**Qualifications:**

I have ten years of work experience with the National Railroad in on board services and ticketing and reservations. I currently work as lead agent at the San Francisco Office. I have lived and worked in the Bay Area for 30 years and during that time have relied almost exclusively on public transportation. So I have both a general knowledge of how transportation works, as well as its challenges ( funding etc) from an inside perspective, as well as familiarity with the bay area transportation network as a whole, and a real feel for the frustrations that city and bay area transit users experience everyday. As I interact with the public daily, the most glaring issue is that what makes sense to planners (complex reasons why things can't be done) and what makes sense to the public ( simple solutions) never seems to get resolved. Here in our neighborhood, what I would like to see is pleasant, walkable streets. Land/street scaping that ties the neighborhood together in a comprehensive way. Traffic calming and two way streets. Signature street furniture/signage. Architectural preservation. I support transportation that more directly connects our neighborhood with the rest of the city and integration with the new Transbay Transit Center, 4th street station, the Central Subway, and improved transit in/outbound via Folsom as a core. I also support the new green bikeways and think that all bikes in the City should be registered and that registration fees be used to fund those bike lane improvements. The neighborhood should be pleasant and livable for residents and interesting for visitors as well, as there are many tourist class hotels in this area and in its current state, it's a little embarrassing to have our visitors staying here at times. We need them to keep showing up. I do not want existing residents to be forced out due to gentrification, but to make the neighborhood better for existing residents and tourists and to support the local businesses.

**Civic Activities:**

Other than speaking to the planning commission once on behalf of the Trinity Place project and following city hall goings on via SFGTV most of my involvement over the years has been limited to being present and accounted for at the various marches, parades, rallies and protests for gay rights dating back to the Reagan era. It's only now that I have enough seniority to hold a regular 6-2 m-f day shift enabling me to start planning my months in advance. Thank you for your consideration and the opportunity to share my input concerning the neighborhood's future.
