9

10 WHEREAS, Laguna Honda Hospital and Rehabilitation Center for over 150 years
11 served as a critical part of San Francisco’s healthcare safety net system and provided life-
12 saving care as a skilled nursing facility for approximately 700 patients with the highest needs;
13 many of whom are low to extremely low-income and vulnerable; and

14 WHEREAS, On April 14, 2022, the Centers for Medicare and Medicaid Services (CMS)
15 terminated Laguna Honda Hospital and Rehabilitation Center (Laguna Honda Hospital)’s
16 certification in the Medicare/Medicaid Program; and

17 WHEREAS, Laguna Honda Hospital is working diligently with CMS to address findings
18 and improve protocols in order to reapply and to regain Medicare/Medicaid certification; and

19 WHEREAS, While the recertification process is underway, CMS is concurrently
20 requiring Laguna Honda Hospital to start discharging and transferring all 686 patients in order
21 to continue Medicaid and Medicare payments until September 13, 2022; and

22 WHEREAS, In order to comply with CMS’ directive, Laguna Honda Hospital submitted
23 its “Closure and Patient Transfer and Relocation Plan” to CMS and the California Department
24 of Public Health on May 13, 2022, on file with the Clerk of the Board of Supervisors in File No.

2 began implementation starting on May 14, 2022; and

3 WHEREAS, Laguna Honda Hospital staff have been working in good faith to follow the
4 Closure and Patient Transfer Plan, but are limited by the dearth of skilled nursing facilities
5 willing to accept patients with Medicare and Medicaid; and

6 WHEREAS, Laguna Honda Hospital is working closely with the State and other local
7 agencies to find appropriate placements for patients that may no longer need the level of care
8 of a skilled nursing facility; and

9 WHEREAS, As of July 18, 2022, Laguna Honda Hospital discharged 16 patients into
10 community settings and transferred 40 patients to other skilled nursing facilities; and

11 WHEREAS, There are grave concerns about the danger of relocating and transferring
12 patients who are elderly, frail, or with complicated medical needs that could be further
13 exacerbated by transfer trauma and the possibility of being transported miles away from their
14 family support systems due to the extreme shortage of skilled nursing beds in the San
15 Francisco Bay Area; and

16 WHEREAS, As of July 20, 2022, there have since been four elderly patients that have
17 died after being transferred from Laguna Honda Hospital to other skilled nursing facilities
18 presumably due to the traumatic experience of being relocated; and

19 WHEREAS, Without the intervention of CMS, Laguna Honda Hospital is required to
20 continue relocating of patients that will likely face dangerous health conditions and possible
21 death despite a recertification assessment anticipated in the coming months; now, therefore,
22 be it

23 RESOLVED, That the San Francisco Board of Supervisors urges United States
