Hi Tom,

Most of this ordinance does not impact DBI. Planning does the calculation and we just collect the funds. So, changes in what is exempt has more impact on them.

The one thing that does have an impact on DBI is that the fees are now calculated at the time of the first construction document, instead of at issuance of the site permit. If there are any changes in the TIDF fee amounts, the DFCU will need to route the project back to Planning to have the fees recalculated. It is not one that we calculate ourselves.

Thank you,  
Gayle
