[Various Codes - Large and Commercial Vehicle Parking Restrictions - Hours and Exceptions]

Ordinance 1) amending Division I of the Transportation Code to reduce the time that large vehicles may be parked on City streets from overnight to two hours, and modify the time that commercial vehicles may be parked on City streets; 2) amending the Administrative Code to require City departments, including but not limited to the Department of Homelessness and Supportive Housing, the Department of Emergency Management, and the Police Department, to assist the San Francisco Municipal Transportation Agency (SFMTA) with administering a Large Vehicle Refuge Permit Program that exempts certain large vehicles from the two-hour parking restriction under certain conditions; 3) urging SFMTA to develop a fair review process and to develop further exceptions to the two-hour restriction as may be needed to support the public interest; 4) amending the Park Code to impose a two-hour parking limit on large vehicles on park property; 5) amending the Port Code to impose two-hour parking limits on large vehicles on Port property; and 6) affirming the Planning Department's determination under the California Environmental Quality Act.

NOTE: **Unchanged Code text and uncodified text** are in plain Arial font.
Additions to Codes are in single-underline italics Times New Roman font.
Deletions to Codes are in ~~strikethrough italics Times New Roman font~~.
Board amendment additions are in double-underlined Arial font.
Board amendment deletions are in ~~strikethrough Arial font~~.
Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

Be it ordained by the People of the City and County of San Francisco:

Section 1. General Background and Findings.

1 (a) As of May 2025, the Healthy Streets Operations Center (HSOC) identified 501
2 large vehicles across San Francisco, of which 437 are being used for habitation.

3 (b) The 2024 San Francisco Point-in-Time (PIT) Count estimated that 1,444
4 households are living in vehicles in San Francisco, representing a 37% increase from the
5 2022 PIT Count.

6 (c) Large vehicles parked on city streets can present a variety of public safety and
7 public health problems, including impaired sight lines for road users, blocked sidewalks, fires,
8 localized air pollution, and illegal dumping of garbage and human waste on sidewalks, streets,
9 and drains. In some districts, limited availability of on-street parking is diminished further due
10 to large vehicles being stored on streets. Some occupants of large vehicles may access water
11 from fire hydrants and electricity from nearby infrastructure, which can create safety concerns
12 and potential damage to City systems and infrastructure.

13 (d) On April 11, 2025, the Department of Homelessness and Supportive Housing
14 (HSH) closed the Bayview Vehicle Triage Center program at Candlestick Point State
15 Recreation Area. The program, which accommodated 35 large vehicles at an annual
16 operating cost of \$2.9 million, did not achieve the intended outcomes of transitioning
17 participants to stable housing or significantly improving street conditions in the surrounding
18 area.

19 (e) On June 17, 2025 in SFMTA Board Resolution No. 250617-062, the SFMTA
20 Board of Directors adopted companion legislation creating a Large Vehicle Refuge Permit
21 program that would allow occupants of large vehicles present in San Francisco as of May 31,
22 2025, to temporarily park large vehicles on City streets if certain conditions are met. These
23 conditions include agreement to engage in case management services, accept offers of non-
24 congregate interim or permanent housing, adhere to good neighbor policies, and follow all
25

1 other parking regulations. The SFMTA companion legislation is contingent on Board of
2 Supervisors passage of this ordinance.

3 (f) The MTA intends to install 400 signs within the City to effectuate removal of
4 large vehicles parked in violation of Transportation Code Section 7.2.54. 100 of these signs
5 shall be placed at entrances into the City, with the remaining 300 signs installed strategically
6 citywide.

7 (g) The intent of this ordinance is to modify parking restrictions for large vehicles so
8 that the MTA can operationalize the Large Vehicle Refuge Permit program. The purpose of
9 the entire legislative package is to create a process for the City to safely move inhabitants of
10 large vehicles on City streets into stable housing, improving the health and safety of those
11 individuals and street conditions for the community at large. The Board of Supervisors urges
12 MTA, in consultation with HSH and other relevant departments, to develop guidance on what
13 kinds of documentation households may use to apply for Refuge Permits; and to create a fair
14 review process that includes an opportunity to request reconsideration if an application is
15 initially denied, case management from HSH and an opportunity to cure violations before a
16 Permit is revoked, and an appeal process in the event of a revocation. The Board of
17 Supervisors further urges MTA to prioritize life and safety issues when considering whether to
18 revoke Permits under Sections 917(e)(3) and (e)(4) of Division II of the Transportation Code.

19 (h) In operationalizing the Large Vehicle Refuge Permit Program, there could be a
20 need for MTA to identify other situations where it may be in the public interest to exempt large
21 vehicles, for example, by creating short-term visitor permits or by authorizing limited permit
22 extensions for households that include children or seniors. The Board of Supervisors urges
23 MTA, in consultation with HSH and other relevant departments, to regularly evaluate the
24 Large Vehicle Refuge Permit Program and develop such permit exceptions as needed.
25

1
2
3 Section 2. Environmental Findings.

4 The Planning Department has determined that the actions contemplated in this
5 ordinance comply with the California Environmental Quality Act (California Public Resources
6 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
7 Supervisors in File No. 250655 and is incorporated herein by reference. The Board affirms
8 this determination.
9

10 Section 3. Article 7, Division I of the Transportation Code is hereby amended by
11 revising Section 7.2.54 and 7.2.84, to read as follows:

12 **SEC. 7.2.54. LARGE VEHICLE PARKING RESTRICTIONS.**

13 To Park a vehicle over twenty-two feet in length or seven feet in height, or camp
14 trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobilehomes, recreational
15 vehicles, or semi-trailers as defined by the California Vehicle Code and Health and Safety
16 Code, ~~between the hours of 12 a.m. and 6 a.m. when Municipal Transportation Agency signs are~~
17 ~~posted giving notice. This section shall be operative on March 31, 2013.~~ for more than two hours,
18 except:

19 (a) When reasonably necessary to accomplish the loading or unloading of merchandise or
20 passengers on, or from, a vehicle and while anything connected with the loading, or unloading, is being
21 executed; or

22 (b) When the Municipal Transportation Agency has issued a permit pursuant to Division II of
23 this Code, temporarily exempting the permittee and the vehicle from the time limitation set forth in this
24 Section 7.2.54, and the permittee is in compliance with all applicable permit conditions; or
25

(c) When the vehicle displays a valid Residential Parking Permit issued by the Municipal Transportation Agency pursuant to Section 905 for the specific residential parking permit area in which the vehicle is parked; or

(d) Commercial vehicles subject to Section 7.2.84.

SEC. 7.2.84. COMMERCIAL VEHICLE PARKING IN CERTAIN DISTRICTS.

To Park any motor truck, truck tractor, road tractor, van, trailer, delivery wagon, or any vehicle used for commercial purposes over twenty-two feet in length or seven feet in height in excess of limitations on manufacturer's gross vehicle weight rating or a gross combination weight rating specified in Division II, Article 500, for a period in excess of two hours ~~one hour or between the hours of 2:00 a.m. and 6:00 a.m.~~ on any street ~~with weight limits~~ designated in Division II, Article 500, except while in the course of delivery or removal of goods, merchandise or other personal property for residents on such street, ~~or except when such vehicle is used by a recreational equipment vendor as defined in Section 1050 of the Police Code in the course of business and all the requirements of Police Code Sections 1051 through 1055 are met.~~ Any excepted vehicle shall be subject to all parking limitations applicable thereto as otherwise provided by law. ~~(63, 63A, 63.1)*~~

Section 4. Chapter 119 of the Administrative Code is hereby amended by adding Article III, consisting of Sections 119.31 and 119.32, to read as follows:

ARTICLE III:

LARGE VEHICLE REFUGE PERMIT PROGRAM

SEC. 119.31. DEFINITIONS.

Terms not defined in this Article III shall have the meaning assigned to them in Section 901 of Division II of the Transportation Code, as may be amended from time to time.

1 **SEC. 119.32. LARGE VEHICLE REFUGE PERMIT PROGRAM.**

2 (a) To establish a pathway for individuals living in large vehicles to relocate to non-
3 vehicular housing, the Municipal Transportation Agency (“MTA”) has established a Large Vehicle
4 Refuge Permit Program (the “Program”), as set forth in Transportation Code, Division II, Article 900.

5 (b) Approval, implementation, and administration of the Program is subject to MTA’s
6 exclusive authority under the Charter to establish fines and fees and regulate on-street parking and
7 other applicable City law, including Transportation Code, Division II, Articles 300 and 900.

8 (c) Assistance from other City Departments with issues within such departments’ areas of
9 expertise will enable MTA to streamline the review of Permit applications to determine applicant
10 eligibility and ensure that Permittees comply with conditions of an issued Permit. City Departments,
11 including but not limited to the Department of Homelessness and Supportive Housing, Department of
12 Emergency Management, Department of Public Health, Department of Public Works, and the Police
13 Department, shall assist the MTA in its implementation of the Program by:

14 (1) Supporting the MTA in its efforts to issue Permits by conducting outreach
15 concerning the Program and certifying Household eligibility for the Large Vehicle Refuge Permit;

16 ~~Providing Permittees case management services, participating in the~~
17 ~~intake and assessment process, creating individual service plans, connecting Permittees to~~
18 ~~employment, coordinating move-in logistics, o~~Offering weekly or as-needed follow up with
19 outreach case managers, and participating in crisis interventions as needed;

20 ~~Developing a “Good Neighbor Policy” to be adhered to by Permittees as~~
21 ~~described in Transportation Code, Division II, Section 917;~~

22 ~~(3)(4) Supporting the MTA in its efforts to verify Permittees’ compliance with the~~
23 ~~terms of their Permits, and to enforce Permit terms described in Transportation Code, Division II,~~
24 ~~Section 917, as it may be amended from time to time; and~~

1 ~~(4)(5)~~ Taking any other action identified in Transportation Code, Division II, Section
2 917 as the responsibility of such department under the Program.

3 (d) In addition to assisting MTA as set forth in subdivision (c) ~~t~~The Department of
4 Homelessness and Supportive Housing shall:

5 (1) develop guidance in consultation with MTA on what types of evidence and
6 documentation members of the public may use to apply for Large Vehicle Refuge Permits,
7 which guidance shall be made available online and shared with the public on request;

8 (2) offer guidance to MTA on how to develop and implement a fair review
9 process that includes an ability for Permittees to request reconsideration of and/or appeal
10 Permit decisions;

11 (3) offer case management services to Permittees, including by assisting them
12 with the intake and Permit application process, helping them stay in compliance with their
13 Permits, creating individual service plans, connecting them to employment services, and
14 coordinating moving logistics;

15 (4) develop a “Good Neighbor Policy” to be adhered to by Permittees as
16 described in Transportation Code, Division II, Section 917; and

17 (5) document all offers of housing services made to Permittees, Permittees’ responses to
18 each such offer, and where a Permittee rejects an offer of housing services, the reason for the rejection.

19
20 Section 5. Article 6 of the Park Code is hereby amended by revising Section 6.01, to
21 read as follows:

22 **SEC. 6.01. OPERATION AND PARKING OF VEHICLES.**

23 * * * *

24 (j) No person shall park ~~any “oversized vehicle,” defined herein as any vehicle longer than~~
25 ~~19 feet and/or wider than seven feet, eight inches, whether attended or unattended in Kezar Parking~~

~~Lot, unless allowed otherwise by permit, any vehicle over twenty-two feet in length or seven feet in height, or camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobilehomes, recreational vehicles, or semi-trailers as defined by the California Vehicle Code and Health and Safety Code for more than two hours, in any park, except (1) when attending an event or function authorized by the Recreation and Park Department, and then only when the person parks the vehicle in an area specifically designated for such parking in connection with said event or function; (2) when such parking is necessary because of an emergency, such as a flat tire or other mechanical failure, in which case the vehicle shall not be parked any longer than necessary; or (3) when a sign is posted or notice is otherwise provided that parking is permitted in a designated area.~~

Section 6. Article 5 of the Port Code is hereby amended by revising Section 5.01 to read as follows:

SEC. 5.1. OPERATION AND PARKING OF VEHICLES.

* * * *

(H) No person shall, in any park, allow any automobile or “oversized vehicle,” defined herein over twenty-two feet in length or seven feet in height, or camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobilehomes, recreational vehicles, or semi-trailers as defined by the California Vehicle Code and Health and Safety Code, whether attended or unattended ~~other vehicle~~ to remain parked in any parking lot which is open for public use and for which a fee is charged for parking, for a period of more than 24 hours after the expiration of the period for which the fee is charged, unless allowed otherwise by permit. Nor shall any person park over two hours on any other Port property a vehicle that is subject to Section 7.2.54 of Division I of the Transportation Code as it may be amended from time to time.

Section 7. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors intends to amend only those words, phrases, paragraphs, subsections, sections, articles, numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal Code that are explicitly shown in this ordinance as additions, deletions, Board amendment additions, and Board amendment deletions in accordance with the “Note” that appears under the official title of the ordinance.

Section 8. Undertaking for the General Welfare. In enacting and implementing this ordinance, the City is assuming an undertaking only to promote the general welfare. It is not assuming, nor is it imposing on its officers and employees, an obligation for breach of which it is liable in money damages to any person who claims that such breach proximately caused injury.

Section 9. Effective Date. This ordinance shall become effective 30 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

APPROVED AS TO FORM:
DAVID CHIU, City Attorney

REVISED LEGISLATIVE DIGEST
(Amended in Committee, 7/9/2025)

[Administrative, Transportation, Park, Port Code - Large and Commercial Vehicle Parking Restriction - Hours and Exceptions]

Ordinance 1) amending Division I of the Transportation Code to reduce the time that large vehicles may be parked on City streets from overnight to two hours, and modify the time that commercial vehicles may be parked on City streets; 2) amending the Administrative Code to require City departments, including but not limited to the Department of Homelessness and Supportive Housing, the Department of Emergency Management, and the Police Department, to assist the San Francisco Municipal Transportation Agency (SFMTA) with administering a Large Vehicle Refuge Permit Program that exempts certain large vehicles from the two-hour parking restriction under certain conditions; 3) urging SFMTA to develop a fair review process and to develop further exceptions to the two-hour restriction as may be needed to support the public interest; 4) amending the Park Code to impose a two-hour parking limit on large vehicles on park property; 5) amending the Port Code to impose two-hour parking limits on large vehicles on Port property; and 6) affirming the Planning Department's determination under the California Environmental Quality Act.

Existing Law

The Transportation Code prohibits the parking of certain large vehicles between 12 a.m. and 6 a.m. and certain commercial vehicles, including those over a certain weight, in certain districts between 2:00 a.m. and 6:00 a.m. The Park Code prohibits a different set of large vehicles from parking in the Kezar Parking Lot unless allowed by permit. The Port Code prohibits parking vehicles in any public parking lot which charges a parking fee for more than 24 hours after the expiration of the period for which the fee is charged unless allowed by permit.

Amendments to Current Law

The proposed ordinance would change both of the Transportation Code's overnight restrictions to a 2-hour parking limitation on the enumerated vehicles. For commercial vehicles, they will be measured by the same size as the other vehicles in the Large Vehicle Parking Restriction, rather than by weight. The Large Vehicle Parking Restriction shall apply citywide, except where a permit has been issued by the SFMTA or it is reasonably necessary to accomplish loading or unloading. The Administrative Code is amended to require City Departments to assist the SFMTA with managing the Large Vehicle Refuge Permit Program, which excepts permittees from enforcement of the Large Vehicle Parking Restriction when certain requirements are met related to accepting non-congregate interim or permanent housing, adhering to good neighbor policies, and compliance with all other applicable parking restrictions. The parking restrictions in the Park and Port codes are amended to harmonize their restrictions with the Transportation Code's Large Vehicle Parking Restriction.

Background

On July 9, 2025, the ordinance was amended to include language urging SFMTA to develop public guidance for the Permit application process; to develop a fair process to review Permit decisions; to prioritize enforcement of certain types of Permit violations over others; and to identify instances where it may be appropriate to create additional exceptions to the two-hour parking restriction. The amendments also include language directing the Department of Homelessness and Supportive Housing and other departments to assist MTA in these matters, and clarifying their respective roles in helping to administer the Permit program.

n:\legana\as2025\2500356\01852822.docx

Item 13 File 25-0655	Department: Homelessness & Supportive Housing, Municipal Transportation Agency
EXECUTIVE SUMMARY	
Legislative Objectives - The proposed ordinance seeks to amend sections of Division I of the Transportation Code to establish a new Citywide two-hour parking restriction for large vehicles—defined as commercial or non-commercial vehicles more than 22 feet in length or over seven feet in height. It also amends Chapter 119 of the Administrative Code to support the creation of a Large Vehicle Refuge Permit Program, and updates the Park and Port codes to restrict large vehicle parking on properties under their jurisdiction. - The ordinance revises current overnight parking restrictions (12 a.m. to 6 a.m.) for large vehicles in areas with posted signage, currently covering 47 miles of street. Key Points - The new Large Vehicle Refuge Permit Program establishes a pathway for individuals residing in large vehicles, such as RVs, to relocate to non-congregate permanent or interim housing. The Large Vehicle Refuge Permit exempts large vehicles from the proposed two-hour parking restriction for a period of up to six months or until an offer of housing is made by the Department of Homelessness and Supportive Housing (HSH). Households that accepted the housing offer would be entitled to receive compensation (\$175 per linear foot) for their large vehicle under a new Large Vehicle Buyback Program. The ordinance notes that in May 2025, there were 437 large vehicles used for habitation. Fiscal Impact - According to HSH, a total of \$11.7 million is budgeted to support this program in FY 2025-26, ramping down to \$1.2 million in FY 2026-27. Of the \$11.7 million in FY 2025-26, \$8.2 million will fund 65 rapid rehousing subsidy slots for two to three years. The Department also plans to offer other non-congregate housing options and financial assistance to vehicle dwellers. A total of \$525,000 of the two-year budget is provided for the Large Vehicle Buyback Program. - The SFMTA budget of \$2.9 million for FY 2025-26 through FY 2026-27 funds staff time for planning and coordinated enforcement with other departments, signage, as well as towing and storage fees for the large vehicles. Recommendation - Approval of the proposed ordinance is a policy matter for the Board of Supervisors. If the Board approves the ordinance, we recommend requesting a status update from SFMTA and HSH after six months to better understand key results, such as the number of households offered non-congregate housing, the take-up rate for housing offers, the number of citations and tows, and the number of remaining large vehicles on City streets (with and without a Large Vehicle Refuge Permit).	

MANDATE STATEMENT

City Charter Section 2.105 states that all legislative acts shall be by ordinance, approved by a majority of the members of the Board of Supervisors.

BACKGROUND

In 2012, the Board of Supervisors asked the San Francisco Municipal Transportation Agency (SFMTA) to develop a policy to address the public safety and public health problems associated with large vehicles parked on City streets, including impaired sight lines for road users, blocked sidewalks, fires, localized air pollution, and illegal dumping of garbage and waste matter on sidewalks and streets, according to SFMTA. In September 2012, the Board of Supervisors adopted San Francisco Transportation Code Division I, Section 7.2.54, which restricted parking a large vehicle from 12 a.m. to 6 a.m. wherever signs are posted designating this restriction (File 12-0142). A large vehicle is defined as a vehicle more than 22 feet in length or more than seven feet in height, which includes camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobile homes, recreational vehicles, or semi-trailers as defined by the California Vehicle Code. In 2013, the SFMTA Board of Directors approved posting signage related to the restriction in an initial set of locations. An evaluation report completed by SFMTA found that the restriction had been “very effective at reducing the occurrence of oversize vehicle parking where posted” over a period of three months of active enforcement. According to SFMTA, concerns about displacement of oversized vehicles to other locations and concerns about displacement of people living in vehicles led to the SFMTA Board of Directors adopting a moratorium on further posting of signage related to the restriction. Since 2014, only a few locations have been approved for posting of the restriction, in each case at the request of a District Supervisor, according to SFMTA. Currently, the overnight parking restriction is in effect for 47 miles of street frontage. Over the past five years, an average of three citations per month were issued by the San Francisco Police Department (SFPD) for violations of the overnight parking ban.

In 2024, under former Mayor London Breed, the SFMTA Board of Directors approved a new definition for Recreational Large Vehicles and authorized the Director of Transportation to restrict overnight parking from 12 a.m. to 6 a.m. on any street Citywide using posted signage. Division II of the Transportation Code was further amended to specify that enforcement would not commence until an offer of shelter had been made to occupants of the large vehicle. These changes were overturned by the Board of Supervisors (File 24-1204).

In April 2025, the Department of Homelessness and Supportive Housing (HSH) closed the Bayview Vehicle Triage Center program located at Candlestick Point State Recreation Area, which accommodated 35 large vehicles at an annual operating cost of \$3.8 million, according to HSH. According to the proposed ordinance, the program did not achieve the intended outcomes of transitioning participants into stable housing or significantly improve street conditions in the surrounding area.

Under Mayor Daniel Lurie, the Mayor's Office convened the multi-departmental Large Vehicle Taskforce, which determined that a comprehensive solution to restrict large vehicle parking and offer services required code amendments to Divisions I and II of the Transportation Code and other relevant codes. The taskforce included: HSH, Department of Emergency Management (DEM), SFPD, the San Francisco Sheriff's Office (SFS), SFMTA, San Francisco Recreation and Parks Department (RPD), the San Francisco Public Utility Commission (PUC), the Port of San Francisco, the Department of Public Health (DPH), the City Administrator's Office (CAO), and Healthy Streets Operation Center (HSOC).

DETAILS OF PROPOSED LEGISLATION

The ordinance proposes to amend sections of Division I the Transportation Code related to large vehicles and commercial vehicles that are more than 22 feet in length or seven feet in height by creating a new two-hour restriction Citywide. The proposed ordinance also amends Chapter 119 of the Administrative Code to support a Large Vehicle Refuge Permit Program that exempts large vehicles from the two-hour parking restriction for up to twelve months, so HSH can conduct outreach to offer housing to vehicle dwellers. Finally, the Ordinance amends the Park Code and Port Code related to operation and parking of large vehicles on Port and Park property.

Large Vehicle Parking Restrictions (Transportation Code 7.2.54). This section applies to large vehicles that are more than 22 feet in length or seven feet in height, or camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobile homes, recreational vehicles, or semi-trailers, as defined in the California Vehicle Code and Health and Safety Code. The amendment changes the parking restriction for these large vehicles on City streets from 12 a.m. to 6 a.m. within posted areas to "more than two hours" at any time of day Citywide with exceptions for: loading or unloading, vehicles that have been issued a Large Vehicle Refuge Permit by SFMTA, when the vehicle displays a valid Residential Parking Permit issued by SFMTA, or commercial vehicles.

Commercial Vehicle Parking in Certain Districts (Transportation Code 7.2.84). Similarly, the parking restriction for commercial vehicles (including any motor truck, truck tractor, road tractor, van, trailer, delivery wagon, or any vehicle used for commercial purposes over 22 feet in length or seven feet in height) is amended from 2 a.m. to 6 a.m. to a "period in excess of two hours" on any street as specified in Division II, Article 500 of the Transportation Code.

Large Vehicle Refuge Permit Program (Administrative Code Chapter 119). In June 2025, the SFMTA Board of Directors amended Division II of the Transportation Code (over which they have exclusive legislative authority) to establish a Large Vehicle Refuge Permit Program. The intent of this new program is to establish a pathway for households residing in large vehicles to relocate to *non-congregate* permanent or interim housing. The Large Vehicle Refuge Permit exempts large vehicles from the two-hour parking restriction for a period of up to six months or until an offer of housing is made. The permit may be extended one time for up to six months if HSH certifies that the City has not made the permittee an offer of non-congregate interim or permanent housing. The SFMTA is authorized to revoke a permit for violation of permit conditions, and to establish hearing and review procedures.

The amendments to the Administrative Code specify that other City Departments, including but not limited to HSH, DEM, DPH, Department of Public Works (DPW), and SFPD, will assist SFMTA by:

- Conducting outreach and certifying household eligibility for the Large Vehicle Refuge Permit;
- Providing case management services, intake and assessment, individualized service plans, connecting clients to employment, coordinating move-in logistics, offering weekly or as-needed follow up with outreach case managers, and participating in crisis interventions;
- Developing a “Good Neighbor Policy” for Permittees to follow, intended to minimize impact on the community, such as proper disposal of human waste and avoiding excessive noise;¹ and
- Supporting SFMTA to verify permittees’ compliance with permit terms.

The ordinance notes that in May 2025, the Healthy Streets Operation Center counted 501 large vehicles Citywide, including 437 used for habitation. According to HSH, the total number of individuals residing in the 437 vehicles is unknown. The Department of Homelessness and Supportive Housing is required to document all offers of housing made to permittees, permittees’ responses to each offer, and—if an offer is rejected—the reason for the rejection.

The Park Code and Port Code are similarly amended to restrict vehicles greater than 22 feet in length or seven feet in height from parking in any City park for more than two hours, except when authorized, and from parking on any port property for more than two hours.

Signage effectuating the two-hour restriction will be posted at all City points of entry and supplemented with signage in areas where large vehicles are known to have a community impact.

FISCAL IMPACT

Exhibit 1 below shows the estimated spending resulting from the Large Vehicle Refuge Permit Program, related changes to parking policy, and assistance to households in large vehicles that engage with the program.

The Large Vehicle Buyback Program to be administered by HSH will offer funds to households who engage and ultimately accept an offer of non-congregate interim or permanent housing. Funding will also support a community-based organization(s) to conduct outreach and provide financial assistance (“problem solving”) specifically for people exiting vehicular homelessness, as shown in Exhibit 1. Additionally, SFMTA has allocated resources to conduct additional enforcement related to the new parking restrictions.

¹ The Department of Homelessness and Supportive Housing notes that the Good Neighbor Policy is currently in draft form and was not made available to the BLA.

Exhibit 1: Estimated Budget for Large Vehicle Dweller Assistance and Enforcement

	FY 2025-26	FY 2026-27
HSH		
Large Vehicle Buyback Program	\$175,000	\$350,000
Community-Based Organization(s) Outreach	\$386,733	\$800,430
Problem Solving and flexible assistance	\$3,000,000	
Rapid Rehousing Subsidies (65 slots)	\$8,164,304	
HSH Subtotal	\$11,726,037	\$1,150,430
SFMTA		
Planning	\$86,117	\$86,117
Signage	\$151,774	\$75,502
Staff Time for Coordinated Enforcement	\$560,872	\$374,068
Towing Fees	\$919,957	\$689,967
SFMTA Subtotal	\$1,718,720	\$1,225,654
Total	\$13,444,757	\$2,376,084

Sources: HSH and SFMTA

Outreach Administered by HSH

The HSH budget includes a total of \$11.7 million in FY 2025-26, primarily for 65 new rapid rehousing subsidy slots (valued at \$48,000 per slot annually), which have a duration of two to three years, according to the Department. As noted above, HSH is also allocating \$3 million for flexible financial assistance (“problem solving”) to help people exit homeless who may not need long-term housing subsidies. These efforts are funded by Homelessness Gross Receipts tax revenue.

The proposed 65 rapid rehousing slots may not be sufficient to provide housing for all eligible large vehicle dwellers, however HSH notes the following expansion and turnover within its system of care in FY 2025-26 that is available to all persons experiencing homelessness (and therefore not included in the table above):

- Up to 50 existing rapid rehousing subsidies for families (from the Safer Families Plan) that have not yet been rolled out;
 - 160 time-limited subsidies for families (130 rapid rehousing slots and 30 shallow subsidies);
 - Continuation of 130 non-congregate hotel vouchers for families, which are in use but have constant turnover according to HSH;
 - 100 rapid rehousing subsidies for adults and 100 rapid rehousing subsidies for young adults;
 - 50 hotel vouchers for adults; and
- Problem-solving flexible financial assistance for adults exiting vehicular homelessness valued at \$3 million.

The Large Vehicle Buyback Program, funded at \$175,000 in FY 2025-26 and ramping up to \$350,000 in FY 2026-27, offers owners of large vehicles \$175 per linear foot, provided that they accept the offer of non-congregate housing. According to HSH, the rate per linear foot was determined based on input from community stakeholders as well as best practices from other jurisdictions. The Department expects to buy back 75 to 150 large vehicles with its total budget of \$525,000 over FY 2025-26 and FY 2026-27.

HSH expects that a subset of the individuals residing in the 437 counted large vehicles would be interested and eligible for the aforementioned housing options. HSH plans to use its authority under Administrative Code Section 21B to conduct an informal solicitation this summer in order to select one to two community-based organizations to conduct outreach to the population living in large vehicles. The budget for salary and operations of the community-based organizations is \$1.2 million over FY 2025-26 through FY 2026-27. According to the Department, the community-based organization(s) would provide the following services:

- Street-based outreach and engagement;
- Education and information sharing;
- Assessment of support services needs and eligibility;
- Enrollment and facilitation of the Large Vehicle Buyback Program;
- Housing-focused case management;
- Issuance of Large Vehicle Refuge Permits;
- Referral and coordination of non-congregate interim shelter and housing offers; and
- Education and training.

Enforcement Administered by SFMTA

Aside from outreach to the identified population of households residing in large vehicles who will receive a Large Vehicle Refuge Permit, the proposed ordinance contemplates issuing citations if a large vehicle violates the new two-hour parking restriction at a total cost of \$1.7 million in FY 2025-26 and \$1.2 million in FY 2026-27. Planning, signage, and SFMTA staff time to do multi-departmental coordinated enforcement (with SFPD, HSH, and DEM) is budgeted at a total of \$798,763 in FY 2025-26 and \$535,687 in FY 2026-27. Towing fees total \$1.6 million over the two years, including storage costs, both paid for by SFMTA, not vehicle dwellers. According to SFMTA, the planning budget refers to 0.15 FTE staff time to administer the program. As a Citywide restriction, SFMTA will post new signs at City points of entry as well as areas highly impacted by large vehicles.

RECOMMENDATION

Approval of the proposed ordinance is a policy matter for the Board of Supervisors. If the Board approves the ordinance, we recommend requesting a status update from SFMTA and HSH after six months to better understand key results, such as the number of households offered non-congregate housing, the take-up rate for housing offers, the number of citations and tows, and

the number of remaining large vehicles on City streets (with and without a Large Vehicle Refuge Permit).

DEPARTMENT OF
HOMELESSNESS AND
SUPPORTIVE HOUSING

Shireen McSpadden, Executive Director

Daniel Lurie, Mayor

To: Honorable Members of the San Francisco Board of Supervisors

From: Shireen McSpadden, Department of Homelessness & Supportive Housing
Julie Kirschbaum, SFMTA
Kunal Modi, Office of Mayor Daniel Lurie

Date: July 7, 2025

Subject: Large Vehicle Legislation & Appeals Process

As the Budget and Finance Committee of the San Francisco Board of Supervisors prepares to hear the Mayor's Large Vehicle legislation (FILE NO. 250655) on Wednesday July 9, 2025, we want to assure members of our collective commitment to this strategy and the development of a fair appeals process.

Supervisor Melgar has requested an amendment to the legislation that requires the City to develop and administer a fair appeals process for the eligibility or revocation of the Large Vehicle Refuge Permit program outlined in the legislation. The City is in support of this amendment and is grateful to the Supervisor for the thoughtful proposal.

We additionally want to assure members of the Board that the multi-department Large Vehicle Taskforce has been working on the development of an appeals process which will be published prior to the implementation of the Large Vehicle Refuge Permit program. The appeals process may be modeled after established procedures in other jurisdictions as well as those existing in San Francisco, such as the [SFMTA's parking citation contest process](#) that has a three-level framework—beginning with an administrative review, proceeding to an administrative hearing, and culminating in an appeal. The appeals process, as well as other operational details, will be finalized by the multi-department Large Vehicle Taskforce and published on the designated [city webpage](#) and shared with all Large Vehicle Refuge Permit Applicants.

Our commitment to due process is integral to our goal of creating a comprehensive approach that balances immediate action with compassionate care for people experiencing vehicular homelessness.

Thank you all for your ongoing support and collaboration on this critical issue impacting vulnerable San Franciscans.

LARGE VEHICLE LEGISLATION

Budget and Finance Committee
July 9, 2025

Why we are here today

- The 2024 San Francisco Point-in-Time (PIT) Count estimated that 1,444 households are living in vehicles in San Francisco, representing a 37% increase from the 2022 PIT Count.
- As of May 2025, the Healthy Streets Operations Center (HSOC) identified 501 large vehicles across San Francisco, of which 437 are being used for habitation.
- Large Vehicles impact curb access, traffic and circulation, and often present public health and safety hazards.
- In October 2024, the MTA Board approved amendments to enforce overnight parking from 12 a.m. to 6 a.m. on any street Citywide using posted signage and that enforcement would not commence until an offer of shelter had been made to occupants of the large vehicle. The policy was overturned by BOS on December 10, 2024.
- Mayor Lurie established a Large Vehicle Taskforce to review these challenges and develop better solutions, including identifying code amendments to comprehensively address these impacts.
- This legislation seeks to offer families, children, neighborhoods, and small businesses better options.
 - Division II Transportation code amendments were approved by the MTA Board on June 17, 2025.
 - Division I Transportation Code, Administrative Code, Park Code and Port Code amendments will be presented for this Committee's consideration.

Goals of the Large Vehicle Taskforce

- **Implement innovative and humane approaches that reduce vehicular homelessness** by addressing the immediate safety and stability needs as well as creating pathways to permanent housing for people living in vehicles, who represent our most vulnerable residents
- **Restore public spaces, public safety, public health and neighborhood livability** by effectively enforcing and managing oversized vehicle parking
- **Maximize efficiency through data-driven approaches and coordinated interdepartmental efforts** across agencies

Departments of the Large Vehicle Taskforce:

- San Francisco Municipal Transportation Agency
- Department of Homelessness & Supportive Housing
- Department of Emergency Management
- San Francisco Police Department
- San Francisco Sheriff's Office
- San Francisco Recreation and Parks
- San Francisco Public Utilities Commission
- The Port of San Francisco
- Department of Public Health
- City Administrator's Office
- Office of the Treasurer and Tax Collector

Existing parking restriction for large vehicles in San Francisco

Overnight restriction (between the hours of 12 a.m. and 6 a.m.) on specific blocks when Municipal Transportation Agency signs are posted giving notice, for large vehicles exceeding 22 feet long or 7 feet in height or camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobile homes, recreational vehicles, or semi-trailers.

Locations where the large vehicle overnight parking restriction is currently posted, approximately 47 miles of street frontage

Our plan

Services	Enforcement
• Expanded outreach capacity, with language skills and cultural competency • Offer of permanent housing or non-congregate interim • Large Vehicle Buyback program • Large Vehicle Refuge Permit Program – approved by MTA Board	Citywide two-hour parking limit for large vehicles*, with exceptions: • Commercial vehicle loading/unloading • Commercial vehicle parking in industrial zoned districts – changes to specified zoning districts approved by MTA Board • Display of active Large Vehicle Refuge Permit or Residential Parking Permit

* Vehicles exceeding 22 feet long or 7 feet in height or camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobile homes, recreational vehicles, or semi-trailers, as defined by the California Vehicle Code and Health and Safety Code

Services

- **Expanded Outreach:** The city will deploy new outreach and case management staff trained to work with people living in large vehicles, with language skills and cultural competency.
- **Expanded Offerings:** Residents living in large vehicles in San Francisco as of May 2025 will be assessed for eligibility for:
 - Offer of Non-Congregate Interim or Permanent Housing: The budget included new investments to expand options for households exiting their vehicles including new rapid rehousing subsidies and hotel vouchers for families and adults.
 - Problem Solving / Large Vehicle Buyback Program: The city will offer financial assistance to residents living in large vehicles as of May 2025 to relinquish their vehicles as part of the outreach program.
 - Large Vehicle Refuge Permit Program: The Large Vehicle Refuge Permit may be issued to residents living in vehicles as of May 2025 if the City is unable to provide an offer of non-congregate interim or permanent housing. The permit provides an exemption from the two-hour parking rule and requires residents to actively engage in services and adhere to a good neighbor policy.

Large Vehicle Refuge Permit Program approved by MTA Board

Issuance: Dept of Homelessness and Supportive Housing (“HSH”) to certify eligibility and commitments to receive Refuge Permit

- Present and occupying large vehicle on May 31, 2025
- Experiencing homelessness
- Agree to engage consistently with city departments for case management services
- Agree to accept appropriate offer of non-congregate interim or permanent housing
- Allow Public Works to clear debris
- Agree to Good Neighbor Policy
- Follow other parking regulations

Duration:

- Six-month term, or and shall expire when the City has made the Permittee an offer of non-congregate interim or permanent housing, whichever occurs first
- Shall be extended once for up to six months if the City has not made an offer of non-congregate interim or permanent housing
- May be extended further at the discretion of the Director of MTA in consultation with HSH

Revocation & Enforcement

- Refuge Permit may be revoked when permittee has refused an offer of non-congregate interim or permanent housing, or if permittee violates a condition of the permit
- With revocation, Large Vehicle is subject to citation & tow if parked for over two hours

Proposed amendments

Vehicle type	Current	Proposed code amendments
Large Vehicle	<u>Overnight restriction on specific blocks</u> designated by SFMTA Board	<u>Citywide two-hour parking limit</u> , with exceptions of commercial loading/unloading or display of active Large Vehicle Refuge Permit or Residential Parking Permit
Commercial Vehicle	One-hour parking limit and overnight prohibition for commercial vehicles <u>exceeding a certain weight</u> in specified zoning districts	<u>Two-hour</u> parking limit for commercial vehicles in residential zoned districts, <u>based on dimension</u> just like the Large Vehicle Parking Restriction*, rather than by weight

* Vehicles exceeding 22 feet long or 7 feet in height or camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobile homes, recreational vehicles, or semi-trailers, as defined by the California Vehicle Code and Health and Safety Code

San Francisco, CA 94102-4689

RE: BOS File No. 250655 - Various Codes - Large and Commercial Vehicle Parking Restrictions - Hours and Exceptions

Dear Ms. Calvillo,

The SFMTA Board of Directors approved the establishment of the Large Vehicle Refuge Permit at the June 17, 2025 SFMTA Board meeting¹. As the BOS considers related legislation, namely amendments to the existing Large Vehicle restriction set forth in Section 7.2.54, it is prudent to elevate one of the resolution clauses approved by the SFMTA Board:

RESOLVED, That the San Francisco Municipal Transportation Agency Board of Directors directs staff to identify cases for exemptions and as necessary, create a permit program that would exempt other specified Large Vehicles with valid permits from these restrictions for short durations²

This clause acknowledges the possibility that another permit may be helpful to exempt a Large Vehicle from the citywide, two-hour restriction. An example might be a short-term visitor permit with a maximum stay of seven consecutive days, not to be renewed for one year. Unlike the Large Vehicle Refuge Permit, a short-term visitor permit may involve costs to the permittee; however, a modified fee structure, or fee forgiveness, may be considered based on criteria established in partnership with the Department of Homelessness and Supportive Housing as is done with the existing citation and tow forgiveness programs³.

Sincerely,

Julie Kirschbaum
Director of Transportation

Draft Large Vehicle Refuge Permit Eligibility Policy

In the event an individual believes they have been erroneously omitted from the Large Vehicle Refuge Permit eligibility list as described in Transportation Code Division II Section 917, they may submit evidence that shows, or reasonably infers, their presence in San Francisco on May 31, 2025. Submissions may include but are not limited to San Francisco vehicle registration, an affidavit signed under penalty of perjury, and a parking citation on or before May 31, 2025. Recognition of presence on May 31, 2025 does not guarantee approval of Large Vehicle Refuge Permit.

Draft enforcement protocol for Large Vehicles in violation of proposed two-hour parking restriction

1. SFMTA to verify there is no active permit on display or in the Large Vehicle Database for the vehicle.
2. If there is no active permit, SFMTA to initiate the two-hour limit.
3. SFMTA to verify at the end of the two-hour period that the vehicle has not moved from the original location.
4. SFMTA to issue a citation with applicable regulations.
5. SFMTA to determine best option to provide information about parking restrictions.

Next action may differ depending on the status of the vehicle:

- a. If vehicle appears unoccupied, SFMTA to follow standard procedures for unoccupied/abandoned vehicles, which may include contacting appropriate removal services. If animals are observed, SFMTA to contact tow provider and SF Animal Care and Control in accordance with animal welfare protocols.
- b. If vehicle appears to be occupied, SFMTA may be able to provide information about parking restrictions, and request voluntary compliance.
- c. If vehicle appears to be occupied, but SFMTA is unable to engage with occupants, parking control officer will coordinate with corresponding Neighborhood Street Team (NST) or Healthy Streets Operation Center (HSOC).
 - i. NST/HSOC to conduct multi-agency operation with both outreach and enforcement personnel present to provide resources and seek voluntary compliance with parking restrictions.
 - ii. If voluntary compliance efforts are unsuccessful, NST to coordinate with SFPD for appropriate next steps, such as conducting alternative enforcement strategies and contacting appropriate removal services upon exit of occupants.

SAN FRANCISCO
MUNICIPAL TRANSPORTATION AGENCY
BOARD OF DIRECTORS

RESOLUTION No. 250617-062

WHEREAS, The City seeks to address and mitigate the impacts of parking Large Vehicles, both those used for commercial purposes and those used for habitation as defined to include vehicles over twenty-two feet in length or seven feet in height, camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobilehomes, and recreational vehicles, on San Francisco's streets; and,

WHEREAS, Long-term parking of Large Vehicles on city streets impacts traffic and circulation and often presents public health and safety hazards; and,

WHEREAS, The SFMTA has designed the Large Vehicle Refuge Permit program to ensure that as conditioned, Large Vehicles parked in compliance with the permit's conditions will not adversely affect parking conditions for residents and merchants; and,

WHEREAS, City agencies, convened by the Mayor's Office, developed a comprehensive proposal to amend both Division I and Division II of the Transportation Code; and,

WHEREAS, The proposed Large and Commercial Vehicle Parking Citation and Removal project is subject to the California Environmental Quality Act (CEQA); CEQA provides an exemption from environmental review for the reduction or elimination of minimum parking requirements or institution of parking maximums, removal or restriction of parking, or implementation of transportation demand management requirements or programs, as defined in Title 14 of the California Code of Regulations Section 21080.25(b)(9); and,

WHEREAS, On June 12, 2025, the Planning Department determined (Case Number 2025-004816ENV) that the proposed Overnight Recreational Large Vehicle Parking Citation and Removal project is statutorily exempt from environmental review under Title 14 of the California Code of Regulations Section 21080.25(b)(9); and,

WHEREAS, The proposed action is the Approval Action as defined by the S. F. Administrative Code Chapter 31; and,

WHEREAS, A copy of the CEQA determination is on file with the Secretary to the SFMTA Board of Directors, and may be found in the records of the Planning Department by Case Number at <https://sfplanninggis.org/pim/> or 49 South Van Ness Avenue, Suite 1400 in San Francisco, and are incorporated herein by reference, therefore, be it

RESOLVED, That the San Francisco Municipal Transportation Agency Board of Directors approves the Resolution amending Division II of the Transportation Code to establish the Large Vehicle Refuge Permit program to exempt certain Large Vehicles, as defined, from applicable parking prohibitions if the permittee complies with conditions of the permit, including

certification by City departments that the permittee was present in the City on May 31, 2025, is experiencing vehicular homelessness, accepting services, and complying with good neighbor policies, and will accept the City's offer of non-congregate interim or permanent housing when available; expand parking restrictions for Commercial Vehicles and making such violations towable; providing that all of these provisions are operative once the Board of Supervisors finally adopts companion legislation; and making corresponding technical corrections; and be it further

RESOLVED, That the San Francisco Municipal Transportation Agency Board of Directors directs staff to identify cases for exemptions and as necessary, create a permit program that would exempt other specified Large Vehicles with valid permits from these restrictions for short durations; and be it further

RESOLVED, That the San Francisco Municipal Transportation Agency Board of Directors finds that, as conditioned, Large Vehicles parked in compliance with the permit's conditions will not adversely affect parking conditions for residents and merchants; and be it further

RESOLVED, That with adoption, to the extent that other SFMTA towing policies regarding Recreational Large Vehicles conflict with this resolution, this Resolution takes precedence; and be it further

RESOLVED, That the San Francisco Municipal Transportation Agency Board of Directors directs the Director of Transportation to work with City agencies to evaluate reasonable accommodation requests from individuals with disabilities living in Large Vehicles; and be it further

RESOLVED, That the San Francisco Municipal Transportation Agency Board of Directors directs the Director to, prior to implementing the Program, establish a signage plan that uses permanent signage and puts forward a comprehensive and well-articulated plan for where entrance signs and additional signs will be posted.

I certify that the foregoing resolution was adopted by the San Francisco Municipal Transportation Agency Board of Directors at its meeting of June 17, 2025.

Secretary to the Board of Directors
San Francisco Municipal Transportation Agency

[Transportation Code – Large Vehicle Permits and Commercial Vehicle Restrictions]

Resolution amending Division II of the Transportation Code to establish the Large Vehicle Refuge Permit program to exempt certain Large Vehicles, as defined, from applicable parking prohibitions if the permittee complies with conditions of the permit, including certification by City departments that the permittee was present in the City on May 31, 2025, is experiencing vehicular homelessness, accepting services, and complying with good neighbor policies, and will accept the City's offer of non-congregate interim or permanent housing when available; expand parking restrictions for Commercial Vehicles and making such violations towable; providing that all of these provisions are operative once the Board of Supervisors finally adopts companion legislation; and making corresponding technical corrections.

Board amendment deletions ~~are in strikethrough Arial font~~.
Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

The Municipal Transportation Agency Board of Directors of the City and County of San Francisco enacts the following regulations:

Section 1. Article 900 of Division II of the Transportation Code is hereby amended by revising Section 901 and adding Section 917, to read as follows:

SEC. 901. DEFINITIONS.

As used in this Article 900, the following words and phrases shall have the following meanings:

* * * *

Electric Vehicle. A motor vehicle that uses a plug-in battery to provide all of the motive power of the vehicle.

Household. *All persons occupying a Large Vehicle.*

Large Vehicle. *A vehicle over twenty-two feet in length or seven feet in height, or camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobilehomes, recreational vehicles, or semi-trailers as defined by the California Vehicle Code and Health and Safety Code.*

Large Vehicle Buyback Program. *A City program to purchase Large Vehicles from individuals who have accepted the City's offer of non-congregate interim or permanent housing.*

Large Vehicle Refuge Permit. *A permit issued by the SFMTA to a Household that authorizes a specified Large Vehicle to park without being subject to the two-hour parking limit described in Transportation Code, Division I, Section 7.2.54 and subject to all permit conditions. Large Vehicle Refuge Permits are not subject to the annual renewal provisions under Division II, Section 902 subsection (a) or the prior payments provisions in subsection (c) of that section.*

* * * *

SEC. 917. LARGE VEHICLE REFUGE PERMIT.

(a) General Permit Requirements.

(1) No more than one Large Vehicle Refuge Permit ("Permit") shall be issued to a Large Vehicle and Household. A Permit may not be transferred to a different Large Vehicle or Household.

(2) A Large Vehicle Refuge Permit does not guarantee or reserve to the Permittee an on-street parking space.

(b) **Permit Privileges.** Display of a valid Permit shall exempt the Permittee from the two-hour parking restriction in Division I, Section 7.2.54.

(c) **Duration.** A Permit shall ~~expire six months~~ have a six-month term from the date of issuance, or and shall expire when the City has made the Permittee an offer of non-congregate interim or permanent housing, whichever occurs first. A Permit ~~may~~ shall be extended once for up to six-months ~~if~~ unless the Director of the Department of Homelessness and Supportive Housing (“DHS”), or their designee, certifies to the Director of Transportation (“Director”) that the City has ~~not~~ made the Permittee an offer of non-congregate interim or permanent housing. A Permit may be extended further at the discretion of the Director in consultation with DHS.

(d) **Application Requirements.**

(1) An applicant for a Permit or renewal of a Permit shall complete an application that:

(A) Identifies the individuals in the Household;

(B) Identifies the Large Vehicle by the license plate and vehicle identification number, or if there is no license plate by the vehicle identification number, make, model, and color.

(2) To be eligible for a permit, the applicant must have been present in San Francisco and occupying the Large Vehicle as of May 31, 2025, as reflected in the City’s Large Vehicle database. If the Large Vehicle is not in the database, an applicant may provide evidence establishing they meet this eligibility requirement. The SFMTA shall create a process for applicants to provide evidence to meet this requirement.

(3) Applicants must agree to engage consistently in case management services provided by City departments, including but not limited to the DHS, the Department of Emergency Management (“DEM”), and the Police Department (“SFPD”), such as participation in intake and

assessment, creation of individual service plans, connections to employment, coordination of move-in logistics, weekly or as needed follow up with outreach case managers, and participation in crisis intervention.

(4) Applicants must agree that once the City makes an offer of non-congregate interim or permanent housing, the applicant will either participate in the City's Large Vehicle Buyback Program if eligible, or ensure that the Large Vehicle is not parked in violation of Division I, Section 7.2.54. If the applicant is renting the Large Vehicle, they must agree to remove their belongings, vacate the vehicle, and provide the City with the contact information of the vehicle's owner.

(e) Permit Conditions.

(1) Permittees must comply with all other parking restrictions in the California Vehicle Code and San Francisco Transportation Code. These include, but are not limited to, street cleaning, payment of parking meters, parking in front of driveways, parking in violation of color curb restrictions, parking over seventy-two hours, and parking in excess of the posted time in a Residential Parking Permit Area.

(2) Permittees must maintain certification by DSHS that the Permittee is experiencing vehicular homelessness and is willing to accept, and is accepting, services and will accept the City's offer of non-congregate interim or permanent housing.

(3) Permittees must allow the Department of Public Works ("DPW") to clear debris around the Large Vehicle. City departments, including but not limited to DSHS, DEM, and SFPD, may consult with DPW to determine if the Permittee has complied with this requirement.

(4) Permittees must adhere to a Good Neighbor Policy to be defined by DSHS. A copy of this policy shall be posted online and will be provided to the Permittee at the time of Permit application and upon request.

(f) **Permit Revocation.** Revocation of Permit shall subject the Large Vehicle to citation and removal under Division I, Section 7.2.54.

(1) SFMTA may revoke a Permit for any of the following reasons:

(A) The Permittee has violated a condition of the Permit;

(B) DSHS has informed the SFMTA in writing that it has revoked its certification under subsection (e)(2) of this Section 917;

(C) SFMTA has determined that the Permittee provided false information on the Permit application;

(D) The Permittee attempts to transfer the Permit to another Large Vehicle or Household; or

(E) The City has made the Permittee an offer of non-congregate interim or permanent housing and the Permittee has not accepted the offer.

(2) The Director is authorized to promulgate hearing and review procedures applicable to any appeal of a decision to revoke a Permit. Such procedures may also apply to SFMTA's decision to deny a Permit application.

(3) SFMTA shall make reasonable efforts to give seventy-two hours of notice to a Permittee prior to revocation.

Section 2. Article 500 of Division II of the Transportation Code is hereby amended by revising Section 502, to read as follows:

SEC. 502. COMMERCIAL VEHICLES; PARKING LIMITED IN CERTAIN DISTRICTS.

(a) Transportation Code, Division I, Section 7.2.84 (Commercial Vehicle Parking in Certain District) shall apply only to a vehicle over twenty-two feet in length or seven feet in heightwith a manufacturer's gross vehicle weight rating or a gross combination weight rating in excess of 10,000 pounds while Parked on any Street in a Residential District, Parkmerced District or Public

Use District, including ~~an~~ RH-1(D), RH-1, RH-2, RH-3, RM-1, RM-2, RM-3, RM-4, PM-R, PM-MU1, PM-MU2, PM-S, PM-CF, PM-OS, or P Use District.

(b) Any Police Officer or Parking Control Officer is authorized, in accordance with all applicable requirements of this Code and the California Vehicle Code, to remove or cause to have removed any vehicle that is parked in violation of Section 7.2.84 of Division I of the Transportation Code where permanent or temporary signs giving notice of the removal are posted pursuant to Section 22651(n) of the California Vehicle Code.

Section 3. Article 200 of Division II of the Transportation Code is hereby amended by revising Section 201, to read as follows:

SEC. 201. PROCEDURES FOR IMPLEMENTING PARKING AND TRAFFIC CONTROLS.

* * * *

(c) **SFMTA Board of Directors' Action Required.** The following Parking and traffic measures may not be implemented without prior approval of the SFMTA Board of Directors, taking into consideration the recommendation of the City Traffic Engineer:

* * * *

~~(15) Designate locations where Parking by vehicles over twenty two feet in length or seven feet in height, or camp trailers, fifth wheel travel trailers, house cars, trailer coaches, mobile homes, recreational vehicles, or semi trailers are prohibited from parking between the hours of midnight and 6 a.m.~~

~~(16)~~(15) Except as provided in Sections 204 and 205, close a street to vehicular traffic for non-ISCOTT permitted events authorized by Division I, Article 6.

(~~17~~16) Addition, removal, or modification of a street to the Slow Streets Program as set forth in Section 207. To add a street to the Slow Streets Program, the Board of Directors must make the findings required by California Vehicle Code Section 21101(f).

(~~18~~17) Designate stalls or spaces on a public street for the exclusive purpose of charging and parking a vehicle that is connected for electric charging purposes.

Section 4. Effective Date. This resolution shall become effective 31 days after enactment. Enactment occurs when the San Francisco Municipal Transportation Agency Board of Directors approves this resolution.

Section 5: Operative Date. This resolution shall be operative only if the related ordinance introduced at the Board of Supervisors on June 10, 2025 and contained in Board File No. 250655 is finally adopted by the Board of Supervisors. If that ordinance is finally adopted, then this Resolution shall be operative on the effective date of that ordinance.

//
//
//
//
//
//
//
//
//

Section 6. Scope of Resolution. In enacting this resolution, the San Francisco Municipal Transportation Agency Board of Directors intends to amend only those words, phrases, paragraphs, subsections, sections, articles, numbers, letters, punctuation marks, charts, diagrams, or any other constituent parts of the Transportation Code that are explicitly shown in this resolution as additions or deletions in accordance with the "Note" that appears under the official title of the resolution.

PROJECT DESCRIPTION

The San Francisco Municipal Transportation Agency (SFMTA) is proposing the Large and Commercial Vehicle Parking Citation and Removal project (proposed project). The proposed project would amend Division II of the San Francisco Transportation Code to establish the Large Vehicle Refuge Permit program, as well as establish definitions to support the program, contingent on San Francisco Board of Supervisors amendments of Transportation Code Sections 7.2.54 and 7.2.84. The Board of Supervisors would also amend the San Francisco Administrative Code, San Francisco Park Code, and San Francisco Port Code. The project would include the installation of permanent signs on existing poles or new poles.

Please see the attached Large and Commercial Vehicle Parking Citation and Removal Project memo for a more detailed project description.

SB922 ELIGIBILITY CHECKLIST

This project, as proposed, has been determined to be exempt under the California Environmental Quality Act (CEQA), specifically under a statutory exemption pursuant to Public Resources Code section 21080.25 as demonstrated below.

Table 1: Project Type Checklist – Public Resources Code Section 21080.25(b) The project must meet at least one project type to qualify for this Statutory Exemption. See Attachment 1 below for definitions of terms.	
☐	(1) Pedestrian and bicycle facilities that improve safety, access, or mobility, including new facilities, within the public right-of-way.
☐	(2) Projects that improve customer information and wayfinding for transit riders, bicyclists, or pedestrians within the public right-of-way.
☐	(3) Transit prioritization projects.
☐	(4) A project for the designation and conversion of general purpose lanes to high-occupancy vehicle lanes or bus-only lanes, or highway shoulders to part-time transit lanes, for use either during peak congestion hours or all day on highways with existing public transit service or where a public transit agency will be implementing public transit service as identified in a short range transit plan.
☐	(5) A public project for the institution or increase of bus rapid transit, bus, or light rail service, including the construction or rehabilitation of stations, terminals, or existing operations facilities, which will be exclusively used by zero-emission, near-zero-emission, low oxide of nitrogen engine, compressed natural gas fuel, fuel cell, or hybrid powertrain buses or light rail vehicles, on existing public rights-of-way or existing highway rights-of-way, whether or not the right-of-way is in use for public mass transit. The project shall be located on a site that is wholly within the boundaries of an urbanized area or urban cluster, as designated by the United States Census Bureau.
☐	(6) A public project to construct or maintain infrastructure or facilities to charge, refuel, or maintain zero-emission public transit buses, trains, or ferries, provided the project is carried out by a public transit agency in compliance with the State Air Resources Board's Innovative Clean Transit regulations (Article 4.3 (commencing with Section 2023) of Chapter 1 of Division 3 of Title 13 of the California Code of Regulations) or any regulations identified by the State Air Resources Board's 2020 Mobile Source Strategy, adopted on October 28, 2021, and the project is located on property owned by the local agency or within an existing public right-of-way or on property owned by a public or private utility. *For projects including hydrogen refueling infrastructure or facilities necessary to refuel or maintain zero-emission public transit buses, trains, or ferries, see Table 3 for additional requirements.
☐	(7) The maintenance, repair, relocation, replacement, or removal of any utility infrastructure associated with a project identified in paragraphs (1) to (6), inclusive.
☐	(8) A project that consists exclusively of a combination of any of the components of a project identified in paragraphs (1) to (7), inclusive.
☒	(9) A planning decision carried out by a local agency to reduce or eliminate minimum parking requirements or institute parking maximums, remove or restrict parking, or implement transportation demand management requirements or programs.

Table 2: Other Project Eligibility Criteria – Public Resources Code Section 21080.25(c) The project must meet all the criteria listed below to qualify for this Statutory Exemption. See Attachment 1 below for definitions of terms. Note: Table 2 does not apply to a planning decision carried out by a local agency to reduce or eliminate minimum parking requirements or institute parking maximums, remove or restrict parking, or implement transportation demand management requirements or programs.	
☐	(1) A local agency is carrying out the project and is the lead agency for the project.
☐	(2) The project does not induce single-occupancy vehicle trips, add additional highway lanes, widen highways, or add physical infrastructure or striping to highways except for minor modifications needed for the efficient and safe movement of transit vehicles, bicycles, or high-occupancy vehicles, such as extended merging lanes, shoulder improvements, or improvements to the roadway within the existing right of way. The project shall not include the addition of any auxiliary lanes.
☐	(3) The construction of the project shall not require the demolition of affordable housing units.
☒	(4) The project would: ☒ not exceed fifty million dollars (\$50,000,000) OR ☐ exceed \$50,000,000 (but not exceed \$100,000,000)* and meet the noticed public meeting requirements in Table 3
* If the project exceeds \$100,000,000, then Section 21080.25(d) imposes additional requirements. Please consult with the Planning Department staff.	
Table 3: Noticed Public Meetings Requirements – Public Resources Code Section 21080.25(d)(1)(D)(i), (iii), (iv) and Section 21080.25(d)(1)(E) Projects including hydrogen refueling infrastructure or facilities necessary to refuel or maintain zero-emission public transit buses, trains, or ferries or projects exceeding \$50,000,000 must meet all the applicable criteria listed below to qualify for this statutory exemption.	
☐	The lead agency shall hold noticed public meetings as follows: ☐ Before determining that a project is exempt pursuant to this section, the lead agency shall hold at least three noticed public meetings in the project area to hear and respond to public comments. Public meetings occurred: ☐ The lead agency shall conduct at least two noticed public meetings annually during project construction for the public to provide comments. ☐ The public meetings held pursuant to Section 21080.25(d)(1)(D)(i) to (iii), inclusive, shall be in the form of either a public community planning meeting held in the project area or in the form of a regularly scheduled meeting of the governing body of the lead agency.
☐	The lead agency shall give public notice of the meetings (listed in the row above) to the last known name and address of all the organizations and individuals that have previously requested notice and shall also give the general public notice using at least one of the following procedures: ☐ Publication of the notice in a newspaper of general circulation in the area affected by the project. If more than one area will be affected, the notice shall be published in the newspaper of largest circulation from among the newspapers of general circulation in those areas. ☐ Posting of the notice onsite and offsite in the area where the project is located. ☐ Posting of the notice on the lead agency's internet website and social media accounts.
☒	Not Applicable – Project type not applicable and cost of project is below \$50,000,000.

Table 4: Project Labor Requirements – Public Resources Code Section 21080.25(f) In addition to meeting the criteria in Table 2, the project must meet labor requirements to qualify for this statutory exemption. See Attachment 1 below for definitions of terms. Note: Table 4 does not apply to a planning decision carried out by a local agency to reduce or eliminate minimum parking requirements or institute parking maximums, remove or restrict parking, or implement transportation demand management requirements or programs.	
☐	(1) Following the granting of an exemption under this section, the lead agency shall take an action at a public meeting of its governing board to certify that the project will be completed by a skilled and trained workforce. (Does not apply if the lead agency has an existing policy or certification approved by its governing board that requires the use of a skilled and trained workforce to complete the project if the lead agency is a signatory to a project labor agreement that will require the use of a skilled and trained workforce on the project.) (2) (A) Except as provided in subparagraph (2) (B), for a project that is exempted under this section, the lead agency shall not enter into a construction contract with any entity unless the entity provides to the lead agency an enforceable commitment that the entity and its subcontractors at every tier will use a skilled and trained workforce to perform all work on the project or a contract that falls within an apprenticeship occupation in the building and construction trades in accordance with Chapter 2.9 (commencing with Section 2600) of Part 1 of Division 2 of the Public Contract Code.
☐	(2) (B) Subparagraph (2) (A) does not apply if any of the following requirements are met: ☐ (i) The lead agency has entered into a project labor agreement that will bind all contractors and subcontractors performing work on the project to use a skilled and trained workforce and the entity has agreed to be bound by that project labor agreement. ☐ (ii) The project or contract is being performed under the extension or renewal of a project labor agreement that was entered into by the lead agency before January 1, 2021. ☐ (iii) The entity contracted to perform the project entered into a project labor agreement that will bind the entity and all its subcontractors at every tier performing the project to use a skilled and trained workforce.
☐	A portion of the project would be constructed by SFMTA and/or Public Works Shops and this portion would not require the use of contractors for labor.
☒	Not Applicable. The project would be entirely constructed by SFMTA and would not require the use of contractors for labor.

EXEMPTION DETERMINATION (TO BE COMPLETED BY ENVIRONMENTAL PLANNER)	
Project Approval Action: Approval by the SFMTA Board of Directors	Signature/Date: <i>Jennifer McKellar</i> June 12, 2025 Jennifer McKellar San Francisco Planning Department
Supporting documents are available for review on the San Francisco Property Information Map, which can be accessed at https://sfplanninggis.org/pim/ and inputting the record number. Individual files can be viewed by clicking on the Planning Applications link, clicking the "More Details" link under the project's environmental record number (ENV) and then clicking on the "Related Documents" link. Once signed and dated, this document constitutes an exemption pursuant to CEQA Guidelines and Chapter 31 of the SF Administrative Code. Per Chapter 31, an appeal of an exemption determination to the Board of Supervisors shall be filed within 30 days after the Approval Action occurs at a noticed public hearing, or, if the approval is not made at a noticed public hearing, within 30 days after posting on the Planning Department's website a written decision or notice of the Approval Action.	

(continues on next page)

ATTACHMENT 1: DEFINITIONS

Definitions for terms 1 through 12 are the same as provided in the text of Public Resources Code section 21080.25(a).

- (1) **“Affordable housing”** means any of the following:
 - (A) Housing that is subject to a recorded covenant, ordinance, or law that restricts rents or sales prices to levels affordable, as defined in Section 50052.5 or 50053 of the Health and Safety Code, to persons and families of moderate, lower, or very low income, as defined in Section 50079.5, 50093, or 50105 of the Health and Safety Code, respectively.
 - (B) Housing that is subject to any form of rent or price control through a public entity's valid exercise of its police power.
 - (C) Housing that had been occupied by tenants within five years from the date of approval of the development agreement by a primary tenant who was low income and did not leave voluntarily.
- (2) **“Bicycle facilities”** includes, but is not limited to, bicycle parking, bicycle sharing facilities, and bikeways as defined in Section 890.4 of the Streets and Highways Code.
- (3) **“High-occupancy vehicle”** means a vehicle with three or more occupants.
- (4) **“Highway”** means a way or place of whatever nature, publicly maintained and open to the use of the public for purposes of vehicular travel. “Highway” includes a street.
- (5) **“Local agency”** means a public transit operator, city, county, city and county, special district, joint powers authority, local or regional transportation agency, or congestion management agency.
- (6) **“Part-time transit lanes”** means designated highway shoulders that support the operation of transit vehicles during specified times and are not open to nonpublic transit vehicles at any time.
- (7) **“Project labor agreement”** has the same meaning as defined in paragraph (1) of subdivision (b) of Section 2500 of the Public Contract Code.
- (8) **“Public transit operator”** has the same meaning as in Section 99210 of the Public Utilities Code.
- (9) **“Skilled and trained workforce”** has the same meaning as provided in Chapter 2.9 (commencing with Section 2600) of Part 1 of Division 2 of the Public Contract Code.
- (10) **“Transit lanes”** means street design elements that delineate space within the roadbed as exclusive to transit use, either full or part time.
- (11) **“Transit prioritization projects”** means any of the following transit project types on highways or in the public right-of-way:
 - (A) Signal and sign changes, such as signal coordination, signal timing modifications,

signal modifications, or the installation of traffic signs or new signals.

(B) The installation of wayside technology and onboard technology.

(C) The installation of ramp meters.

(D) The conversion to dedicated transit lanes, including transit queue jump or bypass lanes, shared turning lanes and turn restrictions, the narrowing of lanes to allow for dedicated transit lanes or transit reliability improvements, or the widening of existing transit travel lanes by removing or restricting street parking.

(E) Transit stop access and safety improvements, including, but not limited to, the installation of transit bulbs and the installation of transit boarding islands.

(12) “**Transportation demand management program**” means a specific program of strategies, incentives, and tools to be implemented, including, with specified annual status reporting obligations, to reduce vehicle trips by providing opportunities for the public to choose sustainable travel options, such as transit, bicycle riding, or walking. A specific program of strategies, incentives, and tools includes, but is not limited to, any of the following:

(A) Provision of onsite electric vehicle charging stations in excess of applicable requirements.

(B) Provision of dedicated parking for car share or zero-emission vehicles, or both types of vehicles, in excess of applicable requirements.

(C) Provision of bicycle parking in excess of applicable requirements.

(13) Pedestrian Facilities as a term is not defined in Public Resources Code Section 21080.25. The Manual on Uniform Traffic Control Devices for Streets and Highways (MUTCD) is a national standard approved by the Federal Highway Administrator in accordance with Title 23 of the U.S. Code. In the MUTCD, **Pedestrian Facilities** is “a general term denoting improvements and provisions made to accommodate or encourage walking.”¹ This definition will be used by San Francisco Planning Department to determine if a project or project component includes a pedestrian facility and meets the eligibility criteria of Public Resources Code Section 21080.25.

Date: June 12, 2025
To: Jennifer McKellar, San Francisco Planning Department
From: Mari Hunter, San Francisco Municipal Transportation Agency
Through: Jenny Delumo, San Francisco Municipal Transportation Agency
Re: Large and Commercial Vehicle Parking Citation and Removal Project
Case Number: 2025-004816ENV

Summary

The San Francisco Municipal Transportation Agency (SFMTA) is proposing the Large and Commercial Vehicle Parking Citation and Removal project (proposed project). The proposed project would amend Division II of the San Francisco Transportation Code to establish the Large Vehicle Refuge Permit program, as well as establish definitions to support the program, contingent on San Francisco Board of Supervisors amendments of Transportation Code Sections 7.2.54 and 7.2.84. The Board of Supervisors would also amend the San Francisco Administrative Code, San Francisco Park Code, and San Francisco Port Code. The project would include the installation of permanent signs on existing poles or new poles.¹

Existing Conditions

The San Francisco Transportation Code currently restricts large vehicles from parking overnight where signage is posted, as described in Section 7.2.54. Under existing regulations, the SFMTA Board must designate each location where the overnight parking of large vehicles is prohibited, and vehicles parked in violation of the restriction may not be towed. The existing large vehicle overnight parking restriction is in effect, where posted, on approximately 47 miles of street frontage in San Francisco. These locations are shown in Figure 1.

(Continues on next page)

¹ Construction and implementation of the proposed project would not exceed \$50,000,000.

Fig 1: Locations where the oversized vehicle overnight parking restriction (TC 7.2.54) is currently posted

Proposed Project

The proposed project would amend Division II of the Transportation Code to establish the Large Vehicle Refuge Permit program, contingent on the San Francisco Board of Supervisors amending of Transportation Code Sections 7.2.54 and 7.2.84, and establish definitions relevant to the program. The proposed changes to Division II include the following.

- Amend Section 901 to create the following definitions:
 - o **Household:** All persons occupying a Large Vehicle.
 - o **Large Vehicle:** A vehicle over twenty-two feet in length or seven feet in height, or camp trailers, fifth-wheel travel trailers, house cars, trailer coaches, mobile homes, recreational vehicles, or semi-trailers as defined by the California Vehicle Code and Health and Safety Code.
 - o **Large Vehicle Buyback Program:** A program by the City to purchase Large Vehicles from individuals who have accepted the City's offer of non-congregate interim or permanent housing.
- **Large Vehicle Refuge Permit:** A permit issued by the SFMTA to a Household that authorizes a specified Large Vehicle to park without being subject to the two-hour parking limit described in Transportation Code Section 7.2.54 and subject to all permit conditions.
- Add Section 917 to establish Large Vehicle Refuge Permit requirements, privileges, duration, conditions, and revocation.

- Amend Section 502 to define the commercial vehicle by size, over twenty-two feet in length or seven feet in height, and to refine the list of restricted areas. Further amendments confirm how removal of a vehicle in violation is permissible.
- Amend Section 201 to be consistent with the proposed legislation.

The proposed large vehicle permit programs would go into effect if the Board of Supervisors makes the following amendments:

Transportation Code Section 7.2.54:

- Large vehicles may not be parked for more than 2 hours except:
 - o When reasonably necessary to accomplish the loading or unloading of merchandise or passengers on, or from, a vehicle and while anything connected with the loading, or unloading, is being executed; or
 - o Where a permit has been issued by the Municipal Transportation Agency temporarily exempting the permittee and the vehicle from this provision, as set forth in Division II of this Code, and the permittee is in compliance with all applicable permit conditions.
 - o When the vehicle displays an active Residential Parking Permit issued by the SFMTA for the specific residential parking permit area in which the vehicle is parked.
 - o Commercial vehicles subject to 7.2.84

Transportation Code Section 7.2.84:

- Motor truck, truck tractor, road tractor, van, trailer, delivery wagon, or any vehicle used for commercial purposes over twenty-two feet in length or seven feet in height may not be parked for more than 2 hours on any street designated in Division II except while in the course of delivery or removal of goods, merchandise or other personal property for residents

The Board of Supervisors would also:

- Amend Chapter 119 of the Administrative Code to require City departments, including but not limited to the Department of Homelessness and Supportive Housing, the Department of Emergency Management, and the Police Department, to assist the SFMTA with administering the proposed Large Vehicle Refuge Permit Program;
- Amend Article 6 of the San Francisco Park Code to impose two-hour restrictions on large vehicles on park property; and

- Amend Article 5 of the San Francisco Port Code to impose two-hour parking limits on large vehicles on Port property.

Construction

Implementation of the proposed project requires temporary or permanent signs.

Installation of the signs could be placed on existing poles (requiring no excavation) or new poles (which would require excavation to a maximum depth of 18 inches). Sign installation would be carried out by the SFMTA Sign Shop.

APPROVAL ACTION

The Approval Action as defined by San Francisco Administrative Code Chapter 31, Section 31.04(h)(2) is approval of the project by the SFMTA Board of Directors. The approval action starts the 30-day appeal period for the environmental review determination under Administrative Code Section 31.16.

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Monday, July 14, 2025 6:05:08 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Sydney Philavane

If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Monday, July 14, 2025 10:29:55 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Tuesday, July 15, 2025 8:17:08 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

Subject: RV ban: wastes money, subjective policy, helps no one - Vote No
Date: Tuesday, July 15, 2025 9:15:54 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

Urging you to reject the 2-hour restriction on RV parking, introduced by Mayor Lurie.

This ban will waste SFMTA and SFPD resources. It is not based on actual curb management, street maintenance, nor objective evaluation policy. Vehicles that are larger or near the size of the 22ft proposal (sprinter vans, Cybertrucks, passenger vans) will not be towed....this is a subjective policy that is unsound and faulty.

Each Supervisor should state publicly how many RVs subject to this tow proposal are in their District. If the Supervisors voting yes on the RV ban have few or no RVs targeted by this proposal, then their Yes vote is simply a political play that punishes the Districts that are navigating this issue.

Working families living in RVs have bathrooms, locked doors, and community. Why strip them of their safety and their shelter where they can maintain basic needs to be able to attend work and school? The RV ban will increase street homelessness: the City counted 437 occupied large vehicles in May 2025, yet **only 65 new rapid rehousing subsidies are being made available as part of this plan.**

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to towing. Make that make sense?

Subject: Vote No on the RV Ban - Will Harm Immigrants and Increase Street Homelessness
Date: Tuesday, July 15, 2025 12:44:48 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Tuesday, July 15, 2025 12:44:56 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Monica Berini

Subject: Reject RV Ban - Will Increase Homelessness
Date: Thursday, July 10, 2025 3:54:25 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Clerk of the Board Angela Calvillo,

My name is Rodger and I live in San Francisco. Please reject the 2-hour restriction on RV parking. This ban will harm people across the city and increase homelessness.

There are over 1,400 people living in their vehicles, including 90% of families experiencing homelessness. If their RVs are towed, they will lose their only form of shelter. This approach punishes those who use RVs as their homes in an attempt to force them to leave. People living in RVs have families, work, and community here. To force them to uproot because residents with houses don't like the aesthetic of RVs is cruel.

The city does not have enough affordable housing and shelter beds. There are 295 families on the family shelter waitlist and 471 individuals on the single adult waitlist. People living on the streets or in shelters desperately need resources.

People who live in RVs are not going to disappear or leave the city en masse. Enacting a ban like this will only push people onto the streets and deeper into instability. This will waste SFMTA and SFPD resources for no gain.

Instead of banning RV parking, focus on providing real housing solutions. This ban helps no one.

Thank you for your consideration.

Date: Thursday, July 10, 2025 7:54:32 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Clerk of the Board Angela Calvillo,

My name is Lily and I live in San Francisco. Please reject the 2-hour restriction on RV parking. This ban will harm people across the city and increase homelessness.

There are over 1,400 people living in their vehicles, including 90% of families experiencing homelessness. If their RVs are towed, they will lose their only form of shelter, their home. This approach punishes those who use RVs as their homes in an attempt to force them to leave. People living in RVs have families, work, and are resourceful community members that contribute to the City's economy through work, local purchases, and tax payments. To force them to uproot because residents with houses don't like the aesthetic of RVs is cruel. Work with them not against them.

The city does not have enough affordable housing and shelter beds. There are 295 families on the family shelter waitlist and 471 individuals on the single adult waitlist. According to the Healthy Streets Operation Center, in May 2025 there were 437 large vehicles used as dwellings, yet the proposed \$13 million would cover only 65 rapid rehousing subsidies and buying 100 vehicles. What happens to the remaining 300+ dwellers? People living on the streets or in shelters desperately need resources.

In addition, my understanding of "rapid rehousing" means possible housing somewhere in the Bay Area but no more than 2.5 hours from San Francisco. But what if the dwellers work in San Francisco? If San Francisco buys their recreational vehicles and housing is over an hour away, how are the dwellers to get to their jobs?

People who live in RVs are not going to disappear or leave the city en mass, but will if they cannot travel to their place of work, worship, and schools. Enacting a ban like this will only push people onto the streets and deeper into instability, which will be more costly for the City. This will waste SFMTA and SFPD resources for no gain.

Please consider the dignity of the recreational vehicle owners and their families.

Instead of banning RV parking, focus on providing real housing solutions. This ban helps no one.

Thank you for your consideration.

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Affordable Housing!
Date: Thursday, July 10, 2025 7:55:30 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Laurel Halvorson

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Date: Friday, July 11, 2025 11:43:16 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

San Francisco likes to consider itself a "sanctuary city" but can we really say we're upholding those values if we are taking homes away from folks that are here to try and better their lives and be apart of the opportunity and community that San Francisco has historically provided? Taking away shelter from folks and potentially forcing them into the streets is not just unethical, it's inhumane. San Francisco is already struggling to help the number of houseless folks as is, so why would you support legislation that would guarantee that this issue would get worse?

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Subject: Assault on RV Homes
Date: Friday, July 11, 2025 1:36:53 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Heather Yaden and I am a resident of San Francisco, a parent, an educator and a supporter of allowing all of my neighbors to live in dignity.

My concern is for the families, victims of violence, and disabled members of our community who have so few options for living in a city that is barely affordable to anyone in the working class.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. Family homelessness has doubled. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to

enforcement and could end up on the street. The permits would expire after at most 12 months unless they are able to secure an extension from the head of DSHS. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,

Heather Yaden

To the Board of Supervisors,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. Family homelessness has doubled. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months unless they are able to secure an extension from the head of DSHS. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,

Reuben - Concerned SF resident

Subject: Amend RV Ban for Basic Protections
Date: Friday, July 11, 2025 2:58:35 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Chiara Ogan and I have lived in San Francisco for 19 years, in Potrero, the Fillmore, and now in the Sunset for 15 years. The 2-hour restrictions on RV parking will harm people across the city, especially people living in RVs, because this effort will increase street homelessness. If this restriction is going to pass, at the very least, the legislation should be amended to include these changes that RV residents are asking for:

- **No tows for expired registration prior to or after receiving a permit.**
- **Guarantee an offer of housing or a subsidy – *not* shelter/interim housing – prior to towing.**
- **Need a guarantee that every RV resident that owns their RV will receive a buyback offer for their RV and that buyback amounts are higher than \$5,000.**

Towing RV residents does not solve anything; it just increases suffering and street homelessness. These changes to the legislation and implementation would at least provide slightly more protection to this very vulnerable population.

Thank you,

Chiara Ogan

Subject: Please reject 2-hour restrictions on RV parking!
Date: Friday, July 11, 2025 3:22:43 PM
Importance: High

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor:

My name is Harry S. Pariser, and I am a resident of San Francisco.

I find it unbelievable that anyone would support this Stephen Miller-style racist legislation which is so obviously racially targeted!

I have been asked that, should this unsavory and unethical legislation pass, you please add the following amendments:

- * No tows for expired registration prior to or after receiving a permit.
- * Guarantee an offer of housing/subsidy - not shelter/interim housing - prior to towing.
- * Need a guarantee that every RV resident that owns their RV will receive a buyback offer for their RV and that buyback amounts are higher than \$5,000.

Towing RV residents does not solve anything; it just increases suffering and street homelessness. These changes to the legislation and implementation would at least provide slightly more protections to this very vulnerable population.

Finally, I hope none of you ever talk about the suffering endured by your immigrant parents or grandparents when you are treating a (largely) immigrant population in this sordid fashion!

Thank you,

Harry S. Pariser

Subject: Vote No on the RV Ban - Will Harm Immigrants and Increase Street Homelessness
Date: Friday, July 11, 2025 3:59:56 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Board of Supervisors Public Comment,

I am a primary care doctor with many unhoused patients, disrupting their very modest forms of shelter is devastating to their mental and physical health. I live and work in San Francisco and would much rather have better housing for everyone, but letting people stay in their vehicles is safer and more dignified than placing these parking restrictions without any real plan.

Please repeal the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Affordable Housing!
Date: Friday, July 11, 2025 4:10:50 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

California

Subject: Amend RV Ban for Basic Protections
Date: Friday, July 11, 2025 4:15:12 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is AJ cho, and I am a Bay Area housing advocate concerned about Mayor Daniel Lurie's proposed RV ban. The 2-hour restrictions on RV parking will harm people across San Francisco, especially people living in RVs, because this effort will kick RV residents about from street to street every day instead of pointing them to crucial resources they need to stabilize their housing situation. If this restriction is going to pass, at the very least the legislation should be amended to include these changes that RV residents are asking for:

- No tows for expired registration prior to or after receiving a permit.
- Guarantee an offer of housing/subsidy – not shelter/interim housing – prior to towing.
- Need a guarantee that every RV resident that owns their RV will receive a buyback offer for their RV and that buyback amounts are higher than \$5,000.

Towing RV residents does not solve anything; it just increases suffering and street homelessness. These changes to the legislation and implementation would at least provide slightly more protections to this very vulnerable population.

Subject: Reject RV Ban - Will Increase Street Homelessness
Date: Friday, July 11, 2025 4:41:54 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is MT Snyder and I live in the Corona Heights neighborhood. Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. Family homelessness has doubled. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months unless they are able to secure an extension from the head of DSHS. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,
MT Snyder

Subject: Reject RV Ban - Will Increase Homelessness
Date: Friday, July 11, 2025 4:47:42 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Clerk of the Board Angela Calvillo,

My name is Judy and I live in San Francisco. Please reject the 2-hour restriction on RV parking. This ban will harm people across the city and increase homelessness.

As a nurse and as a person who cares about other people, especially children and those less fortunate than we are, I implore you to reject the 2 hour restriction on RV parking.

I had hoped that in electing Mayor Lurie, we would be more compassionate toward the families whose only homes are RV's in our city. As you know, there are over 1,400 people living in their vehicles, including 90% of families experiencing homelessness. If their RVs are towed, they will lose their only form of shelter.

It is simply cruel to do this to these people - to punish them so they will leave the city and take their struggle elsewhere.

I applaud the work that is being done to address our housing crisis with more shelter and treatment beds and more affordable housing. I hope we can dedicate the resources needed to someday meet the housing needs of all of our citizens.

But we cannot meet those needs right now.

As you know, the city does not have enough affordable housing and shelter beds. There are 295 families on the family shelter waitlist and 471 individuals on the single adult waitlist. People living on the streets or in shelters desperately need resources.

It is not only unconscionable to try to force these residents to leave, it will also be ineffective. Enacting a ban like this will only push people onto the streets and deeper into instability. This will waste SFMTA and SFPD resources for no gain.

Instead of banning RV parking, focus on providing real housing solutions. This ban helps no one.

Thank you for your consideration.

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for All RV Residents!
Date: Friday, July 11, 2025 5:21:43 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping

people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Lizzy Trueblood

Subject: Vote No on the RV Ban - Will Harm Immigrants and Increase Street Homelessness
Date: Friday, July 11, 2025 5:24:23 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

San Francisco Board of Supervisors Members,

My name is Michael Nulty writing on behalf of **Alliance for a Better District 6** and our community partners. The 2-hour restrictions on RV parking will harm people across the city, especially people living in RVs, because this effort will increase street homelessness. If this restriction is going to pass, at the very least the legislation should be amended to include these changes that RV residents are asking for:

Here are some key points regarding the ongoing discussions and potential amendments to the RV Ban:

1. **Prohibition of Towing for Expired Registration:** Advocating for no towing until a permit is issued can help prevent unnecessary hardship for RV residents.
2. **Housing Guarantees:** Ensuring that residents receive housing or subsidies before any towing actions are taken is a crucial step in addressing homelessness.
3. **Buyback Offers:** A guarantee that RV owners will receive a buyback offer exceeding **\$5,000** can provide financial relief and stability for those affected.
4. **Community Engagement:** Ongoing petitions and discussions highlight the need for community involvement in shaping these laws to protect vulnerable populations.

These changes could potentially lead to a more compassionate approach to the

challenges faced by RV residents.

Thank you,

Dear Board of Supervisors,

The 2-hour restrictions on RV parking will harm people across the city, especially people living in RVs, because this effort will increase street homelessness. If this restriction is going to pass, at the very least the legislation should be amended to include these changes that RV residents are asking for:

- **No tows for expired registration prior to or after receiving a permit.**
- **Guarantee an offer of housing/subsidy – not shelter/interim housing – prior to towing.**
- **Need a guarantee that every RV resident that owns their RV will receive a buyback offer for their RV and that buyback amounts are higher than \$5,000.**

Towing RV residents does not solve anything; it just increases suffering and street homelessness. These changes to the legislation and implementation would at least provide slightly more protections to this very vulnerable population.

Thank you,

Robert Strelke

Subject: Reject RV Ban - Will Increase Street Homelessness
Date: Saturday, July 12, 2025 7:34:10 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Marcian Diamond with San Francisco Narcotics Anonymous. Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. Family homelessness has doubled. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months unless they are able to secure an extension from the head of DSHS. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,

Marcian Diamond

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping

people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Stephanie Hernandez

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Subject: Reject RV Ban - Will Increase Street Homelessness
Date: Saturday, July 12, 2025 10:38:24 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Anisha Sekar. I'm a lifelong Bay Area resident who's lived in SF for 15 years, currently in Cole Valley.

I'm writing to ask the Board to reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. Family homelessness has doubled. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months unless they are able to secure an extension from the head of DSHS. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,
Anisha Sekar (zip code 94117)

Subject: Vote No on the RV Ban - Will Harm Immigrants and Increase Street Homelessness
Date: Saturday, July 12, 2025 12:55:54 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Subject: Provide housing, don't punish people who are struggling!
Date: Saturday, July 12, 2025 6:44:34 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Miranda Brawner. The 2-hour restrictions on RV parking will harm people across the city, especially people living in RVs, because this effort will increase street homelessness. If this restriction is going to pass, at the very least the legislation should be amended to include these changes that RV residents are asking for:

- **No tows for expired registration prior to or after receiving a permit.**
- **Guarantee an offer of housing/subsidy – not shelter/interim housing – prior to towing.**
- **Need a guarantee that every RV resident that owns their RV will receive a buyback offer for their RV and that buyback amounts are higher than \$5,000.**

Towing RV residents does not solve anything; it just increases suffering and street homelessness. These changes to the legislation and implementation would at least provide slightly more protections to this very vulnerable population.

Thank you,

Miranda

Subject: Say No to the RV Ban, Address the Root Causes of Homelessness Instead
Date: Saturday, July 12, 2025 9:14:49 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness.

Please consider how this ban punishes people for attempting to find shelter and stability in a city, state and country that is making survival harder every day. By eliminating the already difficult option of vehicular housing, this ordinance would push people towards the least stable and most criminalized option. These policies simply do not work.

Housing heals, towing and displacement helps no one. We know that to end homelessness funding has to go towards supportive services, but first we must stop hindering people's efforts to simply survive.

Sincerley,
A Concerned Neighbor

Dear Clerk of the Board Angela Calvillo,

My name is Robyn and I live in San Francisco. Please reject the 2-hour restriction on RV parking. This ban will harm people across the city and increase homelessness.

There are over 1,400 people living in their vehicles, including 90% of families experiencing homelessness. If their RVs are towed, they will lose their only form of shelter. This approach punishes those who use RVs as their homes in an attempt to force them to leave. People living in RVs have families, work, and community here. To force them to uproot because residents with houses don't like the aesthetic of RVs is cruel.

The city does not have enough affordable housing and shelter beds. There are 295 families on the family shelter waitlist and 471 individuals on the single adult waitlist. People living on the streets or in shelters desperately need resources.

People who live in RVs are not going to disappear or leave the city en mass. Enacting a ban like this will only push people onto the streets and deeper into instability. This will waste SFMTA and SFPD resources for no gain.

Instead of banning RV parking, focus on providing real housing solutions. This ban helps no one.

Thank you for your consideration.
Ms. Robyn Miles
San Francisco, CA 94110-5804

Subject: Vote No on the RV Ban - Will Harm Immigrants and Increase Street Homelessness
Date: Sunday, July 13, 2025 8:35:24 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Subject: NO to proposed RV ban
Date: Sunday, July 13, 2025 9:04:43 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Nora Roman and I am a retired RN from the SFDPH, a homeowner, a parent and grandparent and a person who cares about the injustice we are experiencing in our beloved San Francisco.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government and our local government too at this point.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. Family homelessness has doubled. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months unless they are able to secure an extension from the head of DSHS. Then

households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one. Consider support such as RV villages in designated areas which would include sanitation and WASH and trash disposal as well as social services and housing connections.

Criminalizing the houseless and towing away people's entire lives and possessions is never the right thing to do.

Thank you,

Nora Roman, RN

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for All RV Residents!
Date: Sunday, July 13, 2025 11:01:49 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Julian McCarthy

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping

people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Kevin

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Supervisor(s):

I am writing to strongly urge you to reject Section 4 from the trailing legislation (File No. 250609) associated with Proposition C, Our City Our Home (2018):

"Section 4. Under the authority in Business and Tax Regulations Code Section 2811, the Board of Supervisors authorizes the City to expend future revenues that will be deposited in the OCOH Fund through fiscal year 2026-27, after addressing the specified costs required under subsections 2810(b)(1) and (2), among any or all of the eligible programs to address or prevent homelessness as described in subsections 2810(b)(3)\A)-(D), notwithstanding the specific percentage allocations that would otherwise apply, subject to approval by the Board of Supervisors by appropriation."

This is a major departure from the provisions of Prop C. Voters specifically required a supermajority of the Board of Supervisors to approve any changes to Prop C allocations. Section 4 of this legislation weakens the voters' deliberate safeguard by enabling reallocation with only a simple majority vote.

The removal of the supermajority requirement is a major departure from previous versions of Prop C trailing legislation. This change undermines the will of the voters and creates a precedent that puts the integrity of all citizen initiatives at risk. The Board and Mayor must honor the intent of the voters as well as the citizen initiative process protected in the San Francisco Charter.

As Supervisors, your role is to provide a check and balance to Mayoral power – to give away the ability to do so is a dereliction of the duties you were elected to perform. We call on you to uphold the democratic process, and to respect the will of the voters and proponents of Prop C and reject this section of the trailing legislation.

Thank you for your attention to this matter.

Sincerely,
Claire McHale

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco homeowner who lives in the Bayview. I see the families just trying to get by, children living and playing outside their RVs on Phelps Street. Where will they go? Do you care?

I'm writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Alex Post

Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Cynthia Tam

Subject: Assault on RV Homes
Date: Friday, July 11, 2025 1:36:53 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Heather Yaden and I am a resident of San Francisco, a parent, an educator and a supporter of allowing all of my neighbors to live in dignity.

My concern is for the families, victims of violence, and disabled members of our community who have so few options for living in a city that is barely affordable to anyone in the working class.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. Family homelessness has doubled. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to

enforcement and could end up on the street. The permits would expire after at most 12 months unless they are able to secure an extension from the head of DSHS. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,

Heather Yaden

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for All RV Residents!
Date: Friday, July 11, 2025 4:33:13 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Stephanie Hernandez

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for All RV Residents!
Date: Saturday, July 12, 2025 7:45:41 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. Subject: Reject RV Ban - Will Increase Street Homelessness
Date: Saturday, July 12, 2025 10:38:24 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Anisha Sekar. I'm a lifelong Bay Area resident who's lived in SF for 15 years, currently in Cole Valley.

I'm writing to ask the Board to reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. Family homelessness has doubled. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months unless they are able to secure an extension from the head of DSHS. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,
Anisha Sekar (zip code 94117)

It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

MAYTE CARRILLO

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Mazzy Bell

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a formerly homeless, San Francisco permanent supportive housing resident currently residing in district 5 writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Laura Saunders

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for All RV Residents!
Date: Sunday, July 13, 2025 11:22:48 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Katie Rounds

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a prior San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will make it impossible for the working poor who cannot afford rents to live in San Francisco. Many of the people you seek to remove with this ban are from the area and many have jobs. I understand how frustrating it can be to see visible homelessness but the answer to that is more permanent housing solutions, not an arbitrary ban. With many of these RVs inoperable, this ban will not move homelessness outside of the city but forcibly taking people's only shelter when they do not meet this ban will destroy the little sense of home people have and is associated with loss of belongings and identification that helps people get housing (Darrah-Okike et al., 2018), loss of access to healthcare (Qi et al., 2022) and for those using injectable drugs, an increase in deaths (Barocas et al., 2023). I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be people and families waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Noah Levitt

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for All RV Residents!
Date: Sunday, July 13, 2025 11:35:08 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for All RV Residents!
Date: Sunday, July 13, 2025 11:42:51 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

As a San Francisco resident, I am writing to strongly oppose Mayor Lurie's proposed 2-hour restriction on RV parking. This policy will not only seize the only shelter available for poor and working-class individuals but also offer utterly inadequate services in return. I am particularly concerned about the willingness of Supervisors Chan and Melgar to accept non-specific commitments from the Mayor's office on refuge permits without actively pushing for more permanent housing options for RV residents. The result will likely be families on the brink of homelessness, waiting years for housing opportunities while constantly worried about their homes being towed for minor offenses.

RVs serve as homes, especially for immigrant families, elderly individuals, and disabled San Franciscans. Over 1,400 City residents currently reside in their vehicles, with 90% of these families experiencing unsheltered homelessness. There are currently 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. It is not surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where they could be evicted at 7 AM.

I am particularly dismayed that the Mayor's proposed plan does not include safe parking sites. Many elderly residents have been living in their vehicles for decades, and it is unrealistic to expect them to give up their homes in just six months or a year. Safe parking sites are a proven strategy to address complaints about street conditions while meeting people where they are. The City's own failure to operate a safe parking site at Candlestick Point is not an excuse, especially when there is a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all affordably run safe parking sites, why can't we?

For individuals residing in their vehicles who are eager to relocate to permanent housing, the current plan is equally inadequate. There are significantly more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are allocated at the expense of individuals staying in congregate shelters. While an RV or vehicle may not be ideal, it provides permanent and private housing. Forcing people to relinquish this permanent housing in exchange for temporary rental assistance is not only unproductive but also cruel and contradicts established research.

To conclude, I firmly oppose the punitive enforcement strategy outlined in the Mayor's plan. This strategy allocates substantial funding for signage and towing as much as it does for assisting individuals. The 2-hour RV parking ban, unlike the housing vouchers, is permanent and highlights the true purpose of the Mayor's plan: to reduce visible poverty, regardless of the consequences. I understand that SF officials often cite the existence of 'vanlords' to justify their support for towing policies. While I share the desire to eliminate exploitative landlords, evicting their tenants is not the solution to this problem. The most effective approach to addressing predatory behavior is to eliminate opportunities for predation by providing permanent and affordable housing options.

It is important to recognize that SF should have a plan to assist its neighbors living in their vehicles. However, the solution to this issue should not be poverty towing. I urge Mayor Lurie and his allies to develop a comprehensive strategy that addresses this problem, including the establishment of safe parking sites and the provision of genuine and permanent housing options for those in need.

Sincerely,

Ranjit Chacko

There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Sunday, July 13, 2025 12:12:10 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

Subject: Reject RV Ban - Will Increase Street Homelessness
Date: Sunday, July 13, 2025 12:19:22 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor Mahmood,

My name is Rachel Clyde and I am your constituent and an active member of the community.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. Family homelessness has doubled. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months unless they are able to secure an extension from the head of DSHS. Then households would be targeted for tows even though they had never been offered

services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Sincerely,

Rachel Clyde

An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Sunday, July 13, 2025 12:52:57 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. I'm all for restricting parking to make transit and street improvements that make our city safer. This punishes the people who are already suffering and the only people it benefits are wealthy vehicle owners. It's a waste of resources that could be used to actually help homeless or housing insecure people, build safer streets, improve transit or any number of useful things.

The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

Subject: Opposing the Mayor's RV Ban - Protect SF Home Owners and Tenants Who Own Vans - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Sunday, July 13, 2025 1:51:57 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

Also many SF organizations, homeowners and renters are long time owners of large vans. We are not living in these vans but use these vans for work or recreation outside SF. If the vehicles are too long, or especially too tall, we will not be able to keep the vans we already own and have registered through the DMV for many years in San Francisco. We cannot afford to pay for off street parking, which does not exist affordably in San Francisco, on top of mortgages and rents in this city.

San Francisco homeless families need permanent housing, San Francisco does not need a RV parking ban, especially one that will severely impact homeowners and renters throughout San Francisco.

Thank you!

Subject: Opposition to the mayor's RV Ban and for Permanent Housing for RV Residents!
Date: Sunday, July 13, 2025 1:56:45 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco homeowner writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and my own supervisor, Supervisor Melgar, who after all has urban planning expertise and whose own family were immigrants seems willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents.

The end result is likely to be families waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes for 1,400 City residents who have no real option other than to live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. Shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM? I certainly would!

I am disturbed that the Mayor's proposed plan doesn't include safe parking. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing the current plan is also inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and

underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts.

I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his pro-business, inhumane supporters to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Holly Severson

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Sunday, July 13, 2025 2:33:31 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

Subject: Reject the RV Ban
Date: Sunday, July 13, 2025 3:18:47 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

The Mayor's proposed RV parking restrictions are tantamount to evictions, and would have dire impacts on all the banished residents, particularly families.

They will be faced with an impossible choice, forced to give up all their possessions, to live in a temporary shelter that will split up families, and risk whatever employment they may have, or leave the City and search for some other inhospitable place, take their children out of school, and almost definitely lose any employment they may presently have.

This cruel proposal is also deeply cynical given the concurrent lack of sufficient beds for the unhoused who currently have no shelter at all.

This treatment of human beings is unconscionable. They are not garbage to be swept away.

Disappearing poor folks from view is not a solution to anything. It is a shameful pretense. It certainly does not comport with what we proudly tout as San Francisco values. It is frankly Trumpian.

Please oppose the assault on RV resident parking.

Subject: STRONG Support of Equitable Shelter Distribution Ordinance
Date: Sunday, July 13, 2025 3:33:32 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Members of the San Francisco Board of Supervisors,

As a resident of SOMA since 2017, I'm writing in strong support of Supervisor Mahmood's Equitable Shelter Distribution Ordinance.

I love SOMA West deeply and am watching it try very hard to rebuild itself. It is a vibrant, diverse, and economically vital neighborhood to San Francisco's recovery and one that is committed to thriving if given the chance. I bought a home here in 2021 and I don't want to live anywhere else. But if street conditions continue to deteriorate and crime continues to rise, I may be forced to reconsider for my own safety.

SOMA is currently bearing a disproportionate share of the city's shelter infrastructure, and it's having a real impact—not just on residents, but on local businesses and the broader economy. In contrast, SOMA hosts many of San Francisco's most important institutions including Moscone Center, SF MOMA, hotels, and other key office districts the city is working to revitalize. This revitalization investment is stunted when the volume of shelters and services continue to be concentrated here. In 2025 alone, four out of five new shelters were placed in Western SOMA, despite the fact that SOMA and the Tenderloin already host the vast majority of the City's shelters.

At the same time, the City has not made sufficient investment in sanitation, safety, or behavioral health services in the impacted neighborhoods. Without that support, shelter clustering near commercial areas discourages foot traffic, harms small businesses, and deters conventions and tourism, ultimately weakening our city's economic recovery and diminishing quality of life for those of us who live here.

For SOMA's economy to recover, we need a stable and diverse population that includes residents who are able to support neighborhood businesses, contribute to a vibrant street life, and invest in the long-term success of the community. When residential housing is displaced to create yet another shelter—as with 1178 Folsom—the neighborhood loses more of its economic foundation.

One well-managed shelter would not be a concern on its own. But when there are several within just one or two blocks, some of which have caused persistent challenges, the effects add up. Each neighborhood should include a balanced mix of housing, commerce, and services. Shelters should not just continue to be concentrated in just a few vulnerable geographies when other districts have none.

This ordinance asks for equitable distribution of shelters and reasonable spacing between sites. As a longtime SOMA resident and civic participant, I see this as a commonsense step toward fairness, economic sustainability, and compassionate service delivery—for both housed and

unhoused San Franciscans.

I URGE you to vote yes.

Starr Strickland

The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep. This is a ban that would be massively harmful to real people and families living here in our city.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Vincent Young

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors, As a long time resident of San Francisco both in the Mission and for the last 36 years in the Bayview, D10, I have seen a shocking decline in affordable housing . I feel frustrated and angry that the working class vitality & cultural richness has driven the people who built this city & their families far from SF or onto the streets, many in tents and some in RVs.

To ban RVs or make it impossible to stay situated in a familiar location, is another attack on working class, poor, elderly, disabled, to make way for wealthy enough tourists to be able to come to a city that has been "sterilized" for the gentry to enjoy their vacations.

Now I urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm particularly concerned that Supervisor Chan and Supervisor Melgar seem willing to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. The end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having

their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Mishwa Lee

Subject: Opposing the Mayor's Cruel and Disrespectful RV Ban - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Monday, July 14, 2025 11:14:15 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return. I'm urging Supervisor Chan and Supervisor Melgar not to accept non-specific commitments from the Mayor's office on refuge permits without pushing for more permanent housing offers for RV residents. Otherwise, the end result is likely to be families poised on a knife edge - waiting years for housing opportunities while constantly worried that their home may be towed if they make a single misstep.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. I have personally learned from homeless neighbors that the shelters are rife with petty theft of their belongings, including valuable identification documents. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we? Additionally, a safe parking site shouldn't be situated far from city services/transportation. This is simply bone-headed.

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for

temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Permanent Housing for RV Residents!
Date: Monday, July 14, 2025 3:14:26 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Urgent Appeal: Oppose the RV Ban & Demand Real Solutions

Dear San Francisco Board of Supervisors,

I am writing as a deeply concerned resident to urge you to strongly oppose Mayor Lurie's proposed 2-hour RV parking restriction. This policy is not a solution; it is a cruel displacement tactic that will seize the only shelter of our poorest and most vulnerable residents while offering woefully inadequate alternatives in return.

My alarm is heightened by reports that Supervisors Chan and Melgar seem inclined to accept vague commitments on refuge permits from the Mayor's office, without demanding concrete, permanent housing offers for RV residents. The likely outcome? Families forced onto a knife edge – waiting years for housing while living in constant terror that a single mistake will lead to their home being towed away.

RVs are homes. They provide critical shelter for immigrant families, elderly residents, and disabled San Franciscans. Consider these facts:

Over 1,400 city residents live in their vehicles.

They represent 90% of families experiencing unsheltered homelessness.

Currently, 872 families and 471 adults languish on shelter waitlists.

Existing shelters are often temporary and inadequate – is it any wonder people choose the relative stability of an RV over sleeping on a gym floor only to be ejected at 7 AM?

The Mayor's plan is fundamentally flawed:

No Safe Parking Sites: It is unconscionable that this proven strategy is absent. Safe parking sites meet people where they are, provide stability, and address neighborhood concerns. The City's past failure at Candlestick Point is no excuse, especially when a for-profit RV park operates within SF. If Oakland, San Jose, Fremont, Palo Alto, and Union City can run affordable safe parking programs, San Francisco must do the same.

Inadequate & Counterproductive "Housing" Offers: For residents ready to move indoors, the plan offers insufficient vouchers – far fewer than the number of RVs at risk. Worse, many

vouchers seem to be reallocated from congregate shelters, creating a harmful zero-sum game. Forcing people to trade their permanent, private RV (however imperfect) for temporary rental support is cruel, unproductive, and contradicts best practices. An RV is housing stability.

Punitive Enforcement Priority: The plan starkly reveals its true aim – reducing visible poverty – by allocating equal funding for punitive measures (signage, tows) as for assistance. Unlike the limited vouchers, the 2-hour parking ban is permanent punishment. Using the existence of exploitative "vanlords" to justify mass towing is disingenuous; evicting exploited tenants solves nothing. The real solution to predation is providing permanent, affordable housing.

No one disputes the need for a plan to assist our neighbors living in vehicles. But displacing them via "poverty tows" is not that plan. San Francisco deserves better.

I demand you reject Mayor Lurie's harmful proposal and instead insist on a real strategy that includes:

Immediate establishment of Safe Parking Sites.

Concrete, permanent housing offers for all RV residents who need them.

Reallocating enforcement funding towards these real solutions.

Push Mayor Lurie and his administration to prioritize human dignity over punitive measures. Support our most vulnerable residents, don't criminalize their survival.

Sincerely,
Isa Stefan

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking introduced by Mayor Lurie. This ban targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

There are over 1,400 people in San Francisco living in their vehicles. We are taking away their only form of shelter when we tow their RVs. The City does not have enough shelter beds and capacity to offer to families, people with disabilities, and seniors in need. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

Implementing a citywide RV ban will not solve the housing needs of the people living in them. It won't make them leave the city; it would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

I am an attorney with the ACLU of Northern California, and I write regarding Mayor Lurie's refuge permit proposal and the broader RV ban it supports. The proposed RV ban is short-sighted, immoral, and illegal, and the Board must reject it outright.

It is short-sighted because the problems of homelessness and poverty cannot be solved by banning homelessness and poverty. If the Mayor's plan goes into effect, some people living in RVs may leave, but many more will stay—because they work here, have families here, go to school here, or in some cases, because their RVs are not actually capable of driving. For all such people, the RV ban will accomplish little more than taking their homes and leaving them worse off. Since the Mayor's agenda and City budget forecast do not show a serious resolve to build subsidized and affordable housing, the net result of the RV policy will be more people living on the streets of San Francisco.

The ban is immoral because it targets the most vulnerable members of our society for cheap political gain. People living in RVs in San Francisco are disproportionately immigrants, many undocumented. The federal government is in the midst of a brutal campaign to summarily remove undocumented people, and all immigrants are currently experiencing the fear and animus stirred up by this policy. San Francisco is a sanctuary city because it recognizes the inhumanity of such practices, but the Mayor's RV ban is specifically designed to cast people in RVs out, where they may be preyed upon and where many will suffer arrest and deportation. There is no countervailing public good to justify this outcome. Rather, the Mayor's proposal is a symbolic offering to a rightward drifting electorate that has grown tired of the City's public woes. But in a decent society, the way to bridge the empathy gap is by alleviating suffering through official action—not pandering through acts of cruelty.

Finally, the ban is illegal. In Pacifica, Mountainview, Santa Cruz, and Sebastopol, federal courts have found even less severe RV bans multiply unconstitutional. The Mayor's RV ban likely violates the Eighth Amendment prohibitions on "cruel and unusual punishment" and excessive fines; violates equal protection, amounts to "state created danger," and permits unreasonable seizures in violation of the Fourteenth Amendment; is void for vagueness; violates the fundamental right of freedom of travel; violates analogous provisions of the California Constitution; and violates the federal and state laws protecting persons with disabilities. If the Mayor's ban is challenged in court—and many civil rights organizations are watching—it will fall.

This is not the way to solve the City's problems. The Board must vote no.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

I AM A TAX PAYING RETIRED RN WHO HAS RAISED TWO KIDS IN THIS CITY WHO CANNOT AFFORD TO LIVE HERE. I WORKED AT SFGH SO I KNOW ALL ABOUT WHAT POOR PEOPLE AND IMMIGRANTS FACE HERE....THIS NEW RULE IS NOTHING BUT A CRUEL TOOL TO TRY TO DRIVE PEOPLE OUT OF SF OR TO GIVE UP AND DIE....THERE IS NO EXCUSE FOR SAN FRANCISCO TO JOIN THE SADIST BANDWAGON THAT IS THE CURRENT USA.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one. WHY NOT CREATE SAFE PLACES WHERE VEHICULARLY HOUSED PEOPLE CAN STAY TOGETHER AND BUILD COMMUNITY AND THE CITY CAN PROVIDE POTTIES AND GARBAGE RECEPTACLES....UNTIL PERMANENT SOLUTIONS CAN BE FOUND....THAT IS THE SOLUTION. NOT DISPLACEMENT EVERY TWO HOURS.

Board of Supervisors Public Comment,

I am writing to urge you to reject the Mayor Laurie-backed 2-hour restriction on RV parking. This unfair approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and BIPOC communities are already facing unprecedented attacks from Right, including the federal government.

Towing someone's RV takes away their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks sufficient shelter beds for families, people with disabilities, and seniors. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing. This is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or competing for limited shelter space without pathways to housing.

If you want to help people living in RVs, please focus on providing them with real housing solutions. Towing and displacement helps no one. Thank you for your consideration.

I am in opposition to a city wide RV ban. I live in my RV in San Francisco. I have been here since the 90's. I have had the same PO Box address in SF since 1996. I have worked in SF, paid my taxes in SF and I vote in SF. Just because I don't have a residential address does not mean that I don't live in San Francisco. If you ban me and my motorhome from SF, then I will not even be able to visit SF. Nor will any tourists who come to SF in an RV. Why would you want to make tourists unwelcome in SF? Please vote no.

Thank you

Board of Supervisors Public Comment,

Don't try to wish people in RVs away by making life impossible for them! Make a plan for a safe parking, like many cities are doing, and be grateful they have shelter otherwise they will go by tents (also illegal.).

I have personally helped five homeless people temporarily, and have learned a lot!

Be innovative! And educate your constituents that you will earnestly, little by little take care of this.

Gertrude Reagan

Member, Palo Alto, Quakers

You perhaps have heard of the Peninsula's Hotel de Zink, a 20 year experiment by 12 congregations, each sharing irresponsibility for between 12 and 20 people on the streets to use their facilities, and tiny home, and safe parking projects for RVs.

Subject: Re: the RV Ban - Cybertrucks are < 1 meter under the proposed length limit
Date: Monday, June 16, 2025 4:39:12 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Unless the SFMTA has done physical and objective measurement evaluation and analysis of vehicular length and height effects on curbs, visibility, risk to street trees...the Mayor's RV proposal is purely discrimination based on economic class. Cybertrucks are barely under the proposed length restriction of 22 feet. Sprinter vans are over the proposed height restriction. Are businesses and non profits that use sprinter vans or 15 passenger vans going to be fined? Food trucks? What if I bought a brand new full-price Airstream or refurbished a Westfalia?

Various vehicles' lengths, heights, and widths can be found here: https://url.avanan.click/v2/r01/___https://www.dimensions.com/element/tesla-cybertruck____YXAzOnNmZHQyOmE6bzpmMjMzOGY4ODNIN2RhYTVINzBkMzcyMTY5MzVMzc3Mjo3OmQxNDA6OWM2MDRINmI1MDgzMDVmNGUzODQ4MmQyODcyMmY0NmUxYTRjMzE0NGQ1MmM3NmUxZTJlYjk2ZWVhNTI3ZjFjYzpoOIQ6Tg

As for the vehicle 'buy-back' aspect: this will only be offered to a fraction of the population, and what were the formulas to calculate the cost of compensating for time spent looking for a different vehicle and different housing? Has it been confirmed that the families who might be offered buy-backs have access to bank accounts?

This is simply going to push families into smaller cars as their housing.

The proportion of the budget for this proposal that would go to enforcement rather than actual housing or buy-back amounts should be meticulously reviewed.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from out federal government.

It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working-class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea—it comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

I know this firsthand. During COVID, I was a full-time student at SF State, living in my car on Winston Drive and in the Sunset—areas with the mildest weather to survive in a vehicle. I wasn't alone. I shared those streets with hardworking families and fellow students, many of us working multiple jobs and still unable to afford the rent San Francisco demands. We were contributing to the city, and yet we couldn't afford to live in it. That should tell you something.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities, and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Board of Supervisors Public Comment,

The 2hour RV parking ban will result in more houselessness and suffering for workers and their families. This is a cruel and shortsighted measure which will cost San Francisco more in all ways than accomodating people and families in need of RV parking.

There are a number of locations in San Francisco where overnight and even long-term RV parking can be accommodated. If planned for with adequate services, this need not impact neighbors!

Since there is not enough deeply affordable permanent housing to go around, this will keep people and families who live in RVs because they cannot afford market rate rent from displacing other people and families who need this housing.

Well run RV parking areas might also have additional spaces that available on a daily ir weekly basis for tourists traveling in RVs. Perhaps serving traveling tourists could be a source of jobs and income.

Let us think outside the box and take care of these low income people in need. Cruel and shortsighted solution like the 2 hour parking limit is not who we are as San Franciscans.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

Individuals residing in RVs are not going to vanish or exit the city entirely; enforcing a citywide prohibition would merely drive them into tents and exacerbate instability. In the absence of sufficient housing options, this strategy will lead to an increase in those living on the streets or remaining in shelters without viable routes to permanent housing.

If you want to help people living in RVs, focus on providing them with real housing options. Towing and displacement helps no one.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from out federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

RVs are homes for people who have found a way to manage for themselves--they are NOT homeless! Please find a way to support them in a sustainable location and manner as mUrban Alchemy does, rather than take away their self-reliance and make their situation more dire.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

per 40 Supreme Court citations and a handful of LAWS from my book "Vehicle Dwellers Legal Primer" pulled

Looking forward to proving the Constitution has already asked and answered the Gypsy Question.

Downloaded and analyzed the new legislation and the accompanying FAQs. Thus I pulled together the way I intend to defeat this.

In the meantime, please don't forget to put me on the list as having applied 9.30pm June 10, 2025 for the ridiculous RV "refuge" permit. I fully intend to grandfather my former case plan in, as it was March 3, 2025. Last words from Cody Eliff, ADA liaison, was he was waiting on the new mechanic to be approved. That guy didn't work out but here is Henry Borrer, also former resident at Camp Dismal, the Vehicle Triage Center. He can finish the work. I get smogged. Tickets are cleared on both RV and SUV. DMV for RV (already did the SUV in April). Then I can move into a normal, legal, ADA-accessible, out-of-county RV park. Let's get ONE of the 437 off the street. I have been trying to go since Nov 16, 2020.

See in court about the past four-and-half years denial-by-delay in the case plan funding in an effort to ascertain what the HSH and non-profits half-a-million dollars expenditure on my "care" did to help or hurt me.

Only thing that gets you out of this mess --- and winning the case in mind in the public (which matters) --- is to figure out where a couple dozen sliding-scale, solar-powered RV parks are going to be situated in the Park and Rec system.

HSH hurt by way of toxic lead-laced soil storage blowing on 130 people and their pets plus at least 20 staff from Urban Alchemy and BVHPF (numbers were NEVER what the grants said far, far less in fact). That doesn't go away. It's going to have to be dealt with.

That price is, as stated on Jan 22, 2025 in my administrative claim, among other things, is the conversion of 10% of Park and Rec into sliding-scale solar-powered RV parks open to ALL class of vehicle dwellers.

Also recognition of June being Gypsy Roma Travellers a heritage month, like it is in the UK.

And kill SFPD 97 in its entirety.

Sincerely,
Ramona Mayon
(union organizer for Vehicle Dwellers/ San Francisco/ local #437)

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

In 2016, Trump presented himself at the Republican National Convention as the "law and order" candidate. As president, Trump attacked the press. Trump tried to find dirt on his political opponent Joe Biden. Trump later resorted to "dirty tricks" to unfairly influence the outcome of an election he was afraid he might lose when he asked elected officials to find nonexistent votes in Georgia.

And Trump's words incited the Insurrection where his followers were trying to prevent the results of the 2020 election from being certified... all contrary to the principles upon which our republic was founded. Nixon's "imperial presidency" pales in comparison. I don't think Trump was being lighthearted when he said in an interview, if re-elected, he'd be a dictator from day one.

The Democratic Party platform should support: Animal Rights, Defending the Affordable Care Act, Ending Citizens United, Ending Marijuana Prohibition, Giving Greater Visibility to Pro-Life Democrats, Gun Control, Net Neutrality, Raising the Minimum Wage to \$15 an Hour, Responding to the Scientific Consensus on Global Warming, and a Sustainable Energy Policy. Democrats for Life of America, 10521 Judicial Drive, #200, Fairfax, VA 22030, (703) 424-6663

It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

Having been employed at Larkin Street Youth Services for 6 years, working in the Tenderloin, and living in the Mission District, I am intimately familiar with the scope of the city's experience with homelessness and its already strained resources. In my role as a therapist at Larkin Street Youth Services for 5 of those years, I have had firsthand experience working with and supporting people whose ability to sleep in their RV/car was the primary factor in enabling them to go to work, go to school, coordinate with their case managers, and engage with therapy and treatment. We would of course rather have people in housing than sleeping in vehicles, but this policy actually makes that goal more difficult to achieve. We already do not have enough shelters, housing, subsidies, housing navigators, and programs to meet our current homeless populations' needs. Removing people's access to this life-saving and life-changing shelter will cause more homelessness which will only further strain our homelessness response system. It will also cause people to lose the ability to engage in the change they need in order to find stable housing.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

Board of Supervisors Public Comment,

Please reject the two-hour restriction on RV parking proposal introduced by Mayor Lurie. The approach targets working-class San Franciscans and punishes people just trying to survive in this city. It is not only a tired and recycled idea—it comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant number of shelter beds and capacity to offer families, people with disabilities, and seniors when they are seeking it. The 2024 Point-In-Time Count indicated 90 percent of families experiencing unsheltered homelessness live in their vehicles. There are over 850 people currently on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city. Implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan would result in more people living on the streets or stuck in shelter without pathways to housing.

Please focus on providing folks with real housing solutions if you want to help people living in RVs. Towing and displacement helps no one.

Board of Supervisors Public Comment,

Hello,

I am deeply worried about the effect of a proposed parking legislation on our city's unhoused population. As a healthcare professional, I already see the immense tolls taken by homelessness and exposure to the elements experienced by sleeping on the streets. I fear the proposed parking restriction will only cause more unhoused individuals to sleep on the streets, further burdening our already strained health and shelter systems.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. This approach, which targets working class San Franciscans and punishes people just trying to survive in this city, is not only a tired and recycled idea. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

When people's RVs are towed, they lose their only form of shelter. There are over 1,400 people in San Francisco living in their vehicles, and the City lacks a significant amount of shelter beds and capacity to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into tents and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Subject: the RV Ban will increase homelessness~~ REJECT IT PLEASE
Date: Friday, June 27, 2025 3:36:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I am Patricia de Larios, a small business owner in North Beach, and Treasurer of the San Francisco Community Land Trust. I am also a San Francisco native, with children and grandchildren who were born and who thrive here.

The 2-hour restriction on RV parking must be rejected.

With my expertise in the affordable housing/anti-displacement arena, I can assure you that without livable and appropriate housing available for people living in their RVs, there will be no other option than to live on the streets. ("shelters" are not an option.)

People across the city will be harmed by the increase in street homelessness. Anger and hostilities will be aggravated, and violence may result.

In the larger hostile political climate, this proposed plan comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Many of the RV residents are in that category. The plan to punish and displace these communities is inhumane.

Thank you very much for considering.

Patricia de Larios
de Larios Peyton Investigations

Dear Board of Supervisors,

My name is Sally Nelson and I live in the Mission (District 9). I am writing to implore you to please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

I have had my car towed and it was an unbelievable financial burden and personal stressor. I cannot even imagine how significantly it would have impacted me had my vehicle also been my residence. I know community members and friends who rely on RVs and vehicles for residence due to the lack of affordable housing in the city. It is unacceptable to fail to provide affordable housing to our community *and* punish people and make people homeless when they find creative solutions for housing.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the **over 1,400 people living in their vehicles** in San Francisco. The 2024 Point-In-Time Count found that **90% of families experiencing unsheltered homelessness live in their vehicles**. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted **437 occupied large vehicles** in May 2025, yet **only 65 new rapid rehousing subsidies are being made available as part of this plan and only 115 are being set aside overall**. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after 6, or at most 12, months regardless of whether an appropriate offer of services has been offered. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds

of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will **waste already limited SFMTA and SFPD resources**, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,

Sally Nelson

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

My name is Ben, and I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Benjamin
California

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Julian
California

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident in District 5, writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking.

RVs are homes for my neighbors. They are a last resort, especially given how overrun the shelters are here. There are 800+ people on the family shelter waitlist how would adding the thousand some living RVs work out? Where are these people living and working from their RV's going to go?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Safe parking sites allow some middle-ground, addressing complaints about street conditions but without stripping housing from our neighbors and community member. Oakland, San Jose, Fremont, Palo Alto, and Union City all run safe parking sites affordably--it is absolutely possible in SF.

To me it seems Mayor's plan prioritizes reducing visible poverty over addressing the underlying causes of these problems. The 2-hour parking ban is sweeping people under the rug in a way that will ruin people's lives. The real issue here is a lack of permanent, affordable housing in the city, displacing a thousand more people is not going to help with that.

Please push Mayor Lurie to address the real issue here, one that includes safe parking sites and a longer term plan for affordable housing in the city.

Sincerely,
BC Richardson

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident and UCSF medical student writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

As a student and healthcare worker at San Francisco General Hospital, I work day in and day out with San Franciscans who are forced to rely on their RVs for shelter - many strive to move to permanent housing, but in the meantime, their RVs are quite literally lifesaving by creating a safe place to sleep and a place to safely store critical medications.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the

Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Eva Kitlen
UCSF Medical Student

Subject: Reject RV Ban
Date: Wednesday, July 2, 2025 4:48:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

Please reject the 2-hour restriction on RV parking introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes.

This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the **over 1,400 people living in their vehicles** in San Francisco. The 2024 Point-In-Time Count found that **90% of families experiencing unsheltered homelessness live in their vehicles**. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted **437 occupied large vehicles** in May 2025, yet **only 65 new rapid rehousing subsidies are being made available as part of this plan and only 115 are being set aside overall**. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months regardless of whether an appropriate offer of services has been offered. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will **waste already limited SFMTA and SFPD resources**, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. We believe towing and displacement helps no one.

Thank you,

The Harvey Milk LGBTQ Democratic Club

Subject: Reject RV Ban - Will Increase Street Homelessness
Date: Thursday, July 3, 2025 3:47:23 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Tess Gibbs and I live and work in San Francisco.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

This proposal would waste resources while the SFMTA is suffering financially. At a time when we are trying to avoid cuts to services, the MTA shouldn't be spending money and staff time on such harmful, counterproductive enforcement. This proposal includes \$3 million for signage and enforcement by the Municipal Transportation Agency alone!

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the **over 1,400 people living in their vehicles** in San Francisco. The 2024 Point-In-Time Count found that **90% of families experiencing unsheltered homelessness live in their vehicles**. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident (94110) writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and >>contrary to established research<>by providing permanent, affordable housing<<.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Jennifer
California

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

AA

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a District 1 San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering wholly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't

how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

We refer to our unhoused neighbors as "homeless." RVs are homes for those without other options. This legislation contributes to the problem and solves nothing. The solution to homelessness is HOMES.

Sincerely,

Laura
California

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

Don't want people in RV's parked on the streets? Provide safe parking places and services. Do not pretend that shuffling RV's from one parking place to another is providing people with a safe place to live. Do not pretend that offering a few inadequate temporary homes to RV dwellers is a solution. Provide safe parking and services for RV dwellers until real housing is available.

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

Budget Clerk Brent Jalipa,

Board of Supervisors,

I'm a San Francisco resident writing in opposition to the proposed RV ban. In an era where we're seeing an increased housing shortage, staggering rent increases, and wages that aren't keeping pace, telling people that they can't stay here is unconscionable. It's passing the issues on to some other city instead of dealing with the issues and allowing these people to continue to call our city home.

These people are enough fortunate to have a roof over their heads, but this proposal will tell them that they aren't welcome anyways just because they don't have a fixed address. Instead, we should find a way to accommodate them while solving of parking and residency by building a dedicated area for RV parking. Unhoused folks know how it feels to be unwanted every day, and I would have hoped a mayor that used to run a non profit to combat homelessness would understand that. Let's get these people some space and allow them the dignity they're so often denied.

Sincerely,
Jason Swan

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Jennifer

Subject: Public comment for Budget and Finance Committee hearing discussion of File #250655
Date: Monday, July 7, 2025 2:32:14 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello,

I am a resident of the Mission District and I'm writing to submit my public comment regarding File #250655, the ordinance amending Division I of the Transportation Code. I urge the Board to reject the proposed RV parking ban.

Passing this ban will only punish people already living at the margins, trying to survive safely in our city. Those who have an RV towed will likely not be able to afford to retrieve it, resulting in the need for shelter services. The combination of the family shelter waitlist and the adult shelter waitlist is more than 1000 people deep. We do not have sufficient shelter services - an RV parking ban will significantly increase demand, ultimately increasing street homelessness.

The ordinance will also result in some people being pushed to another county - which may be far from jobs, family, or other important resources that actually can lead to positive change.

This passage of this ordinance will do harm with no benefits to the housed residents of our city. Please do not pass this harmful ordinance.

Respectfully,
Amanda Fanniff

Subject: File Number 250655 Vote NO on RV Ban aka Mayor Lurie's "Breaking the Cycle" Plan
Date: Monday, July 7, 2025 6:45:05 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor Sauter,

How do you define "home"? Is it a feeling, an item, or something else? What does "home" mean to you? Research studies in the disciplines of history, anthropology, sociology and psychology on the definition and meaning of "home" found a variety of meanings.

As a resident of San Francisco District 3, I urge you to oppose Mayor Lurie's new \$13 million proposal "Breaking the Cycle" that will restrict long-term parking of recreational vehicles to two hours 24/7 citywide. While San Francisco claims to have a housing shortage, the reality is a shortage of affordable housing. Mayor Lurie implies that people who live in recreational vehicles are "unhoused" or "unsheltered". But recreational vehicle owners believe otherwise in that it provides shelter, one of the foundational physiological human needs for behavioral motivation. Many are resourceful community members that contribute to the City's economy through work, local purchases, and tax payments that affords the purchase of their recreational vehicles fulfill human safety and degrees of privacy needs. John Ramos, CBS News Reporter, interviewed a recreational vehicle owner who has been on a list for housing for years but never gets called. (See [video and article](#).) According to the Healthy Streets Operation Center, in May 2025 there were 437 large vehicles used as dwellings, yet the \$13 million would cover 65 rapid rehousing subsidies and buying 100 vehicles. What happens to the remaining 300+ dwellers?

In addition, my understanding of "rapid rehousing" means possible housing somewhere in the Bay Area but no more than 2.5 hours from San Francisco. But what if the dwellers work in San Francisco? If San Francisco buys their recreational vehicles and housing is over an hour away, how are the dwellers to get to their jobs?

Has the administration asked recreational vehicle owners about their authentic experiences, concerns, opinions, and suggestions? What are their stories? Why was the, now closed, Bayview Vehicle Triage Center at Candlestick Point so costly? Since the site was installed with bathrooms, showers, and electricity, how could the costs and issues be better addressed? Perhaps consider a mobile home park open to more than 35 slots... There are many questions that ought to be addressed. Lurie's proposal will only increase the number of unsheltered people. Please consider the dignity of the recreational vehicle owners and their families. Thank you for your time and consideration.

Respectfully,
Lily

Statement From Market Zone Working Group RE # 250655 - Large and Commercial Vehicle Parking Restrictions

The Market Zone Working Group, a coalition of property owners, businesses, and non-profits in the Market Zone area of Bayview Hunters Point, has been working since 2021 to improve street conditions of our underserved corner of D10. The Market Zone plays a vital role in supporting San Francisco's economic diversity and resilience by providing space for essential businesses that create local jobs.

However, the increasing number of RVs has significantly impacted the functionality and safety of our neighborhood, particularly for employees who come to work during off hours. Large vehicles severely limit parking availability for employees and customers, impact safety and security, and create logistical challenges for the day-to-day operations of our businesses. We appreciate the efforts being made by the Mayor and city staff in developing a compassionate and practical response to this complex issue. The proposed pilot program to address long-term RV parking on city streets appears to be a thoughtful and comprehensive step forward. Importantly, it recognizes not only the need to restore public safety, street accessibility, but also the urgent need to provide a pathway to stable, long-term housing for those currently living in vehicles. As a working group, our efforts also include being fully supportive of the Bayshore Navigation Center (Jerrold & Bayshore), the Bayview Navigation Center (Evans) as well as The Commons (Jerrold) that are located within the Market Zone.

We strongly support this legislation and are hopeful that its implementation will bring measurable improvements to the Market Zone, while advancing broader goals of safety, and housing stability across the City.

Chair of the Budget & Finance Committee, Supervisor Chan
San Francisco Board of Supervisors

Re: File #250655 RV Legislation – OPPOSE

Dear Supervisors,

As the Race & Equity in all Planning Coalition (REP-SF), we are writing with deep concern and opposition to the legislation banning RVs from San Francisco by imposing citywide two-hour parking restrictions on large vehicles. This legislation will harm many immigrant community members who live in RVs and will negatively impact the homelessness response system, potentially increasing street homelessness.

REP-SF envisions a San Francisco that empowers historically marginalized communities in housing justice and equity in land use. This legislation is in direct opposition to this vision. People of color, immigrants, extremely low-income residents, seniors, and people with disabilities make up most, if not all, of the people living in RVs. During this time of increased enforcement and anti-immigrant sentiment, immigrants are especially vulnerable. Given current challenges and fears, it is unrealistic to expect immigrant households to trust City workers or feel comfortable interacting with government assistance – but if households are not available to talk to City workers, they will be vulnerable to towing. If households are able to get a permit and access to resources, the available options are largely inappropriate for their needs. The housing resources set aside in this plan are time-limited subsidies, which are often very difficult for extremely low-income, immigrant and undocumented households to succeed in given that they are expected to double or triple their income by the end of the subsidy – otherwise they return to homelessness. There are also alternatives we should be advancing, including setting up safe parking sites for RV residents and those living in vehicles, and finding new revenue sources to add housing options for RV residents.

As advocates for equitable housing access, we are disturbed by the ripple effects this legislation will have on the affordable housing and homelessness response systems. For those living in RVs who are able to receive a permit, most will only have up to 12 months to get an offer of housing or non-congregate shelter. We know that it can often take much longer than a year to successfully be housed or even get non-congregate shelter. This leaves many households

vulnerable to towing and subsequent street homelessness. Further, there are not enough housing subsidies or shelter spots for everyone who needs and wants these resources. The City must be honest about this shortage of resources and pragmatic about the allocation of limited housing and shelter options. If RV households are prioritized over all other households because of the pressures of the looming RV ban, resources will be diverted away from families and adults on the streets and in shelters. Hundreds of families and single adults are on the shelter waitlists, and even more are on the street.

All people deserve housing, but this approach to housing people is not informed by justice and equity. We need to expand the deeply affordable housing available to our communities so that we are not pitting different groups of people experiencing homelessness against each other. We must listen to the communities most impacted by housing insecurity and homelessness and provide housing, not punishment and increased instability.

We need real solutions to address the affordability crisis in our city. This legislation does not help us in this effort. We are urging you to oppose the legislation.

Sincerely,

The Race & Equity in all Planning Coalition, San Francisco (REP-SF)

Subject: Large and Commercial Vehicle Parking Restrictions: Oppose Item #13
Date: Monday, July 7, 2025 11:38:52 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

My name is Calder Lorenz, I am the Director of Operations for The Gubbio Project and a San Francisco resident. Please reject the 2-hour restriction on RV parking. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

The Gubbio Project's mission is to be in community with and to provide a sacred space and sanctuary for unhoused people in need of safe, compassionate respite during the day. Our program is housed at St. John's in the Mission and currently provides critical services to 100 individuals daily through a highly unique and successful model that combines social justice, peer support, and harm reduction. The Gubbio Project calls for a more just, compassionate and non-punitive approach by public agencies and policymakers.

We currently serve both guests and staff that have no other option but to live in their RVs, until more equitable access to housing is available here in the City, their biggest safety net is their vehicles and they cannot pay fines and fees or risk losing their employment due to tickets or being towed or losing access to vital community and services.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the **over 1,400 people living in their vehicles** in San Francisco. The 2024 Point-In-Time Count found that **90% of families experiencing unsheltered homelessness live in their vehicles**. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted **437 occupied large vehicles** in May 2025, yet **only 65 new rapid rehousing subsidies are being made available as part of this plan and only 115 are being set aside overall**. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they

missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after 6, or at most 12, months regardless of whether an appropriate offer of services has been offered. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will **waste already limited SFMTA and SFPD resources**, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

In Community,

Calder

It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Layne

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident and city employee writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

RE: Opposition to agenda item 13 - Large and Commercial Vehicle Parking Restrictions, Citywide RV Ban

Dear Chair Chan and Supervisors Dorsey & Engardio,

Mayor Daniel Lurie's legislation to restrict oversized vehicle parking on all city streets for more than two hours, essentially creating a citywide ban on vehicles being used as housing, is deeply concerning to us at the San Francisco Bicycle Coalition. It goes against our core value of transportation justice and perpetuates a destructive approach to an already marginalized community.

This plan focuses on an enforcement first approach rather than providing the proper resources that every San Franciscan should expect of their city government. Enforcement-first policies target and over penalize marginalized communities and don't resolve the root of the problem. If this plan gets implemented as is, it will result in towing and displacement, leading to more people living on the streets. It will not result in safer streets.

In our work with the End Poverty Tows Coalition, we saw firsthand how the City's inability to address vehicular homelessness impacts street safety projects. The southbound lane between Middlefield Dr and Brotherhood Way in the Lake Merced Blvd Quick-Build remains incomplete because a safe relocation site has not been identified for people living in their vehicles – an effort since abandoned. Only a few of the RV residents around Lake Merced received help from the City, most of them scattered across SF and remain unsettled.

If our city leaders continue to put forward bad faith solutions that don't resolve the root cause, we will continue to face roadblocks to street safety and transportation projects. An RV ban won't resolve these problems and may in fact exacerbate them. We need real efforts to provide secure and long-term housing that help people get off the streets permanently, and more funding for programs that prevent people from becoming unhoused. That's how the City can make our streets safer, not criminalizing poverty through mass displacement.

As transportation advocates, we stand against inadequate policies that create instability and perpetuate harm in the name of safe streets. The San Francisco Bicycle Coalition urges the Board of Supervisors Budget and Finance Committee to oppose the citywide 2-hour parking restrictions for oversized vehicles.

Respectfully,

Subject: Reject RV Ban - Will Increase Street Homelessness
Date: Tuesday, July 8, 2025 11:02:15 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Mags and I live in the Mission District of San Francisco.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort *will increase street homelessness*. This approach targets working class San Franciscans and punishes people just trying to survive in a city with unlivable rent costs and constant systemic gentrification. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

The San Francisco local government so often prides itself in protecting its citizens, yet here we are, facing another oppressive and shortsighted piece of legislation. Before public school budget cuts I held a position in social work at SFUSD. I worked primarily with elementary-aged students who need extra social/emotional support. During that time, I met several families who had lived or were currently living in vehicles. Their security to a parking space allowed these children a slice of consistency -- something they would lose completely entering the publicly "provided" houseless resources in San Francisco. For some of the families, their vehicular homes worked as a stepping stone to finding more permanent housing. If this proposal comes into fruition hundreds of folks will be put on an excessively long shelter waitlist where they may or may not acquire temporary housing (872 people in 295 families on the family shelter waitlist and 471 individuals on the adult shelter waitlist).

It devastates me that the SF local government is allowing for such heinous legislation to be considered, especially without any resources to support the aftermath. Especially, especially during a time in which we *have* to be caring for each other.

Please **reject** Lurie's proposed proposition to place a 2-hour restriction on RV parking. It is ignorant, inconsiderate, and will only further jeopardize families in San Francisco.

Thank you for your time and consideration.
Mags

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I am outraged over the plan to "evict" vehicles which are being used for housing by those who have no where else to sleep. When there are not actual homes which can be made available through public access it is the height of hypocrisy and disinterested oblivion for housed people to make things even worse for unhoused people.

Whether we all agree that the bottom has fallen out of our social and economic networks for a growing number of Americans we should certainly be able to agree that punishing people least able to lift themselves up is the "right" way to deal with the problem.

No one wants to see people unhoused or sleeping on the street, on that we can agree. But "solving" the problem by inhuman denial of the humanity of those people makes us all less human whether we see it or not.

Chair of the Budget & Finance Committee, Supervisor Chan
San Francisco Board of Supervisors

Re: File #250655 RV Legislation – OPPOSE

Dear Supervisors,

As the Race & Equity in all Planning Coalition (REP-SF), we are writing with deep concern and opposition to the legislation banning RVs from San Francisco by imposing citywide two-hour parking restrictions on large vehicles. This legislation will harm many immigrant community members who live in RVs and will negatively impact the homelessness response system, potentially increasing street homelessness.

REP-SF envisions a San Francisco that empowers historically marginalized communities in housing justice and equity in land use. This legislation is in direct opposition to this vision. People of color, immigrants, extremely low-income residents, seniors, and people with disabilities make up most, if not all, of the people living in RVs. During this time of increased enforcement and anti-immigrant sentiment, immigrants are especially vulnerable. Given current challenges and fears, it is unrealistic to expect immigrant households to trust City workers or feel comfortable interacting with government assistance – but if households are not available to talk to City workers, they will be vulnerable to towing. If households are able to get a permit and access to resources, the available options are largely inappropriate for their needs. The housing resources set aside in this plan are time-limited subsidies, which are often very difficult for extremely low-income, immigrant and undocumented households to succeed in given that they are expected to double or triple their income by the end of the subsidy – otherwise they return to homelessness. There are also alternatives we should be advancing, including setting up safe parking sites for RV residents and those living in vehicles, and finding new revenue sources to add housing options for RV residents.

As advocates for equitable housing access, we are disturbed by the ripple effects this legislation will have on the affordable housing and homelessness response systems. For those living in RVs who are able to receive a permit, most will only have up to 12 months to get an offer of housing or non-congregate shelter. We know that it can often take much longer than a year to successfully be housed or even get non-congregate shelter. This leaves many households

vulnerable to towing and subsequent street homelessness. Further, there are not enough housing subsidies or shelter spots for everyone who needs and wants these resources. The City must be honest about this shortage of resources and pragmatic about the allocation of limited housing and shelter options. If RV households are prioritized over all other households because of the pressures of the looming RV ban, resources will be diverted away from families and adults on the streets and in shelters. Hundreds of families and single adults are on the shelter waitlists, and even more are on the street.

All people deserve housing, but this approach to housing people is not informed by justice and equity. We need to expand the deeply affordable housing available to our communities so that we are not pitting different groups of people experiencing homelessness against each other. We must listen to the communities most impacted by housing insecurity and homelessness and provide housing, not punishment and increased instability.

We need real solutions to address the affordability crisis in our city. This legislation does not help us in this effort. We are urging you to oppose the legislation.

Sincerely,

The Race & Equity in all Planning Coalition, San Francisco (REP-SF)

To: [Board of Supervisors \(BOS\)](#)
Subject: Vote No on the RV Ban - Will Harm Immigrants and Increase Street Homelessness
Date: Monday, July 7, 2025 4:15:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Marie

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Affordable Housing!
Date: Monday, July 7, 2025 3:57:44 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering inadequate services in return, as a best-case scenario.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is reliable, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently invoke the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, punishing

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and the oligarchs he represents to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Ryan

Board of Supervisors Public Comment,

You can not add on more and more penalties against the people just trying to survive in this place without having an option to shelter them. Period.

SFMTA makes enough money siphoning from people just trying to live and work in the city. Folks without a place to sleep need these RVs. Can you at least give a 48 hour limit or something that lets people move but still get enough time to rest?

What is your goal here? Where do the people go after you tow their homes away? Unless you answer that in your proposed legislation then youre just exacerbating the problem more and kicking the can down the line to SEEM like you are doing something. You're human too

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking.

I have spent the past 20+ years working alongside vulnerable groups around the world, including the past 8+ years getting to know many unhoused San Franciscans, many of whom rely on their vehicle as their primary asset and only form of shelter. As such, I believe that this ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

Board of Supervisors Public Comment,

We must completely reject reject the 2-hour restriction on RV and large vehicle parking. This ban is a massive attack on working class people from all walks of life here in San Francisco. It will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from out federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Board of Supervisors Public Comment,

Stop criminalizing being poor in San Francisco. It is San Francisco government policy that allows for this wealth disparity. When some people are making 100s of dollars an hour and some of us are making minimum wage and to get into a home affordable housing is quite literally like winning the LOTTERY. My family used to live in an RV right across the street from our house which we owned. We lived in a 1 bedroom with my mother, stepfather, 3 siblings, and my grandmother. Our RV gave us room to breathe. It is not just homeless people that use RVs. If rich people can own fancy RVs and take them on vacations why can't we own ours? Regardless of how a person uses their RV- banning RVs is not going to disappear homelessness in San Francisco. We need investment into workforce development and food subsidies. There is a reason why businesses are thriving in San Francisco and it's because San Franciscans can't afford San Francisco anymore.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Jessie Fernandez with PODER .Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the over 1,400 people living in their vehicles in San Francisco. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted 437 occupied large vehicles in May 2025, yet only 65 new rapid rehousing subsidies are being made available as part of this plan and only 115 are being set aside overall. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months regardless of whether an appropriate offer of services has been offered. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will waste already limited SFMTA and SFPD resources, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,

--

Jessie Fernandez (e/h/him)

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

To Supervisors Connie Chan and Joel Engardio, I am a graduate student at the University of San Francisco (which is located within your districts. The St. Anne's Law School dormitory is located in Supervisor Engardio's district) and it would be very disappointing if you voted YES on this RV ban. In a 2019 UCLA study, 5% of students surveyed across the University of California system reported living in a vehicle during college. Anecdotal evidence and campus media suggest that RV living is more common at colleges in high-cost urban areas like the University of California, Santa Cruz (UC Santa Cruz), Stanford University, San Francisco State University, and Santa Monica College to name a few. High housing costs drive students to seek alternative living arrangements. For instance, the median rent for a studio apartment in the Bay Area is \$2,000 per month, while RV parks (if accessible) range between \$500 to

\$1,200 per month.

Subject: Large and Commercial Vehicle Parking Restrictions: Oppose Item #13
Date: Monday, July 7, 2025 11:38:57 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

My name is Calder Lorenz, I am the Director of Operations for The Gubbio Project and a San Francisco resident. Please reject the 2-hour restriction on RV parking. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

The Gubbio Project's mission is to be in community with and to provide a sacred space and sanctuary for unhoused people in need of safe, compassionate respite during the day. Our program is housed at St. John's in the Mission and currently provides critical services to 100 individuals daily through a highly unique and successful model that combines social justice, peer support, and harm reduction. The Gubbio Project calls for a more just, compassionate and non-punitive approach by public agencies and policymakers.

We currently serve both guests and staff that have no other option but to live in their RVs, until more equitable access to housing is available here in the City, their biggest safety net is their vehicles and they cannot pay fines and fees or risk losing their employment due to tickets or being towed or losing access to vital community and services.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the **over 1,400 people living in their vehicles** in San Francisco. The 2024 Point-In-Time Count found that **90% of families experiencing unsheltered homelessness live in their vehicles**. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted **437 occupied large vehicles** in May 2025, yet **only 65 new rapid rehousing subsidies are being made available as part of this plan and only 115 are being set aside overall**. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they

missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after 6, or at most 12, months regardless of whether an appropriate offer of services has been offered. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will **waste already limited SFMTA and SFPD resources**, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

In Community,

Calder

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Elise

An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Linda Barber

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Board of Supervisors,

I'm a San Francisco resident writing in opposition to the proposed RV ban. In an era where we're seeing an increased housing shortage, staggering rent increases, and wages that aren't keeping pace, telling people that they can't stay here is unconscionable. It's passing the issues on to some other city instead of dealing with the issues and allowing these people to continue to call our city home.

These people are enough fortunate to have a roof over their heads, but this proposal will tell them that they aren't welcome anyways just because they don't have a fixed address. Instead, we should find a way to accommodate them while solving of parking and residency by building a dedicated area for RV parking. Unhoused folks know how it feels to be unwanted every day, and I would have hoped a mayor that used to run a non profit to combat homelessness would understand that. Let's get these people some space and allow them the dignity they're so often denied.

Sincerely,
Jason Swan
Mission Dolores resident

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. Board of Supervisors Public Comment,

Supervisor:

I share all the sentiments here.

Anyone who supports this ban supports racism!

Harry S. Pariser

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking.

If mayor Lurie wants to continue depriving poor people of the last spaced they can try to live, he should pay for their housing himself.

The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping

people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Claire

Subject: Vote No on the RV Ban - Will Harm Immigrants and Increase Street Homelessness
Date: Saturday, July 5, 2025 1:59:21 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

I am President of SF Tenants Union Board asking you to please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Sincerely,

Anastasia Yovanopoulos

Subject: Reject RV Ban - Will Increase Street Homelessness
Date: Thursday, July 3, 2025 3:47:23 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Tess Gibbs and I live and work in San Francisco.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

This proposal would waste resources while the SFMTA is suffering financially. At a time when we are trying to avoid cuts to services, the MTA shouldn't be spending money and staff time on such harmful, counterproductive enforcement. This proposal includes \$3 million for signage and enforcement by the Municipal Transportation Agency alone!

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the **over 1,400 people living in their vehicles** in San Francisco. The 2024 Point-In-Time Count found that **90% of families experiencing unsheltered homelessness live in their vehicles**. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted **437 occupied large vehicles** in May 2025, yet **only 65 new rapid rehousing subsidies are being made available as part of this plan and only 115 are being set aside overall**. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months regardless of whether an appropriate offer of services has been offered. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will **waste already limited SFMTA and SFPD resources**, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement helps no one.

Thank you,

--

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident in District 5, writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking.

RVs are homes for my neighbors. They are a last resort, especially given how overrun the shelters are here. There are 800+ people on the family shelter waitlist how would adding the thousand some living RVs work out? Where are these people living and working from their RV's going to go?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Safe parking sites allow some middle-ground, addressing complaints about street conditions but without stripping housing from our neighbors and community member. Oakland, San Jose, Fremont, Palo Alto, and Union City all run safe parking sites affordably--it is absolutely possible in SF.

To me it seems Mayor's plan prioritizes reducing visible poverty over addressing the underlying causes of these problems. The 2-hour parking ban is sweeping people under the rug in a way that will ruin people's lives. The real issue here is a lack of permanent, affordable housing in the city, displacing a thousand more people is not going to help with that.

Please push Mayor Lurie to address the real issue here, one that includes safe parking sites and a longer term plan for affordable housing in the city.

Sincerely,
BC Richardson

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco resident and UCSF medical student writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

As a student and healthcare worker at San Francisco General Hospital, I work day in and day out with San Franciscans who are forced to rely on their RVs for shelter - many strive to move to permanent housing, but in the meantime, their RVs are quite literally lifesaving by creating a safe place to sleep and a place to safely store critical medications.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Chris

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Dear Board of Supervisors,

Please reject the 2-hour restriction on RV parking introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes.

This approach targets working class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer the **over 1,400 people living in their vehicles** in San Francisco. The 2024 Point-In-Time Count found that **90% of families experiencing unsheltered homelessness live in their vehicles**. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted **437 occupied large vehicles** in May 2025, yet **only 65 new rapid rehousing subsidies are being made available as part of this plan and only 115 are being set aside overall**. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months regardless of whether an appropriate offer of services has been offered. Then households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will **waste already limited SFMTA and SFPD resources**, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. We believe towing and displacement helps no one.

Thank you,

The Harvey Milk LGBTQ Democratic Club

Housing heals, towing and displacement helps no one.

It's time the people in positions of power actually have some real empathy for those not born into wealth, those struggling with mental and physical health issues, those seeking asylum from violence, those who actually need real help. It's time the people who claim to be representatives of the people actually LISTEN TO THEM, and to BE THEIR VOICE. Shame on Daniel Lurie, a BILLIONAIRE HEIR, for trying to snatch away what little our most vulnerable communities have left. And shame on all who are contributing or complicit to this cruelty, simply to climb the political or financial ladder, for whatever selfish reasons you're somehow justifying. Where do you want the lower class to go? Do you just want them all to die so you don't have to experience the nuisance of their existence? I know that's not true since they do all the jobs you rich folk feel you're too superior for. They grow, cook, and serve your food,

they drive you around, they care for YOUR CHILDREN, they basically take care of everything for you. When will you compensate the ESSENTIAL WORKERS fairly for their labor? Where does it end? When will it be enough? When will you all be satisfied and stop taking taking taking?

Board of Supervisors Public Comment,

This ban won't help the issue, or the people. Why continue to criminalize people trying to live instead of going after the ones causing people to live out of their vehicles? Actually do something important and write legislation to stop corps from buying property. Stop building luxury condos, stop allowing rent prices to be inflated by the greed of the already wealthy. Do something useful for once instead of attacking the people that work in the city and give it the life it has.

Dear Supervisor,

I am a constituent of District 8 and a long time SF resident.

I am writing to protest upcoming RV bans proposals.

We already have too many families living on the streets!

It seems unnecessarily cruel to remove folks who are barely scraping by from their protection of an RV as a shelter.

Please do the right thing.

Vote AGAINST further restrictions of RV parking.

Thank you.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Board of Supervisors Public Comment,

I am a physician in the community who cares deeply about the homelessness crisis in the city and the RV ban would worsen this significantly. The people in RVs are not going to simply pack up and leave the area: they're going to be driven to street homelessness, which is a threat to their safety as well as the safety and cleanliness of the city at large. This is a shameful proposal from a candidate that purports to make homelessness his key issue. Put some actual funding into homeless shelters instead of trying to enforce this please and make the city a safer space.

Ishaan

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Affordable Housing!
Date: Tuesday, July 8, 2025 8:02:21 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident and city employee writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Andrea Yeager

Subject: Reject RV Ban - Will Increase Street Homelessness
Date: Monday, July 7, 2025 10:46:33 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

My name is Matthew Boguske in Lowville, NY. Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers of housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort will increase street homelessness. This approach targets working-class San Franciscans and punishes people just trying to survive in this city. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

If people's RVs are towed, they will lose their only form of shelter. The City does not have enough housing and shelter beds to offer to the **over 1,400 people living in their vehicles** in San Francisco. The 2024 Point-In-Time Count found that **90% of families experiencing unsheltered homelessness live in their cars**. There are 295 families (872 people) on the family shelter waitlist, and over 471 individuals on the single adult waitlist. The City counted **437 occupied large vehicles** in May 2025; however, **only 65 new rapid rehousing subsidies are being made available as part of this plan, and only 115 are being set aside overall**. These housing options are also coming at the expense of people in shelters and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelters or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

This plan limits who gets refuge permits to the RV residents who were found during two weeks when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months, regardless of whether an appropriate offer of services has been made. Then, households would be targeted for tows even though they had never been offered services. It takes a long time to find housing or even a non-congregate shelter. With the City potentially trying to help hundreds of households, this will easily take over a year, and those who are not helped could end up homeless on the street.

People who live in RVs are not going to disappear or all leave the city; enacting a citywide ban would only push people into tents and deeper instability. In a time when the City is facing a huge fiscal deficit, this ban will **waste already limited SFMTA and SFPD resources**, while only creating more chaos on the streets.

If you want to help people living in RVs, focus on providing them with real housing solutions. Towing and displacement help no one.

Thank you,

Matthew Boguske

Date: Monday, July 7, 2025 10:24:00 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Affordable Housing!
Date: Monday, July 7, 2025 10:11:22 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

amelie

Board of Supervisors Public Comment,

I work near an area that was once filled with RVs parked on the street. They have never caused trouble, and I feared that they no longer had a safe place to stay after seeing them swept from the streets. This is already a vulnerable population, and to push them out is to put them in more dangerous situations.

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

Board of Supervisors Public Comment,

Dear Supervisor Joel Engardio,

I live in District 4 and have been a San Francisco resident since 1975. I didn't see anyone living on the street or in their vehicles until the late 80's, and the first unhoused folks I noticed were among those who had been released from the state mental hospitals without the levels of community mental health resources funded adequately to support them...Anyone knows that was only the beginning of safety net shredding and obscene escalation of property values. Both of these systemic factors have humane solutions (requiring political will rooted in the common good). 2 hour parking restrictions for RVs is NOT a humane solution. We really don't deserve our City's name for many years now.

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from out federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

Board of Supervisors Public Comment,

I am writing on behalf of San Francisco Pretrial Diversion Project. We serve 70% of the people who are presumed innocent while being released from jail. In our efforts to protect public safety and ensure our clients attend court, a lack of housing is one of our most significant challenges. Especially after being incarcerated, people need shelter to stabilize their lives. There has to be a better solution than banning and towing vehicles. We can do better and trust our City leaders can find an answer outside of this punitive legislation.

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Affordable Housing!
Date: Tuesday, July 8, 2025 11:40:38 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Hunter

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

The RVs do not bother the residents of San Francisco, the people who have lived here for generations, because we know what it looks like to have our families fight for survival and want or need to be in the city. Let San Francisco be a safe place for families, communities of color, immigrants, not just the tech workers and rich folks.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Affordable Housing!
Date: Wednesday, July 9, 2025 6:51:18 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Miya S

Board of Supervisors Public Comment,

I can't believe that we're still e-mailing you pols about this kind of stuff. STOP IMPOSING BANS AND NEW RESTRICTIONS ON PEOPLE THAT CAN'T AFFORD A HOME. Until you just *give* them a home (one that is private not shared, one that is actually affordable to them, one that does NOT have curfews, one that does NOT have any restrictions on who it's given to), then just leave them the hell alone. This silly RV ban is another example of San Francisco politicians taking cues from ultra-fascist Republicans and making it their own.

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

My name is Mags and I live in the Mission District of San Francisco.

Please reject the 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to housing readily available, this will harm people across the city, especially those who use their RVs as homes, because this effort *will increase street homelessness*. This approach targets working class San Franciscans and punishes people just trying to survive in a city with unlivable rent costs and constant systemic gentrification. It comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government.

The San Francisco local government so often prides itself in protecting its citizens, yet here we are, facing another oppressive and shortsighted piece of legislation. Before public school budget cuts I held a position in social work at SFUSD. I worked primarily with elementary-aged students who need extra social/emotional support. During that time, I met several families who had lived or were currently living in vehicles. Their security to a parking space allowed these children a slice of consistency -- something they would lose completely entering the publicly "provided" houseless resources in San Francisco. For some of the families, their vehicular homes worked as a stepping stone to finding more permanent housing. If this proposal comes into fruition hundreds of folks will be put on an excessively long shelter waitlist where they may or may not acquire temporary housing (872 people in 295 families on the family shelter waitlist and 471 individuals on the adult shelter waitlist).

It devastates me that the SF local government is allowing for such heinous legislation to be considered, especially without any resources to support the aftermath. Especially, especially during a time in which we *have* to be caring for each other.

Please **reject** Lurie's proposed proposition to place a 2-hour restriction on RV parking. It is ignorant, inconsiderate, and will only further jeopardize families in San Francisco.

Thank you for your time and consideration.
Mags

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Jade Numair

As a service provider in SF for the past 25 years, I have worked with many adults and families with severe medical issues that live in their RV. Banning their RV's would push them to the street and immediately endanger their lives.

Please stop this active harm to our SF community.

Board of Supervisors Public Comment,

I live in Park Merced right next to several RVs. They are perfectly fine neighbors (some with very friendly and adorable dogs I love to meet), and I have no complaints about them. I don't see how they are any different from the people that live in the apartments and townhomes around me. They're just human beings doing their best to survive. We need a real fix to the problems that forced them out of their homes and into their vehicle, not some futile attempt to sweep the problem under the rug like a toddler trying to avoid cleaning their room.

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. Date: Tuesday, July 8, 2025 5:24:34 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

The 2-hour restriction on RV and large vehicle parking is cruel and counterproductive. Street homelessness, i.e. people sleeping in tents and doorways, is only the tip of the iceberg when it comes to homelessness. Many more people are less-visibly unhoused: in motels, couch surfing, or in RVs like many of my unhoused neighbors. Forcing people out of RVs will only shift them into more precarious circumstances.

It's time we stopped approaching homelessness by pushing people around like inanimate objects, with this "out of sight out of mind" ethos. These are PEOPLE we're talking about - literally our neighbors! They are voters, workers, and members of society who deserve as much respect as anyone else. By towing someone's RV - their home - you're confiscating whatever small comforts they've managed to hold onto. You're pushing them further into poverty, and into a more visible/precarious/dangerous version of homelessness. They lose documents and other important possessions. There are not enough shelter beds, so they go from sleeping behind closed doors to sleeping on the sidewalk. How would you feel if that happened to you? Seriously, stop and think about how you would feel if this happened to you.

With raids on immigrants in our community increasing, this proposal could not come at a worse time for our vulnerable neighbors. I say "our neighbors" because I live quite close to several of these RVs. I walk by them every day. I have never had any issue with them. They are my neighbors just as much as anyone who lives in the nearby apartments. To me, this proposal to tow away my neighbors' homes is an attack on my community. It's hard to have faith in my representatives when they threaten harm to my neighbors. With what little faith I have left, I'm writing to urge you to be empathetic. These aren't just talking points. This is a plea for mercy.

The only answer to homelessness in SF is providing real solutions - providing housing. Without that, you're making the problem worse for everyone. Please vote no on the RV ban.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. It will not reduce homelessness - there are over 850 on the waitlist for family shelters, please invest in those resources instead. You do not need more parking revenue either. The proposed restriction not only targets those in RVs, who are peacefully trying to live their lives (often families trying to work and stay sheltered in the best way they can without going into a system that separates them and restricts their autonomy), in addition, more shuffling from the few places they can park now will also worsen the parking situation of all residents, and disheartens my community members. This proposal demonstrates the cities own failure to serve its underserved people by penalizing them for doing their best in lieu of safe and accessible affordable housing options for families.

This ban would harm immigrants and only increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. Re: Opposition to Large and Commercial Vehicle Parking Restrictions File No. 250655

Dear San Francisco Board of Supervisors,

My name is Grey Gardner from the Drug Policy Alliance requesting you to reject the proposal for a 2-hour restriction on RV parking, introduced by Mayor Lurie. Without appropriate offers to or viable options of housing readily available, this ban will further harm people across the city, especially those who use their RVs as homes, and exacerbate street homelessness. This approach targets working class San Franciscans and punishes people struggling for survival in this city at a time when immigrants and people of color are already facing unprecedented attacks from our federal government.

The Drug Policy Alliance (DPA) is the leading organization in the U.S. working to enact health-centered approaches to drugs. We advocate for policies that prioritize health, equity, social support, and community well-being. Rather than punitive responses to drug use, California should invest in evidence-based systems that support people who use drugs, their families, and their communities. We have staff who live and work in San Francisco, and have led for decades on measures that prevent overdose, promote stability, and provide evidence-based responses to drug use.

Once an individual's RVs is towed, they lose their only form of shelter. The City does not have sufficient housing and shelter beds to offer to the **over 1,400 people living in their vehicles** in San Francisco. The 2024 Point-In-Time Count found that **90% of families experiencing unsheltered homelessness live in their vehicles**. There are 295 families (872 people) on the family shelter waitlist and over 471 individuals on the single adult waitlist. The City counted **437 occupied large vehicles** in May 2025, yet **only 65 new rapid rehousing subsidies are being made available as part of this plan and only 115 are being set aside overall**. These housing options are also coming at the expense of people in shelter and on the street who have desperately been waiting for housing resources. People will spend longer stuck in shelter or on the street because the few available resources will be diverted to households in RVs. There is not enough deeply or permanently affordable housing, which drives individuals and families to housing instability and sheltering in RVs.

DRUG POLICY ALLIANCE

P.O. Box 862128 • Los Angeles, CA 90086
213.226.6421 • california@drugpolicy.org

drugpolicy.org

This plan also limits who gets refuge permits to the RV residents who were found during a two week period when the city attempted to count every single vehicle across the city. Any vehicle that they missed, at no fault of the residents, would be subject to enforcement and could end up on the street. The permits would expire after at most 12 months regardless of whether an appropriate offer of services has been offered. Households would then be targeted for tows even though they had never been offered services. It takes a long time to find and secure housing or even non-congregate shelter. With the City potentially trying to help hundreds of households, the wait time will easily surpass a year, and those who are not assisted could end up homeless on the street.

Enacting a citywide ban will only push people into tents, into the street, and into deeper instability. At a time when the City is facing a huge fiscal deficit, this ban will **waste already limited SFMTA and SFPD resources**, while only creating more chaos on the streets of San Francisco.

For these reasons, the Drug Policy Alliance is in opposition to the Large and Commercial Vehicle Parking Restrictions, File No. 250655. For more information on DPA or our position on this bill, please contact me at ggardner@drugpolicy.org. Thank you.

Sincerely,

Grey Gardner

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Brent Jalipa and the SF BOS:

I'm writing to express my disapproval for the ban on RV parking in San Francisco.

This ban would unduly harm homeless families who have nowhere else to go. The city/county does not have enough shelter beds as is. There are 872 people on the family shelter waitlist, and 471 on the adult waitlist. Forcing people out of their vehicles — a shelter that's not ideal and should be improved on, but a shelter nonetheless — would lead to more people on the streets. And shuffling around homeless people to other counties, which will no doubt enact the same bans, does not solve anything.

San Francisco should not seriously consider this measure unless and until there are sufficient resources to move homeless families and individuals from their vehicles and into shelter housing. We cannot criminalize homelessness. We cannot criminalize poverty.

I realize that this hearing is happening right now, so I'm hoping that my message is received in time.

Thank you,

Mimi Pinson

My name is Talia, I'm a SF resident, and a member of Indivisible SF. I ask the Supervisor to oppose this RV ban. This legislation is nothing but a waste of time and money, yours and mine.

SFMTA barely has the money for it's current functions and a nuisance bill like this isn't doing anything to help. The purpose is just to continuously harass the unhoused and immigrant population of SF and time money and effort can be spent in far better places.

Shelter space is already overstretched, with need far outpacing availability

Impounding RVs that people are using for shelters will only put them on the street in an even more unstable situation leading to more tent cities and more money needed to continuously shove them away from the public's view.

The fact that those most impacted are immigrant families is also a concern that deserves to be considered in light of what the federal government is doing in the city everyday.

We must push back on these actions that seek to separate ourselves from our fellow man, to ...if not do no evil, then minimize the amount of evil that is done through apathy and selfishness. Because but for the grace of Luck this could be you.

T.K. Highrock

From: [Jennifer Urbain](#)
To: [Jalipa Brent \(BOS\)](#)
Subject: Public Comment on Agenda Item 250655
Date: Wednesday, July 9, 2025 11:33:34 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

My name is Jennifer Urbain, I live in District 4, and I'm a member of Indivisible SF. I ask the Supervisor to oppose this RV ban. This will harm people across our city and increase homelessness.

The [2024 Point-In-Time Count](#) found that **90% of families experiencing homelessness live in their vehicles**. There is not enough affordable housing to begin with, which is why many individuals and families end up living in RVs.

There are currently 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. **This means the demand for housing already dramatically exceeds the available supply. This ban will significantly increase that demand, further bottlenecking the system and leaving more people on the streets and in shelters without options, ultimately increasing street homelessness.**

This will increase the number of unhoused people on our streets. Once an RV is towed, it is very difficult and expensive to get it back, which means many people will have nowhere to go but the street.

Most people living in RVs are immigrants. At a time when immigrant communities are under attack from federal authorities, we should not pass laws that further criminalize their existence and subject them to further harassment from law enforcement

This proposal would waste resources while the SFMTA is suffering financially. At a time when we are trying to avoid cuts to services, the SFMTA shouldn't be spending money and staff time on such harmful, counterproductive enforcement. This proposal would spend \$3 million on signage and enforcement from the SFMTA's already tight budget.

San Francisco is a sanctuary city. Pressuring people in RVs, most of whom are immigrants, to go elsewhere risks exposing them to harassment and deportation.

RV bans are a waste of time and money—a short-sighted and ultimately ineffective answer to the problems of houselessness and inequality. If one county passes an RV ban, it only puts the problems on its neighborhoods, then the next county will follow suit, until people formerly housed in RVs are all on the street. This is already happening! San Francisco should be a county with the courage and moral decency to break the cycle.

Thank you--Jennifer Urbain, 2141 Kirkham Street, San Francisco, CA

Subject: Opposing the Mayor's RV Ban - Give Us Safe Parking Sites and Affordable Housing!
Date: Wednesday, July 9, 2025 12:37:16 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,

Kathy

Subject: Public Comment on Agenda Item 250655" (talking points are below) - Oppose the RV Ban
Date: Wednesday, July 9, 2025 3:56:28 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear BOS,

I am a longtime Bay Area born and raised human rights advocate. I strongly urge you to Oppose the RV Ban.

San Francisco does not have enough shelter and housing resources for the many people who are already experiencing homelessness. Why on earth would we want to add to that population by evicting people from their RVs?

From what I understand, 90% of families experiencing homelessness live in their vehicles. There is not enough affordable housing to begin with, which is why many individuals and families end up living in RVs. With something akin to 872 people currently on the family shelter waitlist and 471 people on the adult shelter waitlist, the demand for housing already dramatically exceeds the available supply.

This cruel and/or shortsighted (proposed) ban will significantly increase that demand, negatively impacting the system and leaving more people on the streets and in shelters without options thus increasing street homelessness.

Please consider that once an RV is towed, it is very difficult and very expensive to get it back. This means that many people will lose their belongings, their shelter and have nowhere to go but the street. What a wasteful measure that will hurt poor people and, immigrant communities.

Many of the people living in RVs are immigrants. At a time when immigrant communities are under extreme attack from federal authorities, we should not pass laws that further criminalize their existence and subject them to further harassment from law enforcement, putting them in danger and worse. San Francisco is supposed to be a sanctuary city.

RV bans are a waste of time and money, an ineffective answer to the problems of houselessness and inequality. If one county passes an RV ban, it puts the problems on its neighborhoods, then the next county will follow suit, until people formerly housed in RVs are all on the street. Please, we must have the intelligence and the integrity to develop a much better plan based on humanity, equity and compassion.

I call on you to have the courage, empathy and, moral compass to stand up for human rights, inclusion and equity for ALL in our beloved city.

Budget Clerk Brent Jalipa,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty tows. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Hello,

My name is Rosalie, I live in District 7, and I'm a member of Indivisible SF. I have sent Supervisor Myrna Melgar two public comments:

1. To oppose the RV ban. This will harm people, increase homelessness, and hurt the immigratn community.
2. To pass a city ordinance requiring visible identification for all law enforcement operating in our city, including federal agents, to ban local police from cooperating with ICE, and to work with local institutions to strengthen local sanctuary policies and rapid response systems when federal agents show up.

Thanks!

Rosalie

Dear Clerk of the Board Angela Calvillo,

My name is Sara and I live in San Francisco. Please reject the 2-hour restriction on RV parking. This ban will harm people across the city and increase homelessness.

As your constituent, I'm surprised that you signed on to this perhaps well-intentioned but ultimately foolish approach. The only van dwellers who can comply are groups of several adults. In a small family with no shelter but the RV, someone has to get up every 2 hours to move the van. That is torture. It's understandable that people with homes nearby find the crowding, dirt and noise of an RV area distressing and are concerned for their property value, but that must be resolved by providing hygiene and other services, not by jailing the adults and putting the children in foster care-where?

The real problem is that the city does not have enough affordable housing and shelter beds. There are 295 families on the family shelter waitlist and 471 individuals on the single adult waitlist. People living on the streets or in shelters desperately need resources.

Instead of banning RV parking, focus on providing real housing solutions. This ban helps no one.

Thank you for your consideration.

Dear Clerk of the Board Angela Calvillo,

My name is Ivan and I live in San Francisco. Please reject the 2-hour restriction on RV parking. This ban will harm people across the city and increase homelessness.

There are over 1,400 people living in their vehicles, including 90% of families experiencing homelessness. If their RVs are towed, they will lose their only form of shelter. This approach punishes those who use RVs as their homes in an attempt to force them to leave. People living in RVs have families, work, and community here. To force them to uproot because residents with houses don't like the aesthetic of RVs is cruel.

The city does not have enough affordable housing and shelter beds. There are 295 families on the family shelter waitlist and 471 individuals on the single adult waitlist. People living on the streets or in shelters desperately need resources.

People who live in RVs are not going to disappear or leave the city en mass. Enacting a ban like this will only push people onto the streets and deeper into instability. This will waste SFMTA and SFPD resources for no gain.

Instead of banning RV parking, focus on providing real housing solutions. This ban helps no one.

Thank you for your consideration.

Dear Clerk of the Board Angela Calvillo,

My name is Sharon and I live in San Francisco. Please reject the 2-hour restriction on RV parking. This ban will harm people across the city and increase homelessness.

There are over 1,400 people living in their vehicles, including 90% of families experiencing homelessness. If their RVs are towed, they will lose their only form of shelter. This approach punishes those who use RVs as their homes in an attempt to force them to leave. People living in RVs have families, work, and community here. To force them to uproot because residents with houses don't like the aesthetic of RVs is cruel.

The city does not have enough affordable housing and shelter beds. There are 295 families on the family shelter waitlist and 471 individuals on the single adult waitlist. People living on the streets or in shelters desperately need resources.

People who live in RVs are not going to disappear or leave the city en mass. Enacting a ban like this will only push people onto the streets and deeper into instability. This will waste SFMTA and SFPD resources for no gain.

Instead of banning RV parking, focus on providing real housing solutions. This ban helps no one.

Thank you for your consideration.
Sharon Daniel

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

I lived in an RV out of survival for four years of my life before attending San Francisco State University as a transfer student. To not have a stable place to park your RV puts a death sentence on those who are physically vulnerable or even disabled. Physically vulnerable people in the disabled who live in RVs would become houseless if their RVs were to be towed which further puts them at risk for even worse homelessness. It's a shame that the city where I received my degree could do such a thing to its citizens, especially for being a historically progressive city. This is disgusting and is clearly an attack on those who live on RVs. People who live in RVs are already trying to make do and have a safe place to live. You should be focusing on creating affordable housing and removing Airbnb's that private equity and small landlords open to take advantage of San Francisco citizens and incoming visitors.

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Jenna

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Subject: Vote No on the RV Ban - Will Harm Immigrants and Increase Street Homelessness
Date: Wednesday, July 9, 2025 3:38:52 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors Public Comment,

Please reject the 2-hour restriction on RV and large vehicle parking. This ban will harm immigrants and increase street homelessness. This proposal comes at the worst possible time, when immigrants and people of color are already facing unprecedented attacks from our federal government. Vulnerable RV residents, many of whom are immigrants, will be made even more vulnerable by this ban. They will be more exposed to law enforcement and could end up on the street if their RVs are towed.

When people's RVs are towed, they lose their only form of shelter and all their possessions, including documents that are important for housing and employment. The City lacks the housing and shelter beds to offer families, people with disabilities and seniors when they are seeking it. The 2024 Point-In-Time Count found that 90% of families experiencing unsheltered homelessness live in their vehicles. Currently, there are over 850 people on the family shelter waitlist and not enough deeply affordable housing, which is why many individuals and families end up living in RVs.

People who live in RVs are not going to disappear or all leave the city; implementing a citywide ban would only push people into street homelessness and deeper instability. Without enough housing resources, this plan will result in more people living on the streets or stuck in shelter without pathways to housing.

If you want to help people living in RVs, focus on providing them with real housing solutions and recognize that it will take more than a year to house all RV households, especially if the City is also going to house those already on the streets and in shelter. Housing heals, towing and displacement helps no one.

Date: Wednesday, July 9, 2025 9:20:31 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS Clerk BOS Clerk,

Dear Board of Supervisors,

I'm a San Francisco resident writing to urge you to strongly oppose Mayor Lurie's 2-hour restriction on RV parking. The proposed policy will seize poor and working class people's only shelter while offering utterly inadequate services in return.

RVs are homes, especially for immigrant families, elderly, and disabled San Franciscans. Over 1,400 City residents live in their vehicles, including 90% of families experiencing unsheltered homelessness. There are 872 people on the family shelter waitlist and 471 people on the adult shelter waitlist. We know as well that existing shelters are often temporary and inadequate. Is it surprising that people would prefer to live in an RV over sleeping on a gymnasium floor where you get kicked out at 7AM?

I am especially dismayed that the Mayor's proposed plan doesn't include safe parking sites. Many elderly residents have been living in their vehicles for decades. It's unrealistic to think that they'll be willing to give up their homes in six months - or a year. Safe parking sites are a proven strategy to meet people where they're at while addressing complaints about street conditions. The City's own failure to run a safe parking site at Candlestick Point isn't an excuse, especially when there's a for-profit RV park operating within SF city limits. If Oakland, San Jose, Fremont, Palo Alto, and Union City can all run safe parking sites affordably, why can't we?

For people living in their vehicles who are ready to move immediately to housing, what's included in the current plan is equally inadequate. There are far more people at risk of having their homes towed than there are housing vouchers, and many of the vouchers being offered are given at the expense of people staying in congregate shelters. An RV or vehicle, while not perfect, is permanent, private housing, and forcing people to give that up in exchange for temporary rental support is unproductive, cruel, and contrary to established research.

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Isabella Spangher

I'll conclude by expressing my absolute opposition to the punitive enforcement strategy in the Mayor's plan, which includes as much funding for signage and tows as it does for helping people. The 2-hour RV parking ban, unlike the housing vouchers, is permanent, and underscores the real purpose of the Mayor's plan: reducing visible poverty, no matter who it hurts. I know SF officials frequently use the existence of 'vanlords' to justify their support for towing policies. While I want to eliminate exploitative landlords as much as anyone, evicting

their tenants isn't how we solve this problem. The best way to address predatory behavior is to remove opportunities for predation - by providing permanent, affordable housing.

No one is saying SF shouldn't have a plan for helping our neighbors living in their vehicles, but the solution isn't poverty towns. I'm asking that you push Mayor Lurie and his oligarch pals to come up with a real strategy for addressing this issue, one that includes safe parking sites and real, permanent housing offers for everyone who needs them.

Sincerely,
Quinn Martinez

MEMORANDUM

TO: Youth Commission

FROM: John Carroll, Assistant Clerk,
Land Use and Transportation Committee

DATE: June 20, 2025

SUBJECT: REFERRAL FROM BOARD OF SUPERVISORS

The Board of Supervisors has received the following, which at the request of the Youth Commission is being referred as per Charter Section 4.124 for comment and recommendation. The Commission may provide any response it deems appropriate within 12 days from the date of this referral.

File No. 250655

Ordinance amending Division I of the Transportation Code to reduce the time that large vehicles may be parked on City streets from overnight to two hours, and modify the time that commercial vehicles may be parked on City streets; amending the Administrative Code to require City departments, including but not limited to the Department of Homelessness and Supportive Housing, the Department of Emergency Management, and the Police Department, to assist the Municipal Transportation Agency with administering a Large Vehicle Refuge Permit Program that exempts certain large vehicles from the two-hour parking restriction under certain conditions; amending the Park Code to impose a two-hour parking limit on large vehicles on park property; amending the Port Code to impose two-hour parking limits on large vehicles on Port property; and affirming the Planning Department's determination under the California Environmental Quality Act.

Please return this cover sheet with the Commission's response to John Carroll, Assistant Clerk, Land Use and Transportation Committee at john.carroll@sfgov.org.

MEMORANDUM

TO: Julie Kirschbaum, Acting Director of Transportation

FROM: John Carroll, Assistant Clerk, Land Use and Transportation Committee

DATE: June 20, 2025

SUBJECT: LEGISLATION INTRODUCED

The Board of Supervisors' Budget and Finance Committee has received the following proposed legislation, introduced by Mayor Lurie on June 10, 2025.

File No. 250655

Ordinance amending Division I of the Transportation Code to reduce the time that large vehicles may be parked on City streets from overnight to two hours, and modify the time that commercial vehicles may be parked on City streets; amending the Administrative Code to require City departments, including but not limited to the Department of Homelessness and Supportive Housing, the Department of Emergency Management, and the Police Department, to assist the Municipal Transportation Agency with administering a Large Vehicle Refuge Permit Program that exempts certain large vehicles from the two-hour parking restriction under certain conditions; amending the Park Code to impose a two-hour parking limit on large vehicles on park property; amending the Port Code to impose two-hour parking limits on large vehicles on Port property; and affirming the Planning Department's determination under the California Environmental Quality Act.

If you have comments or reports to be included with the file, please forward them to me at the Board of Supervisors, City Hall, Room 244, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102 or by email at: john.carroll@sfgov.org.
