13 Be it ordained by the People of the City and County of San Francisco:

14

15 Section 1. Environmental and General Findings.

16 (a) The Planning Department has determined that the actions contemplated in this  
17 ordinance comply with the California Environmental Quality Act (California Public Resources  
18 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of  
19 Supervisors in File No. 260478 and is incorporated herein by reference. The Board affirms  
20 this determination.

21 (b) On April 8, 2026, at a duly noticed public hearing, the Building Inspection  
22 Commission considered this ordinance in accordance with Charter Section 4.121 and Building  
23 Code Section 104A.2.11.1.1. A copy of a letter from the Secretary of the Building Inspection  
24

24

25

1 Commission regarding the Commission’s recommendation is on file with the Clerk of the  
2 Board of Supervisors in File No. 260478.

3 (c) No local findings are required under California Health and Safety Code Section  
4 17958.7 because the amendments to the Building Code contained in this ordinance do not  
5 regulate materials or manner of construction or repair, and instead relate in their entirety to  
6 administrative procedures for implementing the Code, which are expressly excluded from the  
7 definition of a “building standard” by California Health and Safety Code Section 18909(c).

8 (d) The Department of Building Inspection submitted a report describing the basis for  
9 modifying various fees in the Building Code. Said report is on file with the Clerk of the Board  
10 of Supervisors in File No. 260478 and is incorporated herein by reference.

11  
12 Section 2. Chapter 1A of the Building Code is hereby amended by revising Sections  
13 107A.2 and 110A (specifically Tables 1A-A through 1A-S), to read as follows:

14  
15 **107A.2 Permit Issuance Fees.** The minimum permit fee per Section 110A, Table 1A-A  
16 – Building Permit Fees – shall be paid at the time an application for a building permit is  
17 issued. The *New-Building Construction Permit Fees Schedule* applies to new buildings or  
18 structures; ~~The Alteration Permit Fee Schedule applies to~~ alterations, repairs, additions or other  
19 work on an existing building or structure; or to the modification of the scope of an approved  
20 permit as required by Section 106A.4.7.

21 The determination of value or valuation under any of the provisions of this code shall  
22 be made by the Building Official. The value to be used in computing the permit issuance and  
23 plan review fees shall be the final valuation upon completion of all construction work for which  
24 the permit is issued, as well as all finish work, painting, roofing, mechanical, electrical,  
25 plumbing, heating, air conditioning, elevators, fire-extinguishing systems and all other

1 permanently installed equipment and construction, even though other permits to perform such  
2 work may be required.

3 The valuation shall be calculated at the time of permit issuance according to a cost  
4 schedule posted in the office of the Department or by actual construction cost, whichever is  
5 greater. The valuation shall be recalculated at the time of any addenda and/or revision  
6 issuance. Any additional fees due resulting from the recalculation of valuation shall be paid  
7 prior to addenda and/or revision issuance. The cost schedule shall be adjusted annually  
8 based on construction cost data reported by a variety of sources, including without limitation,  
9 local contractors, design professionals, cost estimators or nationally published construction  
10 cost data books or websites. Contractor overhead and profit shall be reflected in the schedule.  
11 The Building Inspection Commission is authorized to waive the annual cost schedule  
12 adjustment if it determines that increasing the fees will exceed the cost of providing the  
13 services for which the fees are paid.

## **LEGISLATIVE DIGEST**

[Building, Administrative Codes - Building Permit Fees Adjustment]

**Ordinance amending the Building Code to adjust fees charged by the Department of Building Inspection; amending the Administrative Code to allow the Department of Building Inspection and Planning Department to charge notary fees; and affirming the Planning Department’s determination under the California Environmental Quality Act.**

### **Existing Law**

Building Code Section 110A establishes the fees for permits and services provided by the Department of Building Inspection (“DBI”) in Tables 1A-A through 1A-S. Administrative Code Section 8.44 allows the Department of Administrative Services to charge fees for various services including notary services.

### **Amendments to Current Law**

The fee tables in Section 110A are being amended to adjust all fees by amounts pursuant to a fee study completed in 2024. The Proposed Legislation would also amend Administrative Code Section 8.44 to allow DBI and the Planning Department to recover notary service fees.

### **Background Information**

In 2023, DBI commissioned a fee study to determine the actual costs of service for each permit service. The fee study was completed in 2024 and produced a recommended maximum amount to set each fee that would fully recover DBI costs to perform the service without risk of overcharge to permit applicants. To implement fee increases gradually, the fees were increased partially in 2024 and 2025. The Proposed Legislation makes the final incremental adjustment of fees. All the fees will remain at or below the maximum recoverable amount identified in the fee study. This legislation is part of the Mayor’s budget presentation.

Budget and Appropriations Committee

# Fee Legislation – Building Code Fee Schedule Changes

- The Department of Building Inspection (DBI) has drafted an ordinance with the Mayor's Office amending the Building Code to adjust fees based on the recommendations of the NBS (consultant) fee study.
- New fees will be effective 30 days after the Mayor signs the ordinance. Expected effective date is approximately September 1, 2026.
- Fees in the proposed ordinance are assumed in the department's FY 2026-27 and FY 2027-28 budget.

# Fee History

- A fee study completed in 2008 established the current fee structure.
- A fee study completed in 2015 resulted in a 7% reduction in most fees.
- In 2024 NBS completed a fee study finding significant cost under-recovery.
- DBI spread rate increases over four years to minimize rate shock:
  - FY24 15%
  - FY25 23%
  - FY26 27%
  - FY27 proposed 2%, full cost recovery

MEASURES TO BE VOTED ON
Notice is hereby given that the following local measures are to be voted on at the Consolidated Statewide Direct Primary Election to be held in the City and County of San Francisco on Tuesday, June 2, 2026.

Proposition A
SAN FRANCISCO EARTHQUAKE SAFETY AND EMERGENCY RESPONSE BOND, 2026. To improve fire, earthquake, and emergency response by retrofitting, improving, expanding, constructing, and/or replacing: deteriorating pipes, tunnels, and related facilities to ensure firefighters can access enough water to fight fires from a major disaster or emergency; unsafe or deteriorating emergency response facilities, including neighborhood fire stations, critical transportation facilities, and public safety facilities; and to pay related costs, shall the City and County of San Francisco's issuance of \$335,000,000 in general obligation bonds be adopted, with a duration up to 30 years from the time of issuance, an estimated average tax rate of \$7.45/\$100,000 of assessed property value, and estimated average annual revenues of \$35,900,000, subject to independent citizen oversight and regular audits? The City's current debt management policy is to keep the property tax rate for City general obligation bonds below the 2006 tax rate by issuing new bonds as older ones are retired and the tax base grows, though this property tax rate may vary based on other factors.

Proposition B
Shall the City amend the Charter to set lifetime term limits for the Mayor and members of the Board of Supervisors so that people may not serve more than two four-year terms in those offices?

Proposition C
Shall the City permanently change the taxes it collects by exempting most businesses with up to \$7.5 million in San Francisco gross receipts from both the gross receipts tax and the top executive pay tax on some businesses whose highest-paid managerial employee earns more than 100 times the median compensation paid to their San Francisco employees, and by increasing the rates of the top executive pay tax to either between 0.021% and 0.123% of their San Francisco gross receipts or between 0.086% and 0.514% of their San Francisco payroll expense, for an estimated annual revenue decrease of \$30-\$40 million?

Proposition D
Shall the City permanently change the top executive pay tax it collects from some large businesses when their highest-paid managerial employee earns more than 100 times the median compensation paid to their San Francisco employees, by changing the tax to be calculated using the compensation of all employees, not just those based in San Francisco, and shall the City increase the top executive pay tax rates for these businesses to either between 0.183% and 1.121% of their gross receipts or between 0.75% and 4.47% of their payroll expense in San Francisco, for an estimated annual revenue increase of \$250-\$300 million?
