MEMORANDUM

---

DATE: March 24, 2022  
TO: Angela Calvillo, Clerk of the Board  
FROM:  Carla Short, Interim Director, San Francisco Public Works  
SUBJECT: Kearny Street Pedestrian Bridge Removal

---

This memo is in response to your request for an estimated cost to remove the pedestrian bridge over Kearny Street, and the party responsible for the cost of removal.

Public Works issued a major encroachment permit in 1970 that was approved by the Board of Supervisors through Resolution No. 238-70. "The permission granted by this resolution was a revocable license. The permittee, their heirs or assigns, will remove or cause to be removed the encroachment permitted by said resolution and all materials used in connection with its construction without expense to the City and County of San Francisco, and shall restore the area to a condition satisfactory to the Department of Public Works." It is, therefore, Publics Works' determination that the permittee must bear all the costs of removal.

The memo from the Clerk of the Board also requested a cost estimate for removal of the bridge. Please see the attached report for the cost estimate of \$1,416,800.00, which does not include design and construction management costs, or traffic control, estimated to be approximately 50% of the project cost, bringing the total to \$2,125,200.
