18 subdivide, resubdivide, or perform a lot line adjustment to a parcel that is equal to or greater  
19 than 10,000 square feet, into one or more smaller parcels, shall be permitted only with  
20 eConditional ~~u~~Use authorization approval.

21 Additionally, all proposals for the subdivision, resubdivision, or lot line adjustments of  
22 parcels in PDR Districts shall be evaluated in consideration of the following criteria in order to  
23 further Objective 4 of the Commerce and Industry Element and Policies 1.5 and 8.1 of the  
24 Bayview Hunters Point Area Plan:

25 (a) The proposed parcelization will support light industrial activities in the district.

1 (b) If the resulting parcelization will require demolition of a structure, the demolition  
2 of the structure complies with the Industrial Uses replacement requirement per  
3 Section 202.7 230.

4 (c) The uses proposed for the parcels, if any, comply with the cumulative use size  
5 limits detailed in the PDR Zoning Control Table.

9 (g) **Landscaping and Permeable Surfaces.** The landscaping and pPermeable  
10 sSurface requirements of this ssubsection (g) and ssubsection (h) below shall be met by the  
11 permittee in the case of construction of a new building; the addition of a new Dwelling Unit, a  
12 garage, or additional parking; any addition to a structure that would result in an increase of  
13 20% or more of the existing Gross Floor Area, ~~as defined in Section 102~~; a Residential Merger,  
14 as defined in Section 317; or paving or repaving more than 200 square feet of the front  
15 setback. All front setback areas required by this Section 132 shall be appropriately  
16 landscaped, meet any applicable water use requirements of Administrative Code Chapter 63,  
17 and in every case not less than 20% of the required setback area shall be and remain  
18 unpaved and devoted to plant material, including the use of climate appropriate plant material  
19 as defined in Public Works Code Section 802.1. For the purposes of this Section 132,  
20 permitted obstructions as defined by Section 136(c)(6) chimneys, Section 136(c)(14) steps,  
21 and Section 136(c)(26) underground garages, shall be excluded from the front setback area  
22 used to calculate the required landscape and pPermeable sSurface area. If the required  
23 setback area is entirely taken up by one or more permitted obstructions, the Zoning  
24 Administrator may allow the installation of sidewalk landscaping that is compliant with  
25 applicable water use requirements of Chapter 63 of the Administrative Code to satisfy the

1 requirements of this Section 132, subject to permit approval from the Department of Public  
2 Works in accordance with Public Works Code Section 810B.

3 (h) **Permeable Surfaces.** The front setback area shall be at least 50% permeable  
4 so as to increase stormwater infiltration. The ~~p~~Permeable ~~s~~Surface may be inclusive of the  
5 area counted towards the landscaping requirement; provided, however, that turf pavers or  
6 similar planted hardscapes shall be counted only toward the ~~p~~Permeable ~~s~~Surface requirement  
7 and not the landscape requirement. *Permeable surfaces are defined in Section 102.33.*

8 (1) The Zoning Administrator, after consultation with the Director of Public  
9 Works, may waive the ~~p~~Permeable ~~s~~Surface requirement if the site does not qualify as a  
10 suitable location pursuant to Department of Public Works rules and regulations.

11 (2) If the site receives stormwater run-off from outside the lot boundaries, the  
12 Zoning Administrator, after consultation with the General Manager of the Public Utilities  
13 Commission, may modify the ~~p~~Permeable ~~s~~Surface requirement to include alternative  
14 management strategies, such as bio-retention or other strategies, pursuant to Public Utilities  
15 Commission rules and regulations.

16 (i) **Planned Unit Developments.** In addition to the front yard landscaping  
17 requirements in Section 132(g). Planned Unit Developments are required to install the  
18 following front yard landscape features.

19 (1) Where ground floor setbacks are required, landscaping is also required in  
20 the setbacks per Section 132(g). All building setback areas not occupied by steps, porches or  
21 other permitted obstructions shall be ~~p~~Permeable Surfaces *as defined in Section 102.33.*

22 Setbacks should be designed to provide access to landscaped areas, encouraging active use  
23 by residents.

1 SEC. 142. SCREENING AND GREENING OF PARKING AND ~~VEHICLE~~ VEHICULAR USE  
2 AREAS.

3 Off-street parking and "~~vehicle~~ vehicular use areas" adjacent to the public right-of-  
4 way shall be screened as provided in this Section.

5 (a) Screening of Parking and vehicular ~~vehicle~~ Use Areas less than 25 Linear  
6 Feet Adjacent to a Public Right-of-Way.

7 (1) Every off-street parking space within a building, where not enclosed by  
8 solid building walls, shall be screened from view from all Streets and Alleys through use of  
9 garage doors or by some other means.

10 (2) Along rear yard areas and other interior open spaces, all off-street  
11 parking spaces, driveways and maneuvering areas within buildings shall be screened from  
12 view and confined by solid building walls.

13 (3) Off-street parking spaces in ~~p~~Parking ~~l~~lots shall meet the requirements of  
14 Section 156 and other applicable provisions of Article 1.5 of this Code. Such parking areas  
15 shall be screened from view as provided in Section 156(c) of this Code.

16 (b) Vehicular Use Areas That Are Greater than 25 Linear Feet along the Public  
17 Right-of-Way. All lots containing ~~v~~vehicular use areas where such area has more than 25  
18 linear feet along any public right-of-way shall provide screening in accordance with the  
19 requirements of this Section and the Ornamental Fencing definition in Section 102-32. The  
20 following instances shall trigger the screening requirements for these ~~vehicle~~ vehicular use  
21 areas:

22 (1) Any existing ~~v~~vehicular use area that is accessory to an existing  
23 ~~p~~Principal use if such use expands ~~g~~Gross floor area equal to 20% ~~percent~~ or more of the  
24 ~~g~~Gross floor area of an existing building;  
25

1 (2) Any repair rehabilitation or expansion of any existing ~~v~~vehicular ~~u~~Use  
2 ~~a~~Area, if such repair, rehabilitation or expansion would increase the number of existing  
3 parking spaces by either more than 20% or by more than four spaces, whichever is greater; or

4 (3) The excavation and reconstruction of an existing ~~v~~vehicular ~~u~~Use ~~are~~  
5 ~~Area~~ if such excavation and reconstruction involves the removal of 200 square feet or more of  
6 the asphalt, concrete or other surface devoted to vehicular use. This provision does not apply  
7 to the resurfacing due to emergency work to underground utilities if such work is intended to  
8 maintain safety or other public purpose beyond the control of the property owner.

9 (c) **Perimeter Screening.** All ~~v~~vehicular ~~u~~Use ~~a~~Areas that are greater than 25 linear  
10 feet adjacent to the public right-of-way shall provide a screening feature around the perimeter  
11 of the lot adjacent to the public right-of-way. Screening shall add to the visual diversity of the  
12 use and need not be an opaque barrier. This feature shall be at least one of the following:

13 (1) Ornamental ~~f~~Fencing or a solid wall that is 4 feet in height and a 5 foot  
14 deep ~~p~~Permeable ~~s~~Surface with landscaping along the perimeter of the lot that is adjacent to a  
15 public right-of-way and compliant with the applicable water use requirements of Administrative  
16 Code Chapter 63; or

17 (2) A combination of permeable landscaping compliant with the applicable  
18 water use requirements of Administrative Code Chapter 63 and ~~o~~Ornamental ~~f~~Fencing where  
19 the ~~p~~Permeable ~~s~~Surface and landscaping is the equivalent area of a 5 foot deep average  
20 perimeter landscaping that has been otherwise configured to result in either: (~~i~~A) a public  
21 space or amenity that is accessible from the public right-of-way or (~~#~~B) a natural drainage  
22 system, such as combined swales, retention basins, detention basins or rain gardens, to  
23 reduce stormwater runoff.

24 (d) Modification of Perimeter Screening Requirements. The Zoning Administrator is  
25 authorized to modify the requirements of subsection (c), thereby allowing alternative

1 landscape treatments to partially or wholly satisfy this screening requirement provided that  
2 alternative landscape treatments such as landscaped berms, perimeter plantings, pedestrian  
3 lighting, benches and seating areas, or additional landscaping and tree plantings are provided  
4 elsewhere on the site and will be visible from the public right-of-way or are provided in the  
5 public right-of-way as regulated by Section 810B of the Public Works Code. The Zoning  
6 Administrator may authorize such modification only upon finding that the proposed alternative  
7 landscape treatment would:

8 (1) Provide a visual effect that promotes and enhances the pedestrian  
9 experience through the use of quality urban design;

10 (2) Promote the reduction of stormwater runoff; and

11 (3) Use climate appropriate plant materials, as defined in Public Works Code  
12 Section 802.1, that are compliant with the applicable water use requirements of Administrative  
13 Code Chapter 63.

 6 districts, RED districts, and NC districts other than NCT, shall have a minimum floor-to-floor  
 7 height of 14 feet, as measured from grade except in 40-foot and 50-foot height districts, where  
 8 buildings shall have a minimum floor-to-floor height of 10 feet.

9 \* \* \* \*

10 (6) **Transparency and Fenestration.** Frontages with active uses that are not  
 11 ~~residential or~~ PDR must be fenestrated with transparent windows and doorways for no less  
 12 than 60% ~~percent~~ of the street frontage at the ground level and allow visibility to the inside of  
 13 the building. The use of dark or mirrored glass shall not count towards the required  
 14 transparent area. Buildings located inside of, or within an unobstructed line of less than 300  
 15 feet of an Urban Bird Refuge, as defined in Section 139(c)(1), shall follow glazing

**SEC. 210.1. C-2 DISTRICTS: COMMUNITY BUSINESS.**

These districts serve several functions. They provide convenience goods and services to Residential areas of the City, both in outlying sections and in closer-in, more densely built communities. In addition, some C-2 Districts provide comparison shopping goods and services on a general or specialized basis to a Citywide or a regional market area, complementing the main area for such types of trade in downtown San Francisco. The extent of these districts varies from smaller clusters of stores to larger concentrated areas, including both shopping centers and strip developments along major thoroughfares, and in each case

1 the character and intensity of commercial development are intended to be consistent with the  
 2 character of other uses in the adjacent areas. ~~As in C-1 Districts, the~~ emphasis in C-2 Districts  
 3 is upon compatible retail uses, but the district also allows a wider variety of goods and services  
 4 ~~is included~~ to suit the longer-term needs of customers and a greater latitude is given for the  
 5 provision of automobile-oriented uses.

18 **SEC. 718. UPPER FILLMORE STREET NEIGHBORHOOD COMMERCIAL DISTRICT.**

19 The Upper Fillmore Street Neighborhood Commercial District is situated in the south-  
20 central portion of Pacific Heights. It runs north-south along Fillmore Street from Jackson to  
21 Bush and extends west one block along California and Pine Streets. This medium-scaled,  
22 multi-purpose commercial district provides convenience goods to its immediate neighborhood  
23 as well as comparison shopping goods and services on a specialized basis to a wider trade  
24 area. Commercial businesses are active during both day and evening and include a number  
25 of bars, restaurants, specialty groceries, and specialty clothing stores.

1 The Upper Fillmore District controls are designed to protect the existing building scale  
 2 and promote new mixed-use development which is in character with adjacent buildings.  
 3 Building standards regulate large lot and use development and protect rear yards above the  
 4 ground story and at residential levels. Most commercial uses are permitted at the first two  
 5 stories of new buildings. Special controls are designed to preserve the existing equilibrium of  
 6 neighborhood-serving convenience and specialty commercial uses. In order to maintain  
 7 convenience stores and protect adjacent livability, additional bars (unless part of a *full-service*  
 8 restaurant) and formula retail establishments are prohibited, other eating and drinking  
 9 establishments ~~and self-service specialty foods~~ require eConditional ~~u~~Use authorization and  
 10 ground-story entertainment and financial service uses are limited. In order to promote  
 11 continuous retail frontage, drive-up and most automobile uses are prohibited.

**REVISED LEGISLATIVE DIGEST**  
(Amended in Committee, 7/23/2018)

[Planning Code - Technical Amendments]

**Ordinance amending the Planning Code in order to correct errors in enacted legislation, update outdated references, clarify existing requirements, and re-enact existing text inadvertently deleted in the reorganization of Articles 2 and 7; affirming the Planning Department's determination under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1; and adopting findings of public necessity, convenience, and general welfare under Planning Code, Section 302.**

Existing Law

This ordinance amends multiple sections of the Planning Code.

Amendments to Current Law

The proposed ordinance amends a number of Code sections to (1) correct identified errors in grammar, syntax, cross-references, and format and (2) clarify existing text, re-enact text that had been deleted inadvertently or not carried forward in the reorganization of Articles 2 and 7, or add text necessary to understand the existing requirement. The vast number of the proposed changes are in category (1) and clearly non-substantive; however, the proposed changes in category (2), listed below, may be considered more substantive:

- **Section 145.4 – Required Ground floor Commercial Uses.** The proposed amendment allows an exception to the requirement in the C-2 [Community Business] and C-3 [Downtown] zoning districts. With the exception of Commercial zoning districts, in all districts where the requirement applies the Code explicitly identifies whether and how it can be modified. The proposed amendment corrects this oversight and allows the Planning Commission to waive the ground floor commercial use requirement in Commercial districts with a Conditional Use authorization, which is the existing rule for Neighborhood Commercial Districts.
- **Section 202.2(e)(1) – Location and Operating Conditions for Medical Cannabis Dispensaries (MCDs).** San Francisco recently adopted land use regulations for cannabis-related businesses, however the failure to modify existing controls in the Planning Code created controls that are overlapping and inconsistent. This subsection is amended to clarify that (1) MCDs are subject to the notice requirements of Section 312 and not the previous “custom” notice requirements and (2) Mandatory Discretionary Review is only required when the MCD is located in a Neighborhood

Commercial zoning district. These proposed changes are consistent with the intent of recent cannabis legislation.

- **Section 415.6 – On-Site Affordable Housing Alternative.** The proposed amendment to Section 415.6 was requested by the Mayor's Office of Housing and Community Development to correct a drafting error that established a rent and sales price benchmark for affordable housing inconsistent with the legislative intent. The goal of the provision is to ensure that Inclusionary Units at the higher income tiers (110% for rental and 130% for ownership) are sufficiently below market to make a difference for low- and moderate-income households. To use the medium rents or sales prices for the neighborhood, as the Code currently does, includes all properties in the neighborhood in the evaluation, including rent-controlled buildings, results in a benchmark that does not solve the problem and is inconsistent with the legislative intent.

#### Background Information

The Planning Code is amended frequently. Although the Planning Department and the City Attorney's Office review individual ordinances, errors in grammar and syntax, mistakes in cross-references, and accidental additions and deletions of text occur due to the sheer number of legislative actions and the complexity of the Code. The recent wholesale reorganizations of Articles 2 and 7 has compounded this problem. The Planning Department and the City Attorney's Office actively collect the Code errors and the Publisher also notes many of them in Codification Notes at the end of the section to which they apply. The Department presents these identified errors for correction in an annual "Code Corrections Ordinance."

Dear Ms. Calvillo,

On April 19, 2018 the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance that would amend the Planning Code to correct errors in enacted legislation, update outdated references, clarify existing requirements and re-enact existing text inadvertently deleted in the reorganization of Articles 2 and 7. At the hearing the Planning Commission recommended approval with modification.

The Commission's proposed modifications, which have already been incorporated into the attached ordinance, were as follows:

- Amend Planning Code Section 186.3 and Section 209.4 to allow non-residential uses in Landmark Buildings in RTO Districts.
- Amend Planning Code Section 121.2 to include the Polk Street Neighborhood Commercial District within the 2,000 square foot use size limit.
- Amend zoning control table in Planning Code Section 723 to correct Use Size limitations for Non-Residential Standards and Uses.

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

Please find attached documents relating to the actions of the Commission. A redlined version, along with two photo copies will be sent to your office following this transmittal. If you have any questions or require further information please do not hesitate to contact me.

### PLANNING CODE AMENDMENT

The proposed Ordinance would amend the Planning Code to correct multiple errors and make clarifying amendments. Except as identified below, the corrections are intended to be for textual clarification purposes and are not considered substantive.

#### The Way It Is Now:

The Planning Code contains multiple grammatical and syntactical errors, unintentional cross-references and accidental additions and deletions that undermine the legitimacy and enforceability of the Planning Code as a regulatory document.

#### The Way It Would Be:

The proposed Ordinance seeks to correct these errors and improve the overall quality and readability of the Code.

### BACKGROUND

The Planning Code experiences frequent amendments. Although individual ordinances are reviewed by the Planning Department and the City Attorney's Office, the volume of legislative actions and complexity of the Code as a legal, living document ensure that errors will inadvertently arise. The Planning Department actively collects these reported errors and presents them as a Code Corrections Ordinance.

### ISSUES AND CONSIDERATIONS

#### Substantive Changes

The vast majority of the proposed changes in this ordinance are not substantive. However, this ordinance does contain changes that could be considered substantive, but for the reasons identified below are

included in this ordinance as amendments that would correct conflicting or missing information. The following is a list of amendments the Department believes to be substantive:

- **Amendment to Section 145.4, Ground Floor Commercial Use Requirements:** The proposed amendment would allow an exception to the ground floor commercial use requirement in the C-2 and C-3 (Commercial) Zoning Districts. This item is being included in this ordinance as a correction, because the Code explicitly identifies whether or not this rule can be modified in all districts where this rule applies except for Commercial Districts. For example, in Neighborhood Commercial (NC) Districts this requirement can be waived through CU authorization; however, in Downtown Residential (DTR) Districts the Code explicitly states that this rule cannot be modified at all. There is no such language that explicitly permits or prohibits this waiver in Commercial Districts. This amendment would add an exception that would allow the Ground Floor Commercial Use Requirement in Commercial Districts to be waived with Conditional Use authorization, similar to the provision in NC Districts.
- **Section 415: Inclusionary Rents and Sales Price.** This proposed amendment was requested by the Mayor's Office of Housing and Community Development (MOHCD). The amendment would change the word "Median" to "Market" Rate Housing. The goal of this provision is to ensure that Inclusionary Units at the higher income tiers (110% for rental and 130% for ownership) are sufficiently below market to make a difference for low- and moderate-income households; however, referencing "median" rents as the benchmark does not accomplish this goal. The City needs to measure inclusionary rent or sale prices against what a renter or buyer faces in the market. If the City was actually to measure "median" in any particular neighborhood, it would be evaluating all properties in that neighborhood, including rent-controlled buildings. This is not a valid standard for the problem this provision is trying to solve for. Unfortunately, the highlighted language was added at the last minute, and MOHCD was not able to correct it before the ordinance was adopted. The proposed amendment would correct this error in drafting.
- **Section 202.2: Duplicative Noticing Requirements and Mandatory Discretionary Review Requirement for all Medical Cannabis Dispensaries.** San Francisco recently adopted land use regulation for cannabis related businesses, and most changes in this ordinance related to that ordinance are clean-up. The more substantive correction is in Sec. 202.2(e)(1). This section is being amended to 1) clarify that Medical Cannabis Dispensaries are subject to Planning Code Section 312 and not the previous "custom" notification requirements; and 2) only require Mandatory Discretionary Review when the MCD is located in NC Zoning Districts. These changes are consistent with the intent of the Cannabis Ordinance; however, the provisions in questions were not deleted as part of the adopted ordinance, creating overlapping and inconsistent controls.

#### Code Reorganization Project

The Code Reorganization project was started in 2014 and is divided into three main phases. The first phase focused on Article 2, the second phase on Article 7, and the third will focus on Article 8. Several of the amendments in this ordinance correct errors or oversights from Phases 1 and 2 of this project. The changes either fix clerical errors or replace provisions that were inadvertently deleted or not carried forward into the new zoning table format. The following are the more substantive corrections:

- In Section 102, the definition of Notice of Special Restriction (NSR) is being broadened to include more than just projects associated with inclusionary housing. NSRs are used for a variety of reasons, and the definition is being amended to reflect that.
- In Section 102, Power Plant was left out of the definition of Utility and Infrastructure Uses. It is being added to that definition.
- Section 121.2 is being amended to clarify that NC-3 and NCT-3 Districts have a non-residential use size limit of 6000 sq. ft. A drafting error in the Article 7 ordinance created an inconsistency between Section 121.2 and the zoning control table for NCT and NCT-3 Districts.
- In Section 121.6, Hotels and Motels are being excluded from the city-wide retail size limits. They were not included in this cap prior to Phase 1 of the Code Reorganization Project.
- Section 202.2 is being amended to clarify that Design Professionals are required to be open to the public if located on the ground floor in NC Districts. This is consistent with the original controls in Article 7.
- Section 209.2 and 209.3 are being amended to put back a provision that allows a minimum of three units on any RM or RC zoned property. This provision was not carried over to the new format during Phase 1 of the Code Corrections ordinance.
- Section 210.1 is being amended to allow Outdoor Entertainment uses in C-2 Districts. This use was allowed in C-2 Districts prior to Phase 1 of the Code Reorganization project.
- Section 710, NC-1 District, is being amended to add a reference to the Taraval Street Restaurant Subdistrict. This reference was not carried over into the new format.
- Various References to old Article 7 definitions (Section 790) are being removed and replaced with the new Section 102 reference. There are also some clerical errors in the tables that are being corrected.

#### Publisher Corrections

After every ordinance, the code publisher sends the City Attorney's Office a list of errors they encountered in the process of publishing the Code. These usually include outdated section references, missing words, typos and the like. This ordinance includes many of these types of corrections.

#### RECOMMENDATION

The Department recommends that the Commission recommend *approval with modifications* of the proposed Ordinance.

The Department's proposed recommendation is as follows:

##### Recommendation 1: Limited Conforming Uses in Residential Transit Oriented (RTO) Districts

Amend Section 186.3 and Section 209.4 to allow non-residential uses in Landmark Buildings in RTO Districts.

### BASIS FOR RECOMMENDATION

This Ordinance is intended to correct identified errors in the Code. Although these are considered minor errors, they cannot be corrected without a legislative change. Adopting this ordinance will make the code more consistent, accurate and easier to use.

#### Recommendation 1: Limited Conforming Uses in Residential Transit Oriented (RTO) Districts.

Limited Commercial Uses were considered to be conditionally permitted uses in historic buildings in RTO and RTO-M Zoning Districts subject to Planning Code Section 186.3. Article 2 reorganization mistakenly removed this provision from the code and the recommendation is to reinstate it. Section 186.3 and Table 209.4 are being amended to reflect this change.

### REQUIRED COMMISSION ACTION

The proposed Ordinance is before the Commission so that it may recommend adoption, rejection or adoption with modifications to the Board of Supervisors.

### IMPLEMENTATION

The Department determined that this Ordinance will improve our current implementation procedures because it will reduce errors and inconsistencies in the Planning Code.

### ENVIRONMENTAL REVIEW

The proposed amendments are not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because they do not result in a physical change in the environment.

### PUBLIC COMMENT

As of the date of this report, the Planning Department has not received any public comment regarding the proposed Ordinance.
