(a) The Board of Supervisors of the City has formed the City and County of San Francisco Community Facilities District No. 2014-1 (Transbay Transit Center) (the "CFD"), and a future annexation area for the CFD (the "Future Annexation Area"), pursuant to the Mello-Roos Community Facilities Act of 1982, as amended (the "Act") for the purpose of financing certain public facilities (the "Facilities") described on Exhibit A hereto and made a part hereof.

(b) The proceedings for the formation of the CFD authorized the Board of Supervisors to levy an annual special tax (the "Special Tax") on property in the CFD as specified in the Amended and Restated Rate and Method of Apportionment of Special Tax (the "Rate and Method") for the CFD, a copy of which is attached hereto as Exhibit B. The Property Owner acknowledges that the City will create a special account into which the Special Taxes will be deposited, when collected, and that the City will prepare the annual report required by Government Code Section 50075.3.

(c) The proceedings for the formation of the CFD authorized the Board of Supervisors to annex property in the Future Annexation Area to the CFD, without additional public hearings, upon approval of the owner of the property to be annexed as permitted by Section 53339.7(a) of the Act.

(d) The Property Owner affirmatively waives any defense based on the fact of public ownership, to any action to foreclose on the Property in the event of nonpayment of the Special Tax.

4. Unanimous Approval and Vote. This Unanimous Approval constitutes the unanimous approval and vote of the Property Owner in favor of the following matters for the purposes of Section 53339.7 et seq. of the Act and Article XIII A of the California Constitution:

EXHIBIT A

CITY AND COUNTY OF SAN FRANCISCO Community Facilities District No. 2014-1 (Transbay Transit Center)

DESCRIPTION OF FACILITIES TO BE FINANCED BY THE CFD

City and County of San Francisco Community Facilities District No. 2014-1 (Transbay Transit Center) (the "CFD") will pay or finance all or a portion of the costs of the following facilities (the "Facilities"). The Facilities will be constructed, whether or not acquired in their completed states, pursuant to the plans and specifications approved by the City and County of San Francisco (the "City") or other applicable public agencies.

FACILITIES

I. Streetscape and Pedestrian Improvements

Primary Streets (Mission, Howard, Folsom, Fremont, 1st, 2nd, New Montgomery): Improve existing primary streets in the Transit Center District, including Mission, Howard, Folsom, Fremont, 1st, 2nd, and New Montgomery Streets. Improvements would include sidewalk widening to accommodate additional pedestrian traffic from new development and the Transbay Transit Center, pedestrian and streetscape amenities, bicycle facilities, transit upgrades such as dedicated transit lanes, boarding islands, enhanced shelters and curb extensions to serve transit stops, and roadway circulation, parking, and loading changes. Recommended changes to Primary Streets would be informed by traffic studies to be funded by the CFD.

Living Streets (Beale, Main, and Spear Streets North of Folsom to Market Street): Improve Beale, Main, and Spear Streets from Folsom Street to Market Street by significantly expanding the sidewalk on one side of each street to approximately 30 feet and reducing the number of traffic lanes to one lane in either direction. Beale and Main Streets would feature a bike lane in the direction of traffic. Within the widened sidewalks, the Living Streets would include linear park space along the length of each block and provide additional open space and pedestrian amenities. The enhancements would include pedestrian amenities, street trees and landscaping, pedestrian lighting, street furniture, pocket parks, active uses, and curb extensions.

Alleys (Stevenson, Jessie, Minna, Natoma, Tehama, Clementina Street): Improve Stevenson, Jessie, Minna, Natoma, Tehama, Clementina Streets and other alleys within the project area. Alley improvements would include a variety of pedestrian improvements, including sidewalk widening, landscaping, pedestrian lighting, and street furniture, and potential redesign as single-surface shared pedestrian/vehicle ways.

Fremont/Folsom Freeway Off-Ramp Realignment: Realign the Fremont/Folsom Bay Bridge off-ramp so that it creates a "T" intersection with Fremont Street. This would enhance the safety of pedestrians crossing the off-ramp by standardizing the alignment of the off-ramp and improve the conditions along Folsom Street, planned as a major pedestrian boulevard.

Mid-block Crossings: Analyze and build new crosswalks at various mid-block locations in the Project Area. Mid-block crosswalks would include crosswalk striping at a minimum. They may also include new traffic signals, curb extensions, and other pedestrian safety features as appropriate.

Signalization: Upgrade or install traffic signals at approximately 25 intersections in the Project Area. Traffic signal upgrades would be done in conjunction with overall circulation and street improvements in the Project Area.

Natoma Street: Create a pedestrian plaza and link to the Transit Center between 1st and 2nd Streets. The western two-thirds of Natoma Street between First and Second Streets would be closed to vehicles. Service vehicles and deliveries may be able to access this portion of Natoma Street during night and early morning hours before peak transit and retail times. The eastern one-third of Natoma Street (nearest to First Street) would remain open to vehicles to maintain access to parking and loading for existing buildings on the north side of Howard Street. The pedestrian space would include a new curbside single-surface space including decorative paving, pedestrian lighting, landscaping, and street furniture.

Casual Carpool waiting area improvements: Improve drop-off and pick-up zones at casual carpool locations in the Project Area, including sufficient sidewalk waiting and passenger loading/unloading space and amenities, including shelters, seating, informational signage and other supportive services.

II. Transit and Other Transportation

Transit Delay Mitigation: Pay for the purchase of new transit vehicles to mitigate transportation impacts attributable to increased Project Area congestion.

BART Station Capacity: Enhance capacity constraints at Embarcadero and Montgomery Stations regarding crowding on platforms, vertical circulation, and the "dwell time" required for trains to load and unload passengers, which would be exacerbated by the additional transit riders brought on by new development and the Transbay Transit Center. Potential capacity enhancement measures could include additional vertical circulation (e.g. stairwells, escalators, and elevators), additional fare gates, improvements to the train control system to allow for more frequent service, platform edge doors, and better real-time public information displays on train arrivals at concourse and street levels.

Congestion Charging Pilot: Study, design and construct capital improvements relating to a congestion charging pilot program, potentially including fare booths, signals, electronic monitoring equipment, and the like. Conduct necessary analyses to inform the appropriate triggers, mechanisms, and capital improvements required for a congestion pricing pilot program to manage traffic volumes entering and exiting the CFD.

Underground Pedestrian Connector: Create an underground pedestrian tunnel connecting the Transbay Transit Center with the Embarcadero BART/Muni Metro Station, increasing circulation space available for pedestrians and creating a seamless link between the two transit stations.

Downtown Rail Extension (DTX): Extend the Caltrain rail tracks to the new Transbay Transit Center to accommodate Caltrain and California High Speed Rail, and construct the

train components of the Transit Center building including associated systems. The funding would pay for the planning, engineering, right-of-way acquisition, and construction of the DTX.

III. Public Open space

City Park: Plan, design and construct public open space on the roof of the Transbay Transit Center.

City Park Connections: Provide connections to the Transbay Transit Center's City Park from adjacent private buildings or from public streets and plazas. Connections could include sky bridges, or connections from ground level to park level, such as elevators, escalators, funiculars, gondolas or similar means of conveying people to City Park. Connections would be required to be publicly accessible during standard hours so that members of the public could easily access City Park.

2nd and Howard Public Plaza: Create an approximately 0.5-acre open space at the corner of 2nd and Howard Streets, on a grouping of parcels located on top of the future train tunnel. The open space would serve as a major access point to the adjacent Transbay Transit Center, including featuring a possible connection to the elevated City Park on the roof of the Transit Center. The open space design would be determined through a public design process.

Transbay Park: Transbay Park would be a new approximately 1.1-acre park, located between Main, Beale, Tehama, and Clementina Streets. The Park would provide a mix of active and passive recreation spaces.

Chinatown Open Space Improvements: Improvements to multiple public open spaces in Chinatown whose use would be increased by new development in the Project Area. The open space improvements may include enhancements to Portsmouth Square, a new open space at the Chinatown Central Subway Station, and improvements to other Chinatown parks. Specific open space improvements would be determined through a public design process.

Other Downtown Open Space Improvements: Improvements to multiple public open spaces in Downtown, whose use would be increased by new development in the Project Area. Specific locations for open space improvements have not been identified yet.

Mission Square: Public plaza at the entrance to the new Transbay Transit Center at the corner of Fremont and Mission Streets. The plaza would create passive open space and circulation space for people entering and exiting the Transit Center and the adjacent Transit Tower development.

Under-Ramp Park: Under-Ramp Park would be a new system of open spaces, built adjacent to and under the Bay Bridge off-ramps and bus ramps to the Transbay Transit Center, between Harrison, Howard, First, and Second Streets. The Park would provide a mix of active and passive recreation spaces.

IV. Other Transit Center District Public Improvements

The Facilities include the other public improvements not listed above but described in the Transit Center District Plan Program Implementation Document, dated May 16, 2012, as such Document may be amended from time to time.

The costs to be financed include the costs of the acquisition of right-of-way (including right-of-way that is intended to be dedicated by the recording of a final map), the costs of design, engineering and planning, the costs of any environmental or traffic studies, surveys or other reports, costs related to landscaping and irrigation, soils testing, permits, plan check and inspection fees, insurance, legal and related overhead costs, coordination and supervision and any other costs or appurtenances related to any of the foregoing.

OTHER

The CFD may also finance any of the following:

1. Bond or other debt-related expenses, including underwriters discount, reserve fund, capitalized interest, letter of credit fees and expenses, bond and disclosure counsel fees and expenses, bond remarketing costs, and all other incidental expenses.

2. Administrative fees of the City and the bond trustee or fiscal agent related to the CFD and the bonds or other debt.

3. Reimbursement of costs related to the formation of the CFD advanced by the City, the landowner(s) in the CFD, or any party related to any of the foregoing, as well as reimbursement of any costs advanced by the City, the landowner(s) in the CFD or any party related to any of the foregoing, for facilities, fees or other purposes or costs of the CFD.

4. The CFD may also pay in full all amounts necessary to eliminate any fixed special assessment liens or to pay, repay, or defease any obligation to pay or any indebtedness secured by any tax, fee, charge, or assessment levied within the area of the CFD or may pay debt service on that indebtedness. In addition, tax revenues of the CFD may be used to make lease or debt service payments on any lease, lease-purchase contract, or certificate of participation used to finance facilities authorized to be financed by the CFD.

Rental Residential Square Foot means a single square-foot unit of Rental Residential Square Footage.

“Rental Unit” means (i) all Market Rate Units within an Apartment Building, and (ii) all Market Rate Units within a Converted Apartment Building that have yet to be sold to an individual homeowner or investor. “Rental Unit” shall not include any Residential Unit which has been purchased by a homeowner or investor and subsequently offered for rent to the general public. B. DATA FOR CFD ADMINISTRATION

On or after July 1 of each Fiscal Year, the Administrator shall identify the current Assessor’s Parcel numbers for all Taxable Parcels in the CFD. In order to identify Taxable Parcels, the Administrator shall confirm which Buildings in the CFD have been issued both a Tax Commencement Authorization and a COO.

The Administrator shall also work with the Zoning Authority to confirm: (i) the Building Height for each Taxable Building , (ii) the For-Sale Residential Square Footage, Rental Residential Square Footage, Office/Hotel Square Footage, and Retail Square Footage on each Taxable Parcel, (iii) if applicable, the number of BMR Units and aggregate Square Footage of BMR Units within the Building, (iv) whether any of the Square Footage on a Parcel is subject to a Certificate of Exemption, and (v) the Special Tax Requirement for the Fiscal Year. In each Fiscal Year, the Administrator shall also keep track of how many Fiscal Years the Special Tax has been levied on each Parcel within the CFD. If there is Initial Square Footage and Net New Square Footage on a Parcel, the Administrator shall separately track the duration of the Special Tax levy in order to ensure compliance with Section F below.

In any Fiscal Year, if it is determined by the Administrator that (i) a parcel map or condominium plan for a portion of property in the CFD was recorded after January 1 of the prior Fiscal Year (or any other date after which the Assessor will not incorporate the newly-created parcels into the then current tax roll), and (ii) the Assessor does not yet recognize the newly-created parcels, the Administrator shall calculate the Special Tax that applies separately to each newly-created parcel, then applying the sum of the individual Special Taxes to the Assessor's Parcel that was subdivided by recordation of the parcel map or condominium plan.

2. *Determining the Maximum Special Tax for Taxable Parcels*

Upon issuance of a Tax Commencement Authorization and the first Certificate of Occupancy for a Taxable Building within a Conditioned Project that is not an Affordable Housing Project, the

Administrator shall coordinate with the Zoning Authority to determine the Square Footage of each Land Use on each Taxable Parcel. The Administrator shall then apply the following steps to determine the Maximum Special Tax for the next succeeding Fiscal Year for each Taxable Parcel in the Taxable Building:

- Step 1.* Determine the Building Height for the Taxable Building for which a Certificate of Occupancy was issued.
- Step 2.* Determine the For-Sale Residential Square Footage and/or Rental Residential Square Footage for all Residential Units on each Taxable Parcel, as well as the Office/Hotel Square Footage and Retail Square Footage on each Taxable Parcel.
- Step 3.* ***For each Taxable Parcel that includes only For-Sale Units***, multiply the For-Sale Residential Square Footage by the applicable Base Special Tax from Section C.1 to determine the Maximum Special Tax for the Taxable Parcel.
- Step 4.* ***For each Taxable Parcel that includes only Rental Units***, multiply the Rental Residential Square Footage by the applicable Base Special Tax from Section C.1 to determine the Maximum Special Tax for the Taxable Parcel.
- Step 5.* ***For each Taxable Parcel that includes only Residential Uses other than Market Rate Units***, net out the Square Footage associated with any BMR Units and multiply the remaining Rental Residential Square Footage (if any) by the applicable Base Special Tax from Section C.1 to determine the Maximum Special Tax for the Taxable Parcel.
- Step 6.* ***For each Taxable Parcel that includes only Office/Hotel Square Footage***, multiply the Office/Hotel Square Footage on the Parcel by the applicable Base Special Tax from Section C.1 to determine the Maximum Special Tax for the Taxable Parcel.
- Step 7.* ***For each Taxable Parcel that includes only Retail Square Footage***, multiply the Retail Square Footage on the Parcel by the applicable Base Special Tax from Section C.1 to determine the Maximum Special Tax for the Taxable Parcel.
- Step 8.* ***For Taxable Parcels that include multiple Land Uses***, separately determine the For-Sale Residential Square Footage, Rental Residential Square Footage, Office/Hotel Square Footage, and/or Retail Square Footage. Multiply the Square Footage of each Land Use by the applicable Base Special Tax from Section C.1, and sum the individual amounts to determine the aggregate Maximum Special Tax for the Taxable Parcel for the first succeeding Fiscal Year.

D. CHANGES TO THE MAXIMUM SPECIAL TAX

1. *Annual Escalation of Base Special Tax*

The Base Special Tax rates identified in Section C.1 are applicable for fiscal year 2013-14. Beginning July 1, 2014 and each July 1 thereafter, the Base Special Taxes shall be adjusted by the Initial Annual Adjustment Factor. The Base Special Tax rates shall be used to calculate the Maximum Special Tax for each Taxable Parcel in a Taxable Building for the first Fiscal Year in which the Building is a Taxable Building, as set forth in Section C.2 and subject to the limitations set forth in Section D.3.

2. *Adjustment of the Maximum Special Tax*

After a Maximum Special Tax has been assigned to a Parcel for its first Fiscal Year as a Taxable Parcel pursuant to Section C.2 and Section D.1, the Maximum Special Tax shall escalate for subsequent Fiscal Years beginning July 1 of the Fiscal Year after the first Fiscal Year in which the Parcel was a Taxable Parcel, and each July 1 thereafter, by two percent (2%) of the amount in effect in the prior Fiscal Year. In addition to the foregoing, the Maximum Special Tax assigned to a Taxable Parcel shall be increased in any Fiscal Year in which the Administrator determines that Net New Square Footage was added to the Parcel in the prior Fiscal Year.

3. *Converted Apartment Buildings*

If an Apartment Building in the CFD becomes a Converted Apartment Building, the Administrator shall rely on information from the County Assessor, site visits to the sales office, data provided by the entity that is selling Residential Units within the Building, and any other available source of information to track sales of Residential Units. In the first Fiscal Year in which there is a Converted For-Sale Unit within the Building, the Administrator shall determine the applicable Base Maximum Special Tax for For-Sale Residential Units for that Fiscal Year. Such Base Maximum Special Tax shall be used to calculate the Maximum Special Tax for all Converted For-Sale Units in the Building in that Fiscal Year. In addition, this Base Maximum Special Tax, escalated each Fiscal Year by two percent (2%) of the amount in effect in the prior Fiscal Year, shall be used to calculate the Maximum Special Tax for all future Converted For-Sale Units within the Building. Solely for purposes of calculating Maximum Special Taxes for Converted For-Sale Units within the Converted Apartment Building, the adjustment of Base Maximum Special Taxes set forth in Section D.1 shall not apply. All Rental Residential Square Footage within the Converted Apartment Building shall continue to be subject to the Maximum Special Tax for Rental Residential Square Footage until such time as the units become Converted For-Sale Units. The Maximum Special Tax for all Taxable Parcels within the Building shall escalate each Fiscal Year by two percent (2%) of the amount in effect in the prior Fiscal Year.

4. *BMR Unit/Market Rate Unit Transfers*

If, in any Fiscal Year, the Administrator determines that a Residential Unit that had previously been designated as a BMR Unit no longer qualifies as such, the Maximum Special Tax on the

new Market Rate Unit shall be established pursuant to Section C.2 and adjusted, as applicable, by Sections D.1 and D.2. If a Market Rate Unit becomes a BMR Unit after it has been taxed in prior Fiscal Years as a Market Rate Unit, the Maximum Special Tax on such Residential Unit shall not be decreased unless: (i) a BMR Unit is simultaneously redesignated as a Market Rate Unit, and (ii) such redesignation results in a Maximum Special Tax on the new Market Rate Unit that is greater than or equal to the Maximum Special Tax that was levied on the Market Rate Unit prior to the swap of units. If, based on the Building Height or Square Footage, there would be a reduction in the Maximum Special Tax due to the swap, the Maximum Special Tax that applied to the former Market Rate Unit will be transferred to the new Market Rate Unit regardless of the Building Height and Square Footage associated with the new Market Rate Unit.

5. *Changes in Land Use on a Taxable Parcel*

If any Square Footage that had been taxed as For-Sale Residential Square Footage, Rental Residential Square Footage, Office/Hotel Square Footage, or Retail Square Footage in a prior Fiscal Year is rezoned or otherwise changes Land Use, the Administrator shall apply the applicable subsection in Section C.2 to calculate what the Maximum Special Tax would be for the Parcel based on the new Land Use(s). If the amount determined is greater than the Maximum Special Tax that applied to the Parcel prior to the Land Use change, the Administrator shall increase the Maximum Special Tax to the amount calculated for the new Land Uses. If the amount determined is less than the Maximum Special Tax that applied prior to the Land Use change, there will be no change to the Maximum Special Tax for the Parcel. Under no circumstances shall the Maximum Special Tax on any Taxable Parcel be reduced, regardless of changes in Land Use or Square Footage on the Parcel, including reductions in Square Footage that may occur due to demolition, fire, water damage, or acts of God. In addition, if a Taxable Building within the CFD that had been subject to the levy of Special Taxes in any prior Fiscal Year becomes all or part of an Affordable Housing Project, the Parcel(s) shall continue to be subject to the Maximum Special Tax that had applied to the Parcel(s) before they became part of the Affordable Housing Project. All Maximum Special Taxes determined pursuant to Section C.2 shall be adjusted, as applicable, by Sections D.1 and D.2.

6. *Prepayments*

If a Parcel makes a prepayment pursuant to Section H below, the Administrator shall issue the owner of the Parcel a Certificate of Exemption for the Square Footage that was used to determine the prepayment amount, and no Special Tax shall be levied on the Parcel in future Fiscal Years unless there is Net New Square Footage added to a Building on the Parcel. Thereafter, a Special Tax calculated based solely on the Net New Square Footage on the Parcel shall be levied for up to thirty Fiscal Years, subject to the limitations set forth in Section F below. Notwithstanding the foregoing, any Special Tax that had been levied against, but not yet collected from, the Parcel is still due and payable, and no Certificate of Exemption shall be issued until such amounts are fully paid. If a prepayment is made in order to exempt Taxable Child Care Square Footage on a Parcel on which there are multiple Land Uses, the Maximum Special Tax for the Parcel shall be recalculated based on the exemption of this Child Care Square Footage which shall, after such prepayment, be designated as Exempt Child Care Square Footage and remain exempt in all Fiscal Years after the prepayment has been received.

E. METHOD OF LEVY OF THE SPECIAL TAX

Each Fiscal Year, the Special Tax shall be levied Proportionately on each Taxable Parcel up to 100% of the Maximum Special Tax for each Parcel for such Fiscal Year until the amount levied on Taxable Parcels is equal to the Special Tax Requirement.

F. COLLECTION OF SPECIAL TAX

The Special Taxes for CFD No. 2014-1 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that prepayments are permitted as set forth in Section H below and provided further that the City may directly bill the Special Tax, may collect Special Taxes at a different time or in a different manner, and may collect delinquent Special Taxes through foreclosure or other available methods.

The Special Tax shall be levied and collected from the first Fiscal Year in which a Parcel is designated as a Taxable Parcel until the principal and interest on all Bonds have been paid, the City's costs of constructing or acquiring Authorized Facilities from Special Tax proceeds have been paid, and all Administrative Expenses have been paid or reimbursed. Notwithstanding the foregoing, the Special Tax shall not be levied on any Square Footage in the CFD for more than thirty Fiscal Years, except that a Special Tax that was lawfully levied in or before the final Fiscal Year and that remains delinquent may be collected in subsequent Fiscal Years. After a Building or a particular block of Square Footage within a Building (i.e., Initial Square Footage vs. Net New Square Footage) has paid the Special Tax for thirty Fiscal Years, the then-current record owner of the Parcel(s) on which that Square Footage is located shall be issued a Certificate of Exemption for such Square Footage. Notwithstanding the foregoing, the Special Tax shall cease to be levied, and a Release of Special Tax Lien shall be recorded against all Parcels in the CFD that are still subject to the Special Tax, after the Special Tax has been levied in the CFD for seventy-five Fiscal Years.

Pursuant to Section 53321 (d) of the Act, the Special Tax levied against Residential Uses shall under no circumstances increase more than ten percent (10%) as a consequence of delinquency or default by the owner of any other Parcel or Parcels and shall, in no event, exceed the Maximum Special Tax in effect for the Fiscal Year in which the Special Tax is being levied.

G. EXEMPTIONS

Notwithstanding any other provision of this RMA, no Special Tax shall be levied on: (i) Square Footage for which a prepayment has been received and a Certificate of Exemption issued, (ii) Below Market Rate Units except as otherwise provided in Sections D.3 and D.4, (iii) Affordable Housing Projects, including all Residential Units, Retail Square Footage, and Office Square Footage within buildings that are part of an Affordable Housing Project, except as otherwise provided in Section D.4, and (iv) Exempt Child Care Square Footage.

H. PREPAYMENT OF SPECIAL TAX

The Special Tax obligation applicable to Square Footage in a building may be fully prepaid as described herein, provided that a prepayment may be made only if (i) the Parcel is a Taxable Parcel, and (ii) there are no delinquent Special Taxes with respect to such Assessor's Parcel at the time of prepayment. Any prepayment made by a Parcel owner must satisfy the Special Tax obligation associated with all Square Footage on the Parcel that is subject to the Special Tax at the time the prepayment is calculated. An owner of an Assessor's Parcel intending to prepay the Special Tax obligation shall provide the City with written notice of intent to prepay. Within 30 days of receipt of such written notice, the City or its designee shall notify such owner of the prepayment amount for the Square Footage on such Assessor's Parcel. Prepayment must be made not less than 75 days prior to any redemption date for Bonds to be redeemed with the proceeds of such prepaid Special Taxes. The Prepayment Amount for a Taxable Parcel shall be calculated as follows:

- Step 1:* Determine the Square Footage of each Land Use on the Parcel.
- Step 2:* Determine how many Fiscal Years the Square Footage on the Parcel has paid the Special Tax, which may be a separate total for Initial Square Footage and Net New Square Footage on the Parcel. If a Special Tax has been levied, but not yet paid, in the Fiscal Year in which the prepayment is being calculated, such Fiscal Year will be counted as a year in which the Special Tax was paid, but a Certificate of Exemption shall not be issued until such Special Taxes are received by the City's Office of the Treasurer and Tax Collector.
- Step 3:* Subtract the number of Fiscal Years for which the Special Tax has been paid (as determined in Step 2) from 30 to determine the remaining number of Fiscal Years for which Special Taxes are due from the Square Footage for which the prepayment is being made. This calculation would result in a different remainder for Initial Square Footage and Net New Square Footage within a building.
- Step 4:* Separately for Initial Square Footage and Net New Square Footage, and separately for each Land Use on the Parcel, multiply the amount of Square Footage by the applicable Maximum Special Tax that would apply to such Square Footage in each of the remaining Fiscal Years, taking into account the 2% escalator set forth in Section D.2, to determine the annual stream of Maximum Special Taxes that could be collected in future Fiscal Years.
- Step 5:* For each Parcel for which a prepayment is being made, sum the annual amounts calculated for each Land Use in Step 4 to determine the annual Maximum Special Tax that could have been levied on the Parcel in each of the remaining Fiscal Years.

Step 6. Calculate the net present value of the future annual Maximum Special Taxes that were determined in Step 5 using, as the discount rate for the net present value calculation, the true interest cost (TIC) on the Bonds as identified by the Office of Public Finance. If there is more than one series of Bonds outstanding at the time of the prepayment calculation, the Administrator shall determine the weighted average TIC based on the Bonds from each series that remain outstanding. The amount determined pursuant to this Step 6 is the required prepayment for each Parcel. Notwithstanding the foregoing, if at any point in time the Administrator determines that the Maximum Special Tax revenue that could be collected from Square Footage that remains subject to the Special Tax after the proposed prepayment is less than 110% of debt service on Bonds that will remain outstanding after defeasance or redemption of Bonds from proceeds of the estimated prepayment, the amount of the prepayment shall be increased until the amount of Bonds defeased or redeemed is sufficient to reduce remaining annual debt service to a point at which 110% debt service coverage is realized.

Once a prepayment has been received by the City, a Certificate of Exemption shall be issued to the owner of the Parcel indicating that all Square Footage that was the subject of such prepayment shall be exempt from Special Taxes.

I. INTERPRETATION OF SPECIAL TAX FORMULA

The City may interpret, clarify, and revise this RMA to correct any inconsistency, vagueness, or ambiguity, by resolution and/or ordinance, as long as such interpretation, clarification, or revision does not materially affect the levy and collection of the Special Taxes and any security for any Bonds.

J. SPECIAL TAX APPEALS

Any taxpayer who wishes to challenge the accuracy of computation of the Special Tax in any Fiscal Year may file an application with the Administrator. The Administrator, in consultation with the City Attorney, shall promptly review the taxpayer's application. If the Administrator concludes that the computation of the Special Tax was not correct, the Administrator shall correct the Special Tax levy and, if applicable in any case, a refund shall be granted. If the Administrator concludes that the computation of the Special Tax was correct, then such determination shall be final and conclusive, and the taxpayer shall have no appeal to the Board from the decision of the Administrator.

The filing of an application or an appeal shall not relieve the taxpayer of the obligation to pay the Special Tax when due.

Nothing in this Section J shall be interpreted to allow a taxpayer to bring a claim that would otherwise be barred by applicable statutes of limitation set forth in the Act or elsewhere in applicable law.
