[Planning Code - Transit-Oriented Residential Development]

Ordinance 1) temporarily excluding certain sites from the provisions of California Senate Bill No. 79 (SB 79) that require local jurisdictions to allow residential uses at various densities, heights, and floor area ratios on sites within one-half mile of a transit-oriented development stop; 2) permanently excluding from those provisions of SB 79 sites located in industrial employment hubs, including certain sites zoned M (Industrial), SALI (Service/Arts/Light Industrial), PDR (Production, Distribution, Repair), WMUG (WSoMa Mixed Use-General), and P (Public), and sites with a walking path of more than one mile to the closest transit development stop; 3) amending the Planning Code to permit additional density and height for residential projects on certain parcels within one-half mile of a transit-oriented development stop; 4) adopting an Alternative Plan to SB 79, including making findings that the Alternative Plan provides equivalent development capacity; 5) making findings that these exemptions and the City's residential capacity meet the requirements of SB 79; and 6) directing the Clerk of the Board of Supervisors to transmit a copy of this Ordinance to the California Department of Housing and Community Development; affirming the Planning Department's determination under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1; and making public necessity, convenience, and welfare findings under Planning Code, Section 302.

NOTE: **Unchanged Code text and uncodified text** are in plain Arial font.
Additions to Codes are in *single-underline italics Times New Roman font*.
Deletions to Codes are in ~~*strikethrough italics Times New Roman font*~~.
Board amendment additions are in double-underlined Arial font.
Board amendment deletions are in ~~strikethrough Arial font~~.
Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Environmental and Land Use Findings.

(a) On March 12, 2026, pursuant to California Government Code Section 65912.160(c)(2), the Planning Department determined that this ordinance is not a project for purposes of the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. 260132 and is incorporated herein by reference. The Board affirms this determination.

(b) On March 19, 2026, the Planning Commission, in Resolution No. 21901, adopted findings that the actions contemplated in this ordinance are consistent, on balance, with the City's General Plan and eight priority policies of Planning Code Section 101.1. The Board adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the Board of Supervisors in File No. 260132, and is incorporated herein by reference.

(c) Pursuant to Planning Code Section 302, this Board finds that these Planning Code amendments will serve the public necessity, convenience, and welfare for the reasons set forth in Planning Commission Resolution No. 21901, and the Board adopts such reasons as its own. A copy of said resolution is on file with the Clerk of the Board of Supervisors in File No. 260132 and is incorporated herein by reference.

(d) In Planning Commission Resolution No. 21901, the Planning Commission also adopted findings regarding the City's implementation of and compliance with Senate Bill ("SB") 79, found in California Government Code Sections 65912.155 through 65912.162. The findings relate to parcels excluded from SB 79, and the City's alternative plan. The Board adopts these findings as its own, and incorporates the findings by reference.

Section 2. Additional Findings.

(a) On October 10, 2025, the Legislature enacted SB 79. SB 79 takes effect on July 1, 2026, and will require local governments to permit residential development on sites within one-half mile of defined transit-oriented development stops, up to specified density limits, floor area ratios, and height limits. The applicable standards vary according to the type of transit stop and the site's distance from the stop.

(b) A local government may declare that certain parcels in the ½ mile radius of a transit-oriented development stop (a "transit-oriented development zone") are permanently exempt from SB 79 if those sites meet specified criteria in California Government Code Section 65912.160(e). Section 3 of this ordinance exempts certain parcels from SB 79 pursuant to California Government Code Section 65912.160, and makes findings in support of the exemptions.

(c) A local government may also declare that certain parcels in transit-oriented development zones are temporarily exempt from SB 79, if those sites meet specified criteria in California Government Code Section 65912.161(b). The temporary exemption expires one year following the adoption of the next revision of the jurisdiction's housing element in its general plan. Section 4 of this ordinance temporarily exempts certain parcels from SB 79 pursuant to California Government Code Section 65912.161, and makes findings in support of the temporary exemptions.

(d) On December 12, 2025, the City enacted Ordinance Nos. 243-25, 244-25, and 245-25, also known as the "Family Zoning Plan." The Family Zoning Plan, through amendments to the Planning Code and Zoning Maps, created increased capacity for multi-family housing primarily in San Francisco's well-resourced and relatively less populated neighborhoods.

(e) Based on a preliminary analysis, the Planning Department estimates that SB 79 applies to more than 75% of the assessor's parcels in the City, covering approximately 65% of

the City on a land area basis. There is significant overlap between the transit-oriented development zones specified in SB 79 and the areas subject to the Family Zoning Plan. While the Family Zoning Plan significantly expanded the Residential Capacity for many sites that would be subject to SB 79, existing zoning in many places both inside and outside of the Family Zoning Plan area already substantially exceeds the zoning standards of SB 79.

(f) A local government may adopt a transit-oriented development alternative plan ("Alternative Plan") consistent with California Government Code Section 65912.161(a). The City's existing zoning is sufficient to meet most of the criteria for an Alternative Plan. But the zoning for some parcels in transit-oriented development zones does not meet the minimum density requirement, which requires that every parcel whose zoning permits housing in an Alternative Plan allow at least 50% of the permitted SB 79 density, as measured in permitted residential density per acre. This individual parcel density allowance is one of the requirements for an Alternative Plan. Section 5 of this ordinance adopts modest zoning changes on these parcels to satisfy the minimum SB 79 requirements.

(g) If a local government adopts an Alternative Plan, the state-mandated zoning provisions of SB 79, in California Government Code Section 65912.157, will not apply in that jurisdiction until its next Housing Element cycle. Section 6 of this ordinance adopts the City's Alternative Plan to SB 79 pursuant to California Government Code Sections 65912.160 and 65912.161.

(h) At least 14 days prior to the adoption of an ordinance pursuant to SB 79, local governments must submit a draft ordinance to the Department of Housing and Community Development ("HCD"). On February 10, 2026, the Planning Department transmitted a draft of this ordinance to HCD for review, in accordance with California Government Code Section 65912.160. A copy of this correspondence is on file with the Clerk of the Board in File No. 260132.

(i) Following enactment of this ordinance, the City must submit a copy of the ordinance to HCD within 60 days.

Section 3. Sites Permanently Exempt From SB 79.

Consistent with California Government Code Section 65912.160(e), a local government may declare that parcels in transit-oriented zones are permanently exempt from the state-mandated zoning provisions in Government Code Section 65912.157, if the local government makes findings supported by substantial evidence that: (1) there exists no walking path of less than one mile between that parcel and the transit-oriented development stop; or (2) the parcel is part of an industrial employment hub, as defined in Government Code Section 65912.160(e). The Planning Commission, in Resolution No. 21901, found that the parcels listed in "Table of Permanent Exclusions," on file with the Clerk of the Board of Supervisors in Board File No. 260132, are exempt from SB 79 because they satisfy one or both of these criteria. The Board affirms these findings, adopts them as its own, and permanently exempts the listed parcels from SB 79.

Section 4. Sites Temporarily Exempt From SB 79.

Consistent with California Government Code Section 65912.161(b), a local government may declare that parcels in transit-oriented zones are temporarily exempt from the state-mandated zoning provisions in Government Code Section 65912.157. The exemption expires one year following the adoption of the jurisdiction's seventh housing element revisions. Parcels eligible for this temporary exemption include parcels in an area designated as low resource on the most recently adopted version of the opportunity area maps published by the California Tax Credit Allocation Committee, within a jurisdiction that cumulatively allows for at least 50% of the Residential Capacity required by SB 79. The Planning Commission, in

Resolution No. 21901, found that the parcels listed in "Table of Temporary Exemptions-Low Resource Parcels," on file with the Clerk of the Board of Supervisors in Board File No. 260132, meet one or more of these criteria and are exempt from SB 79. The Board affirms these findings, adopts them as its own, and exempts the listed parcels from SB 79.

Section 5. Article 2 of the Planning Code is hereby amended by adding Section 207.11 to read as follows:

SEC. 207.11. TRANSIT-ORIENTED DEVELOPMENT – DENSITY AND HEIGHT EXCEPTION.

*(a) **Purpose.** This Section 207.11 implements the transit-oriented development policies in Senate Bill No. 79 (2025) ("SB79"), codified in California Government Code Sections 65912.155 et seq. That bill requires jurisdictions in certain urban transit counties to permit housing at specified densities and heights for development located near defined transit-oriented development stops, unless the jurisdiction makes findings that the sites are exempt, or adopts a transit-oriented development alternative plan ("Alternative Plan"). The density and height exception in this Section 207.11 facilitates the City's adoption of its Alternative Plan. In the ordinance enacting this Section 207.11, on file in Board of Supervisors File No. 260132, the Board adopted the Alternative Plan, and made findings that certain parcels listed in that Board File are exempt from SB 79.*

*(b) **Applicability.** This Section 207.11 applies to residential development projects on parcels meeting all of the following conditions:*

(1) Is partially or fully located within one-half mile of a "transit-oriented development stop," as defined in California Government Code Section 65912.156.

(2) Is located in a zoning district that principally permits residential Uses.

(3) Either limits residential density by Numeric Density, or has a height limit of less than 40 feet.

(4) Is located outside of the R-4 height and bulk district.

(5) Is not seeking a density bonus pursuant to Section 206.6.

(6) Is not a parcel permanently or temporarily exempted from SB79 pursuant to the ordinance enacting this Section 207.11, on file with the Clerk of the Board in File No. 260132.

(7) Is not a parcel with a Historic Building that is individually designated as a landmark under Article 10 of this Code, listed as a contributor to an historic district listed in Article 10, or listed as a Significant or Contributory Building under Article 11 with a Category I, II, III, or IV rating.

(8) The permitted density prior to applying the density and height exception in subsection (c) does not meet the minimum density required by California Government Code Section 65912.157.

(c) ***Density and Height Exception.*** *For a parcel meeting the criteria in subsection (b), the density and height exception in this subsection (c) shall apply.*

(1) ***Additional Density.*** *The applicable residential density limit for any housing development project located on a site meeting the criteria in subsection (b) shall be up to 50% of the density permitted on that parcel pursuant to the requirements in California Government Code Section 65912.157. For any parcel that is partially located in the Coastal Zone, the density exception shall apply to the entire parcel, however residential development shall be limited to the portions of the parcel located outside of the Coastal Zone.*

(2) ***Additional Height.*** *For any housing development project located on a site meeting the criteria in subsection (b) and with a height limit of less than 40 feet, the applicable height limit shall be 40 feet.*

Section 6. Adoption of Alternative Plan; Directing Planning Department to Post Online Maps.

(a) Pursuant to California Government Code Sections 65912.160 and 65912.161, local governments may adopt an Alternative Plan, which prevents the state-mandated zoning provisions of SB 79, in Government Code Section 65912.157, from taking effect in the City. The Alternative Plan must generally allow citywide, at least the same total net zoned residential capacity, as permitted under SB 79, across all transit-oriented development zones. Within any individual transit-oriented development zone, the Alternative Plan must allow no less than 50% of the net zoned residential capacity permitted under SB 79 in that transit-oriented development zone. For sites that permit more residential capacity than required by SB 79, an individual site's maximum capacity counted toward the Alternative Plan cannot exceed 200% of the residential capacity required by SB 79. An individual site's permitted residential capacity may not be reduced to less than 50% of the site's residential capacity under SB 79, unless the site meets the criteria specified in California Government Code Section 65912.161(a)(2).

(b) The Planning Commission, in Resolution No. 21901, found that the Residential Capacity for parcels listed in "Table Demonstrating Housing Capacity for Alternative Plan," on file with the Clerk of the Board of Supervisors in Board File No. 260132, satisfy the requirements of SB 79. Consistent with the requirements of California Government Code Section 65912.161(a), the aforementioned table lists the sites included in the Alternative Plan and includes data sufficient to demonstrate each individual site's compliance with the residential capacity requirements for an Alternative Plan, each transit-oriented development zone's compliance with the residential capacity requirements for an Alternative Plan, and the overall residential capacity requirements across all station areas. The residential capacity compliance findings include the capacity created by the Planning Code amendments in Section 5 of this ordinance. The Board finds that the existing zoned capacity for these sites,

as modified by the amendments in Section 5 of this ordinance, satisfies the requirements for an Alternative Plan.

(c) The Board of Supervisors directs the Planning Department to update online maps to reflect all exemptions from SB 79 per this ordinance in accordance with California Government Code Section 65912.161(b)(2).

Section 7. Transmittal to HCD.

The Board directs the Planning Department to transmit a final copy of this ordinance to HCD no later than 60 days after enactment.

Section 8. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors intends to amend only those words, phrases, paragraphs, subsections, sections, articles, numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal Code that are explicitly shown in this ordinance as additions, deletions, Board amendment additions, and Board amendment deletions in accordance with the "Note" that appears under the official title of the ordinance.

Section 9. Effective Date. This ordinance shall become effective at 12:00 a.m. on the 31st day after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

FILE NO. 260132

LEGISLATIVE DIGEST

[Planning Code - Transit Oriented Residential Development]

Ordinance 1) temporarily excluding certain sites from the provisions of California Senate Bill No. 79 (SB 79) that require local jurisdictions to allow residential uses at various densities, heights, and floor area ratios on sites within one-half mile of a transit-oriented development stop; 2) permanently excluding from those provisions of SB 79 sites located in industrial employment hubs, including certain sites zoned M (Industrial), SALI (Service/Arts/Light Industrial), PDR (Production, Distribution, Repair), WMUG (WSoMa Mixed Use-General), and P (Public), and sites with a walking path of more than one mile to the closest transit development stop; 3) amending the Planning Code to permit additional density and height for residential projects on certain parcels within one-half mile of a transit-oriented development stop; 4) adopting an Alternative Plan to SB 79, including making findings that the Alternative Plan provides equivalent development capacity; 5) making findings that these exemptions and the City's residential capacity meet the requirements of SB 79; and 6) directing the Clerk of the Board of Supervisors to transmit a copy of this Ordinance to the California Department of Housing and Community Development; and affirming the Planning Department's determination under the California Environmental Quality Act; making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1; and making public necessity, convenience, and welfare findings under Planning Code, Section 302.

Existing Law

Senate Bill No. 79 ("SB79"), effective July 1, 2026, requires local jurisdictions to allow residential uses at various densities, heights, and floor area ratios on sites within one-half mile of a "transit oriented development stop." Generally, transit oriented development ("TOD") stops are existing rail or bus rapid transit stations, ferry terminals, and intersections of major bus lines. The required minimum height, density, and FAR of a parcel within a TOD zone is based on the distance from the stop and the type of stop (bus stop, light rail, heavy rail), but ranges from 55 feet and 80 dwelling units per acre, to 95 feet and 160 dwelling units per acre. The minimum floor area ratio ranges from 2.5 to 4.5. Please see the table below in "Background Information."

Local jurisdictions may exempt parcels within a TOD zone if the parcels are located in areas zoned for industrial uses, or if the walking distance from the parcel to the closest entrance to the stop or station is greater than one mile.

Local jurisdictions may also temporarily (until one year after the jurisdiction adopts its next housing element) exempt additional parcels if the parcels allow at least 50% of the density allowed under SB 79, are designated on a local historic register as of January 1, 2025, or are located in low resource areas in jurisdictions that cumulatively allow at least 50% of total

capacity in all TOD zones. San Francisco's total cumulative capacity across all TOD zones is greater than 50% of SB 79's required capacity. San Francisco's next housing element is due January 31, 2031.

SB 79 also allows local jurisdictions to exempt the jurisdiction from the requirements of SB 79 altogether if the overall residential capacity of the jurisdiction meets or exceeds the residential capacity allowed under SB 79, and if each parcel within a TOD zone (i.e. within one-half mile of the TOD stop) allows at least 50% of the capacity as otherwise allowed on the parcel by SB 79. To qualify for this exemption, the jurisdiction must adopt by ordinance an "Alternative Plan," which must be approved by the State Department of Housing and Community Development.

The San Francisco Planning Code governs the heights and densities of parcels within San Francisco. Most, but not all, parcels within one-half mile of a TOD stop allow a minimum of at least 50% of the capacity required by SB 79.

Amendments to Current Law

This ordinance would permanently exclude certain sites within one-half mile of a TOD stop from the requirements of SB 79, including sites zoned M, SALI, PDR, WMUG, and P, as well as one site with a walking path of more than one mile from the closest transit development stop.

The ordinance would also temporarily exclude certain sites from the requirements of SB 79 until one year after the City adopts its next housing element. Temporarily excluded sites include sites within low resource areas (generally, sites within the Priority Equity Geography Special Use District).

This ordinance would amend the Planning Code to allow a density exception to increase the allowed minimum residential capacity on parcels within one-half mile of a TOD stop that do not otherwise meet at least 50% of the minimum capacity under SB 79. The density exception would allow up to 50% of the capacity required under SB 79. The density exception would not be available to projects on parcels subject to R-4 height and bulk zoning (adopted in the Family Zoning Plan in Ordinance No. 245-25), projects using the state density bonus, or projects on parcels with a historic resource designated prior to January 1, 2025. Projects on parcels with a height limit of less than 40 feet would be allowed at least 40 feet in height.

Finally, the ordinance would adopt an Alternative Plan, which, if approved by HCD would exempt the City from the requirements of SB 79 until the City adopts the next housing element.

Background Information

SB 79 (Weiner, 2025) requires local jurisdictions to allow minimum heights, densities and floor area ratios of housing development projects on parcels within one-half mile of TOD stops. The minimum heights, densities, and FAR required by SB 79 varies based on the type of transit and distance to the stop, as set forth in the table below.

Location	Permitted Development within ½ mile of **BART or Caltrain** (Tier 1 Stop)	Permitted development within ½ mile of **Muni Metro, ferry, Muni BRT** (Tier 2 Stop)
Adjacent to TOD stop (within 200 feet of a pedestrian access point)	Height: 95 feet Density: 160 du/ac FAR 4.5	Height: 85 feet Density: 140 du/ac FAR 4.0
Within ¼ mile of TOD stop	Height: 75 feet Density: 120 du/ac FAR 3.5	Height: 65 feet Density: 100 du/ac FAR 3.0
Between ¼ and ½ mile of TOD stop	Height: 65 feet Density: 100 du/ac FAR 3.0	Height: 55 feet Density: 80 du/ac FAR 2.5

San Francisco, CA 94102

Re: **Transmittal of Planning Department Case Number:** 2026-001412PCA
Transit-Oriented Residential Development (SB 79 Implementation)
Board File No. 260132

Planning Commission Action: **Adopted a Recommendation for Approval with Modifications**

Dear Ms. Calvillo and Mayor Lurie,

On March 19, 2026, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance introduced by Mayor Lurie on February 10, 2026. The proposed Ordinance would amend the Planning Code by adding Section 207.11 and locally implement California Senate Bill 79 (SB 79), including temporarily excluding certain sites from the provisions of SB 79, permanently excluding certain sites from the provisions of SB 79, adopting an Alternative Plan to SB 79, making findings that the Alternative Plan meets the requirements of SB 79, and directing the Clerk of the Board of Supervisors to transmit a copy of this ordinance to the California Department of Housing and Community Development.

At the hearing, the Planning Commission adopted a recommendation for approval with modifications.

The Commissions recommended modifications include:

The correction of a clerical error in the Ordinance, changing the zoning district WSoMa Mixed-Use General (WMUG) to WSoMA Mixed-Use Office (WMUO).

Pursuant to Government Code Section 65912.160 (c)(2), a local ordinance implementing SB 79 is not a project subject to CEQA.

Mayor Lurie, please advise the City Attorney at your earliest convenience if you wish to incorporate the changes recommended by the Commission.

Please find attached documents relating to the actions of the Commission. If you have any questions or require further information please do not hesitate to contact me.

Sincerely,

Audrey Merlone
Acting Manager of Legislative Affairs

HEARING DATE: March 19, 2026

Project Name:	Transit-Oriented Residential Development (SB 79 Implementation)
Case Number:	2026-001412PCA [Board File No. 260132]
Initiated by:	Mayor Daniel Lurie / Introduced February 10, 2026
Staff Contact:	Sarah Richardson, Planner sarah.richardson@sfgov.org, 628-652-7450
Reviewed by:	Joshua Switzky, Deputy Director of Community Planning joshua.switzky@sfgov.org, 628-652-7464

RESOLUTION ADOPTING A RECOMMENDATION FOR APPROVAL OF A PROPOSED ORDINANCE THAT 1) TEMPORARILY EXCLUDES CERTAIN SITES FROM THE PROVISIONS OF CALIFORNIA SENATE BILL NO. 79 (SB 79) THAT REQUIRE LOCAL JURISDICTIONS TO ALLOW RESIDENTIAL USES AT VARIOUS DENSITIES, HEIGHTS, AND FLOOR AREA RATIOS ON SITES WITHIN ONE-HALF MILE OF A TRANSIT-ORIENTED DEVELOPMENT STOP; 2) PERMANENTLY EXCLUDES FROM THOSE PROVISIONS OF SB 79 SITES LOCATED IN INDUSTRIAL EMPLOYMENT HUBS, INCLUDING CERTAIN SITES ZONED M (INDUSTRIAL), SALI (SERVICE/ARTS/LIGHT INDUSTRIAL), PDR (PRODUCTION, DISTRIBUTION, REPAIR), WMUG (WSOMA MIXED USE-GENERAL), AND P (PUBLIC), AND SITES WITH A WALKING PATH OF MORE THAN ONE MILE TO THE CLOSEST TRANSIT DEVELOPMENT STOP; 3) AMENDS THE PLANNING CODE TO PERMIT ADDITIONAL DENSITY AND HEIGHT FOR RESIDENTIAL PROJECTS ON CERTAIN PARCELS WITHIN ONE-HALF MILE OF A TRANSIT-ORIENTED DEVELOPMENT STOP; 4) ADOPTS AN ALTERNATIVE PLAN TO SB 79, INCLUDING MAKING FINDINGS THAT THE ALTERNATIVE PLAN PROVIDES EQUIVALENT DEVELOPMENT CAPACITY; 5) MAKES FINDINGS THAT THESE EXEMPTIONS AND THE CITY'S RESIDENTIAL CAPACITY MEET THE REQUIREMENTS OF SB 79; AND 6) DIRECTS THE CLERK OF THE BOARD OF SUPERVISORS TO TRANSMIT A COPY OF THIS ORDINANCE TO THE CALIFORNIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT; AFFIRMING THE PLANNING DEPARTMENT'S DETERMINATION UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT; MAKING FINDINGS OF CONSISTENCY WITH THE GENERAL PLAN, AND THE EIGHT PRIORITY POLICIES OF PLANNING CODE, SECTION 101.1; AND MAKING FINDINGS OF PUBLIC NECCESSITY, CONVENIENCE, AND WELFARE UNDER PLANNING CODE, SECTION 302.

WHEREAS, the California State Senate Bill 79 (SB 79), the Abundant and Affordable Homes Near Transit Act was signed into law by Governor Newsom on October 10, 2025, and take effect on July 1, 2026; and

WHEREAS, SB 79 sets zoning rules for minimum permitted height and density limits for housing within a ½ mile radius of major transit stops for all properties zoned for residential, mixed use, and commercial uses; and

WHEREAS, SB 79 allows for the ministerial approval of certain housing projects in transit station areas under the streamlining provisions of SB 423; and

WHEREAS, SB 79 allows local jurisdictions to adopt a local alternative plan (Alternative Plan) via ordinance, which prevents SB 79 from taking effect in that jurisdiction, provided that the Alternative Plan meets certain housing capacity requirements; and

WHEREAS, SB 79 allows local jurisdictions to permanently excludes certain parcels meeting specified criteria, and temporarily exempt certain parcels meeting specified criteria, via ordinance, from SB 79's provisions; and

WHEREAS, on February 10, 2026 Mayor Daniel Lurie introduced a proposed ordinance (Board File Number 260132), which would 1) temporarily exclude parcels within certain low resource census tracts from the provisions of SB 79; 2) permanently exclude certain parcels located in Industrial Employment Hubs from the provisions of SB 79; 3) amend Article 2 of the Planning Code to add Section 207.11 Transit- Oriented Development—Density and Height Exception to permit additional density and height for residential projects on certain parcels within one-half mile of a transit-oriented development stop; 4) adopt an Alternative Plan that meets the requirements of SB 79; and 5) make findings that the combination of exclusions, the Planning Code amendment, and the City's residential capacity meet the requirements of SB 79.

WHEREAS, the Planning Commission (hereinafter "Commission") conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed ordinance on March 19, 2026; and,

WHEREAS, the proposed ordinance has been determined to not be a project subject to CEQA, pursuant to Government Code Section 65912.160 (c)(2); and

WHEREAS, the Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of Department staff and other interested parties; and

WHEREAS, all pertinent documents may be found in the files of the Department, as the Custodian of Records, at 49 South Van Ness Avenue, Suite 1400, San Francisco; and

WHEREAS, the Commission has reviewed the proposed Ordinance; and

WHEREAS, the Commission finds from the facts presented that the public necessity, convenience, and general welfare require the proposed amendment; and

MOVED, that the Commission hereby adopts a **recommendation for approval with modifications** of the proposed ordinance.

MOVED, that the Commission recommends fixing the clerical error WMUG and changing it to WMUO.

Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The City recently adopted the Family Zoning Plan which increased housing capacity throughout a large swath of the city, with an emphasis on transit and commercial corridors. This paired with housing capacity created through the City's existing zoning, including past Area Plans, development agreements, redevelopment plans, and other legislation in recent years, such as that allowing for 4 and 6-plexes in residential areas, created significant capacity for homes near transit.

The industrial employment hub permanent exclusions included in the proposed ordinance help preserve specific land uses, the types of businesses and core city functions that operate there, and the jobs they support. The industrial employment hubs identified in the ordinance satisfy the requirements of SB 79.

The proposed ordinance identifies parcels within low resource census tract, which are eligible for the temporary exemptions in SB 79. Exempting these parcels allows for additional time to plan for increased housing capacity in these areas and to clarify the relationship of SB79 to certain redevelopment areas and potential future transit stops in these areas.

Amending the Planning Code to allow for additional density on a limited number of parcels throughout the city, combined with existing housing capacity near transit throughout the city, is anticipated to have modest but broadly positive racial and social equity implications. It has the potential to enable more multifamily housing options across the city that could benefit transit-dependent households, middle-income workers, and residents who face high housing cost burdens but lack access to homes near transit.

Using the methodology required by SB 79, the Alternative Plan has a net unit and net floor area capacity that is greater than what would be allowed by SB 79. The Alternative Plan allows the City to maintain its tailored approach to planning for housing that recognizes the specific geographic nuances of the city, while still meeting the transit-oriented development goals and housing capacity targets of Senate Bill 79.

General Plan Compliance

The proposed ordinance is consistent with the following Objectives and Policies of the General Plan:

HOUSING ELEMENT

OBJECTIVE 4.B
EXPAND SMALL AND MID-RISE MULTI-FAMILY HOUSING PRODUCTION TO SERVE OUR WORKFORCE, PRIORITIZING MIDDLE-INCOME HOUSEHOLDS

Policy 20
Increase mid-rise and small multi-family housing types by adopting zoning changes or density bonus programs in Well-resourced Neighborhoods and adjacent lower-density areas near transit, including along SFMTA Rapid Network and other transit.

Policy 28
Affirm compliance in State housing law, requirements, and intent by strengthening data collection, clarifying definitions, and further supporting implementation.

Policy 31
Facilitate small and mid-rise multi-family buildings that private development can deliver to serve middle-income households without deed restriction, including through adding units in lower density areas or by adding Accessory Dwelling Units (ADUs).

OBJECTIVE 4.C
EXPAND AND DIVERSIFY HOUSING TYPES FOR ALL

Policy 32
Promote and facilitate aging in place for seniors and multi-generational living that supports extended families and communal households.

Policy 33
Prevent the outmigration of families with children and support the needs of families to grow.

OBJECTIVE 5.A
CONNECT PEOPLE TO JOBS AND THEIR NEIGHBORHOOD WITH NUMEROUS, EQUITABLE, AND HEALTHY TRANSPORTATION AND MOBILITY OPTIONS

Policy 37
Facilitate neighborhoods where proximity to daily needs and high-quality community services and amenities promotes social connections, supports caregivers, reduces the need for private auto travel, and advances healthy activities.

Policy 38
Ensure transportation investments create equitable access to transit and are planned in parallel with increase in housing capacity to advance well-connected neighborhoods consistent with the City's Connect SF vision, and encourage sustainable trips in new housing.

The proposed ordinance recognizes and maintains the City's existing transit-oriented development while modestly increasing housing capacity near some major transit stations, primarily in residential areas in the southern and eastern parts of the city. These housing types could range from small to large housing types, but a large portion would facilitate additional density in small to medium sized housing developments. As such, the proposed ordinance promotes housing near transit, which supports objectives and policies related to growing the housing stock and specifically for the populations that may be impacted by the housing shortage or that could benefit from additional housing near transit. Furthermore, as this is a local implementing ordinance for State Senate Bill 79, the proposed ordinance affirms compliance with state law.

COMMERCE AND INDUSTRY ELEMENT

OBJECTIVE 1
MANAGE ECONOMIC GROWTH AND CHANGE TO ENSURE ENHANCEMENT OF THE TOTAL CITY LIVING AND WORKING ENVIRONMENT.

Policy 1.3
Locate commercial and industrial activities according to a generalized commercial and industrial land use plan.

OBJECTIVE 2
MAINTAIN AND ENHANCE A SOUND AND DIVERSE ECONOMIC BASE AND FISCAL STRUCTURE FOR THE CITY.

Policy 2.1
Seek to retain existing commercial and industrial activity and to attract new such activity to the city.

OBJECTIVE 4
IMPROVE THE VIABILITY OF EXISTING INDUSTRY IN THE CITY, THE EQUITABLE DISTRIBUTION OF INFRASTRUCTURE, AND THE ATTRACTIVENESS OF THE CITY AS A LOCATION FOR NEW INDUSTRY.

Policy 4.3
Carefully consider public actions that displace existing viable industrial firms.

Policy 4.5
Control encroachment of incompatible land uses on viable industrial activity.

MISSION AREA PLAN

OBJECTIVE 1.1
STRENGTHEN THE MISSION'S EXISTING MIXED USE CHARACTER, WHILE MAINTAINING THE NEIGHBORHOOD AS A PLACE TO LIVE AND WORK

Policy 1.1.1
Revise land use controls in some portions of the Northeast Mission Industrial Zone to stabilize and promote PDR activities, as well as the arts, by prohibiting construction of new housing and limiting the amount of office and retail uses that can be introduced. Also place limitations on heavier industrial activities which may not be appropriate for the Mission.

BAYVIEW HUNTERS POINT AREA PLAN

OBJECTIVE 8
STRENGTHEN THE ROLE OF BAYVIEW'S INDUSTRIAL SECTOR IN THE ECONOMY OF THE DISTRICT, THE CITY, AND THE REGION.

Policy 8.1
Maintain industrial zones for production, distribution, and repair activities in the Northern Gateway, South Basin, Oakinba, and India Basin Industrial Park subdistricts.

SHOWPLACE SQUARE/POTRERO AREA PLAN

OBJECTIVE 1.7
RETAIN THE ROLE OF SHOWPLACE SQUARE AS AN IMPORTANT LOCATION FOR PRODUCTION, DISTRIBUTION, AND REPAIR (PDR) ACTIVITIES, FOCUSING IN PARTICULAR ON DESIGN RELATED ACTIVITIES.

Policy 1.7.1
In areas designated for PDR, protect the stock of existing buildings used by, or appropriate for, PDR businesses by restricting conversions of industrial buildings to other building types and discouraging the demolition of sound PDR buildings.

CENTRAL WATERFRONT AREA PLAN

OBJECTIVE 1.1
ENCOURAGE THE TRANSITION OF PORTIONS OF THE CENTRAL WATERFRONT TO A MORE MIXED-USE CHARACTER, WHILE PROTECTING THE NEIGHBORHOOD'S CORE OF PDR USES AS WELL AS THE HISTORIC DOGPATCH NEIGHBORHOOD

Policy 1.1.1
In the core PDR area generally south of 23rd Street, protect and promote PDR activities, as well as the arts, by prohibiting construction of new housing and limiting the amount of new office and retail uses.

The proposed ordinance excludes from the provisions of SB 79 the parcels contained within three Industrial Employment Hubs, as permitted and defined by California Government Code §65912.155-162. By excluding these parcels, the land uses, types of businesses and core city functions that operate on them, and the employment opportunities they create are maintained. This fulfills the above objectives and policies which call for preserving industrial in nature businesses and production, distribution, and repair land uses within these specific areas of San Francisco.

Planning Code Section 101 Findings

The proposed amendments to the Planning Code are consistent with the eight Priority Policies set forth in Section 101.1(b) of the Planning Code in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

   The proposed ordinance would not have a negative effect on neighborhood serving retail uses and will not have a negative effect on opportunities for resident employment in and ownership of neighborhood-serving retail.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

   The proposed ordinance would not have a negative effect on housing or neighborhood character.

3. That the City's supply of affordable housing be preserved and enhanced;

   The proposed ordinance would not have an adverse effect on the City's supply of affordable housing. The proposed ordinance would maintain and increase the supply of housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking;

   The proposed ordinance would not result in commuter traffic impeding MUNI transit service or overburdening the streets or neighborhood parking. The proposed ordinance reaffirms and enhances the City's planning for additional housing in transit-served areas.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

   The proposed ordinance maintains the City's areas zoned for industrial and service sectors. It would not cause displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

   The proposed ordinance would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

   The proposed ordinance would not have an adverse effect on the City's Landmarks and historic buildings.

8. That our parks and open space and their access to sunlight and vistas be protected from development;

   The proposed ordinance would not have an adverse effect on the City's parks and open space and their access to sunlight and vistas.

Planning Code Section 302 Findings.

The Planning Commission finds from the facts presented that the public necessity, convenience and general welfare require the proposed amendments to the Planning Code as set forth in Section 302.

NOW THEREFORE BE IT RESOLVED that the Commission hereby ADOPTS A RECOMMENDATION FOR APPROVAL WITH MODIFICATIONS of the proposed ordinance as described in this Resolution.

I hereby certify that the foregoing Resolution was adopted by the Commission at its meeting on March 19, 2026.

EXECUTIVE SUMMARY
PLANNING CODE AMENDMENT AND CALIFORNIA SENATE BILL 79 IMPLEMENTATION

HEARING DATE: March 19, 2026

90-Day Deadline: May 11, 2026

Project Name:	Transit-Oriented Residential Development (SB 79 Implementation)
Case Number:	2026-001412PCA [Board File No. 260132]
Initiated by:	Mayor Daniel Lurie / Introduced February 10, 2026
Staff Contact:	Sarah Richardson, Planner sarah.richardson@sfgov.org, 628-652-7450
Reviewed by:	Joshua Switzky, Deputy Director of Community Planning joshua.switzky@sfgov.org, 628-652-7464
Environmental Review:	Not a Project Under CEQA

RECOMMENDATION: **Adopt a Recommendation for Approval with Modifications**

Summary

On March 19, 2026, the Planning Commission will consider approval of the proposed Transit-Oriented Residential Development Ordinance (proposed ordinance) as introduced by Mayor Daniel Lurie on February 10, 2026.

The proposed ordinance does the following:

- Permanently excludes three Industrial Employment Hubs from being subject to Senate Bill (SB) 79.
- Temporarily exempts low resource tracts south of 16th street and in Mission Bay.
- Amends the Planning Code to add a new density and height exception to Article 2. The exception would only apply to housing development projects that meet certain conditions and is necessary for the City and County of San Francisco (City) to qualify for an "Alternative Plan" pursuant to SB 79.
- Adopts an Alternative Plan under SB 79, including demonstrating that San Francisco's housing

capacity under existing zoning, when factoring in the permanent exclusions, temporary exemptions, and Planning Code Amendment, meets the Alternative Plan Requirements.

This staff report also discusses issues and considerations related to the proposed ordinance, describes the consistency with the General Plan and impact on racial and social equity, and provides a basis for recommendation.

Note that the Planning Code amendment is presented at the beginning of the Executive Summary as this is the convention, however, the entire ordinance is before the Commission for consideration and discussion. The Planning Code Amendment is discussed further in the body of the report in reference to how it functions within the proposed ordinance.

Planning Code Amendment

The Way It Is Now

Where residential uses are permitted, residential density is regulated by zoning district, applicable special use districts, or other provisions and exceptions in the Code, including but not limited to Section 207. SB 79 would take effect on July 1, 2026.

The Way It Would Be

The proposed ordinance adds Section 207.11 (Transit-Oriented Development—Density and Height Exception) to the Planning Code, to permit additional density and height for residential projects on certain parcels within one-half mile of a transit-oriented development stop, in accordance with SB 79's specifications.

The exception would apply to residential development projects on parcels that meet all of the following conditions:

1. Is all or partially located within one-half mile of a "transit-oriented development stop," as defined in California Government Code Section 65912.156
2. Is located in a zoning district that principally permits residential uses.
3. Either limits housing density by numeric density or has a height limit of less than 40 feet.
4. Is located outside of the R-4 height and bulk district.
5. Is not seeking a density bonus pursuant to Section 206.6.
6. Is not a parcel permanently or temporarily exempted from SB 79 pursuant to the ordinance enacting this Section 207.11.
7. Is not a parcel with a Historic Building that is individually designated as a landmark or listed as a contributor to a historic district under Article 10 of this Code, or listed as a Significant or Contributory Building under Article 11 with a Category I, II, III, or IV rating.
8. The permitted density prior to applying the density and height exception in subsection (c) does not meet the minimum density required by California Government Code Section 65912.157.

For parcels meeting the criteria above, the Density and Height Exception would be as follows:

- For any housing development project, the applicable residential density shall be up to 50% of the

density permitted on that parcel pursuant to the requirements in California Government Code Section 65912.157.
- For any parcel that is partially located in the Coastal Zone, the density exception shall apply to the entire parcel, however residential development shall be limited to the portions of the parcel located outside of the Coastal Zone.
- For any housing development project located on a parcel with a height limit of less than 40 feet, the applicable height limit shall be 40 feet.

Background on SB 79

SB 79, the Abundant and Affordable Homes Near Transit Act, was signed into law by Governor Newsom on October 10, 2025, and takes effect on July 1, 2026 (California Government Code §65912.155-162.) SB 79 sets zoning rules for minimum permitted height and density limits for housing near major transit stops. The law is applicable to all properties zoned for residential, mixed use, and commercial uses. The bill is aimed at increasing housing affordability and availability, strengthening transit systems, and decreasing carbon emissions. The law does the following:

1. Establishes statewide minimum zoning standards for allowed housing density and building height limits within ½-mile around qualifying transit stops such as for rail and bus rapid transit.

2. Allows for the ministerial approval of certain housing projects in transit station areas under the streamlining provisions of SB 423.

3. Provides local jurisdictions with the ability to establish a local alternative plan that does all of the following:
    - Provides equivalent or greater aggregate housing capacity compared to SB 79's default provisions across SB 79 station areas;
    - Maintains zoning that allows at least 50% of SB 79 densities on every parcel that allows housing; and,
    - Maintains zoning to accommodate at least 50% of the total unit capacity in each station area compared to SB 79.

4. Allows for parcels that meet certain criteria to be permanently excluded, and others to be temporarily exempted from SB 79's provisions.
    - Parcels that can be permanently excluded include:
        - Those that are within an Industrial Employment Hub that is at least 250 contiguous acres, and as of January 1, 2025, is both designated as an employment area in the General Plan and does not principally permit housing development; and
        - Those that are more than 1 mile walk from the entrance to a qualifying transit stop.
    - Parcels that meet any of the following conditions qualify for a temporary exemption that expires in 2032, (1 year after the next Housing Element is due):
        - The site's zoning allows at least 50% of the density permitted under SB 79;
        - It is in an area vulnerable to one-foot or more of sea level rise;
        - It is in a census tract identified as "low resource" by the state opportunity maps provided that the city cumulatively has housing capacity for at least 50% of what SB79 would

permit across all station areas; or,
- It was listed on a local historic register as of January 1, 2025.

4. Provides transit agencies with the authority to develop their own development standards for housing development and mixed-use projects on transit agency-owned land near transit stops.

Qualifying transit stations are divided into two tiers with different height and density requirements in the half mile surrounding each stop.

Tier 1: Heavy rail stations. In San Francisco, these stations are BART and Caltrain stations, including the Salesforce Transit Center, which is a planned Caltrain station.

Tier 2: Light rail stations and major bus stops. In San Francisco, light rail includes Muni Metro (but not cable cars). Major bus stops are defined as those served by buses operating in dedicated transit lanes, such as those along Van Ness Ave and Geary Blvd, and that have a headway of under 15 minutes during commute hours.

Around each Tier 1 and Tier 2 stop, there are three concentric radii of geography to which the varying zoning provisions apply. The radii include: (1) within 200 feet of a stop, (2) within ¼-mile of a stop, and (3) within ½-mile of a stop. Figure 1 lists the SB 79 maximum heights, densities (in units per acre), and floor area ratios (FAR) by tier and distance from each stop. Within these station areas, a housing development project would be principally permitted use on all properties zoned for residential, mixed use, and commercial uses up to the following limits, unless the local zoning is more permissive.

Figure 1: SB 79 Allowed Heights and Densities by Tier and Distance from Transit Stops

Transit Stop Tier	Radius	Max Height (ft)	Max Density (units/ac)	Max FAR
1 (BART, Caltrain)	**200'**	95	160	4.5
	1/4-mi	75	120	3.5
	1/2-mi	65	100	3
2 (light rail, major bus stops)	**200'**	85	140	4
	1/4-mi	65	100	3
	1/2-mi	55	80	2.5

Distances are measured in "*a straight line from the nearest edge of the parcel containing the proposed project to a pedestrian access point for the transit-oriented development stop*." This means that the relevant SB 79 rules, or the more intensive of such rules, would apply to the entirety of a parcel if any portion of the parcel is within one of these radii.

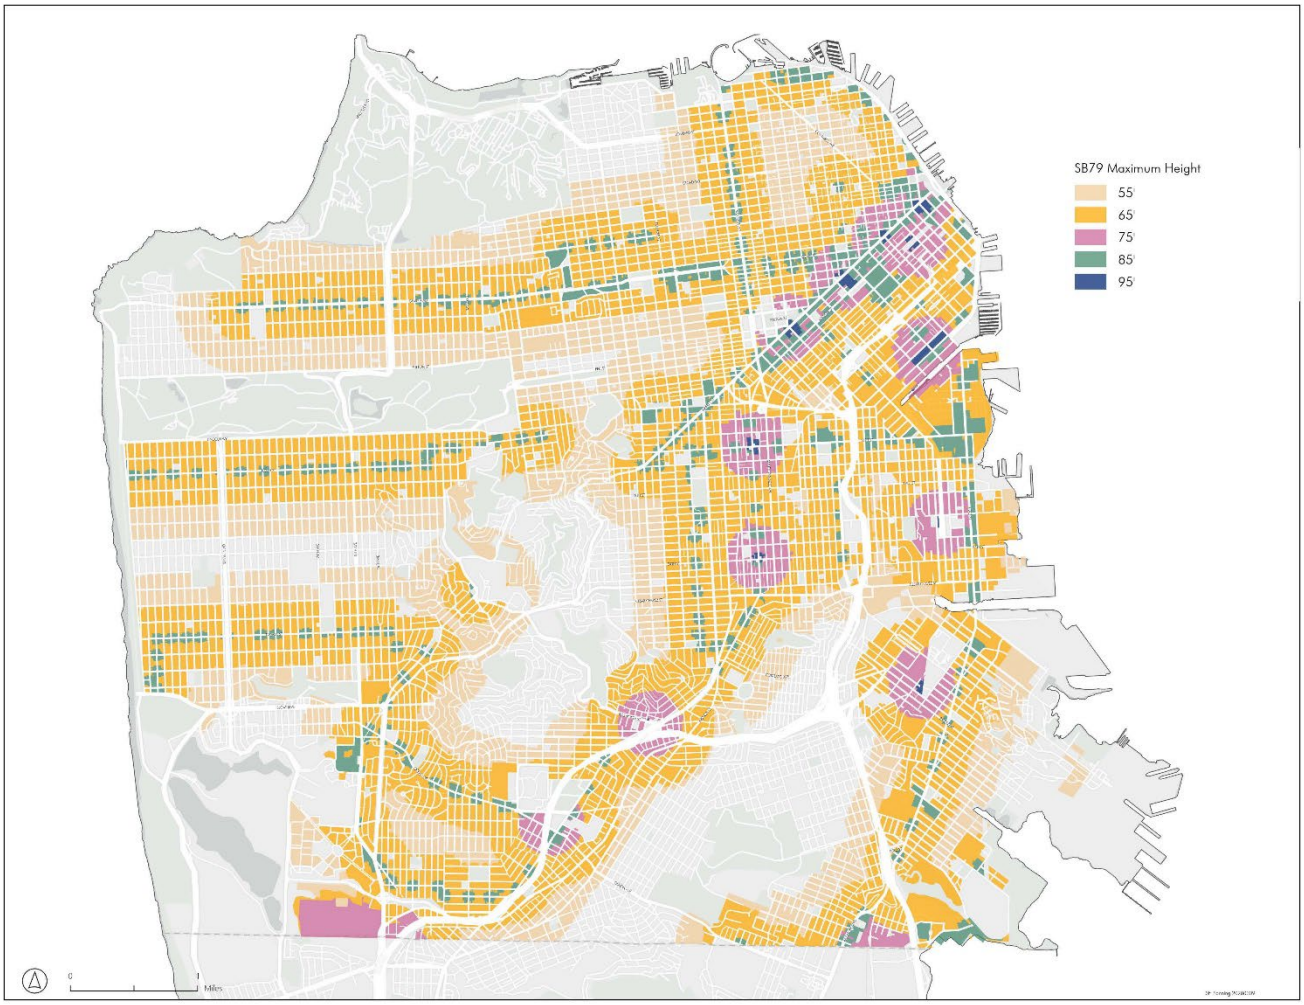
Figure 2 shows the eligible stops by tier as the Planning Department interprets eligibility as well as the applicable areas covered by each station area. The Metropolitan Planning Commission and the Association of Bay Area Governments (MTC/ABAG) have not yet published the authoritative map of qualifying transit

stations and their station area geographies under SB 79, which is the responsibility of each region's metropolitan planning organization.

Figure 2: Qualifying Tier 1 and Tier 2 Transit Stops and Qualifying Geographies at 200 ft., ¼ mi., and ½ mi. Radii

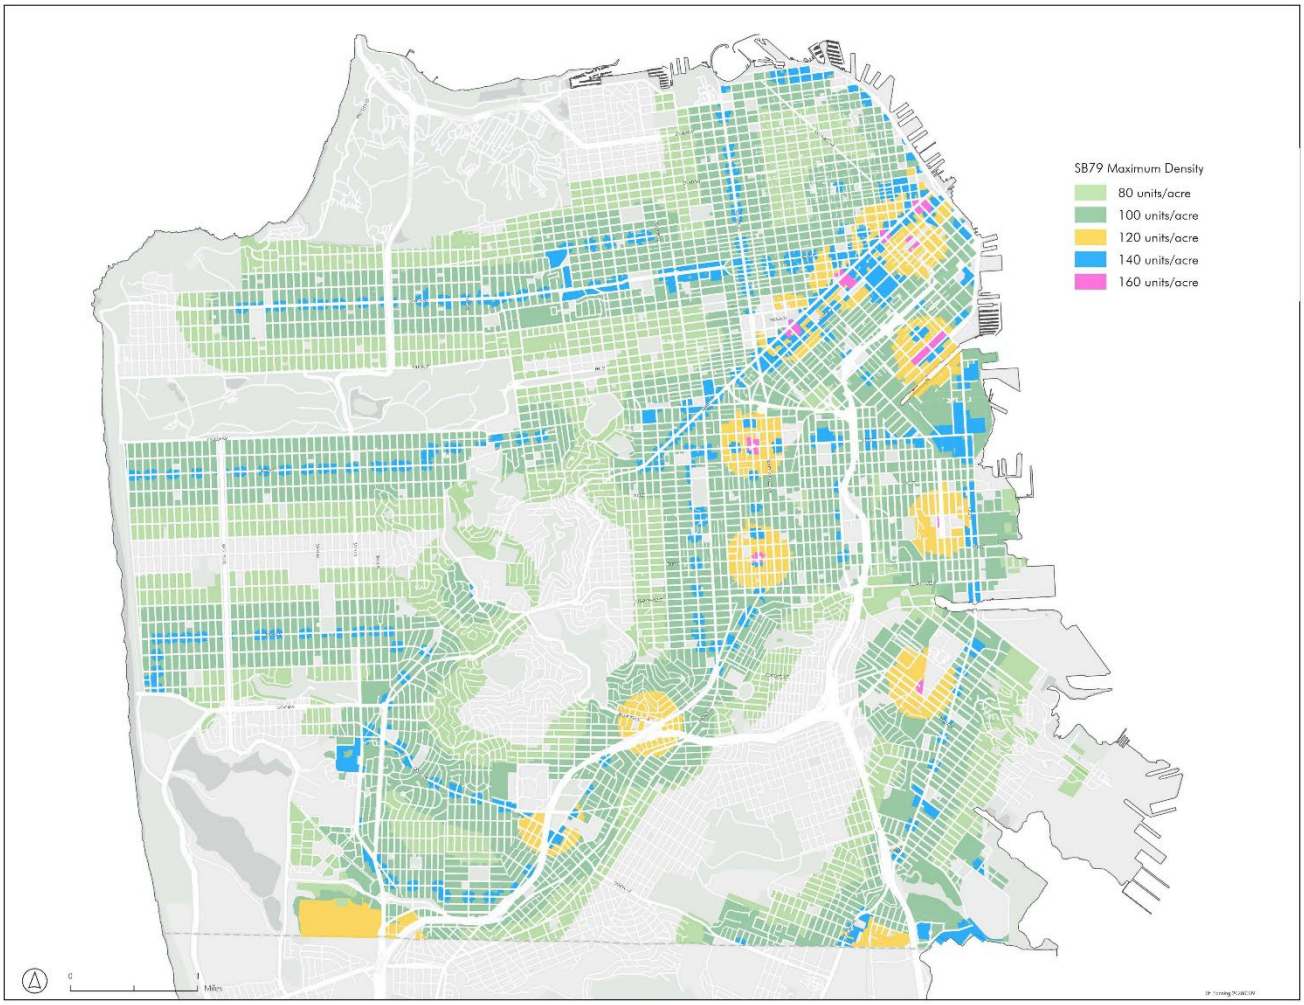
Figures 3 and 4 show how these height and density limits would apply to parcels in San Francisco's applicable transit station areas. More than three-quarters of properties in San Francisco (120,000 parcels) fall within areas subject to SB 79. Approximately 75% of the parcels, covering approximately 65% of the City's land area, would be subject to SB 79. Over 60% of the properties subject to SB 79 (75,000 parcels) are within the geography of the Family Zoning Plan.

Figure 3: Default SB 79 Height Limits for Parcels within Qualifying Transit Stop Geographies



Note: The Hunters Point Shipyard and Candlestick Point Redevelopment areas are not subject to the San Francisco Planning Code and have been removed from this map.

Figure 4: Default SB 79 Density Limits for Parcels within Qualifying Transit Stop Geographies



Note: The Hunters Point Shipyard and Candlestick Point Redevelopment Areas are not subject to the San Francisco Planning Code and have been removed from this map.

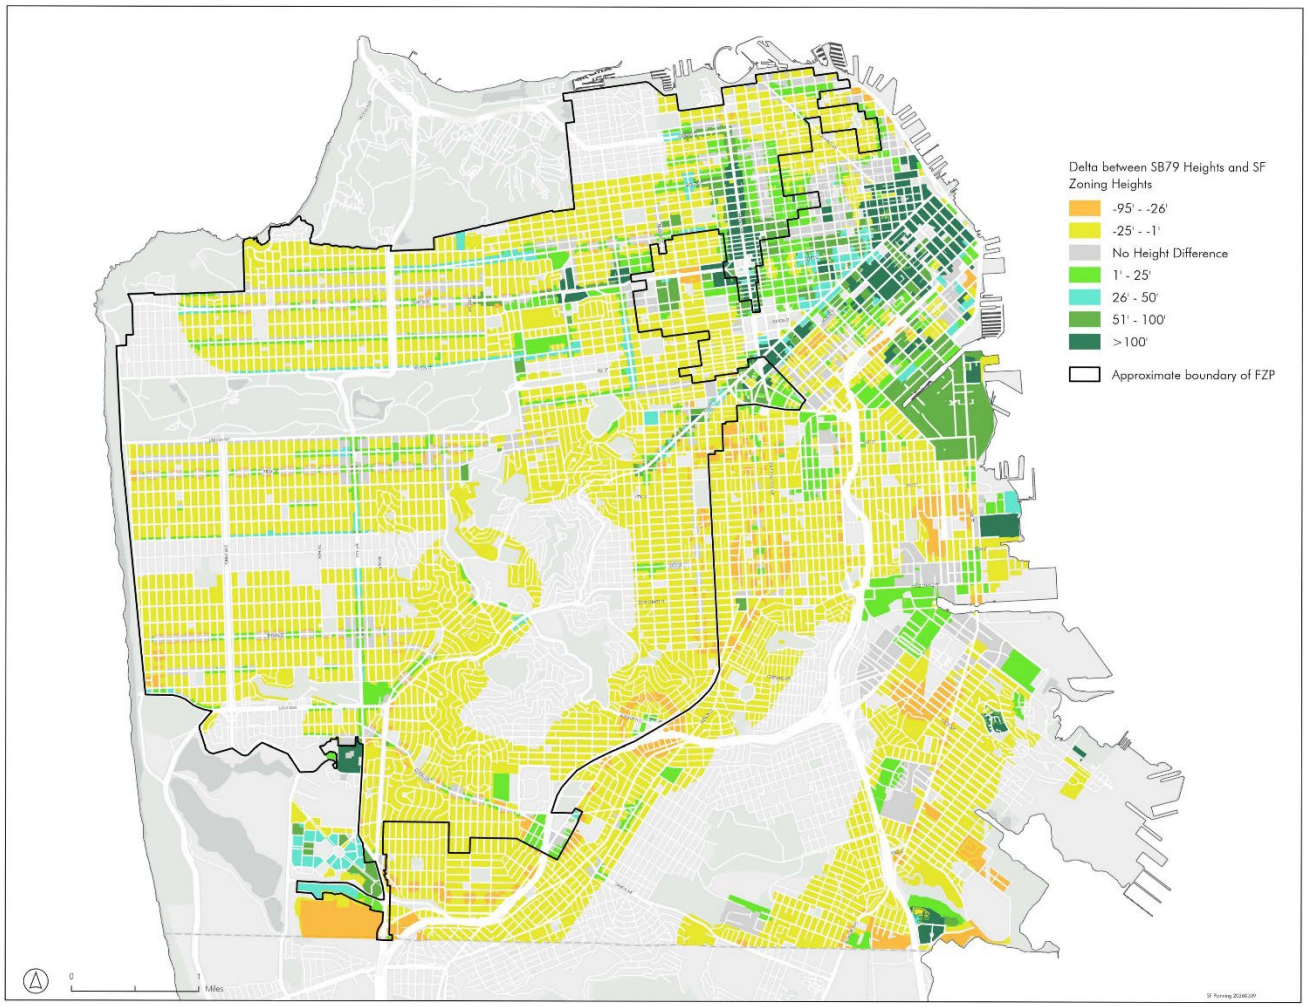
San Francisco's Local Implementation Ordinance for SB 79

The following map shows how San Francisco's existing height maximums compare with what would be allowed by SB 79. Generally, San Francisco allows for taller buildings downtown and along transit and commercial corridors, while SB 79 heights are more evenly distributed across the city and are taller than existing heights in residential areas. Figure 5 illustrates this difference between the SB 79 default height limits and San Francisco's existing height limits.[1]

[1] It is important to note that while SB79 may allow for taller buildings in certain areas, such as residential areas, it does not necessarily permit more *units* (i.e. more housing density) per parcel than existing zoning permits. SB79 uses numerical density limits that are lower than what would typically be yielded through form-based zoning at the height limits set by the law. In other words, SB79 caps densities at levels assuming significantly larger average unit sizes than

The proposed ordinance would permanently and temporarily exclude certain parcels, as described in the sections that follow, which will limit the parcels where SB 79 would be applicable. Even so, the existing zoning in most of San Francisco, particularly within the Family Zoning Plan area, as well as other dense areas of the city, already substantially exceeds the zoning standards of SB 79.

Figure 5. Default SB 79 Height Limits Compared to Existing Height Limits



Note: Redevelopment areas such as Mission Bay, Candlestick, and Hunter's Point Shipyard, have height limits that are at or above the SB 79 default height limits. However, the city's parcel map has not been updated to reflect both recently developed and planned parcel and street layouts in those areas. Additionally, the applicable existing height limits for those areas are contained within those redevelopment plans based on those unmapped block and street patterns. For these reasons, generalized information is shown in this map for those redevelopment areas.

are typical in San Francisco multi-family buildings, and as such districts subject to form-based zoning typically would permit more units per parcel at lower height limits than are allowed under SB79 with taller height limits.

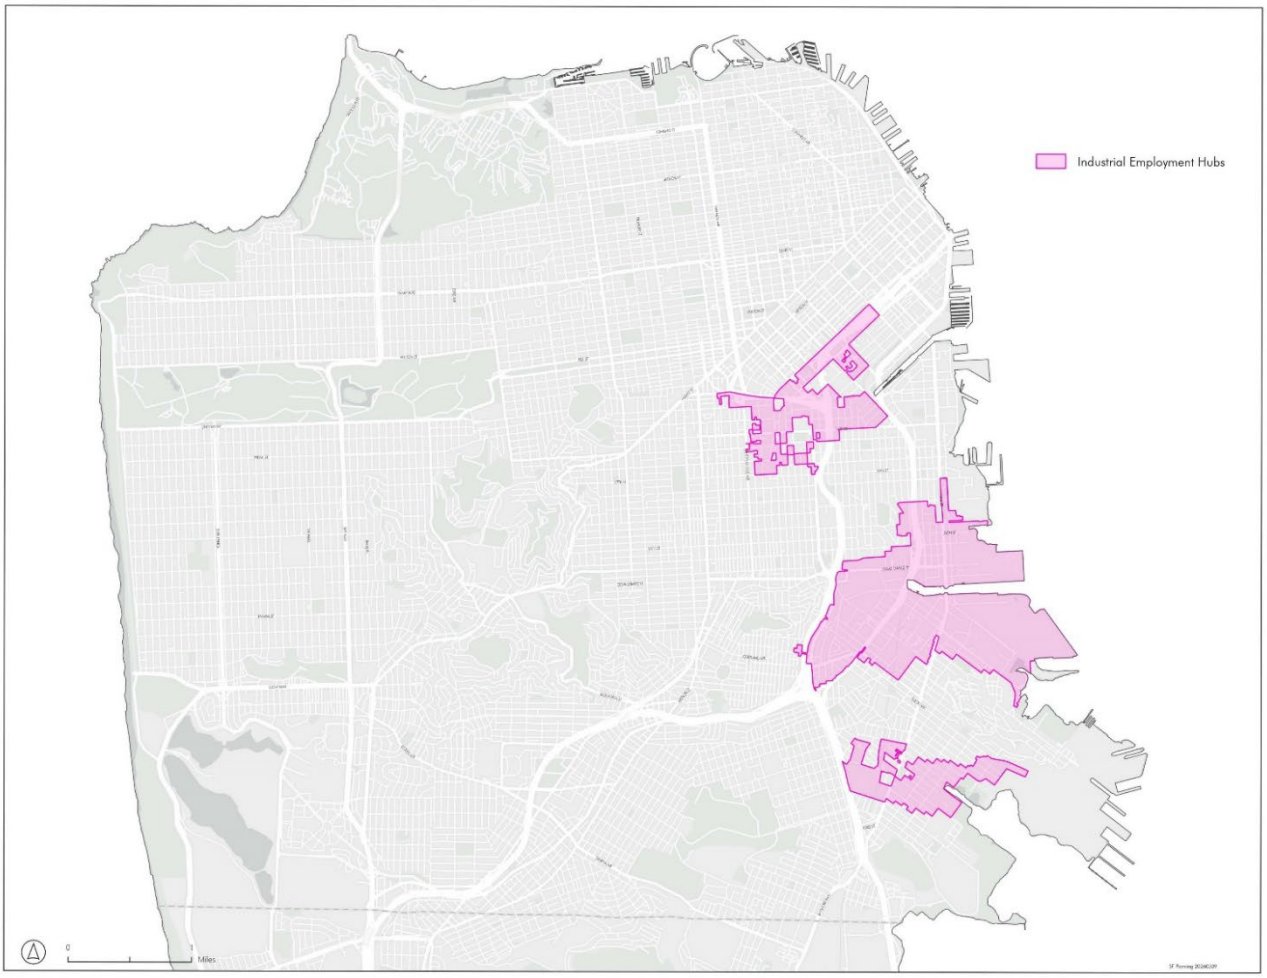
Permanent Exclusions

The ordinance permanently excludes three Industrial Employment Hubs in San Francisco from the provisions of SB 79. These permanent exclusions would help preserve specific land uses, the types of businesses and core city functions that operate there, and the jobs they support.

As shown in Figure 6, the Industrial Employment Hubs are located in the SoMa/Mission, Bayshore/Central Waterfront, and Bayview neighborhoods and are 359 acres, 1,150 acres, and 247 acres, respectively. They have each been identified in the General Plan's Commerce and Industry Element as designated industrial and employment areas. The 1,915 parcels excluded are zoned M (Industrial), SALI (Service/Arts/Light Industrial), PDR (Production, Distribution, Repair), WMUO (WSoMa Mixed Use-Office), and P (Public). The parcels are further detailed in the Table of Permanent Exclusions.[2] Note that there was a clerical error in the ordinance, it listed the zoning district WMUG when it should have been WMUO. This correction is recommended as a modification.

[2] It is important to note that further technical clarification on the law by HCD may result in several of these zoning districts not being subject to SB 79 regardless of inclusion in these "industrial employment hubs." As HCD has not issued any interpretation of what it means for a property to be zoned for "commercial" uses, San Francisco is conservatively including all parcels in its qualifying industrial employment hubs in these permanent exclusions.

Figure 6: Industrial Employment Hubs that Qualify as Permanent Exclusions

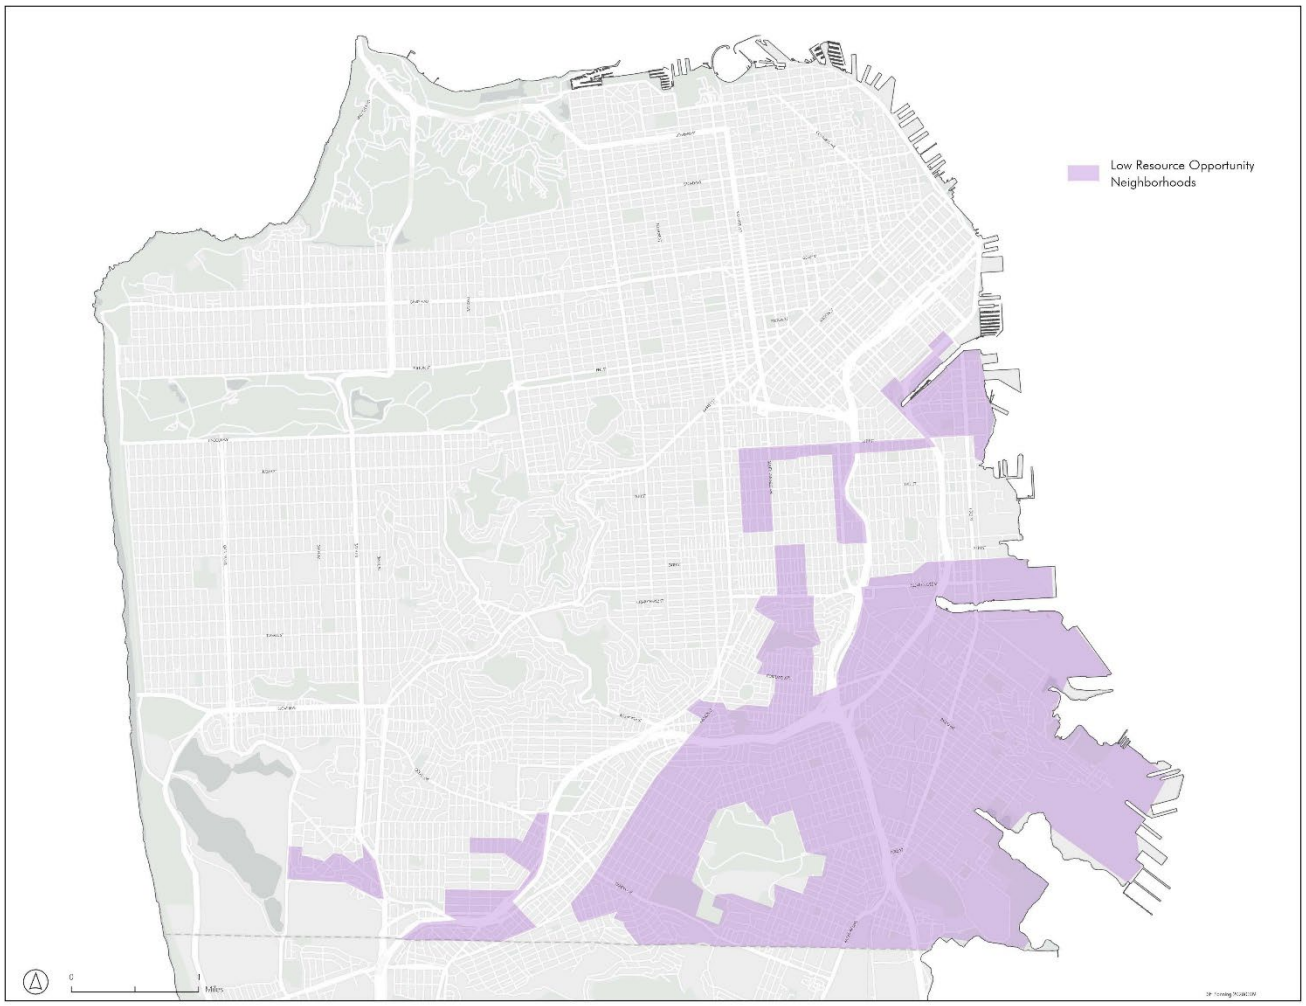


Temporary Exemptions

Parcels in certain areas that are located in low resource census tracts, as identified by the California Tax Credit Allocation Committee (TCAC), would be temporarily exempted from the provisions of SB 79. The exemption would expire in 2032, one year after the City's next Housing Element is due. The City would only apply this exemption to the low resource census tracts that are south of 16th street and in Mission Bay. By pursuing this exemption, it gives the City additional time to plan for increased housing capacity in these areas and to clarify the relationship of SB79 to certain redevelopment areas and potential future transit stops in these areas.

The ordinance would not exempt low resource tracts north of 16th Street and outside of Mission Bay because those areas already allow for more housing capacity than dictated by SB 79 and few parcels would be affected by the provisions of SB 79. There are approximately 32,150 parcels in low resource census tracts that would be temporarily exempted as seen in Figure 7 and detailed in the Table of Temporary Exemptions-Low Resource Parcels.

Figure 7: Temporarily Exempted Low Resource Tracts



The Alternative Plan

San Francisco is well-positioned to pursue an Alternative Plan in compliance with SB 79 given the recent adoption of the Family Zoning Plan, which allowed for increased housing capacity along transit and commercial corridors in an expansive portion of the city. The Family Zoning Plan, paired with housing capacity created through the City's existing zoning, including past Area Plans, development agreements, redevelopment plans, and other legislation in recent years, such as allowing for 4 and 6-plexes in residential areas, created significant capacity for homes near transit. An Alternative Plan allows the City to maintain its tailored approach to planning for housing that recognizes the specific geographic nuances of the City, while still meeting the transit-oriented development goals and surpassing housing capacity targets of the state law.

To qualify for the Alternative Plan, San Francisco must calculate the existing housing capacity and show that that the housing capacity and density under our Alternative Plan is greater that what would be allowed under SB 79. San Francisco meets this requirement, but it narrowly misses the requirements that each

individual parcel within the SB 79 geographies, and each SB 79 station area, allow at least 50% of the density allowed by SB 79. To achieve this, the Department would allow additional density on parcels that do not meet the density requirement through a Planning Code amendment.

Planning Code Amendment

The proposed ordinance adds Section 207.11 (Transit-Oriented Development—Density and Height Exception) to the Planning Code, to permit additional density and height for residential projects on certain parcels within one-half mile of a transit-oriented development stop, in accordance with SB 79's specifications.

The exception would apply to residential development projects on parcels that meet all of the following conditions:

1. Is all or partially located within one-half mile of a "transit-oriented development stop," as defined in California Government Code Section 65912.156
2. Is located in a zoning district that principally permits residential uses.
3. Either limits housing density by numeric density or has a height limit of less than 40 feet.
4. Is located outside of the R-4 height and bulk district.
5. Is not seeking a density bonus pursuant to Section 206.6.
6. Is not a parcel permanently or temporarily exempted from SB 79 pursuant to the ordinance enacting this Section 207.11.
7. Is not a parcel with a Historic Building that is individually designated as a landmark or listed as a contributor to a historic district under Article 10 of this Code, or listed as a Significant or Contributory Building under Article 11 with a Category I, II, III, or IV rating.
8. The permitted density prior to applying the density and height exception in subsection (c) does not meet the minimum density required by California Government Code Section 65912.157.

For parcels meeting the criteria above, the Density and Height Exception would be as follows:

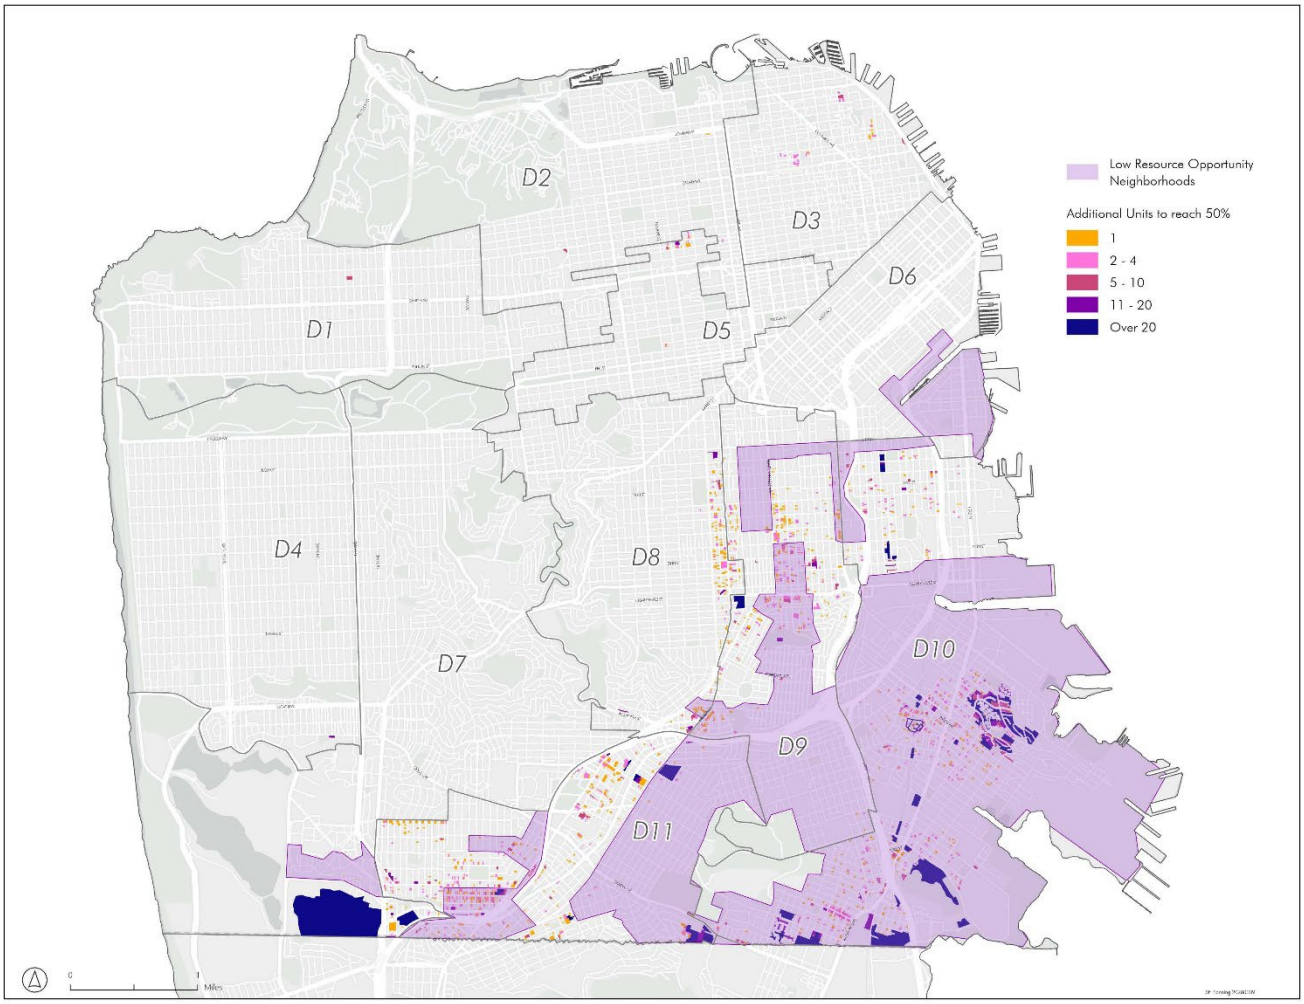
- For any housing development project, the applicable residential density shall be up to 50% of the density permitted on that parcel pursuant to the requirements in California Government Code Section 65912.157.
- For any parcel that is partially located in the Coastal Zone, the density exception shall apply to the entire parcel, however residential development shall be limited to the portions of the parcel located outside of the Coastal Zone.
- For any housing development project located on a parcel with a height limit of less than 40 feet, the applicable height limit shall be 40 feet.

Parcels Subject to the Height and Density Exception in the Planning Code Amendment

Prior to consideration of the temporary exemptions, there are approximately 2,080 parcels that permit housing and do not meet the 50% density requirement for an Alternative Plan and that otherwise would be eligible for additional density through the new density and height exception. The majority of parcels are within RH districts (1,817), 161 are in NC districts, 97 are in RM districts and 5 are in C districts. When factoring in the low resource tract temporary exemption, there are approximately 1,001 that would be eligible in the near-term, 930 of which are within RH districts. The median parcel would increase in density by 1 additional unit.

Additionally, this code provision would permit some owners of RH properties who are ineligible for the 4 and 6-plex density allowance in Sec. 207 due to that provision's ownership eligibility limitations, to be able to access the same density allowances for those parcels. (While the 4/6-plex provision typically allows at least 50% of SB 79 densities, due to the parcel ownership eligibility limitations in that code section, this proposed code amendment would ensure the allowed density for all parcels meets the Alternative Plan criteria.) Figure 8 shows the range of additional units that would be allowed in comparison with existing zoning and also shows the temporarily exempted low resource tracts to distinguish between near-term and long-term eligibility for the exception.

Figure 8: Parcels that are < 50% of the SB 79 Density Requirement, Color-coded by Number of Additional Allowed Units Needed and with Exempted Low Resource Tracts



Demonstrating Capacity for the Alternative Plan

When factoring in the permanent exclusions, temporary exemptions, and the increased capacity created by the Planning Code amendment, the City would meet the three primary requirements of an Alternative Plan.

- The total housing capacity and density in San Francisco is greater than what would be allowed under SB 79. Using the methodology required by SB 79, the net Unit Capacity under SB 79 is about 644,500 units compared with the Alternative Plan's 768,000 units. Similarly, SB 79 has a net floor area capacity of about 758 million square feet in comparison with the Alternative Plan's 946 million square feet. SB 79 limits each individual parcel's contributing capacity to just 200% of what SB 79 would allow. For this reason, much of the housing capacity in San Francisco is not counted in these Alternative Plan totals.[3]
- Additionally, with the Planning Code amendment creating Section 207.11 described above,
    - Each individual parcel within the SB 79 geographies would allow at least 50% the density allowed by SB 79, and
    - Each station area, when aggregating the parcels within a half mile, would allow at least 50% of the total unit capacity allowed by SB 79.

For a detailed look and the housing capacity under the Alternative Plan, please see the Table Demonstrating Housing Capacity for the Alternative Plan.

Other Issues and Considerations

Transit-Agency Owned Land

SB 79 allows transit agencies (such as Bart or Caltrain) to set their own zoning standards on land that they own within the transit station areas, but the densities and FAR cannot be lower than what is allowed under SB 79. If they choose to do this, the standards must define minimum zoning requirements for height, density, FAR, and allowed uses, and the standards must align with California Government Code Sec. 65912.157 (i.e. SB 79). The transit agency may set *density* standards up to 200 percent of the densities in SB 79, however the local government is not required to approve any *height limit* greater than those in SB 79. The Alternative Plan does not affect a transit agency's ability to invoke this power under the law.

Pending Data and Interpretations

The Metropolitan Planning Commission and the Association of Bay Area Governments (MTC/ABAG) have not yet published the authoritative map of qualifying transit stations and their station area geographies under SB 79, which is the responsibility of each region's metropolitan planning organization. To date, the mapping analysis completed for this legislation uses the best available station area data, as was previously published by MTC/ABAG.

[3] For example, San Francisco's actual zoned capacity in SB79 areas is approximately 940,000 units, but about 170,000 of this capacity cannot be counted under the Alternative Plan because it is on parcels where our allowed densities exceed 200% of what SB 79 allows.

Subtle refinements are expected in the final mapping as geographically precise data on individual pedestrian access points to individual stations are published. There also remains some ambiguity as to the universe of qualifying Tier 2 bus stops; the Planning Department has taken a conservative approach to the mapping of stations and the Alternative Plan and included all potentially eligible stations, such that future refinement or interpretations of the Tier 2 definition may result in some stations being removed from the Department's maps. Removal of a Tier 2 station from the Department's map would not impact the text of the Planning Code amendment, or the Alternative Plan. The Planning Department has been and continues to be in close communication with MTC, HCD and the sponsors of SB79.

The California Department of Housing and Community Development (HCD) is more broadly charged in SB 79 with publishing guidelines and interpretations of the legislation. Pending those future determinations by MTC/ABAG and HCD, there may be changes to the analysis, particularly in response to the final list and map of eligible stations and the specific measured geographies. The Planning Department will update this analysis if new guidance is made available.

California Department of Housing and Community Development (HCD) Transmittal and Approval

SB 79 requires that local jurisdictions submit a draft of their implementing ordinance to HCD at least 14 days in advance of adoption. The Department has already sent HCD the ordinance. Additionally, after the ordinance is adopted, HCD has up to 120 days to review, make a finding as to whether the enacted ordinance complies with the law, and report that finding to the local government.

General Plan Compliance

The intent of SB 79 is to promote homes near transit, and San Francisco will continue to do that through its Alternative Plan. The Alternative Plan meets the transit-oriented goals and greatly surpasses the housing capacity of SB 79, primarily by maintaining the existing zoning, but also by augmenting density on some parcels to meet the Alternative Plan requirements. As such, the proposed ordinance is consistent with multiple 2022 Housing Element objectives and policies related to increasing housing capacity, expanding housing choice, and supporting equitable access to transit and community resources.

The proposed ordinance promotes Objective 4.B by enabling additional height and density near station-area parcels, directly supporting Policy 20 to increase mid-rise and small multifamily housing in transit-rich neighborhoods; Policy 28 to strengthen implementation of state housing law; and Policy 31 to facilitate small and mid-rise housing that can be feasibly produced for middle-income households without deed restrictions. It also furthers Objective 4.C by expanding and diversifying the housing types available citywide, supporting Policy 32 to promote aging in place and multigenerational living and Policy 33 to prevent the out-migration of families with children by creating more opportunities for diverse housing types near transit.

The proposed ordinance additionally advances Objective 5.A by strengthening connections between housing, jobs, and neighborhood resources through equitable and transit-supportive land-use decisions: it supports Policy 37 by facilitating neighborhoods where daily needs can be met without reliance on private vehicles and aligns with Policy 38 by ensuring transportation investments and new housing capacity are coordinated.

Furthermore, by permanently excluding the three industrial employment hubs, and therefore protecting certain types of businesses and core functions in the city as well as the jobs they support, the proposed ordinance is consistent with the Commerce and Industry Element of the General Plan. Protecting these industrial businesses and employment opportunities, as well as their separation from residential uses is also consistent with the Mission, Showplace Square/Potrero, Central Waterfront, and Bayview Hunters Point Area Plans.

Racial and Social Equity Analysis

The proposed ordinance is anticipated to have broadly positive racial and social equity implications because it increases housing capacity near transit. By amending the Planning Code to allow modest increases in density for certain parcels within designated station-area geographies, the ordinance expands housing opportunities for households.

The primary beneficiaries of the proposed ordinance include transit-dependent households, middle-income workers, and residents who face high housing cost burdens but lack access to homes near reliable transit service. By enabling more multifamily housing options across diverse parts of the city near transit, the ordinance supports improved access to jobs, services, and educational opportunities for communities historically excluded from these areas.

The temporary exemption for low-resource tracts helps prevent additional development pressure in neighborhoods with existing vulnerability to displacement, ensuring that these communities are not burdened by rapid changes before adequate planning and anti-displacement strategies are in place. However, it is important to note that the impact will be very minimal as the total number of parcels that will increase in permitted density though this action in the short term are around 1,000, and in the long-term just around 2,000. Still, this phased approach allows the City to engage in more extensive engagement in vulnerable communities while still complying with state housing requirements.

Implementation

The Department has determined that this ordinance will impact our current implementation procedures in the following ways:

- The Department would share information with the public regarding SB 79 geographies, both showing the station areas on the map and providing information at the parcel level using San Francisco's Property Information Map (PIM). This will include the relevant station areas, distances, and allowed densities for the purpose of the density and height exception contained in the proposed Planning Code amendment, as well as information about which parcels have temporary exemptions or permanent exclusions. To determine if a parcel is eligible for additional density as allowed by the density and height exception in new Planning Code section 207.11, Planning staff or a member of the

public would need to look up the parcel on PIM to access that information.

Recommendation

The Department recommends that the Commission **adopt a recommendation for approval with modifications** of the proposed ordinance and adopt the attached Draft Resolution to that effect.

The modification is to correct a clerical error. WMUG should be changed to WMUO.

Basis for Recommendation

SB 79 provides an option for jurisdictions to adopt an Alternative Plan, allowing them to fulfill the transit-oriented development goals in a more customized locally-tailored way that respects planning and zoning efforts undertaken by local jurisdictions. Just months ago, the City adopted a comprehensive plan to increase housing capacity throughout a large swath of the city, with an emphasis on transit and commercial corridors. This effort, combined with existing zoning elsewhere that have been put in place by numerous planning and legislative efforts over the past couple decades, makes San Francisco a strong candidate for an Alternative Plan. The proposed Planning Code amendment introducing a new density and height exception would make only modest changes to the housing capacity on a limited number of parcels, primarily in the southern and eastern parts of the City. This Planning Code amendment would ensure that the City would comply with the basic requirements of an Alternative Plan under SB 79.

Required Commission Action

The proposed Ordinance is before the Commission so that it may adopt a recommendation of approval, disapproval, or approval with modifications.

Environmental Review

Pursuant to Government Code Section 65912.160 (c)(2), a local ordinance implementing SB 79 is not a project subject to CEQA.

Public Comment

As of the date of this report, the Department has not received any written public comment regarding the proposed ordinance.

To share information about SB 79 Implementation, the Department has held two public webinars, and provided presentations to various neighborhood groups, supervisors, and planning commissioners.
