MAYOR'S LETTER

June 1, 2024

Dear San Francisco Residents,

I am honored to present the City and County of San Francisco's budget for the fiscal years 2024-25 and 2025-26. This balanced budget of \$15.9 billion and \$15.5 billion each respective fiscal year comes at a challenging moment for our city. Closing the \$789.3 million two-year shortfall required difficult choices and a prioritization of services. Ultimately, this budget reflects our values: investing in our employees, sustaining core services, and building towards long-term economic vitality.

I am proud to make a bold investment in our workforce. Our over 30,000 dedicated employees are the backbone of the City, ensuring vital services reach our diverse communities. They are committed to putting in the necessary hard work to serve, and be accountable to, the residents of San Francisco. By investing in competitive compensation and robust pipelines for talent, we can continue attracting and retaining top professionals across all departments and job classifications.

I also know that public safety is a top priority for our residents, workers, and visitors alike. This budget makes investments in public safety across this City, through staffing and capacity for the Police Department and Sheriff's Office to bolster patrolling and emergency response. It also maintains the budgets for other public safety agencies and builds on the success of Public Safety Ambassador programs.

We know that San Francisco is a wonderful place to start and grow a family, and we also know it can be expensive to keep that family in our city.

Access to quality, affordable childcare is one of the biggest challenges for working families. That is why I have proposed dramatic increases in subsidies for early childcare in this budget. We are expanding eligibility to middle-income households for the first time, giving relief to young families who want to stay in the city. This budget also funds a pilot for flexible-hours care, which will allow our frontline workers like nurses, police officers, or transit operators to access trusted, reliable childcare while they work. By investing in our youngest residents from the start, we can put all children on the path to lifelong learning and opportunity.

Helping people move off the streets and into shelter and long-term, stable housing continues to be one of my top priorities. Over the last 6 years of my administration, San Francisco has helped over 15,000 individuals exit homelessness, and shelter capacity has increased by 60 percent. We will continue to build on that success. Using Our City, Our Home dollars, this budget proposes major investments in transitional housing and rental subsidies for both transitional aged youth (TAY) and families experiencing homelessness,

helping nearly 500 additional families and young adults find housing.

We continue to invest in addressing the crisis on our streets. This year, we have worked to improve coordination across our street response teams and sharpen our response for individuals in crisis. This budget builds on the successful pilot of the HEART outreach program; it continues investments in proven response teams for individuals with behavioral health challenges. This year, we will also pilot a range of community-based solutions to combat substance use disorder, including opening new treatment centers, enabling telehealth technology, and increasing access to 24-hour care and coordination.

San Francisco has always worked with community organizations to make sure that our dollars reach our city's most vulnerable populations. While this year's budget continues to support key community priorities, it also requires difficult choices and reductions that reflect our current fiscal climate. We have had to streamline certain services that the city has provided in the past, and in some cases, reduce non-essential programming.

However, ensuring robust direct services for our residents remains a top priority and community organizations continue to be our essential partners in that work. This budget safeguards direct services to our most vulnerable San Franciscans by

maintaining our investments in programs such as food security, behavioral health and medical care, legal aid, and tenant protection programs. No San Franciscan should be left behind as we rebuild.

Finally, driving our city's economic revitalization towards a more prosperous future is paramount in this budget. As we continue to recover from the impacts of remote work and the pandemic, we need to make strategic investments to reignite San Francisco as a world-class destination for business, tourism, arts, and culture. This includes funding to strengthen our downtown, from public space activation to leasing agents and other tenant attraction. It includes an expansion of our Vacant to Vibrant program and funding to support over 100 new small businesses. By building back our downtown and strengthening our commercial corridors, San Francisco will unlock the growth it needs.

This budget plants the seeds for an equitable, prosperous future for San Francisco. While we had to make tough choices and difficult cuts, we remain focused on our highest priorities - supporting our workforce, stabilizing our public safety systems, investing in our children's future, transitioning families into stable housing, and reigniting our economic engine. I look forward to working with our departments, the Board of Supervisors, and all San Franciscans to realize the vision set forth in the pages ahead.

London N. Breed

Mayor

EXECUTIVE SUMMARY

SAN FRANCISCO'S BUDGET

The budget for the City and County of San Francisco (the City) for Fiscal Years (FY) 2024-25 and FY 2025-26 is \$15.9 billion and \$15.5 billion, respectively. Just over half (57 percent) of the budget consists of self-supporting activities, primarily at the City's Enterprise departments, which focus on City-related business operations, and include the Port, Municipal Transportation Agency, Airport, and Public Utilities Commission. General Fund monies comprise the remaining 43 percent, which support public services such as public health, housing, support for those experiencing homelessness, safety and fire services, parks management, and others.

The City receives funds into its General Fund from a combination of local tax revenues, such as

property, transfer, sales, hotel, and business taxes, as well as state and federal resources, and fees for service.

Each year, the City makes decisions on how to allocate the City's budget based on the resources that are available and the priorities and needs of the City and its residents. The table below summarizes total spending in each of the next two years in the City's Major Service Areas.

The City and County of San Francisco is also a major employer. The proposed budget for FY 2024-25 includes salaries and benefits for 33,285 employees. This represents a slight reduction (0.3 percent) in the labor force compared to the FY 2023-24 budget.

Total Department Uses by Major Service Area	FY 2024-25 (\$ millions)	FY 2025-26 (\$ millions)
Community Health	\$15,509,409,450	\$3,227,320,484
Culture and Recreation	\$549,436,660	\$552,456,103
General Administration and Finance	\$1,445,599,813	\$1,457,250,671
General City Responsibilities	\$1,587,934,968	\$1,438,842,827
Human Welfare and Neighborhood Development	\$3,085,153,051	\$2,970,510,462
Public Protection	\$2,118,139,729	\$2,159,077,746
Public Works, Transportation and Commerce	\$6,392,988,824	\$6,288,838,819
Less Transfer Adjustments	\$(2,533,027,328)	\$(2,584,887,662)
Total Budget	\$15,883,345,834	\$15,509,409,450

BUDGET PROCESS

The City's budget process begins in September with preliminary revenue projections for the upcoming budget years. In December, the Mayor's Office and the Controller's Office issue budget instructions to departments, which contain detailed guidance on the preparation of departments' budget requests. Departments then

prepare their budget requests and submit them to the Controller by mid-February. The Controller consolidates, verifies, and refines the departments' Proposed budgets, and turns the proposals over to the Mayor's Office of Public Policy and Finance. From March through May, the Mayor's Office analyzes each budget proposal, examining

policy and service implications, in order to meet citywide needs and reflect the Mayor’s goals and priorities for the upcoming year. Concurrently, the Mayor and her staff conduct budget outreach with community members to obtain feedback on budget priorities.

The Mayor presents a balanced two-year budget proposal for departments by the first business day in June of each year. The Board of Supervisors’ Budget and Appropriations Committee holds public hearings on the budget in June, makes recommendations for approval, and makes changes to the budget before it goes to the full Board. The entire budget is heard and must

be voted on and approved by the full Board of Supervisors by August 1st. Finally, the budget returns to the Mayor for signature and final adoption.

In November of 2009, voters passed Proposition A, which amended the City Charter to require the City to transition to a two-year budget cycle for all departments beginning in FY 2012-13. Three departments—the Public Utilities Commission, the Airport, and the Port—are proposing fixed two-year budgets for FY 2024-25 and FY 2025-26. All other departments retain a rolling two-year budget, meaning the FY 2025-26 budget will be revisited next year.

FIVE-YEAR FINANCIAL PLAN AND BUDGET INSTRUCTIONS FOR FISCAL YEARS 2024-25 AND 2025-26

In December 2023, the Mayor’s Office, along with the Controller’s Office and the Board of Supervisors’ Budget and Legislative Analyst, released an update to the Five-Year Financial Plan for FY 2024-25 through FY 2027-28, also referred to as the Joint Report. The report projected a General Fund deficit of \$244.7 million in FY 2024-25 and \$554.5 million in FY 2025-26, for a cumulative deficit of \$799.2 million. The report also projected that the deficit would grow to \$1.3 billion by the end of the forecast period.

The forecast was driven by many of the same factors reported in the prior year’s projection, including the persistence of remote work, with major impacts to commercial and residential real

estate, as well as taxable gross receipts; escalating health insurance costs; inflationary increases on non-personnel operating costs; and projected capital and technology project spending.

In recognition of the projected deficit, the Mayor required departments to propose General Fund budget reductions totaling 10 percent in each year of the budget with additional contingency proposals of 5 percent in each year.

In March 2024, the three offices released an update to Joint Report, known as the March Update. This report showed in the two upcoming fiscal years, the period for which the City is required to adopt a balanced two-year budget, a

Joint Report General Fund Shortfall: December 2023 (\$ Millions)	FY 2024-25	FY 2025-26	FY2026-27	FY 2027-28
Sources Increase/(Decrease)	(9.6)	181.0	153.9	172.8
Uses (Increase)/Decrease	(235.1)	(735.5)	(1,099.1)	(1,522.5)
Projected Cumulative Surplus/(Shortfall)	(244.7)	(554.5)	(945.1)	(1,349.7)
Two-Year Deficit	(799.2)			

Joint Report General Fund Shortfall: March 2024 (\$ Millions)	FY 2024-25	FY2025-26	FY 2026-27	FY 2027-28
Sources Increase/(Decrease)	3.8	191.4	206.6	203.0
Uses (Increase)/Decrease	(239.8)	(744.7)	(1,133.6)	(1,564.6)
Projected Cumulative Surplus/(Shortfall)	(235.9)	(553.3)	(927.0)	(1,361.6)
Two-Year Deficit	(789.3)			

\$789.3 million shortfall, a modest improvement from the projected deficit in the January report due to some revenue improvements. Nonetheless, underlying trends of slow revenue growth were unchanged. Shortly thereafter, the City concluded labor negotiations for employees with expiring contract agreements, resulting in salary and benefit costs that were greater than those projected in the deficit.

Balancing the Budget

In their proposed budgets to the Mayor, departments responded to target reduction instructions, finding ways to reduce expenses, increase uses from alternative revenue sources, and eliminate outstanding balances in non-critical or completed projects. The Mayor’s Office made subsequent budget changes and reductions to balance and fund new wage increases negotiated with the City’s unions and other priorities.

The projected two-year deficit was closed through a series of changes that both made reductions in spending and leveraged new revenue sources to offset General Fund funding, including:

- Reducing expenses in Citywide operational spending including real estate, IT spending, and debt;
- Proposing fee increases across departments that charge for services to ensure they are keeping pace with the costs of those services;
- Shifting existing program funding within departments to special funds with dedicated revenue sources including the Children’s Fund,

Hotel Tax for the Arts Fund, the Babies and Families First Fund, as well as using fund balances built up in a multitude of other department-specific funds to keep programs whole;

- Continuing to hold non-critical positions vacant across departments and limiting the addition of new General Fund-funded positions;
- Reducing contract spending citywide, including in grant-making portfolios across multiple departments;
- Funding new capital and IT projects at reduced levels from recommended amounts in deficit projections;
- Leveraging significant one-time revenue sources, largely in the Department of Public Health;
- Other modest General Fund revenue improvements since the December report and March Update;
- Drawing on the use of a one-time reserve to help fund one-time expenses, such as capital investments.

Even with these reductions, funding swaps, and the use of reserves, the City’s projected structural deficit remains significant. Future budgets will need to continue making reductions or identify new revenue sources to address these deficits. In balancing this budget, the Mayor recognizes and invests in the City’s workforce and funds critical public safety and social services initiatives. Some of the key initiatives the budget expands and sustains are further described on the following page.

Balancing Snapshot	FY 2024-25	FY 2025-26
Projected Surplus/(Shortfall) - in millions	(235.9)	(553.3)
New Revenues & Sources		
Use of Fund Balance	71.0	64.7
Reserves & Deposits to Reserves	(5.5)	51.7
Revenue Improvements & Baseline Funding	147.7	88.9
Use of Special Funds	30.6	38.2
Expenditure Reductions & Savings/(Costs)		
Citywide Operating Savings	62.0	71.0
Departmental Budget Reductions & Savings	2.4	164.6
Reductions in Capital, IT Projects & Equipment	(23.3)	117.8
New Labor Costs	(48.9)	(43.6)
Adjusted Surplus/(Shortfall)	(0.0)	(0.0)

HIGHLIGHTS FROM THE FISCAL YEARS 2024-25 AND 2025-26 BUDGET

The Mayor’s proposed FY 2024-25 and FY 2025-26 budget makes investments in the following priority areas discussed further below and throughout this book:

- The City’s workforce;
- Public safety;
- Economic vitality
- Children and families;
- Homelessness;
- Public health;
- Core government operations & accountability.

Investing in our Workforce

The greatest investment in the Mayor’s proposed budget for FY 2024-25 and FY 2025-26 is in the City’s workforce of over 30,000 employees. The budget funds newly negotiated Memorandums

of Understanding (MOUs) with the City’s over 30 miscellaneous unions. All new agreements provide a wage increase of at least 13 percent over three years, with a total of nearly \$100 million in new funding above CPI budgeted for wages in FY 2024-25 and FY 2025-26. Along with the general wage increase, the proposed budget funds additional specific contract provisions across different unions, including the guarantee that every city worker will earn a minimum of \$25 per hour. These increased investments accompany an overall decrease in the City’s vacancy rate, down to 8.4 percent in May 2024 from 11.6 percent in July 2023.

Public Safety

The Mayor’s proposed budget prioritizes staffing up the City’s public safety agencies,

invests in technologies and tools to modernize our public safety systems, and continues to build on alternatives to traditional policing to support public safety operations citywide. Staffing investments at the Police, Fire, Sheriff, and Emergency Management Departments will allow for continued improvements in recruitment and retention to ultimately reduce reliance on overtime. In addition to funding new sworn staff to bolster traditional public safety throughout the City, the proposed budget also continues and expands civilianization efforts and alternatives to law enforcement where appropriate.

With voter approval of Proposition E in March 2024, the Police Department will be able to leverage funding in the proposed budget to expand its technological reach and optimize the allocation of human resources. With continued support for existing programs such as Police Service Aides, citywide Public Safety Ambassadors, and the Reserve Police Officer program, the proposed budget recognizes the success these efforts have played in making San Francisco a safer, more vibrant and welcoming city.

Further, the proposed budget increases funding at the Sheriff's Department to help fill vacancies and provide staffing support for custody services, including funding new wage increases and new longevity pay incentives.

Building Back Our Police Force

The Mayor's proposed budget expands investments within the San Francisco Police Department (SFPD) to continue making progress toward recruitment and hiring goals, aiming to restore staffing to pre-pandemic levels and create fully-staffed Department within three years. In addition to funding for new sworn officer positions, the proposed budget continues to focus on reform and the use of non-sworn civilian staff to carry out department operations where

appropriate. San Francisco has seen a recent increase in applications for officer roles over the last eighteen months and the Department is planning four full academy classes in Fiscal Year 2025 with up to 50 officers in each class.

In April 2023, the City agreed to a new Memorandum of Understanding (MOU) with the Police Department that recognizes and rewards officers currently in the department, and provides recruitment and incentive packages to attract both entry-level and mid-career officers to join and remain in the force. The first of these wage and retention benefits was activated in Fiscal Year 2024, and the proposed budget fully funds further wage and retention increases over the next two fiscal years to support recruitment and retention goals. Over the next two years, sworn staff will see both entry-level and continuing salaries increase 7.75 percent, as well as retention pay increases of 3 percent when officers reach five, seven, and eight years of service. Taken together, these investments in the proposed budget represent the City's commitment to achieving our staffing goals and make San Francisco the highest paid starting salary for officers of large Bay Area cities and provide significant retention incentives to keep our more experienced officers with the Department.

Enhancing Public Safety Operations & Systems

In March 2024, San Franciscans voted in support of Proposition E, which increases community engagement, reduces recordkeeping burden, sets new use-of-force and pursuit policies, and authorizes the Police Department to use new surveillance technology, including drones and public cameras. The Mayor's proposed budget includes \$3.7 million over two years for the department to implement these new technologies, starting with increased data and video collection from existing public safety

cameras and installation of new cameras in high-concern areas. Together, these investments will allow the department to tailor police staffing and response to areas in real-time, and help prevent and solve crimes. As these new tools are integrated into department operations, more officers will be able to be back on patrol.

The Mayor's proposed budget also continues investments in the progress being made through the Drug Market Agency Coordination Center (DMACC). DMACC, established in May 2023, is part of the City's comprehensive, multi-agency strategy to disrupt open-air drug markets, public drug use, and illegal fencing, especially in the Mid-Market and Tenderloin neighborhoods. Staffing support investments will fund the proactive work of the Police, Sheriff, Emergency Management, Fire, and Public Works departments engaging in DMACC-related activities.

In addition to the investments made in City departments for DMACC, Public Safety Ambassadors, which are concentrated in some of the City's most challenging corridors, are also funded in this budget and will continue to be strategically deployed through centralized coordination led by the Department of Emergency Management (DEM).

Fully Staffing San Francisco's 911 Dispatchers

The Mayor's proposed budget also includes funding to enable the Department of Emergency Management (DEM) to fill new dispatcher academies throughout the next fiscal year. The FY 2024-25 budget funds three POST classes with 15 candidates in each class, with the goal of returning to pre-pandemic standards, and supporting the department towards meeting their operational goals. DEM will utilize enhanced recruitment strategies such as moving applications online and updating testing and background processes to meet their hiring goals.

The Mayor's proposed budget also supports alternatives to policing by allocating \$3.0 million in funding for the Homeless Engagement Assistance Response Team (HEART) team in FY 2024-25 and FY 2025-26. The HEART team provides rapid response from trained non-law enforcement teams to people who are experiencing homelessness.

Additionally, the proposed budget also continues to invest in modernizing DEM's Computer Aided Dispatching (CAD) System, in order to upgrade and improve the critical tool used for the tracking, managing and dispatching of personnel for all 911 calls in San Francisco.

Economic Vitality

The Mayor's proposed budget is designed to drive economic recovery across the city. Investments include funding for targeted economic programs aimed at fostering a thriving economy both downtown and throughout the City's neighborhoods; continued funding for enhanced street cleaning operations, and bolstering staffing in departments managing the City's taxes.

Investments in the City's Economic Core

A package of downtown-focused investments seeks to increase foot traffic with activations, entertainment, and free parking on nights and weekends. Union Square Park will host expanded programming, while Powell Street will feature pop-ups and art exhibits. The budget also provides for 24/7 patrol and Welcome Ambassadors, who offer a warm and friendly presence to residents and visitors alike. The ambassadors engage with the public, helping with wayfinding and recommendations.

The budget also sets aside funding to support the establishment of a satellite campus for Historically Black Colleges and Universities (HBCUs) in San Francisco's downtown. Led by

the Human Rights Commission, the funds will allow San Francisco to expand access to culturally affirming higher education and create a pipeline of diverse young professionals. This initiative, aimed at attracting top talent to San Francisco and its thriving tech industry, focuses on securing partnerships with established HBCUs, obtaining necessary accreditations, and developing academic programs tailored to empower local youth. By fostering educational equity and community engagement, the project seeks to enhance the city's workforce diversity and support sustained economic growth.

Supporting Small Businesses

Proposed budget investments will fund the launch of over 100 new storefronts through the Vacant to Vibrant program and other budgeted grants will transform empty storefronts into active spaces, both downtown and throughout San Francisco's neighborhoods. The proposed budget also provides tenants with assistance with permitting, marketing, leasing and activation events, to help their businesses thrive.

The Mayor's proposed budget continues the First-Year Free program, which promotes economic recovery for small businesses by waiving first-year permits, initial licenses, and initial business registration fees. Since its launch in 2021, more than 6,000 businesses have enrolled, with nearly 4,000 of them being new, and the remainder consisting of existing businesses adding new locations.

Clean and Welcoming Streets

The proposed budget continues to invest funds for Public Works street cleaning operations across the city. This includes continued or expanded deployment of Public Works cleaning crews and contractors who power wash sidewalks, remove litter, and sweep gutters. The Department will also continue providing courtesy graffiti removal for storefronts and other private property in the

City's diverse neighborhood commercial corridors.

Tax Reform

Business tax revenue increasingly relies on the technology, financial services, and related office industries. These industries have embraced remote work after the pandemic, and reduced the amount of office space they lease, both in San Francisco and elsewhere. In this context, the City's high business tax burden, compared to alternative Bay Area office locations, may make it vulnerable to large taxpayers consolidating offices outside of San Francisco.

In 2023, the Controller, the Treasurer-Tax Collector, and the City's Chief Economist completed a thorough evaluation of the City's business tax system. Their resulting report, released in July 2023 revealed key vulnerabilities in San Francisco's business tax system amid the post-pandemic economy. To address these issues, Mayor Breed and members of the Board of Supervisors further requested that the City's Treasurer and Controller engage with the business community and other stakeholders to develop specific tax reform recommendations. The recommendations were released in February 2024 and form the basis for a series of tax reform measures that may be on the ballot in November 2024.

Managing a Surge in Tax Disputes

The proposed budget also funds additional staffing resources in the Office of the Assessor-Recorder, the Treasurer-Tax Collector, and City Attorney to defend the City's property values and address the post-pandemic surge in tax-related appeals, claims, and litigation. This investment will enable these departments to provide a timely resolution to taxpayers and manage increasing tax-related litigation against the City.

Children & Families

The Mayor's proposed budget prioritizes children, youth, and families through a series of investments

including citywide after-school and summer programming, expanding access to childcare, and providing funding directly to the San Francisco Unified School District (SFUSD).

Expanding Early Care and Education

In a continued effort to support families and enhance early childhood care and education, the Mayor's budget proposes a \$120 million investment to expand eligibility for early learning childcare vouchers. This expansion will now include families earning up to 150 percent of the Area Median Income (AMI), an increase from the current cap of 110 percent AMI, for the next two years.

Recognizing the needs of families with non-traditional work hours, this investment will also pilot an "odd-hour" care support model. This pilot includes extending childcare facility hours in the evenings and on weekends, benefitting parents with late or irregular shifts, including frontline workers.

Additionally, the proposed budget continues to fund programs aimed at recruiting and retaining early educators and improving childcare facilities. These programs are financed by the Commercial Rent Tax, approved by voters in June 2018, which is dedicated to supporting early childcare programs in San Francisco. Initiatives funded through this tax bolster the city's economy by creating jobs in early learning programs and providing childcare subsidies, ensuring access to early learning programs for children five and under.

Afterschool and Summer Programs

FY 2024-25 marks the first year in a new Five-Year contract cycle for the Department of Children, Youth, and Families (DCYF) with over \$100 million annually being granted out to community-based programs. For FY 2024-25, approximately \$31 million in funding will be

awarded to over 65 programs for comprehensive year-round and summer learning programs. The programs provide opportunities for children and youth from low-income and/or working families to engage in meaningful and relevant learning. These programs foster their curiosity, build their social and emotional skills, and creatively reinforce and expand on what they learn during the school day. They also provide opportunities for youth to be physically active, enjoy healthy foods, explore the world around them, and develop relationships with caring adults and peers.

Supporting Our Schools: The Public Education Enrichment & Student Success Funds

In addition to supporting children through summer and afterschool programming, San Francisco continues to provide funding directly to the San Francisco Unified School District (SFUSD) through two set-asides: The Public Education Enrichment Fund (PEEF) and a new voter-adopted set-aside established in 2022 called the Student Success Fund. PEEF provides or expands funding to support various programs at SFUSD, such as arts, athletics, physical education, academic and social emotional support programs, field trips, and various student nutrition and wellness initiatives. The Student Success Fund will provide grants to the SFUSD and schools to implement programs that improve the academic achievement and social and emotional wellness of students. The Mayor's proposed budget includes \$35.0 million in FY 2024-25 and \$45.0 million in FY 2025-26 for the Fund. For FY 2024-25, SFUSD is planning to invest majority of the funding in different grants to schools for Rapid Response, School Readiness, and Workforce Pipeline programs.

Homelessness

Mayor Breed's proposed FY 2024-25 and FY 2025-26 budget prioritizes critical investments to address homelessness, with a focus on reducing

family homelessness, expanding housing options for transitional age youth, and increasing the City's emergency shelter capacity. The proposed budget leverages \$88.2 million in Our City, Our Home (OCOH) funds, including interest earnings and funds earmarked for specific purposes, along with state grants and reallocated General Fund savings to support these initiatives.

Reducing Family Homelessness through the Safer Families Initiative

In recent months, San Francisco has experienced a significant increase in the number of families with children seeking emergency shelter due to post-COVID economic hardships and an influx of new families arriving in the city without access to housing. Mayor Breed, in collaboration with Supervisors Hillary Ronen and Myrna Melgar, has proposed the Safer Families initiative to address this growing crisis. The City's homelessness response system currently provides more than 300 family shelter and transitional housing beds and supports more than 2,300 units of family housing for formerly homeless households. However, the City lacks adequate shelter capacity for families needing emergency shelter and enough affordable housing for families to exit homelessness.

To address this urgent need, Mayor Breed has proposed a \$50.4 million investment in the expansion of emergency family shelter, rapid-rehousing subsidies, and time-limited rental assistance. The Safer Families plan includes \$11.6 million for 115 emergency hotel vouchers to provide temporary shelter serving over 600 families during the next 18 months. Additionally, the proposal allocates \$38.8 million for an additional 215 rapid rehousing and shallow rental subsidies for families, including 50 rapid rehousing subsidies specifically for young adult-headed families. The Department of Homelessness and Supportive Housing (HSH) expects that these additional investments, combined with HSH's

current funding level, will enable the rehousing of more than 450 families in the next two years, representing a significant step forward in addressing the growing challenge of family homelessness in San Francisco.

Expanding Housing Options for Transitional Age Youth

The 2024 Point-in-Time (PIT) Count saw a 9 percent decrease in the number of young people under age 24 experiencing unsheltered homelessness compared to 2022. However, the number of young people experiencing homelessness overall increased by 7 percent.

The Mayor's proposed budget includes a \$37.8 million investment in new rapid rehousing subsidies, permanent flexible housing and housing ladder subsidies, and acquisition of a new housing site for transitional age youth (TAY). The Mayor's proposed budget fully funds the initiative using OCOH funds earmarked for TAY housing. The proposal allocates \$29.8 million for 235 rapid rehousing subsidies, including 60 subsidies for youth exiting transitional housing and 15 subsidies for youth affected by violence. The proposal also includes \$1.5 million in ongoing funding for 50 permanent flexible housing subsidies or housing ladder subsidies, totaling \$3 million in the proposed FY 2024-25 and FY 2026-26 budget. Lastly, the Mayor's proposal allocates \$5 million to acquire a new housing site for justice-involved youth to support the Just Home Project, an initiative led by the MacArthur Foundation and Urban Institute focused on breaking the cycle of housing instability and incarceration.

Expanding the City's Emergency Shelter Capacity

The Mayor's proposed budget also leverages state grant funds and reallocated General Fund savings within the Department to maintain more than 4,000 beds citywide and add new shelter sites. This investment includes reallocating local funds and leveraging multiple grant funds to continue

more than 500 shelter beds that would otherwise have closed. The proposed budget funds 80 new slots at Jerrold Commons, a program in the Bayview that serves approximately 95 people by providing RV spaces and cabins. The proposed budget also allocates one-time funds to construct a temporary safe parking program once a site is identified.

Public & Behavioral Health

The Mayor's budget funds core public health programs with a focus on behavioral health services, addressing the ongoing opioid crisis, and staffing up the City's hospitals and clinics.

Continued Investments in Behavioral Health Programs and Crisis Response

The Mayor's proposed budget supports greater access to behavioral health treatment services, maintaining expanded hours and 7 day-a-week operations at the Behavioral Health Access Center (BHAC). The Department of Public Health (DPH) also continues to improve the cultural congruency of behavioral health care, creating more diversity in the mental health workforce to improve client engagement and meet the needs of the community.

Public Health's Behavioral Health Services Division will also continue its proactive outreach work as part of the City's multi-department approach to helping people in crisis on its streets, coordinated by DEM across the Police, Fire, Public Health, and Homelessness and Supportive Housing departments. As of December 2023, over 33,000 annual calls have been diverted from police to street response teams. Teams like the Bridge and Engagement Services Team (BEST) continue to provide direct street outreach focused on people with complex behavioral health needs. BEST is a neighborhood-based team of behavioral health clinicians and peer specialists who assess and connect people living on the streets to care. The budget also continues funding for Night

Navigators, a team operating in the Tenderloin from 7 p.m. to 3 a.m. to connect people with treatment and shelter and further, annualizes funding for the HEART program noted above.

Addressing the Opioid Crisis

In 2023, the City reached historic settlements with pharmaceutical chains, drug manufacturers, and distributors for their role in fueling the opioid epidemic in San Francisco. The Mayor's proposed budget includes nearly \$45 million of settlement funding over the two years for expanded high-impact services and a new sober living housing program, allowing the City to progress in implementing the Overdose Prevention Plan. These include maintaining the Night Navigator program as discussed above, funding for Safe Rest and additional navigation services in the Mission, and the piloting of assertive treatment interventions to move people from the streets into treatment and onto a path of stability and recovery. The funds will also strengthen existing methadone services in clinics while expanding service in the community through mobile services funded in the second year of the budget. Additionally, program expansion will aim to address racial disparities in overdose deaths as part of the Department's expansion of culturally congruent substance use treatment in the Black/African American community.

Nurses Wage Increases and Reducing Vacancies

As part of newly negotiated contract agreements, the Mayor's proposed budget also invests in the nurses who provide vital frontline services at the City's hospitals and health centers. With the new agreements, wages for the City's 1,900 nurses will increase 17.5 percent over three years, nearly \$30 million above CPI budgeted for nurse wages in FY 2024-25 and FY 2025-26. Additionally, the Department of Public Health has made significant progress filling positions to bring the nurse vacancy rate down to 1.7 percent in May 2024 from 9.9 percent in June 2023.

Core Government Operations and Accountability

Finally, the Mayor's proposed budget includes funding for building on citywide reforms to hiring, contracting, and other core operations. It also funds ongoing and new IT projects and makes investments in capital maintenance and critical repairs.

Hiring and Contracting Improvements

The Mayor's proposed budget continues its investment in staffing resources for the Government Operations Recovery initiative, a citywide effort focused on improvements to hiring, contracting, and other City processes that support the efficient and timely delivery of City services. In the upcoming year, cross-departmental teams in contracting, hiring, and financial management will build on new initiatives launched this past year. In contracting, projects include centralized contract review processes and the creation of a one-stop shop that consolidates procurement plans from Chapter 6 departments. In hiring, the Department of Human Resources (DHR) will increase the pace of administering civil service exams, build on the implementation of online, on-demand exams for certain position recruitments, as well as shorten the timeframes to onboard selected applicants.

Accountability in Spending and Contracting

The proposed budget continues investments in staffing and programs, through the Controller's Office and other agencies, to monitor, manage, and hold the City itself and its contractors accountable to the dollars they spend. For example, in the next year, the Controller's Office will expand its Citywide Nonprofit Monitoring and Capacity Building program and roll out new policies and tools to improve department oversight practices in contracting. This work includes:

- Setting new policies that outline specific performance oversight activities, such as setting performance measures, annual performance reporting, and standardizing monitoring procedures;
- Updating existing policies outlining how departments and the Controller's Office address persistent poor performance, such as clarifying the criteria and processes for fiscal and compliance monitoring, as well as criteria to guide departments on addressing and correcting performance issues with non-profits;
- Implementing a new policy requiring all nonprofits receiving \$750,000 or more from the City to receive an audit by a certified public accountant (CPA).

Investing in Capital and Information Technology

To address the City's growing facilities maintenance backlog, the Mayor's proposed budget funds more than 100 capital projects through \$138.0 million of General Fund support for Pay-As-You-Go Program over two years with front-loading into the first year to immediately address the most critical needs. An additional \$45 million in debt financing will help pay for ongoing street resurfacing and other critical renewal needs. The Mayor's proposed budget also identified and allocated \$14.7 million in bond interest accrued from past General Obligation bonds to fund eligible capital projects. Major capital projects include: completing Zuckerberg San Francisco General Hospital Clinical Lab replacement, continued construction and replacement of street curb ramps and conducting pothole repairs, replacing playing fields turf at Minnie Lovie Athletic Field and Beach Chalet Fields, and replacing outdated but critical technology and infrastructure systems at Department of Emergency Management headquarters.

The City continues to invest in vital technology projects through the Committee of Information Technology (COIT) allocation. The Mayor's

proposed budget designates \$50 million for 18 projects over the two budget years, including IT disaster recovery solutions to support critical business services, the Computer Aided Dispatch (CAD) system for public safety agencies set to go live in 2026, and funds the final stages of the new property assessment and tax system. Additionally, the budget includes a new generative artificial intelligence (AI) evaluation and support program to guide ethical AI adoption and enhance public services.

Balancing a \$789 million Deficit

San Francisco will continue to face challenging financial realities as its budget is re-aligned to

the post-pandemic economy. Revenue growth remains slow with expenditure growth far outpacing it. This gap creates large deficits and poses to for years to come absent major structural adjustments. Thus, this two-year budget had to be balanced through a series of tradeoffs including reduced spending and leveraging all available funding sources beyond the General Fund, including new revenues.

In balancing this budget, the Mayor recognizes and invests in the City's workforce and funds critical public safety and social services initiatives. It creates the foundation for a prosperous future for all of San Francisco.

HOW TO USE THIS BOOK

MAYOR'S PROPOSED TWO-YEAR BUDGET

The Mayor's proposed Fiscal Year (FY) 2024-25 and 2025-26 budget for the City and County of San Francisco (the City) contains citywide budgetary and fiscal policy information as well as detailed departmental budgets for General Fund and Enterprise Departments. The proposed budget is organized into the following sections:

EXECUTIVE SUMMARY includes the Mayor's Letter and the Executive Summary of the proposed budget. It provides a high-level overview of the City's budget, the changes from the prior budget year, an update on how the budget was balanced, and other high-level details on specific policy areas that are changing in the proposed budget.

SAN FRANCISCO: AN OVERVIEW provides a high-level overview of economic, demographic, and financial trends in San Francisco.

SAN FRANCISCO PERFORMANCE MEASURES features a selection of measures related to the Mayor's priorities and data on how the City has performed in these key service areas in recent years.

BUDGET PROCESS describes the various financial planning and budgeting processes and reports that inform the budget process.

BUDGET INFORMATION AND SUMMARY TABLES provides technical information on the structure, policies, and processes that govern the City's budget development and implementation as well as high-level financial data summarizing the Mayor's proposed budget. Tables detail changes over a three-year period: FY 2023-24 budgeted, and the proposed (FY) 2024-25 and 2025-26 budgets. The variance column measures the dollar

and position differences between fiscal years. Summary data is provided on a citywide basis and organized in a variety of ways, including by department, major service area, revenue or expenditure type, and by fund type.

DEPARTMENT BUDGETS provides budgetary information and operational priorities for each of the City's departments. Department information is organized alphabetically by department name and includes the following information:

- Mission statements with a website link to learn more about the department's latest updates.
- Budget Issues and Details explains any significant service level changes in (FY) 2024-25 and 2025-26, and highlights key areas of focus.
- Performance Measures illustrates the department's progress in meeting strategic goals.
- Organizational Chart depicts the department's organizational structure.
- Total Budget – Historical Comparison Chart illustrates the department's total revenue sources, expenditures, and funded positions over time.

BONDED DEBT AND LONG-TERM OBLIGATIONS provides technical information as well as current data on the City's debt portfolio and other long-term obligations.

CAPITAL PROJECTS provides information on capital projects funded in the proposed budget. It provides an overview of the City's capital planning process and budget development. Capital projects generally include major construction of new or existing buildings, roads, and other investments in the City's physical infrastructure. Specific projects are detailed in this section.

INFORMATION AND COMMUNICATION

TECHNOLOGY PROJECTS provides a summary of information technology (IT) projects funded in the proposed budget. It provides an overview of the City's IT planning process and budget development. IT projects generally refer to new investments and

replacement of the City's technology infrastructure. Specific projects are detailed in this section.

ADDITIONAL RESOURCES provides additional information related to the City's budget and finances as well as a glossary of commonly-used terms.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City and County of San Francisco
California**

For the Fiscal Year Beginning

July 01, 2023

Christopher P. Morill

Executive Director

*The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the City and County of San Francisco, California for its annual budget for the fiscal year beginning July 1, 2023. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

SAN FRANCISCO: AN OVERVIEW

BAYVIEW

SAN FRANCISCO: AN OVERVIEW

CITY GOVERNANCE AND STRUCTURE

The City and County of San Francisco (the City) was established by Charter in 1850 and is a legal subdivision of the State of California. It is the only consolidated city and county in the State, exercising the governmental powers of both a city and a county under California law. The City's governance structure, codified in the City Charter of 1996, is similar in form to the federal government. The Mayor's Office comprises the Executive branch, while the Board of Supervisors and Superior Court act as the Legislative and Judicial branches, respectively.

The Mayor and all 11 members of the Board of Supervisors serve four-year terms. In November 2022 San Francisco voters passed Proposition H, shifting Mayoral elections to even-numbered years starting with the next Mayoral election, which will be held in November 2024. Board of Supervisors elections are held in even-numbered years and are

staggered, with five or six seats being open each election. Any vacancies on the Board of Supervisors are filled by Mayoral appointment. Both the Mayor and members of the Board of Supervisors are limited to two terms.

Each of the City's 11 districts is represented by a member of the Board of Supervisors. Beginning in November 2000, the Board of Supervisors was elected by district for the first time since the 1970s. The Mayor appoints the heads of most city departments. Many departments are also advised by commissions or boards whose members are citizens appointed by the Mayor or, in some cases, by a combination of the Mayor, the Board of Supervisors, and other elected officials. Other elected officials include the Assessor-Recorder, City Attorney, District Attorney, Public Defender, Sheriff, Superior Court Judges, and Treasurer.

DEMOGRAPHIC AND ECONOMIC STATISTICS

Incorporated on April 15th, 1850, San Francisco is the fourth largest city in the State of California and geographically the smallest county. Occupying just 49 square miles of land, the city is located on a peninsula bounded by the Pacific Ocean to the west, San Francisco Bay to the east, the entrance to the Bay and the Golden Gate to the north, and San Mateo County to the south.

While the government has played a key role in San Francisco's development, the true wealth of the City resides in the creative and entrepreneurial spirit of its pioneering citizens.

According to the U.S. Census Bureau, San Francisco's population was 808,988 on July 1, 2023. From July 2022 to July 2023, the City's population increased by 1,214 people, a 0.2 percent increase. Comparatively, in 2023, Los Angeles and Santa Clara counties lost 56,420 and 743 people, respectively.

International immigration has long been a major contributor to San Francisco's cultural diversity. 35.4 percent of the City's population over the age of five was born outside of the United States, and about 43 percent speak a language other than English at home. Immigration and its legacy contribute to a sense of diversity in San Francisco and positions the City's future labor force for success in the global economy.

According to the U.S. Census Bureau American Community Survey 2018-2022, 38.3 percent of the San Francisco population identifies as white, 34.5 percent identifies as Asian, 15.5 percent identifies as Hispanic or Latino, 4.9 percent identifies as Black or African American, 5.5 percent identifies with two or more races, 0.4 percent identifies as Native Hawaiian and other Pacific Islander, and 0.2 percent identifies as American Indian and Alaska Native.

LOCAL ECONOMY

San Francisco is at the center of a dynamic and innovative region with a long track record of creating jobs and opportunities, lasting social and cultural impacts, and tools and ideas that are used worldwide. While post-pandemic changes in work and retail create new challenges for the City’s economic future, the long-term fundamentals of the City’s economy remain strong.

The strength of San Francisco’s economy comes from a diverse portfolio of well-established industries and businesses. In addition to being an economic center for advanced, knowledge-based services such as professional and financial services, information technology and digital media, and healthcare, San Francisco is pushing to develop new and innovative fields in civic-based and green technologies to help grow its manufacturing sector.

Although San Francisco represents only 2.1 percent of California’s population, it accounted for 8.8 percent of Gross Domestic Product growth in the State from 2017 to 2022. During the same period, the City created 1 in 4.8 new jobs in the nine-county Bay Area.

Nonetheless, San Francisco must contend with major structural changes adopted during the pandemic that persist, namely, the high level of remote work. This has significant economic implications for San Francisco. Office attendance in large metropolitan areas is only at a 45 to 65 percent range of pre-pandemic levels and has only marginally improved over the past year. Remote work is one of the major reasons why San Francisco’s economy has been slower to recover than other cities.

Meanwhile, the City’s housing market remains under pressure due to the higher interest

WEEKLY SAN FRANCISCO HOTEL OCCUPANCY RATE. 4-Week Moving Average, March 30, 2024. Source: STR.

rate environment and other factors. The City's residential building permit activity based on the Department of Housing and Urban Development (HUD) uniform reporting dropped by 37.4 percent in 2020, mainly due to COVID-19 related shutdown. It is important to note that the building permit indicator is volatile and only covers new private construction in the city. The HUD survey data may only partially capture actual housing production as it omits public housing or any other projects that may be considered alteration and not require a new construction permit. Nonetheless, the HUD data is an important source and points to weakness in the private housing production in the city.

High interest rates are not just affecting building permit activity – they are also hampering real estate transactions, which have an impact on the City's property tax revenues. In 2023 and beyond, the key macroeconomic question is how inflation responds to rising interest rates. The Federal

Reserve's restrictive monetary policy has been largely successful in curbing inflation, which also benefited from ease in disruptions in the supply chain and labor supply constraints. Over the past six months, inflation has come down to a 3.1-3.5 percent range, far below the average of 8 percent for 2022. The inflation rate has cooled considerably but remains above the Federal Reserve's annual inflation target of 2.0 percent. Therefore, any prospect of a rate cut seems remote in the near future, given the economy's overall strength and recent uptick in inflation measures.

Other measures of economic recovery performance include hotel occupancy rates, BART downtown station exits, Muni metro ridership, and passenger boardings at San Francisco International Airport (SFO). Additionally, hotel occupancy rates have reached relatively normal levels over the last year and a half, and things are heading in the right direction, albeit slowly.

SAN FRANCISCO INTERNATIONAL AIRPORT ENPLANEMENTS.

Domestic and International, Through January 2024. Source: San Francisco International Airport (SFO).

BART downtown exits and Muni metro ridership indicate weakness in the city's economic recovery. This reflects a new reality as office attendance and working from home have become more prevalent and a new normal. Muni metro ridership fared a bit better and has reached the 60-63 percent range of pre-pandemic levels. This is one of the critical areas of concern for sectors, such as retail and food service, which depend upon the foot traffic in the city.

In contrast from local travel, passenger boardings at the San Francisco International (SFO) reflect the continued strength of the city's tourism industry and a hopeful look ahead of the general health of the local economy. Both domestic and

international enplanements fell precipitously during the height of the pandemic. However, since January 2024, the international sector has fully recovered, and domestic air travel is also on its way to full recovery.

Structural changes to the City's economy that were brought about by the pandemic combined with macro-economic forces, including interest rates and inflation, will determine the outlook for the City's budget in the next several years. Nonetheless, San Francisco's long-term economic fundamentals—the quality of its workforce, business environment, technological base, and general quality of life—remain among the strongest of any city in the United States.

SAN FRANCISCO: PERFORMANCE MEASUREMENT

The Controller’s Office works with the Mayor’s Office every year to monitor the performance of City departments. This helps to evaluate the effectiveness of services provided by the City and County of San Francisco. Each department collects data on a series of performance measures connected with their strategic plans. Departments report on their results in the prior years, in addition to their projected performance this year and performance targets for the next two fiscal years for the Mayor’s Budget Book. Performance data for every City department is available in the Department Budget section of this Budget Book. This section features a selection of measures related to some of the Mayor’s priorities: Behavioral Health, Homelessness, Housing, Equity, and Public Safety. The sections below include monthly and annual data showing how the City has performed in these priority areas in recent years.

Public Safety

Property and Violent Offenses

The San Francisco Police Department (SFPD) reports the number of Part I Property and Part I Violent Offenses reported to the FBI under the Uniform Crime Reporting (UCR) program. Theft from Vehicles are a subset of Part I Property crimes. As FY 2023-24 progresses, all three categories show a downward trend in reporting.

During the first six months of 2023, counts of reported Part I Violent Offenses remained relatively similar month to month. Meanwhile, counts of reported Part I Property Offenses fluctuated up and down. Relative to July of 2023, December’s reported Part I Property offenses were down 38.9 percent, Thefts from Vehicles were down 46.3 percent, and Part I Violent offenses were down 19.8 percent.

*Data in this table reflect point-in-time data reported in the SFPD Crime Dashboard.

NUMBER OF PART I PROPERTY AND VIOLENT OFFENSES.

SFPD also reports on Part I Property and Part I Violent Offenses reported per 100,000 population, calculated as the number of Part I Property or Part I Violent Offenses divided by the current San Francisco population, and multiplied by 100,000. Through 2023, the number of Part I Property and Part I Violent offenses trended downwards compared to the start of the year.

Behavioral Health

The Department of Public Health (DPH) reports on new and updated measures that track trends in the City’s overdose prevention efforts and substance use services. The measures do not have any prior targets because this is the first year they were set. The new measures in this section focus on the reach of services and treatments for substance use disorder and response to overdoses.

Number of unique individuals receiving a mental health service in the SF Health Network

The San Francisco Health Network (SFHN) provides care to those diagnosed with a mental health disorder through a variety of treatment settings. This measure counts the unique number of individuals receiving at least one mental health service through the SFHN. Services include

behavioral health in primary care; outpatient, outreach, linkage, and residential treatment in specialty mental health care; patient treatment; as well as services provided in the private provider network, at Laguna Honda Hospital, and at ZSFG for jail health clients. The metric will likely be revised in the future as DPH transitions to a new electronic health record system that will change how the data is sourced.

Since December 2023, 26,669 unique individuals have received at least one mental health service in the SFHN and the City is expected to reach it’s FY 2023-24 goal of 40,800 individuals.

Number of naloxone doses distributed

Naloxone (also known by the brand name Narcan) is a medication used to reverse opioid overdoses. Anyone can administer the drug to a person experiencing an overdose on opioids including fentanyl, heroin, and prescription opioid medications. DPH offers free naloxone in settings including community-based programs, DPH pharmacies, and a request-by-mail program.

This measure tracks the scale of distribution of naloxone in the City. Since the measure was implemented in 2022, the City has doubled the

distribution of naloxone doses from 65,877 to 135,610.

Number of unique patients on methadone (citywide)

This measure tracks the number of patients taking methadone, a medication used to treat opioid use disorders. As part of the City’s focus on interventions to reduce overdose deaths, DPH began tracking the number of patients on methadone in 2022. Methadone is a federally regulated drug and can only be provided in certain settings that meet federal regulations.

The number of patients receiving methadone increased from 2,241 in 2022 to 2,352 in 2023.

Homelessness

Direct Exits from Homelessness

The Department of Homelessness and Supportive Housing (HSH) operates programs to help households exit homelessness into housing. Direct exits are the total number of individuals and families exiting homelessness through participation in three types of City programs: Permanent Supportive Housing, Rapid Rehousing, and Problem Solving.

Permanent Supportive Housing places households into long-term affordable housing and includes

a range of supportive services such as case management. Rapid Rehousing is a time-limited subsidy to help tenants live in private-market units and access support services. Problem Solving provides interventions to divert people from homelessness through services such as relocation and financial assistance.

Since 2021, the City has greatly increased the number of households who exited homelessness as new housing and problem-solving resources became available in 2022 and 2023.

Percentage of all available year-round adult homeless shelter beds used

Temporary shelter programs provide places for people to stay while accessing other services and seek housing solutions. These programs include Emergency Shelters, Navigation Centers, Cabins, Trailers, and Urgent Accommodation Vouchers, among others. In addition to temporary shelter, the City also offers crisis intervention programs, which provide overnight amenities including bathrooms, showers, food, and case management services.

The City aims to fill at least 95 percent of available adult temporary shelter beds each year. With the

DIRECT EXITS FROM HOMELESSNESS.

exception of FY 2019-20, the City has been within three percentage points of the 95 percent target for the past five fiscal years.

Number of households that secured and/or maintained housing due to homelessness prevention grant

The City tracks the number of households that secured or maintained housing due to a homelessness prevention grant provided through the Department of Homelessness and Supportive Housing (HSH). This assistance can be used for a variety of needs associated with securing or retaining housing, including move-in costs, or rent owed. These figures do not include rent relief and eviction prevention programs administered by the Mayor’s Office of Housing and Community Development (MOHCD).

During the pandemic, the number of households receiving grants dropped because alternative programs were able to help households maintain housing such as the California Eviction Moratorium and California COVID Rent Relief Program. In 2022, applications for HSH grants began to rise with the end of state and federal programs. The City is

projected to exceed its target of 600 households receiving a one-time homelessness prevention grant.

Housing

The number of newly constructed low-and-moderate income rental units completed with public financial assistance is one measurement of the growth in the City’s affordable housing stock. The Mayor’s Office of Housing and Community Development (MOHCD) is responsible for managing the Low and Moderate Income Housing Asset Fund, which finances programs and projects intended to increase the number of low-and-moderate income rental units on the housing market. In 2024, MOHCD is targeting to complete 452 units based on a combination of in-progress projects as well as additional projects scheduled to break ground shortly.

The number of individuals that received services related to accessing affordable housing

The number of individuals that received services related to accessing affordable housing is another key measurement of the City’s commitment to increasing housing resources for those with low-

HOMELESSNESS GRANTS.
Number of households that secured and/or maintained housing due to homelessness prevention grant.

to-moderate incomes. With the assistance of organizational partnerships, MOHCD offers pre- and post-purchase homeownership education and counseling, rental housing application assistance, and individual financial education related to accessing the City’s Below Market Rate (BMR) opportunities. In FY 2022-23, MOHCD provided affordable housing services to 13,289 individuals. Last year was the fifth consecutive year in which MOHCD surpassed its targeted number of individuals served. MOHCD attributes its success in this service area to strong partnerships with organizations that provide direct services, coordinate homeownership and rental counseling services, integration in the management of grants and the BMR lottery, and staff involvement in aligning nonprofits’ operations with City systems.

Equity

Advancing equity among San Franciscans remains a top priority for the Mayor. The following measures track various programs that aim to serve the City’s most marginalized communities. These measures are important for ensuring that

all residents have access to education, economic prosperity and mobility.

Number of job placement through the Opportunities For All program

The number of individuals placed in jobs through the Opportunities For All program is one measurement of San Franciscans’ access to workforce development opportunities to support the local economy. The Human Rights Commission (HRC) administers the Opportunities For All initiative, which is providing more than 4,000 paid internships for youth to gain relevant skills and experience that will prepare them for their future careers. The initiative especially focuses on youth of color, who make up 95 percent of participants. In 2023, the number of program participants placed into full-time jobs increased by 574 participants. This was also the fifth consecutive year in which HRC surpassed its targeted number of participants placed into full-time jobs. The Opportunities For All initiative aims to continue to provide lifelong mentorships and career development opportunities to increase the number of people of color working in high-opportunity

JOB PLACEMENT. Number of job placement through the Opportunities For All program.

industries to foster a robust and equitable economy of the future.

Percent of Participants in DCYF-funded programs from populations that demonstrate increased levels of need

Enhancing the accessibility of high-quality resources and services for underserved populations is one strategy for promoting greater equity within San Francisco. The Department of Children, Youth and Their Families (DCYF) administers the City’s investments in children, youth, transitional age youth, and their families through the Children and Youth Fund. In FY 2023, DCYF invested \$165 million in funding to support programs in

the following service areas: educational supports, enrichment, leadership and skill building. Program participants from populations that demonstrate increased levels of need made up 74.3 percent of total participants, which was slightly below DCYF’s target of 75 percent. The year 2023 marked the third consecutive year in which DCYF increased the proportion of program participants from populations of need. DCYF expects to meet its target this year. DCYF aims to continue its commitment to providing equitable resources and services to strengthen communities and make San Francisco a great place to grow up.

BUDGET PROCESS

THE CASI PRO

LONG-TERM FINANCIAL PLANNING PROCESS

The Constitution of the State of California requires all cities to adopt a balanced budget wherein revenues match expenditures. To ensure that San Francisco can meet its immediate needs while planning for long-term growth, the City has adopted a process that develops annual budgets alongside multi-year financial plans. This process assumed its current form with the passage of Proposition A on November 3, 2009, which replaced annual budgeting with two-year budgeting, and required additional long-term financial planning.

The sections below provide an understanding of the processes that guide San Francisco's multi-year and annual financial plans.

Multi-Year Financial Planning Process

The City operates on a two-year budget, which is guided by two fundamental components. The first consists of the City's revenue and expenditure projections, which are developed via four analytical assessments. The second consists of the City's financial and reserve policies, which assume unexpected fiscal pressures that may not be accounted for in the revenue and expenditure projections. In addition, the City's long-term information technology and capital needs are assessed through citywide processes. The components and processes that guide San Francisco's multi-year plans are described in more detail below.

Two-Year Budget Cycle

On November 3, 2009, voters approved Proposition A, amending the City Charter to stabilize spending by requiring two-year budgeting for all city departments and multi-year financial planning.

In Fiscal Year (FY) 2010-11, the City adopted two-year budgets for the following four departments: Airport, Port, Public Utilities Commission, and Municipal Transportation Agency. These four

departments proposed fixed two-year budgets for FY 2024-25 and FY 2025-26. The rest of the City's departments will submit rolling two-year budgets over the same period. Two-year budgeting has been in effect for all departments since FY 2012-13.

Long-Term Operating Revenue and Expenditure Projections

The City's budget process is guided by operating revenue and expenditure projections. The Controller's Office, Mayor's Office, and the Board of Supervisors are responsible for the City's long-term financial planning. These three offices cooperate to produce four reports, including a Five-Year Financial Plan each odd calendar year, the Joint Report each even calendar year, and the Six- and Nine-Month Reports each February and May. Together, these reports provide the basis for developing the City's budget. The reports are described below and can be accessed online at sf.gov/departments/controllers-office.

The Controller's Six-Month Budget Status Report, published annually in early February, projects the year-end status of the City's General Fund and key special revenue and enterprise funds based on financial activity from July through December. Issues identified within this report can then be incorporated into mid-year budgetary adjustments as necessary.

The Four-Year Budget Projection ("Joint Report"), published each even calendar year, reports on projected citywide revenues and expenditures for the following four fiscal years. First required by voters in 1994, this analysis captures significant one-time budgetary items in addition to forecasting revenue and expenditure trends into the future. Beginning in FY 2011-12, the Joint Report was extended to forecast four years into the future (prior to FY 2011-12, the report projected three years into the future.) This change was required by Proposition A, which also required adoption of a biennial Five-Year Financial Plan. The Joint Report now serves as an "off-year"

update to the Five-Year Financial Plan and projects out the remaining four years of the prior year's plan. The Joint Report was last published on March 29, 2024, as an update to the City's Five-Year Financial Plan for FY 2024-25 through FY 2027-28.

The Five-Year Financial Plan, published first in December of each odd calendar year and then updated in March, forecasts expenditures and revenues over a five-year period, proposes actions to balance revenues and expenditures during each year of the plan, and discusses strategic goals and corresponding resources for city departments. On January 13, 2023, the Mayor proposed the City's seventh Five-Year Financial Plan for Fiscal Years 2023-24 through 2027-28, which was updated on March 31, 2023 and heard by the Board of Supervisors on April 12, 2023.

The Controller's Nine-Month Budget Status Report, published annually in early May, reports financial activity from July through March and includes the projected year-end status of the City's General Fund and key special revenue and enterprise funds. A comprehensive review of revenue and spending to date and discussions with financial officers at major city departments drive the report's year-end projections.

Taken as a whole, these reports are used by the Mayor's Office to prepare a balanced budget to propose to the Board of Supervisors each year and to plan for long-term financial needs. The reports provide information on the financial resources available to fund the City's programs and projections of future costs.

Capital and Information Technology Projections

As noted above, the City also engages in long-term planning for the City's infrastructure and information technology (IT) needs. Managed by the City Administrator, the City has completed comprehensive assessments of the City's near- and

long-term capital and IT needs through the creation of the Ten-Year Capital Plan and the Information and Communications Technology (ICT) Plan, each of which is issued biennially in odd calendar years in conjunction with the City's Five-Year Financial Plan.

The Capital Plan is prepared under the guidance of the Capital Planning Committee (CPC), while the Committee on Information Technology (COIT) oversees the ICT Plan. Both committees work to identify, assess, and prioritize needs for the City as they relate to capital and IT investments. They also present departments with the opportunity to share information about the impact to operating costs that projects generate.

Funding for capital and technology is appropriated through the City's budget process. While the creation of the Capital and ICT Plans does not change their basic funding mechanisms, the priorities in the capital and IT budgets do reflect the policies and objectives identified in each respective plan.

Further information about capital and IT planning and expenditures can be found in the Capital Planning and Information Technology sections of this book.

Financial Policies and Enhanced Reserves

The City's budget is further guided by financial policies that plan for unforeseen financial circumstances that cannot be factored into revenue and expenditure projections. Proposition A charges the Controller's Office with proposing to the Mayor and Board of Supervisors financial policies addressing reserves, use of volatile revenues, debt, and financial measures in the case of disaster recovery, and requires the City to adopt budgets consistent with these policies once approved.

In May 2010, legislation was adopted to codify the City's practice of maintaining an annual General Reserve for fiscal pressures not anticipated in the budget and to help the City mitigate the impact of multi-year downturns. This included augmentation of the existing Rainy Day Reserve and the creation of a

new Budget Stabilization Reserve funded by excess receipts from volatile revenue streams.

Finally, independent auditors who certify the City's annual financial statements and credit ratings from the national bond rating agencies provide additional external oversight of the City's financial matters.

Mission-driven budgeting, as described by the City Charter, requires department budget requests to include goals, programs, targeted clients, and strategic plans. The requested budget must tie program funding proposals directly to specific goals. In addition, legislation passed by the Board of Supervisors requires performance standards to increase accountability. The City and County of San Francisco operates under a budget that balances

all operating expenditures with available revenue sources and prior-year fund balance.

Governmental financial information statements are reported using the modified accrual basis of accounting. Revenues are recognized when they are measurable and available, and are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are generally recorded when a liability is incurred as under accrual accounting. However, debt service expenditures and expenditures related to vacation, sick leave, and claims and judgments are recorded only when payment is due.

The City adopts annual budgets for all government funds on a substantially modified accrual basis of

ANNUAL BUDGET PROCESS

accounting, except for capital project funds and certain debt service funds that generally adopt project-length budgets.

The budget of the City is a detailed operating plan that identifies estimated costs and results in relation to estimated revenues.

The budget includes: the programs, projects, services, and activities to be provided during the fiscal year; the estimated resources (inflows) available for appropriation; and the estimated changes to appropriations. The budget represents a process through which policy decisions are deliberated, implemented, and controlled. The City Charter prohibits expending funds for which there is no legal appropriation.

Two-Year Budget Cycle

As described in the previous section, in November 2009, voters passed Proposition A, which amended the City Charter to require the City to transition to a two-year budget cycle for all departments by FY 2012-13. In FY 2010-11, the City adopted two-

year budgets covering FY 2010-11 and FY 2011-12 for four early implementation departments: the Airport, Municipal Transportation Agency, Public Utilities Commission, and Port Commission. FY 2012-13 was the first year that all city departments submitted a two-year budget for FY 2012-13 and 2013-14. Also for the first time that year, the four early-implementation departments had a "fixed" two-year budget. This means that in the second year, these departments could only amend their budget if proposed revenues or expenditures were 5.0 percent above or below projections. All other departments retained a variable two-year budget and thus are open to changes and must be rebalanced as part of the next two-year budget. Moving to a fixed two-year budget for all departments would require the passage of legislation by the Board of Supervisors. The two-year budget is developed, approved, and implemented pursuant to the process described below.

Key Participants

- Residents provide direction for and commentary

on budget priorities throughout the annual budget process. Input from residents through virtual feedback forms, stakeholder working groups convened by the Mayor's Office, public budget hearings, and communication with elected officials are all carefully considered in formulating the Mayor's proposed budget.

- City departments prioritize needs and present balanced budgets for review and analysis by the Mayor's Office of Public Policy and Finance.
- The multi-year budget projections described in the previous section as well as the Capital Planning Committee (CPC) and Committee on Information Technology (COIT) provide guidance to the Mayor's Office on both long-term fiscal trends as well as citywide priorities for capital and IT investments.
- The Mayor, with the assistance of the Mayor's Office of Public Policy and Finance, prepares and submits a balanced budget to the Board of Supervisors on an annual basis.
- The Board of Supervisors is the City's legislative body and is responsible for amending and approving the Mayor's proposed budget. The Board's Budget and Legislative Analyst also participates in reviews of city spending and financial projections and makes recommendations to the Board on budget modifications.
- The Controller is the City's Chief Financial Officer and is responsible for projecting available revenue to fund city operations and investments in both the near- and long-term. In addition, the City Services Auditor Division of the Controller's Office is responsible for working with departments to develop, improve, and evaluate their performance standards.

Calendar and Process

Beginning in September and concluding in July, the annual budget cycle can be divided into three major stages (see calendar at the end of this section):

- Budget Preparation: budget development and submission to the Board of Supervisors.

- Approval: budget review and enactment by the Board of Supervisors and budget signing by the Mayor.
- Implementation: department execution and budget adjustments.

Budget Preparation

Preliminary projections of Enterprise and General Fund revenues for the next fiscal year by the Controller's Office and Mayor's Office staff begin in September. Around this time, many departments begin budget planning to allow adequate input from oversight commissions and the public. In December, budget instructions are issued by the Mayor's Office and the Controller's Office with detailed guidance on the preparation of department budget requests. The instructions contain a financial outlook, policy goals, and guidelines as well as technical instructions.

Three categories of budgets are prepared:

- General Fund department budgets: General Fund departments rely in whole or in part on discretionary revenue comprised primarily of local taxes such as property, sales, payroll, and other taxes. The Mayor introduces the proposed General Fund budget to the Board of Supervisors on June 1.
- Enterprise department budgets: Enterprise departments generate non-discretionary revenue primarily from charges for services that are used to support operations. The Mayor introduces the proposed Enterprise budgets to the Board of Supervisors on May 1.
- Capital and IT budgets: Capital and IT budget requests are submitted to the CPC and COIT for review. The recommendations for each committee are taken into account during the budget preparation process. The City's Ten-Year Capital Plan is brought before the Board of Supervisors and Mayor for approval concurrently with the General Fund and Enterprise department budgets.

Between December and early February, departments

prepare their budget requests and submit them to the Controller by mid-February. The Controller consolidates and verifies all of the information that departments have submitted. The Controller submits departments' proposed budget requests to the Mayor's Office of Public Policy and Finance for review in early March.

From March through June, the Mayor and the Mayor's Office of Public Policy and Finance analyze each budget proposal, examining policy and service implications in order to meet citywide needs and reflect the Mayor's goals and priorities for the upcoming year. Concurrently, the Controller's Office certifies all revenue estimates.

From February through May, the Mayor and Mayor's Office of Public Policy and Finance staff conduct a comprehensive outreach process to understand the budget priorities of San Francisco's communities and address these priorities in the budget. Additionally, the Mayor and the Mayor's Office of Public and Policy Finance meet with community groups to understand community members' neighborhood and citywide priorities for the upcoming budget. All San Franciscans have the opportunity to submit their budget priorities and feedback to the Mayor's Office of Public Policy and Finance by email and/or online form. The Mayor's Office use all feedback to make decisions about the upcoming budget that reflect the needs and priorities of San Francisco community members.

Total budget requests must be brought into balance with estimated total revenues, which requires the Mayor's Office of Public Policy and Finance to prioritize funding requests that typically exceed projected available revenues. Before the Mayor's proposed budget is introduced to the Board of Supervisors, the Controller ensures that the finalized budget is balanced and accurate.

Approval

Upon receiving the Mayor's proposed budget, the Budget and Appropriations Committee of the Board of Supervisors holds public hearings during the month of June to review departmental requests and solicit public input. The Budget and Appropriations Committee makes recommendations to the full Board for budget approval along with their proposed changes. Since budget review lapses into the new fiscal year, the Interim Budget—usually the Mayor's proposed budget—is passed by the Board as a continuing resolution and serves as the operating budget until the budget is finalized in late July. The Mayor typically signs the budget ordinance into law by August.

The Budget and Appropriations Committee works closely with the Board of Supervisor's Budget and Legislative Analyst (BLA), which develops recommendations on departmental budgets. Informed by departmental discussions that center on justifications for proposed expenses and comparison with prior year spending, the BLA forwards a report with recommended reductions. The Budget and Appropriations Committee reviews the Budget Analyst's recommended expenditure reductions, along with department and public input, before making final budget recommendations to the full Board of Supervisors.

Because the budget must be balanced, expenditure reductions that are made to General Fund departments represent unallocated monies that the Board of Supervisors can apply to new public services or to offset proposed budget cuts. The Board of Supervisors generates a list of budget policy priorities that the Budget and Appropriations Committee uses to guide funding decisions on the unallocated pool of money. The Budget Committee then votes to approve the amended budget and forwards it to the full Board by June 30th.

As required by the City Charter, the Board of Supervisors must vote on the budget twice between

July 15 and August 1. At the first reading, which occurs the first Tuesday after July 15, amendments may be proposed and, if passed by a simple majority, added to the budget. These amendments may be proposed by any member of the Board of Supervisors and can reflect further public input and/or Board policy priorities. At the second reading, the Board votes on the amended budget again, and, if passed, the budget is forwarded to the Mayor for final signature. If additional amendments are proposed during the second reading, the budget must go through another reading a week later. Final passage by the Board must occur before the August 1 deadline.

The Mayor has 10 days to approve the final budget, now called the Budget and Appropriation Ordinance. The Mayor may sign the budget as approved by the Board, making it effective immediately, or may veto any portion, whereupon the budget returns to the Board of Supervisors. The Board has ten-days to override any or all of the Mayor’s vetoes with a two-thirds majority vote. In this case, upon Board vote, the budget is immediately enacted, thus completing the budget process for the fiscal year.

Should the Mayor opt not to sign the budget within the ten-day period, the budget is automatically

enacted but without the Mayor’s signature of approval. Once the Budget and Appropriation Ordinance is passed, it supersedes the Interim Budget.

Implementation

Responsibility for execution of the budget rests largely with departments. The Mayor’s Office and the Controller’s Office monitor department spending throughout the year and take measures to mitigate overspending or revenue shortfalls. Both offices, as well as the Board of Supervisors, also evaluate departments’ achievement of performance measures on a periodic basis.

Budget adjustments during the fiscal year take place in two ways: through supplemental appropriation requests, and through grant appropriation legislation. Supplemental appropriation requests are made when a department finds that it has inadequate resources to support operations through the end of the year. Grant appropriations occur when an outside entity awards funding to a department. Both supplemental and grant appropriation requests require approval by the Board of Supervisors before going to the Mayor for final signature.

BUDGET INFORMATION & SUMMARY TABLES

OUTER
SUNSET

GENERAL FUND REVENUE & EXPENDITURE TRENDS

OVERVIEW

Each year, the City prepares a budgetary forecast of General Fund-supported operating expenditures and revenues, and projects either a surplus or shortfall between the two. In odd-numbered years, the Mayor's Office works with the Controller's Office and the Board of Supervisors' Budget and Legislative Analyst to forecast revenue and expenditures to prepare the City's Five-Year Financial Plan. The most recent update to the Five-Year Financial Plan (also called the Joint Report) was released in

March 2024. The March Joint Report projected deficits of \$235.9 million in FY 2024-25, \$553.3 million in FY 2025-26, \$927.0 million in FY 2026-27, and \$1,361.6 million in FY 2027-28.

The City is legally required to balance its budget each year. The proposed FY 2024-25 budget totals \$15.9 billion, a \$1,251.6 million, or 8.6 percent, increase over the FY 2024-25 budget. The proposed FY 2025-26 budget totals \$15.5 billion, a \$373.9 million, or 2.4 percent, decrease over the FY 2024-25 proposed budget.

TRENDS IN GENERAL FUND SOURCES

Total General Fund resources – which include revenue, transfers, fund balance, and use of reserves – are projected to increase by \$25.9 million in FY 2024-25, or 0.4 percent above the FY 2023-24 original budget, and increase by \$246.0 million, or 3.6 percent, in FY 2025-26.

REGULAR REVENUES. General Fund regular revenues make up 92.6 and 93.2 percent of total General Fund resources in FY 2024-25 and FY 2025-26, respectively. General Fund tax revenues have been profoundly affected by the pandemic. The revenue outlook for the City is closely tied to the recovery of sectors most impacted or transformed during the COVID-19 pandemic, including tourism and office-using industries. In this budget, the revenue forecast assumes long-term structural change in office usage due to the prevalence of hybrid and remote work. This negatively impacts property, transfer, and business taxes beyond the budget

period. The City's hospitality-based taxes are expected to rebound after FY 2027-28.

Regular revenues are budgeted to decrease by \$46.5 million in FY 2024-25, 0.7 percent less than the FY 2023-24 original budget, and increase by \$267.6 million in FY 2025-26, 4.2 percent higher than the FY 2024-25 proposed budget. The FY 2024-25 decrease is largely driven by reductions in intergovernmental payments from the State and Federal government, partially offset by growth in interest income and departmental charges for services from the FY 2023-24 budget. Tax revenue is nearly flat from FY 2023-24 budget, reflecting lowered FY 2023-24 revenue expectations reported in the Controller's Six and Nine Month Reports. In FY 2025-26, revenue growth is driven by increases in business, hotel, and transfer taxes, growing \$71.0 million, \$30.6 million, and \$48.7 million, respectively from

the FY 2024-25 budget. Additionally, Federal Emergency Management Agency reimbursements for COVID-19 and the 2023 Winter Storms are expected to increase by \$75.7 million from \$80.0 million in FY 2024-25 to \$155.7 million.

USE OF FUND BALANCE AND USE OF

RESERVES. The proposed budget allocates \$445.4 million in General Fund year-end fund balance as a source in the two budget years. The budget also withdraws \$135.0 million from reserves in the two budget years, including \$54.8 million from the Budget Stabilization One Time Reserve, \$38.3 million from the Federal and State Emergency Revenue Reserve, \$29.5 million from the Business Tax Stabilization Reserve, and \$15.5 million from various other reserves.

OPERATING TRANSFERS-IN. Transfers into the General Fund are budgeted at \$206.9 million in FY 2024-25, which is \$4.4 million, or 2.1 percent, less than what was budgeted in FY 2023-24. In FY 2025-26, transfers-in are budgeted at \$203.9 million, which is \$3.0 million, or 1.4 percent, less than the proposed FY 2024-25 budget. These transfers include a portion of Airport concessions revenue and 15 percent of commercial rent tax collections as authorized by June 2018 Proposition C.

Detail about General Fund Revenues

Property Tax Revenue

Both commercial and residential property valuations continue to be in flux due to remote work and high interest rates. High construction costs and difficult access to capital have led to a pause in construction of some entitled development projects. Assessments and taxes are based upon market valuations as of January 1st preceding any new fiscal year (starting on July 1st).

The FY 2023-24 General Fund share of property tax revenue is budgeted at \$2,469.6 million, which

is \$40.4 million, or 1.6 percent, less than the FY 2023-24 budget. The FY 2025-26 General Fund share of property tax revenue is budgeted at \$2,465.8 million, which is \$3.8 million, or 0.2 percent, less than the proposed FY 2024-25 budget.

The budget assumes secured roll growth of 3 percent in FY 2024-25 and 2.0 percent in FY 2024-26, including the 2 percent inflation allowed under the state constitution, and unsecured values are projected to remain at current levels. Approximately \$110.2 million is assumed diverted from the General Fund to tax increment financing districts in FY 2024-25, increasing to \$126.5 million in FY 2025-26. Of these totals, approximately \$7.2 million per year is diverted to tax increment financing districts such as the Treasure Island and Mission Rock projects, and the remainder to projects of the former redevelopment agency.

The budget assumes \$2.5 billion of reductions in current year local assessment values in each of the two budget years, which translates to approximately \$14.0 million in General Fund property tax revenues refunded annually. Additionally, the budget assumes refunds of \$118.9 million in General Fund revenue from appeals of assessed values filed in FY 2024-25 and \$136.1 million from appeals filed in FY 2025-26 will need to be paid at such time as the Assessment Appeals Board determines reductions.

Supplemental assessments capture changes in value for the portion of the tax year remaining after an assessable event—a change in ownership or new construction—results in a change in the base year assessed value of a property. Supplemental property taxes are estimated at \$31.0 million in each of FY 2024-25 and FY 2025-26. Escape assessments capture a full year's increase in assessed value up to four years

after the event trigger date and are estimated to generate \$16.0 million in FY 2024-25 and \$18.0 million in FY 2025-26.

Excess Educational Revenue Augmentation Fund (ERAF) revenue represents the amount of property tax revenues initially diverted from the City to help the state meet its funding obligations for K-14 education. The amount that exceeds these entities' revenue limits is returned to the City. Excess ERAF revenues are budgeted at \$311.6 million in FY 2024-25 and \$294.8 million in FY 2025-26, based on current state law. The Governor has proposed to changes to ERAF allocation effective FY 2025-26, which would, if enacted, reduce General Fund excess ERAF by approximately \$43.0 million annually. The VLF backfill amount, which is paid to locals from ERAF, is budgeted at \$373.0 million in FY 2024-25 and \$380.0 million in FY 2025-26. At this time there are no state proposals that would affect the City's VLF backfill.

Business Tax Revenue

The FY 2024-25 budget projects General Fund business tax revenue to reach \$883.0 million, representing a \$31.9 million, or 3.7 percent increase from the FY 2023-24 budget. The FY 2025-26 budget anticipates a further increase of \$71.0 million, or 8.0 percent increase in business tax revenue, bringing the projected total to \$954.0 million. Business tax revenue is comprised of business registration fees, administrative office tax, and gross receipts tax.

San Francisco gross receipt taxes are determined in part by the proportion of businesses' employees that physically work within City limits. Responding to the pandemic, workers who previously commuted into the City began telecommuting from home, outside the City, and business tax revenue fell accordingly. This dynamic continues to affect the City.

Office attendance has stagnated at around 40 percent to 45 percent of pre-pandemic levels according to office security company Kastle Systems. Based on survey data from WFH Research, employers plan for employees who can work from home to do so about 2.2 days per week, on average, a level that has remained essentially stable for more than a year. With lower office attendance and layoffs in the technology sector, office vacancy rates continue to rise, reaching 32.4 percent in the first quarter of 2024 according to real estate firm JLL. Considering stable levels of remote work and vacancy rates that continue to increase, the projection assumes economic growth rates of 0.0 percent in FY 2024-25 and 2.0 percent in FY 2025-26.

The budget accounts for two pieces of legislation that passed last year: a delay of tax increases for business categories most acutely affected by the pandemic, and a tax reduction for businesses that sign new leases in the City.

Sales Tax Revenue

In FY 2024-25, local sales tax revenue is budgeted at \$193.7 million, which is \$6.4 million, or 3.2 percent, lower than what was budgeted in FY 2023-24. FY 2025-26 local sales tax revenue is budgeted at \$198.9 million, which is \$5.3 million, or 2.7 percent, higher than the proposed FY 2024-25 budget.

Sales tax experienced significant losses during the COVID-19 public health emergency shut-downs. The budget assumes sales tax revenues will decrease in FY 2024-25 but slowly reach pre-pandemic levels by FY 2027-28. Factors such as inflation, interest rates, store closures, online shopping, and a shift in spending patterns toward nontaxable services have resulted in fewer luxury and discretionary purchases.

Transient Occupancy (Hotel) Tax

The FY 2024-25 General Fund share of hotel tax revenue is budgeted at \$285.2 million, which is \$17.7 million, or 5.9 percent, less than what was budgeted in FY 2023-24. FY 2025-26 revenue is budgeted at \$315.8 million, an increase of \$30.6 million, or 10.7 percent, from the proposed FY 2024-25 budget.

The City's hotel tax experienced an unprecedented decline in FY 2020-21, with a 90 percent revenue drop compared to pre-pandemic levels. The City's budget assumes hotel tax will improve in FY 2024-25 and FY 2025-26, but it will not reach pre-pandemic levels until after FY 2027-28. Because conventions drive up hotel room rates through compression pricing, the return of conferences and conventions plays a key role in the recovery of hotel tax revenues. In the first three quarters of FY 2023-24, San Francisco hosted 28 conferences with over 320,000 attendees, and is projected to reach 38 conferences and 423,000 attendees by year end. This is compared to 54 events with over 723,000 attendees in FY 2018-19.

While enplanements at San Francisco International Airport (SFO) have improved steadily since the pandemic, these gains are not resulting in proportionate growth in hotel tax, as more passengers are flying out of SFO than into SFO for leisure and work. As of March 2024, domestic and international enplanements in FY 2023-24 to date were 11.8 percent greater than FY 2022-23, though still 10.3 percent below FY 2018-19. Current domestic seat capacity is 18.5 percent lower and international seat capacity is 3.7 percent higher than FY 2018-19. International travel has shown signs of recovery since travel restrictions were lifted in Asia in early 2023; however, visitor numbers from China, the largest Asian market pre-pandemic, are far from recovery.

Real Property Transfer Tax Revenue

Real property transfer tax revenue is budgeted at \$218.9 million in FY 2024-25, representing a decrease of \$3.1 million, or 1.4 percent, below what was budgeted in FY 2023-24. In FY 2025-26, revenue is budgeted at \$267.6 million, an increase of \$48.7 million, or 22.3 percent, above the proposed FY 2024-25 budget.

The high interest rate environment makes borrowing more difficult for individuals and businesses, and persistent remote work makes office space less attractive. The budget assumes FY 2024-25 and FY 2025-26 transfer taxes grow from a low in FY 2023-24 to a new long-term average by FY 2027-28. FY 2023-24 transfer tax is expected to be worse than FY 2022-23 transfer tax, dropping across-the-board to levels not seen since FY 2003-04 and FY 2009-10. Considering the highly volatile nature of this revenue source, the Controller's Office monitors collections throughout the fiscal year and provides regular updates to the Mayor and Board of Supervisors.

Overpaid Executive Tax

The overpaid executive tax is budgeted at \$140.0 million in both FY 2024-25 and FY 2025-26. This tax is based on the ratio of a business's highest-paid managerial employee's compensation to the median compensation paid to the business's employees based in the City. The tax is levied on any business with a ratio exceeding 100:1, progressively increasing at higher ratios, which is expected to lead to some revenue volatility. Other factors contributing to fluctuations include the narrow base of expected taxpayers, annual fluctuations in the value and form of executive compensation, and the risk of tax avoidance. In tax year 2023, nearly half of the total tax was paid by the top five taxpayers. Estimates based on prior years' activity may not be predictive of future revenues.

State and Federal Grants and Subventions

General Fund federal grants and subventions are budgeted at \$436.6 million in FY 2024-25, which is \$72.5 million, or 14.2 percent, less than what was budgeted in FY 2023-24. In FY 2025-26, federal grants and subventions are budgeted at \$518.5 million, which is \$81.9 million, or 18.8 percent, less than the proposed FY 2024-25 budget.

These changes are largely driven by reimbursements from the Federal Emergency

Management Agency (FEMA) for the City's COVID-19 emergency response. FEMA reimbursements are budgeted at \$80.0 million in FY 2024-25, which is \$90.0 million, or 52.9 percent, less than what was budgeted in FY 2023-24. In FY 2025-26, FEMA reimbursements are budgeted at \$155.7 million, which is \$75.7 million, or 94.6 percent, less than the proposed FY 2024-25 budget. The City's FEMA forecast is based on updated timelines upon which FEMA will obligate and remit funds for the COVID-19 public health emergency.

USE TRENDS

Personnel Expenses

The proposed budget includes an increase in total labor costs of \$283.9 million, or 4.2 percent, from FY 2023-24 and an additional increase of \$287.2 million, or 4.0 percent, for all funds in FY 2024-25 and FY 2025-26, respectively. This total increase includes an increase in General Fund labor costs of \$140.3 million, or 4.5 percent, in FY 2024-25 and an additional increase of \$118.0 million, or 3.6 percent, in FY 2025-26. The change in FY 2024-25 and FY 2025-26 is driven by cost of living adjustment increases to wages for all City employees per adopted labor contracts and increases in employee benefit costs in health and retirement.

Non-Personnel Expenses

General Fund non-personnel expenses – including professional services, materials and supplies, aid assistance, grants, capital projects and equipment, facilities maintenance, debt service, services of

other departments and contributions to reserves – will decrease by \$58.1 million, or 2.4 percent, in FY 2024-25 and will further decrease by \$26.0 million, or 1.1 percent, in FY 2025-26. In FY 2024-25, the change is primarily due to reductions to capital and community based organization (CBO) grants and shifting CBO grants to non-General Fund sources. The change in FY 2025-26 is primarily due to further reductions to capital and General Fund community based organization (CBO) grants.

Transfers Out

Transfers Out of the General Fund are budgeted at \$1.20 billion and \$1.36 billion in FY 2024-25 and FY 2025-26, respectively, representing a reduction of \$57.0 million in FY 2024-25 from the previous year and an increase of \$152.4 million in FY 2025-26. Changes are primarily due to changes in mandatory baseline funded requirements.

SPENDING MANDATES AND DISCRETIONARY SOURCES

The General Fund represents 43.2 percent and 45.8 percent in FY 2024-25 and FY 2025-26, respectively, of the City's total budget. General Fund discretionary spending capacity, however, is less, due to voter- approved minimum spending requirements. San Francisco voters have

passed ballot measures that require minimum spending levels for certain operations, including the Children's Baseline, the Transitional Youth Baseline, Our City Our Homes Baseline, Early Care and Education Baseline, the Public Library Baseline, the Public Transportation Baseline, the

City Services Auditor operations, the Municipal Symphony Baseline, Housing Trust Fund, Dignity Fund, Street Tree Maintenance Fund, Recreation and Parks Baseline, Student Success Fund and required reserve deposits.

These requirements are discussed in detail in the Controller's discussion of the Mayor's Budget, also known as the Revenue Letter, published the second week of June 2024.

FUND STRUCTURE

The fund structure chart below maps out how the City's revenue and expenditures are organized within the budget. At its most basic, a budget is divided into revenues (sources) and expenses (uses). Budgets like San Francisco's (a consolidated city and county), contain a detailed organizational scheme to group, categorize, and identify revenues and expenses. The tables displayed in the following pages summarize proposed revenues and expenditures by funding sources and uses at multiple levels, by service area, and by full time equivalent FTE employee counts.

In the public sector, financial activity is planned and recorded in a series of funds, which are created to reflect restrictions on the uses of different types of revenue. For example, enterprise funds are used to account for activities primarily funded by user charges, such as the Port, Airport, MTA and Public

Utilities Commission. The General Fund is the City's largest single fund. Because it contains revenues with the broadest allowable uses (tax proceeds), it is the focus of a large amount of budget discussion and deliberation.

A **fund** is a high-level classification unit that is organized according to its purpose.

An **account** is a unique six digit code that identifies the general nature of a source or use, at its lowest level of detail. A value between 400000 and 499999 denotes a source, while a value between 500000 and 599999 denotes a use.

Accounts can be summarized at different levels. For the reports contained in this book, accounts are summarized at Level 5, into a 4 digit code. For example, accounts 501010 - Permanent Salaries and 501070 - Holiday Pay roll up to an Account Level 5 of 5010 - Salaries.

BUDGET SUMMARY TABLES

ACADEMY OF SCIENCES

MISSION

The Academy of Sciences (The Academy) is an aquarium, planetarium, rainforest, and natural history museum in the heart of San Francisco's Golden Gate Park. The Academy's mission is to regenerate the natural world through science, learning, and collaboration. It is a leading institution for biodiversity research and exploration, environmental education, and sustainability across the globe. For more information about this department's services, please visit calacademy.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$7.6 million for the Academy of Science is approximately \$0.198 million, or 2.7 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefit cost increases. The FY 2025-26 proposed budget of \$8.6 million is \$0.9 million, or 12.4 percent, higher than the FY 2024-25 proposed budget. This change is primarily due increases in interdepartmental spending.

Exhibit Accessibility

The Academy offers a variety of free and reduced admission opportunities and access programs that bring the wonders of science and the natural world to life for over 210,000 visitors each year. The "Academy for All" initiative serves children and their families annually through free and low-cost programs including free admission days, free field trips, and special programs targeting youth traditionally underrepresented in STEM fields. The Academy partners with many of the City's community based organizations to highlight this accessibility. From

toddlers to young adults, the Department provides pathways for discovery, learning, and workforce development.

Capital Investment

The Academy continues to invest in facilities maintenance and building projects intended to keep the Steinhart Aquarium in working order and ensure a safe environment for staff, visitors, and live animals. This investment in preventative maintenance will decrease future facilities maintenance costs and represents an investment in City resources.

Philanthropic Endeavors

The Academy of Science's fundraising efforts are focused on museum accessibility and our three major initiatives: Hope for Reefs II, Thriving California, and Islands 2030. These initiatives align with the Academy's mission and leverage exhibits within the museum to inspire better understanding and regeneration of the natural world.

STUDENTS ADMITTED FREE. *The Academy continues to expand its free admission program for San Francisco School Groups.*

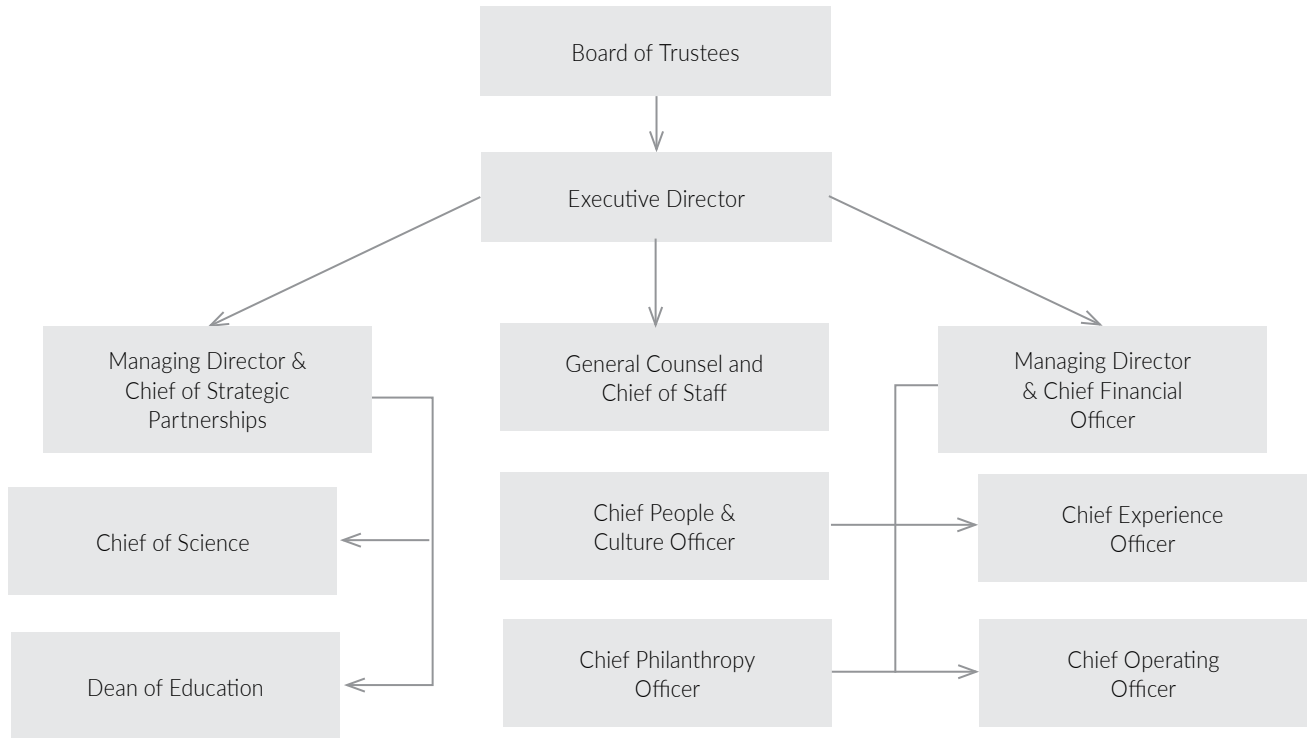

NUMBER OF VISITORS. *On average, the Academy hosts over 1 million visitors each year.*

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

ADULT PROBATION

MISSION

The mission of the Adult Probation Department (ADP) is to protect and serve the community, further justice, inspire change, and prioritize racial equity. ADP collaborates with the courts and numerous partners and community-based organizations, and provides evidence-based supervision and holistic and client-centered services. ADP values the diversity of its clients and invests in their success by providing a continuum of integrated services designed to address individual needs and help clients permanently exit the criminal justice system. ADP offers its reentry services to all justice-involved individuals, not just those on formal supervision. For more information about this department's services, please visit sf.gov/departments/adult-probation-department

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$61.0 million for the Adult Probation Department is \$2.9 million, or 4.9 percent, higher than the FY 2023-24 budget. This is primarily due to increased investments in transitional housing. The FY 2025-26 proposed budget of \$60.0 million is \$1.0 million, or 1.6 percent lower than the FY 2024-25 proposed budget. This change is due to one-time funding for community programs in FY 2024-25 expiring.

Housing and Supportive Services for Justice Involved

The Mayor's proposed budget includes funding to support a variety of community based services for justice-involved adults. The budget funds behavioral health and transitional housing programs.

The Community Assessment and Services Center (CASC) is a behavioral health-focused, multi-service

one-stop reentry center that bridges Adult Probation Department (ADP) supervision services with comprehensive support services. Support services include case management, medication management, mentoring, 1:1 therapy, support groups, barrier removal, education and employment services. The proposed budget includes \$3.4 million for CASC clinical and reentry case management; medication management and outpatient treatment services.

The proposed \$3.7 million investment in the Minna transitional housing program provides 72 units of housing with case management, mental health and substance disorder treatments. The Her House transitional housing \$2.3 million investment expands services for justice-involved women and their children. This women's alternative sentence program will support 39 women and children with recovery focused programming.

Organizational Development

ADP will continue organizational development initiatives to improve department operations. The proposed budget includes \$100,000 to update the department's strategic plan. In addition, the department will continue to participate in the National Institute of Justice (NIJ) Coaching Model project. This Five Year Project proposes changes to the department's engagement with clients and partners and compliments the department's strategic and racial equity planning.

Recognizing the importance staff plays in ADP's organizational development efforts, the budget maintains staffing to reflect department post pandemic recruitments to ensure adequate staffing of department operations.

Technology Improvements

The Mayor's proposed budget continues to support technology that expands probation services and improves operational efficiencies. The budget

includes \$650,000 to fund Case Management System (CMS) replacement. The new CMS will automate operational practices and data collection; update court reports, case plans, reassessments and other department documents; and produce customized reports. The budget also funds Electronic Monitoring and Automated Telephone Reporting systems.

Mobile Probation Service Centers

ADP is a member of a multi-agency effort led by the Mayor's Office and Department of Emergency Management (DEM) to address homelessness and activities related to the drug trade in target areas. The Mayor's proposed budget includes \$507,000 to fund a Mobile Probation Service Center (MPSC). ADP will deploy the MPSC to these target areas to increase service accessibility, client engagement in services, and officer engagement with unhoused clients.

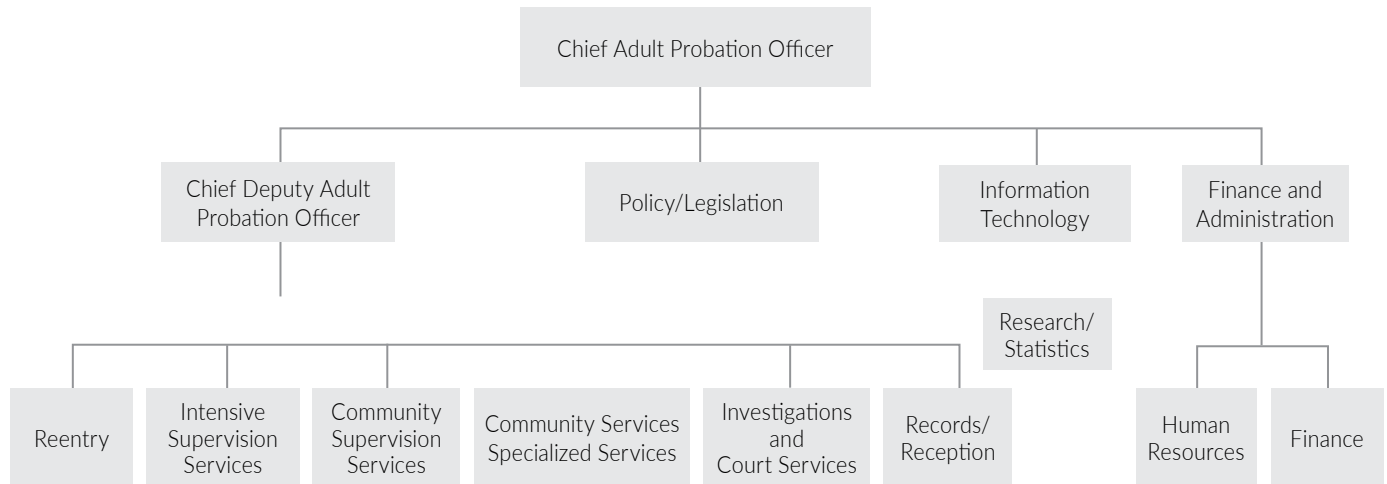

FY 2022-23 HOUSING AND BEHAVIORAL HEALTH SERVICES.
Addressing Justice-Involved Client's Behavioral Health and Housing Needs.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

AIRPORT

MISSION

Delivering an airport experience where people and our planet come first. For more information about this department's services, please visit [flysfo.com](https://www.flysfo.com).

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$2.1 billion for the Airport is \$705.6 million, or 54.1 percent, higher than the FY 2023-24 budget. This is primarily due to an increase in capital spending and non-personnel costs. The FY 2025-26 proposed budget of \$1.8 billion is \$213.4 million, or 10.6 percent, lower, than the FY 2024-25 proposed budget. This change is due to a decrease in one-time capital spending from the prior year.

Passenger Growth

Passenger traffic is forecast to grow by 14.2 percent over the next two fiscal years. The Annual Service Payment (ASP) to the City is based upon non-aviation concession revenues and is highly dependent on passenger levels. With additional

passenger activity, the ASP is forecast to grow by 11 percent over the next two years.

Airport Integrated Operations Center (AIOC)

The AIOC is a new initiative that provides a cohesive operations team that ensures safety for passengers, employees, airlines, and tenants. The AIOC was an initiative studied pre-pandemic when the Airport was seeing peak passenger levels and flagging areas of risks and threats. It will provide operational visibility and coordinated communications across the Airport to ensure operational continuity. It is a single source of information for operational status that will allow proactive management of anticipated issues by leveraging predictive insights. To implement the AIOC, the budget includes over 40 new positions.

PASSENGER ENPLANEMENTS SCENARIO. *Enplanements are expected to fully recover to FY 2018-19 pre-pandemic levels in FY 2024-25 and to exceed FY 2018-19 pre-pandemic levels in FY 2025-26.*

Accelerating Sustainability

The Airport continues to be an industry and community leader in sustainability. Key milestones include achieving the highest certification level from the Leadership in Energy and Environmental Design (LEED v4) and a Fitwel certification, leading the industry in Sustainable Aviation Fuel pipeline deliveries and expanding the Zero Waste Concessions Policy to prohibit the sale of all beverages in plastic bottles or aseptic paper packaging. Looking ahead, SFO will continue to deliver progress in its net zero initiatives.

Career Pathway Programs

The Airport has a longstanding commitment to youth employment programming, allowing participants to build professional skills essential for the workforce through internships, apprenticeships, fellowships, and training programs. The Airport's budget reflects investments to support its outreach strategy for

Career Pathway Programs focused on building a talent pipeline to meet the Airport's operational needs. For example, SFO's Summer High School Internship program focuses on airport operations and career paths into City employment.

The Airport continues to partner with the Mayor's Opportunities for All (OFA) program, an initiative aimed at connecting young people of all backgrounds to paid employment, job training, and mentorship opportunities.

The Airport focuses on hiring local youth and students from diverse communities aligned with its Racial Equity Action Plan. To provide in-depth learning experiences, the Airport offers Career Advance Internships with job training workshops. The Airport's Career Pathway Programs also provides valuable work experience. Interns, trainees, fellows, and apprentices play a vital role in the operation of SFO.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26
GOAL	ACTUALS	PROJECTED	TARGET	TARGET
Deliver exceptional business performance				
Total concession revenue per enplaned passenger	\$13	\$13	\$12	\$13
Amount of annual service payment to the City's General Fund, in millions	\$48	\$55	\$51	\$58
Total Annual Non-Airline Revenue	\$538,697,646	\$595,429,573	\$556,453,000	\$625,270,000
Percent of tenant businesses with active Green Business certifications	14%	20%	20%	23%
Percent of small business participation in Construction Sector	21%	18%	20%	20%
Percent of small business participation in Concession Sector	34%	32%	30%	30%
Annual percent of Non-Airline Revenue (as % of Total Operating Revenue)	49%	50%	48%	46%
Nurture a competitive air service market				
Airline cost per enplaned passenger in nominal dollars	\$24	\$22	\$22	\$25
Average passport processing times in SFO's customs area (in minutes) compared to other US airports of comparable passenger traffic.	2.3	2.0	4.0	4.0
Percent change in domestic air passenger volume	20%	7.0%	20%	9.7%
Annual percent of total international passengers market share (as % of total SFO passenger traffic)	27%	21%	21%	25%
Be the industry leader in safety and security				
Number of Airport-controlled runway incursions	3.0	6.0	0.0	0.0
Number of Annual Unauthorized Access Events (UAE) classified as "Criminal Intent"	1.0	3.0	0.0	0.0
Annual percent of the Airport tenants' ground support equipment inventory that has had safety inspections conducted through its Ground Support Equipment Safety Inspection Program.	8.0%	9.5%	10%	10%
Achieve net zero energy and zero waste by 2021				
Percent of campus wide electricity use generated from Airport-owned renewable energy sources per Fiscal Year	1.6%	2.0%	2.0%	2.5%
Reduction in terminal natural gas usage per square foot as a percentage of 2013 baseline	11%	10%	10%	12%
Reduction in terminal electricity usage per square foot as a percentage of 2013 baseline	19%	18%	13%	14%
Campus wide water savings per passenger relative to 2013 baseline	21%	20%	20%	22%
Percent of campus wide waste, by mass, diverted from landfill (including ADC)	62%	70%	70%	72%
Revolutionize the passenger experience				
Overall rating of the airport (measured by passenger survey where 5 is outstanding and 1 is unacceptable)	4.1	4.1	4.1	4.1

ARTS COMMISSION

MISSION

The San Francisco Arts Commission (ART) champions the arts as essential to daily life by investing in a vibrant arts community, enlivening the urban environment, and shaping innovative cultural policy. The Commission values the transformative power of art as critical to strengthening neighborhoods, building infrastructure and fostering positive social change. Additionally, the Commission strives to ensure a vibrant San Francisco where creativity, prosperity and progress go hand in hand. For more information about this department’s services, please visit sfartscommission.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$29.7 million for the Arts Commission is \$13 million, or 30.4 percent, lower than the FY 2023-24 budget. This is primarily due to expiring one-time capital funds that were budgeted in FY 2023-24. The FY 2025-26 proposed budget of \$28.2 million is \$1.6 million, or 5.3 percent, lower than the FY 2024-25 proposed budget. This change is due to expiring one-time grant funds and capital projects.

ART’s Role in the Citywide Economic Recovery

The Arts Commission (ART) continues to support San Francisco’s citywide economic recovery through grants to individual artists, arts and culture nonprofits, and the City’s seven cultural centers. The Arts Commission enlivens and activates spaces throughout the City by commissioning new public artworks and installing temporary public art. As visitors have returned to performances and special events, the local economy is stimulated through dining and shopping at small businesses. The arts and culture sector produces employment

opportunities for the creative community and draws residents and tourists to neighborhoods’ cultural sites across the City.

FY 2023-24 INDIVIDUAL ARTIST GRANTEEES. ART supports San Francisco artists and arts organizations representing historically underserved communities through grants.

Hotel Tax Arts Allocation

Hotel tax revenue allocated to ART supports historically underserved communities through grants to individual artists and organizations, technical assistance and capacity building, economic development, education initiatives and community-based Cultural Centers. In FY 2023-24, the Arts Commission engaged with the arts community to complete the second five-year Cultural Services Allocation Plan, as required by Proposition E. This will guide the distribution of funds over the next five years in ways that reflect and respond to the community's needs.

The San Francisco Arts Commission will continue working towards providing equitable access to cultural resources and creating more sustainable impact across the arts community.

Civic Art Collection

In June of 2023 the Arts Commission partnered with the Human Rights Commission and the Recreation and Parks Department to convene a Monuments and Memorials Advisory Committee (MMAC). Under direction of the Mayor, the

MMAC's purpose was to examine San Francisco's public monuments and memorials and how the narratives associated with these monuments align or do not align with San Francisco's values today.

In June 2023, the Arts Commission was awarded a three-year grant by the Mellon Foundation to pursue the recommendations provided in the MMAC report. The Art's Commission's resulting project, Shaping Legacy, is a multi-year, equity-focused commitment to critically examine the monuments and memorials in San Francisco's Civic Art collection. Through the Shaping Legacy project, the Arts Commission seeks to holistically assess the Civic Art Collection, build awareness around the collection and processes, rectify current power imbalances, and engage community members. Shaping Legacy will include communities that have historically been excluded from discussions, produce an Equity Audit report, create opportunities for artist-led activations in public spaces, and support temporary installations that reimagine future monuments and memorials in San Francisco.

NEW PUBLIC ART COMMISSIONED AND PURCHASED IN FY 2023-24. ART invests in new public artworks created by diverse artists to enhance San Francisco's public spaces.

ASIAN ART MUSEUM

MISSION

The Asian Art Museum (the Museum) celebrates, preserves, and promotes Asian and Asian American art and cultures for local and global audiences. We provide a dynamic forum for exchanging ideas, inviting collaboration, and fueling imagination to deepen understanding and empathy among people of all backgrounds. For more information about this department’s services, please visit asianart.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024–25 budget of \$12.0 million for the Asian Art Museum is \$0.6 million, or 5.1 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefits cost increases. The FY 2025-26 proposed budget of \$12.5 million is \$0.5 million, or 4.3 percent, higher than the FY 2024-25 proposed budget. This change is also due to salary and benefit cost increases.

Ongoing Priorities

One of the top priorities of the Asian Art Museum is to create thought-provoking experiences that demonstrate the impact and relevance of Asian and Asian American art and culture in contemporary life. Its focus is to challenge stereotypes, create cross-cultural understanding, celebrate heritage and innovation, and connect the past to both present and future.

VISITOR ORIGIN. A majority of the Museum’s visitors were Bay Area locals.

The Museum has recently adopted the following core strategic priorities:

- Become experience-centered
- Accelerate digital transformation
- Double and diversify audiences
- Increase and diversify revenues

A privately funded exhibition pavilion opened in July 2021 and a new rooftop art terrace opened in the fall of 2023. The transformed space and museum priorities will allow the Museum to increase its contribution to the economic recovery of the City, the City’s global tourism market, and vitality of the Civic Center neighborhood.

Accessibility

The Museum strives to ensure stakeholders reflect the ethnic and cultural diversity of the Bay Area. General admission is free the first Sunday of every month, as well as during a variety of heritage celebrations and access days throughout the year. In addition to participating in the San Francisco Museums for All program, the Museum also offers free admission to museum members, children aged 12 and under, San Francisco Unified School District (SFUSD) students, active-duty military, and college students visiting as part of their coursework.

PERFORMANCE MEASURES

ASSESSOR-RECORDER

MISSION

The Office of the Assessor-Recorder’s mission is to fairly and accurately identify and assess all taxable property in San Francisco and record, secure, and provide access to property, marriage, and other records. For more information about the department’s services, please visit sfassessor.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$40.1 million for the Office of the Assessor-Recorder is \$3.0 million, or 7.9 percent, higher than the FY 2023-24 budget. This is primarily due to costs associated with the ongoing maintenance and staff for the new Property Assessment System, and increased staffing for the Assessment Appeals team. The FY 2025-26 proposed budget of \$43.2 million is \$3.1 million, or 7.7 percent, higher than the FY 2024-25 proposed budget. This change is due to increases in salaries and benefits.

Goal-to-Roll and Assessments

Despite the continued economic challenges coming out of the pandemic, the Assessment Roll saw modest growth of 4.7 percent, rising to \$344.5 billion in assessed value, which is expected to generate \$4 billion in property tax revenue for the current Fiscal Year (FY) 2023-2024. This revenue ensures that San Francisco can make the investments necessary to address the City’s most pressing needs.

VALUE OF CERTIFIED ASSESSMENT ROLL. *The Certified Assessment Roll (after non-reimbursable exemptions) value has increased each of the last eleven years. In FY 2023-24, the Roll grew by 4.7 percent or \$15.4 billion.*

Assessment Appeals

The significant and sustained increase in appeals began in FY 2020-21 with a new spike in FY 2023-24. Prior to the pandemic, the average number of newly filed appeals was about 1,400. During the past three years, the average climbed to 2,600. This fiscal year, newly filed appeals tripled to 7,800, the highest number in more than 25 years. This has substantially increased the workload for the office, requiring the reorganization to fulfill statutory obligations of enrolling value, while also addressing the consistent rise in appeals. To meet this challenge, ASR is increasing staffing, preserving appraiser production hours dedicated to regular assessments, and dedicating specific teams to manage assessment appeals.

Modernizing Technology

Through the City’s Committee on Information Technology, San Francisco has made significant investments to improve and modernize the systems that assess properties and bill, collect, and allocate property tax revenue. The Property Assessment and Tax System program integrates the systems of

the Assessor-Recorder, Treasurer-Tax Collector, and Controller.

Over the next two years, ASR will work to complete its System for Managing Assessment, Records, and Transactions (SMART) and integrate its components with the Treasurer & Tax Collector’s system. This modernization process is replacing a decades-old technology and will improve data collection and security, enable faster service to the public by creating functional efficiencies, and changing the way the public interfaces with ASR through a new community portal that provides easier access to property information and assessments.

Advancing Accessibility & Seamless Customer Service

ASR is making it easier for the public to access recorded documents by digitizing 7 million records and offering them for instant purchase and download at home and launching a new service that provides the option to download free, unofficial copies of records online instead of having to purchase official ones before viewing them. For

NUMBER OF OPEN APPEALS & POTENTIAL PROPERTY TAX IMPACT. *Over the past three years, the number of appeals filed has climbed to an average of 2,600. This fiscal year, newly filed appeals tripled to 7,800. The increase in open appeals has resulted in a dramatic increase in potential property tax impact from \$174 million in FY18-19 to over \$1.1 billion this year.*

the first time in over two decades, ASR is updating the fees for purchasing official copies of records, resulting in decreased costs for the majority of constituents who purchase them online.

Community Engagement

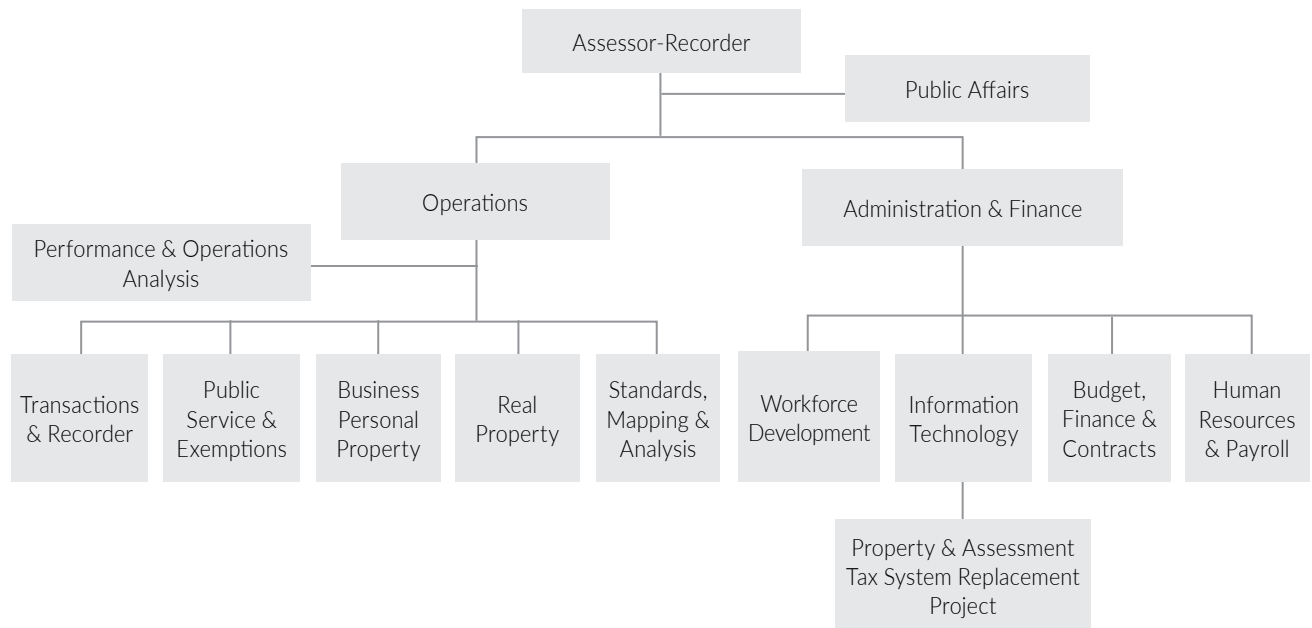

Each year ASR hosts and attends numerous presentations at public libraries and in the community to educate the public on topics including Proposition 19 and property transfers, assessment basics for new homeowners, and

how to appeal and review your assessed value. This includes initiatives like the Family Wealth Forum and Estate Planning Program which seek to advance financial literacy and connect low-income and historically marginalized communities of color with opportunities to secure their assets and build intergenerational wealth. Additionally, ASR's work implementing AB 1466 and redacting restrictive covenants from recorded documents, as well as raising awareness on the legacy of housing segregation in San Francisco continues.

BOARD OF APPEALS

MISSION

The Board of Appeals (BOA) provides the public with a final administrative review process for the issuance, denial, suspension, revocation, and modification of city permits as well as for certain decisions of the Zoning Administrator, Planning Commission, and Historic Preservation Commission. For more information about this department's services, please visit sf.gov/departments/board-appeals

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$1.2 million for the Board of Appeals is \$0.1 million, or 4.9 percent, higher than the FY 2023-24 budget. This is primarily due to an increase in interdepartmental spending and salary and benefit cost increases. The FY 2025-26 proposed budget of \$1.3 million is \$0.1 million, or 4.4 percent, higher than the FY 2024-25 proposed budget. This change is also due to salary and benefit cost increases.

Accountability and Equity in Services and Spending

The Mayor's proposed budget recognizes that revenue from filing fees has been consistently declining over the years. This reduction can be attributed, in part, to the waiver of these fees for individuals that qualify based on their economic circumstances. Consequently, the revenue that comes from surcharges has been increased to balance the budget and accommodate the shortfall in filing fees. Allowing fee waivers ensures access to Board services by members of the public with challenging economic circumstances. The Mayor's proposed budget also maintains training opportunities for Board of Appeals commissioners and staff that focus on racial equity and inclusion.

Citywide Economic Vitality

The Mayor's proposed budget maintains staffing levels to ensure that Board processes and decisions are consistent with the timelines outlined in the San Francisco Administrative Code. This enables approved projects to move forward in a timely manner, which contributes to the economic vitality of San Francisco.

APPEAL DISTRIBUTION. This graph shows the distribution of appeals heard based on the department issuing the determination.

APPEAL VOLUME. This graph shows the volume of appeals filed in each of the last ten fiscal years, the projected volume for FY24, and the ten-year average.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

BOARD OF SUPERVISORS

MISSION

The Board of Supervisors (BOS or “Board”) is the legislative branch of government in the City and County of San Francisco. The Board of Supervisors responds to the needs of the people of San Francisco by adopting legislation, establishing policies, and assisting constituents. As stated in the City Charter, the Board of Supervisors provides for the public’s access to government meetings, documents, and records. For more information about this department’s services, please visit sfbos.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$23.8 million for the Board of Supervisors is \$0.2 million, or 1.0 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefit cost increases and expenses related to Assessment Appeals Board filings. The FY 2025-26 proposed budget of \$24.4 million is \$0.6 million, or 2.3 percent, higher than the FY 2024-25 proposed budget. This change is due to further salary and benefit cost increases.

Charter Mandated Services

The Board of Supervisors is the legislative branch of the City and County of San Francisco. The Office of the Clerk of the Board, under the auspices of the Board of Supervisors, is designated by the City’s Charter to oversee the affairs and records of the Board of Supervisors, the legislative process, and Board and Committee proceedings. The Charter also requires that the Board of Supervisors provide direct services that support open and participatory government including the requirements of the Maddy Act, which mandates the Clerk of the Board publish an annual listing of vacancies for active

boards, commissions, and committees. Charter-mandated positions and programs include members of the Board of Supervisors, legislative assistants, the Clerk of the Board and committee clerks, the Assessment Appeals Board, the Sunshine Ordinance Task Force, the Youth Commission, and the Budget and Legislative Analyst.

PROPOSED BUDGET BY DIVISION. *The largest division within the Department is the Supervisors, which includes all 11 District offices and their staff.*

Building Information Technology Resilience for the Board of Supervisors

To replace aged IT equipment, the Office of the Clerk of the Board invested in state-of-the-art servers, network switches, and backup systems for the Board of Supervisors' primary server site where critical citywide IT applications such as the legislative management system and online assessment appeals filing system operate. The Office of the Clerk of the Board also began construction of a secondary site which will back up the primary site. In FY 2024-25, both sites will be online, and work will continue to refresh the network in the Legislative Chamber and Committee Room and the Individual Distribution Frame (IDF) rooms that connect the District Offices to the Internet.

Innovating the Legislative Process through Technology

The Office of the Clerk of the Board is planning and designing the new legislative management system for construction in FY 2024-25. The system includes requirements gathered from departments and includes Boards and Commissions management, end-to-end integrated legislative process management, an online public portal for constituent engagement, enhanced search and subscribe, and a heatmap for identifying legislation affecting each neighborhood in the city.

The existing Online Appeals Application Filing System is beyond end of life and must be replaced within the next three years. The Office of the Clerk of the Board will continue the on-going project to plan for building a new, state-of-the-art system.

The Office of the Clerk of the Board will also continue to prepare for the migration of the Board of Supervisors' website to the latest version of Drupal, or an equivalent web content management software, while ensuring compliance with the City's Digital Accessibility and Inclusivity Standards when appropriate.

Strengthening Emergency Communication Systems for the Board of Supervisors

The Office of the Clerk of the Board is leveraging 800MHz radios and FirstNet cellphones to empower Supervisors to monitor the City's emergency response and continue meetings in the event of a disaster. The Office of the Clerk of the Board will deploy these radios in FY 2024-25 to allow Supervisors to communicate if phone service is disrupted. The FY 2024-25 budget for the Board of Supervisors includes anticipated grant funding from the Bay Area Urban Areas Security Initiative (UASI) to purchase compact rapid deployable devices that will replace downed cellphone towers and prioritize communication for the Supervisors.

Refurbishing the Historic Legislative Chamber in City Hall Room 250

The Office of the Clerk of the Board continues to refurbish the Legislative Chamber, and has designed replacement curtains and developed plans to refurbish the leather chairs for the Supervisors, Clerks, and gallery that preserve the historic look and style of the Legislative Chamber. Installation will begin in FY 2024-25.

ASSESSMENT APPEALS APPLICATIONS. *Assessment appeals application filings have climbed to record-breaking levels, exceeding the number of applications received in the aftermath of the 2008 Global Financial Crisis.*

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26
GOAL	ACTUALS	PROJECTED	TARGET	TARGET
Align resources to allow the Board to achieve its mission and duties to support open and participatory government

BUILDING INSPECTION

MISSION

The Department of Building Inspection (DBI) protects our community by ensuring code-compliant construction, building safety, resilience, and habitability, and by supporting economic development in San Francisco. For more information about this department's services, please visit sf.gov/departments/department-building-inspection

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$87.9 million for the Department of Building Inspection is \$1.8 million, or 2.1 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefit cost increases. The FY 2025-26 proposed budget of \$91.9 million is \$4.1 million, or 4.6 percent, higher than the FY 2024-25 proposed budget. This change is also due to salary and benefit cost increases.

Rightsizing Fee Levels

Permitting activity remains below pre-pandemic levels, resulting in reduced revenues for DBI and directly impacting the Department's ability to fund

its own operations. Over this time, DBI reduced its expenditures and leveraged reserves to balance its budget. However, relying on reserves is not a sustainable option.

In 2023, DBI conducted a fee study, which determined optimal fee levels to fully recover operating costs. The Department completed the fee study in January 2024. The Department plans to phase in proposed fee increases evenly over three years.

DBI's focus is providing core services and making operational improvements, while monitoring revenues and expenditures for savings opportunities.

TOTAL INSPECTIONS PERFORMED. *This graph shows inspections are beginning to return to pre-pandemic levels after a major decline.*

Streamlining Permitting and Application Review

As part of the Mayor’s Housing for All Executive Directive, DBI is assessing permitting timelines, identifying opportunities to reduce review times and implementing process improvements to expedite housing delivery in San Francisco. The Department is implementing changes in response to new state laws, such as Assembly

Bill (AB) 1114. AB 1114 will provide more customer guidance, a predictable project review process and better coordination among the City’s permitting departments. In addition, the City recently implemented technology improvements, which DBI is leveraging to reduce processing times and enhance internal review coordination of permit applications.

TOTAL NUMBER OF PERMITS ISSUED. *This graph shows that permit issuance remains below pre-pandemic levels.*

TOTAL CONSTRUCTION VALUATIONS. *This graph shows the decline in the total value of construction occurring in the City.*

PERFORMANCE MEASURES

CHILD SUPPORT SERVICES

MISSION

The Department of Child Support Services (DCSS) works to empower parents to provide economic support for their children, thereby contributing to the well-being of families and children. For more information about this department’s services, please visit sf.gov/departments/child-support-services

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$13.3 million for Child Support Services Department is \$0.4 million, or 2.7 percent, lower than the FY 2023-24 budget. This is primarily due to a decrease in salary and benefit costs. The FY 2025-26 proposed budget of \$13.3 million is \$0.04 million, or 0.3 percent higher than the FY 2024-25 proposed budget, and mostly unchanged from the prior year.

Ongoing Initiatives

The Department will continue to focus its resources on the following key initiatives during FY 2024-25 and FY 2025-26:

Paternity Establishment DCSS will continue collaboration with San Francisco General and other San Francisco birthing centers, providing children with financial and emotional support from parents.

Serving Justice Involved Parents DCSS will expand its collaboration with the Sheriff’s Department, providing virtual and in-person assistance to justice involved parents. This ensures parents have equitable access to programs, child support informational materials, and opportunities for debt relief.

Providing More Parents with Debt Reduction

The Debt Reduction Program is an expansion of the former Compromise of Arrears Program (COAP) that qualifies parents to settle government-owned debt. This promotes parent stability by getting more resources to their children, encouraging improved co-parenting, and healthier family relationships.

ANNUAL DISTRIBUTED COLLECTIONS. *The annual amount of support collections distributed to families on the CSS caseload over recent years.*

Succession Planning Through an Equitable Lens

DCSS prepares for the future by providing its employees with professional training and development, allowing staff to compete for leadership roles. To increase diversity and employment equity, DCSS works with the Department of Human Resources to create entry level child support positions that foster community representation.

Community Input through Advisory Committee

The Department's Advisory Committee works directly with parents and community based organizations on issues of concern to families, promoting equitable change and effectively guiding the department to better serve parents and children.

A New Approach to Child Support for San Francisco Families

DCSS partnered with the San Francisco Superior Court to create a non-cash payment alternative to a traditional child support order.

A non-cash payment alternative, also referred to as in-kind support, is an arrangement between parents to care for their children. The arrangement may involve the exchange of goods or services such as transportation, clothing, shoes, groceries, housing, rent, or other items. Working with the San Francisco Superior Court, the Department coordinated a pilot program to acknowledge the various ways that parents provide for their children and reflect those arrangements in their formal child support court order.

Recruitment of families into the voluntary program is currently underway. Enrolled parents will work with court mediators to draft their in-kind support agreements; the court will monitor the agreements for compliance and child support will enforce the monetary portion of the child support order.

AVERAGE CASELOAD. Cases managed by CSS has decreased over the last several years, averaging 8,626 in Federal FY 2022-23.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

CHILDREN, YOUTH AND THEIR FAMILIES

MISSION

The Department of Children, Youth and Their Families (DCYF) has administered San Francisco’s powerful investments in children, youth, transitional age youth, and their families through the Children and Youth Fund since 1991. With a deep commitment to advancing equity and healing trauma, DCYF brings together government agencies, schools, community-based organizations to strengthen San Francisco communities to lead full lives of opportunity and happiness. The Department strives to make San Francisco a great place to grow up. For more information about this department’s services, please visit dcyf.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$339 million for the Department of Children, Youth and their Families (DCYF) is \$2.9M million, or 0.8 percent lower, than the FY 2023-24 budget. This is primarily due to changes in the mechanism of funding for the Free City College program. The FY 2025-26 proposed budget of \$348.7 million is \$9.5 million, or 2.8 percent, higher than the FY 2024-25 proposed budget. This change is due to the ramping up of Student Success Fund, which grows by an additional \$10 million in FY 2025-26.

New Five-Year Funding Cycle

FY 2024-25 will be the first year of a new five-year funding cycle. In April 2024, DCYF announced the results of the 2024-2029 ‘Request for Proposals’ (RFP). The Department implements an equity-based funding framework, developed through a three-part planning process which includes Community Needs Assessment (CNA), Services Allocation Plan (SAP), and RFP for services provided by CBOs. In the 2024-2029 RFP, DCYF received 698 proposals that requested over \$414 million in funding. With

an allocation range of \$87.3M –\$96.5M, DCYF looked critically at prioritizing funding decisions to balance the needs of children, youth, transitional-aged youth (TAY) and families and the cost of providing services in San Francisco. Despite these challenges, the Department awarded over \$103

INVESTMENTS BY SERVICE AREA (FY 2023-24).

Percent of dollars invested by service area.

million in funding for FY 2024-25. This portfolio of grants represents the CBO providers and programs that the Department believes are best positioned to achieve the results over the next five years.

Student Success Fund Initiative

The Student Success Fund was approved by San Francisco voters in November 2022 to provide vital additional resources for SFUSD, with a dual focus on achieving grade-level success in core academic subjects and enhancing the social and emotional well-being of all SFUSD students. In FY 2023-24, the first year of funding, the plan focused on four identified priority areas. Rapid Response grant set aside flexible funds for crisis and emergency needs from school sites. These one-time funds are accessible year-round and available for short-term, small amounts to address urgent needs. Critical non-core staffing positions that schools needed to be filled but did not have funding for the School Year 2023-24 grants were identified. School Readiness grants for the first year support readiness at school sites by funding community school coordinators. These coordinators provide essential staffing

to strengthen readiness and grant preparation, application and implementation. The funds allocated for this purpose were one-time and roll into school grant proposals. Technical assistance and support to schools is provided through coaching, consulting, mentorship and training for School Site Council (SSC). The Workforce Pipeline - Innovation Grant focuses on addressing workforce shortages in after-school staffing, para-professional staffing, and school social worker and school district nurse staffing. For FY 2024-25 and FY 2025-26, the Mayor’s proposed budget includes \$35 million and \$45 million, respectively, for the continuous implementation of this initiative.

Mental Health and Family Wellness

In this budget cycle, mental health continues to be one of the priorities the Mayor focuses on. The proposed budget allocates \$5.0 million annually to address critical mental health needs and support family wellness. This includes a Mental Health Support Pilot with UCSF, where clinicians and graduate students will work with community-based organizations (CBO) to provide onsite support to children and youth, train and coach CBO staff to identify signs and symptoms

YOUTH SERVED BY AGE GROUP (FY 2022-23).
Participants in DCYF-funded programs by age group. DCYF also contributes funding to Early Care and Education programs and Family Resource Centers that serve children ages 0 to 4. The data associated with these programs is tracked by partner City departments and is not included in the chart.

of mental health needs, provide clinical support services for CBO staff, and increase agency capacity to provide wellness and referral services. The investment also funds an expansion of culturally specific mental health services. As part of the budget, DCYF will continue to partner with UCSF and the Department of Public Health (DPH) to provide parents and caregivers additional support related to parenting and understanding their child's developmental needs.

Our415

Our415 is a coordinated communication initiative that originates from the Mayor's Children & Families Recovery Plan which found that children, youth, transitional age youth (TAY) and families were unaware of the programs, resources and supports offered by the City. Through ongoing coordination with the City, CBO partners and youth-focused outreach & marketing, Our415 will employ a multi-pronged, community-rooted approach to bridging the information gap found in DCYF's 2022 Community Needs Assessment and connecting youth & families to the City's wealth of programs and services. The Mayor's proposed budget includes \$1.1 million in FY 2024-25 and

\$1.2 million in FY 2025-26 to support enhanced referral and navigation for citywide resources, making it easier for children and families to get the support they need to thrive.

San Francisco Unified School District and the City College of San Francisco

The proposed budget continues to strengthen the partnership with SFUSD and City College of San Francisco (CCSF). In addition to the Student Success Fund Initiative, in September 2023, DCYF received the second STOP School Violence Program grant and is expecting to receive continuous funding in the future years. The \$1 million annual funding will increase support for San Francisco's School Crisis Support Coordination Project (SCSCP). In response to an increase in violent incidents both on and off school campus, the project intervenes and prevents escalation of violent incidents, and coordinates supports and services for youth with City Departments, SFUSD, and CBO partners. The Free City College Program is entering its sixth year of implementation. Through the lenses of accountability and equity, the City is committed to the ongoing support and strives to make this program sustainable.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

CITY ADMINISTRATOR'S OFFICE

MISSION

To ensure efficient and effective government services, robust infrastructure, safety and resiliency, and sustained economic recovery within an equitable and inclusive organization. For more information about this department's services, please visit www.sf.gov/departments/city-administrator.

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$615.2 million for the City Administrator (ADM) is \$18.6 million, or 3.1 percent, higher than the FY 2023-24 budget. This is primarily due to one-time capital expenditures and increased debt payment costs. The FY 2025-26 proposed budget of \$629.1 million is \$13.9 million, or 2.3 percent, higher than the FY 2024-25 proposed budget. This change is due to salary and benefit cost increases, and cost increases in non-personnel services and interdepartmental spending.

Implementing Infrastructure Savings and Improvements

As the commercial real estate market churns, the Real Estate Division (RED) has redoubled its efforts to place City operations in cost-effective, right-sized spaces. In FY 2024-25, the City will take a significant step towards consolidation of its general administrative offices with a multi-department move into a freshly negotiated long-term lease at 1455 Market Street. This new location is large enough to relocate City staff from expensive leases and seismically vulnerable buildings, as envisioned in the City Administrator's Civic Center real estate strategic plan. The proposed budget includes \$6.2 million savings in FY 2024-25 and \$2.9 million in FY 2025-26 million from these strategic moves.

The proposed budget also supports the Treasure Island Development Authority's (TIDA) geotechnical work and construction on the horizontal infrastructure in support of the next phase (Stage 2) of development on the island. To date, TIDA and the master developer, Treasure

PERCENT OF CITY WEBSITES ON SF.GOV. *With a new California law requiring dot-gov domains for local government by 2029, Digital & Data Services ongoing work to build a secure, accessible, and nimble City-wide web platform. Currently 66 percent of all citywide sites have already made the transition, with sitewide traffic increasing by 19.5 percent over FY 2022-23.*

Island Community Development, have substantially completed Stage 1 infrastructure on Yerba Buena Island and Treasure Island, including new utilities, streets, and four public parks. In addition, 229 units of housing have been completed and another 775 units are currently under construction for anticipated completion in early 2025, of which 257 units are affordable.

Improving Citywide Services

In FY 2024-25 and FY 2025-26, the Permit Center will continue to drive initiatives to improve customer experiences, transparency, and equity in permitting services. The proposed budget supports centralized customer service as well as cross-departmental platform and data sharing in order to

foster further improvements in building application review and approval.

The proposed budget also continues funding for citywide contracting reform. Building on its recent successes improving the supplier experience, removing red tape for City staff, and developing citywide contracting performance metrics, the Government Operations Contracting and Procurement Reform team will focus on implementing new technology to improve and increase transparency into additional aspects of the contracting process, including replacing the Personal Services Contract database and creating a new Local Business Enterprise Subcontracting Requirements application.

BUILDING PERMIT COMPLETENESS CHECK TIMELINES. *In January 2024, a new building permit solution was launched to satisfy new mandates issued by the State of California to process housing permit applications within 15 business days and issue permits within 30 or 60 days. Now, all building applications for larger projects are submitted through a single channel that ensures they are seen by at least 7 departments for accuracy with most applications approved in less than 6 business days.*

PERFORMANCE MEASURES

CITY ADMINISTRATOR'S OFFICE—TECHNOLOGY

MISSION

The Department of Technology modernizes City technology infrastructure, communications, and applications to deliver resilient, cost-effective, and efficient city business systems. These solutions drive innovation while promoting public safety, digital equity, and new government services. For more information about this department's services, please visit sf.gov/departments/department-technology

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$169.0 million for the Department of Technology (TIS) is \$2.7 million, or 1.6 percent higher, than the FY 2023-24 budget. The FY 2025-26 proposed budget of \$174.8 million is \$5.7 million, or 3.4 percent, higher than the FY 2024-25 proposed budget. These changes in both years are primarily due to increases in software, security and capacity costs.

Disaster Recovery

The Department continues to support the City's Disaster Recovery Program by securing the City's operational continuity through risk mitigation. This program reduces the risk of costly disruption and recovery, maintains integrity of City services, and aligns with the City's commitment to resilience.

Data Center Resilience

The Department's focus on Data Center Resilience ensures all services and access to the City Data Centers are secured. This includes internet, Domain Name Service (DNS) authentication, remote network access through Virtual Private Network (VPN), and providing resilient network transport to enable recoverability of all City applications.

Gen AI Center of Excellence

The Department has begun its early-stage evaluation of Generative Artificial Intelligence (Gen AI) to expand the City's toolkit. Through COIT funding, the Gen AI Center of Excellence will provide guidance, set best practices, and ensure that all City departments are aligned in their use of Gen AI so that it can be used effectively and securely.

Accelerating A Digital City

The Department continues to deliver shareable enterprise-level business applications and modernize City technology infrastructure. Emphasizing infrastructure resilience and migrating departments to a new Software Defined Network increases capacity and performance. New applications speed up City services, while modernized infrastructure enhances security, performance, and reliability. This upgraded infrastructure also enables new services, such as Voice over Internet Protocol (VoIP).

Data Center of Excellence

The Data Center of Excellence manages the JUSTIS Hub, which enables in-depth data analysis and streamlined workflows to make data-driven decisions

about public safety and criminal justice issues. This Hub provides easy-to-use dashboards and thorough insights to criminal justice agencies in the City and County of San Francisco.

Cloud Center of Excellence

The Department is expanding its team of cloud architects and engineers to deploy cloud solutions for business partners. The center will reduce costs and increase operational capacity by helping migrate processes and data to the cloud. This work makes City systems more secure and resilient.

The Cloud Center of Excellence is well-positioned to help other departments achieve more with fewer resources by leveraging cloud technology. With DT Cloud Desktop, departments can avoid costly device refreshes and optimize their operations.

Closing the Digital Divide

The Department continues broaden access to the Internet by installing, operating, and maintaining municipal broadband fiber. The Department has

delivered free internet broadband service to thousands of housing units, community centers and non-profits.

Office of Cybersecurity

Protecting the City’s technology and information is critical to ensure that City departments can continue providing essential services. The Office of Cybersecurity ensures that mission critical business systems can be restored after any natural or human-caused disaster with minimal delay. The Office consistently strives to raise awareness among City staff while proactively identifying and addressing potential cybersecurity risks. In FY 2023-24, the Office of Cybersecurity significantly improved and streamlined the City’s vendor risk management process and platform. The office evaluated nearly 3,000 city vendors and contractors to reduce cybersecurity risks associated with ICT procurements. This effective initiative earned the 2024 GRC Program of the Year Award from LogicGate, making it the only government entity to receive this distinction.

CITY ATTORNEY

MISSION

The Office of the City Attorney (CAT) provides legal services to the Mayor’s Office, the Board of Supervisors, other elected City officials, and all the departments, boards, and commissions that comprise the government of the City and County of San Francisco. For more information about this department’s services, please visit sfcityattorney.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$118.4 million for the Office of the City Attorney is \$9.7 million, or 8.9 percent, higher than the FY 2023-24 budget. This is primarily due to new positions related to tax litigation and appeals and increased interdepartmental spending. The FY 2025-26 proposed budget of \$120.3 million is \$1.9 million, or 1.6 percent, higher than the FY 2024-25 proposed budget. This change is due to salary and benefit cost increases.

The City Attorney’s Office (“Office”) continues to provide high-quality legal advice to over one hundred City departments, boards, and officials and to represent the City in an increasing number of complex defensive litigation matters.

The number and complexity of new taxes passed by the voters in recent years have significantly increased the tax disputes that the Office must handle. To meet this accelerating tax workload, the proposed budget includes a funding increase in the Office’s workforce.

Improving Public Safety and Street Conditions

Attorneys have advised on programs addressing public safety, homelessness, mental health, the opioid crisis, pedestrian safety, and public space activation.

The Office’s code enforcement litigation abates public nuisances and dangerous housing conditions. Attorneys provide guidance to public safety departments to ensure legal compliance, participate in multi-agency efforts to disrupt drug markets, pursue private actors that sell harmful products like illegal license plate covers used to evade police, and seek gun violence restraining orders to remove guns from people who pose a threat to public safety.

Citywide Economic Vitality

Attorneys work collaboratively with agencies to support revitalizing the economy, helping small businesses, encouraging tourism, and exploring new uses for downtown buildings. The Office advises on every step of housing delivery, including planning, development, leasing, financing and construction of housing at all affordability levels. Attorneys advise departments on major capital improvement and transportation projects.

The Office’s Worker Protection Team brings affirmative litigation to ensure workers are treated fairly and benefit from the City’s economy. Through the Office’s consumer protection practice, attorneys bring in revenue to the City while protecting consumers from predatory business practices.

Reducing Homelessness and Transforming Mental Health Service Delivery

The Office defends the City against multiple, complex lawsuits related to homelessness, and works with departments to ensure compliance with the law and the ability to maintain safe and healthy streets. Attorneys supported changes in state conservatorship laws to update the definition of those eligible for conservatorship. The Office represents the City in all CARE Court and conservatorship petitions and works with departments to provide appropriate care to those with serious mental health illnesses or substance use disorders. The Office also assists departments with expanding and preserving the City's affordable housing portfolio.

Accountability & Equity in Services and Spending

The Office actively pursues affirmative litigation to promote equity and advance the rights of San Franciscans in five priority areas – housing and homelessness, consumer protection, worker protection, civil rights, and climate change. The Office trains and advises departments on an increasing number of state and local conflict of interest, ethics, and gift laws. To ensure accountability across City government, Office employees craft legislation to mitigate the risk of favoritism in City services, provide public advice on compliance, and conduct public integrity investigations to root out corruption, often resulting in monetary settlements benefitting the City.

REVENUE SOURCES. *Most revenue supporting the City Attorney's Office budget are recoveries from workorders with other City departments.*

CITY PLANNING

MISSION

The mission of the San Francisco Planning Department, under the direction of the Planning Commission, is to shape the future of San Francisco and the region by: generating an extraordinary vision for the General Plan and in neighborhood plans; fostering exemplary design through planning controls; improving our surroundings through environmental analysis; preserving our unique heritage; encouraging a broad range of housing and a diverse job base; and enforcing the Planning Code. sf-planning.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$55.4 million for City Planning is \$3.3 million, or 5.7 percent, lower than the FY 2023-24 budget. This change is due to deleting vacant positions to account for declining case volumes and permit applications. The 2025-26 proposed budget of \$56.5 million is \$1.1 million, or 2.0 percent, higher than the FY 2024-25 proposed budget. This change is due to increased salary and benefit costs.

Application Review and Processing

City Planning continues to see a decline in permit volume and land use entitlements due to the current economic conditions and an increase in the number of new ministerial permitting pathways established through State law. FY 2024-25 will see the first full year implementing a new permitting process that was initiated in January 2024 in response to AB-1114, which

VOLUME TRENDS. This graph shows the Department's planning case and permit volume over the last 10 years.

divorces the planning approval process from the building permit review process. This new process will be entirely digital across all City agencies and should result in a more efficient and transparent permitting process. It is also the first full year where we will see workload impacts stemming from the numerous State and local laws that have reduced the need for various land use entitlements for housing projects.

Process Maintenance and Improvements

City Planning will continue to advance process improvements to address Housing Element actions calling for removal of constraints to housing production associated with environmental review. This will require us to evaluate the local California Environmental Quality Act (CEQA) review process, identify amendments to Chapter 31 of the Administrative Code, and evaluate replacing CEQA

PROJECT SUBMITTALS & APPROVALS MAP. *This map shows projects filed and approved during the current fiscal year from June 1st, 2023 to April 1st, 2024.*

wind analysis with expanded and modified Planning Code 148 objective requirements.

Housing Element Implementation

City Planning has turned its focus to implementing 2023's unanimously approved Housing Element. This work includes establishing new zoning controls in well-resourced neighborhoods in the City's west and north, eliminating constraints in the housing review and approval process, developing additional tools to support the construction of affordable

housing, and enhancing tools that protect tenants and ensure existing small businesses thrive.

The Future of Downtown

City Planning is working alongside other City departments and community organizations to address downtown recovery in both the near- and long-term. The effort is focused on four themes to support the revitalization of Downtown: Economic Diversification and The Future of Office, Expanding Downtown Housing, Public Life and Retail, and Union Square.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23		FY2023-24		FY2024-25	FY2025-26
	GOAL	ACTUALS	PROJECTED	TARGET	TARGET	TARGET
Streamline Project Approval Processes						
Affordable Housing Projects: The average number of days from the application being accepted by the Department to first Commission Hearing	1,105	1,000	180	250	250

CIVIL SERVICE COMMISSION

MISSION

The Civil Service Commission (CSC) establishes, ensures, and maintains an equitable and credible merit system for public service employment for the citizens of San Francisco, and strives to consistently provide the best-qualified candidates for public service in a timely and efficient manner. For more information about this department’s services, please visit sf.gov/departments/civil-service-commission

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$1.52 million for the Civil Service Commission is \$0.01 million, or 0.9 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefit cost increases. The FY 2025-26 proposed budget of \$1.58 million is \$0.05 million, or 3.8 percent, higher than the FY 2024-25 proposed budget. This change is due to increased salary and benefit costs.

The Mayor’s proposed budget allocates funds for the Civil Service Commission (CSC) to maintain its staffing levels and operate at optimal capacity. This ensures effective oversight of the merit system and Civil Service Rules (CSR), and the authority to provide qualified candidates for City and County positions.

The Department continues to work closely with City departments, labor unions, and the public on the CSR, policy clarification, hiring issues, appealable matters, and charter mandates. The Department also works with the Department of Human Resources to expedite and modernize hiring practices. Commission staff also serve as racial equity thought leaders and members of the

Pathways and Pipelines Peer Learning cohorts in collaboration with the Office of Racial Equity. They focus on implementing various avenues to City employment and advancing the City’s diversity, equity, and inclusion goals.

APPEALS IN FY 2022-23. CSC accepts a wide range of appeals related to City’s merit system. CSC holds hearings and makes decisions on the appeals filed.

Citywide Economic Vitality

The Mayor's proposed budget includes funding to expedite, modernize and streamline the hiring process. The Executive Officer, Human Resources Director, and the Municipal Transportation Agency (MTA) Chief People Officer proposed amendments to several civil service rules governing City hiring. The Department's adoption of these amendments, which address examination announcements, position-based testing, eligible lists, and certification of eligibles, has significantly reduced hiring timelines from several months to several weeks.

Accountability & Equity in Services and Spending

The CSC has made great strides in partnership with the Office of Contract Administration, DHR, City Attorney's Office, MTA, City Administrator's Office, and select unions to modify CSR to implement a new Personal Service Contracts (PSC) database system to modernize and streamline the personal services and contracting process to provide citywide clarity and consistency in compliance with multiple government regulations for City contracting.

Additionally, the CSC's Committee on Policies and Rules (COPAR) has been actively proposing CSR changes and new civil service advisers to provide guidance on appropriate rule application to human resource professionals and city employees. Department staff have engaged in scheduling and training new departmental personnel officers and their staff on inspection services and the merit system with a focus on having open dialog with hiring managers, employees, employee organizations and community partners to encourage merit system and CSR transparency.

Enhancing Key Department Infrastructure

The department is working to enhance its cloud storage of historical documents and to include a public portal to create the ability to file requests for appeal hearings and inspection services directly through the CSC website. The proposal includes a public portal that will include the ability to create form templates and link to the CSC website to allow e-filing of appeals and inspection service requests. Department staff is also considering making the appeals staff reports for commission meetings a fillable form with input and approval from the Department to support its development.

TYPES OF INSPECTION SERVICE REQUESTS FISCAL YEAR 2022-23.
CSC conducts investigations and audits of many aspects of the City's merit system and makes sure that the City's merit system is working.

COMMUNITY INVESTMENT AND INFRASTRUCTURE

MISSION

The Office of Community Investment and Infrastructure (OCII) is the Successor Agency to the San Francisco Redevelopment Agency (SFRA), which the State dissolved in 2012. OCII is responsible for winding down redevelopment projects and completing the state-approved development in Mission Bay, Transbay, and the Hunters Point Shipyard/Candlestick Point neighborhoods which will collectively provide over 22,000 new housing units and 14 million square feet of new commercial space; the management of significant assets in the City; and the development of over 7,000 affordable housing units and over 400 acres of parks. Under the recent state law SB593, OCII's mission also includes the funding and development of 5842 affordable housing units to replace units destroyed by the former redevelopment agency. For more information about this department's services, please visit sfocii.org

BUDGET ISSUES & DETAILS

OCII is a separate legal entity from the City and County of San Francisco and does not rely on General Fund appropriation. Rather, OCII uses property tax increment authorized under state law. Accordingly, OCII's budget is considered separately from the City and County budget. OCII operates with an annual budget with expenditures approved by the California Department of Finance and required to complete enforceable obligations. The FY 2024-25 proposed budget is presented here and is consistent with DOF's approval of expenditures dated April 12, 2024.

The proposed Fiscal Year (FY) 2024-25 budget of \$685.2 million for the Office of Community Investment and Infrastructure is \$27.4 million less than the FY 2023-24 budget of \$712.5 million. The

FY 2024-25 proposed budget of \$685.2 million is approximately equivalent to the FY 2023-24 proposed budget.

OCII funds its construction programs primarily with bond proceeds generated by the issuance of tax allocation bonds. In FY 2024-25, OCII anticipates expending \$114.7 million on its debt program, including bond debt service.

OCII anticipates expending \$342.9 million for affordable housing, \$0.7 million for replacement housing, \$170.4 million for infrastructure, \$1.9 million for community and workforce development, and \$54.5 million for project management and operations, including a payment of \$33.2 million to the Transbay Joint Powers Authority for the Transbay Terminal Project.

Housing Obligations

To build a more equitable San Francisco, OCII funds affordable housing that serves low or very low-income households in Mission Bay, Transbay, and the Hunters Point Shipyard/Candlestick Point. OCII's total housing production obligation in those areas includes 21,927 units, of which 7,115 will be affordable and sixty-five percent will be funded by OCII. As of July 1, 2024, OCII will have completed 9,316 units of housing, of which 2,752 are affordable. These affordable units are known as OCII's Retained Affordable Housing Production Obligation.

In FY 2024-25, OCII will complete 330 OCII-funded affordable housing, including 148 units in Mission Bay South and 182 units in Hunters Point Shipyard Phase 1.

Replacement Housing

Senate Bill 593, which was signed into law by Governor Newsom in October 2023, authorizes OCII to use a limited form of tax increment financing to fund and develop the 5,842 units that are the Replacement Housing Obligation. OCII is working with DOF and the City to set up a review

and approval process for Replacement Housing funding, which is available from tax increment funds that would otherwise be distributed to the City after OCII's other obligations are paid.

These replacement Housing expenditures would add additional units of affordable housing beyond the current enforceable obligations. In ROPS 24-25, \$0.7 million will be used to fund staffing and professional services costs for planning Replacement Housing development in future years. Staff will undertake the procurement of a financing team for the first phase of Replacement Housing bonds.

Land Use & Infrastructure

OCII contributes to livability and economic vitality through its delivery of public infrastructure, including funding for parks and streetscape improvements that are required under existing enforceable obligations. At completion, Hunters Point Shipyard/Candlestick Point will include 362 acres of parks, Mission Bay will include 49 acres of parks, and Transbay will include 4 acres of parks.

In FY 2024-25, OCII will complete 5.9 acres of park space in Mission Bay.

OCII'S HOUSING PRODUCTION OBLIGATION.

OCII'S PARKS & OPEN SPACE COMPLETIONS.

Community & Workforce Development

OCII contributes to diversity, equity, and inclusivity through its equal opportunity program for contracting and workforce. OCII works with private contractors, CityBuild, and community-based organizations to foster job creation for local workers and to improve opportunities for small, local, minority and women-owned businesses to participate on OCII projects. OCII policies require good faith efforts to meet 50 percent goals for small businesses and San Francisco workers.

Since 2012, OCII has awarded over \$6.0 billion in contracts with nearly \$1.9 billion or 31.7 percent credited to small business enterprises. Of this amount, \$1.0 billion or 54 percent has been awarded to San Francisco-based small businesses. Over 49,890 workers, of which 7,401 or 15 percent are San Francisco residents, have performed 18.6 million construction hours on OCII-administered projects since 2012. Local residents have performed 3.6 million hours or 19.4 percent, garnering \$157.6 million in wages.

CONTROLLER

MISSION

The Office of the Controller works to ensure the City's financial integrity and to promote efficient, effective, and accountable government. The Department strives to be a model for good government and to make the City a better place to live and work. For more information about this department's services, please **visit sf.gov/departments/controllers-office**

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$89.0 million for the Office of the Controller (CON) is \$5.0 million, or 5.9 percent, higher than the FY 2023-24 budget. This is primarily due to increased costs in accounting services and salary and benefit cost increases. The FY 2025-26 proposed budget of \$87.0 million is \$1.9 million, or 2.2 percent, lower than the FY 2024-25 proposed budget. This change is due to increases in salaries and benefits costs offset by reduced expenditures in accounting services.

Financial Professionals Development and Training

The Department will continue to expand and scale the Controller's Office programs that support all city departments related to financial standards, financial professional development, and staff proficiency training. The successful results of the citywide pilot programs that were initiated in FY 2023-24 set the foundation for the formal establishment of the ongoing training program for senior-level accounting managers and the Budget Academy to develop trained budget analyst professionals. These programs will create pipelines of financial professionals with key skills and knowledge that is important to the succession planning in the City's financial management corps.

Controller as Refuse Rates Administrator

The Controller's Office implemented the voter-mandated transfer of function for Refuse Rates Administration (Proposition F, June 2022), along with the inaugural rate-setting process and proposed Refuse Rate Order for Rate Years 2023-24 and 2024-25. This work supported the Refuse Rate Board's August 2023 approval of a two-year rate order which was 36 percent lower than Recology's proposed rate increases, saving ratepayers \$8.7 million over the two-year period. The approved Rate Order included budgetary funding for the Refuse Rate Administrator's work, including analytical and audit costs, capital planning and cost allocation analyses, and refuse collection regulations, licenses and permits review.

Public Financing

The Controller's Office of Public Finance (OPF) continues to provide and manage low-cost debt financing of large-scale, long-term capital projects and improvements. In FY 2025-26, OPF will implement the City's new Infrastructure Financing District policy, coordinate with the Office of Economic and Workforce Development on the formation of the Power Station Enhanced

Infrastructure Financing District (EIFD), and the evaluation and potential formation of other EIFDs. OPF will manage the EIFDs and the Public Financing Authority, a new governing body for EIFDs consisting of three members of the Board of Supervisors and two members of the public. Key upcoming projects include coordinating and providing assistance with the issuance of \$1.5 billion in General Obligation Bonds, Commercial Paper and Certificates of Participation to meet project funding requirements and/or to provide refunding savings.

Public Integrity, Transparency & Accountability

The promotion of accountability and transparency through compliance and performance audits and whistleblower investigations remains an important aspect of the Controller's ongoing responsibilities.

The Department will continue to publish audits and assessments to improve transparency, effectiveness, efficiency, and equity of city operations; publish the implementation statuses of all recommendations from prior public integrity assessments; manage and promote the City's whistleblower hotline; ensure timely compliance with audit reporting; identify recommendations and report on the implementation of corrective actions; and work with City departments to further develop and implement plans to better meet their contracting, oversight, reporting, and other business needs.

Government Operations Initiatives & Performance

The Department continues to support efforts of the City Administrator, Department of Human Resources, and Controller's Office to plan,

GROWTH OF FINANCIAL STABILIZATION RESERVES. *The strength of the City's economy during the past decade, combined with financial management reforms, drove improvement in the City's overall financial condition, including fully funding the City's economic stabilization reserves. In FY 2018-19, the City reached its reserve target of 10 percent of General Fund reserves, with an economic stabilization reserve balance of \$588 million. The FY 2020-21 budget included a use of \$156.5 million of the economic stabilization reserves. Since that withdrawal, the City's economic stabilization reserves have remained stable. As of FY 2022-23 year-end the balance totaled \$489.7 million or 6.3 percent of General Fund revenues.*

implement, and communicate initiatives to reduce barriers to hiring and contracting for City’s complex financial activities. The Controller’s Office will implement system and user interface improvements to reduce redundancy and streamline financial, hiring, and contracting processes, as well as consolidate Employee Self-Service functions.

Racial Equity, Gender Equity, Inclusion and Diversity

The Controller’s Office continues to invest in racial and gender equity, inclusion, and diversity

through citywide reporting work used by all departments and our departmental Racial Equity Action Plan. In FY 2024-25, the Department will administer a biennial staff survey and present its results. Based on the findings, the Department will initiate and administer new staff mentorship cohorts, standardize the selection interview process to further include diversity, equity, and inclusion questions, and revisit potential barriers to employment related to minimum qualifications for entry level classifications.

DISTRICT ATTORNEY

MISSION

To prioritize public safety by restoring accountability and appropriate consequences to the criminal justice system. The Department believes in responsible reforms, giving offenders the opportunity to address the root causes of their criminal behavior, and developing innovative programs to serve as tools for rehabilitation. SFDA is committed to creating a safer, stronger San Francisco that supports crime victims, survivors, and their loved ones. The office is dedicated to reducing mass incarceration and recidivism, while eliminating racial and class inequities in the criminal justice system. sfdistrictattorney.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$93.7 million for the Office of the District Attorney is \$4.2 million, or 4.7 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefit cost increases. The FY 2025-26 proposed budget of \$96.5 million is \$2.7 million, or 2.9 percent, higher than the FY 2024-25 proposed budget. This change is due to further salary and benefit cost increases.

Organized Retail Theft

The SFDA's Office has dedicated ongoing resources to the chronic challenge of organized

retail theft (ORT). Last fiscal year, the Office was awarded a three-year grant totaling \$2 million to fund a full-time prosecutor and a full-time investigator dedicated to this area. The grant-funded ORT attorney manages the intake and charging of cases and vertically prosecutes the most prolific offenders. This attorney works closely with the police department to support ORT investigations, meets with retailers and other stakeholders to provide loss prevention investigation training, and coordinates efforts to deter retail theft offenses. In the first three months of the program, the Office brought

PENDING CASES VERSUS FILED CASES.

charges in 182 retail crime cases, 32 of which were handled by the grant-funded attorney. During that same period, the Office obtained convictions in 37 retail theft cases, including for charges of grand theft, robbery, commercial burglary, and organized retail theft.

Victim Services

The Victim Services Division (VSD) promotes justice and safety. Victims of crime deserve access to resources, opportunities to heal, and solutions to individual needs alongside the pursuit of justice in the courtroom. Members of the VSD team speak Spanish, Cantonese, Mandarin, and several other languages. In 2023, the VSD provided services to 9,630 victims of violent crime, a 6.7 percent increase from 2022 when 9,023 victims were served. VSD strives to

support victims of violent crime in the aftermath of an incident, with a goal to help victims mitigate the trauma of a crime, provide navigation through the criminal justice system, and support survivors in rebuilding their lives in the wake of victimization. VSD continues to expand its reach by way of strategically partnering with community-based organizations and embedding community victim advocates, who offer support in underserved and vulnerable communities, in the offices of community partners.

Racial Justice Act

The Office of the District Attorney has always endeavored to provide equitable outcomes for all impacted victims and justice-involved individuals. The office has partnered with researchers over the years studying bias in the criminal justice

VICTIM SERVICES DIVISION.

system. In 2020, the California State Legislature enacted the Racial Justice Act (RJA) to combat discrimination based on race, ethnicity, or national origin in the criminal justice system. To correctly implement the RJA, the SFDA has dedicated significant resources to compile and analyze case information and statistics, as is now required, for any case where a defendant petitions for relief under this statute.

Narcotics Abatement

In line with the Mayor’s commitment to improving public safety and street conditions, the SFDA continues to prioritize drug prosecutions in the hardest hit areas of the City. The Office is handling unprecedented numbers of narcotics cases. Since July 2022, the Department has received almost 1,800 felony narcotics sales

cases and has filed over 1,500 cases, an 86 percent filing rate. The Department has almost 600 cases open and pending. There are three trial attorneys handling the cases that are set for trial (almost 250 cases), and the rest are being processed by other attorneys through the preliminary hearing stage. Critical to this process is the work of paralegals, who ensure that the documentation and evidence in each of these cases are timely provided to the defense. Since the Department refocused on these types of cases, and treated them with the seriousness they deserved, the cases have begun resolving for felony convictions with probation and court orders to stay away from where the crime was committed. The Department anticipates this workload continuing at this pace for the foreseeable future.

EARLY CHILDHOOD

MISSION

The Department of Early Childhood (DEC) strives to weave together family, community, and system supports so that all children who grow up in San Francisco have a strong foundation of nurturing, health, and learning. For more information about this department's services, please visit sfdec.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$336.5 million for the Department of Early Childhood (DEC) is \$9 million, or 2.6 percent, lower than the FY 2023-24 budget. This is largely due to reductions in various revenue sources, including Prop 10 State revenue, developer fees, and a one-time use of fund balance in the prior year. The Fiscal Year (FY) 2025-26 proposed budget of \$337 million is \$0.5 million, or 0.1 percent, higher than the FY 2024-25 proposed budget. The department leveraging both prior year balances of Proposition C revenue and new projected revenues to maintain programming.

Continuing Transition to a New Department

In FY 2024-25, The Department of Early Childhood (DEC) will start its third year of operation. Through this budget cycle, DEC will continue building administrative and program capacity to support young children and their families.

Expanding Early Care and Education Programs

The Mayor's proposed budget expands funding for early childhood care and education, ensuring sustained distribution of child care vouchers to

low- and moderate-income families, landmark compensation support for early educators, workforce programs that recruit and retain early educators, and build-out of new and improvements to existing childcare facilities. This proposed budget introduces a new two-year initiative, investing \$60 million per year to expand the income eligibility for childcare subsidies by increasing the threshold from 110 percent of the Area Median Income (AMI), currently \$158,500 for a family of four, to 150 percent of AMI, which is \$216,150 for a family of four. Under this proposal, newly eligible families can enroll their children in existing city-funded Early Learning San Francisco programs and receive up to a 50 percent subsidized rate for early childcare and education. Additionally, those who choose programs outside the city-funded network can receive subsidies up to 25 percent of the city-funded rates. This expansion aims to make quality early childhood education more accessible to a broader range of families, supporting both children's development and parents' workforce participation.

These efforts are largely funded by the June 2018 Proposition C that created the Babies and Families Fund. Proposition C initiatives revitalize our local

economy with job creation in early learning programs, while providing childcare subsidies to low and moderate-income families earning less than 200 percent of area median income AMI, allowing up to 12,000 children birth-to-five years of age to access to early learning programs.

DEC’s budget includes over \$2 million to establish accountability measures that evaluate impact. DEC funds targeted professional development opportunities to improve cultural and linguistic responsiveness of the early care and education workforce.

Early Educators Pay Raise

In April 2022, the Mayor announced a new initiative of \$71 million annually for pay raises, increased benefits, improved working conditions, and support of educational attainment for San Francisco’s early education workforce. The Mayor’s proposed budget includes maintenance of this program, ensuring educators continue to be fairly paid for their crucial work, and helping attract educators to the field. Over the next budget cycle, DEC will expand the program of stipends and wage increases to direct supports for educators to attain

permits/degrees and enhance professional development. This budget earmarks another \$60 million to protect this program through economic fluctuations.

Child and Family Well-being

DEC’s budget includes continued and robust investments to the City’s network of 26 Family Resource Centers (FRCs), which provide vital economic, educational, and social supports to families with young children. FRCs are a critical component in both families’ and the City’s economic recovery.

Early educators and parents have stressed the importance of more comprehensive inclusion and early intervention supports. In response, the DEC budget includes investments to expand an early intervention system of care that establishes a centralized access point for service linkage, encourages and fosters developmental play as an early intervention option, and creates long-term care coordination teams for children at highest risk. DEC will have opportunities to promote and streamline developmental screening tools.

NUMBER OF ACTIVE APPLICATIONS ON EARLY LEARNING SAN FRANCISCO “WAIT LIST” (2018-2023). *With the expansion of subsidy eligibility and availability under Baby Prop C, the number of families on the Early Learning San Francisco “wait list” has been slashed by over 70 percent.*

IMPACT OF EARLY EDUCATOR SALARY SUPPORT GRANTS (EESG) ON TEACHER WAGES, BEFORE AND AFTER. DEC's investments in teacher compensation have boosted teacher wages in the highest-need child care centers by as much as 47 percent, or from \$15,000 to \$20,000 a year on average.

ECONOMIC & WORKFORCE DEVELOPMENT

MISSION

The Office of Economic and Workforce Development (OEWD) advances equitable and shared prosperity for San Franciscans by growing sustainable jobs, supporting businesses of all sizes, creating great places to live and work, and helping everyone achieve economic self-sufficiency. For more information about this department's services, please visit sf.gov/departments/office-economic-and-workforce-development

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$137.0 million for the Office of Economic and Workforce Development is \$21 million, or 13.3 percent, lower than the FY 2023-24 budget. This change is due to the expiration of one-time community grant funds allocated FY 2023-24 and further reductions in FY 2024-25 to community-based grant funding levels. The FY 2025-26 proposed budget of \$115.1 million is \$21.9 million, or 16 percent, lower than the FY 2024-25 proposed budget. The change is due to the expiration of one-time economic investment recovery funds budgeted in one year only.

Citywide Economic Vitality

OEWD is the primary City agency charged with the City's economic revitalization efforts. While daytime return-to-office rates show some improvement, San Francisco's tourism and nighttime activity are accelerating at faster paces. With international air travel approaching pre-pandemic rates, there is a clear opportunity to capitalize on visitors and tourists. The City will work toward this goal by building on more than a year of progress delivering the Mayor's

Roadmap to San Francisco's Future, through a series of key investments that include an additional \$15 million one-time investment programs aimed at fostering a thriving economy by supporting both downtown and neighborhood commerce and \$5.5 million towards community safety ambassadors to continue to improve the safety of all who utilize the public realm.

Restoring Vibrancy

The continuation of the Vacant to Vibrant program and other grants will transform empty storefronts into active spaces, both in San Francisco's neighborhoods and downtown. The budget also provides tenants with assistance with permitting, marketing, leasing and activation events, to help their businesses thrive.

The proposed budget seeks to increase foot traffic with activations, entertainment and free parking on nights and weekends to encourage downtown visits. Union Square Park will host expanded programming, while Powell Street will feature pop-ups and art exhibits. The budget also provides for 24/7 patrol and continues the Welcome

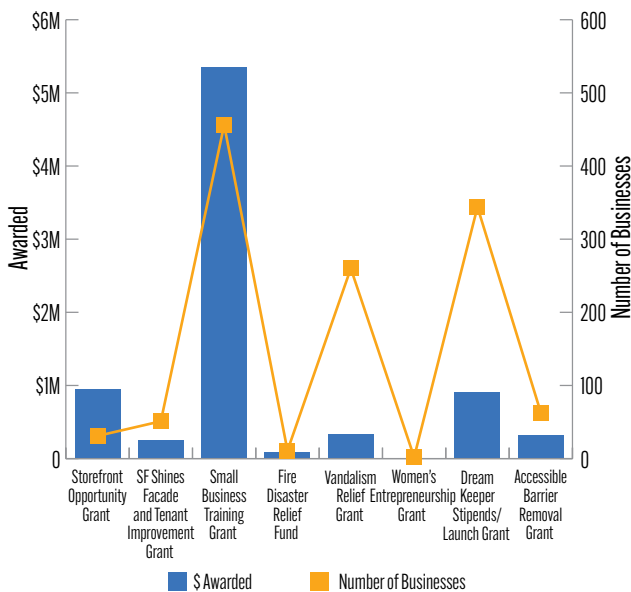

Ambassadors, who offer a warm and friendly presence, engage with the public, and helps with wayfinding and restaurant recommendations.

In partnership with the Treasure & Tax Collector’s Office, the Mayor’s proposed budget continues the First-Year Free program. This initiative promotes economic recovery for small businesses by waiving first-year permits, initial licenses, and initial business registration fees. Since its launch in 2021, more than 6,000 businesses have enrolled, of which nearly 4,000 are new, with the remainder being existing businesses adding a new location.

In addition to the key investments named, OEWD’s overall budget will continue to provide baseline services to the City At-Large. Small business and entrepreneurs will continue to have access to small business technical assistance through our staff at the Small Business Assistance Center and through our partner organizations. OEWD will maintain workforce development activities in sectors that are in demand, face staffing shortages, and have

the capacity to provide significant career pathway opportunities and work with local employers to tailor the Department services to meet their workforce needs.

Furthermore, OEWD will advance the Mayor’s 30x30 Initiative, which sets a bold new target of bringing at least 30,000 new residents and students by 2030 to support for her vision of Downtown as a diverse, mixed-use, 24/7 destination and neighborhood. This initiative will aim to: convert at least 5 million square feet of underutilized office space to approximately 5,000 units to welcome some 10,000 new residents to downtown’s historic office core; add at least 5,000 units of housing in new residential developments to welcome another 10,000 residents across downtown neighborhoods; and attract universities and colleges to launch or grow downtown bringing 10,000 students, teachers, and staff. The City will work toward this goal, and the others outlined, by building on more than a year of progress delivering the Mayor’s Roadmap to San Francisco’s Future.

SMALL BUSINESS GRANTS AWARDED FY 23-24.
Small Business Grants Awarded in FY 2023-24 through December 31, 2023.

HOSPITALITY SECTOR PROGRAM. Number of clients enrolled in Hospitality Sector Programs in FY 2023-24 through March 31, 2024.

Workforce Development

OEWD will prioritize its citywide, neighborhood based, and specialized job centers as San Francisco continues to provide hiring services to attract, grow, and retain a diverse workforce. The Workforce Development Division connects job seekers in San Francisco, who are unemployed, under-employed or have barriers to employment, with job opportunities in growing industries. OEWD will continue to invest in Sector Training programs, particularly

the CityBuild construction program, TechSF, Hospitality and the HealthCare Academy, as well as opportunities responsive to the local economy. The Department will maintain workforce development activities in sectors that are in demand, face staffing shortages, and have the capacity to provide significant career pathway opportunities and work with local employers to tailor the Department services to meet their workforce needs.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

ELECTIONS

MISSION

The mission of the Department of Elections (REG) is to provide equitable access to election-related services and voting and to conduct elections that are free, fair, and functional.

The Department administers elections and complies with all applicable federal, state, and local laws, including the Voting Rights Act, the Help America Vote Act, the Americans with Disabilities Act, and the City’s Language Access Ordinance. For more information about this department’s services, please visit sfelections.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$25.9 million for the Department is \$3.0 million, or 12.9 percent, higher than the FY 2023-24 budget. This is primarily due to temporary staff and other one-time costs related to holding the November 2024 Consolidated General Election. The FY 2025-26 proposed budget of \$23.0 million is \$2.9 million, or 11.3 percent, lower than the FY 2024-25 proposed budget. This is primarily due to decreases in temporary staffing and other election

related costs since the department will hold only one primary election in June 2026.

The budget increase is due to the need to hold two elections during this period, with the November 2024 Consolidated General Election expected to be among the largest and most complex in San Francisco’s history. The three main factors informing this expectation are a historically high voter turnout for the presidential election, an

PERCENTAGE OF VOTE BY MAIL BALLOTS SINCE 2012.
Vote-by-Mail ballots have significantly increased since 2020.

unprecedented long ballot, and an increased number of pages in the Voter Information Pamphlet.

Convenient and Equitable Voting Services

In FY 2024–25 and FY 2025–26, REG will conduct the November 5, 2024 Consolidated General Election and the June 2, 2026 Statewide Direct Primary Election. For each, REG will work to provide convenient voter services for all eligible voters in San Francisco as well as services for San Francisco’s most vulnerable residents, including those with limited proficiency in English, people with disabilities, people involved with the justice system, and people experiencing homelessness.

Convenient and equitable voting services for the November 5, 2024 Consolidated General Election and the June 2, 2026 Statewide Direct Primary Election will include: a universal vote-by-mail ballot program, in-person voting at City Hall and polling places, emergency ballot delivery to homebound and hospitalized voters, and registration services and ballot delivery to incarcerated voters. Accordingly, the proposed budget includes the funding necessary to maintain

both the public-facing aspects of these services as well as the internal operations necessary to support inclusive access for voters and potential registrants.

Comprehensive Voter Education and Outreach

Similarly, with two elections scheduled during these periods, the proposed budget must include sufficient funding in order to provide effective, equitable, and accessible voter outreach to the residents of San Francisco. Planned outreach has been designed mainly to build awareness of election services and encourage high voter participation. To accomplish this, REG must maintain direct outreach to the general public through the distribution of materials online and at community events, the mailing of election notices, the placement of news and radio advertisements, and the broadcasting of public service announcements in multiple languages and formats. REG will continue working with local nonprofits that engage with vulnerable populations, coordinating with these organizations to help ensure all residents have full access to safe, barrier-free registration and voting options.

NUMBER OF REGISTERED VOTERS BY ELECTION. *Voter registration in San Francisco elections since 2012.*

Public Engagement with Elections Processes

In order to support its goal of maximizing public transparency and public involvement in elections operations, REG will continue to raise awareness of and engagement in registration and voting processes. Such engagement includes public observation, poll worker service, and public participation in language access and accessible voting advisory committees. Similarly, with the goal

of instilling life-long civic interest in San Francisco's future voters, REG plans to maintain its High School Student Poll Worker and Ambassador programs, which have been specifically designed to attract students from local public and private high schools and city agencies. In short, the proposed budget includes funding for strategies aimed at increasing engagement with critical voting populations.

PERFORMANCE MEASURES

EMERGENCY MANAGEMENT

MISSION

The Department of Emergency Management (DEM) leads the City in planning, preparedness, communication, response, and recovery for daily emergencies, large-scale citywide events, and major disasters. DEM is the vital link in emergency communication between the public and first responders, providing key coordination and leadership to city departments, stakeholders, residents, and visitors. For more information about this department's services, please visit sf.gov/departments/department-emergency-management

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$140.8 million for the Department of Emergency Management is \$2.1 million, or 1.5 percent, higher than the FY 2023-24 budget. This is primarily due to increases in salaries and benefits and enhanced street response coordination. The FY 2025-26 proposed budget of \$149.7 million is \$8.9 million, or 6.3 percent, higher than the FY 2024-25 proposed budget. This change is due to investments in capital projects, technology projects, increased funding for dispatcher academies, and increases in grant revenue.

The FY 2024-25 and FY 2025-26 Mayor's proposed budget focuses on enhancing core service delivery and ensuring that all emergencies in San Francisco are responded to efficiently and safely.

Increasing Dispatcher Hiring to Improve 9-1-1 Response Times

Ensuring that the 9-1-1 Call Center is fully staffed is essential to ensuring the safety of the public. Due to hiring challenges, DEM has not been able to replace the annual attrition of veteran dispatchers

with new recruits. In a major investment, this budget increases staffing levels with the goal of hiring up to 45 new dispatchers in FY 2024-25. This will improve emergency call response times and allow the City to be better staffed in responding to emergency incidents.

Refresh Critical Public Safety Systems

Beginning in FY 2018-19, DEM launched a multi-year initiative to replace the City's legacy Computer Aided Dispatch (CAD) System, which is a critical tool used for the tracking, managing and dispatching of personnel for all of the 9-1-1 Calls for Service in San Francisco. After completing a three-year scoping phase, the project team is currently implementing the replacement of the outdated system through collaboration and participation with all public safety agencies. Over the next two fiscal years, \$23 million has been allocated to further the implementation of a modern, forward-ready CAD technology platform that will improve the City's capabilities for receiving, categorizing, and dispatching public safety field personnel.

Improving Resiliency of the City’s 9-1-1 Operations and Citywide Data Center

The Mayor’s proposed budget includes capital investments in FY 2024-25 and FY 2025-26 to replace critical infrastructure systems in need of immediate remediation to ensure continuity of 24/7 operations for DEM’s Headquarters at 1011 Turk, which houses the City’s 911 Center as well as the Citywide Data Center.

Alternatives to Policing

HEART, a police alternative, fills a gap in San Francisco’s coordinated street response system, ensuring rapid responses to calls from the public to SF’s non-emergency number and 311 regarding

the needs of people experiencing homelessness. The Mayor’s proposed budget allocates \$3.0 million in FY 2024-25 and FY 2025-26 to continue funding four teams of practitioners and supervisors in the field seven days a week and addresses approximately 14,400 calls per year. While they meet a wide array of reported needs, they prioritize calls related to blocked sidewalks, trespassing and small encampments. HEART is skilled at engaging and de-escalating people with complex needs and skillfully collaborate with other street partners to link people experiencing homelessness to shelter or services. They are a valued and cost effective part of SF’s Coordinated Street Response Program.

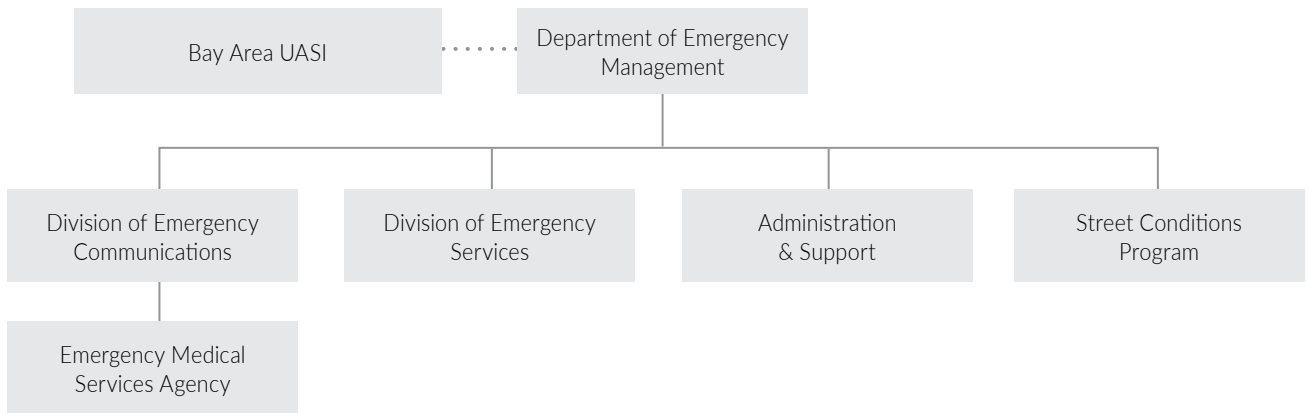

CALL VOLUME VERSUS PERFORMANCE. *Service Standard v. Average Daily Emergency Call Volume.*

PERFORMANCE MEASURES

ENVIRONMENT

MISSION

The Department of Environment's (ENV) mission is to advance climate protection and enhance the quality of life for all San Franciscans. ENV implements change-making environmental policies and delivers programs and services directly to residents and businesses that promote zero waste, protect human health, increase energy efficiency, prevent pollution, enhance biodiversity and reduce personal vehicle trips. ENV also works in partnership with city agencies and the public to implement San Francisco's ambitious Climate Action Plan. For more information about this department's services, please visit sfenvironment.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$45.7 million for the Environment Department is \$13.4 million, or 41.4 percent, higher than the FY 2023-24 budget. This is primarily due to new state and federal grants. The FY 2025-26 proposed budget of \$36.2 million is \$9.5 million, or 20.7 percent lower, than the FY 2024-25 proposed budget. This change is due to expiring one-time grants in the prior year.

Keeping Drugs Off Our Streets and Out of Waterways

The Department of Environment's Safe Drug Disposal Stewardship Program, based on an ordinance championed by Mayor London N. Breed and enacted in 2015, has collected over 140,000 pounds of unwanted medications since 2017. The Safe Medicine Disposal program provides drop-off kiosks, mail-back envelopes, and collection events for residents to safely dispose of unused or expired medicine. These convenient options safeguard children, adults, pets, and wildlife from accidental ingestion or poisoning. The program uses

an Extended Producer Responsibility approach to protect public health and promote environmental sustainability by reducing pharmaceutical contamination in water bodies. This collaborative

SAFE MEDICINE DISPOSAL PROGRAM MEDICINE COLLECTION RESULTS. *The weight of unwanted medicine (in pounds) collected from 2017 to 2022.*

effort between residents, government, and industry keeps drugs off our streets and sets a precedent for positive effective public health interventions.

Funding our Future: Securing State and Federal Grants for Climate Projects

The federal government’s focus on building a greenhouse gas-free and climate just future through the release of billions in grant funding presents an unprecedented opportunity to accelerate the implementation of San Francisco’s Climate Action Plan. The Department of Environment (ENV) is taking advantage of this funding opportunity by aggressively pursuing grants at the state and federal level to increase business, community, and residential participation in emission reduction and zero waste initiatives. These additional resources will promote a higher quality of life for San Franciscans by bolstering decarbonization programs that promote equity and affordability, strengthening the City’s food recovery ecosystem for vulnerable communities and supporting community-led climate justice efforts. Since 2023, ENV has secured

\$45.8 million in outside funding from 13 successful traditional grant applications.

Energizing Lives and Saving Businesses Money

The BayREN Business program, spearheaded by the Department of Environment, is helping the City’s small businesses recover from the pandemic through money-saving sustainability measures. This publicly-funded program offers small businesses free energy efficiency assessments and financial incentives. Technical assistance is provided to support equipment upgrades, lowering maintenance costs. In 2023 alone, the program reached out to over 30 businesses, granting \$218,000 in rebates for lighting and refrigeration upgrades. These incentives enabled businesses to make energy-efficient changes at little to no cost – resulting in equipment upgrades and an immediate reduction in their energy bills. Moving into 2024, BayREN Business continues to serve as a catalyst for small business economic recovery and greenhouse gas emission reduction in San Francisco by recruiting new businesses to take advantage of the generous incentives.

GREENHOUSE GAS EMISSIONS. *This chart displays sector based greenhouse gas emissions for San Francisco.*

ETHICS COMMISSION

MISSION

The mission of the Ethics Commission (ETH) is to promote the highest standards of ethical conduct in City government and to ensure transparency into campaign finance and lobbying activities. The Commission helps the City as a whole earn and maintain the public's trust and ensure equity, transparency, and fairness in government decision making. The Department administers campaign finance, lobbying, and ethics programs; provides trainings and advice on how to comply with the law; conducts policy analysis to improve ethics laws; serves as filing officer for public disclosures; and performs audits and investigations. For more information about the Commission's services, [SFethics.org](https://www.sfethics.org)

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$14.4 million for the Ethics Commission is \$6.8 million, or 90.9 percent, higher than the FY 2023-24 budget. This is primarily due to an increased contribution to the Election Campaign Fund. The FY 2025-26 proposed budget of \$7.8 million is \$6.6 million, or 45.7 percent, lower than the FY 2024-25 proposed budget. This is due to a decreased contribution to the Election Campaign Fund.

Proposition D

In the March 2024 election, voters approved Proposition D, which strengthens City ethics laws and requires nearly 6,000 City officers and employees to attend annual ethics training. The Ethics Commission (ETH) will administer the training program, which educates officials about key ethics rules. The department is also expanding its capacity to provide ethics advice so that City officers and employees have access to clear and effective guidance about ethics laws. These programs will

ensure that City operations are carried out in an equitable, accountable, and transparent manner that is free of any conflicts of interest.

Enforcement

The Enforcement Division investigates and pursues penalties for violations of the laws administered by the Ethics Commission. This essential function provides accountability throughout the City and deters future violations. Because of increased staffing, the Enforcement Division has successfully decreased the time it takes to resolve cases, increased the number of cases completed each year, and performed increasingly more complex and thorough investigations.

Campaign Audits

The Audits Division performs audits to determine whether political campaigns and lobbyists have filed timely and complete financial reports and whether they have violated City laws. Audits are

essential to ensure accountability and transparency when money is spent to influence City elections or governmental decision-making. In recent years, the Audits Division has experienced a backlog of campaign audits. The proposed FY 2024-25 budget will provide for a restructuring of the Audits Division to ensure that audits are completed in a timely and thorough manner.

Program Administration

The Ethics Commission administers programs designed to ensure accountability and transparency in City government, including campaign finance,

conflicts of interest, Form 700, lobbying, permit expediting, and major developer programs. Administrative staff support each program by creating compliance materials, answering questions, providing technical support, and reviewing filings. The department is also responsible for ensuring general operational integrity by adhering to procurement and financial protocols, tracking performance measures, producing reports, and holding public meetings. The proposed FY 2025-26 budget provides for increased administrative staffing support to better provide for effective program administration and agency operations.

ENFORCEMENT CASES COMPLETED. *This table shows the total number of cases completed by the Ethics Commission's Enforcement Division since FY 2020-21.*

AVERAGE TIME TO COMPLETE PRELIMINARY REVIEWS. *This table shows the average completion time, in days, of all preliminary reviews conducted by the Ethics Commission since FY 2020-21.*

FINE ARTS MUSEUMS

MISSION

The Fine Arts Museums of San Francisco (FAM) was formed in 1972 with the merger of the de Young and Legion of Honor museums. The Fine Arts Museums' mission is to connect visitors with local and global art in order to promote their knowledge of and curiosity about the past, deepen their engagement with the art and ideas of today, and stimulate their creative agency in their own futures. FAM is further envisioned as a forum that stimulates community and visitor conversations and explorations by applying inclusive and equitable perspectives to collections and the histories they embody, and to support staff to realize their potential in an inclusive and equitable workplace. For more information about this department's services, please visit famsf.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$23.9 million for the Fine Arts Museum is \$0.6 million, or 2.6 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefit cost increases. The FY 2025-26 proposed budget of \$24.5 million is \$0.6 million, or 2.6 percent, lower than the FY 2024-25 proposed budget. This change is primarily due to reductions in capital funding.

Exhibitions that Ruminates History and Entice Audiences

The Museums offer a wide range of programs that expand knowledge and provide audiences with an inclusive and equitable lens on historic and contemporary issues. This programming supports economic recovery by welcoming an expanded audiences to the Museums. The Museums will offer several special exhibitions in FY 2024-25, covering a wide range of art and artists that focus on gender, music, and politics.

Equitable Access to the Museums through Free Saturdays

The Museums ensure that the City's collections are accessible to all City residents. The Free Saturdays program was established in April

FREE STUDENT MUSEUM VISITS. *Museum visits and programming are provided free of charge at the Fine Arts Museums for thousands of local students each year.*

2019 to provide free general admission to every San Franciscan. In October 2019, the Museums expanded the program to all residents. As part of the Free Saturday program, the Museums provide a variety of complimentary public and family programming every Saturday. Since its inception, the program has provided over 590,000 free visits.

In addition to Free Saturdays, FAM provides free general admission through Museums For All and

for all visitors with disabilities. FAM continues to offer free general admission to all every first Tuesday of the month. School group admission and programs are also free of charge, including for special exhibitions. Several Access Mondays each year provide free general and special exhibition admission and facilitated programs for individuals with disabilities. This programming increases diversity and financial accessibility at the museums.

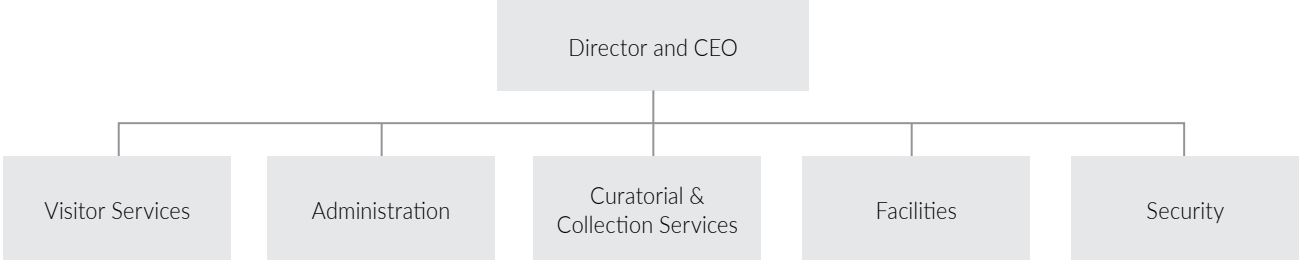

ANNUAL VISITORS. *The Fine Arts Museums of San Francisco, comprising of the de Young Museum and the Legion of Honor, is among the most visited arts institutions in the United States.*

FIRE DEPARTMENT

MISSION

The mission of the San Francisco Fire Department is to protect the lives and property of the people of San Francisco and its visitors from fires, natural disasters, accidents, hazardous materials incidents, and other causes requiring a rapid and skilled emergency response; serve the needs of its most vulnerable residents through community paramedicine, and save lives and reduce suffering by providing emergency medical services; prevent harm through prevention services and education programs; and to provide a work environment that is free from harassment and discrimination, and values health, wellness, cultural diversity, and equity. For more information about this department's services, please visit sf-fire.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$531.2 million for the Fire Department is \$19.9 million, or 3.9 percent, higher than the FY 2023-24 budget. This is primarily due to increased overtime, salary and benefit cost increases, and materials and supplies increases. The FY 2025-26 proposed budget of \$547.1 million is \$15.8 million, or 3.0 percent, higher than the FY 2024-25 proposed budget. This change is due to ongoing salary and benefit cost increases.

Investment in Hiring

The Mayor's proposed budget supports important hiring initiatives for Fire Suppression, Emergency Medical Services (EMS), and Community Paramedicine divisions, as the Fire Department continues to address staffing challenges brought on by the COVID pandemic. The proposed FY 2024-25 and FY 2025-26 budget includes funding to support two H-2 Firefighter academies in each year,

and additional academies to support established staffing levels in the EMS and Community Paramedicine Divisions. These investments are crucial for the Department to meet its goal of reducing mandatory overtime and maintaining healthy staffing levels for emergency operations.

Expanding Scope of Emergency Services

Current year estimated call volume levels are projected to be the highest in the history of the San Francisco Fire Department, as the Department has far surpassed pre-pandemic levels. The roles and responsibilities of the Fire Department have increased in recent years, seeing the Department take on additional initiatives related to behavioral and mental health, homelessness, and support for small businesses. The Mayor's proposed budget continues the work of the Department with its City partners in these areas.

Supporting Department Infrastructure

One of the Department’s top priorities is supporting its infrastructure, including fleet, equipment, and facilities. In the Mayor’s proposed budget, there is \$3 million in FY 2024-25 and \$2.5 million in FY 2025-26 allocated to support fleet and equipment initiatives. In addition, the Department’s budget includes investments to

mitigate inflation and supply chain impacts to prices for crucial goods and services that directly support front-line emergency services.

The Mayor’s proposed budget also funds \$5.6 million in capital projects at the Fire Department over two years, including facilities maintenance, heavy equipment replacement, and electrical upgrades at Fire facilities.

GENERAL CITY RESPONSIBILITY

MISSION

General City Responsibility is a departmental designation for expenditures and revenues that are not directly attributable to one City department, or that are citywide in nature. Examples of citywide expenditures are voter mandated General Fund support for transit, libraries, and other baselines, the General Fund portion of retiree health premiums, nonprofit cost of doing business increases, required reserve deposits, and debt service. These costs are budgeted in General City Responsibility rather than allocating costs to departments. Examples of citywide revenues deposited into General City Responsibility are undesignated property taxes, business taxes, and hotel taxes. These revenues are transferred to departments in the form of General Fund subsidy allocations.

HEALTH SERVICE SYSTEM

MISSION

The San Francisco Health Service System (SFHSS) is dedicated to preserving and improving sustainable, quality health benefits and to enhancing the well-being of employees, retirees and their families. For more information about this department's services, please visit [SFHSS.ORG](https://www.sfhss.org)

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 proposed budget of \$11.3 million for the Health Service System is \$2.6 million, or 18.8 percent, lower than the FY 2023-24 budget due to shifting costs to the HSS Trust Fund. The FY 2025-26 proposed budget of \$11.5 million is \$0.3 million, or 2.4 percent, higher than the FY 2024-25 proposed budget. This is primarily due to salary and benefit cost increases.

The FY 2025-26 proposed budget of \$13.4 million is \$770,000, or 0.6 percent, higher than the FY 2024-25 proposed budget. This is primarily due to increases of \$363,000 in salaries and benefits, attributable to wage increase agreements, coupled

with decreases of \$157,000 non-personnel, \$23,000 in materials and supplies, and \$106,000 in work orders.

SFHSS completed its 2023-25 strategic plan in November 2022. The strategic goals in this plan are:

- Foster equity through intentional organizational culture, accessibility, inclusion and belonging.
- Advance primary care practice and member engagement to ensure the right care, at the right time and place.
- Provide affordable and sustainable healthcare and high-quality well-being services through value-driven decisions and program design.

SFHSS MEDICAL RATES TREND VS BENCHMARKS, CALENDAR YEAR-OVER-YEAR.

Comparison of SFHSS change in medical rates to California 10 county average and CPI. The rising cost of healthcare has outpaced inflation in most years. Due to the lagging impact of higher inflation HSS and California average rates peaked in 2024 and have moderated in 2025.

- Support the mental health and well-being of our membership by reducing stigma and addressing barriers to care in partnership with key stakeholders.

The Mayor’s proposed budget supports SFHSS’s strategic goals to ensure the Department delivers quality services. SFHSS membership covers 123,000 active employees, dependents, and retirees. The Department’s community engagement efforts center around the Member Services Division, which provides front-line support through consultation and enrollment. Additionally, the Well-Being Division advises City departments on Well-Being Annual Plans. The Department’s Wellness Center offers exercise challenges, flu clinics and benefits fairs, and the Employee Assistance Program provides individual counseling sessions, organizational development consultation, and critical incident response.

Healthcare Sustainability Fund

The Healthcare Sustainability Fund (HSF) was established under San Francisco City Charter Section A8.423. The HSF budget covers annual activities and multi-year implementation of

strategic initiatives to improve the member service experience, mitigate rising health care costs, and invest in the well-being of all members. SFHSS has utilized sources in HSF to fund projects, including an updated member communications plan, member self-service eBenefits, and telephony replacement including integration with customer relationship management tool.

SFHSS ENROLLMENT TREND. SFHSS enrollment grew for the first time in 2024 after the pandemic as vacant positions are filled.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

HOMELESSNESS AND SUPPORTIVE HOUSING

MISSION

The Department of Homelessness and Supportive Housing strives to make homelessness in San Francisco rare, brief, and a one-time occurrence, through the provision of coordinated, compassionate, and high-quality services. For more information about this department's services, please visit hsh.sfgov.org.

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2043-25 budget of \$846.7 million for the Department of Homelessness and Supportive Housing is \$133.5 million, or 18.7 percent, higher than the FY 2023-24 budget. This is primarily due to the leveraging of Our City, Our Home funds and interest earnings for the funding of Family and Transitional Aged Youth housing expansions. The FY 2025-26 proposed budget of \$677 million is \$169.7 million, or 20 percent, lower than the FY 2023-24 proposed budget. This is primarily due to expiring one-time state funding budgeted in FY 2024-25, as well as multi-year spending plans currently budgeted in FY 2024-25 that will continue to be spent in FY 2025-26.

Reducing Family Homelessness

In recent months, the City has experienced an increase in the number of families with children seeking emergency shelter. The City's homelessness response system provides more than 300 family shelter and transitional housing beds and supports more than 2,300 units of family housing for formerly homeless households.

The proposed budget includes a \$50.4 million investment in expansion of emergency family

shelter, rapid-rehousing subsidies and time-limited rental assistance. To fund this initiative, the proposed budget allocates \$2.9 million in General Fund support, \$17.6 million in interest earnings from the OCOH Fund, combined with \$20 million in OCOH funds earmarked for family housing and \$9.9 million earmarked for transitional age youth

NUMBER OF EMERGENCY SHELTER AND TRANSITIONAL HOUSING BEDS. *Number of emergency shelter and transitional housing beds from 2019 to 2024. The City had 3,894 shelter and transitional housing beds in 2024.*

(TAY) housing appropriated in the prior year’s budget. The plan includes \$11.6 million for 115 emergency hotel vouchers to provide temporary shelter serving over 600 families during the next 18 months. The proposal also allocates \$38.8 million for an additional 215 rapid rehousing and shallow rental subsidies for families, including 50 rapid rehousing subsidies for young adult-headed families. HSH expects that these additional investments, combined with HSH’s current funding level, will enable the rehousing of more than 450 families in the next two years.

Expanding Housing Options for Transitional Age Youth

The proposed budget includes a \$37.8 million investment in new rapid rehousing subsidies, permanent flexible housing and housing ladder subsidies, and acquisition of a new housing site for transitional age youth (TAY). The proposed budget fully funds the initiative using OCOH funds earmarked for TAY housing. The proposal allocates \$29.8 million for 235 rapid rehousing subsidies, including 60 subsidies for youth exiting transitional housing and 15 subsidies for youth affected by violence. The proposal also includes

\$1.5 million in ongoing funding for 50 permanent flexible housing subsidies or housing ladder subsidies, totaling \$3 million in the proposed FY 2024-25 and FY 2026-26 budget. Lastly, the proposed budget allocates \$5 million to acquire a new housing site for justice-involved youth to support the Just Home Project, an initiative led by the MacArthur Foundation and Urban Institute focused on breaking the cycle of housing instability and incarceration.

Expanding the City’s Emergency Shelter Capacity

The proposed budget leverages state grant funds and reallocated General Fund savings within the Department to maintain more than 4,000 beds citywide and add new shelter sites. This investment includes reallocating local funds and leveraging multiple grant funds to continue more than 500 shelter beds that would otherwise have closed. The proposed budget funds 80 new slots at Jerrold Commons, a program in the Bayview that serves approximately 95 people by providing RV spaces and cabins. The proposed budget also allocates one-time funds to construct a temporary safe parking program once a site is identified.

NUMBER OF PERMANENT SUPPORTIVE HOUSING UNITS. *The City has invested in the largest expansion of permanent supportive housing (PSH) in 20 years. At the end of FY 2023-24, the City had 11,675 units of PSH.*

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24		FY2024-25	FY2025-26
GOAL	ACTUALS	PROJECTED	TARGET	TARGET	TARGET
Homelessness Prevention					
Number of households that secured and/or maintained housing due to homelessness prevention grant	1,419	1,300	600	1,200	1,200
Temporary Shelter					
Percent of case managed families in individual room shelters that are placed in permanent or transitional housing, enter a treatment program, or reunite with family	65%	65%	65%	65%	65%
Percentage of all available year-round adult homeless shelter beds used	95%	95%	95%	95%	95%
Problem Solving					
Number of households whose homelessness was resolved through Problem Solving interventions	1,000	984	700	1,000	1,000
Rapid Rehousing					
Number of adults leaving homelessness due to rapid rehousing rental subsidy	351	380	164	162	20
Number of families leaving homelessness due to a rapid rehousing rental subsidy	213	186	96	103	103
Number of households leaving homelessness due to a rapid rehousing rental subsidy	564	566	260	265	123
Permanent Supportive Housing					
Number of adults leaving homelessness due to placement in permanent supportive housing	2,007	1,816	1,323	1,451	1,114
Number of families leaving homelessness due to placement in permanent supportive housing	82	262	201	306	268
Percent of households (includes adults and families) in permanent supportive housing that remained or exited to other permanent housing	97%	97%	95%	95%	95%

HUMAN RESOURCES

MISSION

The Department of Human Resources (DHR) uses fair and equitable practices to hire, develop, support, and retain a highly-qualified workforce. For more information about this department's services, please visit sfdhr.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$157.6 million for the Department of Human Resources is \$6.9 million, or 4.6 percent, higher than the FY 2023-24 budget. This is primarily due to costs related to negotiating labor agreements, hosting the SF Fellows program, and salaries and benefits. The FY 2025-26 proposed budget of \$160.5 million is \$2.8 million, or 1.8 percent, higher than the FY 2024-25 proposed budget. This is primarily due to costs related to negotiating labor agreements and cost increases in salaries and benefits.

Human Resources Modernization

The Human Resources Modernization Project seeks to simplify hiring practices and provide tools that enable City staff to do their best work. The Mayor's proposed budget will fund the development of Digital Records, Onboarding, and the Intranet Portal. Together, the three projects provide employees with equivalent access. The Digital Records project is the base of any employee's career with the City. The Onboarding project will improve where an employee's journey begins with the City, and the Intranet project will provide equitable access to services.

EEO Case Management

The Equal Employment Opportunity Division supports City departments in investigating and resolving discrimination issues, harassment prevention, staff training, reasonable accommodation for individuals with disabilities, establishing citywide leave management policies,

APPLICATIONS & EXTERNAL HIRES. *The continued upward trend of applications to City jobs following the pandemic generally follows a similar path to the trend of external hires for positions.*

and protocols. The Mayor’s proposed budget includes a transfer of function from the Public Utilities Commission to the DHR, which continues the successful implementation of the Gould Report. To align with SF Municipal Transportation Agency (SFMTA) charter authority, the Mayor’s proposed budget also includes transitioning SFMTA case work from DHR to SFMTA.

Employment Services

The Employment Services division provides a wide range of services to all City Departments, including consulting, rule changes, exam administration, recruitment, administering bilingual testing, review of merit system processes, fingerprinting, and conviction history review. DHR, in collaboration with the Mayor’s Office, implemented a citywide recovery model to ensure the expenses associated with these services are reflected across all departments.

To reduce the onboarding time associated with pre-employment exams, the Department of Human Resources will leverage citywide resources to administer exams at a more rapid pace. In addition,

this funding will allow for current employees to access required job specific medical examination services.

Labor Negotiations

The Employee Relations Division has negotiated collective bargaining agreements on behalf of 88 percent of the City’s workforce covered by 34 unions contracts in FY 2023-24. The proposed budget for FY 2024-25 reflects reductions in one-time expenses associated with these negotiations. The FY 2025-26 budget reflects one-time expense increases associated with public safety labor negotiations.

SF Fellows

The Mayor’s proposed budget will continue funding for DHR’s annual San Francisco Fellows Program, with 11 City departments set to host 35 Fellows in FY 2024-25. This program serves as a talent pipeline and has delivered diverse groups of recent college graduates into the City’s workforce for the past 13 years. Over half of the San Francisco Fellows become part of the City’s permanent workforce after they graduate from the program.

WORKERS’ COMPENSATION CLAIM FILINGS. *Annual claims for the current FY 2023-24 are estimated to trend downward, while the rate of closure is estimated to increase nominally from the new post-pandemic increase.*

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26
GOAL	ACTUALS	PROJECTED	TARGET	TARGET
Design and implement user-friendly practices

HUMAN RIGHTS COMMISSION

MISSION

The Human Rights Commission (HRC) provides leadership and advocacy in securing, protecting, and promoting human rights for all people. The HRC advocates for human and civil rights, and works in service of the City’s anti-discrimination laws to further racial solidarity, equity, and healing. For more information about this department’s services, please visit sf.gov/departments/human-rights-commission

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$45.2 million for the Human Rights Commission is \$23.7 million, or 109.9 percent, higher than the FY 2023-24 budget. This is primarily due to the realignment of the Dream Keeper Initiative (DKI), with the majority of its funds now managed by the HRC, rather than by other departments. The FY 2025-26 proposed budget of \$34.2 million is \$11 million, or 24.3 percent, lower than the FY 2024-25 proposed budget. This is primarily due to the culmination of several DKI initiatives planned for FY 2024-25.

Dream Keeper Initiative (DKI)

Coordinated by the Human Resources Commission (HRC), the Dream Keeper Initiative (DKI) continues

to exemplify the city’s dedication to racial equity and economic justice, particularly in uplifting our Black communities and integrating their contributions into the city’s progress.

Central to DKI’s mission is economic empowerment, having successfully established 99 Black-owned businesses that now form an integral part of San Francisco’s economic landscape. This initiative not only bolsters citywide economic growth, but also fosters community resilience and engagement. In addressing homelessness and enhancing mental health services, DKI has secured stable housing and provided comprehensive support to hundreds, showcasing our city’s holistic

DKI IMPACT. *DKI ensures that Black-led and Black-serving organizations can scale their impact.*

approach to service delivery and public health improvements. This initiative also serves as a benchmark for our commitment to transparency and equity, with strategies that are both community-informed and ensure effective resource utilization, directly benefiting those in need.

To propel the Dream Keeper Initiative forward, HRC’s budget allocation will be increased by reallocating funds from other departments. This shift is designed to amplify oversight and refine the implementation of DKI’s critical programs. The realignment will ensure that DKI not only continues to achieve transformative results but also aligns with our city’s fiscal priorities in ways that emphasize accountability and equity. Through these efforts, San Francisco reaffirms its commitment to fostering a city that embodies the values of inclusion, prosperity, and equity, guaranteeing that every resident has the opportunity to contribute to and benefit from our shared progress. HRC will also become the new home of the Office of Transgender Initiatives (OTI).

Mental Health Investment

Aligned with San Francisco’s enduring commitment to transforming mental health services, the HRC will introduce a new facet to its suite of programs aimed at improving mental and behavioral health outcomes. Through a partnership with the Department of Public Health and backed by new

state grant funding totaling \$5.0 million annually for FY 2024-25 and FY 2025-26, HRC is set to launch a pioneering talk therapy initiative targeted towards the city’s Black and African American residents. This program underscores our city’s dedication to inclusivity and equitable health services, ensuring all community members have access to crucial mental health resources.

Opportunities for All

Continuing our city’s investment in the future of our youth, the Mayor’s proposed budget maintains robust support for the Opportunities for All (OFA) program. Anchored in the principles of economic justice and community empowerment, OFA provides a pathway for personal and professional growth through paid internships, mentorship, and career development services for young individuals aged 13 to 24. With participation extending to over 3,000 youths each summer, OFA not only fosters academic and career advancement but also strengthens community ties through diverse placement opportunities in local businesses, non-profits, and City departments. Prominent internship hosts such as SFO, Bank of America, and Blackrock, alongside vital community organizations like the Latino Task Force and the Boys and Girls Club, illustrate the program’s extensive reach and impact. This initiative remains a cornerstone of our strategy to nurture a resilient, inclusive, and economically vibrant San Francisco.

HUMAN SERVICES AGENCY

MISSION

The Human Services Agency (HSA) is committed to delivering essential services that support and protect people, families, and communities. The Department partners with community-based organizations and advocates for public policies to improve well-being and economic opportunity for all San Franciscans. For more information about this department's services, please visit sfhsa.org

BUDGET ISSUES & DETAILS

The FY 2024-25 proposed budget of \$1.2 billion for HSA is \$49.3 million, or 4.1 percent, higher than the FY 2023-24 proposed budget. This is largely due to increased costs in the IHSS program and other County Aid Assistance programs, as well as increases in salaries and benefits. The FY 2025-26 proposed budget of \$1.3 billion is \$43.8 million, or 3.5 percent, higher than the FY 2024-25 proposed budget. This is also largely attributable due to increases in IHSS and Aid programs provided by the County.

Proposition F – Drug Screening for CAAP Recipients

On March, 2024, San Francisco voters passed Proposition F, which requires single adults who receive benefits from the County Adult Assistance Programs (CAAP) to undergo screening for substance use disorder (SUD) when there is reasonable suspicion of use, and to engage in a treatment program when screening confirms dependency on illegal drugs, such as Fentanyl and other opioids. The initiative does not require drug testing as a condition for cash assistance eligibility; it will simply require screening and

engaging in a treatment program if the screening reveals a substance use disorder. To help prevent homelessness and create an additional opportunity to engage clients, the initiative will provide temporary rental payments to landlords on behalf of individuals who are using their CAAP benefits to pay for rent but choose not to participate in treatment.

PUBLIC CONSERVATOR CASELOAD BY FISCAL YEAR. This graph represents the average annual caseload size in the Disability and Aging Services Public Conservator Program by fiscal year.

This initiative provides another tool in the City’s efforts to address the drug use that is creating public safety hazards and fueling the overdose crisis. Based on a match with Department of Public Health (DPH) records, an estimated 29 percent of CAAP clients have an SUD diagnosis. This initiative aims to support clients who have SUD’s by motivating them to get the help they need, address their substance use, and achieve stability and well-being in their lives.

With the passage of Proposition F, HSA is taking steps to implement this new program by January 1, 2025. Implementation of this initiative will be complex, and require extensive planning, program development and coordination both within HSA and with DPH. The Mayor’s proposed budget includes funding for various services and support to facilitate the successful engagement of clients in treatment, including funding for additional SUD screening, case management, and program oversight.

Senate Bill 43 and the Office of the Public Conservator

In October 2023, Governor Newsom signed Senate Bill 43 (SB 43), which expands the definition of grave disability – the legal basis for establishing mental health conservatorships – to include those living with severe SUD and those unable to provide for their own personal safety and/or medical care. This change will enable local governments to begin utilizing Lanterman-Petris-Short (LPS) conservatorship to stabilize and provide compulsory wraparound care and treatment to individuals most at risk of fatal overdoses and self-harm. More than 50 percent of San Francisco’s unhoused residents self-reported having substance use challenges; in recent years, untreated SUD and mental illness have had profound impacts on health and safety in the City.

Serving the expanded population specified in SB 43 necessitates a multi-departmental, collaborative approach. Notably, workloads have already increased at Disability and Aging Services (DAS) due in large

CALFRESH CASELOAD BY MONTH. *This graph represents the number of San Francisco households receiving CalFresh benefits each month.*

part to its role coordinating a new Citywide process to investigate eligibility and facilitate LPS conservatorship as appropriate for persons identified by first responders and other key City partners. Although not all intakes will ultimately result in conservatorship, they nevertheless require screening, tracking, and extensive care coordination to locate, assess, and connect clients to mental and/or behavioral health services.

DAS has fielded nearly 200 intakes specifically through the implementation of SB43 and the Mayor's accompanying Executive Directive. DAS is carrying out these efforts on top of the existing work of its Office of the Public Conservator, which continues to accept formal referrals for conservatorship from psychologists and psychiatrists through pre-SB43 referral pathways, as well as overseeing all conservatorships, both existing and newly granted. The Mayor's proposed budget redirects existing HSA resources over the next two years to ensure the agency is positioned to handle the additional, potential growth in what was already

a steadily-increasing caseload in the Office of the Public Conservator.

Food Insecurity

Demand for food assistance in the CalFresh Program has grown since March 2020 and has not dropped since the City's transition from the pandemic. Food insecurity was further exacerbated by the recent end of CalFresh Emergency Allotments which, during the pandemic, granted households the maximum monthly benefit amount for their household size. Today, HSA's CalFresh caseload remains nearly 70 percent higher than before the beginning of the pandemic.

Further assisting in addressing food insecurity is HSA's Citywide Food Access Team (CFAT), which supports community-based organizations that provide food resources centered on dignity, cultural relevance, quality and choice. CFAT invests in neighborhood-run grocery distribution, grocery vouchers, and meals to combat hunger and bridge the gap left by state and federal food programs.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26
GOAL	ACTUALS	PROJECTED	TARGET	TARGET
Help residents reach economic stability (DHS)				
CVSO: Total one-time benefits awarded to veterans supported by CVSO	\$3,515,401	\$3,500,000	\$3,500,000	\$3,500,000

JUVENILE PROBATION

MISSION

It is the mission of the San Francisco Department of Juvenile Probation to serve the needs of youth and families who are brought to the Department's attention with care and compassion; to identify and respond to the individual risks and needs presented by each youth; to engage fiscally sound and culturally humble strategies that promote the best interests of the youth; to provide victims with opportunities for restoration; to identify and utilize the least restrictive interventions and placements that do not compromise public safety; to hold youth accountable for their actions while providing them with opportunities and assisting them to develop new skills and competencies; and contribute to the overall quality of life for the citizens of San Francisco within the sound framework of public safety as outlined in the Welfare & Institutions Code. For more information about this department's services, please visit sf.gov/departments/juvenile-probation-department

BUDGET ISSUES & DETAILS

The Fiscal Year (FY) 2024-25 proposed budget of \$46.9 million for the Juvenile Probation Department is \$2.1 million, or 4.3 percent, lower than the FY 2023-24 budget. This is primarily due to a decrease in state funding estimates for the Youthful Offender Block Grant (YOBG) and Juvenile Justice Realignment Block Grant (JJRBG), as well as one-time capital funding that expires in FY 2023-24. The FY 2025-26 proposed budget of \$45.2 million is \$1.7 million, or 3.6 percent, less than the FY 2024-25 proposed budget. The decrease is due to one-time capital funding that expires in FY 2024-25, and reduced security services at Log Cabin Ranch.

Meeting the Moment

The number of youth under the jurisdiction and care of the Juvenile Probation Department (JPD) has returned to pre-pandemic levels. To face this readjustment in the City's juvenile justice landscape,

JPD continues to focus on public safety, equity, and accountability. The Department meets the moment in two specific ways:

1. Focusing on core department operations and services; including supporting youth and families throughout the court process, from the point of arrest through supervision; carrying out our statutory and court mandates with care and compassion; and advancing community safety through evidence-based practices.
2. Coordinating with stakeholders throughout the juvenile justice process – including youth, families, community-based organizations, and government partners—to ensure youth and their families have the resources they need to succeed and to create opportunities for positive youth development, skill-building, and behavior change.

State, Federal, and Local Policy Changes

Concurrently, the Department is responding to drastically changing state and federal mandates in the juvenile justice field, as well as a new landscape for juvenile justice service delivery at the local level.

In 2020, Governor Newsom signed Senate Bill 823 (SB 823), closing California's youth prisons and realigning their responsibilities to the counties, which continues to be a major focus of the Department's operations. Providing care, custody, and supervision for youth and young adults facing the most serious charges and longer periods of secure commitment has required systemic changes to staffing, policy, practice, and the physical environment in which young people are housed – resulting in significant local costs. Forthcoming revisions regarding regulation of secure juvenile facilities will necessitate additional operational changes. Resentencing pursuant to Proposition 57 has resulted in some older adults being court-ordered to the supervision of the Juvenile Probation Department.

Implementation of the Families First Prevention Services Act (FFPSA), the most significant federal foster care reform in decades, continues to occupy both JPD and the Human Services Agency (HSA). To meet the requirements of FFPSA Part 1 and San Francisco's Comprehensive Prevention Plan,

JPD will offer Multi-Systemic Therapy (MST), a federally recognized evidence-based therapy model for juvenile justice involved youth and their families. Studies have consistently shown that MST participants have lower rates of re-arrests and out-of-home placements.

Locally, JPD is a key partner and funder of the Department of Children, Youth, and their Families' (DCYF) five-year funding cycle starting in FY 2024-2025, contributing nearly \$4 million per fiscal year. DCYF's new Justice Services portfolio includes an important service delivery redesign, incorporating the recommendations from local and state juvenile justice reform efforts. In collaboration with DCYF, JPD will support the implementation of the new model, which introduces structural change to maximize service connections for youth and families and expands and centers the role of community in San Francisco's juvenile justice process. In FY 2024-25, the Department will continue its investment in cognitive behavior training for all sworn staff and in physical improvements to the Juvenile Justice Center.

The Mayor's proposed budget addresses state, federal, and local changes, advances ongoing youth systems transformation, and meets the collective goals developed by broad stakeholders over the last five years.

LAW LIBRARY

MISSION

The Law Library (LLB) provides the people of San Francisco free access to legal information and specialized reference assistance, so they may preserve and protect their legal rights and conduct their legal affairs. For more information about this department's services, please visit sf.gov/departments/san-francisco-law-library

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$1.3 million for the Law Library is \$0.5 million, or 28.3 percent, lower than the FY 2023-24 budget. This is primarily due to a decrease in interdepartmental spending. The FY 2025-26 proposed budget of \$1.3 million is \$0.1 million, or 4.5 percent, higher than the FY 2024-25 proposed budget. This change is due to an increase in salary and benefit costs.

Legal Resources for San Franciscans

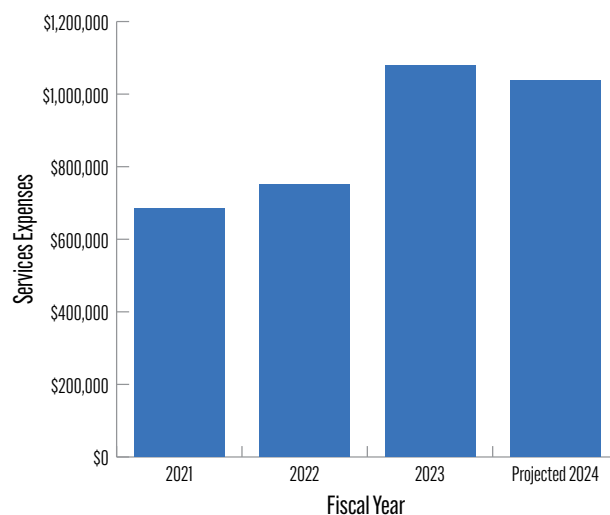

The Law Library's (LLB) priority is to promote access to justice by providing professional, legal reference assistance and resources to San Francisco residents and City departments. Additionally, the Law Library

extends its support to local attorneys and law firms, students, legal service providers, paralegals and businesses.

LLB has provided assistance and resources to its visitors in the following areas: housing, employment, discrimination, consumer debt, domestic violence, MUNI & building codes, health services, homelessness and small businesses.

LLB contributes to the recovery of the local economy by including all sectors of the community in its service delivery, whether in person, online or by phone. Programs are continually developed to address customer legal information needs.

MAYOR

MISSION

The Mayor's Office (MYR) represents the people of the City and County of San Francisco and ensures that San Francisco is a place where all residents can live full lives in a safe, prosperous, and vibrant community. For more information about this department's services, please visit <https://sf.gov/departments/office-mayor>

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$203.1 million for the Mayor's Office is \$2.1 million, or 1.0 percent, higher than the FY 2023-24 budget. This is primarily due to increases in debt payment costs associated with affordable housing and community development. The FY 2025-26 proposed budget of \$234.6 million is \$31.4 million, or 15.5 percent, higher than the FY 2024-25 proposed budget. This is primarily due to increases in community and housing investments, including the Local Operating Subsidy Program (LOSP).

Maximizing Affordable Housing Opportunities

The Mayor's Office of Housing and Community Development (MOHCD) continues to work closely with the City Planning Department to develop policy objectives that reinforce practices and programs in support of new affordable housing, housing preservation, and community stabilization. As outlined in the Mayor's Housing for All Executive Directive, MOHCD will continue to collaborate with agency and community partners to accelerate delivery of the City's affordable housing pipeline.

In FY 2024-25, MOHCD will continue to expand its new construction pipeline of affordable housing projects and increase the supply of permanent supportive housing units serving San Franciscans experiencing homelessness. Recent Notices of Funding Availability (NOFAs) have resulted in the acquisition of new affordable housing sites, capital improvements to existing MOHCD-funded properties, and new permanently affordable educator housing projects, all of which will progress in FY 2024-25. In March 2024, San Francisco voters passed Proposition A, a \$300 million Affordable Housing Bond that will support existing pipeline projects as well as new acquisition and preservation sites. Also in FY 2024-25, MOHCD intends to provide rehabilitation funds for limited equity cooperatives.

Significant efforts will continue with HOPE SF, the City's signature initiative to transform its most distressed public housing communities, directing considerable resources to advance racial equity through non-displacement of communities of color. Construction of new replacement housing is underway at three of four HOPE SF sites.

The Dream Keeper Downpayment Assistance Loan Program (DALP), launched in FY 2022-23, made great strides in increasing Black homeownership in San Francisco and will continue with an additional \$4 million investment in FY 2024-25. To date, MOHCD has assisted 50 new homeowners, with 8 more in escrow, to close on their first home. Additionally, the program is preparing another 190 Black San Franciscans for homeownership.

In the Mayor’s proposed budget, the largest budget increase in both FY 2024-25 and FY 2025-26 is anticipated revenues from the new Residential Vacancy Tax. This is currently estimated at \$20.0 million in FY 2024-25 and \$30.0 million in FY 2025-26, and will be on reserve pending the outcome of legal challenges.

Eviction Prevention and Housing Stabilization

MOHCD funds community-based organizations to deliver essential anti-displacement services to residents, including eviction legal assistance (Tenant Right to Counsel), tenants’ rights counseling and

education, tenant-landlord mediation and technical assistance, ongoing and short-term rental subsidies, and one-time emergency rental assistance. In FY 2024-25 and FY 2025-26, MOHCD will continue to provide guaranteed full-scope legal representation for all individuals facing unlawful detainer notices as well as continue to stabilize housing for our most vulnerable residents through financial assistance, rent subsidies, and tenant counseling.

MOHCD administers the Local Operating Subsidy Program (LOSP) which currently provides over 2,500 subsidized housing units for formerly homeless households through the Department of Homelessness and Supportive Housing. Approximately 118 permanent supportive housing LOSP units are under construction and are expected to be completed by June 2025.

Fostering Community and Neighborhood Vitality

Community programs such as cultural districts also continue to be supported by the MOHCD budget. This program is designed to celebrate and

NUMBER OF AFFORDABLE UNITS COMPLETED.

The Mayor’s Office of Housing and Community Development constructs and rehabilitates affordable housing across the City to mitigate displacement and keep people housed.

strengthen the unique cultural identities of San Francisco’s communities and currently encompasses 10 different cultural districts located throughout the city. MOHCD currently coordinates the City’s partnerships with the cultural districts that cover San Francisco’s diverse neighborhoods and cultural communities, and will be providing ongoing

programmatic support for all the districts through FY 2024-25.

Also part of the Mayor’s Office budget are administration costs related to carrying out the functions of the Mayor’s Office. These costs consist primarily of personnel expenses.

MOHCD GRANT AWARD AMOUNTS BY PROGRAM AREA, FY 2023-24.

The Mayor’s Office of Housing and Community Development grants funds to nonprofits across the City for various program areas and needs.

MUNICIPAL TRANSPORTATION AGENCY

MISSION

The San Francisco Municipal Transportation Agency's (SFMTA) goals are to: create a safer transportation experience for everyone, make transit and other sustainable modes of transportation the most attractive and preferred means of travel, improve the quality of life and environment in San Francisco and the region, and create a workplace that delivers outstanding service. For more information about this department's services, please visit [sfmta.com](https://www.sfmta.com)

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$1.5 billion for the MTA is \$59.1 million, or 4 percent, higher than the FY 2023-24 budget. This is primarily due to an increase in interdepartmental spending, offset by rightsizing benefit costs. The FY 2025-26 proposed budget of \$1.6 billion is \$39 million, or 2.6 percent, higher than the FY 2024-25 proposed budget. This change is due to an increase in salary and benefit costs and interdepartmental spending, offset by decreases in other expenditures.

Customer Experience

The Mayor's proposed budget for San Francisco's recovery balances fiscal responsibility with continued emphasis on making Muni more reliable, safe, and clean. The largest investment is in maintaining current service levels and increasing fare compliance by adding 36 positions related to transit fare compliance. Other initiatives include service enhancements, advanced camera

technology, increased staff presence, and investments in cleaning and upgrading transit shelters. Integral to the city's revitalization is creating walkable neighborhoods, with bike lanes and safer streets. Additionally, the SFMTA continues to expand transit priority lanes to increase system speed and reliability. Since 2019, the SFMTA has nearly doubled red transit-only lanes from 11 miles to 20 miles, with an additional 11 miles of approved expansion. These initiatives are geared towards supporting both riders and operators as Muni's ridership continues to increase. Although ridership remains below pre-pandemic levels, customers are increasingly satisfied with the speed and reliability of Muni service. Results from the Rider Survey show that 66 percent of Muni riders rate services as good or excellent – a 9 percent increase from 2021. A broader Community Survey has 71 percent of Muni riders approving of the job the SFMTA is doing.

Pedestrian Safety & Vision Zero

The budget enhances street safety by creating a Safe System Team to coordinate and expedite safety projects for pedestrians and cyclists, and by funding speed enforcement cameras to reduce vehicle speeds through ticketing.

Capital Investment

The FY 2024-25 SFMTA capital budget is \$423.4 million. The largest component is \$209.4 million towards the transit fleet, which includes buses and Muni subway cars. The proposed capital budget also funds \$46.3 million for replacement of the Muni Metro Train Control System, \$28.1 million towards upgraded facilities for better maintenance, \$42.8 million for street safety improvements, and \$21.2 million for Muni Forward projects. These investments will improve system reliability and

allow the SFMTA to support San Francisco's long-term economic recovery.

Fiscal Cliff and Continued Recovery

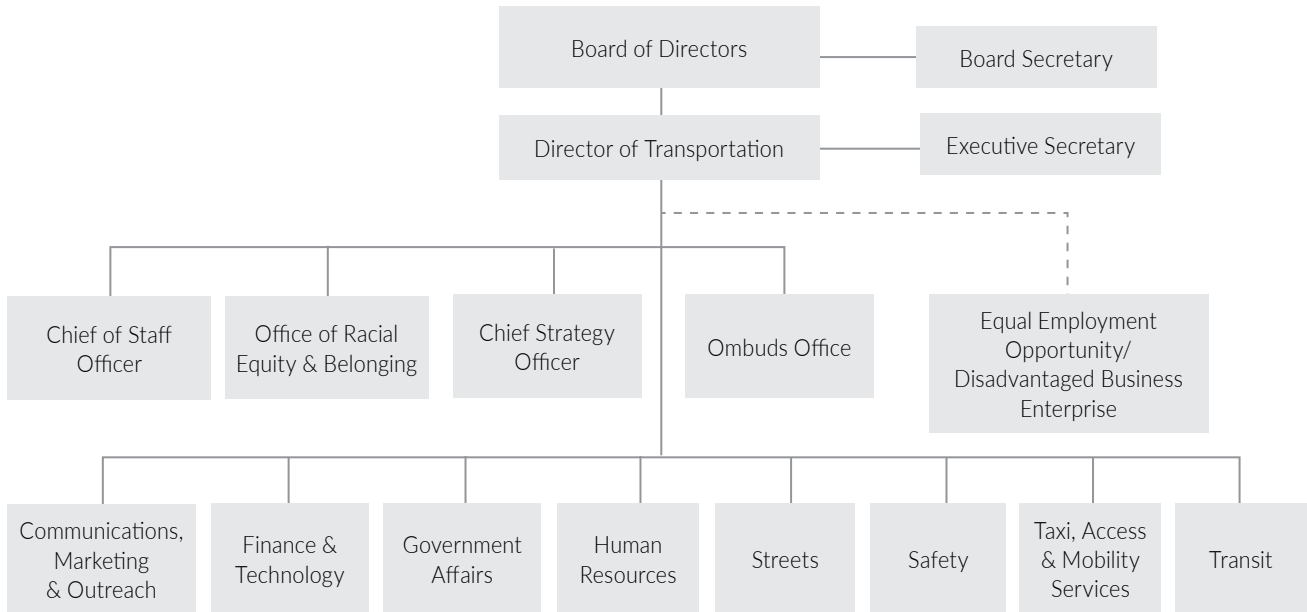

The SFMTA will be using federal and state relief funds through FY 2024-25 and FY 2025-26, with plans to exhaust these resources by the end of this time. To balance in FY 2025-26, the agency leveraged revenues available from July 1, 2024, alongside implementing only cost-neutral Muni service changes, and stretching one-time sources like federal, state, and regional transportation relief. In FY 2026-27 the SFMTA will face a \$227.5 million annual deficit due to transit fare revenue losses, which will necessitate the identification of new revenue sources and implementation of further expenditure controls to sustain service levels.

POLICE ACCOUNTABILITY

MISSION

The Department of Police Accountability (DPA) is committed to providing the City and County of San Francisco with independent and impartial law enforcement oversight through investigations, policy recommendations, and performance audits to ensure that the City reflects the values and concerns of the community it serves. For more information about this department's services, please visit sf.gov/departments/department-police-accountability

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$10.0 million for the Department of Police Accountability is \$0.1 million, or 0.7 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefit cost increases and one-time funding to support Sheriff's investigations work. The FY 2025-26 proposed budget of \$9.7 million is \$0.3 million, or 3.2 percent lower than the FY 2024-25 proposed budget. This change is due to the loss of one-time funding in the prior year.

The Department of Police Accountability (DPA) faces many significant challenges in FY 2024-25 and FY 2025-26. As the primary oversight body tasked with ensuring transparency, integrity, and accountability within the Police Department, the DPA navigates a complex landscape marked by evolving legal requirements, burgeoning caseloads, and heightened community expectations. The Mayor's proposed budget provides resources to ensure the Department remains fully staffed and operational, with adequate capacity to meet these challenges and provide crucial oversight for San Franciscans.

Ongoing Priorities

The DPA faces a mounting number of complaints and investigations, necessitating robust operations to maintain its crucial oversight functions effectively. The importance in oversight regarding officer-involved shootings, protests, and quality-of-life complaints demands meticulous attention to detail and swift resolution. Further, compliance with new state legislation, including Senate Bill (SB) 1421, SB 16, SB 2, and SB 519, requires substantial new efforts be incorporated towards record review, data provision, and legal analysis.

The DPA is strategically allocating resources to meet these challenges, and remains committed to enhancing community engagement, building trust, and streamlining operations. The Mayor's proposed budget includes funding for proactive communication and education, investment in technology, and staff training programs to ensure compliance with legal requirements. Each role is critical for processing complaints, conducting audits, and managing legal aspects of cases under legislative mandates like SB 1421. DPA

will also continue to support the implementation of the Office of the Inspector General, by sharing resources with the Sheriff's Department of Accountability (SDA) to expand the scope of the SDA's work.

Joint Data Sharing Initiative

The proposed budget includes a new \$0.2 million investment into a joint data sharing initiative

between the DPA and the San Francisco Police Department, a project that will transition all data and physical files to a cloud network infrastructure. This investment will make document retrieval more efficient and optimize systems architecture while allowing DPA to more effectively perform oversight functions, and reducing costs associated with traditional computing resources.

5 YEAR COMPARISON OF OPENED CASES. Cases increased by 11 percent from 2019 to 2023 and 12 percent increase from 2022.

2023 CASE ALLEGATIONS. Allegations outline instances of officer misconduct. Typically, multiple allegations are investigated for each case. In 2023, a total of 1973 allegations were investigated in 598 officer investigations (some officers were the subject of multiple investigations). The most prevalent allegations included Neglect of Duty, Conduct Unbecoming an Officer, and Unwarranted Action, accounting for a combined 85 percent of all allegations.

POLICE DEPARTMENT

MISSION

The San Francisco Police Department (SFPD) is committed to ensuring safety while maintaining respect for all. The Department provides responsive policing through collaboration with the community, and works to maintain and build trust and respect. For more information about this department's services, please visit [sanfranciscopolice.org](https://www.sanfranciscopolice.org)

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$821.6 million for the Police Department is \$46.7 million, or 6.0 percent, higher than the FY 2023-24 budget. This is primarily due to increased overtime, increased funding for new academies, salary and benefit cost increases, and a new technology pilot program. The FY 2025-26 proposed budget of \$839.5 million is \$17.8 million, or 2.2 percent, higher than the FY 2024-25 proposed budget. This change is due to salary and benefit cost increases and ongoing technology costs.

Staffing & Deployment

SFPD has experienced high separation rates and reduced academy class sizes in the last four years. However, improved recruitment efforts, coordination, and support with the Mayor's Office and Controller's Office have begun to yield results, with increasing application volume and four full academy classes planned for FY 2024-25. As the Department makes progress towards full staffing over the next two years, the Mayor's proposed budget includes continuing levels of overtime funding to account for current staffing levels, while increasing the number of funded sworn positions to account for these trends.

To meet recruitment, analytical, and program supervision needs in the Department, SFPD overhauled the classifications for several dozen non-sworn positions, including positions that will support background investigations and other hiring processes. Filling these needs with professional staff prevents SFPD from diverting sworn members away from the field.

Improving Safety in Public Spaces

With voters' approval of Proposition E in March 2024, SFPD has initiated procurement, testing, and buildout of a drone program, a public safety camera program, and has begun to identify other technologies which can serve to enhance capacity, efficiency, and effectiveness of SFPD, at the individual officer level and the Department level, in addressing crime. The Mayor's proposed budget funds a \$3.7 million investment in Prop E technologies that the Department will leverage to increase safety across the City, without expanding the use of overtime.

With budgeted staffing levels and expanded sworn staff, SFPD will maintain police presence in key areas of community need, such as addressing the

open-air drug market in the Tenderloin and retail theft in Union Square and throughout the City.

Sustaining Reform

After achieving substantial compliance in 245 of the 272 recommendations, SFPD has submitted the final 27 recommendations of the Collaborative Reform Initiative for review by the California Department of Justice. Nineteen of the outstanding recommendations required ongoing investments in information technology

and analytical personnel to ensure repeatable and sustainable change.

The budget continues the funding necessary to complete the implementation of its records management system (RMS) and to sustain adherence to the remaining and previous recommendations. These systems and data are foundational to achieving substantial compliance in the remaining, and many other, recommendations which suggested data collection, auditing, analysis, and transparency.

PORT

MISSION

The Port of San Francisco (PRT) manages the waterfront as a gateway to a world-class city and advances environmentally and financially sustainable maritime, recreational, and economic opportunities to serve the City, Bay Area region, and California. For more information about this department's services, please visit sfport.com

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$157.7 million for the Port is \$7.6 million, or 5.1 percent, higher than the FY 2023-24 budget. This is primarily due to an increase in interdepartmental spending and salary and benefit cost increases. The FY 2025-26 proposed budget of \$157.7 million is \$0.1 million, or 0.05 percent lower than the FY 2024-25 proposed budget. This change is due to a decrease in non-personnel services spending.

Improved Security

The Mayor's proposed budget enhances safety for Port tenants and the public by adding four new security positions. These positions will enable the Port to create better street conditions and security, keeping the waterfront a world-class attraction.

Attracting Tourism

Port revenues have returned to pre-pandemic levels, led in large part by the return of leisure tourism. Cruise calls, in particular, have helped bolster the budget. In FY 2022-23, the Port

achieved a record 110 cruise calls with 390,967 passengers due to travel recovering faster than expected, larger ships, and the redeployment of vessels to the west coast while the Asian cruise market remained closed. The upcoming budget expects that cruise passenger volume will continue to improve from pandemic-era lows. The Mayor's proposed budget invests in ongoing cruise operations through dredging as well as assessing the costs of building a secondary cruise ship terminal through a feasibility study.

Seismic and Sea-Level Rise Resilience

In recognition of the need to address both seismic and flood risk, the Port has created the Waterfront Resilience Program (WRP) and is advancing assessments, policies, plans, and projects to reduce these risks as efficiently and effectively as possible. The Mayor's proposed budget supports ongoing work with the U.S. Army Corps of Engineers (USACE) on a detailed study of coastal flood risks and advancing a draft plan to address flood risk across the full seven-and-a-half miles of the Port's waterfront.

CRUISE PASSENGER VOLUME BY FISCAL YEAR.

Cruise passenger volume has rebounded and now exceeds pre-pandemic levels.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

PUBLIC DEFENDER

MISSION

The Public Defender’s Office (PDR) delivers zealous, compassionate, and client-centered legal representation to over 20,000 indigent persons accused of crimes, facing deportation, and/or involved in conservatorship matters in San Francisco, and advocates for systemic changes to benefit the City’s most disenfranchised and disempowered. For more information about this department’s services, please visit sfpublicdefender.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$54.9 million for the Public Defender’s Office is \$2.3 million, or 4.3 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefit cost increases. The FY 2025-26 proposed budget of \$56.1 million is \$1.2 million, or 2.1 percent, higher than the FY 2024-25 proposed budget. This change is due to increases in salaries and benefits, and an expiration of a major state grant.

PDR continues to meet its constitutional mandate to provide legal representation to indigent individuals accused of crimes or facing deportation. The proposed FY 2024-25 and FY 2025-26 budget continues to fund all ongoing programs within PDR, and provides funding to support the Clean Slate program, which works to expunge criminal convictions from records and remove barriers to housing, education, and employment.

The “End the Cycle” Program

Indigent people who have been arrested and booked into jail are often in crisis. Frequently, their legal case is only one of a myriad of challenges

they face. In fact, they are often arrested because they are suffering from poverty, mental illness, and substance use. They need immediate assistance in connecting to services in the community to initiate or maintain substance use or mental health

END OF CYCLE PROGRAM INITIATIVE PRE-TRIAL RELEASE UNIT (PRU)- IMPACT OF THE SOCIAL WORKERS. *PRU's provides timely social worker meetings to address client's needs prior to their release, for both English and Spanish speaking clients.*

treatment. They need prompt referrals for short and long-term housing and educational, vocational, and employment opportunities to “end the cycle” of incarceration.

The Public Defender hired and has committed three social workers to join its Pre-Trial Release Unit, which provides pre-arraignment legal representation to individuals who have been arrested as soon as possible after they have been booked into jail. Through the “End the Cycle” Program initiative, these social workers aim to connect vulnerable clients who cycle in and out of custody to treatment, housing, education, and employment opportunities and minimize the harms inflicted on individuals who are too often ensnared in the criminal legal system because of underlying issues in their lives. Two of the three social workers are fluent Spanish

speakers, enabling the Public Defender to provide culturally sensitive representation to clients who are immigrants and/or for whom English is a second language, consistent with the City’s commitment to expanding language access. The third social worker focuses on meeting with transitional-age youth clients (18-25 years old) to ensure they receive appropriate referrals to services.

Arrestees who consult with an “End the Cycle” social worker are more likely to be released at arraignment (if charged by the District Attorney), to return to court, and to be connected to housing, services, and treatment that help them stay out of the criminal legal system. The Public Defender maintains this vital program and continues to provide pre-arraignment representation to indigent community members.

PERFORMANCE MEASURES

PUBLIC HEALTH

MISSION

The mission of the Department of Public Health (DPH) is to protect and promote the health of all San Franciscans. For more information about this department's services, please visit sf.gov/departments/departments-public-health

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$3.2 billion for the Department of Public Health is \$47.0 million, or 1.5 percent, higher than the FY 2023-24 budget. This is primarily due to increases in salaries mandated by labor agreements, new programs supported by opioid settlement funding, and state and private funding for capital improvements and mental health services. The FY 2025-26 proposed budget of \$3.2 billion is \$9.8 million, or 0.3 percent, lower than the FY 2024-25 proposed budget. This change is driven by increased costs for salaries and benefits offset by reductions in funding for capital improvements.

Maximizing Revenues to Meet Reduction Targets

DPH's proposed budget reflects its continuous efforts to maximize state and federal revenues, leveraging its local revenues to protect and promote the health of all San Franciscans. The budget reflects projected growth in patient revenues for the Zuckerberg San Francisco General Hospital (ZSFG) and the San Francisco Health Network (SFHN) by \$25.9 million in FY 2024-25 and \$45.9 million in FY 2025-26. This growth reflects both increases in rates as well as patient volume. The budget also includes revenue growth from a number of other programs,

notably including enhancements of specialized Department of Health Care Services Payments from the State creating \$8.0 million of savings for FY 2024-25 and \$15.9 million in FY 2025-26.

Additionally, the State is implementing a new allocation methodology for Medi-Cal supplemental payments anticipated for Laguna Honda Hospital, phasing it in with an interim policy before finalizing the new approach. The interim rates result in one-time revenue, which will be retroactive to January 2023, and are expected to be finalized in the fall of 2024. The Department's proposed budget reflects the expected payments, which will total \$69 million including the retroactive amount.

Improving Operating Room Capacity at Zuckerberg San Francisco General:

Zuckerberg San Francisco General Hospital (ZSFG) will increase operating room capacity by increasing anesthesia attending staff to provide additional perioperative and procedural capacity. This improvement of scheduling and flow through operating rooms will reduce the time to surgery for patients that require urgent surgeries and procedures and, by delivering services efficiently, generate a net revenue of \$5 million a year while reducing delayed discharges.

Healthy San Francisco Savings Due to Expanded Medi-Cal Eligibility

With the continued expansion of Medi-Cal eligibility in FY 2023-24, the projected enrollment in the Healthy San Francisco Program (HSF) is expected to drop as members become eligible for Medi-Cal coverage. As a result, the City's costs paid to administer the San Francisco Health Plan will be reduced to reflect an anticipated 50 percent reduction in enrollment. Additionally, fees to support services to the Private Provider Network will also be reduced as their costs will now be reimbursed by Medi-Cal. Although fewer employers will enroll employees in HSF, there will be no reductions to coverage for residents as a result of this shift in coverage, which will save the City more than \$3 million a year by FY 2025-26.

Aligning Covid Vaccination and Testing Budget with Ongoing Needs

As the Population Health Division (PHD) continues to integrate COVID-19 response functions into ongoing operations, and to prioritize neighborhoods and populations disproportionately impacted by the virus, San Francisco remains in a strong position to respond to the virus with high vaccination rates and availability of effective treatments. This enables reductions of contracts

for community-based testing and vaccines by \$2 million, which aligns with the Department's current year spending and reflects the integration of COVID-19 prevention, testing, and treatment into the health care system. PHD will continue to hold neighborhood-based vaccine pop-ups during the fall vaccination season next year, as this has proved to be valuable for COVID and MPOX vaccine equity.

On-Demand Substance Use Disorder Treatment and Reducing Racial Disparities in Overdose

DPH's proposed budget revises the approach to programming opioid settlement funds into two areas of focus. The Streets to Treatment pilot invests \$15.2 million in a set of coordinated, assertive treatment interventions with the express goal of moving people off the streets, into substance use treatment, and onto a path of stability and recovery. The pilot also strengthens existing street care to include 7-day a week coverage during the day and evening, with a focus on the Tenderloin and Mission, as well as providing on-demand, 24/7 access to substance use disorder treatment via telehealth.

The second focus area is new interventions to reduce racial disparities in overdose deaths by

MARIA X MARTINEZ HEALTH RESOURCE CENTER HRC CLIENTS AND REGISTERED VISITS BY FISCAL YEAR. *Client and Registered Visit counts continue to grow post-relocation from 50 Ivy to 555 Stevenson in September 2022. Totals include Maria X Martinez's Urgent Care, Behavioral Health, Podiatry and Dental service lines.*

strengthening and expanding co-created culturally congruent substance use treatment programming for the Black/African American community.

The initiative includes \$6.4 million to add new community-driven solutions and investments in Black-led organizations, including in organizations that have not had the resources to be competitive in the City's solicitation process.

Continued Investment in Behavioral Health Treatment

The Behavioral Health Services Division (BHS) continues to expand services to make treatment more accessible, while increasing efforts to connect people to care and help them remain in care.

In 2023, more than 25,000 people received behavioral health services across the San Francisco Health Network, 15,000 of whom accessed specialty treatment and recovery services. Since January 2023, the department added more than 100 residential treatment beds for people with mental health and substance use disorders.

The Behavioral Health Access Center (BHAC), which acts as an entry point into the substance use and mental health systems-of-care and had 4,800 engagements in 2023, is now open 7 days a week and has expanded evening hours, promoting easier access to care. This expansion compliments previously extended hours of operation at the co-located Behavioral Health Services Pharmacy and

Office-Based Buprenorphine Induction Clinic, both of which provide access to Medications for Opioid Use Disorder (MOUD).

Additionally, since January 2023, the department expanded direct street outreach to focus on people with complex behavioral health needs. The BEST (Bridge and Engagement Services Team) Neighborhoods Team is a neighborhood-based team of behavioral health clinicians and peer specialists who provide trauma-informed behavioral health assessments and connections to care to people living on the streets. BEST Neighborhoods operates primarily in the Tenderloin, SoMa, Bayview, Mission, and Castro neighborhoods. In its first year of operation, the team had 8,200 engagements and made over 1,100 direct connections to services. The Night Navigation team was also launched in the Tenderloin. This team now works seven days a week, from 7pm to 3am to get people into treatment and shelter.

Through the leadership of its Office of Justice, Equity, Diversity, and Inclusion, BHS continues to improve and expand upon its culturally congruent behavioral health care. This includes, the Culturally Congruent and Innovation Practices for Black/African American Communities Project, implemented across four behavioral health clinics, to create more diversity in the mental health workforce to better engage clients and implement culturally responsive services that meet the needs of the community.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

PUBLIC LIBRARY

MISSION

The Public Library (Library) is dedicated to connecting our diverse communities to learning, opportunities, and each other. The Library consists of the Main Library at Civic Center, 27 branch libraries geographically distributed throughout San Francisco, four Bookmobiles that travel around the City, and a digital library collection via sfpl.org. In addition to the Library's collection of over 3.8 million items in various formats and more than 50 languages, the Library offers high-speed internet through free wireless and public access computers as well as educational, cultural, and literary programming. For more information about this department's services, please visit sfpl.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$188 million for the Library is \$11.9 million, or 5.9 percent, lower than the FY 2023-24 budget. This is primarily due to a decrease in capital spending. The FY 2025-26 proposed budget of \$189.8 million is \$1.4 million, or 0.7 percent, higher than the FY 2024-25 proposed budget. This change is due to salary and benefit cost increases.

Equity and Recovery

The San Francisco Public Library (SFPL) strives to be a resource for the City's diverse communities, offering an equitable and safe space for people of all ages to gather, gain knowledge, and participate in shared experiences. SFPL is committed to advancing racial equity through its core services to the community. This budget proposes \$300,000 to extend eCollections resources to those incarcerated within our local jails. SFPL's base collections budget included \$200,000, which is continuing to be used to grow the collection in languages other than English, to represent SFPL's

diverse community. Unique investments in SFPL include support for the Scholar@Home program, which targets low-income pre-k students in equity zones and the Everybody Reads program which leverages our partnership with Human Rights Commission (HRC) and Mo' Magic to provide titles for BIPOC communities. The Mayor's proposed budget continues to invest in its successful Work It and Tech Time services, as well as the Smart Money Coaching program through the Office of the Treasurer-Tax Collector.

Robust Collections

The Library continuously enhances its collections based on usage each cycle to better meet the needs of San Francisco's diverse communities in the future. SFPL purchases materials in various formats and multiple languages to support the City's diverse community. Print books remain the primary material format for patrons; however, e-Media circulation continues to grow. Library collections investments over these two fiscal years are more than 12

percent of the Library’s operating budget, above the industry standard.

Community Input

The Library’s budget highlights needs gathered from community input. In response to this

input, the Library increased funding for Capital investments for multiple Library branches. The Library remains focused to take part on community partnerships and provide outreach in multiple languages through it’s marketing and staff to serve San Francisco’s diverse communities.

LIBRARY PROGRAMMING. *Library programming is showing a significant recovery due to seven day service and increase in staffing capacity.*

COLLECTIONS BUDGET - 5 YEAR TREND. *The Library is maintaining a stable collections budget to meet format demands.*

PUBLIC UTILITIES COMMISSION

MISSION

The San Francisco Public Utilities Commission (SFPUC) provides customers with high quality, efficient, and reliable water, power, and wastewater services in a manner that values environmental and community interests and sustains the resources entrusted in their care. For more information about this department's services, please visit sfpub.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$2.0 billion for the PUC is \$236.7 million, or 13.2 percent, higher than the FY 2023-24 budget. This is primarily due to an increase in power purchasing, power delivery costs, and capital spending. The FY 2025-26 proposed budget of \$2.2 billion is \$134.5 million, or 6.6 percent, higher than the FY 2024-25 proposed budget. This change is due to increasing power purchase costs and new capital projects.

The SFPUC has a fixed 2-year (biennial) operating budget for FY 2024-25 and FY 2025-26.

Commitment to Affordability

The SFPUC is committed to ensuring rate fairness and affordability for its customers, and this has been a core focus in developing the biennial budget and 10-Year Capital Plan. The agency adopted a new, equity-focused Affordability Policy in November 2023, which keeps rates as low as possible while maintaining necessary investments.

In the new policy, the typical household is defined as the 40th percentile median household income, rather than the 50th percentile. A low-income household is defined by the 20th percentile median household income, in line

with affordability standards currently used by the Environmental Protection Agency. The additional low-income customer affordability metric aims to center customers who are most heavily burdened by San Francisco's high cost of living.

For low-income households, bills are calculated at both retail rates and after accounting for applicable discount or assistance programs. Water and sewer bills will target less than 3 percent of a typical customer's income, less than 7 percent of a low-income customer's income using standard rates, and less than 5 percent of a low-income customer's income after accounting for enrollment in applicable bill discount programs. The budget and capital plans proposed follow the SFPUC's affordability policy, as shown in the chart.

To meet the Affordability Policy, the department undertook a significant effort to constrain the budget, including its 10-Year Capital Plan. This was done as part of a major initiative within the agency to improve the capital planning process, leading to more efficient budgeting that aligns with the department's capital delivery capacity. The department will continue seeking out ways to reduce capital investments costs, by applying for low-cost loans and grants.

USES BY ENTERPRISE. This chart displays affordability targets for SFPUC customers and breaks down uses of funds by SFPUC enterprises.

SFPUC power rates remain well below the alternative provider, PG&E. As shown in the chart on the following page, public power represents great value. Even with Hetchy Power rates increasing over the next two years, they are still expected to be 30 percent cheaper than PG&E. By using Hetchy Power for municipal buildings, the City saves \$50 million annually vs. PG&E. CleanPowerSF rates are also projected to be at or below PG&E rates for residential customers.

Responsible Management

The SFPUC's budget is grounded in responsibility and transparency, with a focus on core service delivery. The agency is prioritizing financial sustainability, regulatory requirements, service reliability, environmental stewardship and critical infrastructure maintenance. The SFPUC is addressing regulatory requirements by transparently planning for projects such as nutrient reduction in the San Francisco Bay. This \$1.5 billion project is included in the Capital Plan for the first time and is a driver of cost increases. The agency will continue to responsibly manage the city's utility infrastructure through increased investments in water and sewer main repair and replacement, cybersecurity, and laboratory investments. Investing in the workforce is also a key part of responsible management, and this budget converts 87 temporary staff to permanent

positions to encourage retention of employees performing core operating functions. The agency is also bolstering its Racial Equity and Audit teams to ensure a continued focus on equity, accountability, and transparency.

Investing Where it Matters

One of the most visible and meaningful ways the SFPUC will contribute to the recovery of the economy and restoring the vibrancy of San Francisco will be through its large capital program, which will invest over \$3 billion in the next two years and \$11.8 billion over the next 10 years. These investments will create thousands of local jobs while improving the City's essential utility infrastructure and resilience to climate change. The SFPUC's largest investment in the 10-year plan is in nutrient removal from the Southeast Treatment Plant outflow. The goal of the project is to reduce the amount of nitrogen discharged into San Francisco Bay. Nitrogen discharges are a regional issue, and were a contributing factor to algae blooms in 2022 and 2023. This project is necessary to comply with future nitrogen-related regulations. Other investments include the replacement of aging infrastructure such as the 100-year-old Moccasin Penstock. This carries water down the mountains from Hetch Hetchy Reservoir, generating clean hydroelectric power.

The capital plan will also support the City in fighting climate change. For example, the capital plan includes projects to mitigate erosion at Ocean Beach, and expand the Hetch Hetchy Power system, providing clean electric vehicle and ferry charging at the Port of San Francisco and San

Francisco International Airport. Through the Mayor's proposed budget, the department is also continuing the acquisition of PG&E's San Francisco electricity distribution network, enabling the SFPUC to directly provide reliable, cost effective, and clean electricity to all San Francisco residents.

HETCHY POWER. This chart compares average monthly residential power bills for Hetch Hetchy Power and PG&E.

CLEANPOWERSF. This chart compares average monthly residential power bills for CleanPowerSF and PG&E.

PUBLIC WORKS

MISSION

San Francisco Public Works (DPW) cares for and builds the City's assets for the people of San Francisco. For more information about this department's services, please visit sfpublicworks.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$450.8 million for the Department of Public Works (DPW) is \$2.4 million, or 0.5 percent, lower than the FY 2023-24 budget. This is primarily due to increased costs for salaries and benefits offset by reduced capital project funding. The FY 2025-26 proposed budget of \$404.9 million is \$45.9 million, or 10.2 percent, lower than the FY 2024-25 proposed budget. This change is primarily due to reductions in capital project funding.

Clean Streets and Graffiti Removal

The Mayor's proposed budget continues funding for the expanded street cleaning operations and graffiti abatement services. Along with fostering street and sidewalk cleanliness, Public Works will continue the courtesy graffiti abatement program for storefronts and other private property in the City's diverse neighborhood commercial corridors. Launched in December 2022, this program relieves participating property owners and businesses of the financial burdens of removing tags from their buildings and to let professional Public Works crews or department contractors wipe out unsightly graffiti. The pilot program has been valuable for small businesses and property owners by alleviating the costs of graffiti removal, while also enhancing San Francisco's neighborhoods

by eliminating the unsightly graffiti. The average turnaround time to remove reported tags is less than a week.

Curb Ramps, Tree Planting, Pothole Repair, and Street Resurfacing Programs

The Department's programs, including curb ramps, tree planting, pothole repair and street resurfacing, incorporate geographic equity to improve all of San Francisco's neighborhoods. The Curb Ramp program, in coordination with the Mayor's Office on

ANNUAL BLOCKS RESURFACED. *An annual average of 641 blocks per year have been resurfaced since FY 2014.*

Disability, prioritizes locations most requested by people with disabilities. The tree planting program focuses on areas with lower tree canopy cover, which usually corresponds with low-income and disadvantaged communities. The street resurfacing program is prioritized based on a specific street's regionally tracked Pavement Condition Index (PCI) score.

Sidewalk Vending Permits and Enforcement

In September 2022, the Bureau of Street-use and Mapping developed a new street vending permit that creates a legal path for selling wares on the sidewalk, while giving Public Works street inspectors, with police support, a tool to enforce laws on stolen goods, enabling access to BART stations, Muni stops, shops and restaurants without having to navigate items blocking the sidewalk. The daily operation has improved

street conditions in the Mission, Mid-Market and Chinatown neighborhoods, when inspectors are present.

Tenderloin Joint Field Operations and Healthy Streets Operations Center

Public Works participates in a daily joint field operation in the Tenderloin that brings together multiple City departments, including Public Health, Police, Homelessness and Supportive Housing and Fire, to make the Tenderloin neighborhood safer, healthier, cleaner and more inviting. Public Works street cleaning crews are on the ground daily in the neighborhood, power washing sidewalks, removing litter and debris, sweeping gutters, abating graffiti and pressure washing streets. The department also participates in the multi-agency Healthy Streets Operations Center, which focuses on encampment cleanups and services-led resolutions citywide.

ANNUAL STREET CLEANING SERVICE ORDER (SO) VOLUME BY PROBLEM DESCRIPTION. *Service volume has increased by 304 percent in FY23 compared to FY 14. SO volume has increased by 17 percent in the past 5 years, from FY19. This data excludes SOs categorized in the Encampment problem description since Encampment data is unavailable prior to FY17.*

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26	
GOAL	ACTUALS	PROJECTED	TARGET	TARGET	
Be the Best Place to Work					
Lost Workday Rate (due to injury or illness) for Public Works	4.7	4.8	5.0	4.9	4.7
Preventable motor vehicle accident rate per 100 vehicles in Public Works fleet	6.5	4.7	4.9	6.5	4.6
Drive Innovation & Exceptional Service					
Cost per block paved by BSSR	\$42,109	\$52,307	\$52,307	\$57,538	\$63,292
Map backlog as a percentage of all active maps	19%	3.0%	12%	10%	10%
Percent of all approvals for property subdivisions and condominium conversions issued within 50 days	91%	95%	95%	90%	90%
Percentage change order cost to original contracts, due to errors and omissions in design, for projects exceeding \$2 million	0.1%	0.0%	0.0%	0.0%	3.0%
Percentage change order cost to original contracts, due to errors and omissions in design, for projects not exceeding \$2 million	0.3%	0.4%	1.4%	1.4%	3.0%
Percentage change order cost to original contracts, for projects exceeding \$2 million	0.7%	0.4%	0.0%	0.0%	2.6%
Percentage change order cost to original contracts, for projects not exceeding \$2 million	6.7%	6.8%	1.6%	1.6%	4.2%
Percentage of construction contracts advertised wherein the lowest bid received is within a range of 80% to 110% of the Architect-Engineer cost estimate	63%	80%	80%	80%	80%
Percentage of decisions rendered on street use permit requests within established time frames	90%	95%	95%	95%	95%
Percentage of graffiti requests abated within 48 hours (public property)	36%	95%	95%	95%	95%
Percentage of graffiti requests on private property inspected within three days	N/A	N/A	95%	95%	N/A
Percentage of pothole service requests responded to within 72 hours	91%	90%	90%	90%	90%

RECREATION AND PARKS

MISSION

The Recreation and Parks Department (REC) strives to foster the well-being of San Francisco's diverse community by maintaining beautiful parks, preserving the environment, and providing enriching recreational activities. REC maintains more than 220 parks, playgrounds, and open spaces. These include Camp Mather, the Marina Yacht Harbor, six municipal golf courses, and other recreational facilities and urban forestry areas. For more information about this department's services, please visit sfrecpark.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$255.9 million for the Recreation and Parks Department is \$7.2 million, or 2.7 percent, lower than the FY 2023-24 budget. This is primarily due to holding open vacant positions, decreased interdepartmental spending, and reduced capital project funding. The FY 2025-26 proposed budget of \$255.8 million is \$0.2 million, or 0.1 percent, lower than the FY 2024-25 proposed budget. This change is due to ongoing holding of vacant positions.

Economic Recovery

REC is facing flat or decreasing earned revenue, slow growth in the Open Space Fund, increasing utility and workorder costs, and an expansion of its scope of work in recent years. The Department continues to absorb increasing costs for park rangers and park ambassadors to combat vandalism and is still recovering financially from the 2023 winter storms that resulted in almost \$10 million in damage.

To balance the budget, REC proposes substantial overall reductions to be implemented by FY 2025-26. This includes keeping vacant positions open, not

backfilling new vacancies, and reducing non-personnel and materials & supplies spending.

Revenue Measures

The department is proposing new revenue-generating measures, including an overall 15.7 percent increase to Marina Yacht Harbor berthing rates in each of the next two years that has been submitted to the Board of Supervisors. The proposal was based on the Budget and Legislative Analyst calculated increase necessary to eliminate the current General Fund subsidy. The proposal includes a new, more progressive rate structure with larger rate increases for longer berths and provides San Francisco residents a fifteen percent berthing license credit.

Two new \$5 fees have been proposed as part of the budget. Funding from tennis court reservation fees would support operations and ensure that courts would be utilized when reserved. New scholarship fee funding bolsters departmental revenue otherwise waived when providing a scholarship. Eligibility in the REC Scholarship Program gives low income residents at least a 50 percent discount and as much as 100 percent off program registration.

Capital and Maintenance

REC will continue to honor voter investment in parks and facilities by allocating \$15 million of General Fund annually for capital improvements and maintenance. Key program investments include ADA improvements, forestry, and playfield replacements.

New Parks in the Southeast

Upon REC Commission and Office of Community Investment and Infrastructure (OCII) approval, the Department will begin to maintain the Hunters Point Shipyard parks on January 1, 2025. In addition, a new campus manager position will coordinate services and programming at the new India Basin Waterfront Park.

Equity Remains a Primary Focus of the Department

REC will continue providing critical equity programming, such as Requity, Peace Parks, the Tennis Learning Center (TLC), and discounted Camp Mather fees. Peace Parks promote community wellness and violence prevention in vulnerable communities. TLC offers tutoring, tennis instruction, and other support services for 100 underserved elementary students annually. REC also provides discounts for eligible residents at Camp Mather and engages inner-city youth through the Teen Outdoor Experience program.

RECREATION AND PARKS HIGHLIGHTS (FY 2023-24)

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26
GOAL	ACTUALS	PROJECTED	TARGET	TARGET
1. Inspire Place				
Annual work order completion rate	83%	75%	75%	75%
Citywide Average Park Score	91%	90%	91%	90%
Operating Investment Per Acre of San Francisco Parks Maintained (Excluding Golf and Natural Areas)	\$22,641	\$26,975	\$22,700	\$28,000
Park acres per 1,000 residents	5.0	5.0	4.7	4.6

RENT ARBITRATION BOARD

MISSION

The Rent Arbitration Board's (RNT) mission is to protect tenants from excessive rent increases and unjust evictions, while assuring fair and adequate rents for landlords. The Board also strives to provide fair and even-handed treatment for both tenants and landlords through efficient and consistent administration of the rent law. For more information about this department's services, please visit sf.gov/rent-board

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$13.8 million for the Rent Board is \$3.9 million, or 22.1 percent, lower than the FY 2023-24 budget. This is primarily due to a decrease in interdepartmental spending. The FY 2025-26 proposed budget of \$14.4 million is \$0.6 million, or 4 percent higher than the FY 2024-25 proposed budget. This change is due to salary and benefit cost increases.

The Rent Board Housing Inventory

Recent legislation requires owners of residential housing units to report occupancy and vacancy information to the Rent Arbitration Board (RNT). The Rent Board Housing Inventory can be found online and property owners can report for free. Property owners who have tenants receive a rent increase license upon their submission. To manage this change in legislation and to better serve residents' needs, RNT has established an Inventory and Fee Unit in collaboration with the SF311 Customer Service Center. In addition, RNT aims to make Housing Inventory data more accessible.

Foundations of Equity in Services and Programming

RNT continues to focus an equity lens on equity, by collecting concrete data to better inform the local housing landscape, and providing targeted inventory and fee-related outreach to small property owners in Chinese, Spanish, and Filipino. RNT has expanded its Public Information Unit and is reevaluating its core service priorities, shifting from a traditional model of services which can hide problems and trends in vulnerable populations.

Investing in Modernization and Data Sharing

RNT is undertaking a business workflow modernization project to provide more efficient services to the public. RNT now uses a modern call center, accepts filings by email, conducts both remote and in-person hearings, and hosts an online Housing Inventory portal and a contactless online platform for the public to make fee payments and request fee exemptions. Additionally, RNT seeks to implement a new primary database that will accept online filings

and streamline workflow processes. RNT now shares multiple types of data on DataSF, including Housing Inventory data. RNT continues to streamline and standardize its data-sharing

practices with other City departments and increase its effectiveness by providing timely data and documents, which helps expedite permitting and decision-making processes.

TOTAL FILINGS. *The Rent Board accepts petitions from renters and landlords seeking arbitration of disputes, reporting issues with housing conditions, or otherwise seeking assistance with conflicts relating to the Rent Ordinance, as well as being the site of Ellis, owner move-in, and other eviction notice filings, and buyout filings.*

PHONE COUNSELING CONTACTS. *Phone counseling interactions on all matters, including petition filing, evictions, fee, and housing inventory.*

RETIREMENT SYSTEM

MISSION

The Retirement System (RET) works to secure, protect, and prudently invest the City’s pension trust accounts, administer mandated benefit programs, and provide promised benefits. For more information about this department’s services, please visit mysfers.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$63.6 million for the Retirement Department is \$12.2 million, or 23.6 percent, higher than the FY 2023-24 budget. This is primarily due to one-time move costs and the cost of new positions. The FY 2025-26 proposed budget of \$57.7 million is \$6.0 million, or 9.4 percent, lower than the FY 2024-25 proposed budget. This change is due to expiration of one-time costs.

The Department’s budget is entirely funded by the San Francisco Employee’s Retirement System

(SFERS) Trust, the Retiree Health Care Trust (RHCTF), and reimbursements from the San Francisco Deferred Compensation Plan (SFDCP) recordkeeper.

Prudently Investing the SFERS Trust

In its most recent February 2024 Actuarial Valuation Report, SFERS is 95 percent funded based on the market value of the assets as of July 1, 2023. As one of its key ongoing strategic initiatives, SFERS will continue to prudently invest the SFERS Trust assets to maintain full funding of the City’s pension liabilities.

INVESTMENT ALLOCATION AS OF JUNE 30, 2023 - FAIR VALUE.
SFERS has diverse investment allocations to secure and protect Trust assets and deliver promised benefits.

Educate Employees about Retirement Planning

SFERS has a long-standing goal to provide City employees with the tools and resources needed to ensure financial wellness and retirement readiness at the end of their City employment. The Retirement System has partnered with the City's Deferred Compensation Plan to provide a more coordinated approach to employee outreach on the importance of taking advantage of retirement and savings programs offered by the City.

Enhance Member Experience

SFERS will add seven new positions funded by the SFERS Trust this fiscal year continuing a two-year staffing phase-in to provide quality benefits administration services and deliver benefits on time and accurately. In addition, SFERS continues to upgrade its member services platforms to enhance the member experience and offer 24/7 self-service. As part of this initiative, the Department is updating its website and adding online educational videos.

Leverage Technology and Enhance Resilience

The Department is embarking on a multi-year program to evolve technology, mitigate current risks

and establish a technological foundation for future modernization. The plan focuses on enhancing resilience, upgrading critical software, documenting data processes and broadening web capabilities. Key initiatives include strengthening cybersecurity, shifting Retirement Services systems to the cloud, and initiating a multi-year plan for system modernization.

Support a Qualified and Diverse Workforce

SFERS' Racial Equity Plan involves removing barriers to successful recruitment and retention of qualified department staff with diverse educational and life experience throughout the department. To develop and support a qualified and diverse workforce, SFERS is building out an internship program in both the Retirement Services Division and the Investment Division.

Build Career Pathways

The Department has had a long-standing challenge of recruiting and retaining staff, particularly in its retirement services division. The Department is restructuring certain retirement operations and business services positions to remove recruitment and retention barriers and more closely align the required skills and experience for these positions to the long-term needs of the Department.

PLAN NET POSITION AS OF JUNE 30, 2023 (\$ BILLIONS).
SFERS is 95 percent funded based on the market value of the assets.

SHERIFF ACCOUNTABILITY

MISSION

The mission of the Office of the Inspector General is to promote honesty, integrity, and accountability within the San Francisco Sheriff's Office by conducting independent and thorough oversight. Our focus is on safeguarding the rights and well-being of all individuals in the Sheriff's custody by ensuring that the Sheriff's staff complies with all laws, regulations, and policies. We aim to enhance public trust through fair and impartial investigations. For more information about this department's services, please visit <https://www.sf.gov/departments/sheriffs-department-oversight-board>.

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$1.4 million for the Sheriff's Department of Accountability is \$0.4 million, or 20.0 percent, lower than the FY 2023-24 budget. This is primarily due to anticipated vacancies in the department as it becomes operational. The FY 2025-26 proposed budget of \$1.4 million is \$0.01 million, or 0.8 percent, higher than the FY 2024-25 proposed budget due to slight changes in salaries and benefits.

In November 2020, San Francisco voters passed Proposition D, establishing the Sheriff's Department Oversight Board (SDOB) and the Office of the Inspector General (OIG). Following a year-long national search and a rigorous vetting process, the SDOB selected and appointed the Inspector General, Terry Wiley on December 20, 2023, to head the OIG. The Inspector General assumed office on January 8, 2024. Over the next two fiscal years, the OIG will continue to leverage available resources and expand operational scope to provide effective oversight.

The OIG's charter mandates include monitoring the services that the Sheriff's Office provides to incarcerated individuals. Most of the San Francisco Jails' custody population suffers from severe mental health issues, substance addiction, poverty, and housing challenges. The charter-mandated provision of oversight ensures that inmates have adequate access to effective in-custody services, treatment, and re-entry programs that address the root causes of the behavior that led the inmate to incarceration. Disrupting recidivism will enhance public safety, reduce the conduct caused by mental illness and substance abuse, and aid in stabilizing and getting the unhoused into housing.

Operational Expansion and Oversight Functions

The Mayor's proposed budget includes continuing funding to leverage Department of Police Accountability (DPA) resources in achieving OIG's core functions. The OIG's core services include investigating all complaints against Sheriff

staff, investigating deaths in custody, conducting reviews, and producing public records to meet the demands of applicable state laws such as Senate Bill (SB) 1421, SB 16, SB 2, and SB 519.

In the upcoming fiscal years, the OIG will establish its policies and procedures to ensure that the department operates consistently with its charter, community values, and best practices.

SHERIFF

MISSION

The San Francisco Sheriff's Office (SHF) provides for the safe, secure, and constitutional detention of persons arrested or under a court order; operates county jail facilities, including educational, vocational, and transitional programs; operates alternative sentencing for in-custody and out-of-custody community programs; provides law enforcement services for a number of City and County facilities and the surrounding area; provides bailiffs to ensure the security of all juvenile, adult civil and criminal courts; and executes criminal and civil warrants and court orders. For more information about this department's services, please visit sfsheriff.com

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$323.6 million for the Sheriff's Office (SHF) is \$32.5 million, or 11.2 percent, higher than the FY 2023-24 budget. This is primarily due to salary and benefit cost increases, increased overtime, and increased non-personnel costs, offset by interdepartmental spending decreases. The FY 2025-26 proposed budget of \$320.8 million is \$2.7 million, or 0.8 percent lower than the FY 2024-25 proposed budget. This change is primarily due to overtime savings, non-personnel savings, and decreased interdepartmental spending.

Staffing & Deployment

The Sheriff's Office (SHF) is an important partner in providing for the City's safety, security, and well-being. Over the last year, increased street operations in the Tenderloin and Mid-Market, include Sheriff Deputy staffing, and increased enforcement by City partners against open-air drug markets has led to a steady increase in the jail

population, requiring more hours of custody staffing and opening County Jail #3.

In order to meet the need for additional staffing in the Department and at jail facilities, the Mayor's proposed budget increases both overtime and funded sworn positions at SHF, allowing the Department to meet mandated minimum staffing requirements while maintaining public safety and the provision of programming. The proposed budget includes \$7.0 million in funding to meet the overtime needs of the Sheriff's Office in FY 2024-25, and additional funding to allow the Sheriff's Office to fill 75 deputy sheriff vacancies during the fiscal year. The Office of the Sheriff is aggressively and actively recruiting to fill numerous deputy sheriff vacancies.

These investments in FY 2024-25 and FY 2025-26 allow the Department to focus on six primary goals, which align with the Mayor's priorities of safer living conditions for all to protect and engage San

Franciscans, improve organizational accountability, modernize technology, maximize workforce potential and enrich training.

Protect and Engage San Francisco

The Office of the Sheriff is increasing its law enforcement presence in the community, expanding the field officer training program and increasing staff in the warrant services unit, which searches for, arrests, and returns persons with criminal warrants to secure detention. The Office continues to support victims of crime by funding the Survivor Restoration Program and assisting mothers with minor children by providing housing and services at Cameo House.

The Office is revitalizing in-custody therapeutic communities, including the Roads to Recovery and SISTERS programs following the pandemic and will seek grant funding to implement a new substance use disorder treatment program that focuses on incarcerated persons with opiate disorders. This program connects in-custody service with a continuum of care post-release. As overdose deaths continue to impact our community, this

program seeks to intervene in this public health crisis at the time of booking into the county jail.

The Office also seeks to reduce homelessness and connect people leaving jail with services. A few years ago, the Office stood up Discharge Planning (DP), which provides bridge housing and cab rides to persons leaving jail. Additional funding increases staffing at DP to ensure that incarcerated persons are assessed by the Department of Homelessness and Supportive Housing’s Coordinated Entry System.

The Office is dedicated to building community by providing a robust visiting program including video visits, in-person visits, and parent-child contact visits. These decades-old programs work to improve the physical environment for visiting family members and children.

Recruitment and community outreach are vital in advancing public safety and public trust. The Office strives to be the most diverse law enforcement agency possible, and is committed to advancing the representation of women in law enforcement. This has led to participation in the

STAFFING PROGRESS.
SHF hiring has not kept pace with separations, resulting in increased reliance on overtime.

30X30 initiative, a nationwide campaign advancing the representation of women in law enforcement with a goal of 30 percent women by 2030.

Improve Organizational Accountability and Modernize Technology

Digital devices, cloud-based software, and data-driven tools are changing law enforcement. By utilizing technology to improve performance, the Office can operate smarter and establish systems and processes to save time and money.

The proposed budget continues to support the replacement of the current jail management case system (JMS). The new system improves City and County operations, while minimizing legal and security risks and improves cross-agency data sharing, which improves public safety.

The Office continues to implement the use of body worn cameras (BWC). The use of BWCs improves community trust, accountability, and transparency.

The implementation of a new policy system professionalizes and digitizes policies, while providing increased community access to the

policies via the Office's website.

Supporting the implementation of the Sheriff's Oversight Board continues to be a priority.

However, employee wellness and safety continue to be key drivers for accountability.

Maximize Workforce Potential and Enrich Training

To provide the best level of service to San Francisco, the Office must remain highly committed to the public safety workforce. The budget allocates funds to improve the working environment of staff, modernize and update equipment, and purchase new public safety vehicles, while decommissioning vehicles that are at end-of-life.

The training curriculum is comprehensive and thorough, responsive to regulatory mandates and emphasizes the incorporation of best practices into realistic scenarios. Providing staff with the right resources and support is critical to their success and operations. Moreover, training saves lives and protects the constitutional rights of all persons.

SWORN STAFF. Sworn staff at SHF represent diverse ethnicities.

PERFORMANCE MEASURES

FISCAL YEAR	FY2022-23	FY2023-24	FY2024-25	FY2025-26

STATUS OF WOMEN

MISSION

Tasked with helping transform San Francisco into a fully gender equitable City, the San Francisco Department on the Status of Women (DOSW) advances the equitable treatment and furtherment of women and girls across social, economic, and political indexes through policies, programs, and legislation, both within City and County government and in the private sector. For more information about this department's services, please visit dosw.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$12.2 million for the Department on the Status of Women (WOM) is \$1.7 million, or 12.4 percent lower, than the FY 2023-24 budget. The FY 2025-26 proposed budget of \$2.4 million is approximately \$9.8 million, or 80.2 percent, lower than the FY 2024-25 proposed budget. These changes are due to the transfer of the department's gender-based violence grants to MOHCD, the deletion of vacant positions, and reductions to community-based grant funding levels.

Reimagining Focus

As part of the strategic shift from a general grant-making agency to a watchdog, advocacy, and convening organization, beginning in Fiscal Year (FY) 2025-26, the department's gender-based violence grant portfolio will shift to MOHCD.

DOSW will focus on programs aimed at enhancing the well-being of women, girls, and nonbinary individuals across three core service areas: Health & Safety, Economic Security, and Civic Engagement and Political Empowerment.

To facilitate this transition, DOSW will collaborate with other City departments, the Mayor's Office, and the Board of Supervisors to address gender equity issues within the City's systems. The department plans to host key events, including the Mayor's Women History Month Ceremony and the DOSW's Shift Happens Women's Policy Summit. DOSW will also focus on new areas such as health and safety, economic security, and civic engagement.

These adjustments aim to enhance the Department's effectiveness in promoting gender equity and addressing the needs of women, girls, and nonbinary individuals within the City and County of San Francisco.

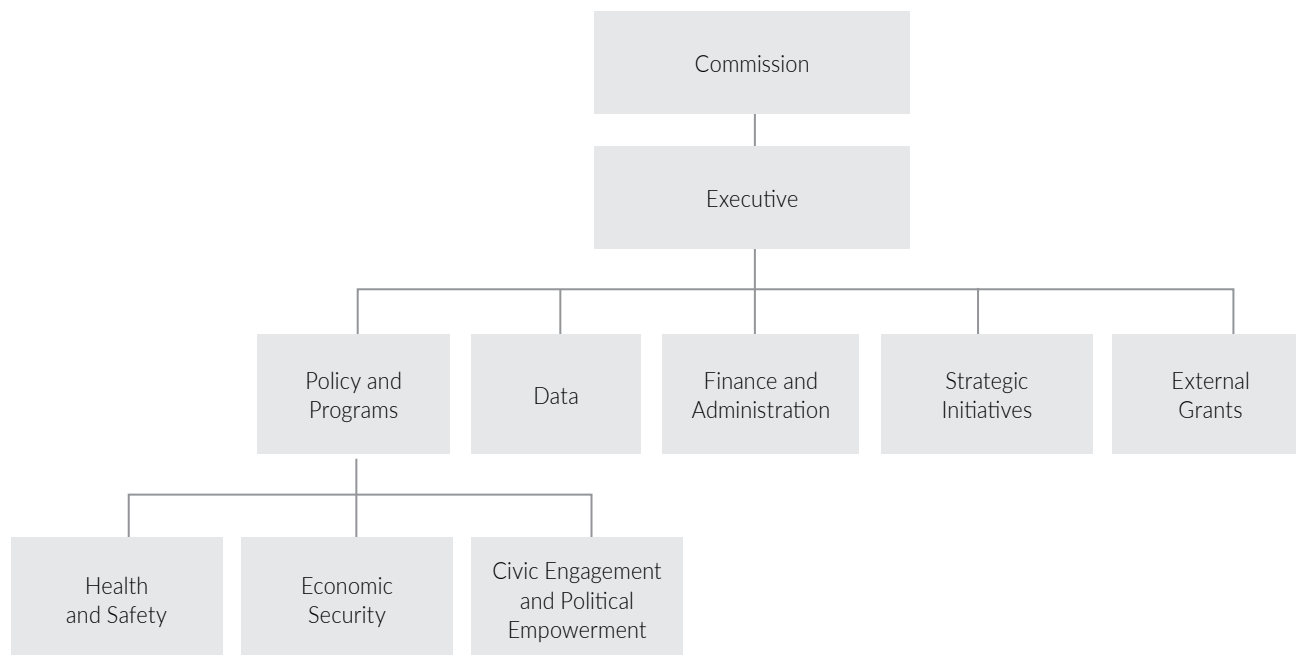

FY 2024-25 VS. FY 2025-26 GENERAL FUND PROPOSED BUDGETS ALLOCATION.

In FY 2025-26, a significant portion of the Department's grant portfolio will shift to MOHCD, reducing the percentage of DOSW's budget made up of grants.

PERFORMANCE MEASURES

SUPERIOR COURT

MISSION

The Superior Court (CRT) assures equal access, fair treatment, and the just and efficient resolution of disputes for all people asserting their rights under the law in the City and County of San Francisco. For more information about this department's services, please visit sf.courts.ca.gov

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$33.0 million for the San Francisco Superior Court is \$0.2 million, or 0.6 percent, higher than the FY 2023-24 budget. This change is due to increases in the Indigent Defense Program (IDA) budget. The FY 2025-26 proposed budget of \$33.2 million is \$0.2 million, or 0.8 percent, higher than the FY 2024-25 proposed budget, also due to slight increases in the IDA budget.

The Superior Court receives funding from the City for its Indigent Defense Program, which assigns attorneys to individuals and families in cases that represent a conflict of interest to the Public Defender. Attorneys with the Bar Association of San Francisco provide legal representation in both criminal defense and foster care cases. Beginning in FY 2023-24, adjustments have been made to funding levels to accurately reflect the billing of costs to the program.

TREASURER-TAX COLLECTOR

MISSION

The Office of the San Francisco Treasurer & Tax Collector serves as the banker, tax collector, collection agent, and investment officer for the City and County of San Francisco. The Department's mission is to collect and safeguard the City's money and assist low-income San Francisco families in building economic security and mobility.

The Department is committed to providing excellent services for taxpayers, customers, and the community. By promoting diversity, equity, and inclusion, the Department is a stronger, smarter, and more informed government agency. For more information about this department's services, please visit sftreasurer.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$49.3 million for the Office of the Treasurer-Tax Collector (TTX) is \$1.3 million, or 2.6 percent, lower than the FY 2023-24 budget. This change is due to savings from the deletion of vacant positions. The FY 2025-26 proposed budget of \$48.5 million is \$0.7 million, or 1.5 percent, lower than the FY 2024-25 proposed budget. This change is due to salary changes and a reduction in non-personnel services.

Tax Implementation and Reform

The Empty Homes Tax became effective in 2024 and the Office is coordinating with various City departments on implementation. The Office has conducted an initial round of communication to property owner in preparation for filing starting in 2025, and will conduct extensive multilingual outreach to help taxpayers understand their new obligations. Outreach will include a new website, informational and instructional videos on filing the tax and a media campaign. The budget includes funding for technological investments to update

the City's business tax software management system, reflecting the current and evolving tax system. This includes implementing the Empty Homes Tax, which passed as a ballot measure in

BUSINESS TAX & FEE COLLECTIONS. Fiscal Year 2023-2024 business tax & fee collections by type.

November 2022 and is due for the first time on April 30, 2025. These technological upgrades will enable the Treasurer-Tax Collector to build a comprehensive database of tax filers, implement an online tax form for taxpayers, and enhance customer service.

At the request of the Mayor and the Board of Supervisors, the Office partnered with the Controller’s Office to develop recommendations for a November 2024 ballot measure focused on post-pandemic recovery and creating a clear, fair tax structure that promotes economic growth. The department will continue to support city agencies as new tax measures are implemented.

Citywide Economic Vitality

The Office is fully committed to an ongoing citywide effort to provide relief to small businesses by expanding the First Year Free program. With over 6,700 business now enrolled, this program will waive over \$2.9 million in initial license and first-year permit fees for qualifying businesses.

Property tax revenue is one of the most significant funding sources for public safety programs. Because of comprehensive communication between the Office and property owners, more than 99 percent of secured property tax revenue was collected on time.

Accountability & Equity Services and Spending

The Office continues its efforts to implement its Racial Equity Action Plan and made significant progress by conducting multiple training courses for staff. This year, the Office began implementing the first-ever Social Responsibility agreement with JP Morgan, the City and County’s new primary banking partner. This included soliciting feedback from community stakeholders about their needs and challenges around financial products and services. Based on input, the bank will identify

areas of opportunity to strengthen financial access and inclusion.

Kindergarten to College (K2C) celebrated the first cohort of students graduating from high school and disbursed their college savings after extensive outreach efforts. Seniors who had their K2C account since kindergarten have an average balance of \$1,422, a 28 fold increase from the initial \$50 deposit. K2C continues to build on an equity incentive for low-income families, encouraging college savings by increasing their initial seed money.

The Financial Justice Project (FJP) celebrated over 1,000 participants in the “Be The Jury” program, which compensates low-to-moderate-income jurors \$100 a day for jury duty service. Their one-year evaluation shows that the program is successful in expanding racial and economic diversity in San Francisco jury pools. FJP also implemented the nation’s first completely free tablet program in San Francisco jails, which supports incarcerated people’s to preparation for reentry.

FIRST YEAR FREE BY FISCAL YEAR. Amount of initial license and permit fees waived and number of businesses enrollment by fiscal year since the program began.

WAR MEMORIAL

MISSION

The War Memorial (WAR) and Performing Arts Center manages, maintains and operates world class venues promoting cultural, educational and entertainment opportunities for enjoyment by the public, while best serving the purposes and beneficiaries of the War Memorial Trust. For more information about this department's services, please visit sfwarmemorial.org

BUDGET ISSUES & DETAILS

The proposed Fiscal Year (FY) 2024-25 budget of \$30.6 million for the War Memorial is \$7.0 million, or 18.7 percent, lower than the FY 2023-24 budget. This is primarily due to expiring one-time capital funding budgeted in FY 2023-24. The FY 2025-26 proposed budget of \$31.8 million is \$1.2 million, or 3.9 percent, higher than the FY 2024-25 proposed budget. This is due to increases in salaries and benefits and building maintenance costs.

Citywide Economic Vitality

San Francisco has one of the most diverse artistic communities in the nation that contributes to the fabric and quality of the City. As a cornerstone of San Francisco's performing arts community, the War Memorial (WAR) plays a pivotal role in invigorating the City's economy, allowing communities to restore vibrancy through the Performing Arts. The War Memorial and its

TOTAL ANNUAL PERFORMANCES. *The total number of annual performances in the War Memorial's performance venues, including the Opera House and Davies Symphony Hall.*

internationally-renowned resident companies—the San Francisco Symphony, San Francisco Ballet, and the San Francisco Opera collectively employ a significant workforce year-round. The arts presented in the War Memorial’s venues consistently draw thousands of residents and visitors to the Civic Center neighborhood, contributing to the revitalization of business sectors like hotels, bars and restaurants.

Improving Public Safety and Visitor Experience Through Capital Upgrades

The War Memorial is consistently engaged in numerous capital projects and regular ongoing facilities maintenance to ensure that the venues are safe and accessible for the thousands of visitors and staff that frequent the complex. Current major capital projects underway include the modernization of two passenger elevators in Davies Symphony Hall and one passenger elevator in the Opera House. In addition, the War Memorial has a signed agreement with San Francisco Public Works to replace the mansard roof of the Opera

House, restoring a celebrated landmark building and significant part of San Francisco’s history.

Accountability & Equity in Programming

The War Memorial plans to complete hiring of all vacant positions by or before June 30, 2024 to be able to meet and maintain the level of service expected by our patrons. The War Memorial is focused on training staff to foster a welcoming environment to patrons of all races and cultural backgrounds, while the diversity of presenters working in the Department’s venues. The Department’s racial equity initiative “Inclusive War Memorial” is focused on both internal equity initiatives and on moving closer to becoming a world-class performing arts complex where diverse communities of artists and the public can feel welcomed in our venues. We are also focused on our partnership with a broad range of Veterans organizations who reside in our Veteran’s Building and are progressing efforts to more actively include them in both programming and overall visibility.

BONDED DEBT & LONG-TERM OBLIGATION

TRANSBAY

BONDED DEBT & LONG-TERM OBLIGATIONS

MISSION

The Controller's Office of Public Finance seeks to provide low-cost debt financing for large-scale, long-term capital projects and improvements that produce social and economic benefits to San Francisco and its residents, while balancing market and credit risk with appropriate benefits, mitigations, and controls.. For more information about this office's services, please visit sf.gov/controllers-office-public-finance

BACKGROUND

The City and County of San Francisco is the fourth largest city in California and the 17th largest city in the country. The City has gained national recognition among investors in municipal debt obligations as a high-profile economic center of one of the country's largest metropolitan areas. Investor interest benefits the City in the form of lower interest rates and lower annual debt service expenditures compared to other California cities.

The Office of Public Finance utilizes five principal types of municipal debt to finance long-term capital projects: general obligation (G.O.) bonds, lease revenue bonds, certificates of participation (COPs), special tax bonds, and tax increment revenue bonds.

The City relies on the issuance of G.O. bonds to leverage property tax receipts for voter-approved capital expenditures for the acquisition, improvement, and/or construction of real property such as libraries, hospitals, parks, and cultural and educational facilities.

The City utilizes lease revenue bonds and COPs to finance capital projects and acquisitions, some of which provide a direct revenue benefit or cost

savings to the City. Debt service payments for lease revenue bonds and COPs may be paid from revenues of the related project or fees, taxes, or surcharges imposed on users of the project. The City utilizes its commercial paper COP program to provide interim financing for approved project costs in connection with the acquisition, improvement, renovation, and construction of real property and the acquisition of capital equipment and vehicles in anticipation of issuing long-term financings.

The City has utilized Mello-Roos community facilities districts (CFDs) and special tax districts (STDs) to assist in the financing of public benefits, infrastructure, and community facilities. The City has also formed Infrastructure Financing Districts (IFDs), Infrastructure and Revitalization Financing Districts (IRFDs), and Enhanced Infrastructure Financing Districts (EIFDs) to assist financing projects, such as affordable housing, waterfront improvements, public benefits, infrastructure, and community facilities. These districts facilitate improvements to real property, providing public benefits in connection with new developments in the City.

RATINGS

The City's G.O. bond debt is rated Aaa by Moody's, AAA by Standard & Poor's, and AAA by Fitch. These ratings represent the highest scores possible for G.O. bonds. The City's Certificates of Participation (COPs) and Lease Revenue Bonds are rated Aa1/Aa2 by Moody's, AA+ by Standard & Poor's, and AAA/AA+ by Fitch. These ratings are one or two levels below the City's G.O. bond ratings, as is the typical practice for rating municipal lease-backed obligations. The City has no legal obligation or authority to levy taxes for repayment of lease debt, only the authority to appropriate rent for the use of the facilities financed when the facilities have use and occupancy.

MOODY'S

In April 2024, Moody's affirmed its highest rating of Aaa for San Francisco's GO Bonds, citing the City's robust financial profile and fiscal management practices which contribute to a strong general fund balance and liquidity ratio, despite a draw on available reserve balances in FY2023. The City's GO Bonds have been rated Aaa by Moody's since March 2018. In July 2023, Moody's revised the City's outlook to negative, reflecting the expectation of near-term financial and economic headwinds. These include projected draws on reserve funds across budget years 2024 and 2025 and a sluggish economic recovery.

S&P Global

In April 2024, S&P Global affirmed San Francisco's underlying General Obligation bond rating at AAA, the highest rating in its system and a rating which the City has maintained since February 2019. The rating is attributed to the City's ample reserve balances, resilient residential real estate demand, and very strong fiscal management practices. S&P notes that each of these factors position San Francisco particularly well to weather projected near-term budgetary deficits, but revised the City's outlook from stable to negative due to a slow recovery of major revenue streams during a time of growing budgetary expenditures.

FITCH RATINGS

In April 2024, Fitch upgraded the City's underlying GO rating from AA+ to AAA, citing the City's strong financial resilience profile, as well as its vital role as the center of a growing metropolitan area, and San Francisco's uniquely high market value per capita. Fitch also affirmed the City's outlook as stable, supported by its adequate budgetary flexibility and characterized by the expectation that ample reserve balances will help San Francisco weather expected economic challenges ahead. Fitch Ratings recently implemented new criteria for U.S. cities and counties in April 2024.

DEBT PROFILE

Pursuant to the City Charter, the City must have voter authorization to issue G.O. bonds and lease revenue bonds. In the case of G.O. bonds, authorization is required by a two-thirds majority vote. In the case of Lease Revenue Bonds, authorization is required by a simple majority vote to fund new money capital projects. The City also issues Commercial Paper and Certificates of Participation, which do not require voter authorization. There are additional long-term obligations issued by public agencies whose jurisdictions overlap the boundaries of the City in whole or in part. See overlapping debt obligations described below. Of the \$3.9 billion in outstanding G.O. bonds and other long-term general fund backed obligations, as of June 30, 2024, only \$47.1million or 1.2 percent is variable rate debt.

GENERAL OBLIGATION BONDS

Debt service on the City's G.O. bonds is repaid from taxes levied on all real and personal property within the City boundaries. In addition to a two-thirds majority voter threshold, the principal amount of bonds outstanding at any one time must not exceed three percent of the assessed value of all taxable real and personal property located within the boundaries of the City.

Source: Office of Public Finance, City and County of San Francisco.

As of April 15th, 2024, the total amount of G.O. bonds authorized by the voters, but not yet issued, was \$1.6 billion. Of the total principal amount of \$4.7 billion of G.O. bonds originally issued from these authorizations, \$2.6 billion remains outstanding. **Table 1** on the previous page lists the City's outstanding and unissued G.O. bonds by series and authorization. Additionally, the table includes a list of outstanding refunding G.O. bonds that were issued to refinance other series of G.O. bonds.

For debt management and federal expenditure requirements, and because large-scale capital improvement projects are typically completed over several years, bonds are usually issued in installments over time. For that reason, and because G.O. bonds are repaid in the interim, the full amount of G.O. bonds authorized by the electorate typically exceeds the amount of G.O. bonds outstanding.

LONG-TERM OBLIGATIONS

The City's Long-Term Obligations, shown in **Table 2**, include lease revenue bonds and COPs. Pursuant to the Charter, lease revenue bonds must be approved by a simple majority of the voters. As shown in Table 2, as of June 30, 2024, the City will have roughly \$1.5 billion in Long-Term Obligations outstanding. The City anticipates issuing approximately \$484.4 million of COPs in FY 2024-25 to support Public Health projects, Hall of Justice projects, and various Critical Repairs and Recovery Stimulus projects across the City. The City estimates the outstanding amount will increase to \$1.9 billion by the end of FY 2024-25. The gross debt service payment for FY 2024-25 is estimated to be \$166.2 million.

In 1990, voters approved Proposition C, which amended the Charter to authorize the City to lease- purchase equipment through a nonprofit corporation without additional voter approval but

with certain restrictions. The City and County of San Francisco Finance Corporation (the Corporation) was incorporated for that purpose. 1990 Proposition C provides that the outstanding aggregate principal amount of obligations with respect to lease financings may not exceed \$20.0 million, with such amount increasing by five percent each fiscal year. As of July 1, 2023, the total authorized and unissued amount for such financings was \$100.1 million. There are no current plans to issue additional debt under the Proposition C authorization.

In 1994, voters approved Proposition B, which authorized the issuance of up to \$60.0 million in lease revenue bonds for the acquisition and construction of a combined dispatch center for the City's emergency 9-1-1 communication system and for the emergency information and communications equipment for the center. To date, \$45.9 million of Proposition B lease revenue bonds have been issued and there is approximately \$14.0 million in remaining authorization. There are no current plans to issue additional debt under the Proposition B authorization.

In March 2000, voters approved Proposition C, which extended a two and one-half cent per \$100 in assessed valuation property tax set-aside for the benefit of the Recreation and Park Department (the Open Space Fund). Proposition C also authorized the issuance of lease revenue bonds or other forms of indebtedness payable from the Open Space Fund. The City issued \$27.0 million and \$42.4 million of such Open Space Fund lease revenue bonds in October 2006 and October 2007, respectively. The City issued refunding lease revenue bonds to refinance the remaining outstanding amounts of the Series 2006 and Series 2007 Open Space Fund lease revenue bonds in August 2018.

In November 2007, voters approved Proposition D, which renewed a two and one-half cent per \$100 in assessed valuation property tax set-aside for the benefit of the Library (the Library Preservation Fund) and authorized the City to issue lease revenue bonds

or other types of debt to construct and improve library facilities. The City issued Library Preservation Fund lease revenue bonds in the amount of \$34.3 million in March 2009 and refinanced these obligations with the issuance of refunding lease revenue bonds in August 2018.

COMMERCIAL PAPER PROGRAM

In March 2009, the City approved the establishment of a not-to-exceed \$150 million Lease Revenue Commercial Paper Certificates of Participation Program (the CP Program). Under the CP Program, Commercial Paper Notes (the CP Notes) are issued from time to time to pay approved project costs in connection with the acquisition, improvement, renovation, and construction of real property and the acquisition of capital equipment and vehicles in anticipation of long-term or other takeout financing to be issued when market conditions are favorable. Projects are eligible to access the CP Program once the Board and the Mayor have approved the project and the long-term, permanent financing for the project. In July 2013, the City approved an additional \$100 million of commercial paper for a total authorized CP Program of \$250 million.

The City's CP Program is secured by two revolving credit facilities. The Series 1 and Series 2 CP notes are secured by a \$150 million revolving credit facility issued by Wells Fargo Bank which expires in March 2026. The Series 3 CP notes are secured by a \$100 million revolving credit facility issued by Bank of the West which expires in April 2026.

As of April 15, 2024, the outstanding principal amount of CP Notes was \$29.8 million with a weighted average interest rate of 3.88 percent. The CP Program currently provides interim financing for the following projects: HOPE SF, Housing Trust Fund Projects, the Homeless Services Center, Laguna Honda Hospital Wings Improvement Project, Critical Repairs & Recovery Stimulus projects, and Police Vehicles projects. The CP program has previously financed other various projects including 49 South

TABLE 3: CALCULATION OF DEBT LIMIT RATIO

Assessed Valuation (as of 8/1/23)	\$344,487,668,208
Less Exemptions	(574,103,600)
Net Assessed Value (as of 8/1/23)	\$343,913,584,608

Outstanding G.O. Bonds (as of 4/15/24)	\$2,587,797,632
G.O. Debt Ratio	0.75%
Unused Capacity	\$6,991,796,948

1. Section 9.106 of the City Charter limits issuance of general obligation bonds of the City to 3 percent of the assessed value of all taxable real and personal property, located within the City and County.

Van Ness, the Animal Care & Control Facility, and the Moscone Convention Center Expansion.

OVERLAPPING DEBT OBLIGATIONS

Overlapping debt obligations are long-term obligations that are often sold in the public credit markets by public agencies whose boundaries overlap the boundaries of the City in whole or in part. In many cases, overlapping debt obligations issued by a public agency are payable only from the revenues of the public agency, such as sales tax receipts, property taxes, and special taxes generated within the City's boundaries. Overlapping debt obligations of the City have been issued by public agencies such as the Successor Agency to the San Francisco Redevelopment Agency (OCII), Association of Bay Area Governments (ABAG), the Bayshore-Hester Assessment District, the Bay Area Rapid Transit District (BART), the San Francisco Community College District, and the San Francisco Unified School District.

DEBT LIMIT

The City's debt limit for outstanding G.O. bond principal is governed by Section 9.106 of the City's Charter and is subject to Article XIII of the State Constitution. Under the Charter, the City's outstanding G.O. bond principal is limited to three percent of the assessed value of all taxable real and personal property located within the jurisdiction of the City and County of San Francisco.

As indicated in **Table 3**, the City has a current G.O. bond limit of \$10.3 billion, based upon the Controller's Certificate of Assessed Valuation released on August 1, 2023 (FY 2023-24 AV). As of April 15, 2024, the City has \$2.6 billion of G.O. bonds outstanding, which results in a G.O. bond debt to assessed value ratio of 0.75 percent. Based on the FY 2023-24 AV, the City's remaining legal capacity for G.O. bond debt is \$7.7 billion. The FY 2024-25 AV will be released in August 2024 and will likely result in modest growth in the City's G.O. bond debt capacity. The City has \$1.6 billion in voter authorized and unissued G.O. bonds. The amount of authorized but unissued debt is not included in the debt limit calculation since the limit applies only to outstanding bonds. Principal on previously issued bonds is repaid on a continuous basis allowing for additional debt capacity despite continued authorization for the issuance of new debt. Furthermore, debt capacity will increase or decrease as the City's total assessed property value changes.

CITIZENS' GENERAL OBLIGATION BOND OVERSIGHT COMMITTEE

In March 2002, San Francisco voters approved Proposition F, creating the Citizens' General Obligation Bond Oversight Committee (the Committee). The purpose of the Committee is to inform the public about the expenditure of G.O. bond proceeds. The Committee actively reviews and reports on the expenditure of taxpayers' money in accordance with the voter authorization. The Committee provides

oversight for ensuring that (1) G.O. bond proceeds are expended only in accordance with the ballot measure, and (2) no G.O. bond funds are used for any administrative salaries or other general governmental operating expenses, unless specifically authorized in the ballot measure for such G.O. bonds.

Proposition F provides that all ballot measures seeking voter authorization for G.O. bonds after the 2002 adoption of Proposition F must provide that 0.1 percent of the gross proceeds from the proposed bonds be deposited in a fund established by the Controller's Office and appropriated by the Board at the direction of the Committee to cover the Committee's costs. The Committee, which was initially convened on January 9, 2003, continuously reviews existing G.O. bond programs. The Committee issues reports on the results of its activities to the Board of Supervisors at least once a year.

Since the Committee was convened in 2003, the voters have approved approximately \$6.3 billion in G.O. Bonds to fund various bond programs such as Clean and Safe Neighborhood Parks Bonds, Earthquake Safety and Emergency Response Bonds, Road Repaving & Street Safety Bonds, San Francisco General Hospital Bonds, Transportation and Road Improvement Bonds, Affordable Housing Bonds,

Public Health and Safety Bonds, Seawall, and Health and Recovery Bonds.

ENTERPRISE DEPARTMENT PRINCIPAL OUTSTANDING AND DEBT SERVICE FOR FISCAL YEAR 2024-2025

Certain Public Service Enterprise departments of the City and County of San Francisco have outstanding revenue bond indebtedness that does not require discretionary City funding for their support. The departments include the Airport Commission, Municipal Transportation Agency, Port Commission, and the Public Utilities Commission. These departments have issued revenue bonds to leverage operating revenues to finance capital projects and acquisitions, many of which provide a direct revenue benefit or cost savings to the public. **Table 4** shows the total estimated FY 2024-25 principal outstanding and debt service payments due for these enterprise departments.

As of July 1, 2024, the Public Service Enterprise Departments are expected to have approximately \$17.2 billion of principal outstanding, with \$2.9 billion of revenue bond debt expected to be issued by the end of FY 2024-25. The FY 2024-25 budget provides for an annual debt service payment of \$1.09 billion for Public Service Enterprise departments' bonds.

TABLE 4: ENTERPRISE DEPARTMENT BOND PRINCIPAL OUTSTANDING AND DEBT SERVICE FOR FISCAL YEAR 2024-2025

Agency	Principal Amount ⁽⁵⁾ Outstanding as of 7/1/24	Expected New Issuance	Total	Fiscal Year 2024-2025 Principal and Interest Payments
PUC ⁽¹⁾	\$7,665,685,000	\$1,870,000,000 ⁽²⁾	\$9,535,685,000	\$430,387,958 ⁽³⁾
SFMTA	416,420,000	-	416,420,000	27,840,451
Port Commission ⁽⁴⁾	42,446,797	-	42,446,797	4,040,708
Airport Commission ⁽⁶⁾	9,114,185,000 ⁽⁷⁾	1,068,000,000	10,182,185,000	631,236,669
	\$17,238,736,797	\$2,938,000,000	\$20,176,736,797	\$1,093,505,786

1. Does not include outstanding or expected WIFIA and SRF loan issuances or Certificates of Participation.

2. Preliminary, subject to change.

3. FY24-25 Principal and Interest payments are net of federal subsidies and capitalized interest.

4. Includes South Beach Harbor.

5. Does not reflect outstanding Commercial Paper or General Obligation Bond debt.

6. Principal and Interest Payments reflect Debt Service Budget for FY 2024-25.

7. Estimated, includes estimated issuance expected between April 1, 2024, and June 30, 2024.

CAPITAL PROJECTS

STONESTOWN

CAPITAL PROJECTS

THE CAPITAL PLANNING PROCESS [onesanfrancisco.org](https://www.onesanfrancisco.org)

Beginning in FY 2005-06, San Francisco centralized its capital planning process by enacting legislation that required the creation of a multi-year capital plan. As a result, while departments receive funds annually for capital projects, the City strategizes, prioritizes, and plans for capital expenditures on a ten-year timeframe.

This process is guided by the Ten-Year Capital Plan (the Plan). Every other year, the City Administrator submits the proposed Plan to the Mayor and Board of Supervisors (Board), as required under Section 3.20 of the Administrative Code. The Plan provides an assessment of the City's capital infrastructure needs and a financing plan for addressing those needs. The Plan is a coordinated citywide approach to long-term infrastructure planning covering the City's General Fund departments, as well as enterprise departments and external agencies. Under the authority of the City Administrator, the Office of Resilience and Capital Planning prepares the Plan and presents it to the Capital Planning Committee (CPC) for review. The Plan is then submitted to the Board by March 1 for approval no later than May 1 every odd-numbered year.

Following the Plan's adoption, CPC proposes a rolling two-year capital budget for consideration by the Board during the regular budget process.

The capital budget was updated on the following timeline:

- **JANUARY 19:** Budget requests due from departments
- **APRIL 22:** Review of General Fund department budget scenarios
- **MAY 6:** Capital Planning Committee approval of General Fund department budget
- **MAY 31:** Citywide proposed budget, including capital budget, submitted to the Board of Supervisors

About The Ten-Year Capital Plan

The City's current Ten-Year Capital Plan recommends total investments over \$41 billion between Fiscal Years 2023-24 and 2032-33. The proposed projects address capital needs related to eight service areas: Affordable Housing; Economic and Neighborhood Development; General Government; Health and Human Services; Infrastructure and Streets; Public Safety; Recreation, Culture, and Education; and

Transportation. **Table 1** shows how the Plan recommends investment across these service areas.

Funding principles from the Plan that help establish capital priorities for the City are to:

- » Address legal or regulatory mandates;
- » Protect life safety and minimize physical danger to those who work in and use City infrastructure and facilities;

**TABLE 1: FISCAL YEAR 2024-33
CAPITAL PLAN INVESTMENTS BY SERVICE AREA**

Capital Plan Funding Amounts (Funding in Millions)	FY 2024-28	FY 2029-33	Plan Total
Affordable Housing	2,323	1,596	3,920
Public Safety	688	725	1,413
Health and Human Services	495	406	901
Infrastructure & Streets	7,123	3,360	10,483
Recreation, Culture, and Education	2,721	1,608	4,329
Economic & Neighborhood Development	2,682	2,056	4,738
Transportation	8,628	6,687	15,315
General Government	92	219	311
Total	24,753	16,657	41,410

- » Enhance resiliency and eliminate racial and social disparities so that all San Franciscans may thrive;
- » Ensure asset preservation and sustainability, i.e., timely maintenance and renewal of existing infrastructure;
- » Serve programmatic or planned needs, i.e. formal objectives of an adopted plan or action by the City’s elected officials; and
- » Promote economic development with projects that are expected to increase revenue, improve government effectiveness, or reduce operating costs.

- Funding Street Resurfacing to maintain a Pavement Condition Index (PCI) to a state of good repair with a score of 75;
- Prioritizing the City’s curb ramp program and barrier removal projects to improve accessibility for all;
- Prioritizing regulatory requirements, life safety concerns, and the maintenance of current assets in order to reduce the City’s backlog of deferred capital projects;
- Keeping property tax rates at or below 2006 levels; and
- Funding critical enhancements to cover unexpected capital needs and emergencies as well as projects that are not good candidates for debt financing.

Capital-Related Policies

The City’s Ten-Year Capital Plan is financially constrained, meaning that it lists funded as well as deferred projects that are selected based on fiscally responsible and transparent policies. The FY 2024-33 Capital Plan generally retains most policies and practices set in prior year plans, including restrictions around debt issuance, in order to meet key objectives such as:

- Growing the Pay-As-You-Go program at a rate that allows the City to address its facilities backlog;

Operating Impacts of Capital Projects

The vast majority of projects in the City’s Capital Plan and Budget address the needs of existing assets and are not expected to substantially impact operating costs. For those projects where a substantial operational impact is expected, San Francisco Administrative Code Section 3.20 states, “The capital expenditure plan shall include a summary of operating costs and impacts on city operations that are projected to result from capital

investments recommended in the plan.” This operations review includes expected changes in the cost and quality of city service delivery.

Such operational planning is a foundational component of the pre-development planning for the City’s large-scale capital projects, and is included in the Plan whenever possible. In practice, because projects are often described in the Plan so far in advance of their construction, and even before pre-planning is complete, operating impacts are typically not available in detail at the time of Plan publication. More often, operating impacts are presented to the Capital Planning Committee as project plans come into focus.

Departments present future one-time and ongoing costs of their projects to the Capital Planning Committee as part of the funding approval process. The Capital Planning Committee considers recurring salary and benefits costs, other operating costs such as maintenance, and any anticipated recurring revenues to understand the net operating impacts of major projects. Considerations for the costs of stand-alone facilities include ongoing costs like staffing and utilities, as well as one-time costs like furniture, fixtures, and equipment. The near-term impacts of major projects are reflected in the projected sources and uses of the City’s Five-Year Financial Plan, issued every other year. In addition, renewal needs and condition assessments for all facilities and infrastructure are modeled before a project is funded. These models are updated annually as a part of the capital planning process.

Eligible Capital Project Types

Capital projects funded through the annual budget are considered part of the Plan’s Pay-As-You-Go (Pay-Go) Program. Debt-financed projects are typically funded through supplemental appropriations and considered outside of the annual budgeting process. Projects funded through the Pay-As-You-Go Program fall into one of five general funding categories defined below:

ADA Facility Transition Plan and ADA Right-of-

Way: ADA Facility investments are barrier removal projects on public buildings. ADA Right-of-Way projects correspond to on-demand curb ramp work. These dedicated ADA projects represent a small fraction of the accessibility improvements the Plan funds, as capital projects frequently include accessibility upgrades that are not counted as separate line items.

Routine Maintenance: Projects that provide for the day-to-day maintenance of existing buildings and infrastructure, including labor costs. Unlike renewals and enhancements, these annual expenditures are often a mix of capital and operating expenses, and they can be used for minor renewals according to department needs.

Street Resurfacing: This funding is used to maintain a citywide average PCI score of 75.

Critical Enhancement: An investment that increases an asset’s value or useful life and changes its use. Critical enhancement projects include emergency repairs and improvements that address growth or other priority capital needs that are not good candidates for debt financing due to size or timing.

Facility and Right-of-Way Infrastructure Renewals:

An investment that preserves or extends the useful life of existing facilities or infrastructure.

The categories of spending captured in the Capital Budget mirror those of San Francisco’s Ten-Year Capital Plan and enable the City to chart trends, measure capital spending in terms of best practices, and report against the City’s targets for state of good repair spending.

Historical Capital Accomplishments

The City’s first Ten-Year Capital Plan was adopted on June 20, 2006, and recommended \$16 billion in total investments and \$3 billion in General Fund investments through FY 2014-15. Since its adoption, nearly all of the high-priority projects identified

in the first Plan have been accomplished while planned General Fund investments have surpassed \$5 billion.

General Obligation (G.O.) Bonds and Certificates of Participation

Prior to 2008, San Francisco voters had not authorized any G.O. bonds since 2000, which contributed to the City's infrastructure maintenance backlog. Since 2008, voters have approved \$6.2 billion in G.O. bonds for hospitals, clinics, parks, police stations, firefighting facilities, public safety operations, transportation, streets, shelter, and affordable housing. Recent levels of investment are higher than at any other time in the City's history. New bonds are only issued as old ones are retired and/or the City's base of net assessed value grows. This policy has ensured the repayment of these obligations without raising property tax rates for San Francisco residents and businesses since 2006.

COPs, which are repaid from the General Fund, are another financing method used to address infrastructure projects. COPs are reserved for projects with a revenue source, such as the Moscone Convention Center, or for critical improvements such as those at the War Memorial Veterans Building and the Animal Care and Control Facility. These issuances are limited to an amount that results in debt service that is no more than 3.25 percent of the discretionary General Fund budget.

Pay-As-You-Go Capital Investments

The annual General Fund investment in the Pay-As-You-Go Program will be \$80.8 million in FY 2024-25 and \$57.2 million in FY 2025-26. These funds go toward maintaining basic infrastructure and investing in the City's assets including facility renovations, street repaving, right-of-way renewals, ADA improvements, critical enhancements, and regular maintenance. In the five years prior to the COVID-19 pandemic the City had an average General Fund investment of \$144 million annually,

however in light of the shortfalls caused by COVID-19, the Capital Plan recommendation was reduced. These shortfalls are being addressed through the issuance of \$45 million in FY 2024-25 Certificates of Participation to address critical repairs and street repaving.

Integration of Impact Fees

In the early 2000s, several planning initiatives to transform former industrial areas into new neighborhoods in east San Francisco were partially funded by impact fees. Projects funded by these impact fees include pedestrian and streetscape enhancements, transportation improvements, new parks, library assets, and childcare facilities. The impact fees are managed by the Interagency Planning Implementation Committee in collaboration with the Citizens' Advisory Committee for each plan area.

Projected revenues have slowed due to the overall decline of the developer project pipeline.

Streets Program

In addition to providing a safer and smoother ride for users, streets with a higher PCI score last longer and are less expensive to maintain, which results in operating savings in future years. A block with a PCI score of 85-100 is in excellent condition and does not require any treatment. In 2011, the City's streets were at an average PCI score of 63 and declining quickly.

Since then, the City has made streets funding a top priority and, with the help of voters, passed the Road Repaving and Streets Safety Bond, which provided funding to increase the City's overall PCI score to 67. Now at 74, San Francisco's PCI score could decline once again if the Streets Program is not funded at a sufficient level.

Recent Major Projects

Since 2020, the City has completed or broken ground on a number of major projects, including:

- Produced 2,600 new affordable housing units through 10 groundbreaking;
- Completion of the City's Housing Element, centering racial and social equity;
- Completed Fire Station 35, an innovative new floating station berthed at Pier 221/2, funded through ESER 2014;
- Completed the Animal Care and Control replacement animal shelter at 1419 Bryant Street;
- Opened the Embarcadero SAFE Navigation Center and expanded the Division Circle Navigation Center;
- Completed seismic retrofit and modernization of Maxine Hall and Castro Mission Health Centers, also funded by the 2016 Health and Safety G.O. Bond
- Achieved a citywide PCI of 74. All districts have had at least one-third of their blocks resurfaced since 2009;
- Completed the Salesforce Transit Center, with ongoing work to form a mixed-use neighborhood surrounding the Transit Center;
- Completed the Downtown San Francisco Ferry Terminal Expansion Project;
- Renovation of the Bayview Opera House for greater accessibility and community use;
- Moved police staff into the newly completed Forensic Services Division;
- Opened the Central Subway, extending the T-line through SoMa, Union Square, and Chinatown;
- Connected over 8,096 units with free broadband internet access over the last 5 years;
- Modernization of the City's 100+ year-old sewer system;
- Improvements to the City's Emergency Firefighting Water System;
- Designed, constructed, or upgraded thousands of curb ramps to comply with ADA standards.

Proposed Capital Budget for Fiscal Years 2024-25 and 2025-26

The proposed FY 2024-25 and FY 2025-26 budget funds capital investment at \$299.1 million for General Fund departments over the two-year period.

The proposed budget includes funding the General Fund Capital Budget Pay-Go Program in FY 2024-25 at \$80.8 million, and FY 2025-26 at \$57.2 million. In FY 2024-25, the budget also proposes a \$45.0 million Streets and Critical Repairs Program funded through Certificates of Participation.

Additional revenues for capital investments come from non-General Fund sources, such as Impact Fees, state and federal grants, and locally generated revenues, and fees. These revenue sources total \$57.2 million in FY 2024-25 and \$58.9 million in FY 2025-26.

The continued investment in capital even in difficult years demonstrates the City's dedication to making responsible choices and taking care of its infrastructure, roads, parks, and life safety facilities. In so doing, the proposed budget makes smart investments that improve infrastructure, enhance service delivery, reduce long-term costs and liabilities, and better insulate the City from the effects of future economic downturns.

Highlights from the FY 2024-25 and FY 2025-26 proposed Capital Budget include funding for:

- On-going curb ramp improvements and barrier removals for improved accessibility citywide;
- Addressing critical enhancements such as legal mandates and regulatory concerns;
- Keeping facilities in a state-of-good-repair through projects such as various HVAC, roof, boiler repairs etc;
- Keeping right-of-way assets in a state-of-good-repair through pothole, plaza, median, bridge inspection and repair etc;
- Funding for essential parks infrastructure such as fields, courts, forestry, fencing, and erosion control.

IT PROJECTS

ARBORRETUM

INFORMATION & COMMUNICATION TECHNOLOGY PROJECTS

SF.GOV/COIT

THE COMMITTEE ON INFORMATION TECHNOLOGY (COIT)

Investment in information and communications technology (IT or ICT) enables the City and County to enhance city services, engage residents and visitors and use data to better inform leaders and policymakers.

The City plans, funds, and coordinates IT projects through the Committee on Information Technology (COIT). COIT is responsible for advising the Mayor and Board of Supervisors (Board) on technology matters and setting overall technology direction for the City.

Every other year, COIT publishes the City's Information and Communication Technology Plan (ICT Plan) to proactively plan, fund, and implement the City's technology efforts to align with the Mayor's goals on equity and government accountability. The ICT Plan for Fiscal Years (FY) 2023-24 through 2027-28 was adopted by the Board in 2023, and the full plan can be found on the COIT website at sf.gov/coit. COIT staff will submit the ICT plan for FY 2025-26 through 2029-30 in spring of 2025.

INFORMATION AND COMMUNICATION TECHNOLOGY PLAN (ICT PLAN)

The adopted Five-Year ICT Plan envisions government services that are available and universally accessible in times of crisis and beyond.

This vision reflects the importance of ensuring the accessibility and reliability of City services essential to economic sustainability. The Plan outlines a path to coordinate technology investments, improve city services, and improve the resiliency of the City's most critical systems.

The ICT plan identifies three strategic IT goals:

- Online and Accessible City Services Residents Can Use
- Integrated City Operations that are Efficient and Cost-Effective
- IT Infrastructure You Can Trust

FY 2024-25 and FY 2025-26 Proposed Technology Budget

COIT annually recommends strategic investments in technology projects citywide. The FY 2024-25 and FY 2025-26 Mayor's proposed budget allocates \$49.9 million for 18 projects for the two years.

Disaster Recovery of Critical Applications

The Department of Technology will collaborate with departments to establish IT disaster recovery solutions to support critical business services. The department has conducted a business impact analysis for all department operations to determine application tier criticality, recovery dependencies, and resilience status based on City policy and the citywide technology resilience standard. The next step is to prioritize all top-tier applications then implement a disaster recovery plan and continue resiliency planning.

Digital Accessibility & Inclusion Support

COIT adopted the citywide Digital Accessibility and Inclusion Standard to ensure city websites are accessible regardless of disability and across languages. This project will continue to provide secure web hosting and funding for human translation on the growing SF.gov site.

Computer Aided Dispatch (CAD) Replacement

The City's CAD system is a tool for tracking field personnel of the City's police, fire, Sheriff, and other public safety agencies. The current system was purchased in 2001 and is at end-of-life. Cut-over to the new system is planned to go live in 2026.

Human Resources Modernization

The Department of Human Resources (DHR) is continuing to modernize the employee and job candidate experience within the City by developing an employee onboarding tool and e-personnel filing system. This work builds on the City's new applicant tracking system that went live in 2021

and will improve the candidate experience by shortening time-to-hire. Additionally, DHR has begun developing a "one-stop shop" intranet to improve the accessibility of key resources for employees. This project will facilitate organization-wide communication, increase employee productivity, and improve team collaboration.

JUSTIS Data Center of Excellence

Last year, the City reached a significant milestone in the JUSTIS project, completely retiring the mainframe and launching a new modernized court case management system that will transform and streamline case management and improve access and services to judicial partners and the community at-large. This year, JUSTIS successfully connected eight departmental case management systems and data sharing across these systems.

Infrastructure Modernization

Over the past 5 years, the City has invested in modernizing network and data center infrastructure. The proposed budget continues the Department of Technology's work by improving resiliency in City data centers. This will allow for rapid recovery of critical city systems in the event of a failure, such as a power outage or a natural disaster.

Public Safety and Public Service Radio Replacement

The Public Safety and Public Service Radio Replacement Project will upgrade the citywide radio communications system used primarily by the City's public safety agencies. The new technology will support over 9,000 mobile and handheld radios, with ten city departments and four outside agencies operating daily on the system.

New Property Assessment and Tax System

The Assessor, the Treasurer-Tax Collector, and the Controller are replacing the City's property tax system to better support document capture, reporting, storage maintenance, conversion migration services, and management.

Jail Management System

The Sheriff's Jail Management System is at end-of-life and requires replacement. A modern, supported system will allow the Department to manage operations and increase agency accountability by improving data sharing between Sheriff and partnering City agencies.

AI Evaluation and Support

The City is in the early stage of evaluating artificial intelligence (AI). Artificial intelligence tools have the

potential to expand and improve public service to residents. The AI Evaluation and Support project will help provide guidance, set best practices, and coordinate with all City departments to ensure alignment on the adoption of artificial intelligence and encourage ethical and effective use. Moreover, the support center will advance a unified AI vision within the City and create a standard framework for AI adoption that addresses the benefits, risks, and limitations of AI.

ADDITIONAL BUDGETARY RESOURCES

FILMORE

ADDITIONAL BUDGETARY RESOURCES

The Mayor's proposed Fiscal Years (FY) 2024-25 and 2025-26 budget for the City and County of San Francisco (the City), published on June 1, is one of several financial documents available to the public. Other sources of financial information include:

Consolidated Budget and Appropriation Ordinance, FY 2024-25 and 2025-26

The Consolidated Budget and Appropriation Ordinance (BAO) contains the City's sources of funds and their uses, detailed by department. This document provides the legal authority for the City to spend funds during each fiscal year. The BAO is released annually with the Board's passage and the Mayor's signing of the final budgets. An interim BAO, passed by a continuing resolution of the Board, provides the City's interim operating budget between the end of the fiscal year on June 30 and when the final budget is passed.

Annual Salary Ordinance, 2024-25 and FY 2025-26

The Annual Salary Ordinance (ASO) is the legal document that authorizes the number of positions and job classifications in departments for the budgeted fiscal years. The ASO is passed at the same time as the BAO.

Annual Comprehensive Financial Report

The City's Annual Comprehensive Financial Report (ACFR) summarizes the performance of all revenue sources and accounts for total expenditures in any given fiscal year. The ACFR for the fiscal year ending June 30, 2023 is currently available. The FY 2024-25 ACFR will be made available by the Controller after the fiscal year has closed and the City's financial reports have been reviewed and certified.

Five-Year Financial Plan and Joint Report

The City's Five-Year Financial Plan forecasts expenditures and revenues during the five-year period, proposes actions to balance revenues and expenditures during each year of the plan, and discusses strategic goals and corresponding resources for city departments. The Plan is published each odd calendar year by the Controller's Office, the Mayor's Office of Public Policy and Finance, and the Board of Supervisors' Budget and Legislative Analyst. In even calendar years, the Five-Year Financial Plan Update, commonly known as the Joint Report, is issued and is currently available for FY 2024-25 through FY 2027-28.

OBTAINING BUDGET DOCUMENTS AND RESOURCES

Copies of these documents are distributed to the SFPL Main Library. They may also be viewed online at the City's web site (sf.gov) and at the following City Hall locations:

COMMONLY USED TERMS

ANNUAL COMPREHENSIVE FINANCIAL

REPORT (ACFR) – The City’s Annual Financial Report, which summarizes the performance of all revenue sources and accounts for total expenditures in the prior fiscal year.

ANNUALIZATION – Adjusting a partial year revenue or expense to reflect a full year’s worth of income or spending.

APPROPRIATION – Legislative designation of money to a department, program, or project for a particular use, including operations, personnel, or equipment.

ATTRITION SAVINGS – Salary savings that result when positions at a department are vacant.

BALANCED BUDGET – A budget in which revenues equal expenditures, with no deficit.

BALANCING – Process of making revenues match expenditures within each departmental budget and within the City budget as a whole.

BASE BUDGET – The budget predicated on maintaining the existing level of services and operations. The City and County of San Francisco require two-year budgeting annually, and the second year of the budget becomes the base budget for the following budget cycle.

BASELINE – (1) The annualized budget for the current fiscal year, which serves as the starting point for preparing the next fiscal year’s budget. (2) A required minimum of spending for a specific purpose.

BOND – A debt investment in which an investor loans money to an entity that borrows the funds for a defined period of time at a fixed interest rate. Bonds are used by companies and governments to finance a variety of projects and activities.

BUDGET AND APPROPRIATION ORDINANCE

(BAO) – The legislation that enacts the annual two-year budget. Formerly the Annual Appropriation Ordinance (AAO).

BUDGET CYCLE – The period of time in which the City’s financial plan for the upcoming fiscal year is developed; submitted to, reviewed, and enacted by the Board of Supervisors and signed by the Mayor; and implemented by city departments.

CAPITAL BUDGET – Funds to acquire land, plan and construct new buildings, expand or modify existing buildings, and/or purchase equipment related to such construction.

CAPITAL EXPENDITURE – Expenditures creating future benefits, used to acquire or upgrade physical assets such as equipment or property.

CARRYFORWARD – Funds remaining unspent at year-end that a department requests permission to spend during the following fiscal year. Some funds carry forward automatically at year-end.

CASH BASIS ACCOUNTING – An accounting methodology that recognizes revenues and expenditures when payments are made effective.

COST-OF-LIVING ADJUSTMENT (COLA) – A regularly scheduled adjustment to salaries, aid payments, or other types of expenditures to reflect the cost of inflation.

COUNTY-WIDE COST ALLOCATION PLAN

(COWCAP) – The County-Wide Cost Allocation Plan is developed annually by the Controller’s Office and calculates the overhead rate charged to each department for its share of citywide overhead costs, such as payroll, accounting, and operations.

DEFICIT – An excess of expenditures over revenues.

ENTERPRISE DEPARTMENT – A department that does not require a General Fund subsidy because it generates its own revenues by charging fees for services.

FIDUCIARY FUND – Used to account for assets held in trust by the government for the benefit of individuals or other entities. Government employee pension funds are an example of a fiduciary fund. Fiduciary funds are one of the three broad types of government funds, the other two being governmental and proprietary funds.

FISCAL YEAR – The twelve-month budget cycle. San Francisco’s fiscal year runs from July to June 30.

FRINGE – The dollar value of employee benefits such as health and dental, which varies from position to position.

FULL-TIME EQUIVALENT (FTE) – One or more employees who cumulatively work 40 hours/week.

FUND – Government budgets are made up of funds that organize and account for specific resources. Each fund is considered a separate accounting entity.

FUND BALANCE – The amount of funding that remains in a given fund at the end of the fiscal year.

GENERAL FUND – The largest of the City’s funds, the General Fund is a source for discretionary spending and funds many basic municipal services such as public safety, health and human services, and public works. Primary revenue sources include local taxes such as property, sales, business, and other taxes.

GENERAL FUND DEPARTMENT – A department that receives an annual appropriation from the City’s General Fund.

GOVERNMENTAL FUND – The City’s basic operating fund, includes the General Fund and Capital projects. One of the three broad types of

government funds, the other two being the fiduciary fund and the proprietary fund.

INTERIM BUDGET – The citywide budget that is in effect for the first two months of the fiscal year, during the lag period between July 1—the date on which the Board of Supervisors must technically submit its budget—until mid-August when the new budget is signed into effect by the Mayor. The Mayor’s proposed budget serves as the interim budget.

MAJOR AND PROPRIETARY FUND – Used to account for a government’s on-going activities and operations, the proprietary fund includes enterprise funds (which account for activities in which a fee is charged to external user) and internal service funds (used for services provided to other funds or departments). One of the three broad types of government funds, the other two being the fiduciary fund and the governmental fund.

MAYOR’S PROPOSED BUDGET – The citywide budget submitted to the Board of Supervisors by the Mayor’s Office, by May 1 for selected Enterprise and other departments and June 1 for all remaining departments, that makes recommendations and estimates for the City’s financial operations for the ensuing fiscal year.

MEMORANDUM OF UNDERSTANDING (MOU) – A binding agreement between two parties.

ORDINANCE – A proposed or enacted law. Typically prepared by the City Attorney.

RAINY DAY CITY AND SCHOOL RESERVES – Funds that are legally set-aside by the City Charter, Section 9.113.5, with the intent of protecting the City from being negatively impacted by the economy’s boom-bust cycle. Generally, the Rainy Day Reserve requires that money be saved when revenue growth exceeds a certain level (in good economic times) in order to create a cushion during economic downturns. Pursuant to Proposition C, approved by San Francisco voters in November of 2014, the original Rainy Day Reserve was split into

two separate reserves—the City Reserve for use by the City and the School Reserve for use by the San Francisco Unified School District.

RESOLUTION – A type of legislation. Typically prepared by the sponsoring department or a member of the Board of Supervisors and generally directed internally.

REVISED BUDGET – The department’s budget at the end of the fiscal year. Over the course of the fiscal year, the department’s original budget may be amended to reflect supplemental appropriations, and receipt of unbudgeted grants.

SALARY ORDINANCE – The legislation that grants departments the authority to fill a specified number of positions during the fiscal year. Note that this is not the same as having the funding to fill that

number of positions. Formerly the Annual Salary Ordinance (ASO). This legislation is passed at the same time as the Budget and Appropriation Ordinance.

SPECIAL FUND – Any fund other than the General Fund. Revenues in special funds are non-discretionary.

SURPLUS – An excess of revenue over expenditures.

TECHNICAL ADJUSTMENT – Changes made by the Mayor’s Office to the Mayor’s proposed budget after it has been submitted to the Board of Supervisors.

TWO-YEAR BUDGETING – The citywide process (beginning Fiscal Year 2012-13) of budgeting each year for the next two fiscal years.

THE PRESIDIO
