8 **associated with the 1180-4<sup>th</sup> Street affordable housing project; the execution of an**  
9 **agreement with the Project Sponsor for disbursement of grant funds; and the**  
10 **execution of any related documents necessary to participate in the Transit Oriented**  
11 **Development Infrastructure Grant Program.**

12  
13 WHEREAS, The California Department of Housing and Community  
14 Development (HCD) issued a Notice of Funding Availability for the Transit Oriented  
15 Development Housing Program established in Part 13 of Division 31 of the Health and  
16 Safety Code, commencing with Section 53560. Pursuant to the statute, HCD is  
17 authorized to approve funding allocations utilizing monies made available by the State  
18 Legislature, subject to the terms and conditions of the statute and the Transit Oriented  
19 Development Housing Program Guidelines implemented February 4, 2009; and,

20 WHEREAS, HCD has issued a conditional commitment of \$17,000,000 of grant  
21 funds to the 1180 4<sup>th</sup> Street project (Project) in a letter dated May 20, 2010, of which  
22 \$4,700,000 was awarded to the City and County of San Francisco (City) and  
23 designated for purposes of the design and construction of street and utility  
24 improvements serving the site; and

1           WHEREAS, FOCIL-MB, LLC, a Delaware limited liability company ("FOCIL")  
2 (Project Sponsor) will be responsible for the design and construction of the street and  
3 utility improvements serving the Project; and

4           WHEREAS, The City wishes to enter into a standard agreement and  
5 disbursement agreement with HCD for purposes of accessing and disbursing the  
6 Transit Oriented Development Infrastructure Grant Program funds (Grant Funds) to the  
7 Project Sponsor for the purpose of performing the infrastructure improvements; and

8           WHEREAS, The City wishes to enter into an agreement with the Project  
9 Sponsor pursuant to which the City will disburse the Grant Funds to Project Sponsor to  
10 pay costs associated with the design and construction of the infrastructure  
11 improvements; and,

12           WHEREAS, The proposed grant does not require an Annual Salary Ordinance  
13 amendment; and,

14           WHEREAS, MOH proposes to maximize use of available grant funds on project  
15 expenditures by not including indirect costs in the grant budget;

16           NOW, THEREFORE, BE IT RESOLVED, That the Mayor's Office of Housing is  
17 hereby authorized to enter into: (i) a standard grant agreement and disbursement  
18 agreement with HCD for funding not to exceed \$4,700,000; and (ii) an agreement with  
19 Project Sponsor, each for the purposes of funding infrastructure associated with the  
20 Project. The infrastructure will include construction of sanitary service, storm drain  
21 lines, low pressure and reclaimed water services, joint utility trench electric and gas,  
22 curb, gutter, grading, paving, sidewalk, street lights and street trees in the mid block  
23 mews on block 13, Long Bridge block 13 Phase II, El Dorado, China Basin streets and  
24 portions of Merrimac, Mission Bay Boulevard North and South. This work will complete  
25 the utility services and loops required for block 13, block 5 and parks P5, P6 and P13,

1 connecting Long Bridge, Channel Street, China Basin and Fourth Street, allowing for  
2 the circulation of emergency vehicle, vehicular and pedestrian traffic and future bus  
3 service planned for Long Bridge Street; and, be it

4 FURTHER RESOLVED, That the Board of Supervisors hereby waives inclusion  
5 of indirect costs in the grant budget; and, be it

6 FURTHER RESOLVED, That the City hereby agrees to use the Transit Oriented  
7 Development Infrastructure Grant Program funds for eligible activities in the manner  
8 presented in the application and with such modifications as approved by HCD and in  
9 accordance with program guidelines and the HCD Standard Agreement and  
10 Disbursement Agreement. It also may execute any and all other instruments  
11 necessary or required by HCD for participation in the Transit Oriented Development  
12 Housing Program; and, be it

13 FURTHER RESOLVED, That the City authorizes any designee of the Mayor  
14 from the Mayor's Office of Housing to execute the standard agreement, disbursement  
15 agreement, and all other documents required by HCD for participation in the Transit  
16 Oriented Development Housing Program, and any amendments thereto.

<b>COST NARRATIVE: USE THE SPACE BELOW TO EXPLAIN ANY EXTRAORDINARY SITE CONDITIONS WHICH RESULT IN DEVELOPMENT COSTS TO BE HIGHER THAN ACCEPTED INDUSTRY STANDARDS.</b>											
The Mission Bay project area is a Brownfield site that was historically used for the dumping of debris and rubble from the 1906 quake and bay dredgings. It has also been used as a rail served warehouse distribution center since the early 1940's. As such there can be unknown obstacles and contaminants that are encountered during the course of construction which could impact the overall cost. Additionally, given the proximity to the bay and shallow groundwater table with loose previously uncompacted fill additional costs could be incurred in relationship to dealing with groundwater, soft subgrade conditions and settlement.

**Infrastructure Project (Pump Station) for 1000 4th Street, Mission Bay**

**PROPOSED PROJECT DESCRIPTION**

**(Narrative used for Project Summary Reports)**

Instruction: Describe, at minimum, the following topics:

**1) Type of Development**

Installation of a storm water pump station that will convey storm water runoff from Mission Bay drainage basin D. This facility will replace and modify the existing storm water pump station and outfall structure which currently handles wet weather flows from the surrounding residential, parking lot, and right-of-way.

**2) Topography and Special Site Features**

Improved park bordered by navigable waterway, gentle man-made undulations throughout, variety of plantings, paths and hardscape.

**3) Surrounding Neighborhood**

Active new residential development on former rail yard and industrial. Some adjacent lots temporarily in use as parking and staging until development proceeds. Multiple light rail stops in immediate proximity, as well as the terminus of Caltrain. To the south, future residential, and beyond a new UCSF campus and assortment of lab and biotech space.

**4) Proposed Tenant Population and Any Special Occupancy Restrictions (inc. those tied to land use approvals)**

na - this is an infrastructure project

**5) Any On-Site Services**

na - this is an infrastructure project

**6) Specific Issues (relocation, environmental, historical, etc.)**

Must maintain existing pump station while building new. Coordinating construction with ongoing public use of the surrounding park, close proximity to streets and light rail. Soil conditions and close proximity to Mission Creek shore edge. Site is made up of unstable bay mud fill and historic landfill materials. Shallow ground water.

**7) Any Demolition**

Some existing park surface improvements to make way for removal of temporary pump station and installation of new pump station.

**8) Scope of Rehabilitation Work**

Removal of existing temporary pump station, replacement with new permanent facility.

**9) Expected Start and Completion Date of Construction/Rehabilitation**

Commence November 2009, complete construction September 2010 on primary facility located in the park. Permanent control room is sited in future housing development across the street, 1000 4th Street (Mission Bay Block 13E), so work to complete control room will be coordinated with construction on this site, expected to be complete June 2012

**10) Changes in Land Area during Development (e.g. subdivision)**

na

**11) Rent Subsidies**

na - this is an infrastructure project

**12) Whether Prevailing Wages will be paid.**

yes

### LEGAL STATUS QUESTIONNAIRE

UA Version 10/02/08

For purposes of the following questions, and with the exceptions noted below, the term "applicant" shall include the applicant and the project sponsor, the parent of the applicant and the project sponsor, and any subsidiary of the applicant or project sponsor if the subsidiary is involved in (for example, as a guarantor) or will be benefited by the application or the Project.

In addition to each of these entities themselves, the term "applicant" shall also include the direct and indirect holders of more than ten percent (10%) of the ownership interests in the entity, as well as the officers, directors, principals and senior executives of the entity if the entity is a corporation; the general and limited partners of the entity if the entity is a partnership, and the members or managers of the entity if the entity is a limited liability company. For projects using tax-exempt bonds, it shall also include the individual who will be executing the bond purchase agreement.

The following questions must be responded to for each entity and person qualifying as an "applicant," as defined above. Explain all positive responses on a separate sheet and include with this questionnaire in the application.

#### Exceptions:

Public entity applicants without an ownership interest in the proposed Project, including but not limited to cities, counties, and joint powers authorities with 100 or more members, are not required to respond to this questionnaire.

Members of the boards of directors of non-profit corporations, including officers of the boards, are also not required to respond. However, chief executive officers (Executive Directors, Chief Executive Officers, Presidents or their equivalent) must respond, as must chief financial officers (Treasurers, Chief Financial Officers, or their equivalent).

## Introduction

This attachment to the Universal Application along with the Rating and Ranking Scoring Sheet makes up the application for grant funds for Infrastructure Projects ("Project") that support approved Housing Developments. Project grant applications are evaluated pursuant to the Transit-Oriented Development Housing Program Guidelines dated January 30, 2009 and specifically Sections 103(c), 104(d), 105(g), 106(c), 107(b), and 108. Infrastructure Grant funds must support a Housing Development. The infrastructure grant application will be awarded points based on the score the Housing Development receives.

Complete the Universal Application as applicable to the Project. Project Budget and Sources and Uses of Funds schedules must also be completed.

### 1. Applicant is:

**To be considered for Program funding for Infrastructure Projects, applications must meet all the following threshold requirements stated in Section 107 (b) of the TOD Program Guidelines.**

- (1) The applicant must be eligible.
- (2) The Project must be an eligible Project under Section 103(c) of the TOD Guidelines.
- (3) The Project must support a Housing Development meeting the criteria of Section 103(a) of the TOD Guidelines.
- (4) All proposed uses of Program funds must be eligible pursuant to Section 105 of the TOD Guidelines.
- (5) The application must be sufficiently complete to assess Project feasibility and compliance with Program requirements.
- (6) Construction of the Project and the supported Housing Development has not commenced. Both the Project and the Housing Development may be defined by the applicant to exclude discrete phases of improvements that are part of the overall development scheme, but that are being constructed or financed separately from that portion of the overall development assisted by the Program.

- (7) The Project is infeasible without the requested Program funds, and other available funds are not being supplanted by Program funds.
- (8) The developer of the supported Housing Development(s) must have site control, in accordance with 25 CCR 8303.
- (9) The supported Housing Development must be feasible, based on the Department's analysis of the applicant's sources and uses statement, an operating proforma, information on the status of funding commitments, and other related financial information.
- (10) The Project must be feasible, based on the Department's analysis of the applicant's sources and uses statement, the status of commitments from other funding sources, and similar information.
- (11) Where approval by a local public works department, or its equivalent, is required for the Project, the application must include a statement from that department indicating that the Project is consistent with all applicable local rules, regulations, codes, policies and plans enforced or implemented by that department.
- (12) If the Project includes a pedestrian bridge, tunnel, or similar feature, the applicant must demonstrate that this feature is cost effective, compared to street-level crossings or other alternatives, and considering the number of users reasonably expected to use the feature and any documented safety problems that the feature would eliminate.

## 2. Project Goals

Check if:

- Project will include capital improvements required by a local governmental entity, transit agency, or special district as a condition to the development of the Housing Development.
- Project will include capital improvements that clearly and substantially enhance pedestrian or bicycle transportation from one or more specifically identified Housing Developments to the nearest transit station.

Note: Applicants may apply for infrastructure funding to support housing or transportation enhancements as provided for under Guidelines Section 105 (g)(3) & (4).

3. **Project Description** - Please provide a detailed description of the infrastructure project and include in the description:

The following is a description of the project facility for "Storm Water Pump Station #3" that will be located within Mission Bay community park P1. This facility is necessary in order to handle the storm water runoff for Basin D located within the south of channel residential plan area, and which contains block 13E (the subject property, also known as 1000 4<sup>th</sup> Street). The project is also required in the South OPA and Infrastructure plan that govern development at Mission Bay. The facility will consist of below ground wet well structure and CDS particular control units with a hardscape surface area which is contemplated to provide a pedestrian plaza area that will blend into a multiple pedestrian pathway system. The project is located in the southeast quadrant of the park with superior access to and from public transportation.

- A. The type of infrastructure to be developed.

Installation of a storm water pump station that will convey storm water runoff from Mission Bay drainage basin D. This facility will replace and modify the existing storm water pump station and outfall structure which currently handles wet weather flows in the surrounding residential area and SWL-337, portions of Third Street, portions Fourth Street, Channel and Muni lines, and Long Bridge Streets.

This facility will consist of a below ground concrete wet well structure, two CDS unit for the separation of sediments and debris, a sump pump for low flow and dry weather activity, 6 submersible pumps and an outfall structure. It will also entail the modification and/or removal and replacement of existing pump station facility and the existing storm drain lines and laterals. It is contemplated at that a hardscape park plaza area will exist over the wet well and CDS units that may be constructed of pervious pavers. The plaza will also incorporate various bike racks and public seating areas.

- B. Name of Housing Development the Project will support.

1000 4<sup>th</sup> Street, a 150 unit low and very low income rental development located on Block 13E of Mission Bay (at the corner of 4<sup>th</sup> and Channel). This building will also house the control room for the pump station. The control room will be operated and maintained by the SF PUC.

Please see attached letter from San Francisco Department of Public Works Necessity Determination for the Project.

C. How will the Project encourage walking, biking, or use of public transit?

The facility will have numerous bike racks, a pedestrian plaza area for seating and gathering and pedestrian walkways that will facility public access and use. With its close proximity to various Muni platforms and the Caltrans transit station the park plaza area will have superior public transit accessibility. Residents will be able to either lock up their bikes within the park area or simply walk to one of the many transit facilities nearby.

D. Will the Project include multiple phases?

The project will be broken into two phases. The first phase will consist of the complete construction of the pump station wet well, hardscape pedestrian plaza area, landscaping and temporary control panels. Phase two will be the completion of the permanent pump station control room and control equipment that will be located in the building on block 13e. It will also include the removal of the temporary control panels in the park and all park landscape and hardscape restoration activities.

E. If the Project includes a pedestrian bridge, tunnel, or similar feature, the applicant must demonstrate that this feature is cost-effective, compared to street-level crossings or other alternatives, and considering the number of users reasonably expected to use the feature and any documented safety problems that the feature would eliminate.

#### 4. Project Location

A. Name and address of Qualifying Transit Station.

**Fourth/King SF Muni T Line Light Rail Transit Station**

B. Provide map which documents location of the Project within required proximity to the Housing Development.

**Please see attached site plan**

#### 5. Proposed Use of Funds

Provide amount of funding budgeted for each proposed activity.

Activity Type	Amount of Funding Requested
Water System	\$ 73,700.00
Sewer System	\$ 67,000.00
Drainage System	\$ 7,363,000.00
Streets, Curbs, Gutters (including ADA cuts)	\$ 201,000.00
Utility Access	\$ 100,500.00
Pedestrian Facilities	\$
Pedestrian Walkways	\$ 13,400.00
Pedestrian Plazas	\$ 234,500.00
Pedestrian Bridge	\$
Signal Lights	\$ 20,100.00
Street Furniture	\$ 13,400.00
Bike Facility Improvements	\$ 6,700.00
Bike Paths	\$ 6,700.00
Parking	\$
Intelligent Transportation Information Systems	\$
Real Property Acquisition	\$
Other eligible activity	\$
<b>Total</b>	<b>\$ 8,100,000.00</b>

**6. Grant Assistance Size**

- A. If applying for infrastructure funds to support a Housing Development, the total infrastructure grant award shall be limited to \$35,000 per residential unit and \$50,000 per Restricted Unit.

Number of unrestricted residential units x \$35,000 = \$

Number of restricted residential units x \$50,000 = **\$7,500,000**

- B. If applying for infrastructure grants to improve pedestrian or bicycle access from one or more Housing Development(s) to a Qualifying Transit Station, the total grant award shall be limited to \$10,000 per residential unit.

Number of residential units to be served by proposed transit access improvements x \$10,000 = \$1,500,000

**Total Infrastructure Grant Request: \$4,700,000**

**Infrastructure grant requested is only \$4,700,000 (remainder of infrastructure to be paid for with \$3,400,000 matching Stimulus Funds – please see City of San Francisco commitment letter).**

**7. Cash Contribution**

Grants for the Project must be matched by cash contribution of funds including state and federal funds under local control, allocated by the applicant equal to 20% of the infrastructure project grant.

**Total Cash Contribution: \$3,400,000 anticipated, \$2,300,000 definitive**

**(v. 20% of \$4,700,000 = \$940,000 = threshold is met under this section 7)**

**8. Site Control**

- A. Please provide documentation which establishes the project has obtained site control.

**The attached title report illustrates the City's control of the park as trustee under the State Trust.**

If not, please explain when and how site control will be obtained.

**9. Local Approvals**

A. Is the Project included in a regional plan, general plan or station area plan? If so, please state which plan or plans include the Project.

**Project is included in the Infrastructure Agreement attachment to the Redevelopment Plan for Mission Bay South (please see attached excerpt).**

B. Does the Project require approval from a local Public Works Department? If so, please include a statement from the local Public Works Department indicating the Project is consistent with applicable local rules, plans, and policies enforced or implemented by that entity.

**Please see attached letter from San Francisco Department of Public Works (DPW) for consistency determination.**

**10. Permits and Approvals – Please identify all permits approvals, and zoning changes required for the implementation of the Project. (Abbreviate where necessary).**

Permit Type	Agency	Status	Estimated Approval Date	Comments
SF OPA	San Francisco Redev. Agency	Approved	9/17/98	
BCDC Permit	SF Bay Conser. and Dev. Comm	Approved	12/12/2000	Amended 11/16/2001
Section 401 Permit RWQCB	Ca. Reg. Water Quality Control Board	Pending application	9/15/09

Calif. Fish & Game Permit	Calif Depart of Fish and Game	Pending application	9/15/09	
SF SIP Permit	San Francisco Depart Public Works	Pending application	10/23/09	

## 11. Project Timeline

Provide a project schedule with the following key milestones. No grant Standard Agreements will be executed if all required permits have not been approved.

Milestone	Date
Application Date	April 2009
All required permits approved	Oct 2009
State TOD Program Award Date	TBD
Building permit issued	Nov 2009
Construction start	Nov 2009
Construction 33% complete	March 2010
Construction 67% complete	May 2010
Construction complete	Sept 2010
Certificate of Occupancy of housing supported by infrastructure project (where applicable)	June 2012

## 12. Funding Commitments

- A. Provide an analysis of why TOD program funds are necessary for Project feasibility.

**Mission Bay is a 300+ acre former rail yard that is in the process of being transformed into a standard residential neighborhood complete with new street grid, utilities and open space that did not previously exist. Total infrastructure costs for Mission Bay are estimated at nearly \$700 million at full build out, of which about half has been spent to date.**

**Infrastructure at Mission Bay has been funded primarily through proceeds from CFD bonds and tax increment. Over \$114 million of CFD bonds have been issued in the Mission Bay South Redevelopment Area, and all of those funds have been expended. In addition, another \$70+ million of infrastructure has been built by private parties entitled to reimbursement from future tax increment, delaying indefinitely the availability of future tax increment to fund the Project. Compounding the problem is the existing slow down in new construction, further depriving the plan area of anticipated tax increment funds.**

**Mission Bay has exhausted (and gone beyond) the resources available within the district, both in terms of taxing capacity (CFD) and tax increment. TOD program funds are necessary for Project feasibility.**

Will the Project be built in multiple phases? If so, has the Project received all necessary funding commitments for the first phase?

**Yes, the project will be built in two phases. Between the TOD grant funds and the committed Stimulus Funds from the City of San Francisco, the Project has received all necessary funding commitments for the first phase.**

For all Projects, please provide copies of letters showing the Project's funding commitments.

**See attached commitment letter from the City of San Francisco.**

**SOURCES AND USES FORM. Use the TOD Infrastructure Budget Attachment to show the Sources and Uses of all funds needed for the entire project. (Please include TOD funds requested and all other funding sources).**

Subject: 1000 4<sup>th</sup> Street Affordable Housing and Related Public Infrastructure Improvements, Mission Bay -  
Necessity Determination

Dear Ms. Kahn:

The San Francisco Department of Public Works (DPW) is writing this letter in support of the City's funding application to the HCD's TOD Housing Program. DPW confirms that the infrastructure improvements (the "Capital Improvement Project") proposed for the 1000 4<sup>th</sup> Street project are integral and necessary to serve the housing development at 1000 4<sup>th</sup> Street.

The proposed Capital Improvement Project is a storm water pump station and related utility connections. This project is needed to meet the storm water systems planned for this project. This pump station and related storm water treatment is required by the California State Water Resources Control Board to serve future housing development in Mission Bay South, including 1000 4<sup>th</sup> Street.

The pump station was approved as part of the Mission Bay South Infrastructure Plan, approved by the San Francisco Board of Supervisors on November 2, 1998 and amended on January 4, 2001. DPW is party to the Mission Bay South Infrastructure Plan.

Please contact me if you have any questions or need additional information.

**Subject: Mission Bay Letter of Intent: Matching Federal Economic Stimulus Commitment**

Dear Ms. Jacobs,

Mission Bay represents a tremendous opportunity to provide much needed affordable housing in San Francisco on an unparalleled scale. The infrastructure and buildings being built in this neighborhood currently employ thousands in the various construction trades. Mission Bay also plays an important role in our local and statewide economy, providing a base for biotech and life science research. UCSF's Mission Bay campus, the California Institute for Regenerative Medicine, and the surrounding biotech lab and office space at Mission Bay all contribute to California being at the forefront of this resilient industry, generating jobs at this crucial time for our local and state economy.

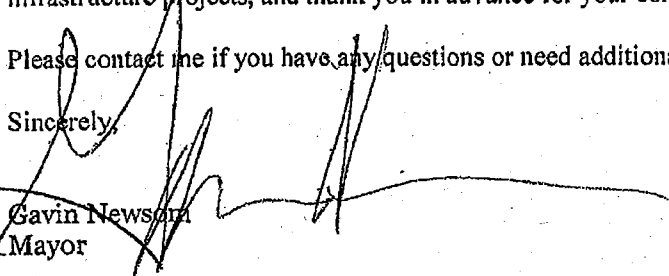

Because of the significant public benefit generated by future development of affordable housing and new infrastructure in Mission Bay, the City and County of San Francisco is fully committed to providing \$2.3 million of our formula allocation of locally administered Community Development Block Grant (CDBG) funds, authorized under the 2009 federal economic stimulus package (Stimulus Funds), to infrastructure projects in Mission Bay. These projects are described in more detail in the Mission Bay IIG and TOD grant applications being submitted to HCD.

In addition, we are committed to securing additional Stimulus Funds of up to \$5.7 million (for a total of \$8 million) in order to achieve a 20% matching level under the two applications. We and the applicants are actively working through a variety of avenues to secure these additional Stimulus Funds. In collaboration with the Association of Bay Area Government, we are pursuing Stimulus Funds from the EPA for "urban greening" projects, a perfect fit for the parks being built at Mission Bay. We are also pursuing Stimulus Funds being administered by the State Water Resources Control Board through the State Revolving Fund (SRF), a good fit for several parks that handle and treat overland flows, along with facilities that provide separate sanitary and storm systems for Mission Bay. As more programs providing Stimulus Funds for infrastructure become finalized, we will actively pursue these funds for Mission Bay as well.

We greatly appreciate the opportunity you have provided our city to advance crucial affordable housing and infrastructure projects, and thank you in advance for your consideration of Mission Bay for Proposition 1C funds.

Please contact me if you have any questions or need additional information.

Sincerely,

  
Gavin Newsom  
Mayor

#### PATENT

WHEREAS, Catellus Development Corporation, a Delaware corporation ("Catellus"), and the City and County of San Francisco, a charter city and county (the "City"), including its Port, have entered into the "Mission Bay City Land Transfer Agreement," dated as of September 8, 1993, as amended and restated by an Amended and Restated City Land Transfer Agreement dated as of November 16, 1998 ("Amended CLTA"), Catellus and the City acting by and through its Port Commission have entered into the "Mission Bay Port Land Transfer Agreement," dated as of September 8, 1993, as amended and restated by an Amended and Restated Port Land Transfer Agreement dated as of November 16, 1998 ("Amended PLTA"), and Catellus, the City, including its Port, and the State of California acting by and through the State Lands Commission have entered into the "Mission Bay Agreement Concerning the Public Trust," dated as of September 8, 1993, as amended and restated by an Amended and Restated Agreement Concerning the Public Trust dated as of November 16, 1998, recorded JULY 19<sup>th</sup> 1999 as Document No. 6-622151, Official Records of the City and County of San Francisco, State of California ("Amended ACTPT") (the Amended CLTA, Amended PLTA and Amended ACTPT are hereinafter collectively referred to as the "Amended Land Transfer Agreements"), which provide, in part, for transfers of lands and interests therein between the parties and for the settlement of title disputes between the parties regarding title to certain lands; and

WHEREAS, pursuant to the Amended Land Transfer Agreements the City and Catellus have conveyed certain lands and interests therein to the State of California, acting by and through the State Lands Commission (the "State"), so that the State may impose the public trust for the purposes of commerce, navigation, and fisheries; and

WHEREAS, the Legislature of this State has authorized this Patent in that certain Act of the Legislature set forth in Chapter 1143, Statutes of 1991, as amended by an Act of the Legislature set forth in Chapter 86 of the Statutes of 1992 and by an Act of the Legislature set forth in Chapter 203 of the Statutes of 1997 (collectively, the "Act");

6622166

NOW, THEREFORE, for and in consideration of the foregoing premises and other valuable consideration, the receipt and adequacy of which are hereby acknowledged, the State of California, consistent with established acts and policies; hereby conveys, releases, remises, and quitclaims to the City and County of San Francisco, a charter city and county, in trust, for the specific and limited purpose of effectuating the public trust purposes provided for in the Act, and subject to the public trust for commerce, navigation and fisheries, all of the right, title, and interest held by the State in and to that property described in Exhibit A attached hereto and depicted on Exhibit A-1 attached hereto, each incorporated herein by reference (the "Property"), and, with respect to that portion of the Property described on Exhibit B hereto and depicted on Exhibit B-1, subject to and further burdened by the statutory trust created by that certain Act of the Legislature set forth as Chapter 1333, Statutes of 1968, as amended (the "Burton Act"), and subject to those exceptions and reservations that are contained in the Burton Act, as if the portions of the Property described on Exhibit B had been transferred from the State to the City pursuant to the provisions of the Burton Act and the Burton Act Agreement (as defined in §1.15 of the Amended PLTA), except as hereinafter specifically provided.

The trust for purposes of commerce, navigation, and fisheries referred to herein is identical to the public trust that is impliedly reserved in grants of tide and submerged lands by the State of California, which is described in People v. California Fish Co. (1913) 166 Cal. 576.

SUBJECT TO the interests of the City and Catellus, their successors and assigns, as reserved by the City and Catellus in that certain Quitclaim Deed and Reservation of Uses recorded concurrently herewith, in and to any other uses, notwithstanding that they may not be consistent with the easement for public trust purposes, the public trust uses set forth in the Act, or the Burton Act, and as more particularly described in Section 3.2 of the Amended ACTPT, which is incorporated herein by reference; such reservation of uses being subject to termination as provided in said Section 3.2 of the Amended ACTPT. The State of California further designates the City as the "Trust Administrator" within the meaning of the said Quitclaim Deed and grants to the City the power to terminate such reservation of uses as to all or a portion of the property described in Exhibit A in accordance with and subject to all of the terms of Section 3.2 of the Amended ACTPT, if the City shall decide to convert all or any part of the Property to the public trust uses set forth in the Act.

The State reserves the right by Act of the Legislature to amend, modify, or revoke, in whole or in part, the transfer of lands in trust as provided for herein, provided that the State shall thereupon assume all lawful obligations related to such lands as may revert to the State by such action.

EXCEPTING from this conveyance and RESERVING unto the State of California, its successors and assigns, forever, all minerals and all mineral rights of every kind and character now known to exist or hereafter discovered in the property described in Exhibit C attached hereto, including, but not limited to, oil and gas and rights thereto, together with the sole, exclusive, and perpetual right to explore for, remove, and dispose of those minerals by any means or methods suitable to the State of California or to its successors and assigns, but without entering upon or using the surface of the lands hereby conveyed, and in such manner as not to damage the surface of said lands or to interfere with the use thereof by the City and County of

## MISSION BAY SOUTH INFRASTRUCTURE PLAN

This Infrastructure Plan will govern the construction and development of Infrastructure in the South Plan Area and is consistent with the Redevelopment Requirements. Except as is consistent with the Interagency Cooperation Agreement and as agreed to by the Agency and Owner, no Infrastructure beyond what is described herein and such other Infrastructure as may be mutually agreed to by the Agency and Owner, will be required for development of the South Plan Area or will be constructed by the Owner in the South Plan Area.

Initially capitalized terms unless separately defined in this Infrastructure Plan have the meanings and content set forth in the South OPA. Elevations referred to herein are to Mission Bay Datum. "Mission Bay Datum" is defined as City Datum plus one hundred feet.

This Infrastructure Plan describes all Infrastructure Improvements to be provided by Owner in accordance herewith for the South Plan Area. While some Infrastructure Improvements to be provided by City Agencies and other governmental agencies, such as the San Francisco Municipal Railway ("MUNI"), the Port and the University of California, are described, their inclusion herein is not intended to be all inclusive of all Improvements to be provided by City Agencies and other governmental agencies. Except as specifically identified below, this Infrastructure Plan does not include Infrastructure within the approximately forty-three (43) acre Campus Site shown on the Site Plan, Attachment 1 to the South OPA. Only the following public Infrastructure which runs through the Campus Site are included in this Infrastructure Plan: (i) Fourth Street; and (ii) sewer and storm drainage systems, overland flow and any other utilities running across the Campus Site in the vara-block utility easement corridors which benefit non-Campus Site development in the South Plan Area. See Exhibits 4 and 4a. A condition of Owner's performance under this Infrastructure Plan is the obtaining of all requisite approvals in accordance with the South OPA and Interagency Cooperation Agreement.

This Infrastructure Plan and the Mission Bay Subdivision Regulations establish the design standards, construction standards, criteria and specifications of Infrastructure in the South Plan Area, including, without limitation, streets, blocks, lots, and Infrastructure within the street right of ways, including for the separated storm and sewer system, Open Space Parcels and all other Infrastructure. In subdivision processing, including the review and approval of subdivision improvement plans, the precise location and final design of Infrastructure consistent with this Infrastructure Plan including intersection Improvements, street segment Improvements, wet and dry utilities Improvements, open space Improvements, and other Infrastructure will be determined.

The acquisition, dedication and acceptance of streets and other Infrastructure Improvements will occur through the subdivision map process in accordance with the Mission

Streets and other streets, and will accommodate one lane each way, providing parking on both sides.

2. Wet Utilities.

The following section describes Infrastructure for the sanitary sewer and storm drain Improvements, which shall, except as otherwise indicated, be provided by Owner in connection with the development of the South Plan Area.

a. Sanitary Sewer and Storm Drain System.

The sanitary sewer and storm drain system and the Infrastructure to be constructed by Owner in connection therewith are shown on Exhibit 4.

The storm drain collection system described above is designed for a five (5) year storm, consistent with existing City design criteria. For flows over the five (5) year storm, adequate overland flows for the one hundred (100) year storm will be maintained in the street areas or in other designated areas or other approved corridors which may require easements such as from City Agencies and/or the State, with flows directed to Channel or Bay.

b. Description of Drainage Basins.

For purposes of this Infrastructure Plan, the Mariposa Basin is defined as the part of the South Plan Area located between Mariposa Street and a point three hundred (300) feet north of 16th Street. The Central Basin is described as the part of the South Plan Area located between the Channel and a point three hundred (300) feet north of 16th Street. See Exhibit 4.

c. Separate Sanitary Sewer and Storm Drain System (Central Basin and Mariposa Basin).

The Improvements are shown on Exhibit 4 as two (2) separate systems as follows:

(i) Sanitary Sewer Only.

- A. The Central Basin sanitary sewer system is divided into two (2) zones, each of which flow by gravity to the City combined sewer box just south of the Channel. A sewer lift station will be provided at the box entrance to provide for pressure flow during high level flow in the City box.
- B. The Mariposa Basin sanitary system is a single zone which will be directed to the existing combined pipe system which flows by gravity to the Mariposa Pump Station.

C. The sanitary sewer systems may consist of high density polyethylene ("HDPE") pipe up to and including twelve (12) inches in diameter (sewers exceeding twelve (12) inches in diameter will be Vitrified Clay Pipe (VCP) or Reinforced Concrete Pipe (RCP)), manholes with solid covers, HDPE laterals and appurtenant Improvements. The independent sanitary sewer system may utilize some of the existing combined sewer lines to the extent possible by dedicating the existing line to sanitary sewer collection only. This will require that all previously connected storm drain flows to these lines be redirected to the new separate storm drain system.

(ii) Storm Drain Only.

A. The Central Basin storm drain system is divided into four (4) zones, each of which flow by gravity to its separate stormwater pump station.

The Mariposa storm drain system will be similar to the Central Basin except it will only have one (1) zone.

The storm drain system for both Basins will consist of RCP pipe, manholes, drain inlets integral with sidewalks, outfall structures and appurtenant structures. As a minimum, Class IV RCP will be used under sidewalks and streets with four (4) feet of cover, minimum, unless otherwise approved by the City. The areas near the Bay or Channel will be set at a minimum top of curb elevation of ninety-eight (98.0) feet. The minimum first floor building elevation shall be ninety-nine (99.0) feet. Hydraulic grade line at catch basin not to exceed elevation ninety-seven (97.0) feet.

Some additional specific design parameters from the storm drain system are one (1) foot of freeboard to top of curb in the inlets, pipe sized to be capable of conveying a minimum five (5) year storm, and flows over the piping capacity to be conveyed overland to the Bay or Channel. Pump stations would be provided with dewatering capability and

Subject: 1000 4<sup>th</sup> Street Affordable Housing and Related Public Infrastructure Improvements, Mission Bay -  
Consistency Determination

Dear Ms. Kahn:

The San Francisco Department of Public Works (DPW) is writing this letter in support of the City's funding application to HCD's TOD Housing Program. DPW confirms that the infrastructure improvements proposed for the 1000 4<sup>th</sup> Street project are consistent with the Mission Bay South Redevelopment Plan and all related plans and documents, including the Mission Bay South Infrastructure Plan, approved by the San Francisco Board of Supervisors on November 2, 1998 and amended January 4, 2001. DPW is party to the Mission Bay South Infrastructure Plan.

The specific infrastructure improvement is:

1. The construction of a stormwater pump station at the corner of 4<sup>th</sup> Street and Channel Street and all related utility connections.

These infrastructure improvements are consistent with applicable local rules, plans and policies implemented by DPW. Please contact me if you have any questions or need additional information.

Sincerely,

Grace Kwak  
Project Manager

<p>Note: Total amount in TOD Grant Column must equal amount requested in application.</p> <p><b>COST NARRATIVE: USE THE SPACE BELOW TO EXPLAIN ANY EXTRAORDINARY SITE CONDITIONS WHICH RESULT IN DEVELOPMENT COSTS TO BE HIGHER THAN ACCEPTED INDUSTRY STANDARDS.</b></p> <p>This site is particularly difficult to develop given the active park use and close proximity to the streets and MUNI public transit lines. The soil conditions and close proximity to the Mission Creek shore edge provide additional challenges. The Site is made up of unstable bay mud fill and historic landfill materials so the underlying soil conditions along with the shallow groundwater create challenging site conditions. The interim PS will need to remain in use and operational until PS#3 is operational and which point the demolition of the old interim facility can take place. The existing facilities are in close proximity to the new PS#3 creating tight site conditions. The outfall lines will need to run under the existing Muni Transit rail which cannot be shut down during periods of their operating schedule. Night work will be required when work in this area is scheduled to take place. Traffic control and pedestrian protection of this area will be critical and costly as the new facility is near the Fourth and Channel intersection which is one of two primary traffic routes adjoining Mission Bay North and South.</p>

RE: 1000 Fourth Street  
Contract No. 08-TOD-5909

Dear Ms. Agostino and Mr. Shoemaker:

I am pleased to inform you that the Department of Housing and Community Development (Department) has awarded a rental housing development loan from the Transit Oriented Development (TOD) Housing Program to Mercy Housing Calwest in the amount of \$12,300,000 and an infrastructure grant to the City and County of San Francisco in the amount of \$4,700,000 for the 1000 Fourth Street project in the city of San Francisco, San Francisco County.

This letter constitutes a notice of conditional award of TOD Program funds totaling \$17,000,000 for the 1000 Fourth Street project.

This notice of conditional award letter amends the Award Letter dated June 30, 2009 to delete in its entirety the "Conditions Related to Availability of Funds". All other conditions remain in effect.

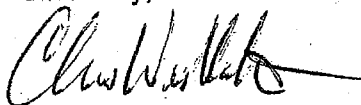

This commitment is conditioned on compliance with the requirements of all applicable statutes and guidelines of the TOD Program, as well as any project agreements stipulated in the commitment letter and contract documents, which will be forwarded to the awardees. Please note that the Department does not have authority to disburse any funds until all required agreements are fully executed.

Valerie Agostino, Mercy Housing Calwest  
Douglas Shoemaker, San Francisco Mayor's Office of Housing

The mission of the Department is to preserve and expand safe and affordable housing opportunities and promote strong communities for all Californians. The TOD Program provides loans for rental housing development and grants for infrastructure improvements related to high density infill housing and mixed use development near transit. Awards are being widely distributed throughout the State.

We look forward to working with you on this project. If you have any questions, please contact Nadine Ford, Infrastructure and Rental Housing Branch Chief at (916) 327-3942.

Sincerely,
