Section 1. Environmental and General Findings.

(a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. \_\_\_\_ and is incorporated herein by reference. The Board affirms this determination.

(b) On \_\_\_\_\_, at a duly noticed public hearing, the Building Inspection Commission considered this ordinance in accordance with Charter Section 4.121 and Building Code Section 104A.2.11.1.1. A copy of a letter from the Secretary of the Building Inspection Commission regarding the Commission's recommendation is on file with the Clerk of the Board of Supervisors in File No. \_\_\_\_\_.

1 (c) No local findings are required under California Health and Safety Code Section  
2 17958.7 because the amendments to the Building Code contained in this ordinance do not  
3 regulate materials or manner of construction or repair, and instead relate in their entirety to  
4 administrative procedures for implementing the Code, which are expressly excluded from the  
5 definition of a "building standard" by California Health and Safety Code Section 18909(c).

6 (d) The Department of Building Inspection submitted a report describing the basis for  
7 modifying various fees in the Building Code. Said report is on file with the Clerk of the Board  
8 of Supervisors in File No. \_\_\_\_\_ .

##### **(e) Additional Fees.**

(1) In instances where administration or processing of any application, action, or procedure is or will exceed the fee amount established pursuant to subsection (a), the

1 Director, in his or her discretion, may require an applicant or permittee to pay a sum in excess  
2 of the subject fee amounts. This additional sum shall be sufficient to recover actual costs that  
3 the Department incurs and shall be charged on a time and materials basis. The Director also  
4 may charge for any time and materials costs that other agencies, boards, commissions, or  
5 departments of the City, including the City Attorney's Office, incur in connection with the  
6 processing or administration of a particular application, action, or procedure. Whenever  
7 additional fees are or will be charged, the Director, upon request of the applicant or permittee,  
8 shall provide in writing the basis for the additional fees or an estimate of the additional fees to  
9 be charged.

15 be adjusted each year, without further action by the Board of Supervisors, to reflect changes  
16 in the relevant Consumer Price Index, as determined by the Controller. No later than April  
17 15th of each year, the Director shall submit the Department's current fee schedule to the  
18 Controller, who shall apply the price index adjustment to produce a new fee schedule for the  
19 following year. No later than May 15th of each year, the Controller shall file a report with the  
20 Board of Supervisors reporting the new fee schedule and certifying that: (a) the fees produce  
21 sufficient revenue to support the costs of providing the services for which the fee is charged  
22 and (b) the fees do not produce revenue that exceeds the costs of providing the services for  
23 which each permit fee is charged. Notwithstanding the procedures set forth in this Section, the  
24 Board of Supervisors, in its discretion, may modify the fees at any time.

## **LEGISLATIVE DIGEST**

[Building, Subdivision, and Administrative Codes - Fee Adjustment and Building Inspection Fund Subfunds]

**Ordinance amending the Building, Subdivision, and Administrative Codes to adjust fees charged by the Department of Building Inspection and to establish Subfunds within the Building Inspection Fund; and affirming the Planning Department's determination under the California Environmental Quality Act.**

### **Existing Law**

Building Code Section 110A establishes the fees for permits and services provided by the Department of Building Inspection in Tables 1A-A through 1A-S. Subdivision Code Section 1315 establishes a set \$374 for fee for subdivisions. Section 10.100-45 establishes the Building Inspection Fund ("BIF") for depositing permit fees and the outlines the permissible expenditures from the Fund.

### **Amendments to Current Law**

The fee tables in Section 110A are being amended to adjust all fees by amounts pursuant to a 2023 fee study. The Proposed Legislation would also amend Section 1315 of the Subdivision Code to delete the set \$374 fee and instead refer back to Section 110A, Table 1A-J of the Building Code. Finally, the Proposed Legislation would add subfunds within the BIF for specific revenue sources and expenditures.

### **Background Information**

In 2023, the Department of Building Inspection ("DBI") commissioned a fee study to determine the actual costs of service for each permit service. The fee study produced a recommended maximum amount to set each fee that would fully recover DBI costs to perform the service without risk of overcharge to permit applicants. To implement fee increases gradually, the fees were increased partially in 2024 and the Proposed Legislation makes the next incremental adjustment of fees. All the fees will remain at or below the maximum recoverable amount identified in the fee study. This legislation is part of the Mayor's budget presentation.
