#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Wednesday, June 10, 2020 1:03:00 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Friday, June 12, 2020 12:01:22 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Erica Major,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: OPPOSE-Proposed COVID-19 Tenant Protection Ordinance File No. 200375
Date: Monday, June 8, 2020 7:34:20 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Mayor Breed, District Supervisor Gordon Mar and All Board of Supervisors:

I am writing to you today in Opposition to the recent proposed "COVID-19 Tenant Protection" Ordinance File 200375.

I am a widow raising 3 dedicated students, working full time and barely surviving with supplemental rent income to support our children, living in Sunset District where I feel home. I am in my late 50's, single income is not sufficient to support my family. Our families were immigrants who worked extremely hard to Achieve American Dream raising our children to achieve their goals.

San Francisco does not have the legal authority to permanently deprive landlords of their unlawful detainer rights and will ultimately harm both landlords and tenants. This proposal will bring down City of San Francisco Residents to poverty and impossible for small property owners like myself to recoup unpaid rent and places the financial burden of COVID-19 on small Mom and Pop property owners who have fixed mortgages, ever rising property taxes, insurance, utility bills and cost of maintenance expenses. This proposal will financially impact to ALL San Francisco residents and ALL property owners. We can not allow tenants to live rent free and therefore we will not be able to pay property taxes if that happens. Who is going to bail us out if we are in financial trouble. We create essential jobs like constructions, Janitorial jobs and maintenance jobs throughout the city. If you take away our barely supplemental income, it will also be HUGE effect to the City of San Francisco and we can not afford to.

I STRONGLY OPPOSE to Ordinance file 200375 as it is illegal and void. The Board of Supervisors cannot and should not prohibit housing providers who have been financially impacted by COVID from using California state law to enforce our rights. San Francisco is very special place and please DO NOT turn the city to poverty.

We, small property owners already in Financial Hardship due to high property taxes, insurances and all other expenses to maintain. We all are barely breathing.

Sincerely,
Wu

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 7:35:36 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Lastly, this ordinance is disproportionately harmful to Asian/Chinese American property owners, who make up 40 percent of property ownership in San Francisco, according to the American Housing Survey. The survey also states that 48 percent of Asians in San Francisco own their homes, higher than overall homeownership rates of 38 percent. For more information, please click:

During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 8:45:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Dear SF Board of Supervisors,

As I was unable to voice my opinion at the 6/8/20 hearing, I would like to express it through this message. I am a tenant, yet even I oppose this ordinance.

I have lived for four years (and counting) under the same homeowners, and as I got to know them, I understand the situation they are going through and sympathize with them. They are a couple who is getting on age: one had recently retired and one due to her age and gender could not get a job again. Collecting rent is their only source of income to pay for daily necessities that all human beings, property owners included, need. In addition, this is their only source of income to pay for the house in which they reside and in which one of the rooms is rented out to me. Homeowners are not greedy, money-grubbing monsters that some tenants make out to be. These tenants do not realize they only have to pay a fraction of what homeowners must pay for home insurance, mortgage, land tax, and other bills and fees tied to the property each and every month. If the tenants do not pay, then how will property owners like this couple pay for the house? When that happens, both the property owners and the tenants won't be able to stay in the house any longer. So, in the end, tenants will still be evicted; it was just a matter of time. If you really care about the tenants in the long run, you would not pass this ordinance. Tenants may not see this, but you should be able to see farther into the future and consider the position of the other half of your constituents (the property owners) instead merely pleasing the tenants in the short term.

Pandemics are nothing new, so are layoffs, but most people think those things will not happen to them or affect them in any way, until they do. Tenants should know this. So why aren't they saving up money when they did have their jobs? Just as it is homeowners' responsibility to provide a livable space for tenants, it is the tenants' responsibility to pay for this service the homeowners provided. I am fortunate to still have a job, and despite my low salary, I have been able to save up quite a sizable amount of money in case I do lose my job, because that is what a responsible, sensible person does. If I could do it, other tenants in my salary range or working one or two more jobs than me should be able to save up for situations like this. The government is not putting responsibility on the tenants, but on the homeowners who didn't cause the pandemic or lay off the tenants in the first place. If anything, it is extraordinary times like these when the government should be stepping up to help all its voters, homeowners and tenants alike, and taking the responsibility, not the homeowners, because this pandemic

affects homeowners as well. The government by and for the people should be taking the responsibility to solve the financial problems of all its citizens, homeowners and tenants alike, not forcing the homeowners to take the responsibility in its place.

Thank you.

Sincerely,

A tenant who sees homeowners as fellow human beings and is grateful for their service.

Subject: Oppose Supervisor Preston's Ordinance #200375
Date: Monday, June 8, 2020 9:01:07 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Board of Supervisors,

I think the ordinance #200375 is unreasonable and encourages tenants who don't want to pay their rent. Now many businesses are reopened. They should back to work, and should pay back their rent in a planned manner.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Hi:

We oppose Ordinance #: 200375

My family owns a building on Lower Nob Hill. This building provides a major source of our income.

We can NOT afford to have tenants live rent free whilst we are obligated to pay our mortgage, property taxes, maintenance and repairs as well as utility fees for power, sewer, water & garbage.

Their mothers may have carried them for nine months, but we can't..... supporting non-paying tenants will drive us into bankruptcy.

- The city does not have legal authority under the Governor's order to permanently restrict a landlord's ability to recover rent due.
- This proposal will make it nearly impossible for small property owners to recoup unpaid rent and places the financial burden of COVID-19 on small mom and pop property owners who have fixed mortgages, property taxes, employees, and maintenance expenses.
- This proposal, along with the closure of the court system, would allow tenants to live rent free from March 2020 to potentially September and beyond-- and landlords would have no legal recourse to recoup unpaid rent.

The Board of Supervisors cannot and should not prohibit housing providers who have been financially impacted by COVID from using California state law to enforce our rights.

Small owners are particularly hard hit by renters who cannot pay. If even one renter in a 40 unit building can't pay, the owner is also experiencing a financial hardship.

Sincerely,

Suze Peters

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am writing to voice my strong support for Supervisor Preston's Eviction Protection Ordinance, File No. 200375. Even before COVID-19, renters in San Francisco were struggling to make ends meet. With so many people now out of work, and with no ability to make income in the foreseeable future, I am terrified of what will happen to tenants after the state of emergency expires, and months of back rent become due. Supervisor Preston's ordinance would stop landlords from evicting tenants who can't pay because of COVID-19 related income loss. It doesn't stop landlords from getting what they may be owed, it just takes eviction off the table. This is the most important step San Francisco can take to stop mass displacement after the state of emergency.

I am urging you to join the following organizations and support this important legislation: San Francisco Tenants Union Housing Rights Committee Affordable Housing Alliance Chinatown Community Development Center SEIU 1021 SEIU 2015 SEIU USWW UNITE Here! First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

Hi:

We oppose Ordinance #: 200375

My family owns a building on Lower Nob Hill. This building provides a major source of our income.

We can NOT afford to have tenants live rent free whilst we are obligated to pay our mortgage, property taxes, maintenance and repairs as well as utility fees for power, sewer, water & garbage.

Their mothers may have carried them for nine months, but we can't..... supporting non-paying tenants will drive us into bankruptcy.

- The city does not have legal authority under the Governor's order to permanently restrict a landlord's ability to recover rent due.
- This proposal will make it nearly impossible for small property owners to recoup unpaid rent and places the financial burden of COVID-19 on small mom and pop property owners who have fixed mortgages, property taxes, employees, and maintenance expenses.
- This proposal, along with the closure of the court system, would allow tenants to live rent free from March 2020 to potentially September and beyond-- and landlords would have no legal recourse to recoup unpaid rent.

The Board of Supervisors cannot and should not prohibit housing providers who have been financially impacted by COVID from using California state law to enforce our rights.

Small owners are particularly hard hit by renters who cannot pay. If even one renter in a 40 unit building can't pay, the owner is also experiencing a financial hardship.

Sincerely,

Suze Peters

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Subject: Please don't vote for "No eviction "
Date: Tuesday, June 9, 2020 7:42:44 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello Supervisors of San Francisco,
Please do NOT vote for " no eviction ."

I just heard from Reino that one of our tenants specifically [108 Caselli](#) told him that they will NOT work because of Covid and the City of San Francisco allowed them not to work and not to pay rent.

While I, a co-owner of the property is truly a disabled person yet works!!!!!!
Can you please see the inequalities? Can you please see the irony?

You are giving this physically able Caucasian man and his roommate who is also physically able a " comfortable living " and socially active. You are giving them an excuse not to work and not to pay rent!

This is racist law!!

I'm Asian and I'm truly disabled and I WORK while because of the San Francisco law— this Caucasian man and black man are living "FREE" and refuse to work thereby have an excuse not to pay rent.

The tenants are supposed to pay only \$1800 in a 2 bedroom flat in Eureka Valley district. The rent in this neighborhood is from \$2000 to \$3000++ for a 2 bedroom flat yet our tenant who did not have any raise of rent since 2005– they (our tenant)are only charge 1,800 a month. We are NOT sharks!

Please do not abuse us by giving absurd laws to tenants who do not want to work and live "free". This "no eviction " is a racist law and it is not acceptable. It is not even taken into effect Nationwide!

Please make this rental law equal. Please do not vote for " no eviction " Do you want to protect Physically able tenants who don't want to work?

How long can the government feed them for not working even though they can work?

Please make this rental law unbiased and racially equal.

Thank you,
Eden Niemela

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Why would you pass this without passing a companion law to help landlords who rely on the incoming rent to pay the mortgage and other necessary expenses?

You should have also worked down the chain of consequences to be sure to not help one set of people at the expense of another set. You are creating a whole set of problems without immediately addressing how this will impact the people you rely on to pay property taxes. If you give free reign to renters to not pay rent, you are destroying the livelihood of thousands of law abiding landlords because given the choice of paying rent or not, most people would rather not pay.

You need to also pass a law that will allow property tax payments, rental house insurance, and mortgage payments to be deferred the same way without penalties for just as long as this law says for covid19 evictions. You are creating a lot of hardship for landlords.

I can't express enough my dismay at the callous way you just pass a law without working out all the consequences and pass concurrent laws as to not create more problems by fixing one problem.

You are mismanaging this city and creating a hostile environment for those of us who have lived here our whole lives. This city needs common sense management and you are passing individual laws that just don't make sense. You don't solve problems by sticking a bandaid on a problem, on top of another bandaid, and so on. You pander new laws to make it look like you're solving problems to avoid resolving the primary issue. I suggest a swift solution soon to help landlords of this city.

In all the years I've lived on this earth, I have watched my city deteriorate in so many ways that I don't even want to live here anymore. And it's not because of the high rent or the high cost of living. Its the increasingly poor way this city is being run.

As time and time again ever year of my adult life, I sincerely hope you make laws that has some common sense to it so native San Franciscans will want to stay in the city they helped build up to be one of the best in the country. Not one that will become the butt of jokes and disdain by the rest of the country.

Thank for your time.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been negatively affected by the pandemic while striving to provide quality housing for myself, my family and my renters.

Angela Calvillo,

Thank you for your work as San Francisco Supervisor during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.

Board of Supervisors,

Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Thank you for your work during this pandemic on behalf of your constituents. During this unprecedented crisis, housing providers as well as tenants are facing tremendous economic pressures. Because of these, we strongly oppose Supervisor Preston's Ordinance #200375 "COVID-19 Tenant Protections" on a number of legal and ethical grounds.

First, #200375 is unconstitutional. It forces courts to interfere with existing private contracts in violation of both the California and U.S. Constitutions. Not even a pandemic should undermine these basic fundamentals that govern our state and country.

Across the board rent forgiveness/permanent eviction moratorium due to COVID-19 could cause many property owners, particularly small "mom-and-pops," to go bankrupt, causing a significant reduction in the amount of available housing inventory in San Francisco and worsening an already bad housing crisis. Many owners are retired and/or barely getting by each month: they have expenses that are not magically going away or being reduced, such as mortgages, property tax, insurance, maintenance costs, etc. This ordinance potentially wipes out all COVID-19 related rent for tenants at the expense of San Francisco housing providers, who are experiencing just as much distress as renters, if not more; many property owners have also lost their jobs. With Mayor Breed's and Governor Newsom's moratoriums forcing housing providers to work out forbearance agreements with renters, the combined effect of this and #200375 will push many housing providers deeper underwater, causing many to drown, financially. Many have spent their entire lives working and saving for their property and could now find themselves in financial ruin by not being able to collect rental income for most of 2020. This loss during their golden years will cause many to be unable to sustain basic needs such as food, medical expenses and, ironically, a roof over their heads.

#200375 encourages tenants without financial distress to decide to stop paying rent just to take advantage of the situation. With multiple government orders in place to stop evictions, nothing can happen to them, even if an unlawful detainer is filed. The devastating combination of reduced rental income combined with steady but most likely increased ownership expenses down the road will cause foreclosures and property owner bankruptcies to skyrocket.

Housing providers are not responsible for this pandemic. Even though we are sympathetic, we are also negatively affected, and, in many cases, barely hanging on as is. We are not all wealthy and many are not strong enough financially to not have any rental income for most of this year; many of us are small "mom and pops" providers who are unable to carry this

financial burden. The City should take responsibility for this and follow Los Angeles' lead with their \$100M renter relief fund for those facing difficulties paying rent due to COVID-19.

I respectfully and very strongly request that you VOTE NO ON #200375. Please consider the effects on us as well. The ordinance mentions that "tenants may find themselves in an ever-deepening financial hole." What about housing providers?

Thank you.

Sincerely,

A hardworking housing provider who has been hit hard by the pandemic while striving to provide quality housing for myself, my family and my renters.
