LEGISLATIVE DIGEST

[General Plan - Stonestown Development Project]

Ordinance amending the General Plan to revise the Urban Design Element, the Commerce and Industry Element, and the Land Use Index to reflect the Stonestown Development Project; adopting findings under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1; and adopting findings of public necessity, convenience, and welfare under Planning Code, Section 340.

Existing Law

Under Charter Section 4.105 and Planning Code Section 340, any amendments to the General Plan shall first be considered by the Planning Commission and recommended for approval or rejection by the Board of Supervisors.

The Stonestown Development Project is comprised of 43-acres of private land in the southwest corner of San Francisco. The site is zoned C-2 (Community Business), RH-1D (Residential, House, One Family, Detached Dwellings), and RM-1 (Residential Mixed, Low Density) and is located in a 40-X and 65-D height and bulk district.

Amendments to Current Law

This ordinance would amend the General Plan as follows:

- (1) Amend the Urban Design Element Maps 4 and 5 by establishing maximum height and bulk limits consistent with the proposal;
- (2) Amend the Commerce and Industry Element Maps 1 and 2 by reclassifying generalized land uses and densities consistent with the proposal; and
- (3) Amend the Land Use Index to reflect amendments to the maps described above in the Urban Design, and Commerce and Industry Elements.

Background Information

On December 7, 2023, the Planning Commission considered the proposed amendments to the General Plan and recommended initiation in Resolution 21459.

This ordinance would enable the development of the Stonestown Development Project (“Project”), proposed by Brookfield Properties (“Project Sponsor”) The Project is immediately north of San Francisco State University and west of 19th Avenue. The site encompasses property currently owned by the Project Sponsor and Brave Church. The Project proposal includes developing approximately 3.85 million gross square feet (“GSF”) of new building area around the existing Stonestown Galleria Mall allocated among the following uses:

approximately 3,491 dwelling units, 4,861 parking spaces, 1,277 bicycle parking spaces, 160,000 GSF of retail and community amenity space, up to 96,000 GSF of office and up to 63,000 GSF of institutional use, including on-site childcare facilities. The Project would also feature 6 acres of new privately maintained publicly accessible open spaces, enhanced connectivity throughout the site and to Rolph Nicol Jr. Playground via new bicycle and pedestrian facilities and a redesigned street network.

The Project would also require establishing a Special Use District (“SUD”), Special Sign District (“SSD”), the adoption of a Design Standards and Guidelines (“DSG”) document to facilitate implementation, and a Development Agreement (“DA”) between the Project Sponsor and the City and County of San Francisco.

Planning Commission Recommendation: Approval with Modifications

Dear Ms. Calvillo, Mayor Breed and Supervisor Melgar

On May 9, 2024 the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Planning Code and Map Amendment Ordinance and the Development Agreement Ordinance introduced by Mayor Breed and Supervisor Melgar (Board File Nos. 240409 and 240410, respectively), as well as the proposed General Plan Amendment Ordinance for the Stonestown Mixed Use Development. This submittal packet includes the official transmittal of Planning Commission’s actions on these ordinances. At the hearing the Planning Commission recommended approval with modifications.

The Commission’s proposed modifications were as follows:

- General Plan Amendment Resolution (Page 5)
 - Add The Project will include new 7,500 sq ft childcare facility (or two 4,000 sq ft facilities) with space for 100 children and a new 7,000 sq/ senior center.
- Planning Code Amendment Resolution (page 3)
 - And be it further resolved that the Planning Commission finds these Planning Code Amendments are in general conformity with the General Plan.
- Shadow Motion (Page 4 under findings)
 - The additional shadow cast by the Project on Rolph Nicol Jr. Playground would not be adverse and is not expected to interfere with the use of Rolph Nicol Jr. Playground As described in the EIR and Shadow Study, most of the net new shadow from the Project would be present during early morning hours, the new shadow would not preclude the enjoyment of the children’s playground or nature play area. Net new shadow on the grassy meadow of the park would be

most noticeable in the winter and it would not receive any new shadow the summer. In the winter, most of the grassy meadow would receive sunlight between 11am and 3pm when observed use of such area peaked. As such, enjoyment of the large grassy meadow would not be encumbered by new shadow from the proposed project of variant.

- o The project would also include improvements to Rolph Nicol Jr. Playground that would connect the park with the adjacent open space, as detailed in the Development Agreement.
- o The additional shadow cast by the Project on Junipero Serra Playground would not be adverse and is not expected to interfere with the use of Junipero Serra Playground. Net new shadow would only occur during the late afternoon in late spring and early summer and would fall on areas of the park that are used for active or pass through activities. The new shadow on this open space would not substantially or adversely affect the use and enjoyment of this park considering it would occur at the end of the day at a time when park users would expect less sunlight and would not affect the areas of the park that are most sensitive to sunlight.

CEQA clearance under the Stonestown Development Project Final Environmental Impact Report (Case No. 2021-012028ENV) certified by the San Francisco Planning Commission on May 9, 2024 (Motion 21559).

Mayor and Supervisor, please advise the City Attorney at your earliest convenience if you wish to incorporate the changes recommended by the Commission.

Please find attached documents relating to the actions of the Commission. Please note that the Board has 90 days to act on General Plan Amendments once they have been received by the Clerk of the Board.

LOCAL UNION NO. 22

July 3, 2024

Honorable Myrna Melgar
Chair, Land Use and Transportation Committee
San Francisco Board of Supervisors
1 Dr. B. Carlton Goodlett Place

Sent via email to: john.carroll@sfgov.org; brent.jalipa@sfgov.org

RE: Support of Stonestown Development Project

Dear Chair Melgar and members of the San Francisco Land Use & Transportation Committee:

The members of Nor Cal Carpenters Local Union 22 in San Francisco and surrounding Bay Area strongly support the proposed Stonestown Development Project. Carpenters Local Union 22 was initially chartered in 1882 and has been an integral part of San Francisco culture, community, and the construction of this beautiful city for over a century. The Stonestown Development Project will create severely needed Union construction jobs that pay living wages and benefits and provide opportunity for local apprentices, including women and minorities, to begin or continue their career in the construction industry. Moving this project forward will allow the proposed development to sustain these benefits to the community, the city and labor.

San Francisco has become increasingly unaffordable to newcomers and long-time residents alike through a long-term trend of creating insufficient quantities of housing. The Stonestown Development Project proposes 3,500 desperately needed residential units which will significantly increase the housing supply in San Francisco. This particular development has the unique potential to build significant housing for San Francisco and create opportunity for construction workers to advance their career in the industry. Projects like Stonestown often involve a variety of construction techniques ranging from framing and structural work to fine finishing and cabinetry. This diversity allows carpenters to work on different aspects of construction, helping them to hone existing skills and learn new techniques. The complexity and scale of a project like Stonestown can also provide opportunities for Carpenters to specialize further, whether in traditional woodcraft or in newer, sustainable building practices.

Right now, we are emerging from a global pandemic and a significant downturn in the economy. Construction is the second largest industry in the world, behind healthcare. It is important that we support developments like the Stonestown Development Project that in turn supports labor and the community. Nor Cal Carpenters Local Union 22 is excited about the future of Stonestown, which has the potential to exist as a vibrant San Francisco community and we ask that the Board to support the development as well. Thank you for your time and service in moving this project forward.

Sincerely,

Sean McGarry
Senior Field Representative
Carpenters Local Union 22

Please note to the SFBOS land use that since 2007/2008 we have strongly pushed for westside transit changes due to multiple large scale developments.

Parkmerced

Stonestown

800 brotherhood way

SFSU-csu

Sloat Garden Center tower

Irish cultural center

Daly City large scale housing plans at John Daly Sunset density planning on sunset Blvd Sloat Blvd and Lakeshore Mall Religious institutional Growth proposals Holloway and other sites balboa Park Reservoir

And many more projects in D7 D10 D11 which form an east to west swing of transit lacking improvements and increased congestion near and in ocean ave Holloway and 19th to the freeways.....

Without any serious plans or push to move the horse in front of the cart transit wise we are stuck continually in project by project approvals with no meat (where's the transit?) in the solutions.

Peter Albert prior SFMTA (design head) once proposed a westside transit central planning effort and Wiener suggested a westside subway. Post the 19th ave transit study by Sean Elsbernd that had no teeth to force agencies to plan and prepare documents to get the future west side systems in the federal funding que nothing has occurred!

This is pure transit negligence when cars back up safety is compromised and intersections become crossing death zones for pedestrians.

Please note we are supportive of the Stonestown project but have serious concerns based on the lacking transit solutions and options to rehab the Stonestown Theater as a community center as a viable solution and living room to the community and housing proposed. A retro space ties things together (we submitted comments on a preservation based alternative for the Theater's front lobby area as did Katherin Moore S.F. Planning Commissioner) and transit alternatives for SFSU Masterplan and Parkmerced vision and the Stonestown plans looping the L Taraval up Sloat to the westside of Stonestown SFSU and Parkmerced on down to Daly City or looping back up to West Portal is a serious solution to dead ended trains and lacking connectivity between districts.

I'm out of town today so cannot attend the meeting but please note the serious issues of proper and adequate transit planning on the west side of SF. As former chair of the Balboa Park Area Plan CAC we stated the need to get serious on linking districts and areas with LRV or alt new modes of mass transit including trackless trains or shuttle systems. It's needed and far overdue when you go to any Daly City mall it's not transit accessible and poorly designed for pedestrians. Don't make the same mistake with Stonestown as the M is already over capacity. 40+ min downtown is unacceptable and the lack of two side exits on platforms at Stonestown and Parkmerced ignore any future planning solutions for westside transit.
