Item 4 File 24-0863	Department: Office of Contract Administration (OCA)
--------------------------------------	---

EXECUTIVE SUMMARY

Legislative Objectives

- The proposed resolution would approve the Sixth Amendment to the City’s contract with Recology San Francisco, Recology Sunset Scavenger, and Recology Golden Gate (together “Recology”), increasing the not-to-exceed amount by \$1,500,000, for a total not to exceed \$45,300,000, and extending the term by two months through December 31, 2024.

Key Points

- Recology provides collection, processing, and disposal of refuse (recyclables, compostables, and trash) to commercial and residential customers in San Francisco. In 2020, the Office of Contract Administration (OCA) entered into a contract with Recology for refuse collection at City facilities. The contract has since been amended five times, for a total term of three years and 11 months and an amount not to exceed \$43,800,000.
- In 2022, OCA issued a Request for Proposals (RFP) to award a new refuse collection contract at City facilities. Allied Waste was deemed the highest scoring proposer and OCA issued a Notice of Intent to Award a contract to Allied Waste. However, prior to Board of Supervisors approval, Recology submitted a letter to OCA questioning Allied Waste’s pricing, noting that certain collection rates did not increase as container sizes increased. Allied Waste indicated that it could not proceed with its proposed collection rates and withdrew its proposal. OCA then entered negotiations with Recology, the second highest proposer, about a new contract for refuse collection at City facilities.
- To ensure that services continued while the contract was being negotiated, OCA and Recology agreed to the Fifth Amendment, extending the term through October 2024, which was approved by the Board of Supervisors in May 2024. Negotiations remain ongoing, and OCA and Recology have agreed to extend the existing contract through December 2024

Fiscal Impact

- The proposed Sixth Amendment would increase the not-to-exceed amount of the contract by \$1,500,000, for a total not to exceed \$45,300,000. Costs are paid by the various City departments based on the amount of refuse collection services used.

Recommendation

- Approve the proposed resolution.

MANDATE STATEMENT

City Charter Section 9.118(b) states that any contract entered into by a department, board or commission that (1) has a term of more than ten years, (2) requires expenditures of \$10 million or more, or (3) requires a modification of more than \$500,000 is subject to Board of Supervisors approval.

BACKGROUND

Recology provides collection, processing, and disposal or refuse (recyclables, compostables, and trash) to commercial and residential customers in San Francisco. In 2020, the Office of Contract Administration (OCA) executed a contract with Recology to collect refuse from City facilities for a term of seven months, from December 2020 through June 2021, with an option to extend by five months through November 2021, and an amount not to exceed \$5,600,000.¹ The contract has since been amended five times, as shown in Exhibit 1 below.

Exhibit 1: Previous Contract Amendments

Amendment	Date	Approval	Description
First	June 2021	OCA	Extended term through November 2021, increased amount to \$9,900,000
Second	November 2021	Board of Supervisors (File 21-1083)	Extended term through June 2022, increased amount to \$15,622,000
Third	July 2022	Board of Supervisors (File 22-0422)	Extended term through June 2024, increased amount to \$39,600,000
Fourth	June 2023	OCA	Amended collection rates
Fifth	May 2024	Board of Supervisors (File 24-0365)	Extended term through October 2024, increased amount to \$43,800,000

Source: Previous contract amendments

In June 2022, OCA issued a Request for Proposals (RFP) to award a new refuse collection contract at City facilities. Allied Waste was deemed the highest scoring proposer, and OCA issued a Notice of Intent to Award the contract in January 2023. The proposed Allied Waste contract required California Environmental Quality Act (CEQA) review, which took approximately one year. In February 2024, prior to Board of Supervisors approval of the Allied Waste contract, Recology, the only other proposer, issued a letter to OCA with copies to members of the Board of Supervisors questioning Allied Waste’s pricing on Aggregate 3 (collection of large compactors), namely that collection rates did not increase as container sizes increased. Allied Waste subsequently indicated to the City that it could not proceed with the contract at the proposed rates for Aggregate 3 and

¹ OCA had originally awarded a contract to Recology for a term of six years and an amount not to exceed \$62.5 million (File 20-1213). However, the Board of Supervisors referred the contract back to the Budget and Finance Committee after the U.S. Attorney’s Office charged a Recology executive with bribing the former Public Works Director to raise residential refuse collection rates. OCA then entered into a short-term contract with Recology to continue refuse collection at City facilities.

withdrew its proposal.² OCA then began negotiations with Recology, the second highest-scoring proposer, about a new contract for refuse collection at City facilities. To ensure that services continued while the contract was being negotiated, OCA and Recology agreed to the Fifth Amendment, extending the term through October 2024 (as shown in Exhibit 1 above). Negotiations remain ongoing, and OCA and Recology have agreed to extend the existing contract through December 2024.³

DETAILS OF PROPOSED LEGISLATION

The proposed resolution would approve the Sixth Amendment to the City's contract with Recology San Francisco, Recology Sunset Scavenger, and Recology Golden Gate⁴ (together "Recology"), increasing the not-to-exceed amount by \$1,500,000, for a total not to exceed \$45,300,000, and extending the term by two months through December 2024.

Under the proposed Sixth Amendment, collection rates would increase by 3.77 percent based on the increase in the Consumer Price Index (CPI). Recology provides the following services for City Departments under the contract:

- Collection and processing of refuse (recyclables, compostables, and trash) generated by all City departments within San Francisco city limits;
- Refuse bins for both interior and exterior collection;
- Identifying opportunities to reduce the level of refuse service and eliminate secondary charges to decrease costs to departments; and
- Providing reports on recovery rates and non-compliance with proper separation of recyclables, compostables, and trash.

City departments determine the frequency for each site's refuse collection. The contract's scope of services is limited to City departments. Although regulated by the City, Recology's refuse collection for residents and businesses is not impacted by this contract.

According to Gloria Yuen, OCA Senior Purchaser, negotiations on the new Recology contract are continuing to ensure that contract terms are equitable between the City and Recology. OCA and Recology are working to finalize terms related to the recovery discount (with the goal of increasing recovery rates and reducing refuse generation at City facilities), equipment leases, ancillary services, and other items.

² Since the final RFP scores were very close, Recology may have been the higher scoring proposer if Allied Waste had submitted slightly higher rates in its proposal.

³ The solicitation waiver authorizing the original contract on a sole-source basis has been amended to reflect the not-to-exceed amount of the contract amendment.

⁴ Recology Sunset Scavenger and Recology Golden Gate are collection companies that service different areas of the city. Recology San Francisco is the company that owns the transfer station and recyclables processing facility where collected material is handled.

FISCAL IMPACT

The proposed Sixth Amendment would increase the not-to-exceed amount of the Recology contract by \$1,500,000, for a total not to exceed \$45,300,000. Actual and projected contract expenditures are shown in Exhibit 2 below.

Exhibit 2: Actual and Projected Contract Expenditures

Actual Expenditures (through 8/26/2024)	\$40,909,889
Average Monthly Expenditures	912,375
Remaining Months	4.17
Projected Expenditures (through 12/31/2024)	3,809,059
<i>Total Actual and Projected Expenditures</i>	<i>\$44,718,947</i>
Contingency (15% of Projected Expenditures)	571,359
Total Not to Exceed (Rounded to Nearest \$100,000)	\$45,300,000

Source: OCA

The proposed not-to-exceed amount includes a 15 percent contingency to account for any new refuse collection locations, increased collection frequency, or to allow for a further extension of the contract. The contract is funded by the various City departments based on the amount of refuse collection services used.

Rates for City Services

The City’s original contract with Recology used the Uniform Commercial Rates, which are regulated by the City’s Refuse Rate Board following voter approval of Proposition F in June 2022. In the Third Amendment to the contract, rates no longer tracked the Uniform Commercial Rates but were instead escalated by the regional CPI. The Fifth Amendment did not increase the contract’s rates in FY 2024-25, but the proposed Sixth Amendment would increase the contract’s rates by 3.77 percent, starting on November 1, 2024. The Uniform Commercial Rates are due to increase by 2.55 percent on October 1, 2024. The rates under the proposed Sixth Amendment would be 0.3 percent greater than Recology’s Uniform Commercial Rates after the upcoming increase.

RECOMMENDATION

Approve the proposed resolution.

Appendix B-3
Calculation of Charges
(November 1, 2024 to December 31, 2024)

1. Description of Charges.

- a. City Departments must comply with the Mandatory Recycling and Composting Ordinance which requires the proper separation of recyclables, compostables, and trash.
- b. The collection rates for the Sixth Amendment (November 1, 2024 to December 31, 2024) (“Collection Rates”) charged for refuse collection services are based on a set of rate tables that do not differentiate between the types of collection bins (recycling, composting, and trash). The Parties understand and agree that the initial rates to be charged for services covered by the Sixth Amendment are the rates specified in Appendix D-6, which shall apply to services provided between November 1, 2024 and December 31, 2024.
- c. Subject to the discount provided for in Section (1)(d) below, charges by Contractors for the Services covered by the Sixth Amendment will be the Collection Rates specified in Appendix D-6 and effective November 1, 2024 for the period of November 1, 2024 to December 31, 2024. Following are the main categories of charges:
 - i. Collection Rates
 1. Collection Rates for this Sixth Amendment for refuse (i.e., trash, recyclables and compostables) have been implemented by the Contractors to reflect the City’s planned migration to zero waste and incentivize customers to help San Francisco reach its generation and disposal reduction targets.
 2. The Collection Rates for the Sixth Amendment are the rates specified in Appendix D-6 and effective November 1, 2024 for the period of November 1, 2024 to December 31, 2024.
 - ii. Compactors
 1. Compactor Rates for this Sixth Amendment for refuse are the rates specified in Appendix D-6 and effective November 1, 2024 for the period of November 1, 2024 to December 31, 2024.
 2. Rental of Compactor Units are not through this Agreement. Rental rates are based on the rental agreement between the Contractor and City Department.
 3. The Contractor is responsible for covering any repair costs to a rented Compactor Unit per the rental agreement between the Contractor and City Department.

iii. Debris Boxes

1. Debris Box Rates for this Sixth Amendment are the rates specified in Appendix D-6 and effective November 1, 2024 for the period of November 1, 2024 to December 31, 2024.
2. Allowed uses of debris boxes under this contract include:
 - a. Abandoned materials;
 - b. Bulky items;
 - c. Recyclable and compostable materials; and
 - d. Alternative collection service when compactors are being repaired.
3. Use of debris boxes for trash collection is only allowed if pre-approved in writing by the Department of the Environment.

iv. Ancillary Services

1. Rates for premium services are those specified in the rate table titled “Collection Rates.” Rates for other ancillary services are specified in the rate table for Extra Services. Both categories of rates are the rates specified in Appendix D-6 and effective November 1, 2024 for the period of November 1, 2024 to December 31, 2024.

v. Contamination Charges

1. Contractors implement a system of City-approved charges for contamination and overages designed to encourage recycling and composting, ensure that each customer is subscribed to the correct service level, and cover the extra costs that Contractors incur due to contamination and overages. The current charges are set forth in Appendix C-3.
- d. Each City location shall receive the same recovery discount that Contractors offer generally to commercial customers in San Francisco pursuant to the 2017 rate order (the “Recovery Discount”). The Recovery Discount for commercial customers in San Francisco is based on the following:

Recovery Rate (subscribed recycling and composting bin monthly volume divided by total subscribed refuse bin monthly volume) less a Recovery Floor.

Recovery Floor is 25%.

To reflect the fact that City locations reuse, recycle, and compost organic material using their own facilities and resources, the Contractor agrees to apply a Composting Credit

(described in Section 3) to the Recovery Floor. With the Composting Credit, the City’s Recovery Discount will be calculated as follows:

$$\text{Recovery Discount} = \text{Recovery Rate} - (\text{Recovery Floor} - \text{Composting Credit})$$

By way of example, assume a City Location is subscribed for the following service level:

Service Level:	Subscribed-For Monthly Bin Volume
1 96g Trash bins, 4 days/wk.	$= 1 * (96/201.9) * 4 * 4.33 = 8.23$
3 64g Recyclables bins, 4 days/wk.	$= 3 * (64/201.9) * 4 * 4.33 = 16.47$
1 64g Compostables bin, 4 days/wk.	$= 1 * (64/201.9) * 4 * 4.33 = 5.49$

Note: 201.9 converts gallons to cubic yards. 4.33 converts weeks to months.

Based on the Composting Credit allowed per Section 3, below, the Recovery Discount for the above City Location, and the amounts charged, would be calculated as follows:

$$\text{Recovery Rate} = (\text{Recycling} + \text{Composting Volume}) / (\text{Recycling} + \text{Composting} + \text{Trash Volume})$$

$$(5.49 + 16.47) / (5.49 + 16.47 + 8.23) = .727 = 73\%$$

$$\text{Recovery Discount} = \text{Recovery Rate} - (\text{Recovery Floor} - \text{Composting Credit})$$

$$73\% - (25\% - 20\%) = 68\%$$

$$\text{Recovery Discount} = 68\%$$

City Department Location	Subscribed Cubic Yards/ Month	Service Charges before Recovery Discount	Service Charges after Recovery Discount
Composting	5.49	\$ 395.96	\$ 395.96
Recycling	16.47	\$ 1,187.88	\$ 1,187.88
Trash	8.23	\$ 558.00	\$ 558.00
Recovery Discount 68%			\$ (1,456.45)
TOTAL	30.19	\$ 2,141.84	\$ 685.39

Note: The example uses the Uniform Commercial Rates effective July 1, 2019.

The Recovery Discount incentivizes City Locations to recover more recyclables and compostables. Therefore, City Locations that have a Recovery Rate of 5% or below will not be eligible for the Recovery Discount.

Charges for ancillary services (e.g., access, distance, and elevation) are not subject to the discount. By entering into this Sixth Amendment, the parties do not intend to modify the categories of services subject to the Recovery Discount (or the amount or method of calculating the discount).

e. Self-Haul

- i. Refuse, except loads of source separated single commodities (e.g. loads of cardboard only or metal only), self-hauled to Recology San Francisco's facilities is subject to a tipping charge, except to the extent the costs of disposing of such material are included in the cost base used to set rates under the Refuse Ordinance. Under the current Rate Order, the only costs so included are those for disposal of street sweeping and abandoned material collected and self-hauled by the Department of Public Works.
- ii. The tipping charge is the rate specified in Appendix D-6 and effective November 1, 2024 for the period of November 1, 2024 to December 31, 2024.

2. **Provision of Services.** No charges shall be incurred under this Agreement nor shall any payments become due to any Contractor until the services to which such payments relate are received from such Contractor and the related billings are approved by the City Department head as being in accordance with this Agreement. Upon prior written notice to the applicable Company setting forth the nature of Company's failure under this Agreement, a City Department may withhold payment to Contractor in any instance in which such Contractor has failed or refused to satisfy any material obligation provided for under this Agreement in connection with such City Department.

3. **Composting Credit.**

- a. In calculating the Recovery Discount, Contractors have agreed to reduce the standard 25% Recovery Floor for the benefit of City to reflect the fact that City locations compost organic material, grind wood into wood chips, and repurpose forestry products on-site for their own use, using their own facilities and resources (such activities collectively, "City Organics Recovery Activities"). These activities mean that the City orders fewer Compostables bins from Contractors than it otherwise would, which in turn means that City's Recovery Discount is less than it would otherwise be.
- b. As a result, Contractors agree that there will be a reduction in the Recovery Floor for all City locations that receive the Recovery Discount. The reduction (the "Composting Credit" or "Compost Credit") shall be 20%. The Compost Credit was determined by utilizing the following formula: dividing (i) average total tonnage of organic material recovered by City locations through the City Organics Recovery Activities during the three (3) year period ending on the July 1 preceding the July 1 adjustment date, by (ii) average total tonnage of refuse of all types generated by City locations during the same three (3) year period. The total tonnage (i.e., the denominator in clause (ii)) includes, but is not limited to, all refuse collected by Contractors (e.g., Trash, Recyclables, Compostables), whether disposed or recovered. Notwithstanding any other provision, the Composting Credit shall not exceed 20% (i.e. the Recovery Floor after application of the Composting Credit shall not be reduced below 5%).
- c. Contractors' analysis based on City and Contractors' data indicates that as of the date hereof, the City Organics Recovery Activities recover an amount of organic material

significantly in excess of the amount required to achieve the maximum Composting Credit of 20%. If City modifies the City Organics Recovery Activities in a way that is reasonably likely to decrease the tonnage of organic material recovered from such activities by over 5%, then City shall notify Contractor in writing of the same, so that the Parties can recalculate the Composting Credit.

- d. Should the City implement other categories of recovery activities that recover organic material, the City and Contractor agree to mutually consider in good faith whether and how to include the recovery attained through those activities as part of the Composting Credit in an equitable and reasonable manner.

Appendix C-3
Contamination & Overages Management
(November 1, 2024 to December 31, 2024)

Contractor shall implement a system of notices and charges for Contamination and Overages designed to encourage recycling and composting, ensure that each customer is subscribed to the correct service level, and cover the extra costs that Contractor incur due to Contamination and Overages. This system is designed so that, if each City department location properly separates Recyclables and Compostables from Trash and has a subscription for sufficient Bin volume to handle all their material, no charges will be assessed. The current system and associated charges are as follows. All rates referred to in this Appendix C-3 are the rates set forth in Appendix D-6, and effective November 1, 2024 for the period of November 1, 2024 to December 31, 2024:

1. If a Recyclables or Compostables Bin appears to contain more than 10% or 5% respectively by volume of non-Recyclables or non-Compostables, then the Bin is considered “contaminated.” Contractor will follow the following protocol for contaminated Bins:
 - a. Contamination will be communicated to the Department Designee through a series of letters: Warning Letter, Notice Letter, Escalation Letter and Good Job Letter.
 - i. Warning letters occur when 4 or more instances of contaminated Bins are found at a City Department location.
 - ii. Notice letters inform the city department designee of the intent to charge for contamination on the next billing cycle.
 - iii. Escalation letters occur when continued contamination remains at a City location for greater than six months.
 - iv. Good Job letters are sent whenever charges are removed as a result of a passing quality assurance inspection.
 - b. On the 1st, 2nd and 3rd instances of a contaminated Bin at a City location, Contractor will collect the Bin at no charge to the City.
 - c. On the fourth or more instance of a contaminated Bin at the location, Contractor will collect the Bin at no charge to the City and will send a warning letter to the Department Designee, to inform him/her of the Contamination at the location. SF Environment staff will work with the City Department Designee to address the contamination. The city department has 30 days from the issuance of the warning letter to have a quality assurance inspection conducted by the contractors.
 - d. The warning letter will remain in effect for 6 months. If a 5th instance of a contaminated Bin at the location does not occur within 6 months of the date of the warning letter, then the warning letter will lapse, and any subsequent instance of a contaminated Bin at the location will be treated as if it were the 1st instance.
 - e. A Quality Assurance Inspection will result in a determination of the quality of the material discarded in one or more of the location’s Bins (Recyclables, Compostables, and/or Trash). The City Department Designee will receive photos and an assessment of pass or fail on the bins inspected. If a failure is determined, the City Department

Designee will receive a notice letter, informing the department that a recurring contamination charge will be initiated at the next billing cycle. If all Bins pass the quality assurance inspection, then the Department Designee will receive a Good Job Letter.

- f. If a notice letter is issued, then Contractors will begin charging a recurring Contamination Charge equal to 50% of the Trash rate for the same-size Bin collected at the same frequency, with no Recovery Discount. The charge will be added to the bill for each subsequent collection of that Bin until removed in accordance with paragraph (6) below. If not removed, the charge may be increased to 75% of the applicable Trash rate after 6 months, and 100% of the applicable Trash rate after 12 months. If the charge is removed, and a subsequent instance of a contaminated Bin at the location occurs while the warning letter remains in effect, then the charge will be reinstated (with a notice letter to the City Department Designee) until removed in accordance with paragraph (6) below.
2. If a Recyclables or Compostables Bin is so contaminated that it must be collected as Trash, or if a Compostables Bin contains pervasive glass (regardless of volume), then the Bin will be collected as Trash, and a per-occurrence charge equal to the Trash “extra” rate per the Collection Rates for the Sixth Amendment for the same-size Bin will be charged. This charge is separate from and in addition to the Contamination Charge described in paragraph (1).
3. Contractor’s practice is not to collect any Bin that contains any amount of Hazardous Material, Medical Waste, Electronic Waste, or other material that is prohibited from being disposed of in the refuse stream. However, if a Bin is inadvertently collected that contains prohibited material, a charge equal to the Trash “extra” rate for the same-size Bin will be charged.
4. If a Trash Bin is contaminated with an excessive amount of Recyclables or Compostables (usually over 25%), Contractor will begin charging a recurring charge equal to 50% of the Trash rate for the same-size Bin collected at the same frequency, with no Recovery Discount. Before assessing this charge, Contractor will give the Department Designee at least 30 days written notice and an opportunity to correct the problem. If the problem is not corrected within that period, the charge will be added to the bill for each subsequent collection of that Bin until removed in accordance with paragraph (6) below.
5. Consistent with Contractor’s standard practice for commercial customers in San Francisco, Contractors may adjust or suspend the Recovery Discount for a City location if it displays a consistent pattern of violating the City’s Mandatory Recycling and Composting Ordinance. Before suspending the discount, Contractors will give the Department Designee at least 30 days written notice and an opportunity to correct the problem. If the problem is not corrected within that period, the Recovery Discount will be suspended or the service modified for the service address until resolved in accordance with paragraph (6) below.
6. The procedure for removing the recurring charges described in paragraphs (1) and (4) above, and the Recovery Discount suspension described in paragraph (5) above, is as follows:
 - a. The Department Designee will complete and submit to SF Environment a self-assessment form for the City location in question. SF Environment will review the form and submit it

- to Contractor's customer service department, together with a request to have the recurring charge (or Recovery Discount suspension) removed.
- b. Contractor will confirm receipt and schedule a quality assurance inspection within thirty (30) days of receipt of SF Environment's request. The results of the inspection will be sent to SF Environment and the Department Designee.
 - c. If the City location passes the inspection, then the recurring charge (or Recovery Discount suspension) will be removed on the next billing cycle.
 - d. If the City location fails the inspection, then the recurring charge (or Recovery Discount suspension) will continue for another two (2) monthly billing cycles, at which time another quality assurance inspection may be requested.
 - e. In the case of the Contamination charge under paragraph (1) above, if the inspection shows improvement but not enough to meet the thresholds, the Contamination charge may be decreased (e.g. from 50% to 25% of the Trash rate) upon mutual agreement between the Contractor and the City.
 - f. Notwithstanding the foregoing, recurring charges (and Recovery Discount suspensions) will continue for a minimum of two (2) monthly billing cycles.
7. Contractor may either refuse to collect an Overage or may collect it and charge the then-applicable Trash "extra" rate per the Collection Rates for the Sixth Amendment for the same-size Bin.
 8. City locations exhibiting contaminated refuse streams will be identified by the Contractor through a variety of methods, including:
 - a. Refuse collection staff may flag the account within the Contractor's customer database following observations made during regular collection service.
 - b. The Contractor's waste zero team may identify contaminated bins while performing random inspections throughout the community.

2.2 The City has an option to extend the Agreement for an additional five months for a total contract term not to exceed one year. The City may extend this Agreement beyond the expiration date by exercising an option at the City’s sole and absolute discretion and by modifying this Agreement as provided in Section 11.5, “Modification of this Agreement.”

Article 3 Financial Matters

3.1 Certification of Funds; Budget and Fiscal Provisions; Termination in the Event of Non-Appropriation. This Agreement is subject to the budget and fiscal provisions of the City's Charter. Charges will accrue only after prior written authorization certified by the Controller, and the amount of City's obligation hereunder shall not at any time exceed the amount certified for the purpose and period stated in such advance authorization. This Agreement will terminate without penalty, liability or expense of any kind to City at the end of any fiscal year if funds are not appropriated for the next succeeding fiscal year. If funds are appropriated for a portion of the fiscal year, this Agreement will terminate, without penalty, liability or expense of any kind at the end of the term for which funds are appropriated. City has no obligation to make appropriations for this Agreement in lieu of appropriations for new or other agreements. City budget decisions are subject to the discretion of the Mayor and the Board of Supervisors. Contractor's assumption of risk of possible non-appropriation is part of the consideration for this Agreement. Nothing in Sections 3.1, 3.2 or 3.3.1 shall be deemed to require any Contractor to provide Services for no compensation or for less than the compensation described in Appendix B.

THIS SECTION CONTROLS AGAINST ANY AND ALL OTHER PROVISIONS OF THIS AGREEMENT.

3.2 Guaranteed Maximum Costs. The City's payment obligation to Contractor cannot at any time exceed the amount certified by City's Controller for the purpose and period stated in such certification. Absent an authorized Emergency per the City Charter or applicable Code, no City representative is authorized to offer or promise, nor is the City required to honor, any offered or promised payments to Contractor under this Agreement in excess of the certified maximum amount without the Controller having first certified the additional promised amount and the Parties having modified this Agreement as provided in Section 11.5, "Modification of this Agreement."

3.3 Compensation.

3.3.1 Payment. Contractor shall provide an invoice to the City on a monthly basis for Services completed in the immediate preceding month, unless a different schedule is set out in Appendix B, "Calculation of Charges." Compensation shall be made for Services identified in the invoice that the City, in its sole but reasonable discretion, concludes has been satisfactorily performed. Payment shall be made within 30 calendar days of receipt of the invoice, unless the City notifies the Contractor that a dispute as to the invoice exists, in which case City shall pay the undisputed amount of the invoice. In no event shall the amount of this Agreement exceed **five million six hundred thousand dollars and no cents (\$5,600,000.00)**. The breakdown of charges associated with this Agreement is described in Appendix B, "Calculation of Charges," attached hereto and incorporated by reference as though fully set forth herein. A portion of payment may be withheld until conclusion of the Agreement if agreed to by both Parties as retainage, described in Appendix B. In no event shall City be liable for interest or late charges for any late payments.

3.3.2 Payment Limited to Satisfactory Services. Contractor is not entitled to any payments from City except to the extent City approves Services, including any furnished Deliverables, as satisfying all of the requirements of this Agreement, such approval not to be unreasonably withheld. Payments to Contractor by City shall not excuse Contractor from its

obligation to replace unsatisfactory Deliverables, including equipment, components, materials, or Services even if the unsatisfactory character of such Deliverables, equipment, components, materials, or Services may not have been apparent or detected at the time such payment was made. Deliverables, equipment, components, materials and Services that do not conform to the requirements of this Agreement may be rejected by City and in such case must be replaced by Contractor without delay at no cost to the City.

3.3.3 Withhold Payments. If Contractor fails to provide Services in accordance with Contractor's obligations under this Agreement, the City may withhold payments due Contractor for the unsatisfactory Services until such failure to perform is cured, and Contractor shall not stop work as a result of City's withholding of payments as provided herein.

3.3.4 Invoice Format. Invoices furnished by each Contractor under this Agreement must be in a form acceptable to the Controller and must include a unique invoice number. If feasible, a single blanket Purchase Order will be used for all of the Services and the Contractors will bill Services to the individual City Departments (e.g. Department of Public Works, Public Utilities Commission, Parks and Recreation, Port of San Francisco) under the blanket Purchase Order. The Contractors shall invoice individual City Departments, and the City Departments shall pay such invoices separately. The Contractor will enter State and local sales or use taxes and other excise taxes, if applicable, on invoices; provided that, the City shall pay no more than the guaranteed maximum cost set forth in Section 3.2 and provided further that any such taxes charged to the City shall be included in the guaranteed maximum cost under Section 3.2. Payment shall be made by City to each Contractor at the address specified in Section 11.1 or to such other addresses as shall be specified by the applicable Contractor upon written notice to the City.

3.4.2 Contractor agrees to maintain and make available to the City, during regular business hours, accurate books and accounting records relating to its Services. Contractor will permit City to audit, examine and make excerpts and transcripts from such books and records, and to make audits of all invoices, materials, payrolls, records or personnel and other data related to all other matters covered by this Agreement, whether funded in whole or in part under this Agreement. Contractor shall maintain such data and records in an accessible location and condition for a period of not less than five years after final payment under this Agreement or until after final audit has been resolved, whichever is later. The State of California or any Federal agency having an interest in the subject matter of this Agreement shall have the same rights as conferred upon City by this Section. Contractor shall include the same audit and inspection rights and record retention requirements in all subcontracts.

3.5 **Submitting False Claims.** The full text of San Francisco Administrative Code Chapter 21, Section 21.35, including the enforcement and penalty provisions, is incorporated into this Agreement. Pursuant to San Francisco Administrative Code §21.35, any contractor or subcontractor who submits a false claim shall be liable to the City for the statutory penalties set forth in that section. A contractor or subcontractor will be deemed to have submitted a false claim to the City if the contractor or subcontractor: (a) knowingly presents or causes to be presented to an officer or employee of the City a false claim or request for payment or approval; (b) knowingly makes, uses, or causes to be made or used a false record or statement to get a false claim paid or approved by the City; (c) conspires to defraud the City by getting a false claim allowed or paid by the City; (d) knowingly makes, uses, or causes to be made or used a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the City; or (e) is a beneficiary of an inadvertent submission of a false claim to the City, subsequently discovers the falsity of the claim, and fails to disclose the false claim to the City within a reasonable time after discovery of the false claim.

3.6 **Payment of Prevailing Wages**

3.6.1 **Covered Services. Solid Waste Hauling Services (Administrative Code 21.C.5).** Services to be performed by Contractor under this Agreement involve the performance of trade work covered by the provisions of Section 21C [Miscellaneous Prevailing Wage

Requirements] of the Administrative Code (collectively, “Covered Services”). The provisions of Section 21C of the Administrative Code are incorporated as provisions of this Agreement as if fully set forth herein and will apply to any Covered Services performed by Contractor and its subcontractors.

(a) Every contract issued by the City and County of San Francisco for the hauling of solid waste (or grit) generated by the City in the course of City operation must require that any employee engaged in the hauling of solid waste (or grit) shall be paid not less than the Prevailing Rate of Wages, including fringe benefits or the matching equivalent thereof, paid in private employment for similar work in the area which the contract is being performed. The term “employee” as used in this section shall mean any individual engaged in the hauling of solid waste (or grit) for a Prime Contractor or Subcontractor. Prime Contractors must require Subcontractors to comply with the prevailing wage rate required in this section. The Board of Supervisors shall determine the Prevailing Wage Rate at least once each year. If a contract for solid waste (or grit) hauling conflicts with an existing Collective Bargaining agreement to which a Contractor is a party, the collective bargaining agreement shall prevail.

(b) **Enforcement.** If a Contracting Officer determines that the Contractor or a Subcontractor may have violated the Prevailing Wage requirements of this section, the Contracting Officer shall send written notification to the Contractor or Subcontractor of the possible violation. In addition to and without prejudice to any other remedy available, the Contracting Officer may terminate the Contract, in which case the Contractor shall not be entitled to any additional payment unless within 30 days of receipt of the violation notice the Contractor has either (1) cured the violation or (2) established by documentary evidence, including but not limited to payroll records, the truth and accuracy of which shall be attested to by affidavit, proof of compliance with the provisions of this Section.

Where a Contractor or Subcontractor fails to pay at least the Prevailing Rate of Wages to employees, the Contractor shall have “cured” the violation once the Contractor or Subcontractor reimburses employees by paying each individual the balance of what he or she should have earned in accordance with the requirements of this Section.

In addition to, or instead of terminating the Contract, where the Contracting Officer finds that the Contractor willfully violated the requirements of this Section, the Contracting Officer or the Labor Standards Enforcement Officer may assess a penalty (a “willful violation penalty”) of not more than 10 percent of the dollar amount of the Contract. The Contracting Officer or Labor Standards Enforcement Officer may impose such willful violation penalty regardless of whether the Contractor has cured the violation.

Article 4 Services and Resources

4.1 Services Contractor Agrees to Perform.

4.1.1 The Contractors jointly and severally agree to perform the Services stated in Appendix A, “Scope of Services” attached hereto and incorporated by reference as though fully set forth herein and to comply with all terms and conditions contained herein. Notwithstanding any other provision of this Agreement, the Contractors shall not be required to perform any Services unless the City has appropriated funds for the provision of such Services. Except as specifically provided in this Agreement, the Contractors shall secure, provide, supply

and maintain all labor, materials, supplies and equipment necessary to perform the Services, including without limitation, bins and trucks. Officers and employees of the City are not authorized to request, and the City is not required to reimburse the Contractor for, Services beyond the Scope of Services listed in Appendix A, unless Appendix A is modified as provided in Section 11.5, "Modification of this Agreement."

4.1.2 **Other Agreements.** This Agreement shall supersede all other outstanding contracts between the Contractors and any City Department with regard to the provision of the Services, except for the 2015 Landfill Disposal Agreement between the City and County of San Francisco and Recology San Francisco.

4.2 **Qualified Personnel.** Contractor shall utilize only competent personnel under the supervision of, and in the employment of, Contractor (or Contractor's authorized subcontractors) to perform the Services. Contractor will comply with City's reasonable requests regarding assignment and/or removal of personnel, but all personnel, including those assigned at City's request, must be supervised by Contractor. Contractor shall commit adequate resources to allow timely completion within the project schedule specified in this Agreement.

4.3 **Subcontracting.**

4.3.1 Contractor may subcontract portions of the Services only upon prior written approval of City. Contractor is responsible for its subcontractors throughout the course of the work required to perform the Services. All Subcontracts must incorporate the terms of Article 10 ("Additional Requirements Incorporated by Reference") of this Agreement, unless inapplicable. Neither Party shall, on the basis of this Agreement, contract on behalf of, or in the name of, the other Party. Any agreement made in violation of this provision shall be null and void.

4.4 **Independent Contractor; Payment of Employment Taxes and Other Expenses.**

4.4.1 **Independent Contractor.** For the purposes of this Section 4.4, "Contractor" shall be deemed to include not only Contractor, but also any agent or employee of Contractor. Contractor acknowledges and agrees that at all times, Contractor or any agent or employee of Contractor shall be deemed at all times to be an independent contractor and is wholly responsible for the manner in which it performs the services and work requested by City under this Agreement. Contractor, its agents, and employees will not represent or hold themselves out to be employees of the City at any time. Contractor or any agent or employee of Contractor shall not have employee status with City, nor be entitled to participate in any plans, arrangements, or distributions by City pertaining to or in connection with any retirement, health or other benefits that City may offer its employees. Contractor or any agent or employee of Contractor is liable for the acts and omissions of itself, its employees and its agents. Contractor shall be responsible for all obligations and payments, whether imposed by federal, state or local law, including, but not limited to, FICA, income tax withholdings, unemployment compensation, insurance, and other similar responsibilities related to Contractor's performing services and work, or any agent or employee of Contractor providing same. Nothing in this Agreement shall be construed as creating an employment or agency relationship between City and Contractor or any agent or employee of Contractor. Any terms in this Agreement referring to direction from City shall be construed as providing for direction as to policy and the result of Contractor's work only, and not as to the means by which such a result is obtained. City does not retain the right to

control the means or the method by which Contractor performs work under this Agreement. Contractor agrees to maintain and make available to City, upon request and during regular business hours, accurate books and accounting records demonstrating Contractor's compliance with this Section. Should City determine that Contractor, or any agent or employee of Contractor, is not performing in accordance with the requirements of this Agreement, City shall provide Contractor with written notice of such failure. Within five (5) business days of Contractor's receipt of such notice, and in accordance with Contractor policy and procedure, Contractor shall remedy the deficiency. Notwithstanding, if City believes that an action of Contractor, or any agent or employee of Contractor, warrants immediate remedial action by Contractor, City shall contact Contractor and provide Contractor in writing with the reason for requesting such immediate action.

4.4.2 Payment of Employment Taxes and Other Expenses. Should City, in its discretion, or a relevant taxing authority such as the Internal Revenue Service or the State Employment Development Division, or both, determine that Contractor is an employee for purposes of collection of any employment taxes, the amounts payable under this Agreement shall be reduced by amounts equal to both the employee and employer portions of the tax due (and offsetting any credits for amounts already paid by Contractor which can be applied against this liability). City shall then forward those amounts to the relevant taxing authority. Should a relevant taxing authority determine a liability for past services performed by Contractor for City, upon notification of such fact by City, Contractor shall promptly remit such amount due or arrange with City to have the amount due withheld from future payments to Contractor under this Agreement (again, offsetting any amounts already paid by Contractor which can be applied as a credit against such liability). A determination of employment status pursuant to this Section 4.4 shall be solely limited to the purposes of the particular tax in question, and for all other purposes of this Agreement, Contractor shall not be considered an employee of City. Notwithstanding the foregoing, Contractor agrees to indemnify and save harmless City and its officers, agents and employees from, and, if requested, shall defend them against any and all claims, losses, costs, damages, and expenses, including attorneys' fees, arising from this Section.

4.5 Assignment. The Services to be performed by Contractor are personal in character. Neither this Agreement, nor any duties or obligations hereunder, may be directly or indirectly assigned, novated, hypothecated, transferred, or delegated by Contractor, or, where the Contractor is a joint venture, a joint venture partner, (collectively referred to as an "Assignment") unless first approved by City by written instrument executed and approved in the same manner as this Agreement in accordance with the Administrative Code. The City's approval of any such Assignment is subject to the Contractor demonstrating to City's reasonable satisfaction that the proposed transferee is: (i) reputable and capable, financially and otherwise, of performing each of Contractor's obligations under this Agreement and any other documents to be assigned, (ii) not forbidden by applicable law from transacting business or entering into contracts with City; and (iii) subject to the jurisdiction of the courts of the State of California. A change of ownership or control of Contractor or a sale or transfer of substantially all of the assets of Contractor shall be deemed an Assignment for purposes of this Agreement. Contractor shall immediately notify City about any Assignment. Any purported Assignment made in violation of this provision shall be null and void.

4.6 Warranty. Contractor warrants to City that the Services will be performed with the degree of skill and care that is required by current, good and sound professional procedures

and practices, and in conformance with generally accepted professional standards prevailing at the time the Services are performed so as to ensure that all Services performed are correct and appropriate for the purposes contemplated in this Agreement.

4.7 **Reserved. (Liquidated Damages)**

4.8 **Reserved. (Bonding Requirements)**

Article 5 Insurance and Indemnity

5.1 Insurance.

5.1.1 **Required Coverages.** Without in any way limiting Contractor's liability pursuant to the "Indemnification" section of this Agreement, Contractor must maintain in force, during the full term of the Agreement, insurance in the following amounts and coverages:

(a) Workers' Compensation, in statutory amounts, with Employers' Liability Limits not less than \$1,000,000 each accident, injury, or illness; and

(b) Commercial General Liability Insurance with limits not less than \$5,000,000 each occurrence for Bodily Injury and Property Damage, including Contractual Liability, Personal Injury, Products and Completed Operations; and

(d) Environmental Pollution Liability Insurance applicable to the work being performed, with a limit of no less than \$1,000,000 per claim or occurrence and \$2,000,000 aggregate per policy period of one year, and this coverage shall be endorsed to include Non-Owned Disposal Site coverage.

5.1.2 Commercial General Liability and Commercial Automobile Liability Insurance policies must be endorsed to name as Additional Insured the City and County of San Francisco, its Officers, Agents, and Employees.

5.1.3 Contractor's Commercial General Liability and Commercial Automobile Liability Insurance policies shall provide that such policies are primary insurance to any other insurance available to the Additional Insureds, with respect to any claims arising out of this Agreement, and that the insurance applies separately to each insured against whom claim is made or suit is brought.

5.1.4 All policies shall be endorsed to provide thirty (30) days' advance written notice to the City of cancellation for any reason, intended non-renewal, or reduction in coverages. Notices shall be sent to the City address set forth in Section 11.1, entitled "Notices to the Parties."

"Contractor shall provide thirty (30) days' advance written notice to the City of cancellation, intended non-renewal, or reduction in coverages, except for non-payment for which no less than ten (10) days' notice shall be provided to City. Notices shall be sent to the City address set forth in Section 11.1 entitled "Notices to the Parties."

5.1.5 Should any of the required insurance be provided under a claims-made form, Contractor shall maintain such coverage continuously throughout the term of this Agreement and, without lapse, for a period of three years beyond the expiration of this Agreement, to the effect that, should occurrences during the contract term give rise to claims made after expiration of the Agreement, such claims shall be covered by such claims-made policies.

5.1.6 Should any of the required insurance be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defense costs be included in such general annual aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limits specified above.

5.1.7 Should any required insurance lapse during the term of this Agreement, requests for payments originating after such lapse shall not be processed until the City receives satisfactory evidence of reinstated coverage as required by this Agreement, effective as of the lapse date. If insurance is not reinstated, the City may, at its sole option, terminate this Agreement effective on the date of such lapse of insurance.

5.1.8 Before commencing any Services, Contractor shall furnish to City certificates of insurance and additional insured policy endorsements with insurers with ratings comparable to A-, VIII or higher, that are authorized to do business in the State of California, and that are satisfactory to City, in form evidencing all coverages set forth above. Approval of the insurance by City shall not relieve or decrease Contractor's liability hereunder.

5.1.9 The Workers' Compensation policy(ies) shall be endorsed with a waiver of subrogation in favor of the City for all work performed by the Contractor, its employees, agents and subcontractors.

5.1.10 If Contractor will use any subcontractor(s) to provide Services, Contractor shall require the subcontractor(s) to provide all necessary insurance and to name the City and County of San Francisco, its officers, agents and employees and the Contractor as additional insureds.

5.2 **Indemnification.** Each Contractor shall indemnify and save harmless City and its officers, agents and employees from, and, if requested, shall defend them against any and all loss, cost, damage, injury, liability, and claims thereof for injury to or death of a person, including employees of Contractor or loss of or damage to property, arising directly or indirectly from such Contractor's performance of this Agreement, including, but not limited to, Contractor's use of facilities or equipment provided by City or others, regardless of the negligence of, and regardless of whether liability without fault is imposed or sought to be imposed on City, except to the extent that such indemnity is void or otherwise unenforceable under applicable law in effect on or validly retroactive to the date of this Agreement, and except where such loss, damage, injury, liability or claim is the result of the active negligence or willful misconduct of City and is not contributed to by any act of, or by any omission to perform some duty imposed by law or agreement on Contractor, its subcontractors or either's agent or employee. The foregoing indemnity shall include, without limitation, reasonable fees of attorneys, consultants and experts and related costs and City's costs of investigating any claims against the City. In addition to each Contractor's obligation to indemnify City, each Contractor specifically acknowledges and agrees that it has an immediate and independent obligation to defend City from any claim which actually or potentially falls within this indemnification

provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to such Contractor by City and continues at all times thereafter. Each Contractor shall indemnify and hold City harmless from all loss and liability, including attorneys' fees, court costs and all other litigation expenses for any infringement of the patent rights, copyright, trade secret or any other proprietary right or trademark, and all other intellectual property claims of any person or persons in consequence of the use by City, or any of its officers or agents, of articles or services to be supplied in the performance of this Agreement.

Article 6 Liability of the Parties

6.1 Liability of City. CITY'S PAYMENT OBLIGATIONS UNDER THIS AGREEMENT SHALL BE LIMITED TO THE PAYMENT OF THE COMPENSATION PROVIDED FOR IN SECTION 3.3.1, "PAYMENT," OF THIS AGREEMENT. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, IN NO EVENT SHALL CITY BE LIABLE, REGARDLESS OF WHETHER ANY CLAIM IS BASED ON CONTRACT OR TORT, FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOST PROFITS, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT OR THE SERVICES PERFORMED IN CONNECTION WITH THIS AGREEMENT.

6.2 Liability for Use of Equipment. City shall not be liable for any damage to persons or property as a result of the use, misuse or failure of any equipment used by Contractor, or any of its subcontractors, or by any of their employees, even though such equipment is furnished, rented or loaned by City.

6.3 Liability for Incidental and Consequential Damages. Each Contractor shall be responsible for incidental and consequential damages resulting in whole or in part from such Contractor's acts or omissions. Nothing in this Agreement shall constitute a waiver or limitation of any rights that City may have under applicable law.

6.4 Liability of the Contractors. EACH CONTRACTOR SHALL ONLY HAVE THE LIABILITIES UNDER THIS AGREEMENT FOR THE SERVICES PROVIDED BY SUCH CONTRACTOR AND SHALL NOT BE OBLIGATED FOR A VIOLATION OF THIS AGREEMENT BY ANY OTHER CONTRACTOR; PROVIDED THAT, A TERMINATION OF THE ENTIRE AGREEMENT WITH REGARD TO ONE CONTRACTOR SHALL BE A TERMINATION OF THE AGREEMENT WITH REGARD TO EACH CONTRACTOR. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, THE TOTAL AMOUNT OF DAMAGES PAYABLE BY EACH CONTRACTOR PURSUANT TO THIS AGREEMENT, SHALL NOT EXCEED THE TOTAL AMOUNT OF COMPENSATION RECEIVED OR TO BE RECEIVED BY SUCH CONTRACTOR FOR THE PROVISION OF SERVICES UNDER THE TERMS OF THIS AGREEMENT. CONTRACTOR'S LIABILITY LIMIT SET FORTH HEREIN SHALL NOT APPLY TO (1) DAMAGES CAUSED BY CONTRACTOR'S GROSS NEGLIGENCE, RECKLESS CONDUCT OR WILLFUL ACTS OR OMISSIONS, (2) LIMIT CLAIMS OR GENERAL DAMAGES THAT FALL WITHIN THE INSURANCE COVERAGE OF THIS AGREEMENT, (3) STATUTORY DAMAGES, INCLUDING THOSE SPECIFIED IN THIS AGREEMENT, (4) CONTRACTOR'S OBLIGATION TO INDEMNIFY AND DEFEND CITY PURSUANT TO THE GENERAL INDEMNIFICATION CLAUSE AND FOR INTELLECTUAL PROPERTY INFRINGEMENT,

(5) CONTRACTOR'S WARRANTIES UNDER THIS AGREEMENT, (6) WRONGFUL DEATH CAUSED BY CONTRACTOR, (7) INCIDENTAL AND CONSEQUENTIAL DAMAGES, (8) PUNITIVE DAMAGES, (9) DAMAGES CAUSED BY CONTRACTOR'S DEFAULT OR BREACH OF THE AGREEMENT.

Article 7 Payment of Taxes

7.1 Contractor to Pay All Taxes. Except for any applicable California sales and use taxes charged by Contractor to City, Contractor shall pay all taxes, including possessory interest taxes levied upon or as a result of this Agreement, or the Services delivered pursuant hereto. Contractor shall remit to the State of California any sales or use taxes paid by City to Contractor under this Agreement. Contractor agrees to promptly provide information requested by the City to verify Contractor's compliance with any State requirements for reporting sales and use tax paid by City under this Agreement.

7.2 Possessory Interest Taxes. Contractor acknowledges that this Agreement may create a "possessory interest" for property tax purposes. Generally, such a possessory interest is not created unless the Agreement entitles the Contractor to possession, occupancy, or use of City property for private gain. If such a possessory interest is created, then the following shall apply:

7.2.1 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that Contractor, and any permitted successors and assigns, may be subject to real property tax assessments on the possessory interest.

7.2.2 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that the creation, extension, renewal, or assignment of this Agreement may result in a "change in ownership" for purposes of real property taxes, and therefore may result in a revaluation of any possessory interest created by this Agreement. Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report on behalf of the City to the County Assessor the information required by Revenue and Taxation Code Section 480.5, as amended from time to time, and any successor provision.

7.2.3 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that other events also may cause a change of ownership of the possessory interest and result in the revaluation of the possessory interest. (see, e.g., Rev. & Tax. Code Section 64, as amended from time to time). Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report any change in ownership to the County Assessor, the State Board of Equalization or other public agency as required by law.

7.2.4 Contractor further agrees to provide such other information as may be requested by the City to enable the City to comply with any reporting requirements for possessory interests that are imposed by applicable law.

7.3 Withholding. Contractor agrees that it is obligated to pay all amounts due to the City under the San Francisco Business and Tax Regulations Code during the term of this Agreement. Pursuant to Section 6.10-2 of the San Francisco Business and Tax Regulations Code, Contractor further acknowledges and agrees that City may withhold any payments due to Contractor under this Agreement if Contractor is delinquent in the payment of any amount required to be paid to the City under the San Francisco Business and Tax Regulations Code.

Any payments withheld under this paragraph shall be made to Contractor, without interest, upon Contractor coming back into compliance with its obligations.

Article 8 Termination and Default

8.1 Termination for Convenience

8.1.1 City shall have the option, in its sole discretion, to terminate this Agreement, at any time during the term hereof, for convenience and without cause. City shall exercise this option by giving Contractor written notice of termination. The notice shall specify the date on which termination shall become effective.

8.1.2 Upon receipt of the notice of termination, Contractor shall commence and perform, with diligence, all actions necessary on the part of Contractor to effect the termination of this Agreement on the date specified by City and to minimize the liability of Contractor and City to third parties as a result of termination. All such actions shall be subject to the prior approval of City. Such actions may include any or all of the following, without limitation:

(a) Halting the performance of all Services under this Agreement on the date(s) and in the manner specified by City.

(b) Terminating all existing orders and subcontracts, and not placing any further orders or subcontracts for materials, Services, equipment or other items.

(c) At City's direction, assigning to City any or all of Contractor's right, title, and interest under the orders and subcontracts terminated. Upon such assignment, City shall have the right, in its sole discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts.

(d) Subject to City's approval, settling all outstanding liabilities and all claims arising out of the termination of orders and subcontracts.

(e) Completing performance of any Services that City designates to be completed prior to the date of termination specified by City.

- e. “Contamination” means any material other than recyclables in a bin designated for recyclables, any material other than compostables in a bin designated for compostables, and recyclables or compostables in a bin designated for trash.
- f. “Department Accounts Payable Manager” means a person delegated within each department that has authority for receiving invoices and obtaining payment approval for collection locations under the jurisdiction of one or more Department Designees. The Office of Contract Administration shall maintain a working list of Department Accounts Payable Managers and shall periodically update the list as necessary and provide a copy to the Contractors and notify them of any changes.
- g. “Department Designee” means a person delegated within each department or location that has authority for collection locations under her or his jurisdiction. The Department of the Environment shall maintain a working list of Department Designees and shall periodically update the list as necessary and provide a copy to the Contractors and notify them of any changes.
- h. “Disposal” means the deposition of material to landfill or incineration. Disposal does not include beneficial reuse or other use of material at a landfill in a manner that qualifies as diversion under applicable CalRecycle regulations.

- i. “License” means a refuse vehicle license as defined by the San Francisco Refuse Collection and Disposal Ordinance, as amended from time to time (the “Refuse Ordinance”).
- j. “Overages” means a bin that is overfilled such that its lid will not close; materials placed outside the bin; or other excess material that exceeds the capacity of the customer’s subscribed-for bin volume.
- k. “Prohibited Waste” means hazardous waste, universal waste, designated waste, medical waste or sewage sludge as those terms are defined under State law and the 2015 Landfill Disposal Agreement between The City and County of San Francisco and Recology San Francisco (or any successor agreement).
- l. “Rate Order” means the 2017 San Francisco Rate Order applicable to the Contractors or any subsequent San Francisco Rate Order applicable to the Contractors.
- m. “Recovery” means activities that reduce the disposal of material in landfill or incineration.
- n. “Recycling” means sorting, cleansing, treating and reconstituting materials that would otherwise be disposed of, and returning them to the economic mainstream in the form of raw materials for new or reconstituted products which meet the quality standards necessary for use in the marketplace. Recycling does not include incineration, pyrolysis, distillation, gasification or other high-temperature processes. The Department of the Environment determines if technologies (e.g., “chemical” or “advanced” recycling) qualify as recycling in San Francisco. “Recyclables” means any material offered for collection that is capable of being recycled in San Francisco’s programs, including but not limited to paper, bottles and cans.
- o. “Refuse” means all discarded materials (recyclables, compostables, and trash) collected from all facilities, office buildings, institutions, parks, etc., excluding Prohibited Waste and Construction and Demolition Debris.
- p. “Trash” means refuse other than recyclables or compostables.

2. Scope

- a. The Contractors shall collect, transport and handle (i.e., recycle, compost, or dispose) all Refuse generated by the City Departments on a scheduled or on-call basis, as subscribed for by the Department Designee or Department of the Environment. Additional locations may be added or deleted, and the service level at any location changed, by the Department Designee or Department of the Environment.
- b. Consistent with the 2015 Landfill Disposal Agreement between The City and County of San Francisco and Recology San Francisco, the Contractors shall use

reasonable efforts to prohibit and prevent the collection and Disposal of Prohibited Waste in any manner inconsistent with applicable laws. At the Department of the Environment's request, the Contractors will provide a copy of the Contractors' program for identifying Prohibited Waste and complying with federal, state and local laws and regulations dealing with Prohibited Waste.

3. Equipment and Bins

- a. Except for compactors, balers, pallet jacks and other specialized refuse equipment which are purchased, rented or leased by the City through separate agreements, the Contractors shall provide to the collection locations, no later than the effective date of this Agreement, at no cost to the City beyond the applicable rate for the service, properly color-coded and labeled, exterior collection bins for recyclables, compostables, and trash. The bins shall be of sufficient sizes to contain recyclables, compostables, and trash generated between collections. The Contractors shall provide to the designated location, at no cost to the City beyond the applicable rate for the service, additional requested exterior collection bins as requested by the Department Designee, or the Department of the Environment, within three (3) calendar days of written notice.
- b. At the direction of the Department Designee or the Department of the Environment, the Contractors, without cost to the City, shall purchase, store and deliver on an as needed basis color-coded recycling and composting bins for internal use (e.g., Rubbermaid Slim Jims, Toter Slimlines) with corresponding stickers and posters. The number of bins and other items to be provided by the Contractors shall be limited to the number that the Contractors reasonably determine are necessary in accordance with previous experience. City Departments will purchase their own internal trash bins. If a City Department wants to purchase external bins for internal use, the Contractors will provide them at the then-applicable Uniform Rate for bin replacement.
- c. All bins shall be appropriate for the intended use as specified by Department Designee, or the Department of the Environment. All bins provided by the Contractors shall be non-absorbent and leak-resistant and must be constructed to prevent loss during collection or transportation. If the Contractors fail to provide sufficient and/or adequate bins, the City may purchase and place into service the necessary bins and deduct the cost of such bins from any amounts owed to the Contractors.
- d. The Contractors shall deliver the bins and other items specified in Sections 3(a) and 3(b) of this Appendix A throughout the term of the Agreement. Unless originally owned or purchased by the City or a third party and such purchase price is not directly or indirectly reimbursed by the Contractors, all bins and other equipment delivered by the Contractors remain the Contractors' property. Any bins or other necessary items that are purchased by the City or a third party, but that the Contractors directly or indirectly pay for, including by deducting the costs

of such items from amounts owed to the Contractors, shall be the property of the Contractors.

- e. All exterior collection bins shall be marked by the Contractors with the name Recology.

4. Cleanliness and Serviceability

- a. The bins delivered by the Contractors shall be clean and graffiti free. The City agrees to reasonably maintain all exterior bins for cleanliness and appearance. The Contractors agree to exchange broken or uncleanable bins as requested by the City at no cost to the City.
- b. The Contractors shall be responsible for leaving all bins, equipment, collection locations and the City facilities served in a safe condition, reasonably clear of fluid or debris and reasonably free from residue resulting from spillage. All releases or spillage from exterior bins, equipment or vehicles will be cleaned up by the Contractors in accordance with the Contractors' ordinary course of business.

5. Time and Manner of Collection

- a. Recyclables, compostables, and trash shall be removed from the collection locations, Monday through Sunday, other than those holidays on which the Contractors do not generally provide service, in a systematic and timely manner. Changes to collection frequency, day(s) or location(s) may be made by phone and confirmed in writing by the Department Designee, or the Department of the Environment, or by the Contractors only with the prior written approval of the Department Designee or the Department of the Environment; provided, however, that the Contractors must approve any such changes, including all changes to collection frequency, that would affect the cost of providing any Services.
- b. Title to all refuse passes to the Contractors when it is loaded into the Contractors' bins and/or vehicles.
- c. The Contractors shall collect all bins containing refuse that are subject to putrefaction at least once per week. The Contractors shall collect all other bins at least once per month.
- d. Locations not receiving a regularly scheduled collection are designated as on-call. When collection is required, the Department Designee for these locations shall contact the Contractors for service by phone and confirm in writing, and the Contractors shall provide collection within twenty-four (24) hours of such notice.
- e. The Contractors shall implement a system of notices and charges aimed at incentivizing City locations to minimize contamination and recover the maximum amount of materials for marketable commodities. The system shall be the same as

Contractors provide to commercial customers in San Francisco. The current system is set forth in Appendix C.

- f. Upon notice by phone, with written confirmation, by the Department Designee or the Department of the Environment, of a partial or missed collection of recyclables, compostables, or trash, the Contractors shall complete the collection on the day or following day notification was made at no additional cost. If the Contractors do not complete the partial or missed collection of the recyclables, compostables, or trash within 24 hours of the notification, the cost of the partial or missed collection shall be deducted from any amounts the City owes the Contractors for the month when the missed or partial collection occurred. In the case of missed collection of recyclables, compostables, or trash, the volume will be deducted from the invoice for that period as if it were trash.
- g. The Department Designee for the site, or the Department of the Environment, may initiate emergency, off-hour and additional on-call collections by phone, and confirmed in writing, to the Contractors. Such additional collections will be billed at the regular collection rates applicable for the day that the emergency service is provided (e.g., if a Service is provided on a Sunday, Sunday rates will apply).
- h. In the event of a holiday occurring on a scheduled collection date, collection shall be made on the next business day.

6. Vehicles

- a. The Contractors shall utilize only licensed vehicles when required by the Refuse Ordinance in the performance of services and shall maintain a sufficient number of vehicles to perform the work required herein. All vehicles used in the performance of this Agreement shall have the name of the collection Company and the license prominently displayed. All vehicles and equipment used in the performance of this Agreement shall meet applicable state and local standards and shall be operated and maintained in a safe and sanitary condition. All vehicles and equipment used in the performance of this Agreement shall be the property and sole responsibility of the Contractors.
- b. The Contractors shall make a reasonable effort to use environmentally preferable fuels, such as renewable diesel or biomethane from source separated anaerobic digestion, in a manner consistent with the Rate Order.

7. Delivery and Processing

- a. Disposal of trash by Contractor is governed by the 2015 Landfill Disposal Agreement between the City and County of San Francisco and Recology San Francisco.
- b. The Contractors shall deliver recyclables and compostables to permitted recycling or composting facilities.

- c. The Contractors shall make a reasonable effort to maximize the use of alternative power, such as solar and wind power, in a manner consistent with the Rate Order.

8. Zero Waste Requirements

- a. The Contractors shall work with the City to identify opportunities to reduce the level of refuse service and eliminate secondary charges (e.g., distance and elevation) to decrease costs to departments and improve collection efficiency. These opportunities may include, but are not limited to, increasing recycling and composting bin sizes, and reducing the number of trash bins or the frequency of trash collection when excess capacity is noted.
- b. The Contractors shall work with the City Departments to maximize recovery of material by offering the full range of recycling and composting collection services. The Department Designee can increase recycling and composting and decrease trash collection services on his or her own. The Department Designee can only decrease recycling and composting and increase trash collection services with prior written approval from the Department of the Environment. The Contractors should notify Department Designees and the Department of the Environment when they have identified opportunities to increase recycling and composting, or decrease trash, so that the Department of the Environment can work with Department Designees to maintain high recovery rates and identify ways for departments to save money on refuse collection.
- c. The Contractors shall use their reasonable efforts to recycle or compost the maximum amount of material collected pursuant to this Agreement that is recyclable or compostable. Trash collected by the Contractors that contains compostables or recyclables may be processed by the Contractors to recover these materials. The Contractors shall work with the City to encourage compliance with the Mandatory Recycling and Composting Ordinance and other relevant zero waste policies.
- d. The Department Designee, or the Department of the Environment, may request to purchase from Contractors specific additional equipment to facilitate recycling and composting, such as compactors and related equipment. If Contractors are then offering such equipment for sale, the Contractors shall charge these materials to respective City Departments, as a separate line pass-through item in the invoice.

9. Duty to Maintain Records; Right to Examine Records

- a. On a monthly basis, the Contractors shall provide, electronically, a City-wide billing report with applicable service charges and discounts, structured in accordance with the Rate Order for services provided, at every collection location for all City departments to the Office of Contract Administration and the Department of the Environment. The City-wide billing report shall be a

compilation of the monthly invoices sent to individual departments pursuant to the Section 3.3.4. The City reserves the right to inspect the Contractors' records to verify the information provided in the reports.

1. Detailed weight information for roll-off bins will be provided as requested by the Department Designee or the Department of the Environment.
- b. The timely and complete submission of all reports is a necessary and material term and obligation of this Agreement.
- c. The Contractors shall maintain a proper set of books and records in accordance with the Generally Accepted Accounting Principles, except that any unaudited financial statements need not contain the notes required by Generally Accepted Accounting Principles, accurately reflecting the business done by it under this Agreement.

Appendix B Calculation of Charges

1. Description of Charges.

- a. City Departments must comply with the Mandatory Recycling and Composting Ordinance which requires the proper separation of recyclables, compostables, and trash.
- b. The Uniform Commercial Rates charged for refuse collection services are based on a set of rate tables that do not differentiate between the types of collection bins (recycling, composting, and trash). The Parties understand and agree that the rates referred to in this Agreement are subject to change, and generally increase, typically on July 1st of each year. The Uniform Commercial Rates as of execution of this Agreement are attached as Appendix D.
- c. Subject to the discount provided for in Section 4 below, charges by Contractors for the Services covered by this Agreement will be the then-applicable rates for such Services charged by Contractors generally to commercial customers in San Francisco. Current practice is that such rates are published by San Francisco Department of Public Works on their website <http://sfpublicworks.org/refuserates>. Following are the main categories of charges:
 - i. Uniform Commercial Rates
 1. Uniform Commercial Rates for refuse (i.e., trash, recyclables and compostables) have been implemented by the Contractors to reflect the City's planned migration to zero waste and incentivize customers to help San Francisco reach its generation and disposal reduction targets.
 2. The Uniform Commercial Rates are published by San Francisco Department of Public Works on their website <http://sfpublicworks.org/refuserates>.
 - ii. Compactors
 1. Uniform Compactor Rates for refuse are published by San Francisco Department of Public Works on their website <http://sfpublicworks.org/refuserates>.
 2. Rental of Compactor Units are not through this Agreement. Rental rates are based on the rental agreement between the Contractor and City Department.
 3. The Contractor is responsible for covering any repair costs to a rented Compactor Unit per the rental agreement between the Contractor and City Department.

iii. Debris Boxes

1. Uniform Debris Box Rates are published by San Francisco Department of Public Works on their website <http://sfpublicworks.org/refuserates>.
2. Allowed uses of debris boxes under this contract include:
 - a. Abandoned materials;
 - b. Bulky items;
 - c. Recyclable and compostable materials; and
 - d. Alternative collection service when compactors are being repaired.
3. Use of debris boxes for trash collection is only allowed if pre-approved in writing by the Department of the Environment.

iv. Ancillary Services

1. Rates for premium services for commercial customers are those specified in the rate table for Commercial customers. Rates for other ancillary services are specified in the rate table for Extra Services. Both categories of rates are published by San Francisco Department of Public Works on their website: <http://sfpublicworks.org/refuserates>.

v. Contamination Charges

1. Contractors implement a system of City-approved charges for contamination and overages designed to encourage recycling and composting, ensure that each customer is subscribed to the correct service level, and cover the extra costs that Contractors incur due to contamination and overages. The current charges are set forth in Appendix C.
- d. Each City location shall receive the same recovery discount that Contractors offer generally to commercial customers in San Francisco (the "Recovery Discount"). The current Recovery Discount for commercial customers in San Francisco is based on the following:

Recovery Rate (subscribed recycling and composting bin monthly volume divided by total subscribed refuse bin monthly volume) less a Recovery Floor.

Recovery Floor is currently 25%.

The amount of the Recovery Floor is subject to change consistent with subsequent Rate Orders. Changes will be published on the SF Public Works website:
<https://sfpublicworks.org/refuserates>

To reflect the fact that City locations reuse, recycle, and compost organic material using their own facilities and resources, the Contractor agrees to apply a Composting Credit (described in Section 3) to the Recovery Floor. With the Composting Credit, the City's Recovery Discount will be calculated as follows:

$$\text{Recovery Discount} = \text{Recovery Rate} - (\text{Recovery Floor} - \text{Composting Credit})$$

By way of example, assume a City Location is subscribed for the following service level:

Service Level:	Subscribed-For Monthly Bin Volume
1 96g Trash bins, 4 days/wk.	$= 1 * (96/201.9) * 4 * 4.33 = 8.23$
3 64g Recyclables bins, 4 days/wk.	$= 3 * (64/201.9) * 4 * 4.33 = 16.47$
1 64g Compostables bin, 4 days/wk.	$= 1 * (64/201.9) * 4 * 4.33 = 5.49$

Note: 201.9 converts gallons to cubic yards. 4.33 converts weeks to months.

Based on the Composting Credit allowed per Section 3, below, the Recovery Discount for the above City Location, and the amounts charged, would be calculated as follows:

$$\text{Recovery Rate} = (\text{Recycling} + \text{Composting Volume}) / (\text{Recycling} + \text{Composting} + \text{Trash Volume})$$

$$(5.49 + 16.47) / (5.49 + 16.47 + 8.23) = .727 = 73\%$$

$$\text{Recovery Discount} = \text{Recovery Rate} - (\text{Recovery Floor} - \text{Composting Credit})$$

$$73\% - (25\% - 20\%) = 68\%$$

$$\text{Recovery Discount} = 68\%$$

City Department Location	Subscribed Cubic Yards/ Month	Service Charges before Recovery Discount	Service Charges after Recovery Discount
Composting	5.49	\$ 395.96	\$ 395.96
Recycling	16.47	\$ 1,187.88	\$ 1,187.88
Trash	8.23	\$ 558.00	\$ 558.00
Recovery Discount 68%			\$ (1,456.45)
TOTAL	30.19	\$ 2,141.84	\$ 685.39

Note: The example uses the Uniform Commercial Rates effective July 1, 2019.

The Recovery Discount incentivizes City Locations to recover more recyclables and compostables. Therefore, City Locations that have a Recovery Rate of 5% or below will not be eligible for the Recovery Discount.

Charges for ancillary services (e.g., access, distance, and elevation) are per the Uniform Commercial Rates and are not subject to the discount.

e. Self-Haul

- i. Refuse, except loads of source separated single commodities (e.g. loads of cardboard only or metal only), self-hauled to Recology San Francisco's facilities is subject to the tipping charge established through the refuse rate process, except to the extent the costs of disposing of such material are included in the cost base used to set rates under the Refuse Ordinance. Under the current Rate Order, the only costs so included are those for disposal of street sweeping and abandoned material collected and self-hauled by the Department of Public Works.
 - ii. The tipping charge is published by San Francisco Department of Public Works on their website <http://sfpublicworks.org/refuserates>.
2. **Provision of Services.** No charges shall be incurred under this Agreement nor shall any payments become due to any Contractor until the services to which such payments relate are received from such Contractor and the related billings are approved by the City Department head as being in accordance with this Agreement. Upon prior written notice to the applicable Company setting forth the nature of Company's failure under this Agreement, a City Department may withhold payment to Contractor in any instance in which such Contractor has failed or refused to satisfy any material obligation provided for under this Agreement in connection with such City Department.
3. **Composting Credit.**
- a. In calculating the Recovery Discount, Contractors have agreed to reduce the standard 25% Recovery Floor for the benefit of City to reflect the fact that City locations compost organic material, grind wood into wood chips, and repurpose forestry products on-site for their own use, using their own facilities and resources (such activities collectively, "City Organics Recovery Activities"). These activities mean that the City orders fewer Compostables bins from Contractors than it otherwise would, which in turn means that City's Recovery Discount is less than it would otherwise be.
 - b. As a result, Contractors agree that there will be a reduction in the Recovery Floor for all City locations that receive the Recovery Discount. The reduction (the "Composting Credit" or "Compost Credit") shall be 20%. The Compost Credit was determined by utilizing the following formula: dividing (i) average total tonnage of organic material recovered by City locations through the City Organics Recovery Activities during the three (3) year period ending on the July 1 preceding the July 1 adjustment date, by (ii) average total tonnage of refuse of all types generated by City

- locations during the same three (3) year period. The total tonnage (i.e., the denominator in clause (ii)) includes, but is not limited to, all refuse collected by Contractors (e.g., Trash, Recyclables, Compostables), whether disposed or recovered. Notwithstanding any other provision, the Composting Credit shall not exceed 20% (i.e. the Recovery Floor after application of the Composting Credit shall not be reduced below 5%).
- c. Contractors' analysis based on City and Contractors' data indicates that as of the date hereof, the City Organics Recovery Activities recover an amount of organic material significantly in excess of the amount required to achieve the maximum Composting Credit of 20%. If City modifies the City Organics Recovery Activities in a way that is reasonably likely to decrease the tonnage of organic material recovered from such activities by over 5%, then City shall notify Contractor in writing of the same, so that the Parties can recalculate the Composting Credit.
 - d. Should the City implement other categories of recovery activities that recover organic material, the City and Contractor agree to mutually consider in good faith whether and how to include the recovery attained through those activities as part of the Composting Credit in an equitable and reasonable manner.

Appendix C Contamination & Overages Management

Contractors shall implement a system of notices and charges for Contamination and Overages designed to encourage recycling and composting, ensure that each customer is subscribed to the correct service level, and cover the extra costs that Contractors incur due to Contamination and Overages. This system is designed so that, if each City department location properly separates Recyclables and Compostables from Trash and has a subscription for sufficient Bin volume to handle all their material, no charges will be assessed. The current system and associated charges are as follows:

1. If a Recyclables or Compostables Bin appears to contain more than 10% or 5% respectively by volume of non-Recyclables or non-Compostables, then the Bin is considered “contaminated.” Contractors will follow the following protocol for contaminated Bins:
 - a. Contamination will be communicated to the Department Designee through a series of letters: Warning Letter, Notice Letter, Escalation Letter and Good Job Letter.
 - i. Warning letters occur when 4 or more instances of contaminated Bins are found at a City Department location.
 - ii. Notice letters inform the city department designee of the intent to charge for contamination on the next billing cycle.
 - iii. Escalation letters occur when continued contamination remains at a City location for greater than six months.
 - iv. Good Job letters are sent whenever charges are removed as a result of a passing quality assurance inspection.
 - b. On the 1st, 2nd and 3rd instances of a contaminated Bin at a City location, Contractors will collect the Bin at no charge to the City.
 - c. On the fourth or more instance of a contaminated Bin at the location, Contractors will collect the Bin at no charge to the City and will send a warning letter to the Department Designee, to inform him/her of the Contamination at the location. SF Environment staff will work with the City Department Designee to address the contamination. The city department has 30 days from the issuance of the warning letter to have a quality assurance inspection conducted by the contractors.
 - d. The warning letter will remain in effect for 6 months. If a 5th instance of a contaminated Bin at the location does not occur within 6 months of the date of the warning letter, then the warning letter will lapse, and any subsequent instance of a contaminated Bin at the location will be treated as if it were the 1st instance.
 - e. A Quality Assurance Inspection will result in a determination of the quality of the material discarded in one or more of the location’s Bins (Recyclables, Compostables, and/or Trash). The City Department Designee will receive photos and an assessment of pass or fail on the bins inspected. If a failure is determined, the City Department Designee will receive a notice letter, informing the department that a recurring contamination charge will be

initiated at the next billing cycle. If all Bins pass the quality assurance inspection, then the Department Designee will receive a Good Job Letter.

- f. If a notice letter is issued, then Contractors will begin charging a recurring Contamination Charge equal to 50% of the Trash rate for the same-size Bin collected at the same frequency, with no Recovery Discount. The charge will be added to the bill for each subsequent collection of that Bin until removed in accordance with paragraph (6) below. If not removed, the charge may be increased to 75% of the applicable Trash rate after 6 months, and 100% of the applicable Trash rate after 12 months. If the charge is removed, and a subsequent instance of a contaminated Bin at the location occurs while the warning letter remains in effect, then the charge will be reinstated (with a notice letter to the City Department Designee) until removed in accordance with paragraph (6) below.
2. If a Recyclables or Compostables Bin is so contaminated that it must be collected as Trash, or if a Compostables Bin contains pervasive glass (regardless of volume), then the Bin will be collected as Trash, and a per-occurrence charge equal to the Trash “extra” rate per the Uniform Commercial Rates for the same-size Bin will be charged. This charge is separate from and in addition to the Contamination Charge described in paragraph (1).
3. Contractors’ practice is not to collect any Bin that contains any amount of Hazardous Material, Medical Waste, Electronic Waste, or other material that is prohibited from being disposed of in the refuse stream. However, if a Bin is inadvertently collected that contains prohibited material, a charge equal to the Trash “extra” rate for the same-size Bin will be charged.
4. If a Trash Bin is contaminated with an excessive amount of Recyclables or Compostables (usually over 25%), Contractors will begin charging a recurring charge equal to 50% of the Trash rate for the same-size Bin collected at the same frequency, with no Recovery Discount. Before assessing this charge, Contractors will give the Department Designee at least 30 days written notice and an opportunity to correct the problem. If the problem is not corrected within that period, the charge will be added to the bill for each subsequent collection of that Bin until removed in accordance with paragraph (6) below.
5. Consistent with Contractors’ standard practice for commercial customers in San Francisco, Contractors may adjust or suspend the Recovery Discount for a City location if it displays a consistent pattern of violating the City’s Mandatory Recycling and Composting Ordinance. Before suspending the discount, Contractors will give the Department Designee at least 30 days written notice and an opportunity to correct the problem. If the problem is not corrected within that period, the Recovery Discount will be suspended or the service modified for the service address until resolved in accordance with paragraph (6) below.
6. The procedure for removing the recurring charges described in paragraphs (1) and (4) above, and the Recovery Discount suspension described in paragraph (5) above, is as follows:
 - a. The Department Designee will complete and submit to SF Environment a self-assessment form for the City location in question. SF Environment will review the form and submit it

- to Contractors' customer service department, together with a request to have the recurring charge (or Recovery Discount suspension) removed.
- b. Contractor will confirm receipt and schedule a quality assurance inspection within thirty (30) days of receipt of SF Environment's request. The results of the inspection will be sent to SF Environment and the Department Designee.
 - c. If the City location passes the inspection, then the recurring charge (or Recovery Discount suspension) will be removed on the next billing cycle.
 - d. If the City location fails the inspection, then the recurring charge (or Recovery Discount suspension) will continue for another two (2) monthly billing cycles, at which time another quality assurance inspection may be requested.
 - e. In the case of the Contamination charge under paragraph (1) above, if the inspection shows improvement but not enough to meet the thresholds, the Contamination charge may be decreased (e.g. from 50% to 25% of the Trash rate) upon mutual agreement between the Contractor and the City.
 - f. Notwithstanding the foregoing, recurring charges (and Recovery Discount suspensions) will continue for a minimum of two (2) monthly billing cycles.
7. Contractors may either refuse to collect an Overage or may collect it and charge the then-applicable Trash "extra" rate per the Uniform Commercial Rates for the same-size Bin.
 8. City locations exhibiting contaminated refuse streams will be identified by the Contractors through a variety of methods, including:
 - a. Refuse collection staff may flag the account within the Contractors' customer database following observations made during regular collection service.
 - b. The Contractors' waste zero team may identify contaminated bins while performing random inspections throughout the community.

**Appendix B-1
Calculation of Charges
(July 1, 2022 to June 30, 2024)**

1. Description of Charges.

- a. City Departments must comply with the Mandatory Recycling and Composting Ordinance which requires the proper separation of recyclables, compostables, and trash.
- b. The collection rates for the Third Amendment (July 1, 2022 to June 30, 2024) (“Collection Rates”) charged for refuse collection services are based on a set of rate tables that do not differentiate between the types of collection bins (recycling, composting, and trash). The Parties understand and agree that the initial rates to be charged for services covered by the Third Amendment are the rates specified in Appendix D-3, which shall apply to services provided between July 1, 2022 and June 30, 2023. Such rates shall be adjusted effective July 1, 2023 pursuant to the methodology set forth in Section 4 of this Appendix B-1. The rates as so adjusted shall apply to services provided between July 1, 2023 and June 30, 2024.
- c. Subject to the discount provided for in Section (1)(d) below, charges by Contractors for the Services covered by the Third Amendment will be the Collection Rates specified in Appendix D-3 and as adjusted effective July 1, 2023 for the period of July 1, 2023 to June 30, 2024. Following are the main categories of charges:
 - i. Collection Rates
 1. Collection Rates for this Third Amendment for refuse (i.e., trash, recyclables and compostables) have been implemented by the Contractors to reflect the City’s planned migration to zero waste and incentivize customers to help San Francisco reach its generation and disposal reduction targets.
 2. The Collection Rates for the Third Amendment are the rates specified in Appendix D-3 and as adjusted effective July 1, 2023 for the period of July 1, 2023 to June 30, 2024.
 - ii. Compactors
 1. Compactor Rates for this Third Amendment for refuse are the rates specified in Appendix D-3 and as adjusted effective July 1, 2023 for the period of July 1, 2023 to June 30, 2024.
 2. Rental of Compactor Units are not through this Agreement. Rental rates are based on the rental agreement between the Contractor and City Department.

3. The Contractor is responsible for covering any repair costs to a rented Compactor Unit per the rental agreement between the Contractor and City Department.

iii. Debris Boxes

1. Debris Box Rates for this Third Amendment are the rates specified in Appendix D-3 and as adjusted effective July 1, 2023 for the period of July 1, 2023 to June 30, 2024.
2. Allowed uses of debris boxes under this contract include:
 - a. Abandoned materials;
 - b. Bulky items;
 - c. Recyclable and compostable materials; and
 - d. Alternative collection service when compactors are being repaired.
3. Use of debris boxes for trash collection is only allowed if pre-approved in writing by the Department of the Environment.

iv. Ancillary Services

1. Rates for premium services are those specified in the rate table titled "Collection Rates." Rates for other ancillary services are specified in the rate table for Extra Services. Both categories of rates are the rates specified in Appendix D-3 and as adjusted effective July 1, 2023 for the period of July 1, 2023 to June 30, 2024.

v. Contamination Charges

1. Contractors implement a system of City-approved charges for contamination and overages designed to encourage recycling and composting, ensure that each customer is subscribed to the correct service level, and cover the extra costs that Contractors incur due to contamination and overages. The current charges are set forth in Appendix C-1.
- d. Each City location shall receive the same recovery discount that Contractors offered generally to commercial customers in San Francisco pursuant to the 2017 rate order (the "Recovery Discount"). The Recovery Discount for commercial customers in San Francisco is based on the following:

Recovery Rate (subscribed recycling and composting bin monthly volume divided by total subscribed refuse bin monthly volume) less a Recovery Floor.

Recovery Floor is 25%.

To reflect the fact that City locations reuse, recycle, and compost organic material using their own facilities and resources, the Contractor agrees to apply a Composting Credit (described in Section 3) to the Recovery Floor. With the Composting Credit, the City's Recovery Discount will be calculated as follows:

$$\text{Recovery Discount} = \text{Recovery Rate} - (\text{Recovery Floor} - \text{Composting Credit})$$

By way of example, assume a City Location is subscribed for the following service level:

Service Level:	Subscribed-For Monthly Bin Volume
1 96g Trash bins, 4 days/wk.	= 1 * (96/201.9) * 4 * 4.33 = 8.23
3 64g Recyclables bins, 4 days/wk.	= 3 * (64/201.9) * 4 * 4.33 = 16.47
1 64g Compostables bin, 4 days/wk.	= 1 * (64/201.9) * 4 * 4.33 = 5.49

Note: 201.9 converts gallons to cubic yards. 4.33 converts weeks to months.

Based on the Composting Credit allowed per Section 3, below, the Recovery Discount for the above City Location, and the amounts charged, would be calculated as follows:

$$\text{Recovery Rate} = (\text{Recycling} + \text{Composting Volume}) / (\text{Recycling} + \text{Composting} + \text{Trash Volume})$$

$$(5.49 + 16.47) / (5.49 + 16.47 + 8.23) = .727 = 73\%$$

$$\text{Recovery Discount} = \text{Recovery Rate} - (\text{Recovery Floor} - \text{Composting Credit})$$

$$73\% - (25\% - 20\%) = 68\%$$

$$\text{Recovery Discount} = 68\%$$

City Department Location	Subscribed Cubic Yards/ Month	Service Charges before Recovery Discount	Service Charges after Recovery Discount
Composting	5.49	\$ 395.96	\$ 395.96
Recycling	16.47	\$ 1,187.88	\$ 1,187.88
Trash	8.23	\$ 558.00	\$ 558.00
Recovery Discount 68%			\$ (1,456.45)
TOTAL	30.19	\$ 2,141.84	\$ 685.39

Note: The example uses the Uniform Commercial Rates effective July 1, 2019.

The Recovery Discount incentivizes City Locations to recover more recyclables and compostables. Therefore, City Locations that have a Recovery Rate of 5% or below will not be eligible for the Recovery Discount.

Charges for ancillary services (e.g., access, distance, and elevation) are not subject to the discount. By entering into this Third Amendment, the parties do not intend to modify the categories of services subject to the Recovery Discount (or the amount or method of calculating the discount).

e. Self-Haul

- i. Refuse, except loads of source separated single commodities (e.g. loads of cardboard only or metal only), self-hauled to Recology San Francisco's facilities is subject to a tipping charge, except to the extent the costs of disposing of such material are included in the cost base used to set rates under the Refuse Ordinance. Under the current Rate Order, the only costs so included are those for disposal of street sweeping and abandoned material collected and self-hauled by the Department of Public Works.
- ii. The tipping charge is the rate specified in Appendix D-3 and as adjusted effective July 1, 2023 for the period of July 1, 2023 to June 30, 2024.

2. **Provision of Services.** No charges shall be incurred under this Agreement nor shall any payments become due to any Contractor until the services to which such payments relate are received from such Contractor and the related billings are approved by the City Department head as being in accordance with this Agreement. Upon prior written notice to the applicable Company setting forth the nature of Company's failure under this Agreement, a City Department may withhold payment to Contractor in any instance in which such Contractor has failed or refused to satisfy any material obligation provided for under this Agreement in connection with such City Department.

3. **Composting Credit.**

- a. In calculating the Recovery Discount, Contractors have agreed to reduce the standard 25% Recovery Floor for the benefit of City to reflect the fact that City locations compost organic material, grind wood into wood chips, and repurpose forestry products on-site for their own use, using their own facilities and resources (such activities collectively, "City Organics Recovery Activities"). These activities mean that the City orders fewer Compostables bins from Contractors than it otherwise would, which in turn means that City's Recovery Discount is less than it would otherwise be.
- b. As a result, Contractors agree that there will be a reduction in the Recovery Floor for all City locations that receive the Recovery Discount. The reduction (the "Composting Credit" or "Compost Credit") shall be 20%. The Compost Credit was determined by utilizing the following formula: dividing (i) average total tonnage of organic material recovered by City locations through the City Organics Recovery Activities during the three (3) year period ending on the July 1 preceding the July 1 adjustment date, by (ii) average total tonnage of refuse of all types generated by City locations during the same three (3) year period. The total tonnage (i.e., the denominator in clause (ii)) includes, but is not limited to, all refuse collected by Contractors (e.g., Trash, Recyclables, Compostables), whether disposed or recovered. Notwithstanding any other provision, the Composting Credit shall not exceed 20%

(i.e. the Recovery Floor after application of the Composting Credit shall not be reduced below 5%).

- c. Contractors’ analysis based on City and Contractors’ data indicates that as of the date hereof, the City Organics Recovery Activities recover an amount of organic material significantly in excess of the amount required to achieve the maximum Composting Credit of 20%. If City modifies the City Organics Recovery Activities in a way that is reasonably likely to decrease the tonnage of organic material recovered from such activities by over 5%, then City shall notify Contractor in writing of the same, so that the Parties can recalculate the Composting Credit.
- d. Should the City implement other categories of recovery activities that recover organic material, the City and Contractor agree to mutually consider in good faith whether and how to include the recovery attained through those activities as part of the Composting Credit in an equitable and reasonable manner.

4. Price Adjustment for July 1, 2023 – June 30, 2024:

A Price Adjustment for the July 1, 2023 – June 30, 2024 contract year will be allowed under this Agreement.

A. Contractor to submit Price Adjustment calculation:

- 1. Contractor shall submit its calculation of the Price Adjustment to OCA no later than May 31, 2023, provided the April CPI data is published by May 31, 2023.
- 2. The submission shall include Contractor’s calculation of the percentage change in CPI-U (as provided below) and Contractor’s calculation of updated versions of the Appendix D-3 rate tables to reflect the Price Adjustment.
- 3. The City shall conduct an administrative review of Contractor’s calculations to confirm that the calculations are correct.
- 4. If any calculation errors are identified, City shall notify Contractor of the error no later than June 15, 2023, or as soon as practicably possible, and the Parties shall cooperate in good faith to resolve the error no later than June 30, 2023.
- 5. The Price Adjustment shall take effect July 1, 2023.
- 6. The Price Adjustment shall be memorialized with a written amendment to this Agreement that sets forth the rates effective July 1, 2023, calculated in accordance with this subsection 4.

B. How Price Adjustment will be Calculated:

The Price Adjustment will be based on the U.S. Department of Labor’s **CPI for All Urban Consumers (CPI-U) for San Francisco-Oakland-Hayward, CA** (series ID noted below), and will be calculated as the percent change in CPI from April 2022 – April 2023. The Price Adjustment shall apply to each and every rate set forth in Appendix D-3.

Series Id: CUURS49BSA0
Not Seasonally Adjusted

Series Title: All items in San Francisco-Oakland-Hayward, CA,
all urban consumers, not seasonally adjusted

Area: San Francisco-Oakland-Hayward, CA
Item: All items
Base Period: 1982-84=100

For example, if the April 2022 CPI value were 324.878, and the April 2023 CPI value were 333.975, the percent change in CPI would be calculated as follows:

$$\text{Percent change} = (333.975/324.878) - 1 = .028 = 2.8\%$$

In this scenario, each rate in Appendix D-3 would be increased by 2.8%.

Appendix C-1
Contamination & Overages Management
(July 1, 2022 to June 30, 2024)

Contractors shall implement a system of notices and charges for Contamination and Overages designed to encourage recycling and composting, ensure that each customer is subscribed to the correct service level, and cover the extra costs that Contractors incur due to Contamination and Overages. This system is designed so that, if each City department location properly separates Recyclables and Compostables from Trash and has a subscription for sufficient Bin volume to handle all their material, no charges will be assessed. The current system and associated charges are as follows. All rates referred to in this Appendix C-1 are the rates set forth in Appendix D-3, and as adjusted effective July 1, 2023 for the period of July 1, 2023 to June 30, 2024:

1. If a Recyclables or Compostables Bin appears to contain more than 10% or 5% respectively by volume of non-Recyclables or non-Compostables, then the Bin is considered “contaminated.” Contractors will follow the following protocol for contaminated Bins:
 - a. Contamination will be communicated to the Department Designee through a series of letters: Warning Letter, Notice Letter, Escalation Letter and Good Job Letter.
 - i. Warning letters occur when 4 or more instances of contaminated Bins are found at a City Department location.
 - ii. Notice letters inform the city department designee of the intent to charge for contamination on the next billing cycle.
 - iii. Escalation letters occur when continued contamination remains at a City location for greater than six months.
 - iv. Good Job letters are sent whenever charges are removed as a result of a passing quality assurance inspection.
 - b. On the 1st, 2nd and 3rd instances of a contaminated Bin at a City location, Contractors will collect the Bin at no charge to the City.
 - c. On the fourth or more instance of a contaminated Bin at the location, Contractors will collect the Bin at no charge to the City and will send a warning letter to the Department Designee, to inform him/her of the Contamination at the location. SF Environment staff will work with the City Department Designee to address the contamination. The city department has 30 days from the issuance of the warning letter to have a quality assurance inspection conducted by the contractors.
 - d. The warning letter will remain in effect for 6 months. If a 5th instance of a contaminated Bin at the location does not occur within 6 months of the date of the warning letter, then the warning letter will lapse, and any subsequent instance of a contaminated Bin at the location will be treated as if it were the 1st instance.
 - e. A Quality Assurance Inspection will result in a determination of the quality of the material discarded in one or more of the location’s Bins (Recyclables, Compostables, and/or Trash). The City Department Designee will receive photos and an assessment of pass or fail on the bins inspected. If a failure is determined, the City Department Designee will receive a notice letter, informing the department that a recurring

contamination charge will be initiated at the next billing cycle. If all Bins pass the quality assurance inspection, then the Department Designee will receive a Good Job Letter.

- f. If a notice letter is issued, then Contractors will begin charging a recurring Contamination Charge equal to 50% of the Trash rate for the same-size Bin collected at the same frequency, with no Recovery Discount. The charge will be added to the bill for each subsequent collection of that Bin until removed in accordance with paragraph (6) below. If not removed, the charge may be increased to 75% of the applicable Trash rate after 6 months, and 100% of the applicable Trash rate after 12 months. If the charge is removed, and a subsequent instance of a contaminated Bin at the location occurs while the warning letter remains in effect, then the charge will be reinstated (with a notice letter to the City Department Designee) until removed in accordance with paragraph (6) below.
2. If a Recyclables or Compostables Bin is so contaminated that it must be collected as Trash, or if a Compostables Bin contains pervasive glass (regardless of volume), then the Bin will be collected as Trash, and a per-occurrence charge equal to the Trash “extra” rate per the Collection Rates for the Third Amendment for the same-size Bin will be charged. This charge is separate from and in addition to the Contamination Charge described in paragraph (1).
3. Contractors’ practice is not to collect any Bin that contains any amount of Hazardous Material, Medical Waste, Electronic Waste, or other material that is prohibited from being disposed of in the refuse stream. However, if a Bin is inadvertently collected that contains prohibited material, a charge equal to the Trash “extra” rate for the same-size Bin will be charged.
4. If a Trash Bin is contaminated with an excessive amount of Recyclables or Compostables (usually over 25%), Contractors will begin charging a recurring charge equal to 50% of the Trash rate for the same-size Bin collected at the same frequency, with no Recovery Discount. Before assessing this charge, Contractors will give the Department Designee at least 30 days written notice and an opportunity to correct the problem. If the problem is not corrected within that period, the charge will be added to the bill for each subsequent collection of that Bin until removed in accordance with paragraph (6) below.
5. Consistent with Contractors’ standard practice for commercial customers in San Francisco, Contractors may adjust or suspend the Recovery Discount for a City location if it displays a consistent pattern of violating the City’s Mandatory Recycling and Composting Ordinance. Before suspending the discount, Contractors will give the Department Designee at least 30 days written notice and an opportunity to correct the problem. If the problem is not corrected within that period, the Recovery Discount will be suspended or the service modified for the service address until resolved in accordance with paragraph (6) below.
6. The procedure for removing the recurring charges described in paragraphs (1) and (4) above, and the Recovery Discount suspension described in paragraph (5) above, is as follows:
 - a. The Department Designee will complete and submit to SF Environment a self-assessment form for the City location in question. SF Environment will review the form and submit it

- to Contractors' customer service department, together with a request to have the recurring charge (or Recovery Discount suspension) removed.
- b. Contractor will confirm receipt and schedule a quality assurance inspection within thirty (30) days of receipt of SF Environment's request. The results of the inspection will be sent to SF Environment and the Department Designee.
 - c. If the City location passes the inspection, then the recurring charge (or Recovery Discount suspension) will be removed on the next billing cycle.
 - d. If the City location fails the inspection, then the recurring charge (or Recovery Discount suspension) will continue for another two (2) monthly billing cycles, at which time another quality assurance inspection may be requested.
 - e. In the case of the Contamination charge under paragraph (1) above, if the inspection shows improvement but not enough to meet the thresholds, the Contamination charge may be decreased (e.g. from 50% to 25% of the Trash rate) upon mutual agreement between the Contractor and the City.
 - f. Notwithstanding the foregoing, recurring charges (and Recovery Discount suspensions) will continue for a minimum of two (2) monthly billing cycles.
7. Contractors may either refuse to collect an Overage or may collect it and charge the then-applicable Trash "extra" rate per the Collection Rates for the Third Amendment for the same-size Bin.
 8. City locations exhibiting contaminated refuse streams will be identified by the Contractors through a variety of methods, including:
 - a. Refuse collection staff may flag the account within the Contractors' customer database following observations made during regular collection service.
 - b. The Contractors' waste zero team may identify contaminated bins while performing random inspections throughout the community.

(July 1, 2024 to October 31, 2024)

1. Description of Charges.

- a. City Departments must comply with the Mandatory Recycling and Composting Ordinance which requires the proper separation of recyclables, compostables, and trash.
- b. The collection rates for the Fifth Amendment (July 1, 2024 to October 31, 2024) (“Collection Rates”) charged for refuse collection services are based on a set of rate tables that do not differentiate between the types of collection bins (recycling, composting, and trash). The Parties understand and agree that the initial rates to be charged for services covered by the Fifth Amendment are the rates specified in Appendix D-5, which shall apply to services provided between July 1, 2024 and October 31, 2024.
- c. Subject to the discount provided for in Section (1)(d) below, charges by Contractors for the Services covered by the Fifth Amendment will be the Collection Rates specified in Appendix D-5 and effective July 1, 2024 for the period of July 1, 2024 to October 31, 2024. Following are the main categories of charges:

i. Collection Rates

1. Collection Rates for this Fifth Amendment for refuse (i.e., trash, recyclables and compostables) have been implemented by the Contractors to reflect the City’s planned migration to zero waste and incentivize customers to help San Francisco reach its generation and disposal reduction targets.
2. The Collection Rates for the Fifth Amendment are the rates specified in Appendix D-5 and effective July 1, 2024 for the period of July 1, 2024 to October 31, 2024.

ii. Compactors

1. Compactor Rates for this Fifth Amendment for refuse are the rates specified in Appendix D-5 and effective July 1, 2024 for the period of July 1, 2024 to October 31, 2024.
2. Rental of Compactor Units are not through this Agreement. Rental rates are based on the rental agreement between the Contractor and City Department.
3. The Contractor is responsible for covering any repair costs to a rented Compactor Unit per the rental agreement between the Contractor and City Department.

iii. Debris Boxes

1. Debris Box Rates for this Fifth Amendment are the rates specified in Appendix D-5 and effective July 1, 2024 for the period of July 1, 2024 to October 31, 2024.
2. Allowed uses of debris boxes under this contract include:
 - a. Abandoned materials;
 - b. Bulky items;
 - c. Recyclable and compostable materials; and
 - d. Alternative collection service when compactors are being repaired.
3. Use of debris boxes for trash collection is only allowed if pre-approved in writing by the Department of the Environment.

iv. Ancillary Services

1. Rates for premium services are those specified in the rate table titled "Collection Rates." Rates for other ancillary services are specified in the rate table for Extra Services. Both categories of rates are the rates specified in Appendix D-5 and effective July 1, 2024 for the period of July 1, 2024 to October 31, 2024.

v. Contamination Charges

1. Contractors implement a system of City-approved charges for contamination and overages designed to encourage recycling and composting, ensure that each customer is subscribed to the correct service level, and cover the extra costs that Contractors incur due to contamination and overages. The current charges are set forth in Appendix C-2.
- d. Each City location shall receive the same recovery discount that Contractors offer generally to commercial customers in San Francisco pursuant to the 2017 rate order (the "Recovery Discount"). The Recovery Discount for commercial customers in San Francisco is based on the following:

Recovery Rate (subscribed recycling and composting bin monthly volume divided by total subscribed refuse bin monthly volume) less a Recovery Floor.

Recovery Floor is 25%.

To reflect the fact that City locations reuse, recycle, and compost organic material using their own facilities and resources, the Contractor agrees to apply a Composting Credit

(described in Section 3) to the Recovery Floor. With the Composting Credit, the City’s Recovery Discount will be calculated as follows:

$$\text{Recovery Discount} = \text{Recovery Rate} - (\text{Recovery Floor} - \text{Composting Credit})$$

By way of example, assume a City Location is subscribed for the following service level:

Service Level:	Subscribed-For Monthly Bin Volume
1 96g Trash bins, 4 days/wk.	$= 1 * (96/201.9) * 4 * 4.33 = 8.23$
3 64g Recyclables bins, 4 days/wk.	$= 3 * (64/201.9) * 4 * 4.33 = 16.47$
1 64g Compostables bin, 4 days/wk.	$= 1 * (64/201.9) * 4 * 4.33 = 5.49$

Note: 201.9 converts gallons to cubic yards. 4.33 converts weeks to months.

Based on the Composting Credit allowed per Section 3, below, the Recovery Discount for the above City Location, and the amounts charged, would be calculated as follows:

$$\text{Recovery Rate} = (\text{Recycling} + \text{Composting Volume}) / (\text{Recycling} + \text{Composting} + \text{Trash Volume})$$

$$(5.49 + 16.47) / (5.49 + 16.47 + 8.23) = .727 = 73\%$$

$$\text{Recovery Discount} = \text{Recovery Rate} - (\text{Recovery Floor} - \text{Composting Credit})$$

$$73\% - (25\% - 20\%) = 68\%$$

$$\text{Recovery Discount} = 68\%$$

City Department Location	Subscribed Cubic Yards/ Month	Service Charges before Recovery Discount	Service Charges after Recovery Discount
Composting	5.49	\$ 395.96	\$ 395.96
Recycling	16.47	\$ 1,187.88	\$ 1,187.88
Trash	8.23	\$ 558.00	\$ 558.00
Recovery Discount 68%			\$ (1,456.45)
TOTAL	30.19	\$ 2,141.84	\$ 685.39

Note: The example uses the Uniform Commercial Rates effective July 1, 2019.

The Recovery Discount incentivizes City Locations to recover more recyclables and compostables. Therefore, City Locations that have a Recovery Rate of 5% or below will not be eligible for the Recovery Discount.

Charges for ancillary services (e.g., access, distance, and elevation) are not subject to the discount. By entering into this Fifth Amendment, the parties do not intend to modify the categories of services subject to the Recovery Discount (or the amount or method of calculating the discount).

e. Self-Haul

- i. Refuse, except loads of source separated single commodities (e.g. loads of cardboard only or metal only), self-hauled to Recology San Francisco's facilities is subject to a tipping charge, except to the extent the costs of disposing of such material are included in the cost base used to set rates under the Refuse Ordinance. Under the current Rate Order, the only costs so included are those for disposal of street sweeping and abandoned material collected and self-hauled by the Department of Public Works.
- ii. The tipping charge is the rate specified in Appendix D-5 and effective July 1, 2024 for the period of July 1, 2024 to October 31, 2024.

2. **Provision of Services.** No charges shall be incurred under this Agreement nor shall any payments become due to any Contractor until the services to which such payments relate are received from such Contractor and the related billings are approved by the City Department head as being in accordance with this Agreement. Upon prior written notice to the applicable Company setting forth the nature of Company's failure under this Agreement, a City Department may withhold payment to Contractor in any instance in which such Contractor has failed or refused to satisfy any material obligation provided for under this Agreement in connection with such City Department.

3. **Composting Credit.**

- a. In calculating the Recovery Discount, Contractors have agreed to reduce the standard 25% Recovery Floor for the benefit of City to reflect the fact that City locations compost organic material, grind wood into wood chips, and repurpose forestry products on-site for their own use, using their own facilities and resources (such activities collectively, "City Organics Recovery Activities"). These activities mean that the City orders fewer Compostables bins from Contractors than it otherwise would, which in turn means that City's Recovery Discount is less than it would otherwise be.
- b. As a result, Contractors agree that there will be a reduction in the Recovery Floor for all City locations that receive the Recovery Discount. The reduction (the "Composting Credit" or "Compost Credit") shall be 20%. The Compost Credit was determined by utilizing the following formula: dividing (i) average total tonnage of organic material recovered by City locations through the City Organics Recovery Activities during the three (3) year period ending on the July 1 preceding the July 1 adjustment date, by (ii) average total tonnage of refuse of all types generated by City locations during the same three (3) year period. The total tonnage (i.e., the denominator in clause (ii)) includes, but is not limited to, all refuse collected by Contractors (e.g., Trash, Recyclables, Compostables), whether disposed or recovered. Notwithstanding any other provision, the Composting Credit shall not exceed 20% (i.e. the Recovery Floor after application of the Composting Credit shall not be reduced below 5%).
- c. Contractors' analysis based on City and Contractors' data indicates that as of the date hereof, the City Organics Recovery Activities recover an amount of organic material

significantly in excess of the amount required to achieve the maximum Composting Credit of 20%. If City modifies the City Organics Recovery Activities in a way that is reasonably likely to decrease the tonnage of organic material recovered from such activities by over 5%, then City shall notify Contractor in writing of the same, so that the Parties can recalculate the Composting Credit.

- d. Should the City implement other categories of recovery activities that recover organic material, the City and Contractor agree to mutually consider in good faith whether and how to include the recovery attained through those activities as part of the Composting Credit in an equitable and reasonable manner.

4. Reserved.

Appendix C-2
Contamination & Overages Management
(July 1, 2024 to October 31, 2024)

Contractors shall implement a system of notices and charges for Contamination and Overages designed to encourage recycling and composting, ensure that each customer is subscribed to the correct service level, and cover the extra costs that Contractors incur due to Contamination and Overages. This system is designed so that, if each City department location properly separates Recyclables and Compostables from Trash and has a subscription for sufficient Bin volume to handle all their material, no charges will be assessed. The current system and associated charges are as follows. All rates referred to in this Appendix C-2 are the rates set forth in Appendix D-5, and effective July 1, 2024 for the period of July 1, 2024 to October 31, 2024:

1. If a Recyclables or Compostables Bin appears to contain more than 10% or 5% respectively by volume of non-Recyclables or non-Compostables, then the Bin is considered “contaminated.” Contractors will follow the following protocol for contaminated Bins:
 - a. Contamination will be communicated to the Department Designee through a series of letters: Warning Letter, Notice Letter, Escalation Letter and Good Job Letter.
 - i. Warning letters occur when 4 or more instances of contaminated Bins are found at a City Department location.
 - ii. Notice letters inform the city department designee of the intent to charge for contamination on the next billing cycle.
 - iii. Escalation letters occur when continued contamination remains at a City location for greater than six months.
 - iv. Good Job letters are sent whenever charges are removed as a result of a passing quality assurance inspection.
 - b. On the 1st, 2nd and 3rd instances of a contaminated Bin at a City location, Contractors will collect the Bin at no charge to the City.
 - c. On the fourth or more instance of a contaminated Bin at the location, Contractors will collect the Bin at no charge to the City and will send a warning letter to the Department Designee, to inform him/her of the Contamination at the location. SF Environment staff will work with the City Department Designee to address the contamination. The city department has 30 days from the issuance of the warning letter to have a quality assurance inspection conducted by the contractors.
 - d. The warning letter will remain in effect for 6 months. If a 5th instance of a contaminated Bin at the location does not occur within 6 months of the date of the warning letter, then the warning letter will lapse, and any subsequent instance of a contaminated Bin at the location will be treated as if it were the 1st instance.
 - e. A Quality Assurance Inspection will result in a determination of the quality of the material discarded in one or more of the location’s Bins (Recyclables, Compostables, and/or Trash). The City Department Designee will receive photos and an assessment of pass or fail on the bins inspected. If a failure is determined, the City Department Designee will receive a notice letter, informing the department that a recurring

contamination charge will be initiated at the next billing cycle. If all Bins pass the quality assurance inspection, then the Department Designee will receive a Good Job Letter.

- f. If a notice letter is issued, then Contractors will begin charging a recurring Contamination Charge equal to 50% of the Trash rate for the same-size Bin collected at the same frequency, with no Recovery Discount. The charge will be added to the bill for each subsequent collection of that Bin until removed in accordance with paragraph (6) below. If not removed, the charge may be increased to 75% of the applicable Trash rate after 6 months, and 100% of the applicable Trash rate after 12 months. If the charge is removed, and a subsequent instance of a contaminated Bin at the location occurs while the warning letter remains in effect, then the charge will be reinstated (with a notice letter to the City Department Designee) until removed in accordance with paragraph (6) below.
2. If a Recyclables or Compostables Bin is so contaminated that it must be collected as Trash, or if a Compostables Bin contains pervasive glass (regardless of volume), then the Bin will be collected as Trash, and a per-occurrence charge equal to the Trash “extra” rate per the Collection Rates for the Fifth Amendment for the same-size Bin will be charged. This charge is separate from and in addition to the Contamination Charge described in paragraph (1).
3. Contractors’ practice is not to collect any Bin that contains any amount of Hazardous Material, Medical Waste, Electronic Waste, or other material that is prohibited from being disposed of in the refuse stream. However, if a Bin is inadvertently collected that contains prohibited material, a charge equal to the Trash “extra” rate for the same-size Bin will be charged.
4. If a Trash Bin is contaminated with an excessive amount of Recyclables or Compostables (usually over 25%), Contractors will begin charging a recurring charge equal to 50% of the Trash rate for the same-size Bin collected at the same frequency, with no Recovery Discount. Before assessing this charge, Contractors will give the Department Designee at least 30 days written notice and an opportunity to correct the problem. If the problem is not corrected within that period, the charge will be added to the bill for each subsequent collection of that Bin until removed in accordance with paragraph (6) below.
5. Consistent with Contractors’ standard practice for commercial customers in San Francisco, Contractors may adjust or suspend the Recovery Discount for a City location if it displays a consistent pattern of violating the City’s Mandatory Recycling and Composting Ordinance. Before suspending the discount, Contractors will give the Department Designee at least 30 days written notice and an opportunity to correct the problem. If the problem is not corrected within that period, the Recovery Discount will be suspended or the service modified for the service address until resolved in accordance with paragraph (6) below.
6. The procedure for removing the recurring charges described in paragraphs (1) and (4) above, and the Recovery Discount suspension described in paragraph (5) above, is as follows:
 - a. The Department Designee will complete and submit to SF Environment a self-assessment form for the City location in question. SF Environment will review the form and submit it to Contractors’ customer service department, together with a request to have the recurring charge (or Recovery Discount suspension) removed.

- b. Contractor will confirm receipt and schedule a quality assurance inspection within thirty (30) days of receipt of SF Environment's request. The results of the inspection will be sent to SF Environment and the Department Designee.
 - c. If the City location passes the inspection, then the recurring charge (or Recovery Discount suspension) will be removed on the next billing cycle.
 - d. If the City location fails the inspection, then the recurring charge (or Recovery Discount suspension) will continue for another two (2) monthly billing cycles, at which time another quality assurance inspection may be requested.
 - e. In the case of the Contamination charge under paragraph (1) above, if the inspection shows improvement but not enough to meet the thresholds, the Contamination charge may be decreased (e.g. from 50% to 25% of the Trash rate) upon mutual agreement between the Contractor and the City.
 - f. Notwithstanding the foregoing, recurring charges (and Recovery Discount suspensions) will continue for a minimum of two (2) monthly billing cycles.
7. Contractors may either refuse to collect an Overage or may collect it and charge the then-applicable Trash "extra" rate per the Collection Rates for the Fifth Amendment for the same-size Bin.
 8. City locations exhibiting contaminated refuse streams will be identified by the Contractors through a variety of methods, including:
 - a. Refuse collection staff may flag the account within the Contractors' customer database following observations made during regular collection service.
 - b. The Contractors' waste zero team may identify contaminated bins while performing random inspections throughout the community.

Date: September 6, 2024
To: Angela Calvillo, Clerk of the Board
From: Sailaja Kurella, Director of Office of Contract Administration (OCA) and Purchaser
Subject: **Resolution to approve sixth amendment to Contract 100020021 (Term Contract 83150) – Refuse Collection Services with Recology**

The Office of Contract Administration (OCA) respectfully requests approval from the Board of Supervisors (BOS) for a sixth amendment to Contract 100020021 (OCA Term Contract 83150) with Sunset Scavenger Company, Golden Gate Disposal & Recycling Company, and Recology San Francisco (collectively, "Recology"), increasing the contract amount by \$1,500,000 for a total not-to-exceed amount of \$45,300,000; and to extend the term by two (2) months, to December 31, 2024, for a total contract duration of three (4) years and 1 month. The proposed resolution authorizing this amendment is enclosed.

City's Contract with Recology

Since 2004, the City has entered into exclusive "sole source" contracts with Recology for the collection of refuse from City facilities. Term Contract 83150, the current refuse collection agreement, was similarly entered into under City Administrative Code Chapter 21 sole source authority in December 2020. The original \$5.6 million, seven-month agreement, from December 1, 2020 to June 30, 2021. The contract has been amended five times to date. A summary of all amendments to date is provided below:

- Amendment 1: Dated June 29, 2021, extended the contract end date to November 30, 2021 and increased the contract not to exceed amount to \$9,900,000.
- Amendment 2: Dated November 5, 2021, extended the contract end date to June 30, 2022 and increased the contract not to exceed amount to \$15,622,000. The amendment was approved by the Board of Supervisors under Resolution No. 532-21 on November 16, 2021.
- Amendment 3: Dated July 1, 2022, extended the contract end date to June 30, 2024 and increased the contract not to exceed amount to \$39,600,000. The amendment was approved by the Board of Supervisors under Resolution No. 312-22 on July 12, 2022.
- Amendment 4: Dated June 20, 2023, adjusted the pricing for the time period July 1, 2023 to June 30, 2024. Because this amendment did not increase the contract not to exceed amount of the previously Board approved contract NTE, the amendment did not require Board approval.
- Amendment 5: Dated April 8, 2024, extended the contract end date to October 31, 2024 and increased the contract not to exceed amount to \$43,800,000. The amendment was approved by the Board of Supervisors under Resolution No. 278-24 on May 14, 2024.

Solicitation Process for New Citywide Refuse Collection Contract

The City's Refuse Ordinance, which defines how waste must be disposed by residents, business, and institutions in San Francisco, and authorizes only licensed refuse collectors to transport waste through San Francisco among other things, does not prohibit the City from competitively soliciting for refuse collection services at City government facilities.

As such, OCA and the Department of Environment (ENV) collectively developed a solicitation for the City's new refuse collection and disposal contract. OCA issued the RFP in June 2022. Two firms submitted proposals, and the evaluation resulted in Allied Waste Services of North America, LLC (Allied Waste Services) as the highest-ranked proposer. OCA issued a Notice of Intent to Award to Allied Waste Services on January 11, 2023.

In February 2024, upon conclusion of the required environmental review process for the contract pursuant to California Environmental Quality Act (CEQA), OCA brought forward to the BOS the proposed new seven-year contract with Allied Waste Services, with services to commence July 1, 2024. However, Allied Waste Services withdrew its proposal on March 8, 2024, prior to action by the BOS.

Proposed Amendment

OCA terminated negotiations with Allied Waste Services for the new Citywide refuse collection and disposal contract, and commenced negotiations with Recology, the second highest-ranking proposer to the City's solicitation. OCA is currently still in negotiations with Recology and so seeks to extend the current contract with Recology to ensure there is no lapse in service should negotiations or final contract approval extend beyond the current contract end date of October 31, 2024.

Under the proposed amendment, the City and Recology have agreed to a 3.77% price adjustment based on the U.S. Department of Labor's Consumer Price Index for San Francisco-Oakland-Hayward, CA for the full duration of the two-month contract extension. The City will continue to receive a discount off the base rates based on the volume of recycling and compostable materials collected. The proposed amendment not-to-exceed contract value is based on average monthly expenditures on the contract to-date, plus a 15% contingency to account for potential increases in service levels or addition of new locations.

Recommendation

This contract is critical for the City. Every City department utilizes this contract for their refuse collection needs, allowing for streamlined and efficient provision of services under common contractual requirements and rates. To ensure continuity of this essential service, OCA recommends extending the current refuse collection agreement with Recology (Contract 1000020021) to December 31, 2024, increasing the not-to-exceed contract value commensurate with expected usage.
