1 [Accept and Expend Grant - Community Scale Renewable Energy Integration - Central
2 Corridor EcoDistrict - \$300,000]

3 **Resolution authorizing the Department of the Environment to retroactively accept**
4 **and expend a grant of \$300,000 from the California Energy Commission for the**
5 **purpose of exploring Community Scale Renewable Energy Integration in San**
6 **Francisco's Central Corridor Eco-District for the period of June 1, 2013, to March**
7 **31, 2015.**

8
9 WHEREAS, The California Energy Commission (CEC) released a Request for
10 Proposal for research, development, and demonstration projects that demonstrate
11 optimized community-specific renewable energy systems; develop the tools and models
12 to quantify the impacts and benefits of increasing local renewable energy penetration in
13 California's communities; and develop breakthrough renewable energy technologies to
14 effectively take advantage of existing localized renewable resources for electricity
15 generation; and

16 WHEREAS, Funding from the CEC will support the creation of a plan to integrate
17 renewable energy and supporting technologies into existing plans for a Central Corridor
18 EcoDistrict; and

19 WHEREAS, The Board of Supervisors adopted goals for greenhouse gas
20 emissions reductions; and

21 WHEREAS, The Board of Supervisors passed a resolution endorsing the San
22 Francisco Public Utility Commission's 2011 Updated Electricity Resource Plan, which
23 recommended implementing Community Scale Energy Systems, pilot electric storage
24 projects, and "Green Test Bed" demonstration projects; and
25

1 WHEREAS, Several municipal departments, including Planning and the San
2 Francisco Public Utilities Commission are cooperating to study and plan for greenhouse
3 gas reductions through neighborhood scale energy systems in the Central Corridor
4 Area; and

5 WHEREAS, This funding will help the City move toward its emission reduction
6 goals and objectives laid out in the Electricity Resource Plan; and

7 WHEREAS, Participating in this process will support the City's continued
8 reputation as a national leader in municipal sustainability; and

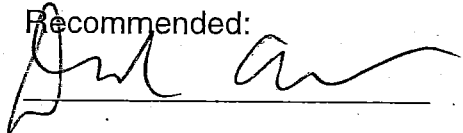

9 WHEREAS, The term of this grant is from June 1, 2013 to March 31, 2015; and

10 WHEREAS, The grant allows for Indirect costs of \$10,444; and

11 WHEREAS, The grant does not require an Annual Salary Ordinance (ASO)
12 amendment; now, therefore, be it

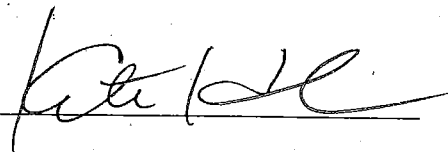

13 RESOLVED, That the Board of Supervisors hereby authorizes the Director of the
14 Department of the Environment to accept and expend \$300,000 from the California
15 Energy Commission to support Community Scale Renewable Energy Integration
16 Exploration in the Central Corridor EcoDistrict.

23 Approved:

24 

25 Mayor

Approved:

Controller, Grant Division

TO: Angela Calvillo, Clerk of the Board of Supervisors
FROM: The Department of the Environment
DATE: June 14, 2013
SUBJECT: Accept and Expend Resolution for State Grant
GRANT TITLE: Community Integrated Renewable Energy Project (CIRE)
in San Francisco's Central Corridor Eco-District

Attached please find the original and 4 copies of each of the following:

Proposed grant resolution; original signed by Department, Mayor, Controller

Grant information form, including disability checklist

Grant budget

Grant application

Grant award letter from funding agency

Other (Explain):

Special Timeline Requirements:

Departmental representative to receive a copy of the adopted resolution:

Name: Rachel Buerkle

Phone: 415-355-3704

Interoffice Mail Address:

Certified copy required Yes

No

(Note: certified copies have the seal of the City/County affixed and are occasionally required by funding agencies. In most cases ordinary copies without the seal are sufficient).

Grant Resolution Information Form

(Effective July 2011)

Purpose: Accompanies proposed Board of Supervisors resolutions authorizing a Department to accept and expend grant funds.

The following describes the grant referred to in the accompanying resolution:

- 1. Grant Title: Energizing our Future: Central Corridor Community Renewable Energy Project
- 2. Department: Department of the Environment
- 3. Contact Person: Rachel Buerkle Telephone: 415-355-3704
- 4. Grant Approval Status (check one):
 - Approved by funding agency
 - Not yet approved
- 5. Amount of Grant Funding Approved or Applied for: \$300,000
- 6a. Matching Funds Required: \$ 300,000
- b. Source(s) of matching funds (if applicable): staff time from existing budget
- 7a. Grant Source Agency: California Energy Commission
- b. Grant Pass-Through Agency (if applicable):
- 8. Proposed Grant Project Summary: The City and County of San Francisco, through its Department of the Environment (SF Environment), is proposing to launch the Community Integrated Renewable Energy (CIRE) project that will build on planning work currently underway for the Central Corridor Eco-District. The project will assess the feasibility of a community energy center, integrating district heating and cooling, renewable electricity, waste-derived biogas, geothermal heat pumps, regenerative braking energy from public transportation, demand response, and smart distribution technology to serve multiple community members.
- 9. Grant Project Schedule, as allowed in approval documents, or as proposed:
 - Start-Date: 6/1/2013 End-Date: 3/31/15
- 10a. Amount budgeted for contractual services: \$232,348
- b. Will contractual services be put out to bid? No. Contract is already in place with vendor designated in grant. The contract was bid using standard City contracting processes and this service will be included in that contract.
- c. If so, will contract services help to further the goals of the Department's Local Business Enterprise (LBE) requirements? Yes.
- d. Is this likely to be a one-time or ongoing request for contracting out? One-time, for the duration of the grant.
- 11a. Does the budget include indirect costs? Yes No

b1. If yes, how much? \$10,444

b2. How was the amount calculated? Based on Department of the Environment overhead and indirect

c1. If no, why are indirect costs not included?

Not allowed by granting agency

To maximize use of grant funds on direct services

Other (please explain):

c2. If no indirect costs are included, what would have been the indirect costs?

12. Any other significant grant requirements or comments:

****Disability Access Checklist***(Department must forward a copy of all completed Grant Information Forms to the Mayor's Office of Disability)**

13. This Grant is intended for activities at (check all that apply):

Existing Site(s)

Existing Structure(s)

Existing Program(s) or Service(s)

Rehabilitated Site(s)

Rehabilitated Structure(s)

New Program(s) or Service(s)

New Site(s)

New Structure(s)

14. The Departmental ADA Coordinator or the Mayor's Office on Disability have reviewed the proposal and concluded that the project as proposed will be in compliance with the Americans with Disabilities Act and all other Federal, State and local disability rights laws and regulations and will allow the full inclusion of persons with disabilities. These requirements include, but are not limited to:

1. Having staff trained in how to provide reasonable modifications in policies, practices and procedures;
2. Having auxiliary aids and services available in a timely manner in order to ensure communication access;
3. Ensuring that any service areas and related facilities open to the public are architecturally accessible and have been inspected and approved by the DPW Access Compliance Officer or the Mayor's Office on Disability Compliance Officers.

If such access would be technically infeasible, this is described in the comments section below:

CALIFORNIA ENERGY COMMISSION

1516 NINTH STREET
SACRAMENTO, CA 95814-5512
www.energy.ca.gov

**REVISED****NOTICE OF PROPOSED AWARDS**

**Community Scale Renewable Energy Development, Deployment, and Integration
Grant Solicitation PON-12-502
March 1, 2013**

On October 16, 2012, the California Energy Commission's Public Interest Energy Research (PIER) Program released a Program Opportunity Notice (PON) titled "Community Scale Renewable Energy Development, Deployment and Integration (REDDI)". The PON announced that up to \$8.95 million in grant funding was available to accelerate research, development and demonstration of community scale renewable energy in three distinct funding categories:

- A. **Community Scale Renewable Energy Integration Demonstration** – sought proposals that aim to demonstrate the cost-efficient integration of high-penetrations of renewable energy within a given community based on the locally-available renewable energy potential, and to increase energy security for that community.
- B. **Community Scale Renewable Energy Integration Exploration** – sought proposals to formulate community-specific renewable energy development plans, including the tools and methodologies necessary to do so.
- C. **Breakthrough Community Scale Renewable Energy Technology Development** – sought proposals that aim to develop renewable energy technologies that offer breakthrough potential in the commercial energy market, and will provide a significant contribution towards California's 2020 renewables.

The proposals were screened, reviewed, evaluated, and scored using the criteria prescribed in the solicitation. Based on the Review Team's scores and suggested funding levels, the Energy Commission released a Notice of Proposed Awards (NOPA) on February 20th to award \$8,950,000 and fund ten (10) of the thirty-five (35) passing projects in this solicitation. The NOPA also stated that "should additional electricity funding be made available, any partially-funded projects will be fully funded and the remaining passing projects **may** receive funding."

Since the release of the NOPA on February 20th, an additional \$26,219 has become available for this solicitation. Based on this available funding, the Energy Commission proposes to award full funding to Department of the Environment – City and County of San Francisco for the Rank 4 project in Research Area B, titled "Energizing Our Future: Community Integrated Renewable Energy (CIRE) Assessment." In the original NOPA, the Rank 6 Proposal in Research Area A Applicant's name was misstated as "Canby Geothermal Development LLC and Crane Mountain Geothermal Inc." In the Revised NOPA, the Applicant's name has been corrected to "CanbyGeo LLC."

This Revised NOPA is hereby issued pursuant to these recommendations. With the Revised NOPA, the Energy Commission proposes to award \$8,911,219 and fund ten (10) of the thirty-five (35) passing projects under this solicitation, as follows:

- For Research Area A, "Community Scale Renewable Energy Integration Demonstration," four (4) projects are recommended for funding for a total of \$6,871,294, and seventeen proposals (17) received a passing score.
- For Research Area B, "Community Scale Renewable Energy Integration Exploration," four (4) projects are recommended for funding for a total of \$1,039,830, and seven (7) proposals received a passing score.
- For Research Area C, "Breakthrough Community Scale Renewable Energy Technology," two (2) projects are recommended for funding for a total of \$1,000,095, and eleven (11) proposals received a passing score.

The attached table titled "Revised Notice of Proposal Awards and Results of Submitted Proposals" identifies each of the applicants recommended to receive funding, the project title, the recommended amount of Energy Commission funding, and scoring information.

Final approval of these awards rests with the Energy Commission, which will consider each project at a publicly noticed Business Meeting at the Energy Commission in Sacramento, California.

This notice is being mailed to all parties who submitted a proposal to this solicitation and is also posted on the Energy Commission website at: <http://www.energy.ca.gov/contracts/>

For further information about this matter, contact Crystal Presley-Willis at (916) 654-5067, or by email at Crystal.Presley-Willis@energy.state.ca.us.

Title of Project
Energizing Our Future: Community Integrated Renewable Energy (CIRE) Assessment

Project Location
City and County of San Francisco Central Corridor-between 2 nd & 6 th Streets and Market & Townsend Streets

Project Description (brief paragraph)
 The City and County of San Francisco proposes to launch the Community Integrated Renewable Energy (CIRE) assessment project which will build on planning work currently underway for the Central Corridor Eco-District, a community extending from 2nd Street to 6th Street and Market St to Townsend St in the City's South of Market area. This proposed project will investigate the feasibility and economics of a community wide renewable energy system via the use of an enabling technology (such as a smart or microgrid) that manages renewable generation, distribution and storage within a community / Eco-District. Demand management will be integrated within the grid enabling technology to enable community partners to non-intrusively achieve energy reductions from continually shifting and managing load to participate in demand response schemes. In addition to solar and biogas, the project will investigate innovative technologies and opportunities to integrate water, transportation, and energy planning, such as water-based thermal storage and regenerative braking energy from public transportation, and will provide plans for interfacing with an existing steam-based district energy system, including adding cogeneration, renewable fuels and district electricity distribution.

California Environmental Quality Act (CEQA) Compliance	
1.	Is Contract considered a "Project" under CEQA? <input type="checkbox"/> Yes: skip to question 2. X No: complete the following (PRC 21065 and 14 CCR 15378): Explain why contract is not considered a "Project": Contract will not cause direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment because It is a planning document.
2.	If contract is considered a "Project" under CEQA, have you complied? <input type="checkbox"/> Yes (if so, provide documentation in application) <input type="checkbox"/> No

Applicant's Project Manager (serves as point of contact for all communications)
