

1 [Accept and Expend Grant - California Air Resources Board - Zero Emission from Farm to
2 Table - \$4,562,862]

3 **Resolution retroactively authorizing the Department of the Environment to accept and**
4 **expend a grant in the amount of \$4,562,862 from the California Air Resources Board**
5 **Zero- and Near-Zero Emission Freight Facilities Program to coordinate demonstration**
6 **of electric medium- and heavy-duty trucks for transport of produce along Northern**
7 **California's trade corridors in the San Francisco Bay Area and the Central Valley for the**
8 **period of October 1, 2018, through March 31, 2021.**

9
10 WHEREAS, The City and County of San Francisco is a long-standing leader in local
11 and regional vehicle electrification program development and implementation; and

12 WHEREAS, In April 2018, the City and County of San Francisco committed to a climate
13 goal of net-zero greenhouse gas (GHG) emissions by 2050; and

14 WHEREAS, Private sector road transportation is currently the single largest contributor
15 to GHG emissions and air pollution in San Francisco, with cars and trucks contributing over
16 90% of these emissions; and

17 WHEREAS, Medium- and heavy-duty fleets represent a significant air pollution
18 reduction opportunity, as the higher fuel use of these vehicles represent 32% of GHG
19 emissions; and

20 WHEREAS, Existing deployment of medium- and heavy-duty fleets is concentrated in
21 commercial corridors and industrial areas, which often overlap with and disproportionately
22 burden the public health of low-income and underserved communities; and

23 WHEREAS, Produce movement and distribution in Northern California also represents
24 a significant air pollution reduction opportunity, as the Central Valley region is the 17th largest
25 agricultural area in the world and feeds one-third (1/3) of the world's population; and

1 WHEREAS, The City is committed to both increasing access to healthy food and
2 reducing food waste, goals which require successful operation of distribution marketplaces
3 and coordination of daily deliveries to connect produce growers to businesses that serve
4 residents; and

5 WHEREAS, Through the Healthy Air and Clean Transportation Ordinance (HACTO),
6 the Department of the Environment actively seeks to maximize the use of outside sources for
7 programs that help achieve reduction of GHG and pollution levels by promoting the use of
8 vehicles with zero or ultra-low emissions and expanding alternative fueling infrastructure in
9 San Francisco; and

10 WHEREAS, In July 2018, the Department of the Environment submitted a proposal to
11 the California Air Resources Board (CARB) Zero- and Near Zero-Emission Freight Facilities
12 (ZANZEFF) Program to implement and administer bold clean transportation strategies that
13 can holistically reduce GHG emissions, toxic pollutants, and air contaminants, and that can be
14 emulated throughout freight facilities statewide; and

15 WHEREAS, In September 2018, the CARB announced proposed awards under the
16 ZANZEFF Program, which included an award of \$4,562,862 to the Department of the
17 Environment to implement the Zero Emission from Farm to Table Project, a demonstration
18 project of electric medium- and heavy-duty vehicles and charging infrastructure between the
19 project cities of San Francisco, Fresno, and Sacramento; and

20 WHEREAS, The Zero Emission from Farm to Table Project will support a detailed
21 demonstration, assessment, and evaluation of the real-world performance of electric medium-
22 and heavy-duty vehicles involved in the movement and distribution of fresh produce in
23 Northern California; and

1 WHEREAS, The Department of the Environment can leverage existing staff to
2 implement and administer this Zero-Emission from Farm to Table Project; and

3 WHEREAS, The grant does not require an Annual Salary Ordinance (ASO)
4 amendment and partially reimburses the Department of the Environment for several existing
5 positions; and

6 WHEREAS, The term of this grant is from October 1, 2018, to March 31, 2021; and

7 WHEREAS, A combination of cash investments and in-kind donations from outside
8 partner agencies has been identified to provide the required \$4,711,937 in required non-state
9 match monies; and

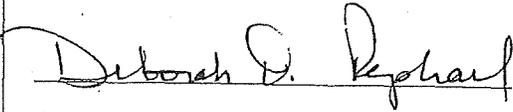

10 WHEREAS, The grant budget includes provision for indirect costs of \$63,178; now,
11 therefore, be it

12 RESOLVED, That the Director of the Department of the Environment is hereby
13 authorized to accept and expend the Zero- and Near Zero-Emission Freight Facilities Program
14 grant award of \$4,562,862 on behalf of the City, in accordance with the purposes and goals
15 for the funding as generally set forth by the CARB; and, be it

16 FURTHER RESOLVED, That the Director of the Department of the Environment is
17 hereby authorized to enter into and execute all agreements, and amendments thereto,
18 between the City and various agencies consistent with the aforementioned proposal and
19 necessary to carry out the purpose of the grant.

RECOMMENDED:

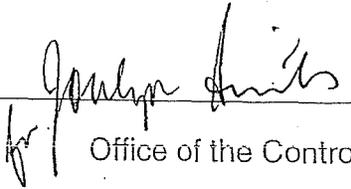

Department of the Environment

APPROVED:

Office of the Mayor

Office of the Controller

Grant Resolution Information Form
(Effective July 2011)

Purpose: Accompanies proposed Board of Supervisors resolutions authorizing a Department to accept and expend grant funds.

The following describes the grant referred to in the accompanying resolution:

1. Grant Title: CARB Zero Emission from Farm to Table

2. Department: Department of the Environment

3. Contact Person: Victoria Chan Telephone: 415-355-3704

4. Grant Approval Status (check one):

Approved by funding agency

Not yet approved

5. Amount of Grant Funding Approved or Applied for: \$4,562,862

6a. Matching Funds Required: \$4,711,937

b. Source(s) of matching funds (if applicable): Cost Share will be contributed by project partners of San Francisco through cash and in-kind match.

7a. Grant Source Agency: California Air Resources Board (CARB)

b. Grant Pass-Through Agency (if applicable): N/A

8. Proposed Grant Project Summary: The San Francisco Department of the Environment, in partnership with the cities of Sacramento and Fresno, will coordinate demonstration of electric medium- and heavy-duty vehicles involved in the transport of produce in multiple market areas in Northern California. The project will identify the most effective technical solutions for advancing the use of electric vehicles (EV), support collection and analysis of data to create a business case for fleet managers, quantify the benefit of EVs to residents along the trade corridors and in communities where this project's demonstration fleets will operate. Ultimately, this project aims to simultaneously accelerate market adoption of electric vehicles and to mitigate health risks and air pollution caused by heavy fleet operations in local and regional commercial corridors and industrial areas.

9. Grant Project Schedule, as allowed in approval documents, or as proposed:

Start-Date: October 1, 2018

End-Date: March 31, 2021

10a. Amount budgeted for contractual services: \$4,148,698

b. Will contractual services be put out to bid? No.

c. If so, will contract services help to further the goals of the Department's Local Business Enterprise (LBE) requirements? N/A

d. Is this likely to be a one-time or ongoing request for contracting out?

11a. Does the budget include indirect costs? Yes No

b1. If yes, how much? \$63,178

b2. How was the amount calculated? The 18% rate was calculated using the 2 Step Method of the U.S Office of Management and Budget. The amount was calculated multiplying for the estimated hours to be performed by staff times the labor rate times 18%.

c1. If no, why are indirect costs not included?

Not allowed by granting agency

To maximize use of grant funds on direct services

Other (please explain):

c2. If no indirect costs are included, what would have been the indirect costs?

12. Any other significant grant requirements or comments:

****Disability Access Checklist***(Department must forward a copy of all completed Grant Information Forms to the Mayor's Office of Disability)**

13. This Grant is intended for activities at (check all that apply):

Existing Site(s)

Existing Structure(s)

Existing Program(s) or Service(s)

Rehabilitated Site(s)

Rehabilitated Structure(s)

New Program(s) or Service(s)

New Site(s)

New Structure(s)

14. The Departmental ADA Coordinator or the Mayor's Office on Disability have reviewed the proposal and concluded that the project as proposed will be in compliance with the Americans with Disabilities Act and all other Federal, State and local disability rights laws and regulations and will allow the full inclusion of persons with disabilities. These requirements include, but are not limited to:

1. Having staff trained in how to provide reasonable modifications in policies, practices and procedures;
2. Having auxiliary aids and services available in a timely manner in order to ensure communication access;
3. Ensuring that any service areas and related facilities open to the public are architecturally accessible and have been inspected and approved by the DPW Access Compliance Officer or the Mayor's Office on Disability Compliance Officers.

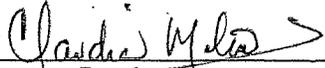

If such access would be technically infeasible, this is described in the comments section below:

Ms. Jessie Denver
Manager, Distributed Energy Resources
Department of the Environment
City of San Francisco
1455 Market Street, 12th Floor
San Francisco, California, 94103

Subject: Preliminary Selection for the Zero Emission Farm to Table: Reducing Air Pollution Emissions and Health Risk from the Movement of Produce Along Two Adjacent Trade Corridors in California

Dear Ms. Denver,

Thank you for your response to the Fiscal Year (FY) 2017-18 Clean Transportation Incentives Program Grant Solicitation for the Zero- and Near Zero-Emission Freight Facilities Project (solicitation). The City of San Francisco's Department of the Environment and the project partners submitted a well-crafted proposal that meets the objectives and goals of the solicitation. In this project 30 zero-emission trucks will be deployed for use in the movement of produce from Sacramento and Fresno to the San Francisco Wholesale Produce Market and then to move produce to end users in the Bay Area. The project includes a solar array to be installed at the San Francisco's Wholesale Produce Market and vehicle chargers at the wholesale market and the fleet yards in Sacramento.

The California Air Resources Board (CARB) is pleased to preliminarily offer a grant award for all the project's requested funding in the amount of \$4,562,862 to the City of San Francisco's Department of the Environment to implement the Zero Emission Farm to Table: Reducing Air Pollution Emissions and Health Risk from the Movement of Produce Along Two Adjacent Trade Corridors in California Project. This preliminary offer maybe contingent upon CARB Board approval of the Proposed FY 2018-19 Funding Plan for Clean Transportation Incentives,¹ which will provide a portion of the funding for this project.

¹ CARB is scheduled to consider approval of the FY 2018-19 Funding Plan at the October 2018 hearing.

Jesse Denver
October 15, 2018
Page 2

Before the project's grant agreement can be executed, The City of San Francisco's Department of the Environment must provide the following items to CARB:

- A breakdown of the \$4,562,862 in match funding by in-kind and cash contribution, including funding sources and documentation that shows each source's match contribution to this project;
- California Environmental Quality Act (CEQA) requirements are satisfied;
- A resolution from the City of San Francisco's governing Board that states that the City of San Francisco will accept the grant award, comply with the terms of the solicitation and allocated any finds that the City of San Francisco has committed as part of the projects proposed match; and
- Responses addressing all outstanding clarifying questions to CARB's satisfaction.

It is expected that the above request can be satisfied no later than November 16, 2018. CARB will submit the Grant Agreement to the City of San Francisco's Department of the Environment for signature following Board approval of the FY 2018-19 Funding Plan.

No agreement is in effect until the Grant Agreement is signed by both parties and, therefore, no reimbursable work can begin until the Grant Agreement is fully executed. However, administrative tasks performed by the City of San Francisco's Department of the Environment that occur after the issuance of this preliminary award letter and before the execution of the grant agreement can be counted toward the projects in-kind match requirement. CARB will not reimburse the grantee or project participants for any costs incurred before the execution of the Grant Agreement. If you have any questions or need further clarification, please contact Mr. Earl Landberg, Air Pollution Specialist, at (916) 323-1384 or by email at Earl.Landberg@arb.ca.gov.

Sincerely,

Michelle Buffington Ph.D., Manager

Attachment 1: PROJECT EXECUTIVE SUMMARY

“Zero Emission Farm to Table: Reducing air pollution emissions and health risks from the movement of produce along two adjacent trade corridors in California”

Led by the City and County of San Francisco’s Department of the Environment (SF Environment), in partnership with the cities of Sacramento and Fresno, this project will coordinate demonstration of electric medium- and heavy-duty vehicles engaged in the movement of goods along two adjacent California trade corridors: San Francisco Bay Area and Central Valley. The project’s goal is to ensure electric medium- and heavy-duty trucks are feasible for the transport of produce in multiple geographic market areas. The project will identify the most effective technical solutions for advancing use of electric vehicles (EV), collect and analyze data throughout the performance period to create a business case for fleet managers, and quantify the benefit of EVs to residents along the trade corridors, and in communities where project demonstration fleets operate. It will increase awareness and accelerate market adoption of EVs.

Project objectives include to electrify 23 medium - and 9 heavy-duty trucks that deliver produce from and within the Central Valley, Sacramento Valley, and coastal urban hubs. The project will also deploy Level 2 and Direct Current Fast Chargers to support demonstration fleets in San Francisco and Sacramento. At one of the two participating produce distribution markets in SF’s Demonstration District, a 240-kilowatt solar photovoltaic array will also be installed.

Like many nonprofit organizations, and small and medium size businesses, project partners that operate delivery fleets do not have the experience, capacity or capital to complete a project of this scope. Through CARB support, and leveraging private sector investment, this project will enable technology deployment, technical engineering, consulting services and data analysis that results in the successful demonstration of electric trucks on the streets of San Francisco, Sacramento and beyond.

The project will provide education and technical assistance (e.g., EV concierge) to fleet managers to make vehicle electrification simple and cost effective. It will share demonstration fleet data, summarize project findings and lessons learned, and testimonials from early adopters in a final report that will be shared broadly with other cities to encourage replication and advance market transformation for medium-and heavy-duty EVs.

Potential benefits and outcomes of the project include but are not limited to maximizing the emission reduction benefits of EVs used in the movement of produce and achieving health risk reductions in communities impacted by this sector. Key pollutants targeted by the project include diesel particulate matter and nitrogen oxides that contribute to the formation of both PM2.5 and ozone. The project will also provide co-benefits by reducing greenhouse gases and black carbon emissions that contribute to climate change; reducing fueling costs for fleet operators; reducing maintenance costs; increasing energy efficiency and renewable energy use.

Additional major project participants include CALSTART, Ryder Systems, Thor Trucks, eMotorWerks, the San Francisco Wholesale Produce Market, Earl’s Organics, Veritable Vegetable, Ozark Trucking, Inc., Produce Express, Luminant, Black & Veatch and DNV-GL.

The total project cost is \$9,114,799 and the project team is requesting CARB funding in the amount of \$4,562,862. The project team is providing a total match of \$4,551,937 which equals \$3,522/metric tons CO₂e reduced and \$5,564,682/tons criteria pollutants reduced.

Applicant: **City and County of San Francisco, Department of the Environment**
