

**REVISED LEGISLATIVE DIGEST**

(4/28/2022, Amended in Board)

[Park Code - Golden Gate Park Access and Safety Program - Slow Street Road Closures]

**Ordinance amending the Park Code to adopt the Golden Gate Park Access and Safety Program, which includes restricting private vehicles on certain slow street segments in Golden Gate Park including on JFK Drive, making certain street segments one-way, establishing bicycle lanes, and urging additional changes to improve public access to Golden Gate Park; making associated findings under the California Vehicle Code; requiring ongoing reports regarding the Golden Gate Park Access and Safety Program; affirming the Planning Department's determination under the California Environmental Quality Act; and making findings of consistency with the General Plan and the eight priority policies of Planning Code, Section 101.1.**

Existing Law

The City has historically closed portions of JFK Drive between Kezar Drive and Transverse Drive in Golden Gate Park, along with portions of the adjacent roads that connect to those portions of JFK Drive, to private vehicle traffic on Sundays and holidays. In 2006, the City adopted disability access standards for the closures, such as more accessible parking spaces and an intra-park shuttle. In 2007, the City extended the closures to Saturdays. In 2020, due to the COVID-19 emergency, the Recreation and Park Department temporarily closed the streets to private vehicle traffic seven days a week, until the end of the City's state of emergency. The temporary closure is still in effect.

Amendments to Current Law

The ordinance would adopt the Golden Gate Park Access and Safety Program, a series of proposals and policy initiatives intended to improve traffic safety and access to and within Golden Gate Park.

The primary change is to authorize a permanent closure to private vehicle traffic of the following streets: JFK Drive, between Kezar Drive and Transverse Drive; Conservatory Drive East, between Arguello Boulevard to JFK Drive; Pompeii Circle, entire length of street; Conservatory Drive West, between JFK Drive and 500' northeast of JFK Drive; 8th Avenue, between Fulton Street and JFK Drive; Music Concourse Drive, between JFK Drive and Bowl Drive; Hagiwara Tea Garden Drive, between JFK Drive and Bowl Drive; Stow Lake Drive, between JFK Drive and Stow Lake Drive East; Middle Drive West, between Overlook Drive and a gate 200 feet west of Overlook Drive; Middle Drive West, between Metson Road and a gate 675 feet east of Metson Road; Bernice Rodgers Way, between JFK Drive and MLK Drive; and MLK Drive, between Lincoln Way and Chain of Lakes Road.

The ordinance would also authorize the conversion of MLK Drive from Chain of Lakes Drive to Sunset Boulevard from two-way traffic to one-way traffic in the eastbound direction; and of Middle Drive West from Metson Road to MLK Drive from two-way traffic to one-way traffic in the westbound direction.

The ordinance would also establish a protected two-way bicycle lane (Class IV) on the east side of Transverse Drive from JFK Drive to Overlook Drive, and a one-way westbound bicycle lane (Class II) on the north side of MLK Drive between Middle Drive and Sunset Boulevard.

A map depicting the streets in Golden Gate Park that are being closed to private vehicle traffic or converted to one-way traffic is on file with the Clerk of the Board of Supervisors.

The ordinance also directs the Recreation and Department to implement a plan to ensure adequate shuttle service, paratransit van service, accessible parking spots, traffic safety, unencumbered delivery access to the DeYoung Museum loading dock, and bicycle connectivity. The ordinance also directs the Recreation and Park Department to work with the San Francisco Municipal Transportation Agency, the Music Concourse Community Partnership, the DeYoung Museum, the California Academy, and other interested parties to improve the usage of and access to the Golden Gate Park Concourse Garage.

Also, the ordinance urges the Recreation and Park Department and San Francisco Municipal Transportation Agency to prepare quarterly and annual reports until 2033 regarding the Program's impact on the usage of the Music Concourse and the implementation status of the implementation status of the policy initiatives included in the Golden Gate Park Access and Safety Program. The reports will include information about visitation to the Academy of Sciences, de Young Museum, and Gardens of Golden Gate Park; visitation to the park including with respect to access for equity priority communities, feedback from the disability community, a summary of traffic safety and collisions; and data and analysis on usage of the Music Concourse Garage.

### Background

This version of the legislative digest reflects amendments introduced on April 26, 2022, to make non-substantive corrections to the ordinance, and to require the Recreation and Park Department and San Francisco Municipal Transportation Agency to regularly report to the Board of Supervisors.
