Dear Ms. Calvillo and Supervisor Mandelman,

On May 20, 2026, the San Francisco Historic Preservation Commission (hereinafter “HPC”) conducted a duly noticed public hearing at a regularly scheduled meeting to consider Supervisor Mandelman’s ordinances (Board File Nos. 260065, 260046, 260047, 260048, 260049, 260050, 260051, 260053, 260054, 260055, 260056, 260057, 260058, 260059, 260060, 260061, 260066, 260067, 260068, 260069, 260071) to landmark: 1450 Masonic Avenue /Alexander Adams Home, 740 Castro Street/Charles L. Hinkel Home, 99 Divisadero Street/Born Home, 11 Piedmont Street/Early Haight Ashbury Farmhouse, 1200 Dolores Street/Charles Katz Home, 2173 15th Street/Duboce Triangle Greek Revival Home, 1335 Guerrero Street/ Elliott M. Wilson Home, 3816 22nd Street /Engine Company No. 44-Adams Van Hoesen House, 737 Buena Vista Avenue West/Richard Spreckels Mansion-Buena Vista Studios, 3689 19th Street/Mission Congregational Church, 1415-1417 Guerrero Street/Guerrero Street Double Stick Eastlake House, 191-197 Henry Street/Henry Street Rowhouses, 455 Fair Oaks Street/Holy Innocents Church, 181 Buena Vista Avenue East/De Urioste Home-James C. Hormel Mansion, 210 Douglass Street/John J. Clark House, 552 Noe Street/Phoenix Brewery, 192 Laidley Street/Poole-Bell House, 1526 Masonic Avenue/Power House, 651 Dolores Street/Second Church Of Christ Scientist, 394 Fair Oaks Street/William Shaughnessy Home, 657 Chenery Street/ Tietz-Beneke House (respectively).

At the hearing, the HPC voted to **approve** the resolutions to recommend landmark designation pursuant to Article 10 of the Planning Code. Modifications were made to the draft ordinances for 737 Buena Vista Avenue West/Richard Spreckels Mansion-Buena Vista Studios, 192 Laidley Street/Poole-Bell House, and 1526 Masonic Avenue/Power House.

The proposed landmark designations are exempt from environmental review, pursuant to CEQA Guidelines Section 15308 (Class Eight – Categorical).

Please find attached documents related to the HPC’s action. Also attached is an electronic copy of the proposed ordinances, drafted by Deputy City Attorney Peter Milijanich. If you have any questions or require more information, please do not hesitate to contact me.

Sincerely,

Veronica Flores, Acting Manager of Legislative Affairs

RECOMMENDATION: Recommend Landmark Designations to Board of Supervisors

Background

The Family Zoning Plan (FZP) Landmark Designation Program (Program) is being undertaken in conjunction with the implementation of FZP, with the objective of allowing for more housing, while still preserving San Francisco's most cherished architectural, cultural, and/or historical resources. This Program is being overseen by the Planning Department alongside District Supervisors and project partners. The Program includes designating properties which are currently identified as Category A-rated historical resources through past Surveys and Historic Resource Evaluations, as Planning Code Article 10 Landmarks. Phase 1 of this effort in District 8 focused on properties outside of Public (P) and Residential, House (RH) Zoning Districts, with 0-1 dwelling units, as well as properties with strong underrepresented community associations as identified in Cultural Historic Context Statements. This phase resulted in the designation of fourteen(14) individual Article 10 Landmarks, whose ordinances were passed by the Board of Supervisors on April 21, 2026 and signed by Mayor Daniel Lurie on April 30, 2026.

Phase 2 of this effort in District 8 focuses on properties within RH Zoning District, as outlined in this case report that were identified by Planning Department Preservation Staff as having exemplary architectural, historical and/or cultural significance. This includes twenty-three (23) properties initiated by District 8 Supervisor Rafael Mandelman on January 13, 2026. Subsequent to initiation, the landmark designation initiation resolutions were recommended by the Land Use and Transportation Committee on February 23, 2026, adopted by the Board of Supervisors on March 3, 2026, and signed by Mayor Daniel Lurie on March 6, 2026. Planning Department staff have concurrently been working with other San Francisco District Supervisors on identifying potential Article 10 Landmarks in their respective districts as part of the Program.

Later Program phases will recommend additional Article 10 Landmarks that are identified through the San Francisco Citywide Cultural Resources Survey, and/or are identified through future Cultural Historic Context Statements.

Property Descriptions

The following twenty-three properties are recommended as the Program's District 8 Phase 2 Article 10 Landmarks:

1450 Masonic Avenue (Alexander Adams Home) is a three-story-over-garage single-family residence in the Ashbury Heights neighborhood near Buena Vista Park, constructed in 1891. The property includes shingle cladding, wood windows, a complex roof shape, and an octagonal tower with wood shingled dome. Alterations have included the garage door and 1983 rear cupola. The builder was the original owner, Alexander P. Adams, of coffee roasting company, A.P. Adams & Company.

740 Castro Street (Charles L. Hinkel Home) is a three-story-over-garage single-family residence in the Castro neighborhood. The home is the northernmost in a row of Stick-Eastlake properties constructed by prolific home builder Charles L. Hinkel circa 1892. The home uniquely served as Hinkel's residence from 1892 until his death in 1908. The wood-framed property includes a gabled roof, wood windows and decorative wood balustrades, spindlework, wood columns, wagon wheel spokes, and jigsaw corner hoods.

99 Divisadero Street (Born Home) is a three-story property in the Castro/Upper Market Neighborhood. Constructed in 1905, the home was designed by architect Frank W. Dankin. Brick contractors George and Stephen Born were the original residents who built the detached garage in 1910. The brick home is an exuberant example of Georgian Revival architecture, which is rare for the neighborhood it lies in. Features include quoins, keystones, second story colonnettes, a denticulated cornice with modillions, and an elaborate entrance portico with two story composite pillars.

11 Piedmont Street (Early Haight Ashbury Farmhouse) is a two-story single-family dwelling in the Ashbury Heights neighborhood near Buena Vista Park, constructed circa 1860. It was originally part of a prosperous dairy farm, and was moved to its current location, though accounts vary on where it was originally located. The property is one of the neighborhood's oldest residences, and an intact example of early Italianate architecture with rustic channel siding, and double hung wood windows with pedimented surrounds.

1200 Dolores Street (Charles Katz Home) is a two-story-over-basement home in Noe Valley near the western boundary of the Mission. The property was constructed in 1909 for real estate developer Charles Katz, whose family continued to reside at the property through the 1980s. Originally a smaller residence existed on the parcel which was incorporated into the design of the home. The property is an exemplary corner Queen Anne home with features including a polygonal corner tower with shingled witch's hat, stained glass windows, denticulated cornice, crown molding, modillions, and fish scaled shingles.

2173 15th Street (Duboce Triangle Greek Revival Home) is a two-story single-family residence in the Duboce Triangle neighborhood. 1875 is estimated as the construction date based on architectural style and

neighborhood context. The home is one of the earliest extant properties in the neighborhood and Carpenter Norman Churchill was the earliest known residence. The Greek Revival home is a rare example of a pre-Victorian style property in San Francisco and retains a sufficient integrity with characteristic features including its forward-facing gabled roof and full-length front porch with square posts.

1335 Guerrero Street (Elliott M. Wilson Home) is a two-story property original constructed as a residence for Elliott M. Wilson, president of the Pacific Coast Steel company. The home was built in 1918, in the Mission neighborhood, with steel support and reinforced concrete walls. The home was designed by architect Arthur S. Bugbee, who was the last in the line of four Bugbee architects, well-known designers of institutional buildings and fine residences, including four of the Nob Hill mansions. The property is a rare example of a Second Empire home in San Francisco.

3816 22nd Street (Engine Company No. 44 / Adams-Van Hoesen House) is now a four-story residential property, originally constructed as a firehouse, in the Noe Valley neighborhood. Built in 1909 in the days of horse-drawn fire engines, the building served as a firehouse for nearly fifty years. In 1959 the property was purchased by renowned San Francisco based artists Mark Adams and Beth Van Hoesen, who used the space as their home and studios for nearly fifty years. The building remains an intact example of a Mission Revival firehouse with features including a rear square tower, arched entranceway with curved metal clad transoms, double copper clad doors, oval medallions with “SF” and “FD” motifs, and intact lettering (“Chemical”, “Engine No 44”).

701 Castro Street (Fernando Nelson Home) is a two-story-over-garage single family home in the Castro/Upper Market neighborhood. The home was constructed in 1897 by builder of merit Fernando Nelson was responsible for more than 4,000 San Francisco homes over his seventy-year career. Nelson resided at the property from 1897-1903, during a prolific time in his career. The home was relocated from a site just uphill, and has been subject to some ground level alterations, though retains exemplary Queen Anne features.

737 Buena Vista Avenue West (Richard Spreckels Mansion / Buena Vista Studios) is a four-story property, originally constructed as a single-family home in the Ashbury Heights neighborhood near Buena Vista Park. Built in 1897, the original owner was Richard Spreckels, manager of the Western Sugar Refinery, and member of the Spreckels family who accumulated great wealth from the sugar industry. In the late 1960s the upstairs ballroom was converted to a recording studio for bands which exemplified the San Francisco sound, including the Grateful Dead who recorded some of their first studio demos out of the property. The property remains an intact Classical Revival home.

3689 19th Street (Mission Congregational Church) was constructed in 1910 as part of the Inner Mission North reconstruction period following the Great 1906 Earthquake and Fire. Originally constructed as the Mission Congregational Church, though has since underwent name and ownership changes. The property was designed by architect Reverend Francis W. Reid in the Gothic Revival style, with exemplary features including its brick walls, red pressed brick facing, and red sandstone trimmings, exterior brick buttresses, tall square crenulated tower, lancet and arched openings, and stained glass windows.

1415-1417 Guerrero Street (Guerrero Street Double Stick Eastlake House) is a double house in the Southern Mission neighborhood, constructed in the Stick Eastlake style, with each of the two houses built as multi-family three story flats. The property was constructed by builder of merit Fernando Nelson and represents an early example of a Nelson home when he worked as a carpenter, prior to transitioning to real estate development. The

property includes exemplary features including the full height squared box bay windows with dentils, and elongated brackets capped by false-gabled roof and front pedimented long entry portico with decorative wooden columns.

191-197 Henry Street (Henry Street Rowhouses) is a multi-family residential property in the Casto/Upper Market neighborhood. The rowhouses were constructed in 1892 at a time when Duboce Triangle was transitioning from an exurban neighborhood of large-lot Victorian Villas to a moderately populated, middle-class neighborhood. The property is a unique example of a Stick Eastlake style rowhouse with features including gabled entry porticos with wooden ornamentation, and pediments with grille work and a sunburst.

455 Fair Oaks Street (Holy Innocents Church) is a church in the Mission neighborhood. Constructed in 1890 as the Holy Innocents, which it remains to-date, the church is San Francisco's oldest Episcopal congregation and a unique example of a Gothic Revival church. The church is the first extant commission in San Francisco of the firm Coxhead and Coxhead, formed by brothers Earnest and Almeric Coxhead. Earnest Coxhead is considered an architect of merit, known for pioneering the Bay Area Shingle Style.

181 Buena Vista Avenue East (De Urioste Home - James C. Hormel Mansion) is a three-story single-family home in the Haight Ashbury neighborhood across the street from Buena Vista Park. Constructed in 1899 the property is an exuberant example of a Queen Anne Home. Original residents were a Guatemalan family, the De Uriostes, including George de Urioste who served as the Consul of the Argentine Republic from 1901 to circa 1913. Additionally, from 1986-2012 the home was owned by LGBTQ philanthropist, activist, and diplomat James C. Hormel who served as the ambassador to Luxembourg in 1999 during the Clinton administration, becoming the first openly gay American ambassador to a foreign country.

210 Douglass Street (John J. Clark House) is a two-story single-family home in the Corbett Heights neighborhood. Constructed in 1885, the home is one of the neighborhood's earliest extant properties, built prior to early transportation and infrastructure improvements. The home was designed by architect John J. Clark who also designed the All Hallows Catholic Church in Bayview. The home is an example of a Folk Victorian property with Gothic and/or Italianate features.

552 Noe Street (Phoenix Brewery) is a two-story mixed-use building with a ground floor art studio, and residential units above. The property was originally a one-story building, which served as the Phoenix Brewery, a small-scale commercial brewing operation, established by Irish immigrant Thomas Kirby. The property was later improved with the second story residential unit where Kirby resided with his family. The property remains a vestige of Eureka Valley's early history, reflecting a time period when industrial facilities were common in the neighborhood prior to streetcar suburbanization.

199 Carl Street (Lange House) is a two-story residential home in the Cole Valley neighborhood. Constructed in 1900, the home was designed by architect of merit August Nordin. The original owner was German immigrant F.W.M. Lange, and the home was sited on the northwest corner of nine acres of land which he purchased as a ranch and dairy. The home is an exemplary example of a Queen Anne home with features including the rounded corner tower with witches cap, decorative wooden brackets, dentils, cornice molding, colonnettes and plaster moldings.

192 Laidley Street (Poole-Bell House) is a residential property in the Glen Park neighborhood, constructed in 1887 in what was then known as the Fairmount District. Built by attorney John Pascoe Poole, the home was sold to Teresa Bell in 1906. Bell was widow to wealthy financier Thomas Bell, and their family was known for their close relationship with abolitionist Mary Ellen Pleasant whom they lived with. While Pleasant passed away before Bell purchased the property the home has long been mired in urban legends surrounding her relationship with the Bell family. The home was constructed in the Italianate style, though Bell added the additional story, giving it a Second Empire appearance.

1526 Masonic Avenue (Power House) was constructed as a two-story single-family home in the Ashbury Heights neighborhood near Buena Vista Park. The design was commissioned in 1910 by original owner U.S. Attorney Mr. Erastus Barnum Powers, and designed by architect of merit Bernard Maybeck. At the time Maybeck was relatively unknown, but only a few years later designed the Palace of Fine Arts which is his best known work. The home has been subject to few exterior alterations, and is one of the few Maybeck properties in San Francisco, given more of his work was in the East Bay.

651 Dolores Street (Second Church of Christ Scientist) was built in 1917 as the Second Church of Christ Scientist in the Mission neighborhood across the street from Dolores Park. Constructing the church was part of the neighborhood's post-1906 Great Earthquake and Fires reconstruction efforts, given the disaster devastated much of the neighborhood's building stock. In the Beaux-Arts style, the church was designed by architect of merit William Crim. The building served as a church for nearly 90 years until it was converted to a residential property which it remains today.

394 Fair Oaks Street (William Shaughnessy Home) was built circa 1893 in the Mission neighborhood. William Shaughnessy served as the builder, as well as the original resident. Shaughnessy was a prolific contractor, and by 1904 was the president of the California Mill Co. The property is an intact example of a Queen Anne home with exemplary features including a polygonal corner tower capped by a cupola with finial, stained glass windows and applied wooden ornamentation.

657 Chenery Street (Tietz-Beneke House) is a residential property constructed in 1872 in Glen Park, at a time when the neighborhood was dominated by ranching and agriculture. In 1900 the property was sold to dairyman Curt (Cord) Heinrich Beneke, great-grandfather of the current Tietz family owner. The modest house was originally served by its own well water, and predated the neighborhood's current street grids. Considered Glen Park's oldest extant property, the home is a rare example of Folk Victorian architecture in San Francisco.

Compliance With Planning Code

Article 10 of the Planning Code

The executive summary and analysis under review was prepared by Department preservation staff, who meet the Secretary of the Interior's professional qualifications. The Department has determined that the subject properties meet the requirements for eligibility as individual landmarks pursuant to Article 10 of the Planning Code. The justification for its inclusion is explained in detail in the attached Landmark Designation Fact Sheets, and briefly in this Executive Summary.

Significance:

Underrepresented Landmark Types: Several of the proposed landmark designations address priorities established by the Historic Preservation Commission (HPC) for new landmarks, as follows:

- **Underrepresented Communities** – One of the properties has an association with social and ethnic groups underrepresented in Article 10 landmark designations. Specifically, 181 Buena Vista Avenue East, the De Urioste Home – James C. Hormel Mansion has both a Pan Latino and LGBTQ association due to past owners. The original owners of the 1899 property were a Guatemalan American family, the De Uriostes, who were heralded as a “pioneering San Francisco family actively involved in local politics, business, the development of the Park Hill Tract and philanthropic endeavors.” George de Urioste was appointed Consul of the Argentine Republic in November 1901, a post he retained through at least 1913. He was approached routinely by the city’s newspapers as an authority on political matters in Central and South America, quoted regularly for analysis in response to revolutions and developments in Guatemala and Argentina. In 1986 they sold the property to LGBTQ philanthropist, activist, and diplomat James C. Hormel, who resided there until 2012. President Clinton nominated Hormel to be the Ambassador to Luxembourg in 1999 amidst a great deal of controversy, becoming the first openly gay American ambassador to a foreign country. Over the course of his lifetime, Hormel donated more than \$15 Million to LGBTQ causes, including funding the San Francisco Public Library’s James C. Hormel Gay and Lesbian Center.
- **Underrepresented Property Types** – One of the proposed landmarks is a property type not well represented in existing Article 10 landmark designations, as a small-scale modest residence. Specifically, the Tietz-Beneke House at 657 Chenery Street is a single-family dwelling unit with a building area of only 808 square feet, pursuant to the Assessor’s Report. The home is significant as Glen Park’s earliest extant building, having been constructed in 1872 at a time when the neighborhood was dominated by agriculture and ranching.
- **Underrepresented Geographies** – Some of District 8’s neighborhoods have fewer Article 10 designated landmarks than others. These include Noe Valley which only has four existing Article 10 landmarks, and Glen Park which has zero existing Article 10 landmarks. However, through this phase of the Program, one Noe Valley, and two Glen Park properties are proposed as Article 10 landmarks. Specifically the Engine Company No. 44 /Adams-Van Hoesen House (3816 22nd Street) which falls in in Noe Valley, and the Tietz-Beneke House (657 Chenery Street) and Poole-Bell House (192 Laidley Street), which fall in Glen Park.
- **Underrepresented Architectural Styles** – A few of the proposed landmarks are significant for their associations with early neighborhood history, and predate Victorian era San Francisco, with associated styles not well represented amongst existing Article 10 Landmark designations. This includes the Duboce Triangle Greek Revival Home (2173 15th Street), constructed circa 1870, which is a Greek Revival property. Additionally, the Tietz-Beneke (657 Chenery Street), constructed in 1872, and the John J. Clark, constructed in 1885, are Folk Victorian properties. Furthermore, the Buena Vista Farmhouse (11 Piedmont Way) constructed circa 1860 is a very early example of an Italianate property.

Public/Neighborhood Input

Planning Department staff conducted outreach and engagement for property owners, occupants and other interested community members, as follows:

- **Community Forums** – In conjunction with District 8 Supervisor Rafael Mandelman’s office, the Planning Department hosted an in-person and virtual community forum (10/22/2025 and 10/27/2025, respectively) on the proposed FZP District 8 Phase 2 Landmarks. Property owners, occupants, and registered neighborhood groups were invited to attend. The forums provided an opportunity for attendees to learn more about the Program, as well as benefits and requirements associated with landmarked properties.
- **Property Owner Conversations** - Since the October 2025 Community Forums, Planning Department staff have offered subsequent meetings and/or phone conversations with property owners on a case-by-case basis, including the property owner of 181 Buena Vista East. Additionally, Department received an email in support of landmark designation from the property owners of 11 Piedmont Way which is attached to this case report.
- **Property Owner Notification** – Consistent with Article 10 of the Planning Code, property owners of all proposed landmarks were provided with a written 20 day notice of this HPC hearing.
- **Media** - Additionally, the Program has been featured by the press including articles in the Bay Area Reporter (1/13/2026), and the SF Examiner (3/27/2026).

Issues & Other Considerations

- **Past/Ongoing Historic Resource Surveys** – To identify the Program’s proposed landmarks, properties which were already identified as Category A historic resources, through past historic resource surveys, were reviewed. Relevant past historic resource surveys include:
 - Here Today, San Francisco’s Architectural Heritage. Text by Roger Olmstead and T.H. Watkins, San Francisco, CA, Chronicle Books, 1968 – This 300+ book includes the Junior League of San Francisco Inc.’s survey information of over 2,500 buildings. The findings of this survey were adopted by the Board of Supervisors on May 11, 1970; Resolution No. 268-70. Additionally, the Junior League of San Francisco "Here Today" building research files, 1964-1978, are archived at the San Francisco Public Library History Center and were reviewed for additional background on relevant properties.
 - Inner Mission North Historic Resource Survey – Completed in 2011, this multi-phased survey built upon a 2004 Historic Context Statement, and evaluated buildings for historical significance and integrity. The Survey area was roughly bound by Duboce Avenue to the north, Shotwell Street to the east, 20th Street to the South, and Dolores Street to the west.
 - Market and Octavia Plan Historic Resource Survey – Adopted in 2009, the Market and Octavia Plan Historic Resource Survey was completed by the community in partnership with the Planning Department, with consultants Page & Turnbull, following the adoption of the Market &

Octavia Plan.

- South Mission Historic Resource Survey – Adopted in 2010, the South Mission Historic Resource Survey documented and assessed approximately 3,800 individual buildings, including nearly 1,000 individual properties and contributors to 13 historic districts.
- San Francisco Citywide Cultural Resources Survey – The San Francisco Citywide Cultural Resources Survey (SF Survey) is a multi-year effort to identify and document places of historical, architectural and/or cultural significant. One of the properties recommended as a landmark through SF Survey was the Tietz-Beneke House at 657 Chenery Street. This recommendation was made to the HPC through findings which were adopted on December 17, 2025. This property had also previously been identified as a Category A historic resource through the 2011 Glen Park Community Plan Historic Resource Survey.
- **Eureka Valley Historic Context Statement** - In 2017, the HPC adopted the Eureka Valley Historic Statement, authored by Elaine B. Stiles. The document overviews the neighborhood’s history from Native California settlement and presence through the 1970s. The document identifies three properties as potential Article 10 Landmarks, all of which are being recommended as landmarks through this Program, including the Fernando Nelson House (701 Castro Street), the Phoenix Brewery (552 Noe Street), and the Charles Hinkel House (740 Castro Street). It is worth noting that the Phoenix Brewery was recommended as a landmark alongside its southerly neighboring property at 560 Noe Street, referred to as the Kirby House. However, Planning Department staff research did not confirm that Thomas Kirby resided at 560 Noe Street as stated in the Historic Context Statement, but rather at 552 Noe Street. Thus Staff do not recommend landmark designation of 560 Noe Street, unless a case can be made for historical significance through future efforts.
- **Corbett Heights Historic Context Statement** - In 2017 the HPC adopted the Corbett Heights Historic Context Statement, authored by Michael R. Corbett. The documents overviews the neighborhood’s history from 1860s early development through 1970s infill and gentrification. Recommendations on potentially significant resources include the John J. Clark House (210 Douglass Street), which is recommended as an Article 10 Landmark through Phase 2 of this effort.
- **Historic Resource Evaluations** - One of the properties was identified as Category A historic resource through a Historic Resource Evaluations (HRE) required under the California Environmental Quality Act (CEQA) due to a proposed project. Specifically, the De Urioste Home- James C. Hormel Mansion (181 Buena Vista Avenue) with an HRE completed in 2013.

Basis for Recommendation

The Department recommends that the HPC recommend to the Board of Supervisors landmark designation of the twenty-three Family Zoning Plan District 8 Phase 2 Landmark Designations as outlined in this case report as they meet the provisions of Article 10 of the Planning Code regarding Landmark Designation.

17 subsections or parts of tables.

18 Be it ordained by the People of the City and County of San Francisco:

19 Section 1. Findings.

20 (a) Environmental and Land Use Findings.

21 (1) The Planning Department has determined that the Planning Code
22 amendment proposed in this ordinance is subject to a Categorical Exemption from the
23 California Environmental Quality Act (California Public Resources Code Sections 21000 et
24 seq., hereinafter "CEQA") pursuant to Section 15308 of California Code of Regulations, Title
25 14, Sections 15000 et seq., the Guidelines for implementation of the statute, for actions by
regulatory agencies for protection of the environment (in this case, landmark designation).
Said determination is on file with the Clerk of the Board of Supervisors in File No.

1 _____ and is incorporated herein by reference. The Board of Supervisors affirms
2 this determination.

3 (2) Pursuant to Planning Code Section 302, the Board of Supervisors finds that
4 the proposed landmark designation of the Charles L. Hinkel Home will serve the public
5 necessity, convenience, and welfare for the reasons set forth in Historic Preservation
6 Commission Resolution No. _____, recommending approval of the proposed
7 designation, which is incorporated herein by reference.

8 (3) The Board of Supervisors finds that the proposed landmark designation of
9 the Charles L. Hinkel Home is consistent with the General Plan and with Planning Code
10 Section 101.1(b) for the reasons set forth in Historic Preservation Commission Resolution No.
11 _____, which is incorporated herein by reference.

12 (b) General Findings.

13 (1) On March 3, 2026, the Board of Supervisors adopted Resolution No. 093-
14 26, initiating landmark designation of the Charles L. Hinkel Home as a San Francisco
15 landmark pursuant to Section 1004.1 of the Planning Code. On March 6, 2026, the Mayor
16 approved the resolution. Said resolution is on file with the Clerk of the Board of Supervisors in
17 File No. 260046.

18 (2) Pursuant to Charter Section 4.135, the Historic Preservation Commission
19 has authority “to recommend approval, disapproval, or modification of landmark designations
20 and historic district designations under the Planning Code to the Board of Supervisors.”

21 (3) The Landmark Designation Fact Sheet dated May 20, 2026 was prepared
22 by Planning Department Preservation staff. All preparers meet the Secretary of the Interior’s
23 Professional Qualification Standards for historic preservation program staff, as set forth in
24 Code of Federal Regulations Title 36, Part 61, Appendix A. The report was reviewed for
25 accuracy and conformance with the purposes and standards of Article 10 of the Planning

1 Code. A copy of the Landmark Designation Fact Sheet is on file with the Clerk of the Board of
2 Supervisors in File No. _____ and is incorporated herein by reference.

3 (4) The Historic Preservation Commission, at its regular meeting of May 20,
4 2026, reviewed Planning Department staff’s analysis of the historical significance of Charles
5 L. Hinkel Home set forth in the Landmark Designation Fact Sheet.

6 (5) On May 20, 2026, after holding a public hearing on the proposed
7 designation and having considered the specialized analyses prepared by Planning
8 Department staff and the Landmark Designation Fact Sheet, the Historic Preservation
9 Commission recommended designation of the Charles L. Hinkel Home as a landmark
10 consistent with the standards set forth in Section 1004 of the Planning Code, by Resolution
11 No. _____. Said resolution is on file with the Clerk of the Board in File No. _____.

12 (6) The Board of Supervisors hereby finds that the Charles L. Hinkel Home has
13 a special character and special historical, cultural, architectural, and aesthetic interest and
14 value, and that its designation as a landmark will further the purposes of and conform to the
15 standards set forth in Article 10 of the Planning Code. In doing so, the Board hereby
16 incorporates by reference the findings of the Landmark Designation Fact Sheet.

17
18 Section 2. Designation.

19 Pursuant to Section 1004.3 of the Planning Code, the Charles L. Hinkel Home, located
20 at 740 Castro Street, Assessor’s Parcel Block No. 2752, Lot No. 014, is hereby designated as
21 a San Francisco landmark consistent with the standards set forth in Section 1004. Appendix A
22 to Article 10 of the Planning Code is hereby amended to include this property.

23
24 Section 3. Required Data.
25

1 (a) The description, location, and boundary of the landmark site consists of the
2 footprint of the Charles L. Hinkel Home, located on Assessor's Parcel Block No. 2752, Lot No.
3 014, on the west side of Castro Street between 21st Street and 20th Street in San Francisco's
4 Castro/Upper Market neighborhood, as shown in the Landmark Designation Fact Sheet.

5 (b) The characteristics of the landmark that justify its designation are described and
6 shown in the Landmark Designation Fact Sheet and other supporting materials contained in
7 Planning Department Record Docket No. 2026-001897DES. In brief, the Charles L. Hinkel
8 Home, located at 740 Castro Street, is eligible for local designation because it was built
9 by prolific Eureka Valley builder Charles Hinkel as his personal residence. The property is
10 associated with the productive life of Charles Hinkel and his sons, who were prolific home
11 builders in Eureka Valley and San Francisco. Hinkel moved to the Castro Street home in 1892
12 from his earlier home at 280 Divisadero Street, most likely to set up a presence in the
13 neighborhood in conjunction with his building activities there. Hinkel lived in the subject
14 property for seventeen years until his death in 1908 and thus the property is associated with
15 the longest period of Hinkel's productive building career in San Francisco. His wife and
16 children remained in the house until the mid-1920s. The property is an exemplary example of
17 a Stick-Eastlake Home.

18 (c) The particular features that should be preserved, or replaced in kind as determined
19 necessary, are those generally shown in photographs and described in the Landmark
20 Designation Fact Sheet, which can be found in Planning Department Record Docket No.
21 2026-001897DES, and which are incorporated in this designation by reference as though fully
22 set forth herein. This designation does not identify any interior character-defining features.
23 Specifically, the features that are character-defining and shall be preserved or replaced in kind
24 are the exterior elevations, form, massing, structure, rooflines, architectural ornament, and
25 materials of the property identified as:

- 1 (1) Location of the house on the property with front setback and slight front side
- 2 setback at south;
- 3 (2) Two-story height over basement;
- 4 (3) Pitched roof with front facing gable;
- 5 (4) Wood construction;
- 6 (5) Asymmetrical façade and angled front bays;
- 7 (6) First and second story porches with wood balustrades, decorative spindlework,
- 8 wood columns, wagon wheel spokes, and jigsaw corner hoods;
- 9 (7) Angled front stairwell;
- 10 (8) Denticulated moldings and elaborate wooden ornamentation; and
- 11 (9) Wood windows with ogee lugs and leaded glass at front and front wood carved
- 12 door.

13
14 Section 4. Effective Date.

15 This ordinance shall become effective on the 31st day after enactment. Enactment
16 occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or
17 does not sign the ordinance within ten days of receiving it, or the Board of Supervisors
18 overrides the Mayor's veto of the ordinance.

19
20 APPROVED AS TO FORM:
21 DAVID CHIU, City Attorney

RESOLUTION RECOMMENDING TO THE BOARD OF SUPERVISORS LANDMARK DESIGNATION OF THE CHARLES L. HINKEL HOME (740 CASTRO STREET), ASSESSOR'S PARCEL BLOCK NO. 2752, LOT NO. 014, AS LANDMARK NO. XXX CONSISTENT WITH THE PURPOSES AND STANDARDS OF ARTICLE 10.

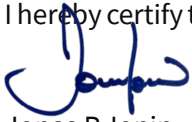

Preamble

1. WHEREAS, at a public hearing on March 3, 2026, the Board of Supervisors voted to adopt Resolution No. 093-26 to initiate Landmark Designation of the Charles L. Hinkel Home (740 Castro Street), Assessor's Parcel Block No. 2752, Lot No. 014; and
2. WHEREAS, Mayor Lurie signed the Resolution on March 6, 2026 and the Clerk of the Board transmitted it to the Planning Department on March 16, 2026; and
3. WHEREAS, Department staff, who meet the Secretary of Interior's Professional Qualification Standards prepared the Landmark Designation Fact Sheet for the Charles L. Hinkel Home which was reviewed for accuracy and conformance with the purposes and standards of Article 10; and

4. WHEREAS, the Historic Preservation Commission, at its regular meeting of May 20, 2026 reviewed Department staff's analysis of the Charles L. Hinkel Home's historical significance pursuant to Article 10 and recommended Landmark designation through this Resolution; and
5. WHEREAS, the Historic Preservation Commission finds that the Landmark designation for the Charles L. Hinkel Home is in the form prescribed by the Historic Preservation Commission and contains supporting historic, architectural, and/or cultural documentation; and
6. WHEREAS, the Historic Preservation Commission finds that the Landmark designation of 740 Castro Street is proper due to its historical association as the Charles L. Hinkel Home; and
7. WHEREAS, the Historic Preservation Commission finds that the Landmark designation of 740 Castro Street is proper for its association with the development of the Eureka Valley neighborhood as for sixteen years it served as the home of prolific builder of merit Charles L. Hinkel who was responsible for much of the neighborhood's homes; and
8. WHEREAS, the Historic Preservation Commission finds that the Landmark designation of 740 Castro Street is proper as the residence was constructed by Charles L. Hinkel to set up a presence in the neighborhood; and
9. WHEREAS, the Historic Preservation Commission finds that the Landmark designation of 740 Castro Street is proper as an exemplary example of a Stick-Eastlake Home with intact features; and
10. WHEREAS, the Historic Preservation Commission finds that the Landmark designation of 740 Castro Street is proper as it retains all aspects of integrity; and
11. WHEREAS, the Historic Preservation Commission finds 740 Castro Street meets the eligibility requirements of Section 1004 of the Planning Code and warrants consideration for Article 10 landmark designation; and
12. WHEREAS, the Historic Preservation Commission finds that the boundaries and the list of character-defining features, as identified in the Landmark Designation Fact Sheet, should be considered for preservation under the proposed landmark designation as they relate to 740 Castro Street's historical significance and retain historical integrity; and
13. WHEREAS, the proposed designation is consistent with the General Plan priority policies pursuant to Planning Code, Section 101.1 and furthers Priority Policy No. 7, which states that landmarks and historic buildings be preserved, and will serve the public necessity, convenience and welfare pursuant to Planning Code, Section 302; and
14. WHEREAS, the Department has determined that landmark designation is exempt from environmental review, pursuant to CEQA Guidelines Section 15308 (Class Eight - Categorical); and now therefore, be it

RESOLVED, that the Historic Preservation Commission hereby recommends to the Board of Supervisors approval of landmark designation of 740 Castro Street (aka Charles L. Hinkel Home), Assessor's Parcel Block No. 2752, Lot No. 014, as a Landmark pursuant to Article 10 of the Planning Code.

I hereby certify that the Historic Preservation Commission **ADOPTED** the foregoing Resolution on May 20, 2026.

Jonas P. Ionin
Commission Secretary

AYES: Cox, Baroni, Foley, Matsuda

NAYS: Baldauf, Vergara

ABSENT: Tsern-Strang

ADOPTED: May 20, 2026

Charles L. Hinkel Home

Period of Significance: 1892-1908

Significance Criteria: 1 (Events), 2 (People), 3 (Architecture)

Statement of Significance: Constructed in 1892 at its present location, 740 Castro Street is significant as the personal residence of prolific builder of merit Charles Hinkel. The property is associated with the productive life of Charles Hinkel and his sons who were prolific home builders in Eureka Valley, know commonly known as the Castro, and San Francisco. Hinkel moved to the Castro Street home in 1892 from his earlier home at 280 Divisadero Street (Article 10 Landmark #190), most likely to set up a presence in the neighborhood in conjunction with his building activities there. Hinkel lived in the subject property for sixteen years until his death in 1908 and thus the property is associated with the longest period of Hinkel's productive building career. His wife and children remained in the house until the mid-1920s.¹ As Hinkel's long term residence, the building is also associated with Eureka Valley history due to Hinkel's contributions to neighborhood residential development. The property includes ornate features and thus is an exemplary example of a Stick-Eastlake Home, the connecting style that facilitated the transition from Gothic Revival architecture to Queen Anne architecture.² The property is the northernmost in a row of Stick-Eastlake properties built by Hinkel around the same time period, though the subject property retains greater integrity than many of the neighboring homes.

Integrity: The subject property retains full integrity. The area around the ground floor garage has been altered from its original condition.

Character Defining Features: All those exterior elevations, form, massing, structure, rooflines, architectural ornament, and materials of the property identified as:

- Location of the house on the property with front setback and slight front side setback at south
- Two-story height over basement
- Pitched roof with front facing gable
- Wood construction
- Asymmetrical façade and angled front bays
- First and second story porches with wood balustrades, decorative spindlework, wood columns, wagon wheel spokes, and jigsaw corner hoods
- Angled front stairwell
- Denticulated moldings and elaborate wooden ornamentation; and
- Wood windows with ogee lugs and leaded glass at front and front wood carved door.

Past Survey(s)/Historic Context Statement(s): Here Today, San Francisco's Architectural Heritage. Text by Roger Olmsted and T. H. Watkins, San Francisco, CA, Chronicle Books, 1968; Elaine B Stiles, Eureka Valley Historic Context Statement, December 2017; San Francisco Planning Department, Architecture, Planning, and Preservation Professionals: A Collection of Biographies, 2023.

Address: 740 Castro Street

Block/Lot(s): 2752/014

Parcel Area: 3,123 square feet

Zoning: RH-2

Year Built: 1892

Builder: Charles L. Hinkel

² San Francisco Planning Department, *Victorian Era Styles (1870-1910)*, 2022
Case No.: 2026-001897DES

731-25
(1880)
Built as a two-family Stick Style home and raised above a new store in 1910, this graceful structure retains its strip detail and Italianate squeezed pediments under a semi-Mansard roof.

802-04
(1885)
A lovely border of scallops containing incised fleur de lys and stained glass window panes distinguish this graceful Stick Style home.

865
(1889)
Numerous graceful carved swirls and pediments that culminate in two squares draw attention to this Stick Style home.

760
(1897)
A rare example of Queen Anne remaining in the Mission, this house was built by Fernando Nelson, contractor and builder, who himself lived in it until 1904-5. A store was probably located in the ground floor now converted into six garages.

711-
713-15
(1897)
Displaying the imagination of builder Fernando Nelson, this structure features tall tiers of slanted and triangular bays. Three identical doors with Eastlake detailing are seen through the ball-fringed portico arch.

712
(1894)
Designed by Charles L. Hinkel, this home is distinguished by its wide paneled door with diamond-shaped window detail, friezes of richly embossed scroll, and leaded, stained glass window panes.

725, 727-
729 and
733
(1898)
Fernando Nelson, who is known for exact duplication in the construction of his homes, was responsible for these three restored Stick-Eastlake homes. One of Nelson's trademarks used here is the doorway panel that is a series of cut-out circles.

40 and
46
(1892)
In a row of five majestic Stick-Eastlake homes, built by Charles L. Hinkel, these remain as good examples of his ornate jigsaw detailing. The Hinkel home at 740 is particularly distinguished by lavish use of spindles.

753
(1903)
This gabled wooden home, built on the site of an old cattle ranch, has rounded corner bay tiers. The entranceway is distinguished by a rounded arch that flows into square pillars.

865-65A,
869, 875
and 879
(1892)

Of this colorfully painted row of Eastlake gabled homes, two retain their graceful spindles and balustrades at the upper and lower porches.

1614,
1616,
1618
(1892)

A row typical of the style of Fernando Nelson, these Stick Style homes are identical in all respects save one: the middle house has a false parapet and gable.

1631
(c. 1880's)

The original iron fence and wooden newel post at one end add charm to this Stick Style home, as does the decorative old door.

Chattanooga Street

104
(1892)

This Stick-Eastlake house's carved wood detailing (garlands, a sunburst) is highlighted by white paint against brown background.

106
(1887)

Built in Stick Style with elaborate stair balustrades and ball-newel posts, this house is partially hidden by a terraced garden, trees, and hedges.

116
(1872)

The narrow, vertical forms of the Italianate are evident on this house. A side port hole window is unique.

118
(c. 1885)

Considerable vertical detailing is apparent on this flat-front Italianate, which is set in a lovely garden.

193-95
and 197-
99
(1890)

Built essentially as Stick-Eastlake mirror twins, these homes feature porticos and second-story porches at the front and side, where lattice work forms pretty arches.

227-29
(c. 1893)

This majestic white house displays small, intricate medallions and nobs on the squared bay tier and on the Eastlake portico, where convoluted, crossed jigsaw pieces form support brackets.

228-30
(c. 1885)

Tall and slender, this Stick Style house is noted for its decorative balustrades, at the steps and above the portico.

280-80A
(1876)

The balanced facade features slanted bay consoles flanking

the simple squeezed portico of this Italianate.

283-5
(c. 1892)

Built in Stick-Eastlake Style, this house retains every original detail. It has been flatteringly painted.

288
(c. 1887)

Beneath a semi-Mansard roof, this little Stick Style house rambles back in tiers, behind a squared bay console, where heavy pilasters stand out in white.

291-91A
(c. 1890)

Original balustrades, newel posts, and portico screw pillars lead up to a weathered facade, where squeezed pediments, sunburst panels, and etched, stained glass are featured.

Chenery Street

32
(c. 1880)

This impeccable flat-front Italianate cottage originally had a rear stable for two horses and two cows. The house has had a new slab door added.

246
(1877)

The simplicity and age of this Italianate cottage make it stand out amid newer, busier homes.

830
(1906)

This cottage is notable for a facade entirely shingled in various patterns, with a row of semi-circular shingles carried across to form a portico border of tiny arches and fringe points.

Cherry Street

15
(1913)

The exterior of this multi-gabled house is of red brick with white grouting. Designed by Houghton Sawyer, the house now serves as the residence of the Consul General of Belgium.

145
(1916)

Hermann Barth designed this house, a copy of a Dutch Colonial home in Salem, Massachusetts. It has a gambrel roof, shuttered windows and a large Palladian window commanding the facade.

237-39
and
249
(1903)

(And 3902 Clay Street). All three of these houses are attractive individual interpretations of Shingle Style. The property of the houses was once one parcel, which was divided up into unequal-sized lots.

The earliest active, identified builder in Eureka Valley was John A. Swenson. He constructed the cross-gable, Stick-style houses at 284 Collingwood (1886-7) and 290 Collingwood (1886-7, Figure 48). Born in Sweden, Swenson listed his profession as carpenter and ship joiner in federal census records. He lodged on Jackson Street in 1880, but by 1900 was living at 234 Collingwood, perhaps another of his projects. By 1910, Swenson had left homebuilding and Eureka Valley, working as a ship joiner elsewhere in the city.¹²⁴

Figure 48. John A. Swenson-built home at 290 Collingwood Street (built 1886-7)

Charles L. Hinkel was a carpenter and builder, and with his three sons, was among San Francisco's most prolific home builders. In the study area, Hinkel's work overlapped with Fernando Nelson's active period. Hinkel constructed the houses at 787 Castro (Queen Anne 2.5-story end gable, altered; 1891), 746 Castro (Two-flat, Queen Anne, altered; 1892, Figure 49), 712 Castro (side hall row house, Queen Anne and Stick; 1894), and 757 Castro (End gable, Queen Anne, 1897). The Hinkel Family lived at 740 Castro, which they constructed in 1892 (End gable, Queen Anne, Figure 49). Signature details of Hinkel houses include rounded architrave window moldings with beveled keystones and bracket and strip architraves at rooflines. Charles Hinkel died sometime between 1900 and 1910, but his sons continued the family building business.¹²⁵

Figure 49. Charles Hinkel House at 740 Castro Street (1892, at far right) and Hinkel-built house at 746 Castro Street (1892, at far left)

Speculative developer Louis Landler constructed a series of 2-story, cross-gable, Queen Anne-style and single-story-over-basement Stick-style houses at 251 (c. 1891), 253-55 (1890), 257 (1890), 259 (1890) Hartford Street. Across Hartford, Landler constructed a group of four small, single-story-over-basement, Stick-style cottages at 262-280 Hartford Street (1891, Figure 50). He constructed a similar Queen Anne-style cottage a block away at 164 Hartford Street (c. 1890) as well as at 4150 20th Street (1892). Landler also constructed two single-family, Stick-style, side hall row houses at 4407 and 4409 18th Street (1892). Landler appears to have been a short-term speculator, and had moved on from San Francisco by 1900.¹²⁶
