RE: Letter of Support for FILE NO. 260778 – Commemorative Street Name Designation - "Sunset Healthcare Corridor" - 1200 Block to 2500 Block of Noriega Street.

Dear President Mandelman and Members of the Board:

On behalf of **All American Medical Group (AAMG) / Astrana Health**, I am writing to express our strong support for the Commemorative Street Name Designation "Sunset Healthcare Corridor" - from 19th Ave to 33rd Ave on Noriega Street. We commend Supervisor Wong for recognizing decades of community-based healthcare providers who serve Sunset District residents with dedication, cultural competence, and compassion.

The Sunset District has historically lacked nearby hospitals and urgent care facilities, making local, accessible providers essential to neighborhood health. The corridor's longstanding network of medical, dental, optometric, pharmacy, and wellness services fills this gap by offering comprehensive care within walking distance for thousands of families. AAMG (All American Medical Group), a network of over 300 primary and specialty care physicians across San Francisco and San Mateo counties, has long been a cornerstone of culturally competent healthcare in the Sunset District and beyond. Through its commitment to bilingual, community-centered medical services—including mental health support, health education workshops, and chronic disease programs—AAMG ensures that patients, especially those from Asian American and immigrant communities, receive care that respects their language and cultural needs.

Astrana Health complements this work through its ESG-driven, value-based care model, which empowers community-based providers to deliver high-quality, cost-effective healthcare to historically underserved populations. As part of its sustainability mission, Astrana prioritizes social equity, operational inclusivity, and environmental responsibility, ensuring access to coordinated, culturally attuned care for low-income, immigrant, and racial minority groups in the area.

Together, our extensive network of physicians remains deeply committed to expanding accessible, equitable, and community-rooted care. We strongly support this recognition, as naming this corridor formally honors the clinicians, staff, and providers who have long served Sunset residents and reinforces ongoing investment in affordable, culturally competent healthcare on the Westside.

We applaud the resolution's intent and encourage City departments to further strengthen this critical healthcare network by supporting policies that attract and retain providers in the Sunset District. We look forward to continued collaboration to advance health equity and neighborhood-based care in San Francisco.

Thank you for your leadership and thoughtful consideration.

Sincerely,

Signed by:
Joseph Woo, MD

RE: Letter of Support for FILE NO. 260778 – Commemorative Street Name Designation - "Sunset Healthcare Corridor" - 1200 Block to 2500 Block of Noriega Street.

Dear President Mandelman and Members of the Board:

On behalf of **Chinese Hospital**, I am writing to express our strong support for the Commemorative Street Name Designation "Sunset Healthcare Corridor" - from 19th Ave to 33rd Ave on Noriega Street. We commend Supervisor Wong for recognizing decades of community-based healthcare providers who serve Sunset District residents with dedication, cultural competence, and compassion.

The Sunset District has historically lacked nearby hospitals and urgent care facilities, making local, accessible providers essential to neighborhood health. The corridor's longstanding network of medical, dental, optometric, pharmacy, and wellness services fills this gap by offering comprehensive care within walking distance for thousands of families. Chinese Hospital Sunset Health Services established 30 years ago as Chinese Hospital's first satellite clinic, was created to follow the community's migration from Chinatown to the Sunset District and to ensure continued access to trusted, culturally and linguistically appropriate healthcare for local residents. Sunset Health Services has served more than 4,200 monolingual and low-income patients by providing comprehensive primary and specialty care, including family medicine, geriatrics, ENT, podiatry, cardiovascular disease, and mental health services.

As a health organization deeply committed to expanding access to equitable, community-rooted care, we strongly support this recognition. Naming this corridor formally acknowledges the clinicians, staff, and providers who have long supported Sunset residents and promotes continued investment in affordable and culturally competent healthcare on the Westside.

We applaud the resolution's intent and encourage City departments to further strengthen this critical healthcare network by supporting policies that attract and retain providers in the Sunset District. We look forward to continued collaboration to advance health equity and neighborhood-based care in San Francisco.

Thank you for your leadership and thoughtful consideration.

Sincerely,

RE: Letter of Support for FILE NO. 260778 – Commemorative Street Name Designation -
"Sunset Healthcare Corridor" - 1200 Block to 2500 Block of Noriega Street.

Dear President Mandelman and Members of the Board:

On behalf of North East Medical Services (NEMS), I am writing to express our strong support for the proposed commemorative street name designation "Sunset Healthcare Corridor", spanning Noriega Street from 19th Ave to 33rd Ave. We commend Supervisor Wong for recognizing decades of community-based healthcare providers who serve Sunset District residents with dedication, cultural competence, and compassion.

The Sunset District has historically lacked nearby hospitals and urgent care facilities, making accessible, neighborhood-based providers essential to community wellbeing. The corridor's long-standing network of medical, dental, optometric, pharmacy, and wellness services has filled this gap by offering comprehensive care within walking distance for thousands of families.

North East Medical Services—alongside other clinics and independent practices—has been part of this fabric for decades, providing linguistically and culturally responsive care to monolingual, low-income, uninsured, and immigrant patients who would otherwise face significant barriers. As a nonprofit community health center and one of the largest providers serving Asian American communities in the United States, NEMS anchors this corridor through its clinics on Noriega Street, offering internal medicine, family practice, pediatrics, women's health, dental, optometry, behavioral health, laboratory, radiology, and pharmacy services.

As an organization deeply committed to expanding equitable, community-rooted care, we strongly support this designation. Naming this corridor formally honors the clinicians, staff, and providers who have long supported Sunset residents and encourages continued investment in affordable and culturally competent healthcare on the Westside.

We applaud the resolution's intent and encourage City departments to continue strengthening this vital healthcare network by supporting policies that attract and retain providers in the Sunset District. We look forward to ongoing collaboration to advance health equity and neighborhood-based care in San Francisco.

Thank you for your leadership and thoughtful consideration.

Sincerely,

Paul Fox
