Re: 524-526 Vallejo/4-4A San Antonio CUA appeal (File No. 260021) - Item 27

Dear Supervisor:

Please vote to uphold the Planning Commission's rejection of merging this four unit rent-controlled building into a mega mansion.

There really should be no confusion or ambiguity here, despite the appellants efforts:

- The *address* itself makes clear that it is a four unit building;
- The 3-R Report, a required disclosure in any real estate sale, states that it is a four unit building;
- The property tax record and property tax bill state that it is four units;
- And former tenants from each of the four units clearly state that is a four unit building.

Please oppose the merger of four rent-controlled units into a mega mansion.

Sincerely,

Mitchell Omerberg
Director

Dear President Mandelman and members of the Board of Supervisors,

Please find attached a letter from the San Francisco Anti-Displacement Coalition, signed by a number of our members and allies, strongly urging you to uphold the Planning Department's recommendation to reject the appeal at 524-526 Vallejo/4-4A San Antonio ([File No. 260021](#)). We have also attached two exhibits referenced in the letter.

Thank you. We are available to discuss or respond to any questions.

Meg Heisler

**Re: Appeal of CUA Denial, 524-526 Vallejo/4-4A San Antonio ([File #260021](#)), BOS Agenda Item 27**

Dear President Mandelman and members of the Board of Supervisors,

The San Francisco Anti-Displacement Coalition and the undersigned organizations write to strongly urge the Board of Supervisors to uphold the Planning Department's recommendation to reject this flagrant attempt to legitimize the unlawful conversion of a 4-unit apartment building into a luxury single family home.

This case represents a direct challenge to San Francisco's hard won policies that protect and preserve rent-controlled housing. Should the Board of Supervisors overturn the Commission's decision, the City will be giving the greenlight to speculators seeking to convert rent-controlled multifamily housing into mansions. The result will be a net loss in housing and an increase in displacement across the city. Our existing protections, including the Tenant Protection Ordinance which passed unanimously in January, will be undermined and more rent-controlled units will be lost.

**1. This appeal is premised upon an inaccurate and misleading description of the history of this property as rental housing.**

At the center of the owners' claim have been repeated distortions of fact obscuring the long existence of four rent-controlled apartment units located at the property. Last month, prior to filing their appeal, the owners emailed individual members of this Board describing the missing housing as "three nonfunctional 'paper units' that have never existed as usable housing." Then, dismissing reports by displaced tenants, the owners claimed one tenant lived in a "storage" space and others shared a single unit. At the Planning Commission they falsely described the four rent-controlled units as "ghost" housing.

In reality, public records provide unequivocal evidence that until 2013, there were four units at the site with two units on each of the two floors over the ground floor. The plans for renovating the building approved by DBI in 2013 show the following then-existing conditions:

“As built” site plans in the 2013 approved remodel showing two existing units on the 1st Floor.<sup>1</sup>

<sup>1</sup> Dept of Building Inspection, 524-526 Vallejo Street Remodel, Permit 2011-02049686, Proposed Site Plan, Proposed Site Plan, Approved 1-29-2013, Sheet A-2A (color highlighting added). The approved remodel reconfigured but *retained* the number of apartment units.

"As built" site plans from the 2013 approved remodel showing two existing units on the 2nd Floor.<sup>2</sup>

These public records fully confirm the accounts of previous tenants that the building was a 4-unit apartment building prior to its illegal conversion. Some of those tenants resided at the property for decades (see e.g. Exhibit I). The owners' claim that the former apartments were "paper units" is a fiction crafted to justify combining what were formerly four apartments units into a single 3,700 square foot home.

2. The owners were provided ample prior notice that the building was legally designated a 4-unit apartment building regardless of how the property was marketed at the time it was being sold.

Prior to the sale of any property in the city, the purchaser must be provided a copy of a "3-R" report that describes the lawful uses of the existing property. A 3-R report expressly cautions buyers:

**Any occupancy or use of the property other than that listed as authorized in this report may be illegal and subject to removal or abatement and should be reviewed with the Planning Department and the Department of Building Inspection.**

<sup>2</sup> Dept of Building Inspection, 524-526 Vallejo Street Remodel, Permit 2011-02049686, Proposed Site Plan, Proposed Site Plan, Approved 1-29-2013, Sheet A-2AB (color highlighting added).

The 3-R report for this property issued in October 2020, months prior to the present owners' purchase of the building, is attached as Exhibit II. That report clearly stated that "present authorized occupancy and use" for the property was **"four family dwelling."**

Having received a copy of the 3-R report, the owners then had the legal responsibility to inquire with City departments into the actual legal status of the property that was being marketed as a single family home despite having multiple addresses.<sup>3</sup>

**3. The owners fail to prove their claim that it is "infeasible" to restore the building to its legal use.**

In their argument that it is "infeasible" to restore the building's four lost rent-controlled units, the owners have made a number of unproven claims. Most recently, in their "Supervisor Brief," they assert: "The lot size, envelope, and existing structure cannot support four code-compliant units with the reinstatement requirements."

We are unaware of any documentation that has been submitted to prove such a claim. But we note that in 2013 DBI approved the previously referenced permit to remodel the site and maintain the four units at the site. Presumably such a plan was code-compliant. Absent a presentation of compelling evidence to the contrary, the Board can assume that such a plan is feasible again today.

**4. "Equity and Fairness" requires restoration of the four rent-controlled housing units without further delay.**

We understand the owners or their proponents may have suggested a "compromise" that the owners be allowed to remain in the converted property with a restriction that upon sale it would be restored as a 4-unit building. We view such a status quo outcome as a major setback for housing policy and for the many other families who are searching for rental housing.

The status quo, with or without the provision of an ADU in the basement, would reward the owners for disregarding the legal status of the building as a 4-unit apartment and indefinitely extend the loss of at least two rent-controlled housing units. It would also set a dangerous precedent for other owners to feign ignorance, bend the law when it is convenient for them, and continue the legacy of displacing tenants and erasing the history of rent-controlled units.

Such an outcome is fundamentally *inequitable*, impacting less economically advantaged San Franciscans who will bear the burden of weakened protections for rent-controlled housing and fueling further displacement of existing seniors, working families and individuals.

---

<sup>3</sup> We note that to the extent the MLS, the marketing materials, or real estate agents were misleading or obscured the actual legal status of the property as a multifamily apartment building then the owner may have additional remedies against those responsible. But the adverse impact of those misrepresentations should not be borne by the public – particularly those who need rent-controlled housing.

Nothing short of a denial of the appeal is appropriate in this case.

We are available to discuss or respond to any questions.

Respectfully submitted,

November 28, 2025

San Francisco Planning Commission  
San Francisco, CA

Dear President So and Commissioners:

Re: 524-526 Vallejo Street & 4-4A San Antonio Place  
Case No. 2024-011561CUA

Dear President So and Commissioners:

As a former displaced resident of 4A San Antonio Place, I write in strong support of Planning Department staff's recommendation to deny the request for a Conditional Use Authorization to legalize the merger of multiple units into a single-family residence.

I lived in my unit for 17 years before being forced out in 2013. I can attest to the fact that

there were four (4) separate units that housed 4 families, all of whom were forced to vacate or be evicted. The new buyer lied to the Planning Department and claimed that there were only three units even though there were actually four units. I would still be living in that affordable rent-controlled apartment in the great neighborhood of North Beach that was my home, but instead I have been forced out of the Bay Area.

It is important that you set an example that the demolition of badly needed affordable, rent-controlled housing will not be tolerated or rewarded.

Sincerely,

John Grant

cc: Jonas Ionan, Planning Commission Secretary  
Vincent Page, Planner

**Report of Residential Building Record (3R)**  
(Housing Code Section 351(a))

**BEWARE:** This report describes the current legal use of this property as compiled from records of City Departments. There has been no physical examination of the property itself. This record contains no history of any plumbing or electrical permits. The report makes no representation that the property is in compliance with the law. Any occupancy or use of the property other than that listed as authorized in this report may be illegal and subject to removal or abatement, and should be reviewed with the Planning Department and the Department of Building Inspection. Errors or omissions in this report shall not bind or stop the City from enforcing any and all building and zoning codes against the seller, buyer and any subsequent owner. The preparation or delivery of this report shall not impose any liability on the City for any errors or omissions contained in said report, nor shall the City bear any liability not otherwise imposed by law.
