Section 1. Environmental Findings.

(a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of

Supervisors in File No. 251004 and is incorporated herein by reference. The Board affirms this determination.

Section 2. Legislative Findings.

(a) Parklets first originated in San Francisco when artist Bonnie Sherk introduced the idea of reclaiming urban space for public use in the 1970s, installing portable parks under freeway overpasses and alleyways.

(b) In 2005, the idea took off when a group of local designers rolled out a patch of grass, a bench, and a potted tree into a parking space downtown—creating the first “PARK(ing) Day.” That action sparked a global movement to reimagine streets not just for cars, but for people.

(c) In 2009, the San Francisco Planning Department’s Pavement to Parks pilot formalized the concept, turning parking stalls into public parklets under municipal guidance. These were the first sanctioned parklets in the country, and just a decade later, became an essential part of San Francisco’s streetscape.

(d) On February 25, 2020, the Mayor issued a Proclamation (the “Proclamation”) declaring a local emergency in response to the spread of COVID-19. In the following weeks, the Governor and San Francisco’s Health Officer issued a series of emergency orders requiring the closure of non-essential businesses and encouraging people to remain at home.

(e) On June 9, 2020, the Mayor issued the 18th Supplement to the Proclamation (the “Proclamation”) creating the Shared Spaces Program—a temporary emergency program allowing retail and restaurant businesses to operate in public rights-of-way, including sidewalks, parking lanes, and closed streets. This allowed businesses to comply with public health orders by moving operations outdoors, where the risk of transmission was lower.

(f) The Shared Spaces Program adapts many proven, successful techniques for safely

1 activating the public realm in a community-focused manner. Precedents include the Parklet
2 and Plaza Programs, Play Streets, and Neighborhood Block Parties. The Shared Spaces
3 Program also streamlined preexisting commercial permits such as sidewalk merchandising
4 and sidewalk tables and chairs.

5 (g) Due to San Francisco's high density and limited private outdoor space, Shared
6 Spaces became a lifeline for small businesses. Within months, nearly 2,900 businesses had
7 applied to participate. This included roughly 600 parklets that later transitioned to permanent
8 structures under evolving guidance.

9 (h) A 2021 analysis by the Controller's Office found that businesses with Shared
10 Spaces parklets experienced an average 29% increase in revenue—about \$56,000 per
11 quarter. Additional surveys confirmed that parklets were essential to business survival during
12 the pandemic, with 80% of businesses reporting the program helped them avoid permanent
13 closure.

14 (i) The program also supports equity: a survey of applicants found over 50% of Shared
15 Spaces businesses were women-owned, 33% immigrant-owned, and 33% minority-owned.
16 On July 13, 2020, the Small Business Commission issued a resolution supporting the
17 program's expansion, and on March 9, 2021, the Board of Supervisors passed a resolution
18 urging its permanent adoption.

19 (j) In addition to its economic benefits, the Shared Spaces Program delivers civic,
20 social, and psychological benefits to neighborhoods—activating public space, encouraging
21 outdoor life, and promoting public interaction after long periods of isolation.

22 (k) However, curbside parklets—which occupy over 1,650 metered parking spaces, or
23 about 10% of metered spaces citywide—also require thoughtful oversight. Accessibility,
24 operational, and design requirements ensure public safety and activation so that these
25 curbside parklets remain open and are not repurposed for private storage or other non-public

1 purposes.

2 (l) At the same time, operators face ongoing challenges in meeting certain program
3 requirements, including the requirement that parklets remain open from 7 a.m. to midnight.
4 As the Shared Spaces Program transitions from an emergency response to a permanent
5 citywide initiative, outdated or overly complex regulations must be updated to avoid confusion
6 and inconsistent enforcement.

7 (m) This ordinance seeks to clarify and update the framework for Shared Spaces to
8 align with real-world usage, streamline permitting, and ensure that parklets continue to serve
9 their intended public function—enhancing community access, supporting neighborhood
10 vibrancy, and driving San Francisco's economic recovery.

11
12 Section 3. Chapter 94A of the Administrative Code is hereby amended by revising
13 Sections 94A.1, 94A.2, 94A.4, 94A.5, 94A.6, and 94A.7 to read as follows:

14
15 **SEC. 94A.1. THE SHARED SPACES PROGRAM; ESTABLISHMENT AND**
16 **PURPOSE; CORE AGENCY JURISDICTION.**

17 (a) **Establishment and Purpose.** There is hereby created a San Francisco Shared
18 Spaces Program. A Shared Space, defined in Section 94A.2, is intended to be a temporary
19 space on City-owned property, and in some cases also on privately-owned open spaces,
20 where the public can gather and participate in various commercial or non-commercial
21 offerings and events. Under the Program, a public or private entity may obtain City approval to
22 create a Shared Space by occupying the location with reversible physical treatments or
23 improvements and/or activating the location with programming.

24 This Chapter 94A sets forth a streamlined process by which ~~the Planning~~
