8. Proposed Grant Project Summary:

The Habitat Conservation Fund Grant will support Phase 3 of the India Basin Parks Initiative by transforming the existing park into a vibrant, multi-use park with healthy waterfront at the India Basin Shoreline Park. The Project will improve the poorly functioning shoreline by transforming it into marsh edge that will provide a resilient shoreline that can adapt with rising sea levels. Recent remediation of sediments will promote a more connected mudflat, tidal marsh, and upland buffer and transition zone to support the variety of flora and fauna that would thrive in this environment. In addition, a new boathouse and floating dock will create visual and physical access to the area’s wetland habitat for BVHP residents who have historically lacked access to water and nature.
