Re: San Francisco Public Utilities Commission, Appointment to Seat No. 2

Dear Supervisor Breed:

The Sierra Club opposes the confirmation of Ike Kwon to Seat No. 2 of the San Francisco Public Utilities Commission.

As stated in Proposition E passed by voters in June 2008, "Seat 2 must have experience in ratepayer or consumer advocacy."

Mr. Kwon's experience and statements indicate a commitment to sustainability, but unfortunately do not indicate that he is a good fit for this particular seat.

Proposition E was an important reform to the SFPUC appointment process. The seat designations it describes should be strongly considered when confirming appointments.

Dear Rules Committee Chair Supervisor Yee,

It is with great pleasure that I support the appointment of Ike Kwon to the San Francisco Public Utilities Commission. Mr. Kwon's leadership, understanding of city government and ability to unite community and municipal organizations to improve our city makes him a valuable candidate for appointment to the SFPUC.

For the past 13 years the San Francisco Recreation and Park Department has forged a strong relationship with Mr. Kwon as he oversees one of the largest tenants in Golden Gate Park; the California Academy of Sciences, which brings 1.3 million visitors to our park and city annually. As General Manager of the California Academy of Sciences, Mr. Kwon's strong leadership through policy creation and detailed oversight of a \$14 million annual budget has led the California Academy to an all-time high in membership base as well as exceeding industry benchmarks for guest satisfaction.

In addition, Mr. Kwon understands city government and effortlessly navigates and partners with city agencies such as SFPD, SFFD, SFTA, SFDEM and SFRPD to provide services such as the formation of cooperative networks and agreements to serve the city in the event of a disaster. He has created multi-agency cooperative programs to employ individuals with development disabilities and in-risk young adults. As a member of the Inner Sunset Merchant's Association (IMSA) he has helped secure funding for improved pedestrian pathways as well as increasing positive activation of green spaces at the 9th Avenue and Lincoln Way entrance to Golden Gate Park by working with SFRPD, SFMTA and SFDPW.

Lastly, utilizing his experience working with city government and public policy, Mr. Kwon is a strong advocate for the community. He is a member of the San Francisco Parks Alliance's Advisory Council and provides support in developing advocacy directions with park groups and the general public.

In conclusion, Mr. Kwon's ability to produce high level results along with his keen aptitude to work with city government in advocating for communities lead me to believe that he will be a worthy addition to the SFPUC.

Sincerely,

Philip A. Ginsburg

RE: Mr. Ike Kwon - Ratepayer Advocate Seat, SFPUC

Honorable Supervisors,

My name is Beverly Dobrus. I am a first generation San Franciscan who is proud to also claim her immigrant roots. My grandparents and parents, if they were alive, would be stunned to learn that I was reaching out to an official of City government to voice and advocate a position. Such is a favorable change in our times.

I wish to express my strong endorsement for Mr. Ike Kwon for the seat, Ratepayer Advocate, on the San Francisco Public Utilities Commission (SFPUC). I sincerely hope members of the Rules Committee will affirm Mr. Kwon's merits by forwarding his nomination to the full Board of Supervisors for approval.

I am a career educator of forty years in the kindergarten through twelfth grade public school system - both as a teacher and administrator. Thousands of children and their families enriched my life during those wonderful years. Some of my professional relationships such as the one with the Kwon family grew into a personal one as well.

Initially, I learned Mr. Kwon transplanted his family, wife Rhea and two young daughters Somer and Nina, from Chicago to join the California Academy of Sciences as General Manager in 2008. How exciting for Mr. Kwon to pursue a career position that exactly matched his passion, conservation and stewardship of the natural environment. Over subsequent years, I observed the scope of Mr. Kwon's responsibilities extend and how his enthusiastic leadership moved his staff to exceed Academy benchmarks - benchmarks that targeted goals such as reducing water usage, improving staff retention rates, growing membership, balancing budgets, maintaining and expanding infrastructure through innovative means, and creating a welcoming, accessible, fun and a research, teaching and learning living museum for the local and global community. I looked forward to every conversation with Mr. Kwon because while his thinking was broad, his command of detailed information was also deep.

I know with certainty that all of Mr. Kwon's decisions and actions are grounded in ETHICS. His choices align with his espoused beliefs. Mr. Kwon is remarkable in how he seeks out and engages others - to learn, explore and consider diverse, divergent perspectives and gain insights from authentic sources. I take pride in being a San Franciscan. I recognize my responsibility as a tax payer to support City initiatives that reflect my values (Zero Emission, CleanPower SF, ECOtality, etc.), and, participate in governance as a voter. To me, TRUST in the person is paramount. TRACK RECORD of the person is the test. I know Mr. Kwon "walks his talk" by dedicating his professional career to an institution, the California Academy of Sciences, that focuses on sustainability issues; Participating on community based leadership boards such as the District Four Sunset Blueprint Leadership Group; Interacting with citizens in grassroots activities like hosting neighborhood gatherings for the Front Yard Ambassadors Program; and Replicating a living roof on his daughters' backyard club playhouse. Repeatedly, Mr. Kwon's actions demonstrate his personal commitment to the renewal energy movement for all to model.

None of us know with certainty all of the challenges or possible solutions before our City: The shifting demographics of our citizens; The development of new infrastructures and services to keep pace with our growing populace; The building of new housing and commercial centers; The transition of the production of electricity from carbon based fossil fuels to renewable sources (solar, wind, wave, and geothermal); The leveraging of technological innovations including breakthroughs that commercialize clean, non-polluting energy; and, The need to ensure social equity in the access to communal based and financed resources - universal access that is synergistic with the rich backgrounds, cultures and languages of our citizenry.

I believe Ike Kwon's idea to examine established Community Choice Aggregations (CCA) and revive CleanPower SF are initial steps for moving San Francisco closer to its goal of "Zero Emission". Mr. Kwon's professional life mirrors his personal convictions. He has a powerful vested interest - he has two children. From that perspective, transitioning to a sustainable yield economy that is accessible and cost effective for all is not a nice to have - it is a must do. Please allow Mr. Kwon the opportunity to work as a sitting member of the SFPUC with the Board of Supervisors, the Mayor and the citizens of San Francisco. I believe Mr. Kwon can move many sustainability initiatives forward including CleanPower SF. Likened to the Double Platinum LEED Rating that the California Academy of Sciences proudly touts, San Francisco can attain its own "Double Platinum" status as a model among green cities.

Thank you for considering my view points; and, why I support Ike Kwon for the seat of Ratepayer Advocate on the San Francisco Public Utilities Commission.

Yours truly,

Beverly Dobrus

Subject: Ike Kwon Nomination to PUC

Dear Supervisor Breed,

I am so pleased to see that Mayor Lee has nominated Ike Kwon to serve on the Public Utilities Commission as a ratepayer advocate.

I met Ike several years ago when he reached out to Inner Sunset Park Neighbors (ISPN) to learn about and offer support for local community issues and projects in my neighborhood. In doing so, he created the sense that the California Academy of Sciences is a part of our neighborhood and not just an institution occupying nearby real estate. We've worked on several key projects together in the areas of neighborhood beautification, safety and security and park enhancements.

I have found Ike to be a good listener, a creative thinker and a talented leader, with the ability to bring various groups of people together to best effect. I think his experience in the sustainability field combined with his sense of community advocacy will be a great fit for the position. I hope you and the Board will agree and confirm his nomination to the PUC.

Respectfully,

Andrea Jadwin
