PROJECT SPONSOR: 630 Natoma Street LLC c/o Herzig and Berlese

APPELLANT: Sofia Rillanos, 632-A Natoma Street

INTRODUCTION:

On January 10, 2019, an appeal of the Tentative Approval of the three-unit New Construction Condominium Conversion at 630 Natoma Street was filed. In reviewing the appeal, the Planning Department has found that the one issues raised by the appellants falls under the purview of the Planning Department.

PROJECT DESCRIPTION:

The proposal is a request for Condominium Conversion, pursuant to the California Subdivision Map Act and the San Francisco Subdivision Code, of a new building with three dwelling units at 630 Natoma Street. Requests for Condominium Conversion are under the jurisdiction of the Department of Public Works but are referred to the Planning Department to ensure that the request complies with all applicable requirements of the Planning Code and the goals and objectives of the General Plan.

APPELLANT ISSUES AND PLANNING DEPARTMENT CLARIFICATIONS:

ISSUE #1: The appellant is protesting the condominium conversion based on the lack of openings for sunshine and/or ventilation between her building and the subject building.

RESPONSE #1: Issues related light and ventilation impacts on adjacent properties are considered during the entitlement process, not during the subdivision process.

On March 10, 2016, the Applicant submitted an application to demolish an existing one-story industrial building and to construct a new four-story residential building with three dwelling units and two off-street parking spaces. As required by the Planning Code¹, a 30-day Neighborhood Notice was sent out for the proposed demolition and new construction on May 31, 2016. The Appellant was included on the mailing list for this notification. The noticing period expired on June 29, 2016 and no requests for Discretionary Review were filed.

During the notification period, the Appellant had the opportunity to file a Discretionary Review to bring this project before the Planning Commission. The Commission could have used its discretionary review powers to modify or deny the proposed plans. Discretionary Review cannot be filed on a project after the notification process has ended or after the permit has left the Planning Department.

The Applicant also submitted Variance application for a rear yard Variance on September 3, 2015. The Zoning Administrator heard this variance on March 23, 2016 and approved the application with standard conditions. The Variance hearing also required a mailed notice, which is sent out to all property owners within 300 feet of the subject property 20 days prior to the hearing. The Appellant was also on this mailing list. Further, at the time, Variance hearings required a large posted to be posted on the subject site 10 days² prior to the Variance hearing. The sign-in sheet from the Variance hearing shows that no one showed up to protest the requested Variance.

The Appellant had the opportunity to raise any concerns regarding light and ventilation impacts to her property during the entitlement process and chose not to do so. With the project approved and under construction, the period to appeal the project to the Planning Commission or to appeal the issuance of the permit by DBI to the Board of Appeals has expired.

¹ Planning Code Section 312

² This 10-day period has since been changed to a 20-day period.

GENERAL INFORMATION ABOUT PROCEDURES

Reduced copies of the proposed project plans have been included in this mailing for your information. If you have questions about the plans, please contact the project Applicant listed on the front of this notice. You may wish to discuss the plans with your neighbors or neighborhood association, as they may already be aware of the project. If you have general questions about the Planning Department's review process, please contact the Planning Information Center at 1660 Mission Street, 1st Floor (415/ 558-6377) between 8:00am - 5:00pm Monday-Friday. If you have specific questions about the proposed project, you should contact the planner listed on the front of this notice.

If you believe that the impact on you from the proposed project is significant and you wish to seek to change the project, there are several procedures you may use. **We strongly urge that steps 1 and 2 be taken.**

1. Request a meeting with the project Applicant to get more information and to explain the project's impact on you.
2. Contact the nonprofit organization Community Boards at (415) 920-3820, or online at www.communityboards.org for a facilitated discussion in a safe and collaborative environment. Community Boards acts as a neutral third party and has, on many occasions, helped reach mutually agreeable solutions.
3. Where you have attempted, through the use of the above steps or other means, to address potential problems without success, please contact the planner listed on the front of this notice to discuss your concerns.

If, after exhausting the procedures outlined above, you still believe that exceptional and extraordinary circumstances exist, you have the option to request that the Planning Commission exercise its discretionary powers to review the project. These powers are reserved for use in exceptional and extraordinary circumstances for projects which generally conflict with the City's General Plan and the Priority Policies of the Planning Code; therefore the Commission exercises its discretion with utmost restraint. This procedure is called Discretionary Review. If you believe the project warrants Discretionary Review by the Planning Commission, **you must file a Discretionary Review application prior to the Expiration Date shown on the front of this notice.** Discretionary Review applications are available at the Planning Information Center (PIC), 1660 Mission Street, 1st Floor, or online at www.sfplanning.org. You must submit the application in person at the Planning Information Center (PIC) between 8:00am - 5:00pm Monday-Friday, with all required materials and a check payable to the Planning Department. To determine the fee for a Discretionary Review, please refer to the Planning Department Fee Schedule available at www.sfplanning.org. If the project includes multiple building permits, i.e. demolition and new construction, a **separate request for Discretionary Review must be submitted, with all required materials and fee, for each permit that you feel will have an impact on you.**

Incomplete applications will not be accepted.

If no Discretionary Review Applications have been filed within the Notification Period, the Planning Department will approve the application and forward it to the Department of Building Inspection for its review.

BOARD OF APPEALS

An appeal of the Planning Commission's decision on a Discretionary Review case may be made to the **Board of Appeals within 15 calendar days after the building permit is issued** (or denied) by the Department of Building Inspection. Appeals must be submitted in person at the Board's office at 1650 Mission Street, 3rd Floor, Room 304. For further information about appeals to the Board of Appeals, including current fees, contact the Board of Appeals at (415) 575-6880.

ENVIRONMENTAL REVIEW

This project has undergone preliminary review pursuant to California Environmental Quality Act (CEQA). If, as part of this process, the Department's Environmental Review Officer has deemed this project to be exempt from further environmental review, an exemption determination has been prepared and can be obtained through the Exemption Map, on-line, at www.sfplanning.org. An appeal of the decision **to exempt the proposed project from CEQA may be made to the Board of Supervisors within 30 calendar days** after the project approval action identified on the determination. The procedures for filing an appeal of an exemption determination are available from the Clerk of the Board at City Hall, Room 244, or by calling (415) 554-5184.

Under CEQA, in a later court challenge, a litigant may be limited to raising only those issues previously raised at a hearing on the project or in written correspondence delivered to the Board of Supervisors, Planning Commission, Planning Department or other City board, commission or department at, or prior to, such hearing, or as part of the appeal hearing process on the CEQA decision.

WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. **DO NOT** use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** **DO NOT** send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do **NOT** reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

Building Permits Required: Building permits are required for all construction work unless specifically exempt. Exempt work include painting, most floor coverings, glazing repairs (not new windows), minor plaster repairs, fences not over 3 feet high in the front of a lot or 6 feet high at the rear of a lot, and sheds/playhouses with less than 100 square feet of projected roof area. When in doubt please call Technical Services Division at the Department of Building Inspection (415) 558-6205.

Permit Status: The status of all building permits under review or issued may be viewed on our Department of Building Inspection website at <http://services.sfgov.org/dbipts3/>. Permits may be searched by address, block and lot, applicant, authorized agent, permit application number or by browsing a map. This tracking system shows the date of application, a summary of proposed work, plan review actions, date of permit issuance, and other information. Permit status may also be checked by calling Customer Service Division at (415) 558-6088 or by visiting the Public Information Counter on the first floor at 1660 Mission Street, San Francisco, CA.

Going Beyond the Scope of the Permit: Construction or work that is beyond the scope of the work listed on an issued permit requires a separate permit for the additional work. The Department of Building Inspection may issue a Correction Notice or a Notice of Violation for all work exceeding the scope of an issued permit or work done without permits.

Unlawful Residential Demolition: When work under an approved permit for a residential remodel exceeds the scope of that permit, such work may be an "Unlawful Residential Demolition." If that is the case, the penalties are severe, including substantial monetary penalties and a prohibition against building anything but a replacement of the original building for five years per SFBC 103A.3.1. **Do not exceed the scope of an issued permit!**

Penalties: Substantial penalties are imposed for work without permit or for work exceeding the scope of issued permits.

Work Hours and Noise: Normal construction work may proceed from 7:00AM to 8:00PM seven days a week. Evening and night work must be very quiet (no more than 5dB above ambient noise level, which essentially means no perceptible noise). Jackhammers and other impact tools must have mufflers, acoustic shields and shrouds at all times. This is detailed in Police Codes Article 29, Sections 2907 and 2908. For construction noise complaints on private property call for a district building inspector at (415) 558-6570. For construction noise complaints on public property such as streets or sidewalks and for fixed-source noise complaints, such as mechanical equipment, call the San Francisco 311 Customer Service Center (SF311) within San Francisco toll-free at 311. To reach SF311 from outside the city, call (415) 701-2311. For all other noise complaints contact the Police Department (415) 553-0123.

Permit Appeals: All permits may be appealed to the Board of Appeals within 15 (fifteen) calendar days (weekdays and weekends included) from the date of permit issuance. The date of issuance may be checked online at <http://services.sfgov.org/dbipts3/>. For more information, please call the Board of Appeals at (415) 575-6880 or visit their office at 1650 Mission Street, Suite 304, San Francisco, CA 94103.

Complaints: Please have the address of the property in question available. Complaints may be filed anonymously.

- Complaints about work without permits or other complaints related to construction may be filed by calling Inspection Services at (415) 558-6570.
- Complaints regarding disabled access at privately owned buildings may be filed with the Disabled Access Section at (415) 558-6014. Complaints regarding publicly owned facilities please contact The Mayor's Office on Disability at (415) 554-6789.
- Complaints about housing conditions and related concerns may be filed calling Housing Inspection Services at (415) 558-6220.
- Complaints about planning issues, such as illegal uses or violations of conditions of approval, may be filed with Planning Department Enforcement at (415) 575-6863.

Other Permits Required: Most building construction requires additional permits for plumbing, electrical, street use or occupancy, street trees, etc. Most of those permits can be obtained at San Francisco Department of Building Inspection at 1660 Mission Street, San Francisco, CA 94103.

Property Line Disputes: Issues regarding ownership or responsibility for fences, retaining walls, trees, etc. are not in the jurisdiction of the Department of Building Inspection or the Planning Department, but are civil issues to be addressed between property owners. We urge neighbors to work together in resolving the problem.

Which projects are affected?

This ordinance affects all construction and demolition (C&D) projects in San Francisco.

What are the requirements?

By law, all C&D debris material removed from a project must be recycled or reused. No C&D debris can be taken to landfill or put in the garbage.

What are the penalties if someone doesn't comply with the ordinance?

Any person or company found in noncompliance with the ordinance may incur substantial civil and/or criminal penalties, including fines and suspension of their registration.

Where can I find additional information?

Visit SFEEnvironment.org/C&D
or call (415) 355-3700

Construction & Demolition Debris Recovery Ordinance No. 27-06

**NO C&D
MATERIALS TO
LANDFILL.
IT'S THE LAW.**

SF Environment
Our home. Our city. Our planet.
A Department of the City and County of San Francisco

What is Construction and Demolition debris material?

Construction and Demolition (C&D) debris includes building materials and solid waste generated from construction and demolition activities including, but not limited to, asphalt, concrete, brick, rock, soil, lumber, gypsum wallboard, cardboard and other associated packaging, roofing material, ceramic tile, carpeting, fixtures, plastic pipe, metals, tree stumps, and other vegetative matter resulting from land clearing. It does not include food waste, hazardous materials or refuse.

How should this material be handled?

C&D debris material separated by type at the job site (source-separated) for reuse or recycling (such as metal, wood, drywall, cardboard, concrete, etc.) must be taken to a facility that reuses or recycles those materials. The ordinance requires that

all **mixed** C&D debris is transported off-site by a Registered Transporter and taken to a Registered Facility that processes all loads containing mixed C&D debris for recycling.

Are there any exemptions?

Yes. The following do not need to register as transporters:

- Companies hauling only source-separated material
- Property owners removing C&D debris with their own vehicles
- Those who transport less than one cubic yard of C&D debris
- Haulers whose vehicles have no more than two axles and no more than two tires per axle (such as a small pickup truck)

Non-registered transporters & property owners are required to comply with all aspects of the ordinance,

including:

- all C&D debris material is recycled or reused
- no C&D debris is taken to landfill
- all **mixed** C&D debris is taken to a Registered Facility.

What's involved in becoming a Registered Transporter?

A Registered Transporter Application is completed and submitted to the Department of the Environment for review. The applicant must agree to comply with all aspects of registration and the C&D ordinance. There is no charge for registration, and it must be renewed every two years.

How do I find a Registered Transporter or Facility?

For a list of Registered Transporters and Registered Facilities please call (415) 355-3700 or visit: SFEnvironment.org/C&D

Are there special requirements for full demolition of existing structures?

Yes. Full demolition of an existing structure requires that a Demolition Debris Recovery Plan (DDRP) is submitted to and approved by the Department of the Environment before a Full Demolition Permit (Form 6) will be issued by the Department of Building Inspection (DBI).

ADDITIONAL INFORMATION

Pursuant to Article 20 of Chapter 10, Part II of the San Francisco Municipal Code (Public Works Code), certain building permits may be issued only after the permittee analyzes the soil for the presence of hazardous wastes and, where applicable, certifies that it has completed site mitigation. No officer, employee, or agency of the City conducted the soil sampling and analysis, recommended site mitigation measures, conducted the site mitigation or checked or verified the reports submitted or work performed for accuracy, reliability or adherence to protocols. In issuing this permit, neither the city nor any of its officers or employees make any representation that the soil on or about the site is free from the presence of hazardous wastes. Nor does the City's implementation of this process relieve any person from their duties and responsibilities relating to hazardous waste contamination under state and federal law. Neither soil analysis pursuant to Article 20 of Public Works Code nor the issuance of this permit is intended to alter, extinguish, or transfer these responsibilities.

1. Building Permit.
All requests for extension of time must be in writing to Director, Dept. of Building Inspection. Permits are issued subject to Appeal within 15 days to Board of Permit Appeals. Incur no expenses until right of Appeal has lapsed.
2. Demolition Permit.
If Demolition involves Abandonment of Side Sewer Permittee must obtain a Side Sewer Permit . The Side Sewer will then be blocked at the Main Sewer.
3. Permit to Lower Curb/To Excavate in Street or Sidewalk.
Issued to construct Auto Runway as per Article 15, Public Works Code. Excavation should be carried out in accordance with Article 8 of Public Works Code. If issued with Building permit time for completion is same as Building; if issued alone, complete work within 6 months from date of Permit. Void if not started within 6 months.
4. Street Space Permit.
No refuse, excavated materials, concrete or mortar is to be disposed of upon Paved Streets, catch basins or into the City sewer system. No material or equipment shall be left on Roadway of Police Tow-Away Zone during hours when Tow-Away Rule is in force. Gutters and Waterways must be kept clear.
All provisions of Section 724.3 of the Public Works Code are incorporated into this permit by reference.
Street and sidewalk areas occupied must not exceed a width 1/2 the width of the sidewalk plus 1/3 the width of the Roadway fronting.
5. Permit to Repair or Construct Sidewalk.
Handicap Ramps required in vicinity of Crosswalks per plan No.11-33, 982, Ch. 2. Before beginning any work under this permit contact your Area Inspector Tel. 554-5837. Permit valid for 3 months from date issued, unless extension authorized.
Some sidewalks have been constructed over a subsidewalk basement or other below ground structure. Issuance of this permit does not limit, modify, or alter in any way the responsibility of the property owner to ensure that such subsidewalk space complies with the San Francisco Building Code, Electrical Code, Fire Code, Mechanical Code, Plumbing Code, Public Works Code, and other Municipal Codes. In addition, issuance of this permit does not limit the liability of the property owner or his or her agent if work pursuant to this permit or the actions of a third party result in damage to the sidewalk or subsidewalk structure; consequently, permittees proceed at their own risk. The City and County of San Francisco makes no representations that issuance of a sidewalk permit will or will not directly or indirectly affect a subsidewalk structure. The Department of Building Inspection, in conjunction with the Department of Public Works, issues permits to construct or alter subsidewalk spaces separately from a sidewalk permit. Property owners are encouraged to seek the advice of qualified professionals to independently analyze the structural integrity of subsidewalk space and determine whether such space should be improved or modified.
6. Hold Harmless Clause.
The Permittee(s) by acceptance of this permit, agree(s) to indemnify and hold harmless the City and County of San Francisco from and against any and all claims, demands and actions for damages resulting from operations under this permit, regardless of negligence of the City and County of San Francisco, and to assume the defense of the City and County of San Francisco against all such claims, demands and actions.

General Information Regarding Construction in San Francisco

Building Permits Required: Building permits are required for all construction work unless specifically exempt. Exempt work include painting, most floor coverings, glazing repairs (not new windows), minor plaster repairs, fences not over 3 feet high in the front of a lot or 6 feet high at the rear of a lot, and sheds/playhouses with less than 100 square feet of projected roof area. When in doubt please call Technical Services Division at the Department of Building Inspection (415) 558-6205.

Permit Status: The status of all building permits under review or issued may be viewed on our Department of Building Inspection website at <http://services.sfgov.org/dbipts3/>. Permits may be searched by address, block and lot, applicant, authorized agent, permit application number or by browsing a map. This tracking system shows the date of application, a summary of proposed work, plan review actions, date of permit issuance, and other information. Permit status may also be checked by calling Customer Service Division at (415) 558-6088 or by visiting the Public Information Counter on the first floor at 1660 Mission Street, San Francisco, CA.

Going Beyond the Scope of the Permit: Construction or work that is beyond the scope of the work listed on an issued permit requires a separate permit for the additional work. The Department of Building Inspection may issue a Correction Notice or a Notice of Violation for all work exceeding the scope of an issued permit or work done without permits.

Unlawful Residential Demolition: When work under an approved permit for a residential remodel exceeds the scope of that permit, such work may be an "Unlawful Residential Demolition." If that is the case, the penalties are severe, including substantial monetary penalties and a prohibition against building anything but a replacement of the original building for five years per SFBC 103A.3.1. **Do not exceed the scope of an issued permit!**

Penalties: Substantial penalties are imposed for work without permit or for work exceeding the scope of issued permits.

Work Hours and Noise: Normal construction work may proceed from 7:00AM to 8:00PM seven days a week. Evening and night work must be very quiet (no more than 5dB above ambient noise level, which essentially means no perceptible noise). Jackhammers and other impact tools must have mufflers, acoustic shields and shrouds at all times. This is detailed in Police Codes Article 29, Sections 2907 and 2908. For construction noise complaints on private property call for a district building inspector at (415) 558-6570. For construction noise complaints on public property such as streets or sidewalks and for fixed-source noise complaints, such as mechanical equipment, call the San Francisco 311 Customer Service Center (SF311) within San Francisco toll-free at 311. To reach SF311 from outside the city, call (415) 701-2311. For all other noise complaints contact the Police Department (415) 553-0123.

Permit Appeals: All permits may be appealed to the Board of Appeals within 15 (fifteen) calendar days (weekdays and weekends included) from the date of permit issuance. The date of issuance may be checked online at <http://services.sfgov.org/dbipts3/>. For more information, please call the Board of Appeals at (415) 575-6880 or visit their office at 1650 Mission Street, Suite 304, San Francisco, CA 94103.

Complaints: Please have the address of the property in question available. Complaints may be filed anonymously.

- Complaints about work without permits or other complaints related to construction may be filed by calling Inspection Services at (415) 558-6570.
- Complaints regarding disabled access at privately owned buildings may be filed with the Disabled Access Section at (415) 558-6014. Complaints regarding publicly owned facilities please contact The Mayor's Office on Disability at (415) 554-6789.
- Complaints about housing conditions and related concerns may be filed calling Housing Inspection Services at (415) 558-6220.
- Complaints about planning issues, such as illegal uses or violations of conditions of approval, may be filed with Planning Department Enforcement at (415) 575-6863.

Other Permits Required: Most building construction requires additional permits for plumbing, electrical, street use or occupancy, street trees, etc. Most of those permits can be obtained at San Francisco Department of Building Inspection at 1660 Mission Street, San Francisco, CA 94103.

Property Line Disputes: Issues regarding ownership or responsibility for fences, retaining walls, trees, etc. are not in the jurisdiction of the Department of Building Inspection or the Planning Department, but are civil issues to be addressed between property owners. We urge neighbors to work together in resolving the problem.

Frequently Asked Questions

What is Construction and Demolition debris material?

Construction and Demolition (C&D) debris includes building materials and solid waste generated from construction and demolition activities including, but not limited to, asphalt, concrete, brick, rock, soil, lumber, gypsum wallboard, cardboard and other associated packaging, roofing material, ceramic tile, carpeting, fixtures, plastic pipe, metals, tree stumps, and other vegetative matter resulting from land clearing. It does not include food waste, hazardous materials or refuse.

How should this material be handled?

C&D debris material separated by type at the job site (source-separated) for reuse or recycling (such as metal, wood, drywall, cardboard, concrete, etc.) must be taken to a facility that reuses or recycles those materials. The ordinance requires that

all **mixed** C&D debris is transported off-site by a Registered Transporter and taken to a Registered Facility that processes all loads containing mixed C&D debris for recycling.

Are there any exemptions?

Yes. The following do not need to register as transporters:

- Companies hauling only source-separated material
- Property owners removing C&D debris with their own vehicles
- Those who transport less than one cubic yard of C&D debris
- Haulers whose vehicles have no more than two axles and no more than two tires per axle (such as a small pickup truck)

Non-registered transporters & property owners are required to comply with all aspects of the ordinance,

including:

- all C&D debris material is recycled or reused
- no C&D debris is taken to landfill
- all **mixed** C&D debris is taken to a Registered Facility.

What's involved in becoming a Registered Transporter?

A Registered Transporter Application is completed and submitted to the Department of the Environment for review. The applicant must agree to comply with all aspects of registration and the C&D ordinance. There is no charge for registration, and it must be renewed every two years.

How do I find a Registered Transporter or Facility?

For a list of Registered Transporters and Registered Facilities please call (415) 355-3700 or visit: SFEEnvironment.org/C&D

Are there special requirements for full demolition of existing structures?

Yes. Full demolition of an existing structure requires that a Demolition Debris Recovery Plan (DDRP) is submitted to and approved by the Department of the Environment before a Full Demolition Permit (Form 6) will be issued by the Department of Building Inspection (DBI).

ADDITIONAL INFORMATION

Pursuant to Article 20 of Chapter 10, Part II of the San Francisco Municipal Code (Public Works Code), certain building permits may be issued only after the permittee analyzes the soil for the presence of hazardous wastes and, where applicable, certifies that it has completed site mitigation. No officer, employee, or agency of the City conducted the soil sampling and analysis, recommended site mitigation measures, conducted the site mitigation or checked or verified the reports submitted or work performed for accuracy, reliability or adherence to protocols. In issuing this permit, neither the city nor any of its officers or employees make any representation that the soil on or about the site is free from the presence of hazardous wastes. Nor does the City's implementation of this process relieve any person from their duties and responsibilities relating to hazardous waste contamination under state and federal law. Neither soil analysis pursuant to Article 20 of Public Works Code nor the issuance of this permit is intended to alter, extinguish, or transfer these responsibilities.

1. Building Permit.
All requests for extension of time must be in writing to Director, Dept. of Building Inspection. Permits are issued subject to Appeal within 15 days to Board of Permit Appeals. Incur no expenses until right of Appeal has lapsed.
2. Demolition Permit.
If Demolition involves Abandonment of Side Sewer Permittee must obtain a Side Sewer Permit . The Side Sewer will then be blocked at the Main Sewer.
3. Permit to Lower Curb/To Excavate in Street or Sidewalk.
Issued to construct Auto Runway as per Article 15, Public Works Code. Excavation should be carried out in accordance with Article 8 of Public Works Code. If issued with Building permit time for completion is same as Building; if issued alone, complete work within 6 months from date of Permit. Void if not started within 6 months.
4. Street Space Permit.
No refuse, excavated materials, concrete or mortar is to be disposed of upon Paved Streets, catch basins or into the City sewer system. No material or equipment shall be left on Roadway of Police Tow-Away Zone during hours when Tow-Away Rule is in force. Gutters and Waterways must be kept clear.
All provisions of Section 724.3 of the Public Works Code are incorporated into this permit by reference.
Street and sidewalk areas occupied must not exceed a width 1/2 the width of the sidewalk plus 1/3 the width of the Roadway fronting.
5. Permit to Repair or Construct Sidewalk.
Handicap Ramps required in vicinity of Crosswalks per plan No.11-33, 982, Ch. 2. Before beginning any work under this permit contact your Area Inspector Tel. 554-5837. Permit valid for 3 months from date issued, unless extension authorized.
Some sidewalks have been constructed over a subsidewalk basement or other below ground structure. Issuance of this permit does not limit, modify, or alter in any way the responsibility of the property owner to ensure that such subsidewalk space complies with the San Francisco Building Code, Electrical Code, Fire Code, Mechanical Code, Plumbing Code, Public Works Code, and other Municipal Codes. In addition, issuance of this permit does not limit the liability of the property owner or his or her agent if work pursuant to this permit or the actions of a third party result in damage to the sidewalk or subsidewalk structure; consequently, permittees proceed at their own risk. The City and County of San Francisco makes no representations that issuance of a sidewalk permit will or will not directly or indirectly affect a subsidewalk structure. The Department of Building Inspection, in conjunction with the Department of Public Works, issues permits to construct or alter subsidewalk spaces separately from a sidewalk permit. Property owners are encouraged to seek the advice of qualified professionals to independently analyze the structural integrity of subsidewalk space and determine whether such space should be improved or modified.
6. Hold Harmless Clause.
The Permittee(s) by acceptance of this permit, agree(s) to indemnify and hold harmless the City and County of San Francisco from and against any and all claims, demands and actions for damages resulting from operations under this permit, regardless of negligence of the City and County of San Francisco, and to assume the defense of the City and County of San Francisco against all such claims, demands and actions.

General Information Regarding Construction in San Francisco

Building Permits Required: Building permits are required for all construction work unless specifically exempt. Exempt work include painting, most floor coverings, glazing repairs (not new windows), minor plaster repairs, fences not over 3 feet high in the front of a lot or 6 feet high at the rear of a lot, and sheds/playhouses with less than 100 square feet of projected roof area. When in doubt please call Technical Services Division at the Department of Building Inspection (415) 558-6205.

Permit Status: The status of all building permits under review or issued may be viewed on our Department of Building Inspection website at <http://services.sfgov.org/dbipts3/>. Permits may be searched by address, block and lot, applicant, authorized agent, permit application number or by browsing a map. This tracking system shows the date of application, a summary of proposed work, plan review actions, date of permit issuance, and other information. Permit status may also be checked by calling Customer Service Division at (415) 558-6088 or by visiting the Public Information Counter on the first floor at 1660 Mission Street, San Francisco, CA.

Going Beyond the Scope of the Permit: Construction or work that is beyond the scope of the work listed on an issued permit requires a separate permit for the additional work. The Department of Building Inspection may issue a Correction Notice or a Notice of Violation for all work exceeding the scope of an issued permit or work done without permits.

Unlawful Residential Demolition: When work under an approved permit for a residential remodel exceeds the scope of that permit, such work may be an "Unlawful Residential Demolition." If that is the case, the penalties are severe, including substantial monetary penalties and a prohibition against building anything but a replacement of the original building for five years per SFBC 103A.3.1. **Do not exceed the scope of an issued permit!**

Penalties: Substantial penalties are imposed for work without permit or for work exceeding the scope of issued permits.

Work Hours and Noise: Normal construction work may proceed from 7:00AM to 8:00PM seven days a week. Evening and night work must be very quiet (no more than 5dB above ambient noise level, which essentially means no perceptible noise). Jackhammers and other impact tools must have mufflers, acoustic shields and shrouds at all times. This is detailed in Police Codes Article 29, Sections 2907 and 2908. For construction noise complaints on private property call for a district building inspector at (415) 558-6570. For construction noise complaints on public property such as streets or sidewalks and for fixed-source noise complaints, such as mechanical equipment, call the San Francisco 311 Customer Service Center (SF311) within San Francisco toll-free at 311. To reach SF311 from outside the city, call (415) 701-2311. For all other noise complaints contact the Police Department (415) 553-0123.

Permit Appeals: All permits may be appealed to the Board of Appeals within 15 (fifteen) calendar days (weekdays and weekends included) from the date of permit issuance. The date of issuance may be checked online at <http://services.sfgov.org/dbipts3/>. For more information, please call the Board of Appeals at (415) 575-6880 or visit their office at 1650 Mission Street, Suite 304, San Francisco, CA 94103.

Complaints: Please have the address of the property in question available. Complaints may be filed anonymously.

- Complaints about work without permits or other complaints related to construction may be filed by calling Inspection Services at (415) 558-6570.
- Complaints regarding disabled access at privately owned buildings may be filed with the Disabled Access Section at (415) 558-6014. Complaints regarding publicly owned facilities please contact The Mayor's Office on Disability at (415) 554-6789.
- Complaints about housing conditions and related concerns may be filed calling Housing Inspection Services at (415) 558-6220.
- Complaints about planning issues, such as illegal uses or violations of conditions of approval, may be filed with Planning Department Enforcement at (415) 575-6863.

Other Permits Required: Most building construction requires additional permits for plumbing, electrical, street use or occupancy, street trees, etc. Most of those permits can be obtained at San Francisco Department of Building Inspection at 1660 Mission Street, San Francisco, CA 94103.

Property Line Disputes: Issues regarding ownership or responsibility for fences, retaining walls, trees, etc. are not in the jurisdiction of the Department of Building Inspection or the Planning Department, but are civil issues to be addressed between property owners. We urge neighbors to work together in resolving the problem.

Construction & Demolition Debris Recovery

Ordinance No. 27-06

**NO C&D
MATERIALS TO
LANDFILL.
IT'S THE LAW.**

SF Environment
Our home. Our city. Our planet.
A Department of the City and County of San Francisco

Frequently Asked Questions

What is Construction and Demolition debris material?

Construction and Demolition (C&D) debris includes building materials and solid waste generated from construction and demolition activities including, but not limited to, asphalt, concrete, brick, rock, soil, lumber, gypsum wallboard, cardboard and other associated packaging, roofing material, ceramic tile, carpeting, fixtures, plastic pipe, metals, tree stumps, and other vegetative matter resulting from land clearing. It does not include food waste, hazardous materials or refuse.

How should this material be handled?

C&D debris material separated by type at the job site (source-separated) for reuse or recycling (such as metal, wood, drywall, cardboard, concrete, etc.) must be taken to a facility that reuses or recycles those materials. The ordinance requires that

all **mixed** C&D debris is transported off-site by a Registered Transporter and taken to a Registered Facility that processes all loads containing mixed C&D debris for recycling.

Are there any exemptions?

Yes. The following do not need to register as transporters:

- Companies hauling only source-separated material
- Property owners removing C&D debris with their own vehicles
- Those who transport less than one cubic yard of C&D debris
- Haulers whose vehicles have no more than two axles and no more than two tires per axle (such as a small pickup truck)

Non-registered transporters & property owners are required to comply with all aspects of the ordinance,

- including:
- all C&D debris material is recycled or reused
 - no C&D debris is taken to landfill
 - all **mixed** C&D debris is taken to a Registered Facility.

What's involved in becoming a Registered Transporter?

A Registered Transporter Application is completed and submitted to the Department of the Environment for review. The applicant must agree to comply with all aspects of registration and the C&D ordinance. There is no charge for registration, and it must be renewed every two years.

How do I find a Registered Transporter or Facility?

For a list of Registered Transporters and Registered Facilities please call (415) 355-3700 or visit: SFEEnvironment.org/C&D

Are there special requirements for full demolition of existing structures?

Yes. Full demolition of an existing structure requires that a Demolition Debris Recovery Plan (DDRP) is submitted to and approved by the Department of the Environment before a Full Demolition Permit (Form 6) will be issued by the Department of Building Inspection (DBI).

NOTICE OF SPECIAL RESTRICTIONS UNDER THE PLANNING CODE

I, (We) LUCAS O STICKNEY, the owner(s) of that certain real property situated in the City and County of San Francisco, State of California more particularly described as follows: (or see attached sheet marked "Exhibit A" on which property is more fully described):
SEE EXHIBIT A ATTACHED

BEING ASSESSOR'S BLOCK: 3727, LOT(S): 049;
COMMONLY KNOWN AS: 630 Natoma Street;

hereby give notice that there are special restrictions on the use of said property under Part II, Chapter II of the San Francisco Municipal Code (Planning Code).

Said Restrictions consist of conditions attached to a variance granted by the Zoning Administrator of the City and County of San Francisco on May 31, 2016 (Case No. 2015-009485VAR) permitting to include demolition of the existing one-story industrial building (measuring 2,620 square feet) and the new construction of a four-story residential building with three dwelling units (7,700 square feet) and two off-street parking spaces.

NOTICE OF SPECIAL RESTRICTIONS UNDER THE PLANNING CODE

The restrictions and conditions of which notice is hereby given are

1. Any future physical expansion, even in the buildable area, shall be reviewed by the Zoning Administrator to determine if the expansion is compatible with existing neighborhood character and scale. If the Zoning Administrator determines that there would be a significant or extraordinary impact, the Zoning Administrator shall require either notice to adjacent and/or affected property owners or a new Variance application be sought and justified.
2. The proposed project must meet these conditions and all applicable City Codes. In case of conflict, the more restrictive controls apply.
3. Minor modifications as determined by the Zoning Administrator may be permitted.
4. The owner of the subject property shall record on the land records of the City and County of San Francisco the conditions attached to this Variance decision as a Notice of Special Restrictions in a form approved by the Zoning Administrator
5. This Variance Decision and the recorded Notice of Special Restrictions shall be reproduced on the Index Sheet of the construction plans submitted with the Site or Building Permit Application for the Project. This Index Sheet of the construction plans shall reference the Variance Case Number

The use of said property contrary to these special restrictions shall constitute a violation of the Planning Code, and no release, modification or elimination of these restrictions shall be valid unless notice thereof is recorded on the Land Records by the Zoning Administrator of the City and County of San Francisco; except that in the event that the zoning standards above are modified so as to be less restrictive and the uses therein restricted are thereby permitted and in conformity with the provisions of the Planning Code. This document would no longer be in effect and would be null and void.

NOTICE OF SPECIAL RESTRICTIONS UNDER THE PLANNING CODE

I, (We) LUCAS O STICKNEY, the owner(s) of that certain real property situated in the City and County of San Francisco, State of California more particularly described as follows: (or see attached sheet marked "Exhibit A" on which property is more fully described):
SEE EXHIBIT A ATTACHED

BEING ASSESSOR'S BLOCK: 3727, LOT(S): 049;
COMMONLY KNOWN AS: 630 Natoma Street;

hereby give notice that there are special restrictions on the use of said property under Part II, Chapter II of the San Francisco Municipal Code (Planning Code).

Said Restrictions consist of conditions attached to a variance granted by the Zoning Administrator of the City and County of San Francisco on May 31, 2016 (Case No. 2015-009485VAR) permitting to include demolition of the existing one-story industrial building (measuring 2,620 square feet) and the new construction of a four-story residential building with three dwelling units (7,700 square feet) and two off-street parking spaces.

NOTICE OF SPECIAL RESTRICTIONS UNDER THE PLANNING CODE

The restrictions and conditions of which notice is hereby given are

1. Any future physical expansion, even in the buildable area, shall be reviewed by the Zoning Administrator to determine if the expansion is compatible with existing neighborhood character and scale. If the Zoning Administrator determines that there would be a significant or extraordinary impact, the Zoning Administrator shall require either notice to adjacent and/or affected property owners or a new Variance application be sought and justified.
2. The proposed project must meet these conditions and all applicable City Codes. In case of conflict, the more restrictive controls apply.
3. Minor modifications as determined by the Zoning Administrator may be permitted.
4. The owner of the subject property shall record on the land records of the City and County of San Francisco the conditions attached to this Variance decision as a Notice of Special Restrictions in a form approved by the Zoning Administrator
5. This Variance Decision and the recorded Notice of Special Restrictions shall be reproduced on the Index Sheet of the construction plans submitted with the Site or Building Permit Application for the Project. This Index Sheet of the construction plans shall reference the Variance Case Number

The use of said property contrary to these special restrictions shall constitute a violation of the Planning Code, and no release, modification or elimination of these restrictions shall be valid unless notice thereof is recorded on the Land Records by the Zoning Administrator of the City and County of San Francisco; except that in the event that the zoning standards above are modified so as to be less restrictive and the uses therein restricted are thereby permitted and in conformity with the provisions of the Planning Code. This document would no longer be in effect and would be null and void.

EIGHT PRIORITY GENERAL PLAN POLICIES

As a result of the passage of Proposition M (Section 101.1 of the San Francisco Planning Code), findings that demonstrate consistency with the eight priority policies of Section 101.1 must be presented to the Department of City Planning as part of your project application review for general conformity with San Francisco's General Plan.

Photographs of the subject property are required for priority policy review and must be submitted as part of the application.

INSTRUCTIONS TO APPLICANTS: Please present information in detail about how your application relates to each of the eight priority policies listed below. The application will be found to be incomplete if the responses are not thorough. Use a separate document and attach if more space is needed.

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

neighborhood-serving retail uses will be increased, decreased or affected by the subdivision.

The proposal will have no effect on existing housing and neighborhood character because neither the
appearance nor the use of the property will change.

4. That commuter traffic not impede Muni transit service or overburden our streets or neighborhood parking;

The proposal will have no effect on Muni transit service, traffic or parking because it will not generate new commuter traffic.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

The proposal does not involve commercial office development and will have no effect on future opportunities for resident employment and ownership in our industrial and service sectors.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposal will have no effect on earthquake preparedness because the subdivision will not alter the physical characteristics of the property.

7. That landmarks and historic buildings be preserved; and

The proposal does not involve any changes to existing buildings.

8. That our parks and open space and their access to sunlight and vistas be protected from development.

Inquire before you wire!

WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. **DO NOT** use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** **DO NOT** send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do **NOT** reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.
