15 **Section 1. Findings**

16 The California Energy Commission’s State Energy Program provides funds to eligible
17 local governments for cost-effective energy efficiency projects based on a competitive
18 selection process.

19 The City and County of San Francisco is eligible for funding under the California
20 Energy Commission’s State Energy Program.

21 The California Energy Commission’s State Energy Program allows public agencies or
22 non-profit entities to apply for funds on behalf of eligible local governments.

23 The San Francisco Department of the Environment collaborated with the Association of
24 Bay Area Governments (ABAG) to submit a regional application to California Energy
25 Commission’s State Energy Program to implement the Retrofit Bay Area Program which
includes energy efficiency projects in the City and County of San Francisco.

1 Based on the evaluation of applications, the California Energy Commission's State
2 Energy Program selected the Association of Bay Area Governments (ABAG) to receive
3 funding of \$10,750,000.00 for the Retrofit Bay Area Program.

4 The City and County of San Francisco will receive \$875,957.00 to implement energy
5 efficiency projects as part of Retrofit Bay Area.

6 The City and County of San Francisco recognizes that it is vital for local, regional,
7 state, and federal agencies to stimulate the economy; create and retain jobs; reduce fossil fuel
8 emissions; reduce total energy usage; and improve energy efficiency.

9 The City and County of San Francisco has committed to an ongoing, coordinated effort
10 to reduce the emissions that cause global warming, improve air quality, reduce waste, reduce
11 energy use and save money.

12 The City and County of San Francisco is committed to reducing these community-wide
13 greenhouse gas emissions by 20% below its 1990 levels by 2012.

14 In 2004, San Francisco's Department of the Environment and Public Utilities
15 Commission released a "Climate Action Plan for San Francisco" identifying transportation,
16 energy efficiency, renewable energy, and solid waste measures that could achieve significant
17 greenhouse gas reductions.

18 The Climate Action Plan called for implementing energy efficiency programs and
19 projects throughout the City.

20 The City and County of San Francisco has considered the application of the California
21 Environmental Quality Act (CEQA) to the implementation of the proposed projects funded
22 through this grant.

23 All projects undertaken with this funding are in compliance with the California
24 Environmental Quality Act (CEQA), California Public Resources Code Section 21000.
25

1 **Section 2. Authorization to Expend Funds.**

2 The grant budget includes provision for indirect costs of \$82,501.

3 The term of the grant will be from April 1, 2010 through March 31, 2012.

4 The Board of Supervisors hereby authorizes ABAG to accept a grant award on behalf
5 of the City and County of San Francisco and to enter into all necessary contracts and
6 agreements, and amendments thereto, on its behalf to implement and carry out energy
7 efficiency projects.

8 The Department of the Environment is authorized to furnish whatever additional
9 information or assurances the funding agency may request in connection with this grant, and
10 to execute any and all agreements necessary to carry out the purpose of the grant and to
11 Expend funds in execution of this project.

12 **Section 3. Grant-funded Position; Amendment to FY 2009-20010 Annual Salary**
13 **Ordinance.**

14 The hereinafter designated sections and items of Ordinance No. 183-09 (Annual Salary
15 Ordinance, FY 2009-2010) are hereby amended to ADD THREE (3) positions in the
16 Department of the Environment, and reads as follows:
