Scope of Work

This Governor's Office of Business and Economic Development Agreement is entered into by and between **City and County of San Francisco** (hereinafter "Contractor") and the **California Governor's Office of Business and Economic Development** (hereinafter, "State" or "GO-Biz"), hereafter jointly referred to as the "parties" or individually as the "party."

State funds will be allocated to San Francisco Recreation and Parks Department to revitalize Union Square, per Senate Bill 104. The term of this Agreement is January 1, 2024 – December 31, 2026.

Background

The San Francisco Recreation and Park Department oversees a complex park system containing over 220 parks, 32 recreation centers, 9 pools, and recreational, cultural, and artistic programs that serve thousands of people each year. Through that work, the Department has developed a robust city-wide network of community members and park advocates who work with RPD to create and renovate parks that solve social problems and enhance community resilience. The SFRPD Capital & Planning Division, established in 2000, has overseen four capital bond programs valued at \$670M that supported the construction, rehabilitation, or renovation of many recreation centers, pools, playgrounds, and parks. The division is supported by a Capital Finance team that oversees all financial transactions for the division. The Capital Division works closely with the City and County of San Francisco Controller's Office and the San Francisco Board of Supervisors to appropriate funding to support grant-funded projects and conducts internal audits to assure all grant expenditures are documented. The Capital Division also has worked extensively with non-profit partners on project fundraising, community planning, and park development.

Union Square is located in the heart of San Francisco's downtown and serves as a venue for many public events. The area is a tourist destination due to its high-end shops; department stores and hotels as well as its restaurants and art galleries. The Union Square District is within San Francisco's economic core that is responsible for almost 70% of San Francisco's jobs and holds 42% of the city's small businesses. Prior to the COVID-19 pandemic, the core produced 47% of the City's sales tax, significant portion of the City's transfer tax and the majority of the City's gross receipts tax.

The Union Square District has experienced some of the largest and most sustained losses of foot traffic and economic activity - creating a significant threat to the viability of customer-facing businesses located within this area. The City has prioritized the revitalization of Union Square because improvements to this iconic park can help boost economic activity for the entire area.

Within Union Square are two café buildings that provide amenities for visitors and draw them to the park. However, the existing food preparation equipment at the cafes does not support the cooking and preparation of fresh food on the premises. In addition, the café finishes are deteriorated and dated. These conditions have made it difficult for multiple café operators to attract enough patrons to be

successful. As a result, the spaces have been frequently vacant since 2019 when the tenant went into default. There is a new operator in the spaces, but they are also constrained by these limitations.

Objectives

The Union Square Park Revitalization “Project” proposes to upgrade the interior kitchens, serving areas and public spaces of two café buildings located at Union Square Park. Proposed improvements focus primarily on the commercial kitchens and include the installation of cooking hoods, ventilation and fire suppression systems that will allow the cafes to produce fresh food for park users to enjoy in this unique setting. Secondary improvements to the building’s façade, fixtures, lighting will also be evaluated to determine how to improve aesthetics and functionality of these existing structures. Final scope of improvements will be confirmed upon completion of cost estimating.

The new amenities will greatly improve the dining and overall public experience at Union Square Plaza. Grant funds will initially be used to deliver design services for the improvements and develop a cost estimate based on the conceptual design. Then, grant funds will be used to fund Implementation of the improvements.

In addition, a small portion of the funds will be used for equipment to facilitate activation during project development and contraction. These funds will be administered through a partner City agency – Office of Economic Workforce & Development.
