO currently operate under the 2011 Lease (Signatory Airlines) originally set to expire on June 30, 2021. Airport staff and Signatory Airlines began negotiations for a new lease and use agreement in December 2019. As a result of the COVID-19 pandemic, the parties determined that continuing negotiations at that time was impractical given the emergency conditions facing the Airport and Signatory Airlines. Staff requested and the Commission approved modifications of the 2011 Lease providing for a two-year extension of the term for a new expiration date of June 30, 2023.

The Airport and Signatory Airlines subsequently resumed negotiations and agreed to the terms of the 2023 Lease in July 2022 and on the final form of the 2023 Lease in November 2022. All Signatory Airlines execute the same form of 2023 Lease with only conforming changes reflecting the specific Signatory Airline and its demised premises.

**Proposal**

The 2023 Lease largely builds on the terms of the 2011 Lease, with some significant financial and operational improvements for the Airport. The major terms and conditions of the 2023 Lease are as follows:

- **Term**: Ten years commencing on July 1, 2023 and expiring on June 30, 2033.
- **Rate-Making Methodology**: Retention of the existing financial residual rate-making structure under which Signatory Airlines agree to collectively assume the financial risk of operating at the Airport to the extent the Airport's operating costs are not covered by non-aviation sources of revenue (i.e., concession and ground transportation fees). Each of the Signatory Airlines pays Terminal Area Rentals, Landing Fees, and other usage fees set forth in the Airport Rates and Charges as adopted annually by the Commission.
- **Annual Service Payment**: Retention of the Airport's Annual Service Payment to the City's General Fund, which equals the greater of \$5 million or 15% of Airport concession revenues.
- **Operating Reserve and Capital Improvement Fund**: Establishment of an operating reserve and capital improvement fund totaling \$800 million over the 10-year term (adjusted for inflation by an agreed-upon index), which may be used only by the Commission for any lawful Airport purposes.
- **Shared Use Equipment**: Enhanced rights of the Commission to install shared use equipment throughout the Airport, including in exclusive use spaces of airlines, which enhances operational efficiency and Commission control over the Airport.
- **Preferential Use Gate Allocation**: Expanded review period of airline seat capacity for the purposes of allocating Preferential Use Gates, which will encourage Preferential Use Gates to be used more consistently year-round.
- **Gate Accommodations**: Enhanced rights of the City to accommodate flights at Preferential Use Gates of Signatory Airlines, which maximizes the use of a gate and, in turn, the efficiency and capacity of the Airport.
- **Sustainable Aviation Fuel Working Group**: Establishment of an Airport Director-chaired Sustainable Aviation Fuel Working Group of Airport staff and Signatory Airlines tasked with identifying areas where the parties can cooperate to increase the uptake of sustainable aviation fuel at the Airport.
- **Ground Service Equipment Electrification**: Mutual agreement on a goal to achieve 100% electric-powered ground service equipment at the Airport.

- Airline Relocation Costs: Clarification on the financial liability for airline relocations. An airline initiating its relocation within the Airport will be responsible for such move and any required secondary relocations of other airlines, while any relocation initiated by the Airport will be the responsibility of the Airport, subject to recovery through rates and charges.
- Digital Information Working Group: Establishment of an Airport Director-chaired Digital Information Working Group of Airport staff and Signatory Airlines tasked with identifying information on Airport infrastructure and airline operations that could be exchanged in real-time to enhance the efficiency of Airport operations and the guest experience.
- Commercialization of Digital Assets: Expressed acknowledgment by the Signatory Airlines that the Airport has the sole and exclusive right to control, manage, and exploit, for commercial and non-commercial purposes, all Airport Proprietary Content.

Insurance and indemnification obligations of the Signatory Airlines, as well as all City contracting provisions, have been revised to comply with current City requirements. All other terms and conditions of the 2023 Lease are substantially similar to those in the 2011 Lease.

The 2023 Lease has been offered to all airlines operating at SFO, providing the opportunity to maintain or obtain Signatory Airline status at the Airport. Those airlines who forego Signatory Airline status may operate at the Airport by separately entering into a month-to-month operating permit, which requires a 25% premium on landing fees and a higher security deposit requirement. On February 7, 2023, this Commission approved the 2023 Lease with 29 air carriers listed in Attachment 2. The 2023 Lease will continue to be offered to all other airlines through the remainder of its term, including to new entrants.

Staff now seeks Commission award of the 2023 Lease with each airline listed in Attachment 1, subject to the approval of the Board of Supervisors. The 2023 Leases executed by airlines after those awarded today will be brought forward for the Commission and the Board of Supervisors' approvals at various intervals in the future.

### Environmental Review

On October 6, 2022, the San Francisco Planning Department, Environmental Planning Division determined that the 2023 Lease is exempt from review under the California Environmental Quality Act (CEQA) (Public Resources Code Section 21000, et seq.) and Section 15061(b)(3) of the CEQA Guidelines as a common sense exemption. This exemption determination is available from the Planning Department under File No. 2022-009712ENV. This action constitutes the Approval Action for all of the 2023 Leases in the attached Resolutions for the purposes of CEQA pursuant to Section 31.04(h) of the San Francisco Administrative Code, including, without limitation, for the avoidance of doubt, those 2023 Leases approved at the February 7, 2023 meeting of the Commission, as set forth on Attachment 2 to this Memorandum.

**Recommendation**

I recommend adoption of the accompanying Resolutions awarding the 2023 Lease to each of the airlines listed in Attachment 1 to this Memorandum and directing the Commission Secretary to forward the leases for approval by the Board of Supervisors under Section 9.118 of the Charter of the City and County of San Francisco.
