6. Methodology:

Opioid (Narcotic) Treatment Program Services

Westside Methadone Maintenance will provide Buprenorphine and Methadone treatment through our Opioid Treatment Program. In addition to the general Opioid (Narcotic) Treatment Program (OTP) services requirements; the Contractor shall comply with the following specific opioid (narcotic) treatment program services requirements:

1) Opioid (Narcotic) Treatment Program services shall include daily or several times weekly opioid agonist medication and counseling available for those with severe opioid disorder.

2) Service Components:

a) **Intake** - Admission criteria for clients is regulated by Title 9, which specifies that the client be at least 18 years of age, and has proof of addiction at the time of admission. To qualify for methadone maintenance, a person must meet the following minimum criteria: documentation of a 2 year history of opiate addiction, or, documentation of 2 prior attempts at detoxification using methadone; currently be addicted to opiate(s); and, Provide a legal, picture identification and Medi-Cal card if currently eligible for Medi-Cal services. Clients complete initial intake paperwork with the intake counselor followed by a physical examination by the physician. Before admitting a prospective client to methadone maintenance or supervised withdrawal services, the program physician conducts a physical health assessment including a medical history and physical examination. This assessment includes: Physical dependence and addiction to opiate(s); Symptoms of addiction; Complications caused by addiction; Family history of chronic or acute medical conditions Tuberculosis screening; Syphilis screening; Opt Out HIV screening; Urine drug screening; and, additional diagnostic testing can be conducted by referral if needed. WMTP follows regulations in the California Code of Regulations, Title 9, regarding multiple registrations.

Contract Term: 07/01/22 through 06/30/23

Once eligibility has been determined through the initial assessments, and the intake is complete, the client is assigned a permanent counselor. A comprehensive psychosocial assessment is completed for both maintenance and supervised withdrawal (detoxification) clients. Prior to developing a client's initial treatment plan; the assigned counselor will complete the Psychosocial Assessment with the client within the first 28 days of admission per Title 9. Following the completion of the psychosocial assessment form, the counselor writes an assessment summary in the client's chart that identifies priorities for the client's initial treatment plan.

b) Individual and Group Counseling – As a Joint Commission accredited Opioid Treatment Program, our practices follow the highest standard of programming based on the guidelines set by the American Society of Addiction Medicine (ASAM), the Centers for Medicare and Medicaid Services and the Substance Abuse and Mental Health Services Administration (SAMHSA). Care, treatment and services are provided through a coordination of clinicians. The program provides comprehensive treatment requiring observed dosing, random urine drug testing and participation in counseling. Consistent counseling and linkages with licensed clinical therapists support the lifestyle changes necessary to progress in recovery.

c) Patient Education – Clients are referred from the SFDPH Centralized Opiate Program Evaluation (COPE) unit, the Treatment Access Program, Project Homeless Connect, other providers, or self-referral. Criteria for admission are mandated by Title 9. Clients must be at least 18 years of age and must provide proof of addiction at the time of admission. Within the Westside System of Care we have psychiatric, HIV/AIDS and psychosocial support within our own wellness and recovery system. This approach facilitates patient engagement and improves outcomes while using resources more efficiently. Strategies include providing a place where individuals who are not in crisis to come and feel safe; crisis access for individuals requiring immediate services; outreach targeting individuals in great need (e.g., the homeless) who are not already seeking services or cannot access ordinary routing or crisis services, and local board and care hospitals to engage persons preparing for step-down care and access that is involuntary or mandated by the criminal justice system. Clients are also referred internally by other programs, from external sources such as other community providers, or by probation/parole and other criminal justice system agencies such as the Courts/Sheriff's Department. This approach incorporates SAMHSA's "No Wrong Door" policy by meeting clients where they are and providing individual assessment and to support clients at every stage of recovery and retain them until their treatment goals are achieved.

d) Medication Services - The Medical Director prescribes monitors, adjusts and manage methadone dosing. The clients' initial dose is determined and then titrated upwards in a "start-low, go-slow" manner. This is done as some research has suggested that there is an increased risk of methadone toxicity in the beginning of treatment. These cases were largely as a result of the initial dose being increased too quickly. After admission the doses are determined by the client's individual preference and opiate withdrawal symptoms. The ultimate stable dose of the client is determined by all of the following factors: illicit opiate use, client preference, and patient safety. In general most clients require around 80mg daily; however this number is different for every client. There is no scientific basis for artificial dose level ceilings as the

physiology of every client is different. The ultimate goal at Westside is for the clients to become drug/alcohol free and to lead productive lives.

e) **Collateral Services** - While the medication is the cornerstone of therapy the value of psychosocial counseling and treatment cannot be understated. Studies have demonstrated that the best results are obtained when methadone is integrated with other medical, social, and psychiatric services. The counselor and the physician review these factors with each client to determine what services are appropriate for the client Maxine Hall Health Center, a city primary care clinic, shares the building with our program. This is very advantageous for our clients as it provides them with an easy avenue to obtain general medical care.

WMTP incorporates case-management as a client-centered intervention to improve the coordination and continuity of services for our clients that have complex needs. Case Management is incorporated into treatment through both individual case-management (ICM) and team-based case-management (TBCM).

WMTP utilizes a holistic approach to treatment, acknowledging that in order to successfully treat substance abuse, a variety of other issues such as housing, medical, legal, financial and vocational issues must be addressed. The intended outcome of the program is for participants to lead a lifestyle free of alcohol and drug use/abuse. WMTP provides intensive case management utilizing a psycho-educational process and skill building techniques in addition to group and individual counseling/case management sessions.

Utilizing case management as the cornerstone of treatment, counselors begin with the client "where the client is", responding to such tangible needs as food, shelter, clothing, transportation and medical care. This client-centered perspective is maintained as the client moves through treatment. Case management requires that the counselor apply his/her understanding of the natural course of addiction and recovery to foresee a problem, to understand the options available to manage it, and to take appropriate action. In some instances, the counselor may intervene directly; in others, the counselor will take action to ensure that another staff member on the treatment team intervenes as needed.

Staff members act as a treatment team, utilizing each discipline to provide quality care to clients. At monthly staff meetings counselors present clients that pose a challenge where the team approach to problem solving is advantageous. Also, counseling staff present clients who are or have met their treatment plan goals, emphasizing what approaches were most useful in assisting the client, so that all staff may learn and apply these successful approaches.

The treatment team monitors client progress in treatment by reviewing drug use, discussing with the client steps for remaining abstinent, and checking to see whether referrals are needed. Illicit substance use, indicated by either self-report or positive urine results, is also addressed in case management.

f) **Crisis Intervention Services**- Staff in the program conduct risk assessments that identifies specific characteristics of the clients served and environmental features that may increase or decrease the risk for suicide. Westside Methadone Program is also a part of Westside's overall integrated system of services which includes the Crisis Clinic to whom referrals can be

made. The Crisis clinic is an integral part of the CBHS safety net in providing residents of San Francisco timely and responsive crisis and urgent care services. The program accepts clients who require urgent interim or stabilization medications prior to beginning services at an outpatient system of care clinic designed to prevent unnecessary hospitalization.

g) Treatment Planning- Our program emphasizes person-focused care, integrated and individualized approaches to OTP services and outcomes, increased patient-satisfaction, improved recruitment of staff, and enhanced community confidence and outcomes. WCS uses the ASAM Criteria of Care to guide how it approaches and implements Opioid Treatment Services. Our approach considers the whole person, designs treatment plans for each specific patient, uses individualized treatment times, acknowledges that "failure" is not a treatment prerequisite, but provides a spectrum of services or a continuum of care, and re-conceptualizes the definition of addiction and how it plays out in people and communities.

h) Medical Psychotherapy - one-on-one counseling conducted by the Medical Director with the beneficiary- The Medical Director and substance abuse counseling staff is available on-site every day for consultation and coordination. The Medical Director, substance abuse counselors, psychotherapists and nurses have direct contact with patients. The Medical Director leads the treatment team and has case conferences to ensure that treatment is coordinated and reinforced.

i) Discharge Services - Research has shown methadone medication to be effective for long-term treatment. Therefore clients are encouraged to remain in treatment to reinforce stabilization and prevent relapse. Clients wishing to leave the program against medical advice have a right to do so; staff is to explain the risks of such a decision and the program physician determines a methadone withdrawal schedule with client input. Both voluntary and administratively terminating clients receive a medically monitored withdrawal from methadone. Based on the client's medication taper/withdrawal, the last day of medication is known by the client with the staff able to provide the client with support throughout the withdrawal process. The program medical director/physician adjusts the medication dose as needed or requested by the client. Only by client request, will a "blind taper" be ordered by the physician, to support the client's choice in reducing their medication without knowing the specific daily amount.

Clients are not discharged until after a 2 week (14 days) period has passed. Once it has been determined that a client is to be discharged from the clinic the medical staff generate a final dosing sheet; the counseling staff will generate a discharge summary and a closing episode that signifies a complete record has been produced for the client.

A review of the client's progress in treatment by client and counselor provides a perspective on goals met by the client during methadone treatment and helps identify areas for referral or further care. The Discharge Summary form is completed by the counselor and placed in the client's chart.

8. Continuous Quality Improvement (CQI):

Westside has been committed to improving cultural and linguistic competency in the business functions that support outcome-based planning and accountability. Westside adheres to the culturally and Linguistically Appropriate Services (CLAS) standards developed by the Office of Minority Health, U.S. Department of Health and Human Services, as a guide for developing a Cultural Competent Quality Improvement Plan to support CQI in our service delivery system.

Westside's CQI structure is designed to provide a consistent process for improving the care provided, improve satisfaction of our clients, compare performance against benchmarks, reduce inefficiencies, effect change harmoniously, and conserve resources. Quality Assurance and Improvement activity crosses all departments and services in order to respond to the needs of the client, staff, and community. Included in this system is the management of information which includes client specific, aggregate, and comparative data. In order to conserve resources, Quality Assurance and Quality Improvement focus on high risk, high volume, problem prone, and regulatory required issues. Both outcomes and processes are included in the overall approach.

- a. **Achievement of contract performance objectives and productivity-** The committee provides direction for planning, strategy development, monitoring, educating and promoting the acquisition and application of the knowledge necessary for improvement of quality. This includes guidance to any special teams or task forces chosen to address specific opportunity for improvement through the use of Continuous Quality Improvement

philosophies and strategies. Westside employs a systematic approach for improving the organization's performance by improving existing processes. Westside utilizes the Plan Do Check Act approach to problem solving. This system is used as a guide for many of our performance improvement activities.

Outcomes measured are different for each program, but in general include: decrease in symptoms, improvement in functional status, quality of life satisfaction, welfare and safety outcomes (suicide, suicide attempts, criminal justice involvement, victimization, homelessness). Compliance measures are tied in to performance evaluation with oversight by the QI committee and Leadership.

Westside Community Services strives to fulfill its mission to the clients, staff, and community. The organization's leaders, managers, clinical support staff, clinical staff, medical staff, and nursing staff are committed to plan, design, and measure, assess, and improve performance and processes as part of the approach to fulfill the mission. Through Quality Improvement activities in conjunction with regular communications with the CEO, the governing body is provided with information it needs in fulfilling the Agency's mission and responsibility for the quality of client care.

- b. **Quality of documentation, including a description of the frequency and scope of internal chart audits-** The Committee meets monthly unless it is identified that an additional meeting is necessary. The proponents of our QI activities include: Weekly program staff meetings, clinical case conferences within the program, difficult case conferences and consultation, group supervision, regular discussions/updates in evidence-based practices, staff trainings and continuing education, critical incident review and debriefing, PURQC- utilization review, monthly peer review, regular chart reviews, quarterly audits conducted by the committee, and use of practice guidelines. Managers/Coordinators regularly report to CCO or Division Director regarding supervision, individual and program performance issues, critical incidents, grievances, client feedback and quarterly peer review findings.
- c. **Cultural competency of staff and services-** Cultural competence of the communities it serves is central to Westside's treatment philosophy. Through cultural knowledge and awareness, Westside is able to develop and deliver effective treatment that is tailored to meet the needs of the individual and his/her family. The therapeutic strategies employed in treatment are strengths-based and focus on harm reduction as a positive path towards recovery. Clients are involved in every aspect of their treatment, which is based on their own self-identified needs and goals, allowing them to define their own success. Westside embraces family-focused treatment and values the power of the family unit as a source of strength during treatment. The Westside staff works to empower clients and their families to work together towards their goals of recovery and helps to create a community support network to make successful treatment possible. At Westside we believe cultural diversity and competence is a process that occurs along a continuum and we are always striving to develop and deliver services that meet the need of our clients. Delivering culturally aware and competent services is an ongoing topic woven into clinical conversation and the therapeutic environment by discussing cultural issues in administrative supervision, adding

multicultural art to the environment and ongoing recruitment of employees that reflect the multicultural diversity found in the community we serve.

We continue to assess the cultural and linguistic training needs for the program staff using employee feedback received via staff meetings, employee surveys and consumer feedback. As we continue to monitor and update our strategic plan for the next five years we have begun to strategize on other assessment strategies to aid us determining our cultural and linguistic training needs.

Westside's philosophy is to provide training opportunities for employees to assure competent services. Employees are encouraged and/or required to attend relevant conferences, workshops, seminars and classes. Continuous trainings are held weekly, monthly, annually either within or outside of Westside where staff has the opportunity to increase their knowledge and skill set. Allowing for a more effective client-provider relationship in which staff is able to have a better understanding of the client's expectations and improve communication among each other. The staff have a clearer understanding on why the client does not follow instructions: for example, why the client takes a smaller dose of medicine than prescribed (because of a belief that Western medicine is "too strong"); or why the family, rather than the client, makes important decisions about the client's health care (because in the client's culture, major decisions are made by the family as a group).

- d. **Satisfaction with services-** Client participation in performance improvement is facilitated through the use of surveys and focus groups. In most programs, consumer surveys and or focus groups are conducted semi-annually.
- e. **Timely completion and use of outcome data, including CalOMS/ASAM-** A variety of analytical tools are utilized to evaluate the total care provided. Data sources include, but are not limited to: medical records, special studies, external reference databases, incident reports, statistics and historical patterns of performance, peer review, monitoring results, consumer satisfaction questionnaires, safety statistics, infection control data, referral sources, and cost analysis.

Westside uses a strength based approach to motivate clients. They are offered refreshments in our lobby and gift cards for medication compliance. Client no-show rates vary for many reasons including readiness for treatment, weather patterns, street drug availability, and economic factors. Research has shown that incentive programs can have an impact on treatment adherence and no-show rates. In July 2015 a protocol for the incentive program was developed. The decision was made to focus solely on dosing attendance for the initial phase of the incentive program. Client attendance was monitored on a monthly basis and clients were rewarded for their attendance at the beginning of the next month. No show data was collected each month and the effects of the program were analyzed against historical trends. A two tier system was outlined: Clients who missed none of their scheduled dosing days would receive a grocery voucher and clients who missed one to three scheduled dosing days would receive a grocery voucher of a lesser value. Clients would meet with their counselor for the first counseling session the following month. And receive feedback on their attendance record. Counselors

could use this opportunity to reinforce improvements and remind clients about the incentive program. No show patterns were analyzed various ways to determine the success of the program and which groups of clients were benefitting from the incentive program on a quarterly basis. The incentive program demonstrated that there is a positive correlation between medication compliance and incentive based services.

Any added access may be granted by the City to Agency and each Agency Data User through a Revision to Scope of Access in writing and executed by both parties. Any Revision to Scope of Access shall be considered a part of and incorporated into this Agreement, governed by all its terms, by reference.

1.2 Primary and Alternate Agency Site Administrator.

Before System(s) access is granted, Agency must appoint a primary and alternate Agency Site Administrator responsible for System(s) access tasks, including but not limited to the following:

1.2.1 Completing and obtaining City approval of the Account Provisioning Request documents and/or Data Set Request documents;

1.2.2 Communicating with the SFDPH IT Service Desk;

1.2.3 Providing Agency Data User(s) details to the City;

1.2.4 Ensuring that Agency Data User(s) complete required SFDPH trainings annually;

1.2.5 Ensuring that Agency Data User(s) understand and execute SFDPH's data access confidentiality agreement; and

1.2.6 Provisioning and deprovisioning Agency Data Users as detailed herein. To start the process, the Agency Site Administrator must contact the SFDPH IT Service Desk at 628-206-7378, dph.helpdesk@sfdph.org.

1.3 SFDPH IT Service Desk.

For new provisioning requests, only Agency Site Administrators are authorized to contact the SFDPH IT Service Desk. The City reserves the right to decline any call placed by other than the Agency Site Administrator. Individual Agency Data Users are not authorized to contact the SFDPH IT Service Desk.

1.4 Deprovisioning Schedule.

Agency, through the Agency Site Administrator, has sole responsibility to deprovision Agency Data Users from the System(s) as appropriate on an ongoing basis. Agency must immediately deprovision an Agency Data User upon any event ending that Data User's need to access the System(s), including job duty change and/or termination. Agency remains liable for the conduct of Agency Data Users until deprovisioned. When deprovisioning employees via the SFDPH IT Service Desk, Agency must maintain evidence that the SFDPH IT Service Desk was notified.

1.5 Active Directory.

Agency Data Users will need an SFDPH Active Directory account in order to access each System(s). These Active Directory Accounts will be created as part of the provisioning process.

1.6 Role Based Access.

Each Agency Data User's access to the System(s) will be role-based and access is limited to that necessary for treatment, payment, and health care operations. The City will assign Agency Data User roles upon provisioning and reserves the right to deny, revoke, limit, or modify Agency Data User's access acting in its sole discretion.

1.7 Training Requirements.

Before System(s) access is granted, and annually thereafter, each Agency Data User must complete SFDPH compliance, privacy, and security training. Agency must maintain written records evidencing such annual training for each Agency Data User and provide copies upon request to the City. For questions about how to complete SFDPH's compliance, privacy, and security training, contact Compliance.Privacy@sfdph.org, (855) 729-6040.

Before Agency Data User first access to System(s), system-specific training must be completed. For training information, Agency Site Administrator may contact the SFDPH IT Service Desk,

1.8 Agency Data User Confidentiality Agreement.

Before System(s) access is granted, as part of SFDPH's compliance, privacy, and security training, each Agency Data User must complete SFDPH's individual user confidentiality, data security and electronic signature agreement form. The agreement must be renewed annually.

1.9 Corrective Action.

Agency shall take corrective action, including but not limited to termination and/or suspension of any System(s) access by any Agency Data User who acts in violation of this Agreement and/or applicable regulatory requirements.

1.10 User ID and Password.

Each Agency Data User will be assigned or create a User ID and password. Agency and each Agency Data User shall protect the confidentiality of User IDs and passwords and shall not divulge them to any other person(s). Agency is responsible for the security of the User IDs and passwords issued to or created by Agency Data Users and is liable for any misuse.

1.11 Notification of Compromised Password.

In the event that a password assigned to or created by an Agency Data User is compromised or disclosed to a person other than the Agency Data User, Agency shall upon learning of the compromised password immediately notify the City, at Compliance.Privacy@sfdph.org, (855) 729-6040. Agency is liable for any such misuse. Agency's failure to monitor each Agency Data User's ID and/or password use shall provide grounds for the City to terminate and/or limit Agency's System(s) access.

1.12 Multi Factor Authentication.

Agency and each Agency Data User must use multi-factor authentication as directed by the City to access the System(s).

1.13 Qualified Personnel.

Agency shall allow only qualified personnel under Agency's direct supervision to act as Agency Data Users with access to the System(s).

1.14 Workstation/Laptop encryption.

All workstations and laptops that process and/or store City Data must be encrypted using a current industry standard algorithm. The encryption solution must be full disk unless approved by the SFDPH Information Security Office.

1.15 Server Security.

Servers containing unencrypted City Data must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.

1.16 Removable media devices.

All electronic files that contain City Data must be encrypted using a current industry standard algorithm when stored on any removable media or portable device (i.e. USB thumb drives, CD/DVD, smart devices tapes etc.).

1.17 Antivirus software.

All workstations, laptops and other systems that process and/or store City Data must install and actively use a comprehensive anti-virus software solution with automatic updates scheduled at least daily.

1.18 Patch Management.

All workstations, laptops and other systems that process and/or store City Data must have operating system and application security patches applied, with system reboot if necessary. There must be a documented patch management process that determines installation timeframe based on risk assessment and vendor recommendations.

1.19 System Timeout.

The system must provide an automatic timeout, requiring reauthentication of the user session after no more than 20 minutes of inactivity.

1.20 Warning Banners.

All systems containing City Data must display a warning banner each time a user attempts access, stating that data is confidential, systems are logged, and system use is for business purposes only. User must be directed to log off the system if they do not agree with these requirements.

1.21 Transmission encryption.

All data transmissions of City Data outside the Agency's secure internal network must be encrypted using a current industry standard algorithm. Encryption can be end to end at the network level, or the data files containing City Data can be encrypted. This requirement pertains to any type of City Data in motion such as website access, file transfer, and e-mail.

1.22 No Faxing/Mailing.

City Data may not be faxed or mailed.

1.23 Intrusion Detection.

All systems involved in accessing, holding, transporting, and protecting City Data that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

of the City.

1.24 Security of PHI.

Agency is solely responsible for maintaining data security policies and procedures, consistent with those of the City that will adequately safeguard the City Data and the System. Upon request, Agency will provide such security policies and procedures to the City. The City may examine annually, or in response to a security or privacy incident, Agency's facilities, computers, privacy and security policies and procedures and related records as may be necessary to be assured that Agency is in compliance with the terms of this Agreement, and as applicable HIPAA, the HITECH Act, and other federal and state privacy and security laws and regulations. Such examination will occur at a mutually acceptable time agreed upon by the parties but no later than ten (10) business days of Agency's receipt of the request.

1.25 Data Security and City Data

Agency shall provide security for its networks and all internet connections consistent with industry best practices, and will promptly install all patches, fixes, upgrades, updates and new versions of any security software it employs. For information disclosed in electronic form, Agency agrees that appropriate safeguards include electronic barriers (e.g., "firewalls", Transport Layer Security (TLS), Secure Socket Layer [SSL] encryption, or most current industry standard encryption, intrusion prevention/detection or similar barriers).

1.26 Data Privacy and Information Security Program.

Without limiting Agency's obligation of confidentiality as further described herein, Agency shall be responsible for establishing and maintaining a data privacy and information security program, including physical, technical, administrative, and organizational safeguards, that is designed to: (i) ensure the security and confidentiality of the City Data; (ii) protect against any anticipated threats or hazards to the security or integrity of the City Data; (iii) protect against unauthorized disclosure, access to, or use of the City Data; (iv) ensure the proper disposal of City Data; and, (v) ensure that all of Agency's employees, agents, and subcontractors, if any, comply with all of the foregoing. In no case shall the safeguards of Agency's data privacy and information security program be less stringent than the safeguards and standards recommended by the National Institute of Standards and Technology (NIST) Cybersecurity Framework and the Health Information Technology for Economic and Clinical Health Act (HITECH).

1.27 Disaster Recovery.

Agency must establish a documented plan to protect the security of electronic City Data in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this agreement for more than 24 hours.

1.28 Supervision of Data.

City Data in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an Agency Data User authorized to access the information. City Data in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.

1.29 As Is Access.

The City provides Agency and each Agency Data User with System(s) access on an "as is" basis with no guarantee as to uptime, accessibility, or usefulness. To the fullest extent permissible by applicable law, the City disclaims all warranties, express or implied, including, without limitation, implied warranties of merchantability, fitness for a particular purpose, title and non-infringement.

1.30 No Technical or Administrative Support.

Except as provided herein, the City will provide no technical or administrative support to Agency or Agency Data Users for System(s) access.

1.31 City Audit of Agency and Agency Data Users.

The City acting in its sole discretion may audit Agency and Agency Data Users at any time. If an audit reveals an irregularity or security issue, the City may take corrective action including but not limited to termination of such Agency's and/or Agency Data User's access to the System(s) permanently or until the City determines that all irregularities have been satisfactorily cured. Agency and each Agency Data User understands that the City may create and review an audit trail for each Agency Data User, including but not limited to, noting each Agency Data User's ID(s), the patient information accessed, and/or the date accessed. Agency and each Agency Data User understands that any inappropriate access or use of patient information, as determined by the City, may result in the temporary and/or permanent termination of Agency's or such Agency Data User's access to the System(s). Agency remains liable for all inappropriate System(s) access, misuse and/or breach of patient information, whether in electronic or hard-copy form.

1.32 Minimum Necessary.

Agency and each Agency Data User shall safeguard the confidentiality of all City Data that is viewed or obtained through the System(s) at all times. Agency and each Agency Data User shall access patient information in the System(s) only to the minimum extent necessary for its assigned duties and shall only disclose such information to persons authorized to receive it, as minimally necessary for treatment, payment and health care operations.

1.33 No Re-Disclosure or Reporting.

Agency may not in any way re-disclose SFDPH Data or otherwise prepare reports, summaries, or any other material (in electronic or hard-copy format) regarding or containing City Data for transmission to any other requesting individuals, agencies, or organizations without prior written City approval and where such re-disclosure is otherwise permitted or required by law.

1.34 Health Information Exchange.

If Agency is qualified to enroll in a health information exchange, the City encourages Agency to do so in order to facilitate the secure exchange of data between Agency's electronic health record system (EHR) and the City's Epic EHR.

1.35 Subcontracting.

Agency may not subcontract any portion of Data Access Agreement, except upon prior written approval of City. If the City approves a subcontract, Agency remains fully responsible for its subcontractor(s) throughout the term and/or after expiration of this Agreement. All Subcontracts must incorporate the terms of this Data Access Agreement. To the extent that any subcontractor would have access to a System, each such subcontractor's access must be limited and subject to the same governing terms to the same extent as Agency's access. In addition, each contract between Agency and that subcontractor must, except as the City otherwise agrees, include a Business Associate Agreement requiring such subcontractor to comply with all regulatory requirements regarding third-party access, and include a provision obligating that subcontractor to (1) defend, indemnify, and hold the City harmless in the event of a data

breach in the same manner in which Agency would be so obligated, (2) provide cyber and technology errors and omissions insurance with limits identified in Article 5, and (3) ensure that such data has been destroyed, returned, and/or protected as provided by HIPAA at the expiration of the subcontract term.

Agency agrees to indemnify, hold harmless and defend City from any claim by or on behalf of any patient, or by or on behalf of any other third party or person claiming damage by virtue of a familial or financial relationship with such a patient, regardless of the cause, if such claim in any way arises out of or relates to patient care or outcomes based on Agency's or an Agency Data User's System access.

3.1 Ownership of City Data.

The Parties agree that as between them, all rights, including all intellectual property rights in and to the City Data and any derivative works of the City Data shall remain the exclusive property of the City.

A program may provide Direct Client Service (e.g. Outpatient Services, case management, residential treatment, prevention activities) or Indirect Services (programs that do not provide direct client services), or both.

Indirect Services (programs that do not provide direct client services): Describe how the program will deliver the purchased services.

Direct Client Services: Describe how services are delivered and what activities will be provided by addressing each section below that applies to your program modalities

Opioid (Narcotic) Treatment Program Services

In addition to the general Opioid (Narcotic) Treatment Program (OTP) services requirements, the Contractor shall comply with the following specific opioid (narcotic) treatment program services requirements:

1) Opioid (Narcotic) Treatment Program services shall include daily or several times weekly opioid agonist medication and counseling available for those with severe opioid disorder.

2) Service Components:

a) **Intake** - Admission criteria for clients is regulated by Title 9, which specifies that the client be at least 18 years of age, and have proof of addiction at the time of admission. To qualify for methadone maintenance, a person must meet the following minimum criteria: documentation of a 2 year history of opiate addiction, or, documentation of 2 prior attempts at detoxification using methadone; currently be addicted to opiate(s); and, Provide a legal, picture identification and Medi-Cal card if currently eligible for Medi-Cal services. Clients complete initial intake paperwork with the intake counselor followed by a physical examination by the physician. Before admitting a prospective client to methadone maintenance or supervised withdrawal services, the program physician conducts a physical health assessment including a medical history and physical examination. This assessment includes: Physical dependence and addiction to opiate(s); Symptoms of addiction; Complications caused by addiction; Family history of chronic or acute medical conditions Tuberculosis screening; Syphilis screening; Opt Out HIV screening; Urine drug screening; and, additional diagnostic testing can be conducted by referral if needed. WMTP follows regulations in the California Code of Regulations, Title 9, regarding multiple registrations.

Once eligibility has been determined through the initial assessments, and the intake is complete, the client is assigned a permanent counselor. A comprehensive psychosocial assessment is completed for both maintenance and supervised withdrawal (detoxification) clients. Prior to developing a client's initial treatment plan; the assigned counselor will complete the Psychosocial Assessment with the client within the first 28 days of admission per Title 9. Following the completion of the psychosocial assessment form, the counselor writes an assessment summary in the client's chart that identifies priorities for the client's initial treatment plan.

b) Individual and Group Counseling – As a Joint Commission accredited Opioid Treatment Program, our practices follow the highest standard of programming based on the guidelines set by the American Society of Addiction Medicine (ASAM), the Centers for Medicare and Medicaid Services and the Substance Abuse and Mental Health Services Administration (SAMHSA). Care, treatment and services are provided through a coordination of clinicians. The program provides comprehensive treatment requiring observed dosing, random urine drug testing and participation in counseling. Consistent counseling and linkages with licensed clinical therapists support the lifestyle changes necessary to progress in recovery.

c) Patient Education – Clients are referred from the SFDPH Centralized Opiate Program Evaluation (COPE) unit, the Treatment Access Program, Project Homeless Connect, other providers, or self-referral. Criteria for admission are mandated by Title 9. Clients must be at least 18 years of age and must provide proof of addiction at the time of admission. Within the Westside System of Care we have psychiatric, HIV/AIDS and psychosocial support within our own wellness and recovery system. This approach facilitates patient engagement and improves outcomes while using resources more efficiently. Strategies include providing a place where individuals who are not in crisis to come and feel safe; crisis access for individuals requiring immediate services; outreach targeting individuals in great need (e.g., the homeless) who are not already seeking services or cannot access ordinary routing or crisis services, and local board and care hospitals to engage persons preparing for step-down care and access that is involuntary or mandated by the criminal justice system. Clients are also referred internally by other programs, from external sources such as other community providers, or by probation/parole and other criminal justice system agencies such as the Courts/Sheriff's Department. This approach incorporates SAMHSA's "No Wrong Door" policy by meeting clients where they are and providing individual assessment and to support clients at every stage of recovery and retain them until their treatment goals are achieved.

d) Medication Services - The Medical Director prescribes, monitors, adjusts and manage methadone dosing. The clients' initial dose is determined and then titrated upwards in a "start-low, go-slow" manner. This is done as some research has suggested that there is an increased risk of methadone toxicity in the beginning of treatment. These cases were largely as a result of the initial dose being increased too quickly. After admission the doses are determined by the client's individual preference and opiate withdrawal symptoms. The ultimate stable dose of the client is determined by all of the following factors: illicit opiate use, client preference, and patient safety. In general most clients require around 80mg daily; however this number is different for every client. There is no scientific basis for artificial dose level ceilings as the physiology of every client is different. The ultimate goal at Westside is for the clients to become drug/alcohol free and to lead productive lives.

e) Collateral Services - While the medication is the cornerstone of therapy the value of psychosocial counseling and treatment cannot be understated. Studies have demonstrated that the best results are obtained when methadone is integrated with other medical, social, and psychiatric services. The counselor and the physician review these factors with each client to determine what services are appropriate for the client Maxine Hall Health Center, a city primary care clinic, shares the building with our program. This is very advantageous for our clients as it provides them with an easy avenue to obtain general medical care.

WMTP incorporates case-management as a client-centered intervention to improve the coordination and continuity of services for our clients that have complex needs. Case Management is incorporated into treatment through both individual case-management (ICM) and team-based case-management (TBCM).

WMTP utilizes a holistic approach to treatment, acknowledging that in order to successfully treat substance abuse, a variety of other issues such as housing, medical, legal, financial and vocational issues must be addressed. The intended outcome of the program is for participants to lead a lifestyle free of alcohol and drug use/abuse. WMTP provides intensive case management utilizing a psycho-educational process and skill building techniques in addition to group and individual counseling/case management sessions.

Utilizing case management as the cornerstone of treatment, counselors begin with the client "where the client is", responding to such tangible needs as food, shelter, clothing, transportation and medical care. This client-centered perspective is maintained as the client moves through treatment. Case management requires that the counselor apply his/her understanding of the natural course of addiction and recovery to foresee a problem, to understand the options available to manage it, and to take appropriate action. In some instances, the counselor may intervene directly; in others, the counselor will take action to ensure that another staff member on the treatment team intervenes as needed.

Staff members act as a treatment team, utilizing each discipline to provide quality care to clients. At monthly staff meetings counselors present clients that pose a challenge where the team approach to problem solving is advantageous. Also, counseling staff present clients who are or have met their treatment plan goals, emphasizing what approaches were most useful in assisting the client, so that all staff may learn and apply these successful approaches.

The treatment team monitors client progress in treatment by reviewing drug use, discussing with the client steps for remaining abstinent, and checking to see whether referrals are needed. Illicit substance use, indicated by either self-report or positive urine results, is also addressed in case management.

f) **Crisis Intervention Services-** Staff in the program conduct risk assessments that identifies specific characteristics of the clients served and environmental features that may increase or decrease the risk for suicide. Westside Methadone Program is also a part of Westside's overall integrated system of services which includes the Crisis Clinic to whom referrals can be made. The Crisis clinic is an integral part of the CBHS safety net in providing residents of San Francisco timely and responsive crisis and urgent care services. The program accepts clients who require urgent interim or stabilization medications prior to beginning services at an outpatient system of care clinic designed to prevent unnecessary hospitalization.

g) **Treatment Planning-** Our program emphasizes person-focused care, integrated and individualized approaches to OTP services and outcomes, increased patient-satisfaction, improved recruitment of staff, and enhanced community confidence and outcomes. WCS uses the ASAM Criteria of Care to guide how it approaches and implements Opioid Treatment Services. Our approach considers the whole person, designs treatment plans for each specific patient, uses individualized treatment times, acknowledges that "failure" is not a treatment

prerequisite, but provides a spectrum of services or a continuum of care, and re-conceptualizes the definition of addiction and how it plays out in people and communities.

h) Medical Psychotherapy - one-on-one counseling conducted by the Medical Director with the beneficiary- The Medical Director and substance abuse counseling staff is available on-site every day for consultation and coordination. The Medical Director, substance abuse counselors, psychotherapists and nurses have direct contact with patients. The Medical Director leads the treatment team and has case conferences to ensure that treatment is coordinated and reinforced.

i) Discharge Services - Research has shown methadone medication to be effective for long-term treatment. Therefore clients are encouraged to remain in treatment to reinforce stabilization and prevent relapse. Clients wishing to leave the program against medical advice have a right to do so; staff is to explain the risks of such a decision and the program physician determines a methadone withdrawal schedule with client input. Both voluntary and administratively terminating clients receive a medically monitored withdrawal from methadone. Based on the client's medication taper/withdrawal, the last day of medication is known by the client with the staff able to provide the client with support throughout the withdrawal process. The program medical director/physician adjusts the medication dose as needed or requested by the client. Only by client request, will a "blind taper" be ordered by the physician, to support the client's choice in reducing their medication without knowing the specific daily amount.

Clients are not discharged until after a 2 week (14 days) period has passed. Once it has been determined that a client is to be discharged from the clinic the medical staff generate a final dosing sheet; the counseling staff will generate a discharge summary and a closing episode that signifies a complete record has been produced for the client.

A review of the client's progress in treatment by client and counselor provides a perspective on goals met by the client during methadone treatment and helps identify areas for referral or further care. The Discharge Summary form is completed by the counselor and placed in the client's chart.

of Minority Health, U.S. Department of Health and Human Services, as a guide for developing a Cultural Competent Quality Improvement Plan to support CQI in our service delivery system.

Westside's CQI structure is designed to provide a consistent process for improving the care provided, improve satisfaction of our clients, compare performance against benchmarks, reduce inefficiencies, effect change harmoniously, and conserve resources. Quality Assurance and Improvement activity crosses all departments and services in order to respond to the needs of the client, staff, and community. Included in this system is the management of information which includes client specific, aggregate, and comparative data. In order to conserve resources, Quality Assurance and Quality Improvement focus on high risk, high volume, problem prone, and regulatory required issues. Both outcomes and processes are included in the overall approach.

- a. **Achievement of contract performance objectives and productivity-** The committee provides direction for planning, strategy development, monitoring, educating and promoting the acquisition and application of the knowledge necessary for improvement of quality. This includes guidance to any special teams or task forces chosen to address specific opportunity for improvement through the use of Continuous Quality Improvement philosophies and strategies. Westside employs a systematic approach for improving the organization's performance by improving existing processes. Westside utilizes the Plan Do Check Act approach to problem solving. This system is used as a guide for many of our performance improvement activities.

Outcomes measured are different for each program, but in general include: decrease in symptoms, improvement in functional status, quality of life satisfaction, welfare and safety outcomes (suicide, suicide attempts, criminal justice involvement, victimization, homelessness). Compliance measures are tied in to performance evaluation with oversight by the QI committee and Leadership.

Westside Community Services strives to fulfill its mission to the clients, staff, and community. The organization's leaders, managers, clinical support staff, clinical staff, medical staff, and nursing staff are committed to plan, design, and measure, assess, and improve performance and processes as part of the approach to fulfill the mission. Through Quality Improvement activities in conjunction with regular communications with the CEO, the governing body is provided with information it needs in fulfilling the Agency's mission and responsibility for the quality of client care.

- b. **Quality of documentation, including a description of the frequency and scope of internal chart audits-** The Committee meets monthly unless it is identified that an additional meeting is necessary. The proponents of our QI activities include: Weekly program staff meetings, clinical case conferences within the program, difficult case conferences and consultation, group supervision, regular discussions/updates in evidence-based practices, staff trainings and continuing education, critical incident review and debriefing, PURQC- utilization review, monthly peer review, regular chart reviews, quarterly audits conducted by the committee, and use of practice guidelines. Managers/Coordinators regularly report to CCO or Division Director regarding supervision, individual and program performance issues, critical incidents, grievances, client feedback and quarterly peer review findings.

- c. **Cultural competency of staff and services-** Cultural competence of the communities it serves is central to Westside's treatment philosophy. Through cultural knowledge and awareness, Westside is able to develop and deliver effective treatment that is tailored to meet the needs of the individual and his/her family. The therapeutic strategies employed in treatment are strengths-based and focus on harm reduction as a positive path towards recovery. Clients are involved in every aspect of their treatment, which is based on their own self-identified needs and goals, allowing them to define their own success. Westside embraces family-focused treatment and values the power of the family unit as a source of strength during treatment. The Westside staff works to empower clients and their families to work together towards their goals of recovery and helps to create a community support network to make successful treatment possible. At Westside we believe cultural diversity and competence is a process that occurs along a continuum and we are always striving to develop and deliver services that meet the need of our clients. Delivering culturally aware and competent services is an ongoing topic woven into clinical conversation and the therapeutic environment by discussing cultural issues in administrative supervision, adding multicultural art to the environment and ongoing recruitment of employees that reflect the multicultural diversity found in the community we serve.

We continue to assess the cultural and linguistic training needs for the program staff using employee feedback received via staff meetings, employee surveys and consumer feedback. As we continue to monitor and update our strategic plan for the next five years we have begun to strategize on other assessment strategies to aid us determining our cultural and linguistic training needs.

Westside's philosophy is to provide training opportunities for employees to assure competent services. Employees are encouraged and/or required to attend relevant conferences, workshops, seminars and classes. Continuous trainings are held weekly, monthly, annually either within or outside of Westside where staff has the opportunity to increase their knowledge and skill set. Allowing for a more effective client-provider relationship in which staff is able to have a better understanding of the client's expectations and improve communication among each other. The staff have a clearer understanding on why the client does not follow instructions: for example, why the client takes a smaller dose of medicine than prescribed (because of a belief that Western medicine is "too strong"); or why the family, rather than the client, makes important decisions about the client's health care (because in the client's culture, major decisions are made by the family as a group).

- d. **Satisfaction with services-** Client participation in performance improvement is facilitated through the use of surveys and focus groups. In most programs, consumer surveys and or focus groups are conducted semi-annually.
- e. **Timely completion and use of outcome data, including CalOMS/ASAM-** A variety of analytical tools are utilized to evaluate the total care provided. Data sources include, but are not limited to: medical records, special studies, external reference databases, incident reports, statistics and historical patterns of performance, peer review, monitoring results, consumer satisfaction questionnaires, safety statistics, infection control data, referral sources, and cost analysis.

Westside uses a strength based approach to motivate clients. They are offered refreshments in our lobby and gift cards for medication compliance. Client no-show rates vary for many reasons including readiness for treatment, weather patterns, street drug availability, and economic factors. Research has shown that incentive programs can have an impact on treatment adherence and no-show rates. In July 2015 a protocol for the incentive program was developed. The decision was made to focus solely on dosing attendance for the initial phase of the incentive program. Client attendance was monitored on a monthly basis and clients were rewarded for their attendance at the beginning of the next month. No show data was collected each month and the effects of the program were analyzed against historical trends. A two tier system was outlined: Clients who missed none of their scheduled dosing days would receive a \$10.00 grocery voucher and clients who missed one to three scheduled dosing days would receive a \$5.00 grocery voucher. Clients would meet with their counselor for the first counseling session the following month. And receive feedback on their attendance record. Counselors could use this opportunity to reinforce improvements and remind clients about the incentive program. No show patterns were analyzed various ways to determine the success of the program and which groups of clients were benefitting from the incentive program on a quarterly basis. The incentive program demonstrated that there is a positive correlation between medication compliance and incentive based services.

Through cultural knowledge and awareness, Westside is able to develop and deliver effective treatment that is tailored to meet the needs of the individual and his/her family. The therapeutic strategies employed in treatment are strengths-based and focus on harm reduction as a positive path towards recovery. Clients are involved in every aspect of their treatment, which is based on their own self-identified needs and goals, allowing them to define their own success. Westside embraces family-focused treatment and values the power of the family unit as a source of strength during treatment. The Westside staff works to empower clients and their families to work together towards their goals of recovery and helps to create a community support network to make successful treatment possible. At Westside we believe cultural diversity and competence is a process that occurs along a continuum and we are always striving to develop and deliver services that meet the need of our clients. Delivering culturally aware and competent services is an ongoing topic woven into clinical conversation and the therapeutic environment by discussing cultural issues in administrative supervision, adding multicultural art to the environment and ongoing recruitment of employees that reflect the multicultural diversity found in the community we serve.

We continue to assess the cultural and linguistic training needs for the program staff using employee feedback received via staff meetings, employee surveys and consumer feedback. As we continue to monitor and update our strategic plan for the next five years we have begun to strategize on other assessment strategies to aid us determining our cultural and linguistic training needs.

Westside's philosophy is to provide training opportunities for employees to assure competent services. Employees are encouraged and/or required to attend relevant conferences, workshops, seminars and classes. Continuous trainings are held weekly, monthly, annually either within or outside of Westside where staff has the opportunity to increase their knowledge and skill set. Allowing for a more effective client-provider relationship in which staff is able to have a better understanding of the client's expectations and improve communication among each other. The staff have a clearer understanding on why the client does not follow instructions: for example, why the client takes a smaller dose of medicine than prescribed (because of a belief that Western medicine is "too strong"); or why the family, rather than the client, makes important decisions about the client's health care (because in the client's culture, major decisions are made by the family as a group).

- d. Satisfaction with services-** Client participation in performance improvement is facilitated through the use of surveys and focus groups. In most programs, consumer surveys and or focus groups are conducted semi-annually.

1. Method of Payment

A. Invoices furnished by CONTRACTOR under this Agreement must be in a form acceptable to the Contract Administrator and the CONTROLLER and must include the Contract Progress Payment Authorization number or Contract Purchase Number. All amounts paid by CITY to CONTRACTOR shall be subject to audit by CITY. The CITY shall make monthly payments as described below. Such payments shall not exceed those amounts stated in and shall be in accordance with the provisions of Section 5, COMPENSATION, of this Agreement.

Compensation for all SERVICES provided by CONTRACTOR shall be paid in the following manner. For the purposes of this Section, "General Fund" shall mean all those funds which are not Work Order or Grant funds. "General Fund Appendices" shall mean all those appendices which include General Fund monies.

(1) Fee For Service (Monthly Reimbursement by Certified Units at Budgeted Unit Rates)

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month, based upon the number of units of service that were delivered in the preceding month. All deliverables associated with the SERVICES defined in Appendix A times the unit rate as shown in the appendices cited in this paragraph shall be reported on the invoice(s) each month. All charges incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

(2) Cost Reimbursement (Monthly Reimbursement for Actual Expenditures within Budget):

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month for reimbursement of the actual costs for SERVICES of the preceding month. All costs associated with the SERVICES shall be reported on the invoice each month. All costs incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

B. Final Closing Invoice

(1) Fee For Service Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those SERVICES rendered during the referenced period of performance. If SERVICES are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY. CITY'S final reimbursement to the CONTRACTOR at the close of the Agreement period shall be adjusted to conform to actual units certified multiplied by the unit rates identified in Appendix B attached hereto, and shall not exceed the total amount authorized and certified for this Agreement.

(2) Cost Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those costs incurred during the referenced period of performance. If costs are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY.

C. Payment shall be made by the CITY to CONTRACTOR at the address specified in the section entitled "Notices to Parties."

D. Upon **the effective date** of this Agreement, contingent upon prior approval by the CITY'S Department of Public Health **of an invoice or claim submitted by Contractor, and** of each year's revised Appendix A (Description of Services) and each year's revised Appendix B (Program Budget and Cost Reporting Data Collection Form), and within each fiscal year, the CITY agrees to make an initial payment to CONTRACTOR not to exceed twenty-five per cent (25%) of the General Fund portion of the CONTRACTOR'S allocation for the applicable fiscal year.

CONTRACTOR agrees that within that fiscal year, this initial payment shall be recovered by the CITY through a reduction to monthly payments to CONTRACTOR during the period of October 1 through March 31 of the applicable fiscal year, unless and until CONTRACTOR chooses to return to the CITY all or part of the initial payment for that fiscal year. The amount of the initial payment recovered each month shall be calculated by dividing the total initial payment for the fiscal year by the total number of months for recovery. Any termination of this Agreement, whether for cause or for convenience, will result in the total outstanding amount of the initial payment for that fiscal year being due and payable to the CITY within thirty (30) calendar days following written notice of termination from the CITY.

6. Methodology:**Opioid (Narcotic) Treatment Program Services**

Westside Methadone Maintenance will provide Buprenorphine and Methadone treatment through our Opioid Treatment Program. In addition to the general Opioid (Narcotic) Treatment Program (OTP) services requirements; the Contractor shall comply with the following specific opioid (narcotic) treatment program services requirements:

1) Opioid (Narcotic) Treatment Program services shall include daily or several times weekly opioid agonist medication and counseling available for those with severe opioid disorder.

2) Service Components:

a) **Intake** - Admission criteria for clients is regulated by Title 9, which specifies that the client be at least 18 years of age, and has proof of addiction at the time of admission. To qualify for methadone maintenance, a person must meet the following minimum criteria: documentation of a 2 year history of opiate addiction, or, documentation of 2 prior attempts at detoxification using methadone; currently be addicted to opiate(s); and, Provide a legal, picture identification and Medi-Cal card if currently eligible for Medi-Cal services. Clients complete initial intake paperwork with the intake counselor followed by a physical examination by the physician. Before admitting a prospective client to methadone maintenance or supervised withdrawal services, the program physician conducts a physical health assessment including a medical history and physical examination. This assessment includes: Physical dependence and addiction to opiate(s); Symptoms of addiction; Complications caused by addiction; Family history of chronic or acute medical conditions Tuberculosis screening; Syphilis screening; Opt Out HIV screening; Urine drug screening; and, additional diagnostic testing can be conducted by referral if needed. WMTP follows regulations in the California Code of Regulations, Title 9, regarding multiple registrations.

Once eligibility has been determined through the initial assessments, and the intake is complete, the client is assigned a permanent counselor. A comprehensive psychosocial assessment is completed for both

maintenance and supervised withdrawal (detoxification) clients. Prior to developing a client's initial treatment plan; the assigned counselor will complete the Psychosocial Assessment with the client within the first 28 days of admission per Title 9. Following the completion of the psychosocial assessment form, the counselor writes an assessment summary in the client's chart that identifies priorities for the client's initial treatment plan.

b) Individual and Group Counseling – As a Joint Commission accredited Opioid Treatment Program, our practices follow the highest standard of programming based on the guidelines set by the American Society of Addiction Medicine (ASAM), the Centers for Medicare and Medicaid Services and the Substance Abuse and Mental Health Services Administration (SAMHSA). Care, treatment and services are provided through a coordination of clinicians. The program provides comprehensive treatment requiring observed dosing, random urine drug testing and participation in counseling. Consistent counseling and linkages with licensed clinical therapists support the lifestyle changes necessary to progress in recovery.

c) Patient Education – Clients are referred from the SFDPH Centralized Opiate Program Evaluation (COPE) unit, the Treatment Access Program, Project Homeless Connect, other providers, or self-referral. Criteria for admission are mandated by Title 9. Clients must be at least 18 years of age and must provide proof of addiction at the time of admission. Within the Westside System of Care we have psychiatric, HIV/AIDS and psychosocial support within our own wellness and recovery system. This approach facilitates patient engagement and improves outcomes while using resources more efficiently. Strategies include providing a place where individuals who are not in crisis to come and feel safe; crisis access for individuals requiring immediate services; outreach targeting individuals in great need (e.g., the homeless) who are not already seeking services or cannot access ordinary routing or crisis services, and local board and care hospitals to engage persons preparing for step-down care and access that is involuntary or mandated by the criminal justice system. Clients are also referred internally by other programs, from external sources such as other community providers, or by probation/parole and other criminal justice system agencies such as the Courts/Sheriff's Department. This approach incorporates SAMHSA's "No Wrong Door" policy by meeting clients where they are and providing individual assessment and to support clients at every stage of recovery and retain them until their treatment goals are achieved.

d) Medication Services - The Medical Director prescribes monitors, adjusts and manage methadone dosing. The clients' initial dose is determined and then titrated upwards in a "start-low, go-slow" manner. This is done as some research has suggested that there is an increased risk of methadone toxicity in the beginning of treatment. These cases were largely as a result of the initial dose being increased too quickly. After admission the doses are determined by the client's individual preference and opiate withdrawal symptoms. The ultimate stable dose of the client is determined by all of the following factors: illicit opiate use, client preference, and patient safety. In general most clients require around 80mg daily; however this number is different for every client. There is no scientific basis for artificial dose level ceilings as the physiology of every client is different. The ultimate goal at Westside is for the clients to become drug/alcohol free and to lead productive lives.

e) Collateral Services - While the medication is the cornerstone of therapy the value of psychosocial counseling and treatment cannot be understated. Studies have demonstrated that the best results are obtained when methadone is integrated with other medical, social, and psychiatric services. The counselor and the physician review these factors with each client to determine what services are appropriate for the client Maxine Hall Health Center, a city primary care clinic, shares the building with our program. This is

very advantageous for our clients as it provides them with an easy avenue to obtain general medical care.

WMTP incorporates case-management as a client-centered intervention to improve the coordination and continuity of services for our clients that have complex needs. Case Management is incorporated into treatment through both individual case-management (ICM) and team-based case-management (TBCM).

WMTP utilizes a holistic approach to treatment, acknowledging that in order to successfully treat substance abuse, a variety of other issues such as housing, medical, legal, financial and vocational issues must be addressed. The intended outcome of the program is for participants to lead a lifestyle free of alcohol and drug use/abuse. WMTP provides intensive case management utilizing a psycho-educational process and skill building techniques in addition to group and individual counseling/case management sessions.

Utilizing case management as the cornerstone of treatment, counselors begin with the client "where the client is", responding to such tangible needs as food, shelter, clothing, transportation and medical care. This client-centered perspective is maintained as the client moves through treatment. Case management requires that the counselor apply his/her understanding of the natural course of addiction and recovery to foresee a problem, to understand the options available to manage it, and to take appropriate action. In some instances, the counselor may intervene directly; in others, the counselor will take action to ensure that another staff member on the treatment team intervenes as needed.

Staff members act as a treatment team, utilizing each discipline to provide quality care to clients. At monthly staff meetings counselors present clients that pose a challenge where the team approach to problem solving is advantageous. Also, counseling staff present clients who are or have met their treatment plan goals, emphasizing what approaches were most useful in assisting the client, so that all staff may learn and apply these successful approaches.

The treatment team monitors client progress in treatment by reviewing drug use, discussing with the client steps for remaining abstinent, and checking to see whether referrals are needed. Illicit substance use, indicated by either self-report or positive urine results, is also addressed in case management.

f) Crisis Intervention Services- Staff in the program conduct risk assessments that identifies specific characteristics of the clients served and environmental features that may increase or decrease the risk for suicide. Westside Methadone Program is also a part of Westside's overall integrated system of services which includes the Crisis Clinic to whom referrals can be made. The Crisis clinic is an integral part of the CBHS safety net in providing residents of San Francisco timely and responsive crisis and urgent care services. The program accepts clients who require urgent interim or stabilization medications prior to beginning services at an outpatient system of care clinic designed to prevent unnecessary hospitalization.

g) Treatment Planning- Our program emphasizes person-focused care, integrated and individualized approaches to OTP services and outcomes, increased patient-satisfaction, improved recruitment of staff, and enhanced community confidence and outcomes. WCS uses the ASAM Criteria of Care to guide how it approaches and implements Opioid Treatment Services. Our approach considers the whole person, designs treatment plans for each specific patient, uses individualized treatment times, acknowledges that "failure" is not a treatment prerequisite, but provides a spectrum of services or a continuum of care, and re-conceptualizes the definition of addiction and how it plays out in people and communities.

h) **Medical Psychotherapy** - one-on-one counseling conducted by the Medical Director with the beneficiary- The Medical Director and substance abuse counseling staff is available on-site every day for consultation and coordination. The Medical Director, substance abuse counselors, psychotherapists and nurses have direct contact with patients. The Medical Director leads the treatment team and has case conferences to ensure that treatment is coordinated and reinforced.

i) **Discharge Services** - Research has shown methadone medication to be effective for long-term treatment. Therefore clients are encouraged to remain in treatment to reinforce stabilization and prevent relapse. Clients wishing to leave the program against medical advice have a right to do so; staff is to explain the risks of such a decision and the program physician determines a methadone withdrawal schedule with client input. Both voluntary and administratively terminating clients receive a medically monitored withdrawal from methadone. Based on the client's medication taper/withdrawal, the last day of medication is known by the client with the staff able to provide the client with support throughout the withdrawal process. The program medical director/physician adjusts the medication dose as needed or requested by the client. Only by client request, will a "blind taper" be ordered by the physician, to support the client's choice in reducing their medication without knowing the specific daily amount.

Clients are not discharged until after a 2 week (14 days) period has passed. Once it has been determined that a client is to be discharged from the clinic the medical staff generate a final dosing sheet; the counseling staff will generate a discharge summary and a closing episode that signifies a complete record has been produced for the client.

A review of the client's progress in treatment by client and counselor provides a perspective on goals met by the client during methadone treatment and helps identify areas for referral or further care. The Discharge Summary form is completed by the counselor and placed in the client's chart.

8. Continuous Quality Improvement (CQI):

Westside has been committed to improving cultural and linguistic competency in the business functions that support outcome-based planning and accountability. Westside adheres to the culturally and Linguistically Appropriate Services (CLAS) standards developed by the Office of Minority Health, U.S. Department of Health and Human Services, as a guide for developing a Cultural Competent Quality Improvement Plan to support CQI in our service delivery system.

Westside's CQI structure is designed to provide a consistent process for improving the care provided, improve satisfaction of our clients, compare performance against benchmarks, reduce inefficiencies, effect change harmoniously, and conserve resources. Quality Assurance and Improvement activity crosses all departments and services in order to respond to the needs of the client, staff, and community. Included in this system is the management of information which includes client specific, aggregate, and comparative data. In order to conserve resources, Quality Assurance and Quality Improvement focus on high risk, high volume, problem prone, and regulatory required issues. Both outcomes and processes are included in the overall approach.

- a. **Achievement of contract performance objectives and productivity-** The committee provides direction for planning, strategy development, monitoring, educating and promoting the acquisition and application of the knowledge necessary for improvement of quality. This includes guidance to any special teams or task forces chosen to address specific opportunity for improvement through the use of Continuous Quality Improvement philosophies and strategies. Westside employs a systematic approach for improving the organization's performance by improving existing processes. Westside utilizes the Plan Do Check Act approach to problem solving. This system is used as a guide for many of our performance improvement activities.

Outcomes measured are different for each program, but in general include: decrease in symptoms, improvement in functional status, quality of life satisfaction, welfare and safety outcomes (suicide, suicide attempts, criminal justice involvement, victimization, homelessness). Compliance measures are tied in to performance evaluation with oversight by the QI committee and Leadership.

Westside Community Services strives to fulfill its mission to the clients, staff, and community. The organization's leaders, managers, clinical support staff, clinical staff, medical staff, and nursing staff are committed to plan, design, and measure, assess, and improve performance and processes as part of the approach to fulfill the mission. Through Quality Improvement activities in conjunction with regular communications with the CEO, the governing body is provided with information it needs in fulfilling the Agency's mission and responsibility for the quality of client care.

- b. **Quality of documentation, including a description of the frequency and scope of internal chart audits-** The Committee meets monthly unless it is identified that an additional meeting is necessary. The proponents of our QI activities include: Weekly program staff meetings, clinical case conferences within the program, difficult case conferences and consultation, group supervision, regular discussions/updates in evidence-based practices, staff trainings and continuing education, critical incident review and debriefing, PURQC- utilization review, monthly peer review, regular chart reviews, quarterly audits conducted by the committee, and use of practice guidelines. Managers/Coordinators regularly report to CCO or Division Director regarding supervision, individual and program performance issues, critical incidents, grievances, client feedback and quarterly peer review findings.

- c. **Cultural competency of staff and services-** Cultural competence of the communities it serves is central to Westside's treatment philosophy. Through cultural knowledge and awareness, Westside is able to develop and deliver effective treatment that is tailored to meet the needs of the individual and his/her family. The therapeutic strategies employed in treatment are strengths-based and focus on harm reduction as a positive path towards recovery. Clients are involved in every aspect of their treatment, which is based on their own self-identified needs and goals, allowing them to define their own success. Westside embraces family-focused treatment and values the power of the family unit as a source of strength during treatment. The Westside staff works to empower clients and their families to work together towards their goals of recovery and helps to create a community support network to make successful treatment possible. At Westside we believe cultural diversity and competence is a process that occurs along a continuum and we are always striving to develop and deliver services that meet the need of our clients. Delivering culturally aware and competent services is an ongoing topic woven into clinical conversation and the therapeutic environment by discussing cultural issues in administrative supervision, adding multicultural art to the environment and ongoing recruitment of employees that reflect the multicultural diversity found in the community we serve.

We continue to assess the cultural and linguistic training needs for the program staff using employee feedback received via staff meetings, employee surveys and consumer feedback. As we continue to monitor and update our strategic plan for the next five years we have begun to strategize on other assessment strategies to aid us determining our cultural and linguistic training needs.

Westside's philosophy is to provide training opportunities for employees to assure competent services. Employees are encouraged and/or required to attend relevant conferences, workshops, seminars and classes. Continuous trainings are held weekly, monthly, annually either within or outside of Westside where staff has the opportunity to increase their knowledge and skill set. Allowing for a more effective client-provider relationship in which staff is able to have a better understanding of the client's expectations and improve communication among each other. The staff have a clearer understanding on why the client does not follow instructions: for example, why the client takes a smaller dose of medicine than prescribed (because of a belief that Western medicine is "too strong"); or why the family, rather than the client, makes important decisions about the client's health care (because in the client's culture, major decisions are made by the family as a group).

- d. **Satisfaction with services-** Client participation in performance improvement is facilitated through the use of surveys and focus groups. In most programs, consumer surveys and or focus groups are conducted semi-annually.
- e. **Timely completion and use of outcome data, including CalOMS/ASAM-** A variety of analytical tools are utilized to evaluate the total care provided. Data sources include, but are not limited to: medical records, special studies, external reference databases, incident reports, statistics and historical patterns of performance, peer review, monitoring results, consumer satisfaction questionnaires, safety statistics, infection control data, referral sources, and cost analysis.

Westside uses a strength based approach to motivate clients. They are offered refreshments in our lobby and gift cards for medication compliance. Client no-show rates vary for many reasons including readiness for treatment, weather patterns, street drug availability, and economic factors. Research has shown that incentive programs can have an impact on treatment adherence and no-show rates. In July 2015 a protocol for the incentive program was developed. The decision was made to focus solely on

dosing attendance for the initial phase of the incentive program. Client attendance was monitored on a monthly basis and clients were rewarded for their attendance at the beginning of the next month. No show data was collected each month and the effects of the program were analyzed against historical trends. A two tier system was outlined: Clients who missed none of their scheduled dosing days would receive a \$10.00 grocery voucher and clients who missed one to three scheduled dosing days would receive a \$5.00 grocery voucher. Clients would meet with their counselor for the first counseling session the following month. And receive feedback on their attendance record. Counselors could use this opportunity to reinforce improvements and remind clients about the incentive program. No show patterns were analyzed various ways to determine the success of the program and which groups of clients were benefitting from the incentive program on a quarterly basis. The incentive program demonstrated that there is a positive correlation between medication compliance and incentive based services.

6. Methodology:

Opioid (Narcotic) Treatment Program Services

Westside Methadone Maintenance will provide Buprenorphine and Methadone treatment through our Opioid Treatment Program. In addition to the general Opioid (Narcotic) Treatment Program (OTP) services requirements; the Contractor shall comply with the following specific opioid (narcotic) treatment program services requirements:

1) Opioid (Narcotic) Treatment Program services shall include daily or several times weekly opioid agonist medication and counseling available for those with severe opioid disorder.

2) Service Components:

a) **Intake** - Admission criteria for clients is regulated by Title 9, which specifies that the client be at least 18 years of age, and has proof of addiction at the time of admission. To qualify for methadone maintenance, a person must meet the following minimum criteria: documentation of a 2 year history of opiate addiction, or, documentation of 2 prior attempts at detoxification using methadone; currently be addicted to opiate(s); and, Provide a legal, picture identification and Medi-Cal card if currently eligible for Medi-Cal services. Clients complete initial intake paperwork with the intake counselor followed by a physical examination by the physician. Before admitting a prospective client to methadone maintenance or supervised withdrawal services, the program physician conducts a physical health assessment including a medical history and physical examination. This assessment includes: Physical dependence and addiction to opiate(s); Symptoms of addiction; Complications caused by addiction; Family history of chronic or acute medical conditions Tuberculosis screening; Syphilis screening; Opt Out HIV screening; Urine drug screening; and, additional diagnostic testing can be conducted by referral if needed. WMTP follows regulations in the California Code of Regulations, Title 9, regarding multiple registrations.

Once eligibility has been determined through the initial assessments, and the intake is complete, the client is assigned a permanent counselor. A comprehensive psychosocial assessment is completed for both maintenance and supervised withdrawal (detoxification) clients. Prior to developing a client's initial treatment plan; the assigned counselor will complete the Psychosocial Assessment with the client within the first 28 days of admission per Title 9. Following the completion of the psychosocial assessment form, the counselor writes an assessment summary in the client's chart that identifies priorities for the client's initial treatment plan.

b) **Individual and Group Counseling** – As a Joint Commission accredited Opioid Treatment Program, our practices follow the highest standard of programming based on the guidelines set by the American Society of Addiction Medicine (ASAM), the Centers for Medicare and Medicaid Services and the Substance Abuse and Mental Health Services Administration (SAMHSA). Care, treatment and services are provided through a coordination of clinicians. The program provides comprehensive treatment

requiring observed dosing, random urine drug testing and participation in counseling. Consistent counseling and linkages with licensed clinical therapists support the lifestyle changes necessary to progress in recovery.

c) **Patient Education** – Clients are referred from the SFDPH Centralized Opiate Program Evaluation (COPE) unit, the Treatment Access Program, Project Homeless Connect, other providers, or self-referral. Criteria for admission are mandated by Title 9. Clients must be at least 18 years of age and must provide proof of addiction at the time of admission. Within the Westside System of Care we have psychiatric, HIV/AIDS and psychosocial support within our own wellness and recovery system. This approach facilitates patient engagement and improves outcomes while using resources more efficiently. Strategies include providing a place where individuals who are not in crisis to come and feel safe; crisis access for individuals requiring immediate services; outreach targeting individuals in great need (e.g., the homeless) who are not already seeking services or cannot access ordinary routing or crisis services, and local board and care hospitals to engage persons preparing for step-down care and access that is involuntary or mandated by the criminal justice system. Clients are also referred internally by other programs, from external sources such as other community providers, or by probation/parole and other criminal justice system agencies such as the Courts/Sheriff's Department. This approach incorporates SAMHSA's "No Wrong Door" policy by meeting clients where they are and providing individual assessment and to support clients at every stage of recovery and retain them until their treatment goals are achieved.

d) **Medication Services** - The Medical Director prescribes monitors, adjusts and manage methadone dosing. The clients' initial dose is determined and then titrated upwards in a "start-low, go-slow" manner. This is done as some research has suggested that there is an increased risk of methadone toxicity in the beginning of treatment. These cases were largely as a result of the initial dose being increased too quickly. After admission the doses are determined by the client's individual preference and opiate withdrawal symptoms. The ultimate stable dose of the client is determined by all of the following factors: illicit opiate use, client preference, and patient safety. In general most clients require around 80mg daily; however this number is different for every client. There is no scientific basis for artificial dose level ceilings as the physiology of every client is different. The ultimate goal at Westside is for the clients to become drug/alcohol free and to lead productive lives.

e) **Collateral Services** - While the medication is the cornerstone of therapy the value of psychosocial counseling and treatment cannot be understated. Studies have demonstrated that the best results are obtained when methadone is integrated with other medical, social, and psychiatric services. The counselor and the physician review these factors with each client to determine what services are appropriate for the client Maxine Hall Health Center, a city primary care clinic, shares the building with our program. This is very advantageous for our clients as it provides them with an easy avenue to obtain general medical care.

WMTP incorporates case-management as a client-centered intervention to improve the coordination and continuity of services for our clients that have complex needs. Case Management is incorporated into treatment through both individual case-management (ICM) and team-based case-management (TBCM).

WMTP utilizes a holistic approach to treatment, acknowledging that in order to successfully treat substance abuse, a variety of other issues such as housing, medical, legal, financial and vocational issues must be addressed. The intended outcome of the program is for participants to lead a lifestyle

free of alcohol and drug use/abuse. WMTP provides intensive case management utilizing a psycho-educational process and skill building techniques in addition to group and individual counseling/case management sessions.

Utilizing case management as the cornerstone of treatment, counselors begin with the client "where the client is", responding to such tangible needs as food, shelter, clothing, transportation and medical care. This client-centered perspective is maintained as the client moves through treatment. Case management requires that the counselor apply his/her understanding of the natural course of addiction and recovery to foresee a problem, to understand the options available to manage it, and to take appropriate action. In some instances, the counselor may intervene directly; in others, the counselor will take action to ensure that another staff member on the treatment team intervenes as needed.

Staff members act as a treatment team, utilizing each discipline to provide quality care to clients. At monthly staff meetings counselors present clients that pose a challenge where the team approach to problem solving is advantageous. Also, counseling staff present clients who are or have met their treatment plan goals, emphasizing what approaches were most useful in assisting the client, so that all staff may learn and apply these successful approaches.

The treatment team monitors client progress in treatment by reviewing drug use, discussing with the client steps for remaining abstinent, and checking to see whether referrals are needed. Illicit substance use, indicated by either self-report or positive urine results, is also addressed in case management.

f) **Crisis Intervention Services-** Staff in the program conduct risk assessments that identifies specific characteristics of the clients served and environmental features that may increase or decrease the risk for suicide. Westside Methadone Program is also a part of Westside's overall integrated system of services which includes the Crisis Clinic to whom referrals can be made. The Crisis clinic is an integral part of the CBHS safety net in providing residents of San Francisco timely and responsive crisis and urgent care services. The program accepts clients who require urgent interim or stabilization medications prior to beginning services at an outpatient system of care clinic designed to prevent unnecessary hospitalization.

g) **Treatment Planning-** Our program emphasizes person-focused care, integrated and individualized approaches to OTP services and outcomes, increased patient-satisfaction, improved recruitment of staff, and enhanced community confidence and outcomes. WCS uses the ASAM Criteria of Care to guide how it approaches and implements Opioid Treatment Services. Our approach considers the whole person, designs treatment plans for each specific patient, uses individualized treatment times, acknowledges that "failure" is not a treatment prerequisite, but provides a spectrum of services or a continuum of care, and re-conceptualizes the definition of addiction and how it plays out in people and communities.

h) **Medical Psychotherapy** - one-on-one counseling conducted by the Medical Director with the beneficiary- The Medical Director and substance abuse counseling staff is available on-site every day for consultation and coordination. The Medical Director, substance abuse counselors, psychotherapists and nurses have direct contact with patients. The Medical Director leads the treatment team and has case conferences to ensure that treatment is coordinated and reinforced.

i) **Discharge Services** - Research has shown methadone medication to be effective for long-term treatment. Therefore clients are encouraged to remain in treatment to reinforce stabilization and

07/01/2019

prevent relapse. Clients wishing to leave the program against medical advice have a right to do so; staff is to explain the risks of such a decision and the program physician determines a methadone withdrawal schedule with client input. Both voluntary and administratively terminating clients receive a medically monitored withdrawal from methadone. Based on the client's medication taper/withdrawal, the last day of medication is known by the client with the staff able to provide the client with support throughout the withdrawal process. The program medical director/physician adjusts the medication dose as needed or requested by the client. Only by client request, will a "blind taper" be ordered by the physician, to support the client's choice in reducing their medication without knowing the specific daily amount.

Clients are not discharged until after a 2 week (14 days) period has passed. Once it has been determined that a client is to be discharged from the clinic the medical staff generate a final dosing sheet; the counseling staff will generate a discharge summary and a closing episode that signifies a complete record has been produced for the client.

A review of the client's progress in treatment by client and counselor provides a perspective on goals met by the client during methadone treatment and helps identify areas for referral or further care. The Discharge Summary form is completed by the counselor and placed in the client's chart.

Additional Medication Assisted Treatment (MAT)

Department of Health and Human Services, as a guide for developing a Cultural Competent Quality Improvement Plan to support CQI in our service delivery system.

Westside's CQI structure is designed to provide a consistent process for improving the care provided, improve satisfaction of our clients, compare performance against benchmarks, reduce inefficiencies, effect change harmoniously, and conserve resources. Quality Assurance and Improvement activity crosses all departments and services in order to respond to the needs of the client, staff, and community. Included in this system is the management of information which includes client specific, aggregate, and comparative data. In order to conserve resources, Quality Assurance and Quality Improvement focus on high risk, high volume, problem prone, and regulatory required issues. Both outcomes and processes are included in the overall approach.

- a. **Achievement of contract performance objectives and productivity-** The committee provides direction for planning, strategy development, monitoring, educating and promoting the acquisition and application of the knowledge necessary for improvement of quality. This includes guidance to any special teams or task forces chosen to address specific opportunity for improvement through the use of Continuous Quality Improvement philosophies and strategies. Westside employs a systematic approach for improving the organization's performance by improving existing processes. Westside utilizes the Plan Do Check Act approach to problem solving. This system is used as a guide for many of our performance improvement activities.

Outcomes measured are different for each program, but in general include: decrease in symptoms, improvement in functional status, quality of life satisfaction, welfare and safety outcomes (suicide, suicide attempts, criminal justice involvement, victimization, homelessness). Compliance measures are tied in to performance evaluation with oversight by the QI committee and Leadership.

Westside Community Services strives to fulfill its mission to the clients, staff, and community. The organization's leaders, managers, clinical support staff, clinical staff, medical staff, and nursing staff are committed to plan, design, and measure, assess, and improve performance and processes as part of the approach to fulfill the mission. Through Quality Improvement activities in conjunction with regular communications with the CEO, the governing body is provided with information it needs in fulfilling the Agency's mission and responsibility for the quality of client care.

- b. **Quality of documentation, including a description of the frequency and scope of internal chart audits-** The Committee meets monthly unless it is identified that an additional meeting is necessary. The proponents of our QI activities include: Weekly program staff meetings, clinical case conferences within the program, difficult case conferences and consultation, group supervision, regular discussions/updates in evidence-based practices, staff trainings and continuing education, critical incident review and debriefing, PURQC- utilization review, monthly peer review, regular chart reviews, quarterly audits conducted by the committee, and use of practice guidelines. Managers/Coordinators regularly report to CCO or Division Director regarding supervision, individual and program performance issues, critical incidents, grievances, client feedback and quarterly peer review findings.
- c. **Cultural competency of staff and services-** Cultural competence of the communities it serves is central to Westside's treatment philosophy. Through cultural knowledge and awareness, Westside is able to develop and deliver effective treatment that is tailored to meet the needs of the individual and his/her family. The therapeutic strategies employed in treatment are strengths-

based and focus on harm reduction as a positive path towards recovery. Clients are involved in every aspect of their treatment, which is based on their own self-identified needs and goals, allowing them to define their own success. Westside embraces family-focused treatment and values the power of the family unit as a source of strength during treatment. The Westside staff works to empower clients and their families to work together towards their goals of recovery and helps to create a community support network to make successful treatment possible. At Westside we believe cultural diversity and competence is a process that occurs along a continuum and we are always striving to develop and deliver services that meet the need of our clients. Delivering culturally aware and competent services is an ongoing topic woven into clinical conversation and the therapeutic environment by discussing cultural issues in administrative supervision, adding multicultural art to the environment and ongoing recruitment of employees that reflect the multicultural diversity found in the community we serve.

We continue to assess the cultural and linguistic training needs for the program staff using employee feedback received via staff meetings, employee surveys and consumer feedback. As we continue to monitor and update our strategic plan for the next five years we have begun to strategize on other assessment strategies to aid us determining our cultural and linguistic training needs.

Westside's philosophy is to provide training opportunities for employees to assure competent services. Employees are encouraged and/or required to attend relevant conferences, workshops, seminars and classes. Continuous trainings are held weekly, monthly, annually either within or outside of Westside where staff has the opportunity to increase their knowledge and skill set. Allowing for a more effective client-provider relationship in which staff is able to have a better understanding of the client's expectations and improve communication among each other. The staff have a clearer understanding on why the client does not follow instructions: for example, why the client takes a smaller dose of medicine than prescribed (because of a belief that Western medicine is "too strong"); or why the family, rather than the client, makes important decisions about the client's health care (because in the client's culture, major decisions are made by the family as a group).

- d. **Satisfaction with services-** Client participation in performance improvement is facilitated through the use of surveys and focus groups. In most programs, consumer surveys and or focus groups are conducted semi-annually.
- e. **Timely completion and use of outcome data, including CalOMS/ASAM-** A variety of analytical tools are utilized to evaluate the total care provided. Data sources include, but are not limited to: medical records, special studies, external reference databases, incident reports, statistics and historical patterns of performance, peer review, monitoring results, consumer satisfaction questionnaires, safety statistics, infection control data, referral sources, and cost analysis.

Westside uses a strength based approach to motivate clients. They are offered refreshments in our lobby and gift cards for medication compliance. Client no-show rates vary for many reasons including readiness for treatment, weather patterns, street drug availability, and economic factors. Research has shown that incentive programs can have an impact on treatment adherence and no-show rates. In July 2015 a protocol for the incentive program was developed. The decision was made to focus solely on dosing attendance for the initial phase of the incentive program. Client attendance was monitored on a monthly basis and clients were rewarded for their attendance at the beginning of the next month. No show data was collected each month and the effects of the

program were analyzed against historical trends. A two tier system was outlined: Clients who missed none of their scheduled dosing days would receive a \$10.00 grocery voucher and clients who missed one to three scheduled dosing days would receive a \$5.00 grocery voucher. Clients would meet with their counselor for the first counseling session the following month. And receive feedback on their attendance record. Counselors could use this opportunity to reinforce improvements and remind clients about the incentive program. No show patterns were analyzed various ways to determine the success of the program and which groups of clients were benefitting from the incentive program on a quarterly basis. The incentive program demonstrated that there is a positive correlation between medication compliance and incentive based services.

(1) Fee For Service (Monthly Reimbursement by Certified Units at Budgeted Unit Rates)

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month, based upon the number of units of service that were delivered in the preceding month. All deliverables associated with the SERVICES defined in Appendix A times the unit rate as shown in the appendices cited in this paragraph shall be reported on the invoice(s) each month. All charges incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

(2) Cost Reimbursement (Monthly Reimbursement for Actual Expenditures within Budget):

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month for reimbursement of the actual costs for SERVICES of the preceding month. All costs incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

B. Final Closing Invoice

(1) Fee For Service Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those SERVICES rendered during the referenced period of performance. If SERVICES are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY. CITY'S final reimbursement to the CONTRACTOR at the close of the Agreement period shall be adjusted to conform to actual units certified multiplied by the unit rates identified in Appendix B attached hereto, and shall not exceed the total amount authorized and certified for this Agreement.

(2) Cost Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those costs incurred during the referenced period of performance. C. Payment shall be made by the CITY to CONTRACTOR at the address specified in the section entitled "Notices to Parties."

D. Upon **the effective date** of this Agreement, contingent upon prior approval by the CITY'S Department of Public Health **of an invoice or claim submitted by Contractor, and** of each year's revised Appendix A (Description of Services) and each year's revised Appendix B (Program Budget and Cost Reporting Data Collection Form), and within each fiscal year, the CITY agrees to make an initial payment to CONTRACTOR not to exceed twenty-five per cent (25%) of the General Fund and MHSa (Prop 63) portions of the CONTRACTOR'S allocation for the applicable fiscal year.

CONTRACTOR agrees that within that fiscal year, this initial payment shall be recovered by the CITY through a reduction to monthly payments to CONTRACTOR during the period of October 1 through March 31 of the applicable fiscal year, unless and until CONTRACTOR chooses to return to the CITY all or part of the initial payment for that fiscal year. The amount of the initial payment recovered each month shall be calculated by dividing the total initial payment for the fiscal year by the total number of months for recovery. Any termination of this Agreement, whether for cause or for convenience, will result in the total outstanding amount of the initial payment for that fiscal year being due and payable to the CITY within thirty (30) calendar days following written notice of termination from the CITY.

CONTRACTOR understands that, of this maximum dollar obligation, **(\$834,221)** is included as a contingency amount and is neither to be used in Appendix B, Budget, or available to CONTRACTOR without a modification to this Agreement executed in the same manner as this Agreement or a revision to Appendix B, Budget, which has been approved by the Director of Health. CONTRACTOR further understands that no payment of any portion of this contingency amount will be made unless and until such modification or budget revision has been fully approved and executed in accordance with applicable CITY and Department of Public Health laws, regulations and policies/procedures and certification as to the availability of funds by the Controller. CONTRACTOR agrees to fully comply with these laws, regulations, and policies/procedures.

(1) For each fiscal year of the term of this Agreement, CONTRACTOR shall submit for approval of the CITY'S Department of Public Health a revised Appendix A, Description of Services, and a revised Appendix B, Program Budget and Cost Reporting Data Collection form, based on the CITY'S allocation of funding for SERVICES for the appropriate fiscal year. CONTRACTOR shall create these Appendices in compliance with the instructions of the Department of Public Health. These Appendices shall apply only to the fiscal year for which they were created. These Appendices shall become part of this Agreement only upon approval by the CITY.

(2) CONTRACTOR understands that, of the maximum dollar obligation stated above, the total amount to be used in Appendix B, Budget and available to CONTRACTOR for the entire term of the contract is as follows, notwithstanding that for each fiscal year, the amount to be used in Appendix B, Budget and available to CONTRACTOR for that fiscal year shall conform with the Appendix A, Description of Services, and Appendix B,

Appendix B Calculation of Charges

1. Method of Payment

A. Invoices furnished by CONTRACTOR under this Agreement must be in a form acceptable to the Contract Administrator and the CONTROLLER and must include the Contract Progress Payment Authorization number or Contract Purchase Number. All amounts paid by CITY to CONTRACTOR shall be subject to audit by CITY. The CITY shall make monthly payments as described below. Such payments shall not exceed those amounts stated in and shall be in accordance with the provisions of Section 3.3, COMPENSATION, of this Agreement.

Compensation for all SERVICES provided by CONTRACTOR shall be paid in the following manner. For the purposes of this Section, "General Fund" shall mean all those funds, which are not Work Order or Grant funds. "General Fund Appendices" shall mean all those appendices, which include General Fund monies.

(1) Fee for Service (Monthly Reimbursement by Certified Units at Budgeted Unit Rates)

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month, based upon the number of units of service that were delivered in the preceding month. All deliverables associated with the SERVICES defined in Appendix A times the unit rate as shown in the appendices cited in this paragraph shall be reported on the invoice(s) each month. All charges incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

(2) Cost Reimbursement (Monthly Reimbursement for Actual Expenditures within Budget):

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month for reimbursement of the actual costs for SERVICES of the preceding month. All costs associated with the SERVICES shall be reported on the invoice each month. All costs incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

B. Final Closing Invoice

(1) Fee for Service Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those SERVICES rendered during the referenced period of performance. If SERVICES are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY. CITY'S final reimbursement to the CONTRACTOR at the close of the Agreement period shall be adjusted to conform to actual units certified multiplied by the unit rates identified in Appendix B attached hereto, and shall not exceed the total amount authorized and certified for this Agreement.

(2) Cost Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only

those costs incurred during the referenced period of performance. If costs are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY.

C. Payment shall be made by the CITY to CONTRACTOR at the address specified in the section entitled "Notices to Parties."

D. Upon **the effective date** of this Agreement, contingent upon prior approval by the CITY'S Department of Public Health **of an invoice or claim submitted by Contractor, and** of each year's revised Appendix A (Description of Services) and each year's revised Appendix B (Program Budget and Cost Reporting Data Collection Form), and within each fiscal year, the CITY agrees to make an initial payment to CONTRACTOR not to exceed twenty-five per cent (25%) of the General Fund and MHSA (Prop 63) portions of the CONTRACTOR'S allocation for the applicable fiscal year.

CONTRACTOR agrees that within that fiscal year, this initial payment shall be recovered by the CITY through a reduction to monthly payments to CONTRACTOR during the period of October 1 through March 31 of the applicable fiscal year, unless and until CONTRACTOR chooses to return to the CITY all or part of the initial payment for that fiscal year. The amount of the initial payment recovered each month shall be calculated by dividing the total initial payment for the fiscal year by the total number of months for recovery. Any termination of this Agreement, whether for cause or for convenience, will result in the total outstanding amount of the initial payment for that fiscal year being due and payable to the CITY within thirty (30) calendar days following written notice of termination from the CITY.

2. Program Budgets and Final Invoice

A. Program is listed below:

Appendix B-1 Westside Methadone Maintenance Program

B. Compensation

Compensation shall be made in monthly payments on or before the 30th day after the DIRECTOR, in his or her sole discretion, has approved the invoice submitted by CONTRACTOR. The breakdown of costs and sources of revenue associated with this Agreement appears in Appendix B, Cost Reporting/Data Collection (CR/DC) and Program Budget, attached hereto and incorporated by reference as though fully set forth herein. The maximum dollar obligation of the CITY under the terms of this Agreement shall not exceed **Eight Million Eight Hundred Sixty Nine Thousand Seven Hundred Ninety Four Dollars (\$8,869,794)** for the period of **July 1, 2017 through June 30, 2022**.

CONTRACTOR understands that, of this maximum dollar obligation, **(\$816,352)** is included as a contingency amount and is neither to be used in Appendix B, Budget, or available to CONTRACTOR without a modification to this Agreement executed in the same manner as this Agreement or a revision to Appendix B, Budget, which has been approved by the Director of Health. CONTRACTOR further understands that no payment of any portion of this contingency amount will be made unless and until such modification or budget revision has been fully approved and executed in accordance with applicable CITY and Department of Public Health laws, regulations and policies/procedures and certification as to the availability of funds by the Controller. CONTRACTOR agrees to fully comply with these laws, regulations, and policies/procedures.

(1) For each fiscal year of the term of this Agreement, CONTRACTOR shall submit for approval of the CITY's Department of Public Health a revised Appendix A, Description of Services, and a revised Appendix B, Program Budget and Cost Reporting Data Collection form, based on the CITY's allocation of funding for SERVICES for the appropriate fiscal year. CONTRACTOR shall create these Appendices in compliance with the instructions of the Department of Public Health. These Appendices shall apply only to the fiscal year for which they were created. These Appendices shall become part of this Agreement only upon approval by the CITY.

(2) CONTRACTOR understands that, of the maximum dollar obligation stated above, the total amount to be used in Appendix B, Budget and available to CONTRACTOR for the entire term of the contract is as follows, notwithstanding that for each fiscal year, the amount to be used in Appendix B, Budget and available to CONTRACTOR for that fiscal year shall conform with the Appendix A, Description of Services, and Appendix B, Program Budget and Cost Reporting Data Collection form, as approved by the CITY's Department of Public Health based on the CITY's allocation of funding for SERVICES for that fiscal year.

July 1, 2018 through June 30, 2019	\$	1,573,776

July 1, 2020 through June 30, 2021	\$	1,535,391
July 1, 2021 through June 30, 2022	\$	1,535,391

12% Contingency	\$	816,352
TOTAL - July 1, 2017 through June 30, 2022	\$	8,869,794

CONTRACTOR understands that the CITY may need to adjust sources of revenue and agrees that these needed adjustments will become part of this Agreement by written modification to CONTRACTOR. In event that such reimbursement is terminated or reduced, this Agreement shall be terminated or proportionately reduced accordingly. In no event will CONTRACTOR be entitled to compensation in excess of these amounts for these periods without there first being a modification of the Agreement or a revision to Appendix B, Budget, as provided for in this section of this Agreement.

3. Services of Attorneys

No invoices for Services provided by law firms or attorneys, including, without limitation, as subcontractors of Contractor, will be paid unless the provider received advance written approval from the City Attorney.

4. State or Federal Medi-Cal Revenues

A. CONTRACTOR understands and agrees that should the CITY'S maximum dollar obligation under this Agreement include State or Federal Medi-Cal revenues, CONTRACTOR shall expend such revenues in the provision of SERVICES to Medi-Cal eligible clients in accordance with CITY, State, and Federal Medi-Cal regulations. Should CONTRACTOR fail to expend budgeted Medi-Cal revenues herein, the CITY'S maximum dollar obligation to CONTRACTOR shall be proportionally reduced in the amount of such unexpended revenues. In no event shall State/Federal Medi-Cal revenues be used for clients who do not qualify for Medi-Cal reimbursement.

B. CONTRACTOR further understands and agrees that any State or Federal Medi-Cal funding in this Agreement subject to authorized Federal Financial Participation (FFP) is an estimate, and actual amounts will be determined based on actual services and actual costs, subject to the total compensation amount shown in this Agreement.”

5. Reports and Services

No costs or charges shall be incurred under this Agreement nor shall any payments become due to CONTRACTOR until reports, SERVICES, or both, required under this Agreement are received from CONTRACTOR and approved by the DIRECTOR as being in accordance with this Agreement. CITY may withhold payment to CONTRACTOR in any instance in which CONTRACTOR has failed or refused to satisfy any material obligation provided for under this Agreement.

Appendix B Calculation of Charges

1. Method of Payment

A. Invoices furnished by CONTRACTOR under this Agreement must be in a form acceptable to the Contract Administrator and the CONTROLLER and must include the Contract Progress Payment Authorization number or Contract Purchase Number. All amounts paid by CITY to CONTRACTOR shall be subject to audit by CITY. The CITY shall make monthly payments as described below. Such payments shall not exceed those amounts stated in and shall be in accordance with the provisions of Section 3.3, COMPENSATION, of this Agreement.

Compensation for all SERVICES provided by CONTRACTOR shall be paid in the following manner. For the purposes of this Section, "General Fund" shall mean all those funds, which are not Work Order or Grant funds. "General Fund Appendices" shall mean all those appendices, which include General Fund monies.

(1) Fee for Service (Monthly Reimbursement by Certified Units at Budgeted Unit Rates)

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month, based upon the number of units of service that were delivered in the preceding month. All deliverables associated with the SERVICES defined in Appendix A times the unit rate as shown in the appendices cited in this paragraph shall be reported on the invoice(s) each month. All charges incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

(2) Cost Reimbursement (Monthly Reimbursement for Actual Expenditures within Budget):

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month for reimbursement of the actual costs for SERVICES of the preceding month. All costs associated with the SERVICES shall be reported on the invoice each month. All costs incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

B. Final Closing Invoice

(1) Fee for Service Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those SERVICES rendered during the referenced period of performance. If SERVICES are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY. CITY'S final reimbursement to the CONTRACTOR at the close of the Agreement period shall be adjusted to conform to actual units certified multiplied by the unit rates identified in Appendix B attached hereto, and shall not exceed the total amount authorized and certified for this Agreement.

(2) Cost Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those

costs incurred during the referenced period of performance. If costs are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY.

C. Payment shall be made by the CITY to CONTRACTOR at the address specified in the section entitled "Notices to Parties."

D. Upon **the effective date** of this Agreement, contingent upon prior approval by the CITY'S Department of Public Health **of an invoice or claim submitted by Contractor, and** of each year's revised Appendix A (Description of Services) and each year's revised Appendix B (Program Budget and Cost Reporting Data Collection Form), and within each fiscal year, the CITY agrees to make an initial payment to CONTRACTOR not to exceed twenty-five per cent (25%) of the General Fund and MHSA (Prop 63) portions of the CONTRACTOR'S allocation for the applicable fiscal year.

CONTRACTOR agrees that within that fiscal year, this initial payment shall be recovered by the CITY through a reduction to monthly payments to CONTRACTOR during the period of October 1 and January 1 through June 30 of the applicable fiscal year, unless and until CONTRACTOR chooses to return to the CITY all or part of the initial payment for that fiscal year. The amount of the initial payment recovered each month shall be calculated by dividing the total initial payment for the fiscal year by the total number of months for recovery. Any termination of this Agreement, whether for cause or for convenience, will result in the total outstanding amount of the initial payment for that fiscal year being due and payable to the CITY within thirty (30) calendar days following written notice of termination from the CITY.

2. Program Budgets and Final Invoice

A. Program is listed below:

Appendix B-1 Westside Methadone Maintenance Program

B. Compensation

Compensation shall be made in monthly payments on or before the 30th day after the DIRECTOR, in his or her sole discretion, has approved the invoice submitted by CONTRACTOR. The breakdown of costs and sources of revenue associated with this Agreement appears in Appendix B, Cost Reporting/Data Collection (CR/DC) and Program Budget, attached hereto and incorporated by reference as though fully set forth herein. The maximum dollar obligation of the CITY under the terms of this Agreement shall not exceed **Eight Million Eight Hundred Sixty Nine Thousand Seven Hundred Ninety Four Dollars (\$8,869,794)** for the period of **July 1, 2017 through June 30, 2022.**

CONTRACTOR understands that, of this maximum dollar obligation, **(\$767,722)** is included as a contingency amount and is neither to be used in Appendix B, Budget, or available to CONTRACTOR without a modification to this Agreement executed in the same manner as this Agreement or a revision to Appendix B, Budget, which has been approved by the Director of Health. CONTRACTOR further understands that no payment of any portion of this contingency amount will be made unless and until such modification or budget revision has been fully approved and executed in accordance with applicable CITY and Department of Public Health laws, regulations and policies/procedures and certification as to the availability of funds by the Controller. CONTRACTOR agrees to fully comply with these laws, regulations, and policies/procedures.

(1) For each fiscal year of the term of this Agreement, CONTRACTOR shall submit for approval of the CITY's Department of Public Health a revised Appendix A, Description of Services, and a revised Appendix B, Program Budget and Cost Reporting Data Collection form, based on the CITY's allocation of funding for SERVICES for the appropriate fiscal year. CONTRACTOR shall create these Appendices in compliance with the instructions of the Department of Public Health. These Appendices shall apply only to the fiscal year for which they were created. These Appendices shall become part of this Agreement only upon approval by the CITY.

(2) CONTRACTOR understands that, of the maximum dollar obligation stated above, the total amount to be used in Appendix B, Budget and available to CONTRACTOR for the entire term of the contract is as follows, notwithstanding that for each fiscal year, the amount to be used in Appendix B, Budget and available to CONTRACTOR for that fiscal year shall conform with the Appendix A, Description of Services, and Appendix B, Program Budget and Cost Reporting Data Collection form, as approved by the CITY's Department of Public Health based on the CITY's allocation of funding for SERVICES for that fiscal year.

12% Contingency	\$	767,722
TOTAL - July 1, 2017 through June 30, 2022	\$	8,869,794

CONTRACTOR understands that the CITY may need to adjust sources of revenue and agrees that these needed adjustments will become part of this Agreement by written modification to CONTRACTOR. In event that such reimbursement is terminated or reduced, this Agreement shall be terminated or proportionately reduced accordingly. In no event will CONTRACTOR be entitled to compensation in excess of these amounts for these periods without there first being a modification of the Agreement or a revision to Appendix B, Budget, as provided for in this section of this Agreement.

3. Services of Attorneys

No invoices for Services provided by law firms or attorneys, including, without limitation, as subcontractors of Contractor, will be paid unless the provider received advance written approval from the City Attorney.

4. State or Federal Medi-Cal Revenues

A. CONTRACTOR understands and agrees that should the CITY'S maximum dollar obligation under this Agreement include State or Federal Medi-Cal revenues, CONTRACTOR shall expend such revenues in the provision of SERVICES to Medi-Cal eligible clients in accordance with CITY, State, and Federal Medi-Cal regulations. Should CONTRACTOR fail to expend budgeted Medi-Cal revenues herein, the CITY'S maximum dollar obligation to CONTRACTOR shall be proportionally reduced in the amount of such unexpended revenues. In no event shall State/Federal Medi-Cal revenues be used for clients who do not qualify for Medi-Cal reimbursement.

B. CONTRACTOR further understands and agrees that any State or Federal Medi-Cal funding in this Agreement subject to authorized Federal Financial Participation (FFP) is an estimate, and actual amounts will be determined based on actual services and actual costs, subject to the total compensation amount shown in this Agreement.”

5. Reports and Services

No costs or charges shall be incurred under this Agreement nor shall any payments become due to CONTRACTOR until reports, SERVICES, or both, required under this Agreement are received from CONTRACTOR and approved by the DIRECTOR as being in accordance with this Agreement. CITY may withhold payment to CONTRACTOR in any instance in which CONTRACTOR has failed or refused to satisfy any material obligation provided for under this Agreement.

Appendix B Calculation of Charges

1. Method of Payment

A. Invoices furnished by CONTRACTOR under this Agreement must be in a form acceptable to the Contract Administrator and the CONTROLLER and must include the Contract Progress Payment Authorization number or Contract Purchase Number. All amounts paid by CITY to CONTRACTOR shall be subject to audit by CITY. The CITY shall make monthly payments as described below. Such payments shall not exceed those amounts stated in and shall be in accordance with the provisions of Section 3.3, COMPENSATION, of this Agreement.

Compensation for all SERVICES provided by CONTRACTOR shall be paid in the following manner. For the purposes of this Section, "General Fund" shall mean all those funds, which are not Work Order or Grant funds. "General Fund Appendices" shall mean all those appendices, which include General Fund monies.

(1) Fee for Service (Monthly Reimbursement by Certified Units at Budgeted Unit Rates)

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month, based upon the number of units of service that were delivered in the preceding month. All deliverables associated with the SERVICES defined in Appendix A times the unit rate as shown in the appendices cited in this paragraph shall be reported on the invoice(s) each month. All charges incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

(2) Cost Reimbursement (Monthly Reimbursement for Actual Expenditures within Budget):

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month for reimbursement of the actual costs for SERVICES of the preceding month. All costs associated with the SERVICES shall be reported on the invoice each month. All costs incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

B. Final Closing Invoice

(1) Fee for Service Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those SERVICES rendered during the referenced period of performance. If SERVICES are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY. CITY'S final reimbursement to the CONTRACTOR at the close of the Agreement period shall be adjusted to conform to actual units certified multiplied by the unit rates identified in Appendix B attached hereto, and shall not exceed the total amount authorized and certified for this Agreement.

(2) Cost Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those

costs incurred during the referenced period of performance. If costs are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY.

C. Payment shall be made by the CITY to CONTRACTOR at the address specified in the section entitled "Notices to Parties."

D. Upon **the effective date** of this Agreement, contingent upon prior approval by the CITY'S Department of Public Health **of an invoice or claim submitted by Contractor, and** of each year's revised Appendix A (Description of Services) and each year's revised Appendix B (Program Budget and Cost Reporting Data Collection Form), and within each fiscal year, the CITY agrees to make an initial payment to CONTRACTOR not to exceed twenty-five per cent (25%) of the General Fund and MHSA (Prop 63) portions of the CONTRACTOR'S allocation for the applicable fiscal year.

CONTRACTOR agrees that within that fiscal year, this initial payment shall be recovered by the CITY through a reduction to monthly payments to CONTRACTOR during the period of October 1 and January 1 through June 30 of the applicable fiscal year, unless and until CONTRACTOR chooses to return to the CITY all or part of the initial payment for that fiscal year. The amount of the initial payment recovered each month shall be calculated by dividing the total initial payment for the fiscal year by the total number of months for recovery. Any termination of this Agreement, whether for cause or for convenience, will result in the total outstanding amount of the initial payment for that fiscal year being due and payable to the CITY within thirty (30) calendar days following written notice of termination from the CITY.

2. Program Budgets and Final Invoice

A. Program is listed below:

Appendix B-1 Westside Methadone Maintenance Program

CONTRACTOR understands that, of this maximum dollar obligation, **(\$767,722)** is included as a contingency amount and is neither to be used in Appendix B, Budget, or available to CONTRACTOR without a modification to this Agreement executed in the same manner as this Agreement or a revision to Appendix B, Budget, which has been approved by the Director of Health. CONTRACTOR further understands that no payment of any portion of this contingency amount will be made unless and until such modification or budget revision has been fully approved and executed in accordance with applicable CITY and Department of Public Health laws, regulations and policies/procedures and certification as to the availability of funds by the Controller. CONTRACTOR agrees to fully comply with these laws, regulations, and policies/procedures.

(1) For each fiscal year of the term of this Agreement, CONTRACTOR shall submit for approval of the CITY's Department of Public Health a revised Appendix A, Description of Services, and a revised Appendix B, Program Budget and Cost Reporting Data Collection form, based on the CITY's allocation of funding for SERVICES for the appropriate fiscal year. CONTRACTOR shall create these Appendices in compliance with the instructions of the Department of Public Health. These Appendices shall apply only to the fiscal year for which they were created. These Appendices shall become part of this Agreement only upon approval by the CITY.

(2) CONTRACTOR understands that, of the maximum dollar obligation stated above, the total amount to be used in Appendix B, Budget and available to CONTRACTOR for the entire term of the contract is as follows, notwithstanding that for each fiscal year, the amount to be used in Appendix B, Budget and available to CONTRACTOR for that fiscal year shall conform with the Appendix A, Description of Services, and Appendix B, Program Budget and Cost Reporting Data Collection form, as approved by the CITY's Department of Public Health based on the CITY's allocation of funding for SERVICES for that fiscal year.

CONTRACTOR understands that the CITY may need to adjust sources of revenue and agrees that these needed adjustments will become part of this Agreement by written modification to CONTRACTOR. In event that such reimbursement is terminated or reduced, this Agreement shall be terminated or proportionately reduced accordingly. In no event will CONTRACTOR be entitled to compensation in excess of these amounts for these periods without there first being a modification of the Agreement or a revision to Appendix B, Budget, as provided for in this section of this Agreement.

3. Services of Attorneys

No invoices for Services provided by law firms or attorneys, including, without limitation, as subcontractors of Contractor, will be paid unless the provider received advance written approval from the City Attorney.

(OTP) services requirements; the Contractor shall comply with the following specific opioid (narcotic) treatment program services requirements:

1) Opioid (Narcotic) Treatment Program services shall include daily or several times weekly opioid agonist medication and counseling available for those with severe opioid disorder.

2) Service Components:

a) **Intake** - Admission criteria for clients is regulated by Title 9, which specifies that the client be at least 18 years of age, and has proof of addiction at the time of admission. To qualify for methadone maintenance, a person must meet the following minimum criteria: documentation of a 2 year history of opiate addiction, or, documentation of 2 prior attempts at detoxification using methadone; currently be addicted to opiate(s); and, Provide a legal, picture identification and Medi-Cal card if currently eligible for Medi-Cal services. Clients complete initial intake paperwork with the intake counselor followed by a physical examination by the physician. Before admitting a prospective client to methadone maintenance or supervised withdrawal services, the program physician conducts a physical health assessment including a medical history and physical examination. This assessment includes: Physical dependence and addiction to opiate(s); Symptoms of addiction; Complications caused by addiction; Family history of chronic or acute medical conditions Tuberculosis screening; Syphilis screening; Opt Out HIV screening; Urine drug screening; and, additional diagnostic testing can be conducted by referral if needed. WMTP follows regulations in the California Code of Regulations, Title 9, regarding multiple registrations.

Once eligibility has been determined through the initial assessments, and the intake is complete, the client is assigned a permanent counselor. A comprehensive psychosocial assessment is completed for both maintenance and supervised withdrawal (detoxification) clients. Prior to developing a client's initial treatment plan; the assigned counselor will complete the Psychosocial Assessment with the client within the first 28 days of admission per Title 9. Following the completion of the psychosocial assessment form, the counselor writes an assessment summary in the client's chart that identifies priorities for the client's initial treatment plan.

b) **Individual and Group Counseling** – As a Joint Commission accredited Opioid Treatment Program, our practices follow the highest standard of programming based on the guidelines set by the American Society of Addiction Medicine (ASAM), the Centers for Medicare and Medicaid Services and the Substance Abuse and Mental Health Services Administration (SAMHSA). Care, treatment and services are provided through a coordination of clinicians. The program provides comprehensive treatment requiring observed dosing, random urine drug testing and participation in counseling. Consistent counseling and linkages with licensed clinical therapists support the lifestyle changes necessary to progress in recovery.

c) **Patient Education** – Clients are referred from the SFDPH Centralized Opiate Program Evaluation (COPE) unit, the Treatment Access Program, Project Homeless Connect, other providers, or self-referral. Criteria for admission are mandated by Title 9. Clients must be at least 18 years of age and must provide proof of addiction at the time of admission. Within the Westside System of Care we have psychiatric, HIV/AIDS and psychosocial support within our own wellness and recovery system. This approach facilitates patient engagement and improves outcomes while using resources more efficiently. Strategies include providing a place where individuals who are not in crisis to come and feel safe; crisis access for individuals requiring immediate services; outreach targeting individuals in great need (e.g., the homeless) who are not already seeking services or cannot access

ordinary routing or crisis services, and local board and care hospitals to engage persons preparing for step-down care and access that is involuntary or mandated by the criminal justice system. Clients are also referred internally by other programs, from external sources such as other community providers, or by probation/parole and other criminal justice system agencies such as the Courts/Sheriff's Department. This approach incorporates SAMHSA's "No Wrong Door" policy by meeting clients where they are and providing individual assessment and to support clients at every stage of recovery and retain them until their treatment goals are achieved.

d) **Medication Services** - The Medical Director prescribes monitors, adjusts and manage methadone dosing. The clients' initial dose is determined and then titrated upwards in a "start-low, go-slow" manner. This is done as some research has suggested that there is an increased risk of methadone toxicity in the beginning of treatment. These cases were largely as a result of the initial dose being increased too quickly. After admission the doses are determined by the client's individual preference and opiate withdrawal symptoms. The ultimate stable dose of the client is determined by all of the following factors: illicit opiate use, client preference, and patient safety. In general most clients require around 80mg daily; however this number is different for every client. There is no scientific basis for artificial dose level ceilings as the physiology of every client is different. The ultimate goal at Westside is for the clients to become drug/alcohol free and to lead productive lives.

e) **Collateral Services** - While the medication is the cornerstone of therapy the value of psychosocial counseling and treatment cannot be understated. Studies have demonstrated that the best results are obtained when methadone is integrated with other medical, social, and psychiatric services. The counselor and the physician review these factors with each client to determine what services are appropriate for the client Maxine Hall Health Center, a city primary care clinic, shares the building with our program. This is very advantageous for our clients as it provides them with an easy avenue to obtain general medical care.

WMTP incorporates case-management as a client-centered intervention to improve the coordination and continuity of services for our clients that have complex needs. Case Management is incorporated into treatment through both individual case-management (ICM) and team-based case-management (TBCM).

WMTP utilizes a holistic approach to treatment, acknowledging that in order to successfully treat substance abuse, a variety of other issues such as housing, medical, legal, financial and vocational issues must be addressed. The intended outcome of the program is for participants to lead a lifestyle free of alcohol and drug use/abuse. WMTP provides intensive case management utilizing a psycho-educational process and skill building techniques in addition to group and individual counseling/case management sessions.

Utilizing case management as the cornerstone of treatment, counselors begin with the client "where the client is", responding to such tangible needs as food, shelter, clothing, transportation and medical care. This client-centered perspective is maintained as the client moves through treatment. Case management requires that the counselor apply his/her understanding of the natural course of addiction and recovery to foresee a problem, to understand the options available to manage it, and to take appropriate action. In some instances, the counselor may intervene directly; in others, the counselor will take action to ensure that another staff member on the treatment team intervenes as needed.

Staff members act as a treatment team, utilizing each discipline to provide quality care to clients. At monthly staff meetings counselors present clients that pose a challenge where the team approach to problem solving is advantageous. Also, counseling staff present clients who are or have met their treatment plan goals, emphasizing what approaches were most useful in assisting the client, so that all staff may learn and apply these successful approaches.

The treatment team monitors client progress in treatment by reviewing drug use, discussing with the client steps for remaining abstinent, and checking to see whether referrals are needed. Illicit substance use, indicated by either self-report or positive urine results, is also addressed in case management.

f) **Crisis Intervention Services-** Staff in the program conduct risk assessments that identifies specific characteristics of the clients served and environmental features that may increase or decrease the risk for suicide. Westside Methadone Program is also a part of Westside's overall integrated system of services which includes the Crisis Clinic to whom referrals can be made. The Crisis clinic is an integral part of the CBHS safety net in providing residents of San Francisco timely and responsive crisis and urgent care services. The program accepts clients who require urgent interim or stabilization medications prior to beginning services at an outpatient system of care clinic designed to prevent unnecessary hospitalization.

g) **Treatment Planning-** Our program emphasizes person-focused care, integrated and individualized approaches to OTP services and outcomes, increased patient-satisfaction, improved recruitment of staff, and enhanced community confidence and outcomes. WCS uses the ASAM Criteria of Care to guide how it approaches and implements Opioid Treatment Services. Our approach considers the whole person, designs treatment plans for each specific patient, uses individualized treatment times, acknowledges that "failure" is not a treatment prerequisite, but provides a spectrum of services or a continuum of care, and re-conceptualizes the definition of addiction and how it plays out in people and communities.

h) **Medical Psychotherapy** - one-on-one counseling conducted by the Medical Director with the beneficiary- The Medical Director and substance abuse counseling staff is available on-site every day for consultation and coordination. The Medical Director, substance abuse counselors, psychotherapists and nurses have direct contact with patients. The Medical Director leads the treatment team and has case conferences to ensure that treatment is coordinated and reinforced.

i) **Discharge Services** - Research has shown methadone medication to be effective for long-term treatment. Therefore clients are encouraged to remain in treatment to reinforce stabilization and prevent relapse. Clients wishing to leave the program against medical advice have a right to do so; staff is to explain the risks of such a decision and the program physician determines a methadone withdrawal schedule with client input. Both voluntary and administratively terminating clients receive a medically monitored withdrawal from methadone. Based on the client's medication taper/withdrawal, the last day of medication is known by the client with the staff able to provide the client with support throughout the withdrawal process. The program medical director/physician adjusts the medication dose as needed or requested by the client. Only by client request, will a "blind taper" be ordered by the physician, to support the client's choice in reducing their medication without knowing the specific daily amount.

Clients are not discharged until after a 2 week (14 days) period has passed. Once it has been determined that a client is to be discharged from the clinic the medical staff generate a final dosing

sheet; the counseling staff will generate a discharge summary and a closing episode that signifies a complete record has been produced for the client.

A review of the client's progress in treatment by client and counselor provides a perspective on goals met by the client during methadone treatment and helps identify areas for referral or further care. The Discharge Summary form is completed by the counselor and placed in the client's chart.

8. Continuous Quality Improvement (CQI):

Westside has been committed to improving cultural and linguistic competency in the business functions that support outcome-based planning and accountability. Westside adheres to the culturally and Linguistically Appropriate Services (CLAS) standards developed by the Office of Minority Health, U.S. Department of Health and Human Services, as a guide for developing a Cultural Competent Quality Improvement Plan to support CQI in our service delivery system.

Westside's CQI structure is designed to provide a consistent process for improving the care provided, improve satisfaction of our clients, compare performance against benchmarks, reduce inefficiencies, effect change harmoniously, and conserve resources. Quality Assurance and Improvement activity crosses all departments and services in order to respond to the needs of the client, staff, and community. Included in this system is the management of information which includes client specific, aggregate, and comparative data. In order to conserve resources, Quality Assurance and Quality Improvement focus on high risk, high volume, problem prone, and regulatory required issues. Both outcomes and processes are included in the overall approach.

- a. **Achievement of contract performance objectives and productivity-** The committee provides direction for planning, strategy development, monitoring, educating and promoting the

acquisition and application of the knowledge necessary for improvement of quality. This includes guidance to any special teams or task forces chosen to address specific opportunity for improvement through the use of Continuous Quality Improvement philosophies and strategies. Westside employs a systematic approach for improving the organization's performance by improving existing processes. Westside utilizes the Plan Do Check Act approach to problem solving. This system is used as a guide for many of our performance improvement activities.

Outcomes measured are different for each program, but in general include: decrease in symptoms, improvement in functional status, quality of life satisfaction, welfare and safety outcomes (suicide, suicide attempts, criminal justice involvement, victimization, homelessness). Compliance measures are tied in to performance evaluation with oversight by the QI committee and Leadership.

Westside Community Services strives to fulfill its mission to the clients, staff, and community. The organization's leaders, managers, clinical support staff, clinical staff, medical staff, and nursing staff are committed to plan, design, and measure, assess, and improve performance and processes as part of the approach to fulfill the mission. Through Quality Improvement activities in conjunction with regular communications with the CEO, the governing body is provided with information it needs in fulfilling the Agency's mission and responsibility for the quality of client care.

- b. Quality of documentation, including a description of the frequency and scope of internal chart audits-** The Committee meets monthly unless it is identified that an additional meeting is necessary. The proponents of our QI activities include: Weekly program staff meetings, clinical case conferences within the program, difficult case conferences and consultation, group supervision, regular discussions/updates in evidence-based practices, staff trainings and continuing education, critical incident review and debriefing, PURQC- utilization review, monthly peer review, regular chart reviews, quarterly audits conducted by the committee, and use of practice guidelines. Managers/Coordinators regularly report to CCO or Division Director regarding supervision, individual and program performance issues, critical incidents, grievances, client feedback and quarterly peer review findings.
- c. Cultural competency of staff and services-** Cultural competence of the communities it serves is central to Westside's treatment philosophy. Through cultural knowledge and awareness, Westside is able to develop and deliver effective treatment that is tailored to meet the needs of the individual and his/her family. The therapeutic strategies employed in treatment are strengths-based and focus on harm reduction as a positive path towards recovery. Clients are involved in every aspect of their treatment, which is based on their own self-identified needs and goals, allowing them to define their own success. Westside embraces family-focused treatment and values the power of the family unit as a source of strength during treatment. The Westside staff works to empower clients and their families to work together towards their goals of recovery and helps to create a community support network to make successful treatment possible. At Westside we believe cultural diversity and competence is a process that occurs along a continuum and we are always striving to develop and deliver services that meet the need of our clients. Delivering culturally aware and competent services is an ongoing topic woven into clinical conversation and the therapeutic environment by discussing cultural issues in administrative supervision, adding multicultural art to the environment and ongoing recruitment of employees that reflect the multicultural diversity found in the community we serve.

We continue to assess the cultural and linguistic training needs for the program staff using employee feedback received via staff meetings, employee surveys and consumer feedback. As we continue to monitor and update our strategic plan for the next five years we have begun to strategize on other assessment strategies to aid us determining our cultural and linguistic training needs.

Westside's philosophy is to provide training opportunities for employees to assure competent services. Employees are encouraged and/or required to attend relevant conferences, workshops, seminars and classes. Continuous trainings are held weekly, monthly, annually either within or outside of Westside where staff has the opportunity to increase their knowledge and skill set. Allowing for a more effective client-provider relationship in which staff is able to have a better understanding of the client's expectations and improve communication among each other. The staff have a clearer understanding on why the client does not follow instructions: for example, why the client takes a smaller dose of medicine than prescribed (because of a belief that Western medicine is "too strong"); or why the family, rather than the client, makes important decisions about the client's health care (because in the client's culture, major decisions are made by the family as a group).

- d. **Satisfaction with services-** Client participation in performance improvement is facilitated through the use of surveys and focus groups. In most programs, consumer surveys and or focus groups are conducted semi-annually.
- e. **Timely completion and use of outcome data, including CalOMS/ASAM-** A variety of analytical tools are utilized to evaluate the total care provided. Data sources include, but are not limited to: medical records, special studies, external reference databases, incident reports, statistics and historical patterns of performance, peer review, monitoring results, consumer satisfaction questionnaires, safety statistics, infection control data, referral sources, and cost analysis.

Westside uses a strength based approach to motivate clients. They are offered refreshments in our lobby and gift cards for medication compliance. Client no-show rates vary for many reasons including readiness for treatment, weather patterns, street drug availability, and economic factors. Research has shown that incentive programs can have an impact on treatment adherence and no-show rates. In July 2015 a protocol for the incentive program was developed. The decision was made to focus solely on dosing attendance for the initial phase of the incentive program. Client attendance was monitored on a monthly basis and clients were rewarded for their attendance at the beginning of the next month. No show data was collected each month and the effects of the program were analyzed against historical trends. A two tier system was outlined: Clients who missed none of their scheduled dosing days would receive a \$10.00 grocery voucher and clients who missed one to three scheduled dosing days would receive a \$5.00 grocery voucher. Clients would meet with their counselor for the first counseling session the following month. And receive feedback on their attendance record. Counselors could use this opportunity to reinforce improvements and remind clients about the incentive program. No show patterns were analyzed various ways to determine the success of the program and which groups of clients were benefitting from the incentive program on a quarterly basis. The incentive program demonstrated that there is a positive correlation between medication compliance and incentive based services.

FOR CONTRACTS WITH DRUG MEDI-CAL, FEDERAL SAPT OR STATE FUNDS:

I. Subcontractor Documentation

The provider shall require its subcontractors that are not licensed or certified by DHCS to submit organizational documents to DHCS within thirty (30) days of execution of an initial subcontract, within ninety (90) days of the renewal or continuation of an existing subcontract or when there has been a change in subcontractor name or ownership. Organizational documents shall include the subcontractor's Articles of Incorporation or Partnership Agreements (as applicable), and business licenses, fictitious name permits, and such other information and documentation as may be requested by DHCS.

Records

Contractor shall maintain sufficient books, records, documents, and other evidence necessary for State to audit contract performance and contract compliance. Contractor will make these records available to State, upon request, to evaluate the quality and quantity of services, accessibility and appropriateness of services, and to ensure fiscal accountability. Regardless of the location or ownership of such records, they shall be sufficient to determine the reasonableness, allowability, and allocability of costs incurred by Contractor.

1. Contracts with audit firms shall have a clause to permit access by State to the working papers of the external independent auditor, and copies of the working papers shall be made for State at its request.
2. Providers shall keep adequate and sufficient financial records and statistical data to support the year-end documents filed with State.
3. Accounting records and supporting documents shall be retained for a three-year period from the date the year-end cost settlement report was approved by State for interim settlement. When an audit has been started before the expiration of the three-year period, the records shall be retained until completion of the audit and final resolution of all issues that arise in the audit. Final settlement shall be made at the end of the audit and appeal process. If an audit has not begun within three years, the interim settlement shall be considered as the final settlement.
4. Financial records shall be kept so that they clearly reflect the source of funding for each type of service for which reimbursement is claimed. These documents include, but are not limited to, all ledgers, books, vouchers, time sheets, payrolls, appointment schedules, client data cards, and schedules for allocating costs.
5. Provider's shall require that all subcontractors comply with the requirements of this Section A.
6. Should a provider discontinue its contractual agreement with subcontractor, or cease to conduct business in its entirety, provider shall be responsible for retaining the subcontractor's fiscal and program records for the required retention period. The State Administrative Manual (SAM) contains statutory requirements governing the retention, storage, and disposal of records pertaining to State funds.

If provider cannot physically maintain the fiscal and program records of the subcontractor, then arrangements shall be made with State to take possession and maintain all records.
7. In the expenditure of funds hereunder, and as required by 45 CFR Part 96, Contractor shall comply with the requirements of SAM and the laws and procedures applicable to the obligation and expenditure of State funds.

II Patient Record Retention

Provider agrees to establish, maintain, and update as necessary, an individual patient record for each beneficiary admitted to treatment and receiving services.

Drug Medi-Cal contracts are controlled by applicable provisions of: (a) the W&I, Chapter 7, Sections 14000, et seq., in particular, but not limited to, Sections 14100.2, 14021, 14021.5, 14021.6, 14043, et seq., (b) Title 22, including but not limited to Sections 51490.1, 51341.1 and 51516.1; and (c) Division 4 of Title 9 of the California Code of Regulations (hereinafter referred to as Title 9).

Established by DMC status and modality of treatment, each beneficiary's individual patient record shall include documentation of personal information as specified in either AOD Standards; Title 22; and Title 9. Contractor agrees to maintain patient records in accordance with the provision of treatment regulations that apply.

Providers, regardless of DMC certification status, shall maintain all of the documentation in the beneficiary's individual patient record for a minimum of seven (7) years from the date of the last face-to-face contact between the beneficiary and the provider.

In addition providers shall maintain all of the documentation that the beneficiary met the requirements for good cause specified in Section 51008.5, where the good cause results from beneficiary-related delays, for a minimum of seven (7) years from the date of the last face-to-face contact.
