20 **SEC. 2901. DEFINITIONS.**

21 (a) "Ambient" means LAeq and LCeq values produced during a minimum ten-minute period
22 as measured with a type 1, precision level sound meter, using "A" and "C" frequency ~~the lowest sound~~
23 ~~level repeating itself during a minimum ten-minute period as measured with a type 1, precision sound~~
24 ~~level meter, using slow response and "A" weighting.~~ The minimum sound level shall be
25 determined with the noise source at issue silent, and in the same location as the

1 measurement of the noise level of the source or sources at issue. However, for purposes of
2 this ~~chapter~~Article 29, in no case shall the ambient be considered or determined to be less
3 than: (1) ~~Thirty-five~~35 dBA for interior residential noise, and (2) ~~Forty-five~~45 dBA in all other
4 locations. If a significant portion of the ambient is produced by one or more individual
5 identifiable sources of noise that contribute cumulatively to the sound level and may be
6 operating continuously during the minimum ten-minute measurement period, determination of
7 the ambient shall be accomplished with these separate identifiable noise sources silent or
8 otherwise removed or subtracted from the measured ambient sound level.

9 * * * *

10 (f) "Low frequency ambient" means the average, or LCeq value, produced during a ten-
11 minute period as measured with a type 1, precision sound level meter ~~lowest sound level repeating~~
12 ~~itself during a ten-minute period as measured with a sound level meter, using slow response and "C"~~
13 ~~weighting~~. The ~~minimum~~ sound level shall be determined with the music or entertainment noise
14 source at issue silent, and in the same location as the measurement of the noise level of the
15 source or sources at issue. However, for purposes of this ~~eChapter~~Article 29, in no case shall
16 the ~~local~~low-frequency ambient be considered or determined to be less than: (1) ~~Forty-five~~45
17 dBC for interior residential noise, and (2) ~~Fifty-five~~55 dBC in all other locations. If a significant
18 portion of the ambient is produced by one or more individual identifiable sources that would
19 otherwise be operating continuously during the minimum ten-minute measurement period,
20 determination of the low-frequency ambient shall be accomplished with these separate
21 identifiable noise sources silent or otherwise removed or subtracted from the measured
22 ambient sound.

23 (g) "Noise level" means the LAeq or LCeq value produced during a minimum one-minute
24 period ~~maximum continuous sound level or repetitive peak sound level~~, produced by a source or
25 group of sources as measured with a type 1, precision sound level meter. In order to measure a

noise level, the controls of the sound level meter should be arranged to the setting appropriate to the type of noise being measured. ~~For example, the settings should be slow response for continuous noise sources and fast response for noises with rapid onset and decline.~~

* * * *

(n) "Sound level," expressed in decibels (dB), means a logarithmic indication of the ratio between the acoustic energy present at a given location and the lowest amount of acoustic energy audible to sensitive human ears and weighted by frequency to account for characteristics of human hearing, as given in the American National Standards Institute Standard S1.1, "Acoustic Terminology," paragraph 2.9, or successor reference. All references to dB in this ~~chapter~~Article 29 refer to the A-level or C-level weighting scale, abbreviated dBA or dBC, measured as set forth in this section.

Section 2. Effective Date. This ordinance shall become effective 30 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

LEGISLATIVE DIGEST

[Police Code - Entertainment Permits]

Ordinance amending the Police Code to 1) increase the filing fee for One Time Outdoor Amplified Sound Permits; 2) eliminate permit requirements for ball or ring throwing games, dance halls, and masked balls; 3) eliminate referral of Place of Entertainment Permit applications to the Department of Building Inspection (“DBI”); 4) eliminate referral of Limited Live Performance and Fixed Place Outdoor Amplified Sound permits to the Planning Department; 5) relax public notice requirements on the applicant and the Entertainment Commission with respect to applications for Place of Entertainment, Limited Live Performance, and Fixed Place Amplified Sound permits; 6) require the Entertainment Commission to hold a hearing on any application for a One Time Event Permit or One Time Outdoor Amplified Sound Permit in cases where an applicant has previously obtained 12 or more such permits in the same calendar year, rather than the preceding 12 months; 7) for Extended-Hours Permits, eliminate referral to DBI, and eliminate referral to the Department of Public Health and the Fire Department in cases where the applicant or permittee already holds valid permits from those departments; and 8) amend definitions relevant to noise limit enforcement.

Existing Law

Current law imposes a \$435 filing fee for One Time Outdoor Amplified Sound Permits for a period of up to four hours, and \$75 for each additional hour.

Current law requires entertainment permits for anyone seeking to operate a ball or ring throwing game, host a dance outside a private residence, or operate a dance hall.

Current law requires that applications for Place of Entertainment permits be referred to the Department of Building Inspection (“DBI”), along with other departments, prior to approval by the Entertainment Commission.

Current law requires that applications for Limited Live Performance and Fixed Place Outdoor Amplified Sound permits be referred to the Planning Department.

Current law requires that applicants for Place of Entertainment, Limited Live Performance, and Fixed Place Amplified Sound permits distribute leaflets to residences within 150 feet of the venue at least 30 days prior to the permit hearing date, and that the Entertainment Commission provide notice at least 30 days prior to the permit hearing date to any person that has requested that notice.

Current law requires the Entertainment Commission to hold a hearing on an application for a One Time Outdoor Amplified Sound permit if the applicant has obtained such a permit 12 or more times in the preceding 12 months.

Current law requires that applications for Extended-Hours permits be referred to DBI, the Department of Public Health ("DPH") and the Fire Department ("SFFD") in all cases.

Current law includes definitions relevant to noise level enforcement.

Amendments to Current Law

This ordinance would change the filing fee for One Time Outdoor Amplified Sound Permit to \$558, regardless of the length of time permitted.

This ordinance would eliminate the entertainment permit requirements for ball or ring throwing games, dances, and dance halls.

This ordinance would eliminate the DBI referral requirement for Place of Entertainment permit applications.

This ordinance would eliminate the Planning Department referral requirement for applications for Limited Live Performance and Fixed Place Outdoor Amplified Sound permits.

This ordinance would require applicants for Place of Entertainment, Limited Live Performance, and Fixed Place Amplified Sound permits to serve written notice, not limited to leaflets, on any residence located within 150 feet of the venue, at least two weeks, rather than 30 days, prior to the permit hearing date, and would require that the Entertainment Commission provide notice of a permit hearing to persons that have requested such notice, under the ordinary notice rules, and not 30 days prior to the hearing.

This ordinance would require the Entertainment Commission to hold a hearing on an application for a One Time Outdoor Amplified Sound permit if the applicant has obtained such a permit 12 or more times in the same calendar year, rather than in the preceding 12 months.

This ordinance would eliminate the DBI referral requirement for all applications for Extended-Hours permits, and would eliminate the DPH and/or SFFD referral requirements for Extended-Hours permit applications for which the applicant already holds a valid permit from that department.

This ordinance would make minor amendments to the definitions relevant to noise level enforcement.
