## Charter Exempt Positions

<b>Charter Section 10.104 - Exclusions From Civil Service Appointment</b>	
<b>Code</b>	<b>Description of Exemption</b>
(1)	Supervisory and policy-level positions within the office of the Mayor and the office of the City Administrator.
(2)	Elected officers of the City and County and their chief deputies or chief assistants.
(3)	Members of commissions, boards and advisory committees.
(4)	Commission/Board secretary.
(5)	Heads of agencies and departments.
(6)	Non-uniformed deputy heads of departments.
(7)	Uniformed deputy heads of departments, police commanders and Fire Chief's aides.
(8)	Confidential secretary and executive assistant within a department or agency.
(9)	The Clerk of the Board of Supervisors, legislative analyst and assistants to the members of the Board of Supervisors.
(10)	Paraprofessional aides of the Unified School District and teaching instructional aides of the Community College District.
(11)	Persons employed in positions outside the City and County upon construction work being performed by the City and County when such positions are exempted from the classified civil service by an order of the civil service commission.
(12)	Persons employed in positions in any department for expert professional temporary services, when such positions are exempted from said classified civil service for a specified period of said temporary service by order of the civil service commission.
(13)	All attorneys, including an attorney to the Sheriff and an attorney for the Tax Collector, City Attorney's and District Attorney's investigators, hospital chief administrators, physicians and dentists serving in their professional capacity (except those physicians and dentists whose duties are significantly administrative or supervisory).
(14)	Positions designated as exempt under the 1932 charter, as amended.
(15)	Positions determined by the Controller and approved annually by the Board of Supervisors to be positions where the work or services can be practically performed under private contract at a lesser cost than similar work performed by employees of the City and County, except where such work or services are required to be formed by officers or employees of the City and County under the provisions of this Charter or other applicable law.
(16)	Temporary and seasonal appointments not to exceed the equivalent of half-time during any fiscal year, except that such positions may be filled through regular civil service procedures.
(17)	Appointments, which shall not exceed two years and shall not be renewable, as substitutes for civil service employees on leave, except that such positions may be filled through regular Civil Service procedures.
(18)	Appointments, which shall not exceed three years and shall not be renewable, for special projects and professional services with limited term funding, except that such positions may be filled through regular Civil Service Commission procedures.
(19)	Entry level positions designated by an appointing officer with approval of the Civil Service Commission for persons who met minimum qualifications and are certified as blind or severely disabled; persons so appointed whose job performance is rated satisfactory by their appointing officer shall after one year of continuous service acquire Civil Service status.

**NOTES TO POSITION COUNT DETAIL AND APPENDIX**

NOTE

A. PAY RATES

Certain pay rates included in this document may not reflect year-end rates due to negotiated wage settlements and arbitration awards that have not received final legislative action. If you have a question regarding a rate of pay for a specific classification, please consult the Department of Human Resources Compensation Manual online at <http://www.sfgov.org/dhr>, or contact the Department of Human Resources' Compensation Program at (415) 557-4990.

B. EXEMPT POSITIONS

The appendix lists the different types of Charter exemptions per Charter Section 10.104 and then identifies all exempt positions with approved requisitions by department per Charter Section 10.104 (1-14). These exempt positions are subject to change during the fiscal year. All Commissioners and Board Members are exempt pursuant to Charter section 10.104-3, but are not included as positions and are not detailed in the budget.

C. POSITION COUNT

Total position counts include off-budget positions.

Chair, Budget and Appropriations Committee  
Board of Supervisors, City and County of San Francisco  
City Hall, 1 Dr. Carlton B. Goodlett Place  
San Francisco, CA 94102

**Re: Technical adjustments to the Mayor's Proposed May 1 Budget**

Dear Chair Chan,

Per Charter Section 9.101, the Mayor's Office hereby submits the following technical adjustments to the Mayor's Proposed May 1 Budget for FY 2024-25 and FY 2025-26. The May 1 budget is now part of the June 1 Mayor's proposed budget, however, since the Board of Supervisors has already reviewed these budgets, attached is a summary of the changes to these departments since the May 1 submission.

These adjustments include:

- Changes to salary and fringe benefits due to final agreed-upon adjustments in recently negotiated MOUs;
- Significant changes to the MTA baseline, based on updated revenue projections from the Controller's Office;
- New capital projects as approved by the Capital Planning Committee;
- Changes to work orders to reflect accurate service level needs and costs;
- Balancing entries and transfers;
- Other small miscellaneous expenditure changes.

Please contact me with any questions or concerns.

Sincerely,

A handwritten signature in blue ink, appearing to read "Anna Duning".

Anna Duning  
Mayor's Budget Director

cc: Members of the Budget and Appropriations Committee  
Budget & Legislative Analyst's Office  
Controller

Handwritten notes in blue ink: "LONDON BREED" and "MAY 31 2024".

**YEAR ONE: FY 2024-25**

Budget Changes

The Department’s \$2,063,494,559 budget for FY 2024-25, as proposed by the Mayor, is \$758,064,989 or 58.1% more than the original FY 2023-24 budget of \$1,305,429,570.

Personnel Changes

The number of full-time equivalent positions (FTE) budgeted for FY 2024-25 are 1,798.92 FTEs, which are 117.29 FTEs more than the 1,681.63 FTEs in the original FY 2023-24 budget. This represents a 7% increase in FTEs from the original FY 2023-24 budget.

Revenue Changes

The Department's revenues of \$2,063,494,559 in FY 2024-25 are \$758,064,989 or 58.1% more than FY 2023-24 revenues of \$1,305,429,570.

**YEAR TWO: FY 2025-26**

Budget Changes

The Department’s \$1,797,913,884 budget for FY 2025-26, as proposed by the Mayor, is \$265,580,675 or 12.9% less than the Mayor’s proposed FY 2024-25 budget of \$2,063,494,559.

Personnel Changes

The number of full-time equivalent positions (FTE) budgeted for FY 2025-26 are 1,818.24 FTEs, which are 19.32 FTEs more than the 1,798.92 FTEs in the Mayor’s proposed FY 2024-25 budget. This represents a 1.1% increase in FTEs from the Mayor’s proposed FY 2024-25 budget.

Revenue Changes

The Department's revenues of \$1,797,913,884 in FY 2025-26 are \$265,580,675 or 12.9% less than FY 2024-25 estimated revenues of \$2,063,494,559.

FY 2024-25 AND FY 2025-26**

**DEPARTMENT:** AIR – AIRPORT COMMISSION

**SUMMARY OF 5-YEAR HISTORICAL & PROPOSED BUDGET YEAR EXPENDITURES AND FTE AUTHORITY:**

	<b>FY 2020-21 Budget</b>	<b>FY 2021-22 Budget</b>	<b>FY 2022-23 Budget</b>	<b>FY 2023-24 Budget</b>	<b>FY 2024-25 Proposed</b>
Airport Commission	1,465,583,462	1,174,898,869	1,157,030,092	1,305,429,570	2,063,494,559
FTE Count	1,609.69	1,601.49	1,587.17	1,681.63	1,798.92

The Department’s budget increased by \$597,911,097 or 40.8% from the adopted budget in FY 2020-21 to the Mayor’s proposed budget in FY 2024-25. The Department’s FTE count increased by 189.23 or 11.8% from the adopted budget in FY 2020-21 to the proposed budget in FY 2024-25.

**FY 2024-25**

The Mayor’s proposed FY 2024-25 budget for the Department has increased by \$758,064,989 largely due to the Airport’s projection that passenger levels will reach and exceed pre-pandemic levels over the two year budget cycle. This increase is largely driven by an increase in capital outlay and non-personnel costs.

**FY 2025-26**

The Mayor’s proposed FY 2025-26 budget for the Department has decreased by \$265,580,675 largely due to the Airport’s focus on investing in its operations and growth in FY 2024-25. The decrease is largely reflected in decreases in capital outlay from the previous year.

**RECOMMENDATIONS OF THE BUDGET & LEGISLATIVE ANALYST  
FOR AMENDMENT OF BUDGET ITEMS  
FY 2024-25 AND FY 2025-26**

**DEPARTMENT:** AIR – AIRPORT COMMISSION

Advertising Budget

The Department’s original FY 2023-24 budget includes \$316,014 budgeted for advertising. The entirety of this amount is allocated to what the department describes as mixed media.

The Mayor’s proposed budget for the Department for FY 2024-25 includes \$326,364 for advertising. The entirety of this amount is allocated to what the department describes as mixed media.

The Department states it does not budget specifically for advertising in languages other than English.

A list of contracts held by the Department for advertising is included as an attachment to this report.

Budget Reductions

The Department reports that the Mayor proposed \$426,181,736 in reductions in FY 2024-25, but that there were no service reduction impacts from the Mayor’s proposed reductions.

**RECOMMENDATIONS**

**YEAR ONE: FY 2024-25**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$7,768,711 in FY 2024-25. All the \$7,768,711 in recommended reductions are one-time savings. These reductions would still allow an increase of \$750,296,278 or 57.5% in the Department’s FY 2024-25 budget.

In addition, the Budget and Legislative Analyst recommends closing out prior year unexpended encumbrances of \$7,251,104.

**YEAR TWO: FY 2025-26**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$680,900 in FY 2025-26. All the \$680,900 in recommended reductions are one-time savings.

	Deny 3 requested new compact SUVs and 1 requested new pickup for Facilities as all four requested vehicles are categorized as "low priority" by the Department. This recommendation would still allow for 5 new pickups and 2 new compact SUVs to be added to the fleet in FY 2024-25.							Delete 2 requested replacement pickup vehicles and 7 requested replacement compact SUVs. The Department can utilize existing vehicles that still have more years of useful life.  The existing pick up vehicles have only been driven between 50k-55k miles in 3 years. Denial of these replacements would still allow the Airport Facilities Division to replace 20 pickup vehicles over FY 2024-25 and FY 2025-26.  The existing compact SUVs have only been driven between 6k-48k miles in 5-6 years. Elimination of these vehicles would still allow the Airport Facilities Division to replace 21 compact SUVs over FY 2024-25 and FY 2025-26.

**RECOMMENDATIONS**

**YEAR ONE: FY 2024-25**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$50,000 in FY 2024-25. All of the \$50,000 in recommended reductions are ongoing savings. These reductions would still allow an increase of \$1,594,969 or 1.9% in the Department’s FY 2024-25 budget.

Our policy recommendation totals \$44,637 in FY 2024-25, all of which are ongoing.

**YEAR TWO: FY 2025-26**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$50,000 in FY 2025-26. All of the \$50,000 in recommended reductions are ongoing savings. These reductions would still allow an increase of \$3,838,881 or 4.4% in the Department’s FY 2025-26 budget.

Our policy recommendation totals \$46,353 in FY 2025-26, all of which are ongoing.

		Approval of proposed upward substitution of 1.0 FTE 1555 Secretary, Building Inspection to 1.0 FTE 0922 Manager I is a policy matter for the Board to consider. The Department states that there is a need for this upward substitution because of the addition of expanded duties, such as managing the Commission's subcommittees. However, the Department of Environment and Juvenile Probation Commissions also have similarly classed Secretary positions (1543 Secretary, Commission on the Environment and 1549 Secretary, Juvenile Probation Commission) that manage subcommittees. In addition, while the Commission Secretary positions for the Planning Department and Public Works are classed in the management series (0931 Manager III and 0922 Manager I); these positions must serve two Commissions in their respective departments. Consequently, the responsibilities of this position are consistent with the existing classification.							Ongoing savings

The Department’s budget increased by \$32,934,415 or 26.4% from the adopted budget in FY 2020-21 to the Mayor’s proposed budget in FY 2024-25. The Department’s FTE count increased by 22.22 or 9.6% from the adopted budget in FY 2020-21 to the proposed budget in FY 2024-25.

**FY 2024-25**

The Mayor’s proposed FY 2024-25 budget for the Department has increased by \$7,611,197 largely due to Port revenues having returned to pre-pandemic levels. This is predominately reflected in an increase in interdepartmental service agreements and salary and benefit spending and partially offset by a decrease in capital outlay.

**FY 2025-26**

The Mayor’s proposed FY 2025-26 budget for the Department has decreased by \$77,645 largely due to a decrease in non-personnel services spending.

Advertising Budget

The Department had no funds budgeted for advertising in its original FY 2023-24. As of May 1, 2024, the Department has spent \$10,830 for print media, \$6,099 for social media, and \$4,514 for digital media.

The Mayor’s proposed budget for the Department for FY 2024-25 includes \$25,100 for advertising. This includes \$15,100 for print media and \$10,000 for digital media.

As of May 1, 2024, the Department has spent \$1,455 on advertising (part of the \$6,099 spent for social media) in languages other than English (Chinese and Spanish), although no funds were included in the Department’s original FY 2023-24 budget for advertising in languages other than English. The Mayor’s proposed budget for the Department for FY 2024-25 includes no funds for advertising in languages other than English.

No list of contracts held by the Department for advertising is included as an attachment to this report. The Department states it pays for advertising expenditures under Proposition Q authority, which allows departments to make purchases up to \$10,000 without a competitive bidding process and formal contracts.

Budget Reductions

The Department reports that the Mayor proposed \$346,008 in reductions in FY 2024-25. The Department reports that none of the reductions resulted in a service reduction impact.

**RECOMMENDATIONS**

**YEAR ONE: FY 2024-25**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$461,488 in FY 2024-25. Of the \$461,488 in recommended reductions, \$155,000 are ongoing savings and \$306,488 are one-time savings. These reductions would still allow an increase of \$7,149,709 or 4.8% in the Department’s FY 2024-25 budget.

In addition, the Budget and Legislative Analyst recommends closing out prior year unexpended encumbrances of \$219,579.

**YEAR TWO: FY 2025-26**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$227,047 in FY 2025-26. Of the \$227,047 in recommended reductions, \$155,000 are ongoing savings and \$72,047 are one-time savings.

Advertising Budget

The Department has \$95,000 budgeted for advertising in FY 2023-24. This includes \$44,526 for print media and \$11,949 for radio and \$38,525 for digital and social media.

The Mayor’s proposed budget for the Department for FY 2024-25 includes \$300,000 for advertising. This includes \$50,000 for print media, \$100,000 for digital and social media, and \$150,000 for radio.

The Department’s FY 2023-24 budget includes \$6,000 for advertising in languages other than English. The Mayor’s proposed budget for the Department for FY 2024-25 includes \$50,000 for advertising in languages other than English.

The Department currently does not have contracts for advertising but is working on a multi-year contract to develop and implement an effective marketing campaign and materials to raise awareness about all of the Library’s resources, programs, and services and to increase in-person visits and attendance at Library programs.

Budget Reductions

The Department reports that the Mayor proposed \$129,233 in reductions that impact services in FY 2024-25, which are summarized in the table attached to this report.

**RECOMMENDATIONS**

**YEAR ONE: FY 2024-25**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$726,610 in FY 2024-25. Of the \$726,610 in recommended reductions, \$282,330 are ongoing savings and \$444,280 are one-time savings.

In addition, the Budget and Legislative Analyst recommends closing out prior year unexpended encumbrances of \$16,107.72.

Our policy recommendations total \$116,639 in FY 2024-25, all of which are ongoing.

**YEAR TWO: FY 2025-26**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$283,080 in FY 2025-26. All of the \$283,080 in recommended reductions are ongoing savings. These reductions would still allow an increase of \$1,217,179 or 0.6% in the Department’s FY 2025-26 budget.

Our policy recommendations total \$120,608 in FY 2025-26, all of which are ongoing.

			<p>The Budget and Legislative Analyst considers approval of the proposed upward substitution of 0.5 FTE 3602 Library Page to 0.5 FTE Manager I and 0.5 FTE 1202 Personnel Clerk to 0.5 FTE Manager I to be a policy matter for the Board of Supervisors. With these substitutions, the Department proposes to create a new 1.0 FTE 0922 Manager I position to act as a Safety Officer to lead OSHA and ADA efforts departmentwide. This function has been provided to the Public Library by the Department of Public Health (DPH) via an interdepartmental workorder, but DPH will sunset its Safety Officer work order services at the end of FY 2023-24. The Public Library states that it will still need a coordinator and expert on OSHA requirements and compliance. These positions are currently vacant. In recent years, growth in manager and deputy director positions across the City has outpaced total position growth overall. Although staff in these classifications play an important role, they are more expensive per position than front line workers and generally do not provide direct services.</p>							Ongoing savings.

**RECOMMENDATIONS OF THE BUDGET & LEGISLATIVE ANALYST  
FOR AMENDMENT OF BUDGET ITEMS  
FY 2024-25 AND FY 2025-26**

**DEPARTMENT:** PUC – PUBLIC UTILITIES COMMISSION

**SUMMARY OF 5-YEAR HISTORICAL & PROPOSED BUDGET YEAR EXPENDITURES AND FTE AUTHORITY:**

	<b>FY 2020-21 Budget</b>	<b>FY 2021-22 Budget</b>	<b>FY 2022-23 Budget</b>	<b>FY 2023-24 Budget</b>	<b>FY 2024-25 Proposed</b>
San Francisco Public Utilities Commission	1,433,954,907	1,504,090,299	1,652,233,924	1,788,497,463	2,025,431,529
FTE Count	1,666.85	1,707.90	1,718.39	1,723.51	1,769.83

The Department’s budget increased by \$591,476,622 or 41.2% from the adopted budget in FY 2020-21 to the Mayor’s proposed budget in FY 2024-25. The Department’s FTE count increased by 102.98 or 6.2% from the adopted budget in FY 2020-21 to the proposed budget in FY 2024-25.

**FY 2024-25**

The Mayor’s proposed FY 2024-25 budget for the Department has increased by \$236,934,066 largely due to increases in power purchases, power delivery costs, and capital spending.

**FY 2025-26**

The Mayor’s proposed FY 2025-26 budget for the Department has increased by \$135,269,086 largely due to increases in power costs and capital spending.

**Advertising Budget**

The Department reported approximately \$130,000 in advertising spending in FY 2023-24 as of May 1, 2024. According to SFPUC staff, most print, social media, and other media advertising is managed by the Communications unit within the SFPUC’s External Affairs Division. In general, advertising resources come from the SFPUC enterprises. The SFPUC does not currently use a specific budget code or line to budget and account for print, social media, and other media advertising expenditures, and therefore, actual FY 2023-24 expenditures for advertising are not specifically tracked.

The Department estimates approximately \$675,000 in advertising spending in FY 2024-25. Advertising expenditures in FY 2024-25 are not budgeted separately but are included as an expense in the general Other Current Expenses line item. The budget does not specifically identify advertising for print, social media, and other media, or for advertising in languages other than English.

According to SFPUC staff, uses of advertising include: (1) required advertising and noticing for rate hearings and environmental review, (2) conservation campaigns, (3) advertising for the Customer Assistance Program, (4) public service education notices, such as what not to flush in storm drains or toilets, (5) outreach for participation in Clean Power SF, (6) outreach for certain large construction projects, (7) town hall and community event announcements, and (8) job recruiting.

**RECOMMENDATIONS OF THE BUDGET & LEGISLATIVE ANALYST  
FOR AMENDMENT OF BUDGET ITEMS  
FY 2024-25 AND FY 2025-26**

**DEPARTMENT:** PUC – PUBLIC UTILITIES COMMISSION

According to staff, the SFPUC advertises on a wide range of platforms, including social media, digital streaming ads, Google ads, radio ads, television ads, and newspaper ads.

According to SFPUC, many of SFPUC paid outreach campaigns are multilingual, including campaigns around rates, water conservation and Customer Assistance Programs, among others. They include specific tactics to reach communities who primarily speak languages other than English. To promote the Customer Assistance Program for low-income customers, the new southeast Community Center, and to share key water conservation and rates information, outreach was done in English, Spanish, Filipino, and Chinese. That outreach included specific advertising with in-language media, like Univision, Hecho en California, SingTao, KTSF, Fil-Am radio, and other similar outlets.

According to SFPUC staff, the SFPUC uses targeted advertising to reach specific audiences based on the program or issue being promoted. Decisions on where to spend advertising money are based on tracked data. To better understand what types of paid advertising are most effective, the SFPUC uses unique URLs in ads to track visits to its web pages from the ads. This has allowed the SFPUC to develop a data-informed approach to advertising purchases that maximizes public resources and produces strong results by spending money where it is most impactful. For example, according to SFPUC staff, after investing in multilingual advertising to promote the Customer Assistance Program in 2022, applications increased significantly, especially applications in languages other than English. Also, following the opening of the Southeast Community Center in October of 2022, the SFPUC promoted the center’s programs and events in the local community, contributing to an increase in community events and center visits.

**RECOMMENDATIONS**

**YEAR ONE: FY 2024-25**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$4,795,592 in FY 2024-25. Of the \$4,795,592 in recommended reductions, \$4,506,936 are ongoing savings and \$286,656 are one-time savings. These reductions would still allow an increase of \$232,138,474 or 13% in the Department’s FY 2024-25 budget.

**YEAR TWO: FY 2025-26**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$6,049,702 in FY 2025-26. Of the \$6,049,702 in recommended reductions, \$5,621,067 are ongoing savings and \$428,635 are one-time savings. These reductions would still allow an increase of \$129,219,384 or 6.4% in the Department’s FY 2025-26 budget.

		Delete two long term vacant positions, and increase budgeted Attrition to offset the costs of two new 1406 Senior Clerk positions that are being moved from temporary to permanent status . SFPUC requested six new positions in FY 2024-25, including the two new 1406 Senior Clerk positions. According to SFPUC, the two new Senior Clerk positions are filled by temporary staff (funded through salary savings and temporary salaries) who will be moved to permanent status. In FY 2024-25, SFPUC adjusted budgeted Attrition across the agency to better align actual savings from turnover and vacancies; rather than holding positions vacant to meet budgeted Attrition, SFPUC is substituting long term vacancies to new job classifications and filling these newly-classified jobs with incumbents who were hired temporarily (using salary savings or temporary salaries). The FY 2024-25 budget for Wastewater Administration reduced budgeted Attrition by \$1.2 million to allow the hire of long term vacancies and addition of new positions previously funded through temporary salaries and salary savings. The Water Enterprise carried forward unexpended funds from FY 2021-22 to FY 2022-23 and from FY 2022-23 to FY 2023-24 due to delays in projects and completing tasks. 			Delete 2 positions long term vacant positions. The Stationary Engineer position is one of two that have been vacant since 2018 (6 years) and the Senior Clerk Typist position has been vacant since 2019 (5 years). According to SFPUC, the Stationary Engineer positions have remained vacant due to difficulties in recruiting this job class. The City Distribution Division has 10 budgeted positions in this class of which 5 are vacant. Deletion of these two positions would allow the City Distribution Division to hire 4 positions for 9 total Stationary Engineer positions (4 new hires and 5 existing), which is more active Stationary Engineer positions than the City Distribution Division has previously had. SFPUC decreased budgeted Attrition in this division from -\$5.6 million to -\$4.2 million (an increase in salary funding of \$1.4 million). The SFPUC reported 98 vacancies in the City Distribution Division as of May 1, 2024, out of more than 300 positions. The City Distribution Division should have sufficient salary budget in FY 2024-25 to meet staffing needs.							Ongoing savings

		Reduce two new (not replacement) vehicles. The Water Enterprise budget for FY 2024-25 and FY 2025-26 includes 18 new trucks and vehicles enterprise-wide, of which four are in the City Distribution Division. Two Toyota vehicles are for the Construction Operations Support team, for which we recommend one of two new vehicles, and two vehicles are for new meter reader positions hired in FY 2023-24. These four new requested trucks and vehicles are in addition to more than 180 trucks and vehicles owned by the City Distribution Division. This recommendation will allow the City Distribution Division to purchase two new vehicles in FY 2024-25 in addition to existing vehicles.

		Increase budgeted Attrition to offset the costs of a new Manager II position, substituted from a vacant Senior Administrative Analyst position, which was new in FY 2023-24 and never hired. SFPUC used salary savings to temporarily fill the position as a Manager II position in FY 2023-24, pending approval of the upward substitution of the position in FY 2024-25. In addition, SFPUC reduced budgeted Attrition in FY 2024-25. 	Delete 2 long term vacant positions and reduce budgeted Attrition to offset the cost of the position deletions. The Supervising Electronic Maintenance Technician position has been vacant since 2018, and according to SFPUC, Hetch Hetchy Water would fill the position as an Utility Specialist rather than Supervising Electronic Maintenance Technician. The FY 2024-25 budget does not include the substitution of this position to a Utility Specialist position. Additionally, Hetch Hetchy Water FY 2024-25 budget includes one new on-budget Utility Specialist position and one new off-budget Utility Specialist position in FY 2024-25. SFPUC has not sufficiently demonstrated the need to retain the Supervising Electronic Maintenance Technician position that has been vacant for 6 years. The Stationary Engineer position has been vacant since 2020, and according to SFPUC, Hetch Hetchy Water would fill the position as an Electronic Maintenance Technician rather than a Stationary Engineer; however, Hetch Hetchy Water has two long term Electronic Maintenance Technician positions that have not been filled. The Department’s budget increased by \$21,808,797 or 54.9% from the adopted budget in FY 2020-21 to the Mayor’s proposed budget in FY 2024-25. The Department’s FTE count increased by 50.60 or 47.4% from the adopted budget in FY 2020-21 to the proposed budget in FY 2024-25.

**FY 2024-25**

The Mayor’s proposed FY 2024-25 budget for the Department has increased by \$10,055,627 largely due to one-time move costs and the cost of new positions.

**FY 2025-26**

The Mayor’s proposed FY 2025-26 budget for the Department has decreased by \$5,923,211 largely due to expiration of one-time costs.

**RECOMMENDATIONS**

**YEAR ONE: FY 2024-25**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$8,806,476 in FY 2024-25. Of the \$8,806,476 in recommended reductions, \$289,607 are ongoing savings and \$8,516,869 are one-time savings. These reductions would still allow an increase of \$1,249,151 or 2.4% in the Department’s FY 2024-25 budget.

In addition, the Budget and Legislative Analyst recommends closing out prior year unexpended encumbrances of \$1,640,009.

**YEAR TWO: FY 2025-26**

The Budget and Legislative Analyst’s recommended reductions to the proposed budget total \$630,367 in FY 2025-26. All of the \$630,367 in recommended reductions are ongoing savings.

Our reserve recommendations total \$1,115,390 in FY 2025-26, all of which are one-time reserves.

			Reduce step adjustments amount. The Mayor's proposed FY 2024-25 and FY 2025-26 budget for the Department includes funding for a potential position reclassification project using (a) \$1.1 million in positive step adjustments, which are usually negative adjustments to account for salary savings from employees who earn less than top step, and (b) \$0 in net attrition savings. However, the Department does not have a cost estimate or budget for this project, or an anticipated timeline. Although the Department received funding for this project in FY 2023-24 in the form of positive step adjustments and positive attrition, according to the Department, the Department of Human Resources (DHR) has not yet conducted studies comparing salaries for classifications, and the positions and classifications themselves are still being negotiated. The Department is projected to underspend on salaries and benefits by \$9.5 million in FY 2023-24 in this fund.							One-time savings.					
		Given that the Department does not have a budget or timeline for this project, the Budget and Legislative Analyst's Office recommends reducing the proposed \$1.1 million in positive step adjustments to \$0 in FY 2024-25, and placing the \$1.1 million in positive step adjustments proposed in FY 2025-26 on Budget and Finance Committee Reserve, pending the development of a budget and timeline for this project (see recommendation RET-9).

# Strategic Licensing Partnership Program

- Brand partnerships offer strategic alliances between two or more entities that increased reach and audience development; improved brand awareness; loyal customers; brand awareness via social media and supporting relevant content creation
- Marketing tested first effort of a licensing partners through an in-kind sports sponsorship over a fixed two-week promotional ordering period
  - ~700 jersey sales for the club
  - Pilot is ongoing for two years
- Based on success of the program we are considering expanding the program with local artists to help support and enable economic gains for small business in a positive brand ethos

# Brand Merchandise: Retail Store Pilot Exploration

## Requirements

- Vendor builds out product inventory at their initial investment with a commitment that we sell through all inventory during a 9-month sales window
- SFMTA's revenue would be 10-15% of sales paid monthly
- Retail site would be up in 90 days from contract sign off
- Pilot would focus on 20 products in the soft goods category, all made in North America
  - T-shirts, totes, caps, etc.
- Future opportunities to partner with local artists to promote, produce and sell their licensed goods

# Appendix

One strong possible pilot vendor, prioritizes making a positive impact through environmental stewardship, diversity and ethical business practices.

**Our approach for joint-development is to maximize revenue opportunities** with our real estate portfolio through partnerships, economic development and good land use.

All revenues generated will be re-invested back into transportation infrastructure and transit service.

As a first step, in 2017 we completed our first ***Facilities Framework***, the agency's first comprehensive campus plan.

*What it did do:*

- Base land use plan for joint-development at Potrero Yard and Presidio Yard.
- Advance the agency away from “lease” to “own” to reduce long-term operating costs.
- This included a permanently owned Paratransit Facility to reduce operating costs due to deadheading and have a fixed site – assumed at Woods Yard.

# **We are updating the *Facilities Framework* now. Plan to be done by late-Spring 2024.**

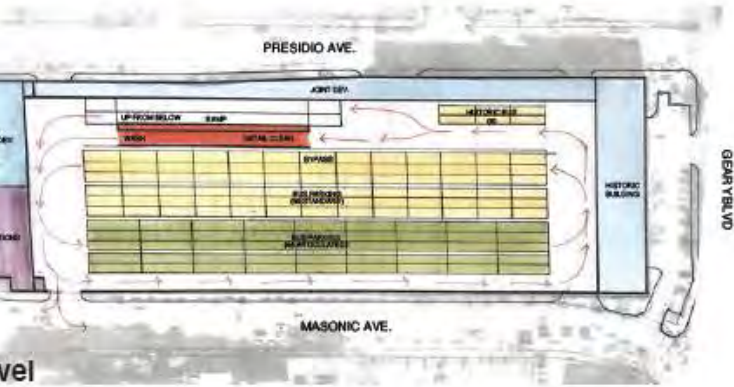

*What it's planned to do:*

- Joint-development opportunities and preliminary land use at Flynn Yard and Woods Yard.
- Prepare the agency for fleet electrification and infrastructure redundancy (preparing Caltrans Grant).
- Integrate opportunities investigated at Moscone Garage and 5<sup>th</sup> and Mission Garages.
- Consider the short and long-term plans for Kirkland Yard.

*The framework always needs to be operationally conscious and produce outcomes that support the agency's ability to meet the City's goals for transportation.*

- Legislative template for P3 process in the City.
- Now have template RFQ + RFP for Major Project Process
- SFMTA will entitle and CEQA clear a 100% affordable housing project on site (no revenue generation).
- SFMTA will get a 3-story modernized trolley facility with a useful life of 75+ years.

- Using the Caltrans Grant we received we have the preferred bus yard scenario, which now allows us to consider revenue generating land use alternatives on the remainder of the available site at Geary.
- This project must be federalized early, so receiving a RAISE Grant from the Federal Government is the highest priority; trying for the 3<sup>rd</sup> time this Spring.

**Moscone Station

Now that we have a clear process for P3 and securing a developer we can replicate easily – we can advance plans on these opportunity sites.

## Here are policy areas we are working on

- Legislation/Ordinance to make P3 process permanent for multiple sites – *Presidio upcoming*
- Legislation/Ordinance modifying sections of the planning code related to signs – *garages, transit shelters, stations – revenue generation*
- *Legislation/Resolution* amending agreement with Intersection related to extended partnerships for asset *revenue generation – garages and stations*
- State or Local Legislation allowing the SFMTA to retain property taxes generated from developments on its sites – *essentially allowing for redevelopment*. This would apply to SFMTA's bus yards and parking garage and station sites

Re: May 1 Department Interim Exceptions to the Annual Salary Ordinance and Annual Appropriations Ordinance

---

RECEIVED  
CLERK OF SUPERVISORS  
MAYOR OF SAN FRANCISCO  
2024 MAY -1 PM 11:05  
SY

Dear Madam Clerk,

I herein present exceptions to the May 1 Departments' Annual Salary Ordinance (ASO) and Annual Appropriations Ordinance (AAO) for consideration by the Budget and Appropriations Committee of the Board of Supervisors. The City's standard practice is to budget new positions beginning in pay period 7, at 0.79 FTE, and to hold funding for new initiatives until the budget is signed on August 1. Where there is justification for expedited hiring and spending, however, the Board may authorize exceptions to the Interim ASO and AAO, which allow new positions to be filled and expenditures related to new initiatives to begin in the first quarter of the fiscal year, prior to final adoption of the budget.

Exceptions are being requested for the following positions and non-personnel expenditures:

***Non-General Fund Positions (30.0 FTE)***

- **San Francisco Municipal Transportation Agency (SFMTA)**  
1241 Human Resources Analyst (4.0 FTE), 1244 Senior Human Resources Analyst (4.0 FTE), 1840 Junior Management Assistant (1.0 FTE). These 9 positions are part of the Equal Employment Opportunity (EEO) office at SFMTA, which ensures SFMTA's compliance with federal laws pertaining to non-discrimination in employment. Historically, the Department of Human Resources (DHR) has been responsible for investigating all EEO complaint cases on behalf of SFMTA and reporting findings back to the SFMTA EEO office. However, these 9 positions represent SFMTA taking over this work in house. The positions need to start July 1, as DHR has begun to vacate the positions dedicated to SFMTA EEO support and will discontinue EEO complaint case management at the start of the new fiscal year.
- **San Francisco Municipal Transportation Agency (SFMTA)**  
9132 Transit Fare Inspector (20.0 FTE). To address the increase in fare evasion, the MTA budget will include 36 new Transit Fare Inspector (TFI) positions. The first batch of 20 TFIs will be hired by July 1. For calendar year 2023, it is believed that the fare evasion rate is upwards of 22%, leading to uncaptured revenue of approximately \$20 million annually. Immediate hiring would increase inspections and reduce uncaptured revenue between \$4.3 million and \$13.1 million. To realize recoveries in the second quarter, hiring would need to take place by July 1.
- **San Francisco Public Utilities Commission (SFPUC)**  
0923 Manager II (1.0 FTE). During the current 2023-24 Fiscal Year, the Department of

Human Resources eliminated the underutilized 1843 Executive Director job classification citywide. The City's sole 1843 Executive Director classified employee is stationed in the SFPUC Wastewater Division. This job classification is not included in the May 1 AAO and ASO, and SFPUC has replaced the filled position with an 0923 Manager II. Since the position is currently filled, SFPUC has requested a full 1.0 FTE to continue this position in the interim budget period.

Please do not hesitate to contact me if you have any questions regarding the requested interim exceptions to the Annual Salary Ordinance and Annual Appropriations Ordinance.

Sincerely,

FROM: Greg Wagner, Controller  
DATE: May 1, 2024  
SUBJECT: San Francisco Municipal Transportation Agency (MTA)  
Mayor's FY 2024-25 & FY 2025-26 Proposed Budget

This memorandum outlines items included in the SFMTA FY 2024-25 & FY 2025-26 Mayor's Proposed Budget over which the Board of Supervisors has line-item approval authority.

Pursuant to Charter Article 8A.106, the Board of Supervisors (Board) may only approve or reject the entire MTA budget and has no discretion to modify or reject specific expenditures contained therein. The Board may allow the MTA's budget to take effect without any action on its part, or it may reject the MTA's budget by a seven-elevenths' vote. However, additional General Fund support to the MTA over the base amount stipulated in the Charter is subject to normal budgetary review and amendment under the general financial provisions of the Charter.

The FY 2024-25 & FY 2025-26 Mayor's Proposed Budget for the MTA appropriates the following General Fund and other revenue sources as below. Approval of expenditures related to these sources follows the general provisions of the Charter, under which the Board may modify proposed expenses at the level of appropriation.

1. Mission Bay Transportation Improvement Fund transfers from the General Fund of \$4,968,000 in FY 2024-25 and \$4,968,000 in FY 2025-26.
2. Transit Sustainability Fees for transit service expansion and reliability improvements for regional transit providers of \$717,596 in FY 2024-25 and \$777,036 in FY 2025-26.
3. Transit Sustainability Fees for complete streets improvements of \$442,797 in FY 2024-25 and \$68,562 in FY 2025-26.

Please contact me or Michelle Allersma, Director of the Controller's Office Budget and Analysis Division, at (415) 554-4792 if you have any questions regarding this information.

Ivar C. Satero  
Airport Director  
May 15, 2024

# SFO Has Successfully Navigated Through Events That Changed the Aviation Industry

*In FY 2024-25, enplanements forecasted to be comparable to FY 2018-2019 levels*

## Comparison to pre-pandemic FY 2018-19 levels:

- FY 2022-23 passenger traffic is **82%**, with domestic and international recoveries of **80%** and **84%**, respectively
- FYTD 2023-24 operations at **83%**, illustrating efficient and effective use of facilities and resources
- FYTD 2023-24 passenger traffic is **90%**, Asia-specific traffic **96%**
- FYTD 2023-24 domestic and international recoveries of **85%** and **103%**, respectively

Note:  
(a) Passenger Forecast **LeighFisher March 2024**

# Annual Service Payment (ASP) Impacted by Concession Revenues

There was a significant decline in concession revenues during the pandemic. In FY 2023-24 the Airport is experiencing a recovery of 112% over the prior fiscal year and forecasts continued strong growth.

# Two-Year Operating Budget: Context & Priorities

*Strike balance between addressing Airport priorities and increased demands due to return of passengers, while remaining cost competitive*

## Budget Context:

- Enterprise Departments must balance Expenses (Uses) to Revenues (Sources)
- No additional federal relief for Operations & Maintenance
- Non-aviation revenues are forecast to be:
  - FY 2023-24 117% of FY 2018-19
  - FY 2024-25 123% of FY 2018-19
  - FY 2025-26 130% of FY 2018-19
- Recovery levels are forecast to be:
  - FY 2023-24 passenger traffic 93% of FY 2018-19
  - FY 2024-25 passenger traffic 100% of FY 2018-19
  - FY 2025-26 passenger traffic 106% of FY 2018-19

## Budget Priorities & Strategy:

- Focus on **health of the organization** by addressing workload and current operational gaps
- Strategic growth to **align with passenger recovery levels**
- **Airport Integrated Operations Center (AIOC)**
- Supporting **Capital Improvement Plan (CIP)**
- Provide foundation for implementation of **5-Year Strategic Plan**
- Remaining **cost-competitive** with other west coast international gateway airports
- **Preserving funds** of the Commission's operating reserve

# Airport Integrated Operations Center (AIOC)

*An integrated operations team delivering a seamless customer journey*

## What is the AIOC?

- SFO is developing and implementing an industry-leading AIOC that will be in the new Courtyard 3 Connector Building, between Terminal 2 and Terminal 3
- The AIOC brings together key functions and stakeholders in one central location providing a 360-degree view of all airport functions to improve operational efficiencies and the guest experience

# SFO Strategic Plan 2023-2028 Overview

## VISION

**INSPIRING THE EXTRAORDINARY**

## MISSION

**Delivering an airport experience

# BOARD OF APPEALS

## Mission

Provide the public with a final administrative review process for the issuance, denial, suspension, revocation and modification of City permits, licenses and other determinations.

Provide an efficient, fair and expeditious public hearing and decision-making process before an impartial panel.

# PROJECTED APPEAL VOLUME FOR FY24 (94 APPEALS) IS 37% BELOW THE 10-YEAR AVERAGE OF 149 APPEALS

# APPEAL DISTRIBUTION BY DEPARTMENT FY23 AND FY24 (THROUGH 5/14/24)

# OVERVIEW — REVENUE SOURCES

## Surcharges = 98% of budget

- Collected on new and renewed permits
- Rates proportional to percent of cases originating from each department
- Rates analyzed annually and adjusted if needed
- Controller may make CPI-based adjustments; rate changes beyond CPI require legislation

## Filing Fees = 2% of budget

- Collected by Board when appeals are filed
- Amount collected fluctuates based on appeal volume and types filed each year

# BUDGET SUMMARY

Continue the work to ....

Recast the institutional culture and viewpoint so **ALL PARENTS** receive equitable service from the Child Support Program.

**Move from intention to impact.** Our Strategic Plan will continue to address the special challenges faced by parent survivors of domestic violence, Low income fathers, LGBTQ and non-binary parents involved in the child support system.

Our Goals include:

- **Rapid response to service delivery issues**
- **Identifying and implementing best practices**
- **Informing Policy Decisions**

### **Protecting Parent Safety in Pursuing Child Support**

- Assisting parents to achieve economic independence and stability

### **Improving Parental Access to the Child Support Program**

- Addressing technological divide
- Language access

### **Building A Better Program for Fathers**

- There is a discrepancy between who we are to the parent receiving the support and who we are to the parent paying support.
- Government owed debt relief

### **Providing Legal Support to LGBTQ and Non-Binary Parents**

- Addressing bias and discrimination that may occur between biological and non-biological parents

**Implement and meet  
Racial Equity Action  
Plan (REAP)  
milestones**

# Mission, Vision, Values

**Mission:** We connect San Francisco through a safe, equitable and sustainable transportation system.

**Vision:** A city of diverse and vibrant neighborhoods seamlessly connected by safe, reliable, affordable transportation for all.

**Values:** Trust, equity, respect, inclusivity, integrity, economic vitality, environmental stewardship

# Budget Context

- Revenue is lower than pre-pandemic due to high rate of remote work.
- Expenditures are higher because of inflation.
- COVID relief has offset the impact of lower revenue and higher expenditures.
- Relief is expected to run out in FY25-26.

# Reduced Spending

To mitigate the impact of reduced revenue:

- Increased **operational efficiency**:
  - Reinvest Muni travel time savings into additional service
  - Improved project delivery
  - Consolidated agency functions
- Implemented only **cost-neutral Muni service changes**.
- Prioritized **hiring** to key positions in FY22-23, saving \$52.8 million ongoing.

**After these hard choices, a FY25-26 \$12.7M deficit remained, necessitating modest increases in fares, fees and fines.**

# FY24-25 and FY25-26 Budget (\$M)

Proposed budget grows less than COLA and CPI and maintains existing service levels.

Category	FY23-24 Budget	FY24-25 Budget	FY25-26 Budget	Year 1 Growth	Year 2 Growth
Revenue	1,407.6	1,445.5	1,489.8	2.7%	3.1%
Expenditure	1,407.6	1,445.5	1,489.8	2.7%	3.1%

# Increases to fares, fees, fines

Modest fare, fee and fine increases close the budget gap.

Category	Description	Additional 2-Year Revenue (\$M)
Transit Fares	FY25 - Reduce Clipper discount by \$0.25/no change to cash fare/index cable car/reduce multiplier from 32 to 31 FY26 - Index/no change to cash fare/reduce multiplier from 31 to 30	1.8
Parking Fines	Increase by 8% each year, 16% total	7.4
RPP Fees	Implement inflation indexing + add'l costs	2.9
Taxi Fees	Reinstate taxi fees (excluding drivers) and apply inflation indexing	1.2
<b>Total</b>		<b>13.3</b>
<b>Deficit</b>		<b>12.7</b>
<b>NET</b>		<b>0.6</b>

# Fares, fees and fines

- **Protect vulnerable populations** by keeping the cash fare at \$3.00 and funding discount programs.
- **Protect existing discount programs** including Free Muni for Youth and discounts for seniors and low-income and disabled riders.
- **Increase fare equity** by reducing the Clipper discount from \$0.50 to \$0.25.
- **Support the future financial health of the agency** by indexing fares in FY25-26.
- **Encourage mode shift** by making the monthly pass a more attractive option.

# Discount fare media

SFMTA fare policy provides financial relief for people with low incomes at an estimated annual value of \$24 million.

Fare Media Type	Eligibility	Start Date	Admin Cost (\$M)	Foregone Revenue FY22-23 (\$M)	Total Impact FY22-23 (\$M)

# Community feedback

- Improve fare compliance
- Limit transit fare increases
- Improve and expand Muni service
- Focus on street safety
- Initiate parking reform in the next budget cycle
- Make agency operations more efficient
- Support taxis drivers

# Budget priorities

## Muni service

Maintains current Muni and paratransit service levels.

Continues to make Muni safer, cleaner, faster and more reliable

## Street safety

Reallocates resources to improve Vision Zero project delivery

Implements automatic speed enforcement cameras

## Personal safety and fare compliance

Adds 36 Transit Fare Inspectors to improve safety, fare compliance, and increase use of discount programs.

## Equity

Expands communications and outreach about discount fare programs.

Supports Muni Equity Working Group, community liaison program.

## Agency financial health

Decreases deficit while maintaining service levels, demonstrating SFMTA commitment to efficiency.

# Future financial health

The proposed budget is balanced, but deficits exceed \$220M starting in FY26-27 when federal and state relief is no longer available.

# Agency performance metrics

(partial list)

## Equity

- Utilization of free or discounted fare programs
- Muni service hours delivered along Equity Strategy Routes

# FY24-25 and FY25-26 Revenue

Increases in Operating Grants and Federal and State Relief are offset by decreases in parking and transit revenue. Balancing the budget requires use of \$60.0M fund balance, reflected in Other.

Category	FY23-24 Budget (\$M)	FY24-25 Budget (\$M)	FY25-26 Budget (\$M)	Yr1 Growth (%)	Yr2 Growth (%)
General Fund	542.3	543.2	558.4	0.2	2.8

Total	1,407.6	1,445.5	1,489.8	2.7	3.1

\*Other Revenue includes one-time fund balance in FY24-25 and FY25-26

# Revenue in prior budget cycles

Parking fines were indexed during the pandemic, but transit fares were not.

	FY 19-20	FY 23-24	Change (\$)	Change (%)
Street Cleaning	83.00	90.00	7.00	8%
RPP Overtime	95.00	102.00	7.00	7%

Single-Ride Cash Fare	3.00	3.00	0.00	0%
Clipper	2.50	2.50	0.00	0%

# Impact of not indexing transit fares

SFMTA fares have remained the same for four years. As a result, SFMTA generated \$18.4M less revenue between FY19-20 and FY23-24.

Fiscal Year	Revenue Loss (\$M)	Cumulative Total (\$M)
20-21	0.3	0.3
21-22	2.3	2.6
22-23	7.6	10
23-24	10.8	18.4
24-25	14.4	32.8
25-26	18.4	51.2

# Balance equity and ridership impact to transit fares

Due reduction in monthly pass multiplier, impact to transit fares is less than original recommendation.

	Current	Adopted FY24-25* / FY25-26
Single ride fare – Clipper/Mobile/ Paratransit Van (\$)*	2.50	2.75/2.85
Adult Monthly Pass (\$)	81.00	85.00/86.00
Lifeline Pass (\$)	40.00	43.00/43.00

\*Cash fare remains unchanged

\*\*FY24-25 fare increases effective January 1, 2025

# Balance equity and ridership impact to parking fines and permits

Increase in parking fines offsets cost of maintaining Clipper discount and reducing monthly pass multiplier.

	Current	Adopted FY24-25/ FY25/26
Street Cleaning (\$)	90.00	97.00/105.00
Residential Overtime (\$)	102.00	108.00/108.00
Parking Meter Outside Downtown (\$)	92.00	99.00/107.00
Annual Residential Parking Permit	170.00	190.00/215.00

# FY24-25 and FY25-26 Revenue (\$M)

One-time sources helped balance the budget. When COVID relief is fully expended in FY25-26, SFMTA will need new revenue sources to close large future budget deficits.

# FY24-25 and FY25-26 Expenditure by type

As in prior years, labor is the largest budget expenditure, making up more than 60% of the budget. By charter mandate, 97.25% of staff must be non-managerial positions.

# FY24-25 and FY25-26 Expenditure by type

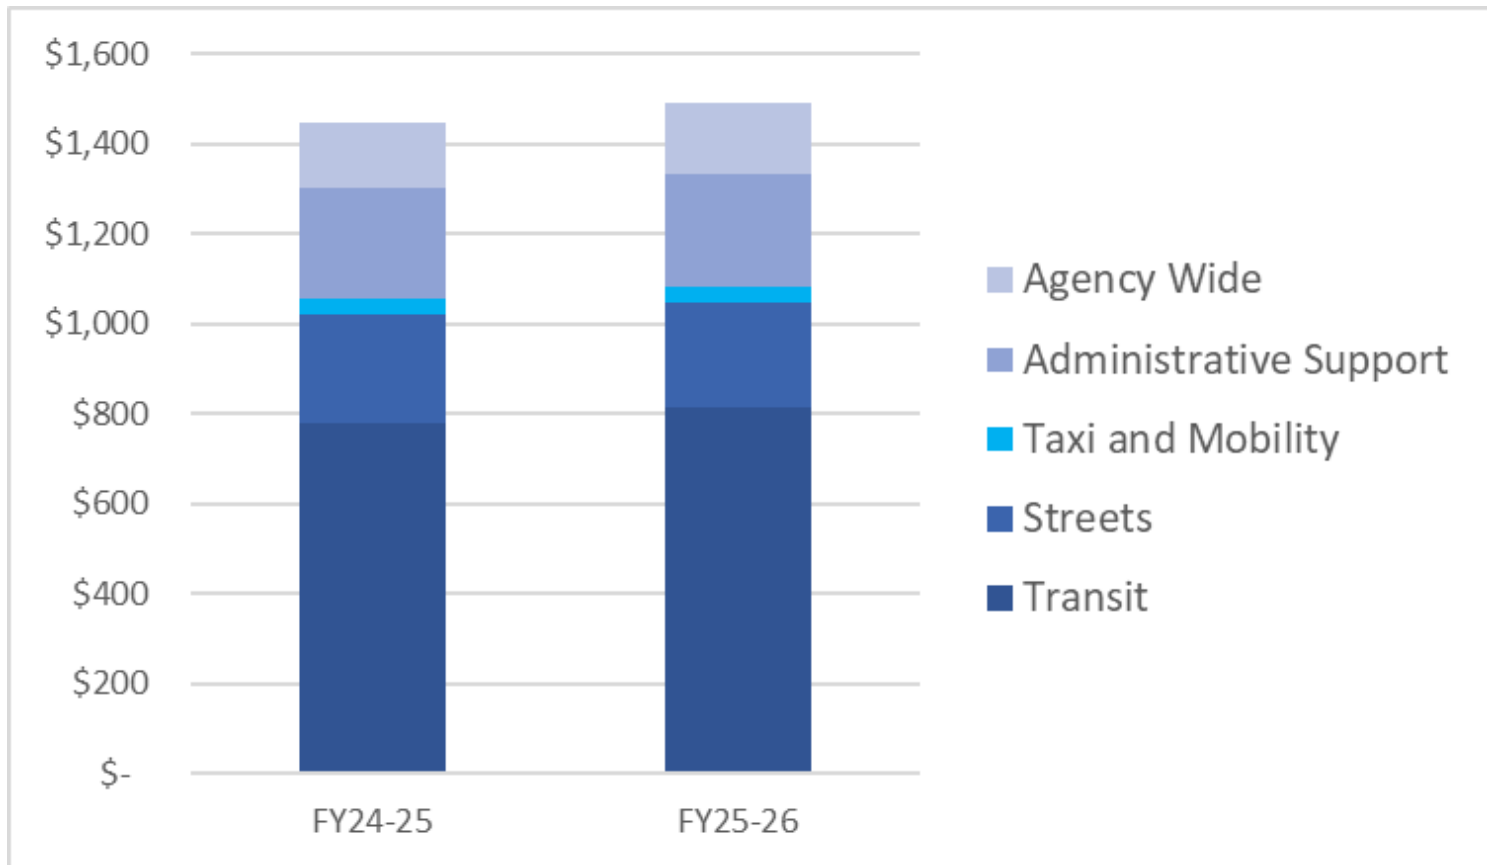

Growth in Materials and Supplies and Services of Other Departments is partially off-set by reductions in labor costs.

Category	FY23-24 Budget (\$M)	FY24-25 Budget (\$M)	FY25-26 Budget (\$M)	Yr1 Growth (%)	Yr2 Growth (%)
Labor	969.4	919.1	954.2	-5.2	3.8

Overhead Recoveries	-34.0	-22.3	-22.7	-34.2	1.8
Materials & Supplies	74.6	99.5	105.5	33.4	6.0
Debt Service	27.9	27.8	27.8	0.0	-0.1
Services of Other Departments	109.7	123.6	130.6	12.6	5.7

Total	1,407.6	1,445.5	1,489.8	2.7	3.1

\*Other includes one-time equipment

# FY24-25 and FY25-26 Expenditure by function

More than 55% of the budget funds Transit. Service delivery depends on a financially healthy SFMTA.

# FY24-25 and FY25-26 Expenditure by function

Increases in Transit and Streets are partially offset by decreases in Taxi and Mobility.

Category	FY23-24 Budget (\$M)	FY24-25 Budget (\$M)	FY25-26 Budget (\$M)	Yr1 Growth (%)	Yr2 Growth (%)
Transit	754.0	779.8	812.9	3.4	4.2
Streets	227.3	239.6	232.6	5.4	-2.9
Taxi and Mobility	39.9	35.7	37.2	-10.3	4.0
Administrative Support	179.9	245.8	249.3	36.6	1.4
Agency Wide	206.5	144.5	157.9	-30.0	9.3
Total	1,407.6	1,445.5	1,489.8	2.7	3.1

Growth in Administrative Support is driven by consolidation of agency-wide real estate and worker's compensation expenditures and transfers of contracting and Equal Employment Opportunity functions.

# Budget Priority: Affordability

- Adopted affordability policy for water and wastewater
- Efficient capital planning
- Customer Assistance Program
- Water conservation, grant, and incentive programs

# Budget Priority: Responsible Management

- Addressing regulatory requirements
- Financial sustainability
- Reducing vacancies, increasing retention
- Racial equity and transparency
- Responsible maintenance of our system

# Budget Priority: Investing Where it Matters

- Resilience and climate change
- Environmental stewardship
- Contributing to economic vitality: capital investment and job creation
- Replacing aging infrastructure
- Meeting new customer demands

# Performance Measures

- Controller's City Performance Program
- Adopted level of service goals
- Regular reports to the Commission
- Affordability Policy
  - Power cost savings vs. PG&E
- Community Benefits Policy
- Environmental Justice Policy
- LBE/Local Hire Policies
- Employee Voice Survey
- Racial Equity

# SFPUC Operating Budget Overview

- Capital is SFPUC’s largest cost driver at 36% (debt service 24% + revenue funded capital 12%)
- Power purchase and distribution is next at 25%
- Followed by Personnel and Non-Personnel costs that support daily operations at 14% and 19% respectively

# SFPUC Operating Budget Changes

SFPUC Estimated Budget  
(\$millions)

- Budget will grow by 20% or \$373 million over the next two years
- **Capital and power purchases** remain the largest cost drivers, growing by \$314 million, or 84% of the overall growth
- **Operating budget new proposals** (including proposed offsetting savings) are not a significant driver of the overall growth. Net new requests are roughly \$33 million, only 9% of the growth (*in other words, growing the budget by just 1.8%*)

# SFPUC Organization Chart

*FTE # is  
FY 26  
proposal*

# Responsible Staffing Level

- 167 new permanent FTEs, of which:
  - 85 move temp staff into PCS positions, not new headcount
  - 33 are “off budget” (funded via capital projects)
- Increased budgeted salary savings (attrition) to reflect historic savings
- **Resulting in 33 net new on-budget FTEs that will:**
  - Address staffing shortages in key areas such as water quality, natural resources, green infrastructure maintenance, and risk management
  - Shore up the HR team to increase hiring
  - Increase lead inspection in schools
  - Expand our Racial Equity team
  - Meet increasingly complex regulatory requirements

Fiscally responsible and rigorous approach to adding FTE:

- Reviewed every single vacancy to ensure it was under active recruitment, repurposing unneeded positions to avoid asking for new headcount
- Performed historical analysis of salary savings to right size attrition within every division, to properly account for vacancies

Dear Budget And Appropriations Committee:

2 years ago, Supervisor Ronen, as chair of Budget and at behest of permanent supportive housing tenants, questioned DBI over the inherent and longstanding conflicts of interest at the SRO Collaboratives, which are funded by DBI, but contracted through SRO landlords. Since then, nothing has changed:

**This is why I am asking you to question DBI once again about these conflicts of interest issues and what they are doing about it.**

Attached below is an excellent email from Christopher Mika that he sent two years ago around this time. The issues he brings up are still salient, and after my hunger strikes/#30RightNow and the Chronicle "Broken Homes" series, we should have learned that the SRO Collaboratives conflicts of interest had real impacts, and if tenant organizers were free to advocate without landlord interference, we wouldn't have had to deal with rent disparities, collapsing physical plants, and rampant evictions, the latter two still costing us millions. WHY ARE WE CONTINUING TO THROW MONEY TOWARDS FAKE TENANTS RIGHTS GROUPS WHICH PROTECTS ONE CLASS OF SRO TENANTS (PRIVATE) WHILE CONFLICTED OUT OF HELPING ANOTHER (PSH TENANTS).

If the city was giving lucrative contracts to Veritas to run a fake tenant organizer program within their buildings and to yell at other landlords, there would be deafening outrage from a broad swath of the tenants rights community. Where is the outrage

when serial evictor and poverty pimps like THC get these contracts.

I should also point out that CCSRO has at multiple times, done advocacy on issues not related to housing, including pushing Randy Shaw's public safety agenda. **It's inappropriate for a program run by DBI to focus on code enforcement/housing issues to be focusing on public safety issues outside the building, no matter what the merits of them may be.** This is a budget issue.

I will also state that the tenant organizers that THC puts up in this building don't do much. We have had issues with mail delivery in my building for some time, and while the postal service is a federal issue, where are the protests, where's the deep canvassing, where's the lobbying of federal representatives. All we get are excuses about "process". **The city is spending so much on supposedly helping SRO tenants, but it is going to basically creating piss poor PR reps for SRO/PSH landlords.**

If we are gonna spend money on code enforcement/tenants rights incubation, we want to see results. I, and so many other tenants want to see a separation of SRO/PSH landlord and SRO Collaborative, otherwise, I'd rather the Collaboratives be closed down than continue as is, but more than closure, we would rather see deep reform of the SRO Collaboratives. so all SRO tenants can benefit while delivering with integrity, on time, and under budget.

And Myrna, you texted me two years ago that you wanted to expose the corrupt relationship between Randy Shaw and THC/CEOP. It's time for action.

Lastly, I am trying to prioritize my mental health. Me and the few other people who have been agitating for this shouldn't have to keep repeating the complicated trauma we face from this. I already got mental health issues from the stress of running #30RightNow and I don't need any more.

Should you need to reach me, my number is 415-499-2563

Subject: File 220491 At Budget And Appropriations (DBI Budget conflict of interest concerns)

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello

My Name is Christopher Mika. I'm a SRO supportive housing Tenant in The Tenderloin, now District 5. I'm writing the Budget and Appropriations committee because I want to express my concern about conflicts of interest regarding the local SRO Collaboratives which, by my understanding, are overseen by the Department of Building Inspection. These entities include, but may not be limited to:

- The Central City SRO Collaborative
- The Mission SRO Collaborative
- The Chinatown SRO Collaborative
- TNDC

What we have with the SRO Collaboratives are organizations which claim to represent formerly homeless supportive housing - SRO tenants. In practice what they are, to greater and lesser degrees, are organizations owned and directed by SH-SRO landlords. In many cases the landlords that run the Collaboratives use tenants to lobby for their personal and political aims. The most egregious organization is probably CCSRO, which is run by Tenderloin Housing Clinic, and owned by Randy Shaw.

I am a THC SRO tenant, and I can share a few examples of this:

- Randy Shaw, through CCSRO staff (and publicly through interviews in The Examiner) opposed the '30 Right Now' legislation which was created and driven by SRO tenants. The legislation sought to bring rent for SRO tenants in line with the national standard for rent subsidy, which was 30% of income. Shaw used the existence of CCSRO approved and paid for fake "Tenant Organizers" to lobby against the legislation and make the claim that tenants

didn't want it because tenants themselves were worried that they would use drugs with "extra money". This was undeniably false. SRO tenants were overwhelmingly supportive of "30 Right Now"

- Late in 2020 I was alarmed that the staff of my THC SH-SRO building was still not adhering to COVID protocols. I had reached out to the manager of my building, but her response was dismissive. At the time, a San Francisco supervisor released a statement re: where to go if SRO tenants need help with COVID compliance, and other issues. The recommendation listed the Collaboratives, including CCSRO. I was struck at the futility of this and that an SRO tenant having problems with their landlord was recommended to go to their landlord.

- CSROC recently demanded an amendment to legislation by Sup Aaron Peskin to give San Francisco tenants power to form tenants' unions. The amendment was to deny SRO supportive housing residents the same powers and rights.

It is apparent that the SRO collaboratives, being owned and managed by landlords, are working at cross purposes with their tenants. It is a flagrant conflict of interest.

Assuming that the Collaboratives have utility outside of being lobbying organizations for SRO landlords, I would like to see them completely severed from the non-profit landlord complex, and made public entities that truly serve tenants. If that is not an option, I think they should be defunded and put to pasture immediately due to the complex harm that they are causing SRO tenants.

Sincerely,

Christopher Mika.

Hi Brent,

Thanks for being the clerk for the Budget and Appropriations committee. Attached are two letters that I've sent to others regarding concerns about the SFPUC's budget and 10 year financial plan. Would you distribute the letters to the committee members?

Kind regards,

Dave Warner

**Re: SFPUC CAC: Ratepayers and the City Need You to Make Rates A Priority This Year**

Dear Citizens Advisory Committee Members,

As you are likely aware, the SFPUC is in the last stages of getting approval for its massive \$11.8 billion 10 year capital plan. **As it stands, the plan already projects major increases in rates that bump up against the SFPUC's ratepayer affordability limits for water and wastewater. However, the even bigger issue (that the SFPUC doesn't appear to understand) is that the assumptions behind the rate projections have a reasonable likelihood of not being achieved, which would push rates well above affordability limits.**

The basic issue is that the SFPUC's water and wastewater enterprises have mostly fixed costs (the water enterprise fixed cost portion of its expenses is in excess of 90%). When overall demand declines, rates have to increase to cover fixed costs and to make up for lower unit sales.

Capital investment increases fixed costs. To exacerbate the situation, the capital investment is funded in large part by issuing debt. Like a home mortgage, debt payments last 30 years. Because of the debt, if several years from now we decide that rates are going up too much, there's limited flexibility to reduce rates as we can't reduce debt service costs. For context, with this capital plan the SFPUC is projecting that by 2044 debt service costs alone will exceed the size of the entire SFPUC 2023/24 budget.

**The SFPUC has not acknowledged the risk to ratepayers in any significant way** and continues to work through the City's budget approval process without doing so. The good news is that the first two years of the 10 year plan are about the same as what was projected in last year's \$8.8 billion 10 year capital plan (\$3 billion less than the present plan). This means that even if this year's plan is approved, it could be scaled back in next year's plan, although fewer projects will be available for reworking or reprioritizing.

You might ask, aren't there other committees that should be leading this charge, such as the SFPUC Rate Fairness Board or the SFPUC Revenue Bond Oversight Committee (RBOC)? It appears the Rate Fairness Board is primarily concerned with fairness in allocating rates between types of customers and fixed and variable costs and that the RBOC is more about overseeing bond management as opposed to the overall financial plan. In any event, neither committee has taken up the rate risk concern.

There's a lot of interest in the >\$1 billion added to the plan for wastewater denitrification and for sewer system improvements. But of the \$3 billion increase in the 10 year capital plan from last year, only \$1.2 billion is part of wastewater. Another \$1.2 billion of the increase goes to the two water enterprise divisions, its biggest one year jump in the last 10 years. It seems like there could be room to reduce/delay some of the water enterprise investments, particularly given that we've been investing heavily in the Water System Improvement Program over the last two decades.

Actions you could take this year:

## Understand the Scope of the Risk

- 1) **Check the validity of the concerns raised here:** Ask the SFPUC to present to you a risk analysis on rate projections. This should NOT be a review of the budget but a review of the underlying assumptions to the rate projections. What are the underlying assumptions for demand, population and housing? How do rates change if those projections are off? How do rates change with project overruns (a common occurrence)? How do rates change if additional investments are needed, such as for alternative water supplies? How do the affordability limits change if household income grows more slowly than projected? The presentation should have charts addressing each of these risks along with how rates are affected if two or more risks materialize.
- 2) **Understand risk mitigation strategies:** What actions can be taken if risks start to materialize? What's the relationship between capital investment and rates? If an additional \$1 billion of capital investment is needed (for project overruns or otherwise), how much would rates change? What is the financial impact of each risk mitigation strategy, including exactly how much rates would be offset?
- 3) **Invite an independent financial expert to the meeting:** The expert would help evaluate the quality of the materials being presented. An independent financial expert could be the City's Controller (or someone else who's not associated with the SFPUC).

## Recommend Improvements

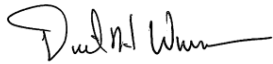

- 4) **Provide guidance on how much of a cushion there should be between projected rates and affordability limits:** In the past there's generally been a 40% cushion between rates and affordability limits, much more than the 1% cushion currently projected.
- 5) **Recommend content changes to next year's financial plan materials presented for approval:** Financial plans submitted for approval should include rate risk analyses, similar to what is being requested in items #1 and #2 above. Without such information, approvers have little understanding of the risks to the plans they are approving.
- 6) **Recommend timing changes:** For this year's budget approval, SFPUC Commissioners didn't get a sense of the size of the budget and 10 year capital plan until the final version was presented on February 2<sup>nd</sup>, only 11 days before the February 13<sup>th</sup> approval meeting. Recommend that Commissioners review capital budget targets and their impact on rates early in the budget process so that if there are concerns, they can be addressed long before the plan is finalized.

**Bumping up against affordability limits is new for the SFPUC.** They don't appear to understand that the risk to ratepayers is much greater than what they are presenting. Please help them understand by asking questions and making recommendations as a result of what you learn. There needs to be a strong voice, such as that of the CAC, pressing this issue.

**It will take persistence.** In November Commissioner Ajami asked staff for information on how lower water sales would impact the budget and has repeated the request several times since then, but staff has yet to produce anything.

For reference, below are selected slides that help demonstrate the risk.

Best regards,

Dave Warner

## A Discussion of Selected Slides Highlighting Ratepayer Risk

- 1) This slide is taken from the SFPUC January 22<sup>nd</sup> budget presentaFon. It projects that 20 years from now there will be just a 1% cushion between rates and affordability. It is very difficult to project that accurately 20 years out. When there is uncertainty to a projecFon, a best pracFon is to increase the cushion/allowable margin of error.

### Ratepayer Affordability Projected 20 Years Out: No Margin for Error

**Assumes increases in water demand, housing/population  
Big risk if the future is different than projected**

Source: Slide 45 of January 22, 2024 budget presentation

- 2) This slide shows the SFPUC's track record of projecting water demand. The dashed lines reflect the projections from the Urban Water Management Plans. The dotted lines reflect more conservative projections from the finance department. The solid black line is actual demand. It is difficult to accurately project demand even 5 years out, much less 20.

## Water Demand Declining Population Growth May Be Small

- **Per Capita Demand:** Many, including SFPUC Commissioner Ajami and the Pacific Institute, believe San Francisco per capita demand will continue to decline. *We're not close to "demand hardening"*
- **Population:** The California Department of Finance in July 2023 projected San Francisco's 2045 population at ~850,000, much lower than the SFPUC 2020 Urban Water Management Plan projection of ~1,250,000
- **Projections:** Demand continually overestimated. *Reliability at any cost*

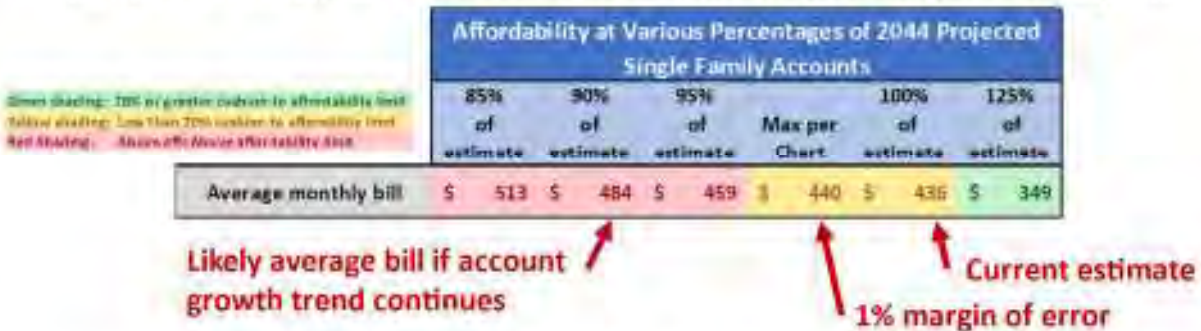

3) This slide is derived from a public records act request. It turns out that a primary driver of the affordability calculation is the number of single-family households. The table at the top shows what 2044 rates would be under various assumptions for the number of single-family households. \$436 is the projected monthly bill and \$440 is the affordability limit (shown with yellow shading). The table in the lower left corner shows that from 2010 to 2020 the number of single family households grew only 1% while San Francisco's population grew 8%.

In its affordability analysis the SFPUC assumed the number of households will grow by 12% in the next 20 years. Given the recent population decline and the 2010-2020 1% growth in single family accounts, 12% is risky. If single family housing growth followed the 2010-2020 trend, then the \$436 rate 20 years from now would instead be \$484, well above the \$440 affordability limit. The SFPUC should provide this kind of risk analysis for all the major factors that affect affordability.

This is just one example of multiple risks that would likely cause rates to exceed affordability limits. The SFPUC should make such risks transparent to both approvers and its constituents.

## An Example of Affordability Risk: Single Family Accounts

*The more accounts, the more costs can be distributed, lowering the average bill*

Single Family Accounts Didn't Grow with Population

	2010	2020	10 Year Growth
Single Family Accounts	109,644	110,791	1%
Population	806,000	870,000	8%

- SFPUC affordability model assumes single family accounts grow 12% over next 20 years
  - Account projection not consistent with history, despite large population growth
- Higher rates leads to lower sales which leads to higher rates, etc.. Leads to a death spiral where the SFPUC can't reduce its fixed costs as demand declines

**Re: Water Enterprise Drives Astonishing Growth in the Price of Water**

Dear SFPUC Commissioners,

The SFPUC’s water enterprise division continues to drive astonishing increases in the price of water through its continued massive capital investments.

The chart below shows cumulative compound annual water rate increases since 1980 and projected through 2044 as compared to historical and projected inflation rates.<sup>1</sup>

The chart shows that not only have water rates been rapidly climbing well above the inflation rate for the last 20 years, but they are projected to continue to do so for most of the next 20 years. Rates are likely to go even higher as the red dotted line shows if single family housing growth rates are lower than projected.

As mentioned in an earlier letter,<sup>2</sup> when combined with increases in sewer rates, the projected rates (blue dashed line) come within 1% of the SFPUC’s affordability policy limit, erasing what

<sup>1</sup> Historical water rates determined from CCSF public records request 24-2552. Projected water rates determined from CCSF public records request 24-1528. Lower housing growth rates were calculated also from public records request 24-1528. Historical inflation data taken from Investopedia article, “U.S. Inflation Rate by Year: 1929 to 2024 by Haranmayi Srinivasan updated May 2, 2024. Projected inflation rates taken from Statista Research Department, “Projected annual inflation rate 2010-2028” dated November 30, 2023.

<sup>2</sup> See attached letter dated February 12, 2024.

today is about a 40% cushion between rates and affordability limits. Should rates follow the red dotted line, the affordability policy limit will be exceeded.

**Water Enterprise is the Biggest Contributor to the Jump in the 10 Year Capital Plan**

While much attention has been given to the \$3 billion jump from last year’s 10 year capital plan (now projected to be \$11.8 billion) and how sewer enterprise projects are critically needed including denitrification, much less has been discussed regarding the big one year jump in the water enterprise capital plan.

10 Yr Capital Plan (\$ millions)				
	2024	2025	Yr/yr Increase	Percent increase
<b>Water</b>	\$ 3,241	\$ 4,489	\$ 1,248	38%
<b>Wastewater</b>	\$ 4,879	\$ 6,040	\$ 1,161	24%
<b>Power</b>	\$ 669	\$ 1,283		
<b>Total</b>	\$ 8,788	\$ 11,812		

The table to the left shows that Water Enterprise’s year over year jump in the 10 year plan was bigger dollar-wise than Wastewater’s increase and on a percentage basis much bigger than Wastewater’s increase (38% versus 24%).

With Wastewater we know that denitrification driven by regulatory requirements is a primary driver of the jump, perhaps accounting for more than 80% of the increase. The reasons for Water Enterprise’s plan needing to jump so much this year are less clear. Should some of the Water Enterprise projects be deferred or reduced in size? That would take some pressure off the sustained large rate increases.

**Water Enterprise’s Capital Plan Makes Alternative Water Supplies More Difficult**

With little investment in Alternative Water Supplies (AWS) in the 10 year capital plan and with rates already increasing at an alarming rate, there’s little ability to invest in AWS in the next 10 years without causing rates to jump even further. While it is accepted that AWS such as potable reuse are a reliable water supply, the SFPUC is constrained in its ability to adapt and produce more AWS.

**Debt Exacerbates the Problem**

Increasing levels of debt is driven by the capital plan. As previously mentioned in the attached letter, by 2044 SFPUC debt service costs alone will exceed the entire SFPUC-wide 2023 operating budget. In less than 10 years debt service costs will make up more than half of Water Enterprise’s annual operating budget. Of course the \$4.8 billion Water System Improvement Plan (WSIP) was and is needed which started the growth in debt, but imagine if the debt service costs didn’t exist. Water rates would be less than half of what’s projected today.

It appears that an unintended consequence to the WSIP was the SFPUC becoming addicted to debt. An analogy might be auto loans for consumers. Once a consumer has a car loan, perhaps out of a need for a car for work, it can become a never-ending cycle of paying for cars with increasing levels of debt. A good financial planner would say to build personal finances to a place where one day a car loan won’t be needed. Perhaps the SFPUC should take such advice for its debt. The first step is to reduce how much additional debt is needed.

## The Water Enterprise 10 Year Capital Plan Needs to be Revisited

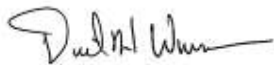

Ways need to be found to reduce the size of the Water Enterprise 10 year capital plan.

Opportunities to explore:

- 1) Is the regional water system designed to provide more water than needed? Would reducing the volumes carried in the RWS reduce the size and urgency of the proposed projects? In the long term, as demand may continue to decline, the cost of maintaining a massive system to import water from the Tuolumne will increase on a per unit basis. Developing a strategy now to right size the RWS will save ratepayers for decades into the future.
- 2) How can we leverage investing in AWS now to reduce the need for some of the capital investment in the 10 year capital plan? What projects could be deferred under the assumption that AWS will take up the slack?
- 3) The design drought is a once in 25,000 year event, even when factoring in scientists' best estimates of the impact of climate change (per the SFPUC's Long Term Vulnerability Assessment (LTVA)). How can adjusting the design drought to a more reasonable level of risk help reduce the need for capital investment?

The projected astonishing retail water rate increases are an example of how staff hasn't developed a vision other than more of the same for the 21<sup>st</sup> century. The LTVA warned us about the risk of exceptionally high water rates.

## Re: Proposed Budget has Significant Issues and Risks, Mostly to Ratepayers

Dear SFPUC Commissioners, Bay Area Water Stewards participants and Citizens Advisory Committee members,

The massive proposed budget and financial plan you are being asked to approve has significant risks and issues that mostly affect ratepayers. This letter provides a summary that not only covers concerns raised before but adds others, including a hidden rate increase without public input, and suggesting another revenue source that would both reduce pressure on rates and reduce the regressive nature of having stormwater related investments charged to ratepayers. **As much as not approving the budget will put the budget calendar into disarray, it is much better than subjecting ratepayers to the risks the budget and financial plan presents. Please choose to NOT approve either the proposed budget or financial plan. Many good things will come out of doing so.**

### Issue 1: Uncertainty – The 1% Affordability Cushion is Too Small

If the pandemic has taught us anything, it would be that it is difficult to predict the future. San Francisco's population, median income and water use all declined. For example, in its 2020 Urban Water Management Plan, the SFPUC projected that in 2025 San Francisco's population would be 1.0 million. As of the end of 2023 the population was 848,000<sup>1</sup>. It's unlikely the population will grow by 150,000 in less than two years. Making accurate projections 20 years from now is even more difficult.

Projecting average water and sewer bills coming in 1% below the affordability limit 20 years from now, as the chart below shows, is highly unlikely. If the population or housing units grow less than projected, average monthly bills will need to go higher. If we need to make unplanned

<sup>1</sup> As reported by the California Department of Finance.

investments, average monthly bills will go higher. For enterprises with relatively fixed water and sewer usage, their bills will increase even more as per capita demand declines.

### Issue 2: A highly constrained future with little flexibility/adaptability

Having the affordability cushion as small as 1% is a demonstration of how the SFPUC is severely impacting its flexibility and adaptability for decades with this budget and financial plan. Worse is the impact that the 10 year financial plan has on debt service costs (annual interest and principal payments needed to pay for debt). By 2044 debt service costs alone will exceed the entire, SFPUC-wide, 2023 operating budget.

The chart below shows how highly constrained we will be. Debt service costs don't start to decline

until after 2050, which limits our ability to make additional investments for the next 25+ years compounded by the fact that combined water and sewer bills will be bumping up against affordability limits.

### Issue 3: Affordability Risk Increases When Projections are Overestimated

The size of average combined water and sewer bills is highly dependent on the amount of new housing built. If less housing is built than projected, there are fewer customers, hence combined bills need to increase further to offset the associated revenue shortfall.

### Issue 4: Projecting Additional Rate Increases Without Public Input

The above slide shows the combined monthly bill impact averaging 8.1% per year over the next 10 years, for a cumulative 10 year impact of 117%. One needs to go back to the February 2023 budget presentation to see that the combined monthly bill impact was then projected to average 6.6% per year for a cumulative 10 year impact of 90%. **There should have been a slide calling out the rise so that commissioners and the public clearly understand that another rate increase is being considered as part of these financial plans.**

One might argue that public input isn't needed, as the rates for years 3 through 10 are not being formally approved. The argument seems disrespectful, as approval of the underlying financial plans requires the additional increases to water and sewer rates. Look at last May's rate hearings as an example. The rates approved were the same rates shown in the February 2023 budget hearings.

### **Issue 5: Need to Understand Alternative Water Supply Plan Risk**

The final Alternative Water Supply (AWS) Plan is expected to be presented soon, perhaps this month. The draft called for needs of additional supply of 92 mgd more in the next 20 years. But the 10-Year Financial Plan has no significant investment in AWS. How should decision makers and the public think about this? Is it expected that some AWS investment will be needed? If so, how will AWS investments affect the projections and affordability? A \$5 billion investment in AWS, even if two thirds is borne by BAWSCA, would have a significant impact on affordability, and further constrain any remaining flexibility.

### **Remember Proposition H and the Ratepayer Revolt of 1998**

In 1998, San Francisco voters passed proposition H, which froze rates for a number of years. This was a big contributor to where we are today – the need to make infrastructure investments that should have been done years ago. We certainly don't want that to happen again. At what point will ratepayers revolt again?

### **Consider Another Revenue Source for Stormwater and other Public Good investments**

Property value based parcel tax assessments can be a more progressive way to fund needed improvements in that the residents with more expensive properties pay more. Stormwater related investments are good candidates for such a revenue stream given that all parties benefit independent of water use. There is also time to get such a measure on the November ballot. You likely know that the Santa Clara Valley Water District has done this as recently as November 2020 with their measure S approved by voters by a wide margin. They use the funds for a range of projects including pipeline restoration, seismic retrofits and flood control. And they have issued bonds against the property tax revenue stream to access funds sooner. The SFPUC doing similarly would take pressure off affordability, low income households and businesses.

### **Saying No Has Many Good Benefits**

Not approving the budget and financial plan has many positive benefits. Two big benefits are that you are saying that affordability and the ability to be flexible are important. Saying no will require staff to take a harder look at prioritizing and searching for innovative ways to do more with less and consider funding some investments through other revenue sources such as parcel taxes. You're not saying that we can't invest. You are instead saying we can't invest as fast as we'd like using ratepayer sourced funding.

**Saying no is also not telling staff that they have done a bad job. Instead, staff has done a remarkable job in understanding needed investment priorities in our challenging situation of years of underinvestment.** But you are telling them to sharpen their pencils. Come back with a

plan that puts less risk on ratepayers. In my experience as a CFO, being a backstop that says no, that we can't afford this, can have exceptional results.

### **Consider Getting Board of Supervisors Input Before Making a Decision**

It may be worthwhile to speak to one or more of the Board of Supervisors to get their perspectives on the challenging situation prior to making a decision. If you were to approve the budget and the Board of Supervisors later does not approve, it could be viewed that the commission is not doing its fiduciary duty to the public and raise questions about the effectiveness of the commission as an independent oversight body. Of course if the Board of Supervisors supports your decision, it is a job well done. This is a particularly challenging budget situation.

### **Recommendations to Commissioners**

Please consider asking General Manager Herrera and his staff to:

- 1) Come back with a plan that reduces risk to ratepayers and gives us better flexibility and adaptability.
- 2) Come back with an affordability cushion that is more appropriate for a 20 year projection.
- 3) Call out specifically, in one or more slides, any potential changes in 10 year rate projections over last year.
- 4) Call out specifically, in one or more slides, of how we should think about AWS investments and numerically how they might affect financial planning going forward.
- 5) Please provide a quantified risk analysis in one or more slides. What are key underlying estimates for 20 year projections, and how would affordability be impacted if these estimates are overly optimistic? It isn't a fault that such information wasn't provided before, but in this environment where we want to make big investments and with tight limits to our ability to invest, we should understand underlying risks.
- 6) Provide an initial evaluation of other funding sources, such as property valuation based parcel taxes and how rates could be favorably affected.

Yes, you will be exercising your team and causing disarray to the schedule, but it's a capable team that should be able to take it. The beginning of the next fiscal year is more than 4 months away.

### **An example of the Long Term Impact**

Given the large debt financed investments recently made and along with those contemplated in the financial plan, combined with the fact that debt obligations can't easily be unwound, this budget as proposed will affect San Franciscans for decades. Slide 11, from Tuesday's upcoming budget presentation, shown below, already demonstrates the loss of flexibility due to prior capital commitments.

The slide shows that the budget is growing 18% over the next two years, but only 1.5% is from new proposals contemplated by this budget. In other words, the budget is already growing 16.5% over two years and there is little that can be done to reduce that growth. While the slide mentions that power purchases are partly responsible for the growth, the majority is from

capital commitments already made.

You don't have an easy decision. San Francisco has needs that this financial plan wants to address. Is it the right thing to pursue such an increase in investment and De up our future this way for decades to come? Are the risks, particularly to ratepayers, fully understood? Have all options been adequately explored including other revenue streams?

For such a consequential budget and financial plan it is worth directing staff to take another pass at it.

**Re: SFPUC CAC: Ratepayers and the City Need You to Make Rates A Priority This Year**

Dear Citizens Advisory Committee Members,

As you are likely aware, the SFPUC is in the last stages of getting approval for its massive \$11.8 billion 10 year capital plan. **As it stands, the plan already projects major increases in rates that bump up against the SFPUC's ratepayer affordability limits for water and wastewater. However, the even bigger issue (that the SFPUC doesn't appear to understand) is that the assumptions behind the rate projections have a reasonable likelihood of not being achieved, which would push rates well above affordability limits.**

The basic issue is that the SFPUC's water and wastewater enterprises have mostly fixed costs (the water enterprise fixed cost portion of its expenses is in excess of 90%). When overall demand declines, rates have to increase to cover fixed costs and to make up for lower unit sales.

Capital investment increases fixed costs. To exacerbate the situation, the capital investment is funded in large part by issuing debt. Like a home mortgage, debt payments last 30 years. Because of the debt, if several years from now we decide that rates are going up too much, there's limited flexibility to reduce rates as we can't reduce debt service costs. For context, with this capital plan the SFPUC is projecting that by 2044 debt service costs alone will exceed the size of the entire SFPUC 2023/24 budget.

**The SFPUC has not acknowledged the risk to ratepayers in any significant way** and continues to work through the City's budget approval process without doing so. The good news is that the first two years of the 10 year plan are about the same as what was projected in last year's \$8.8 billion 10 year capital plan (\$3 billion less than the present plan). This means that even if this year's plan is approved, it could be scaled back in next year's plan, although fewer projects will be available for reworking or reprioritizing.

You might ask, aren't there other committees that should be leading this charge, such as the SFPUC Rate Fairness Board or the SFPUC Revenue Bond Oversight Committee (RBOC)? It appears the Rate Fairness Board is primarily concerned with fairness in allocating rates between types of customers and fixed and variable costs and that the RBOC is more about overseeing bond management as opposed to the overall financial plan. In any event, neither committee has taken up the rate risk concern.

There's a lot of interest in the >\$1 billion added to the plan for wastewater denitrification and for sewer system improvements. But of the \$3 billion increase in the 10 year capital plan from last year, only \$1.2 billion is part of wastewater. Another \$1.2 billion of the increase goes to the two water enterprise divisions, its biggest one year jump in the last 10 years. It seems like there could be room to reduce/delay some of the water enterprise investments, particularly given that we've been investing heavily in the Water System Improvement Program over the last two decades.

Actions you could take this year:

## Understand the Scope of the Risk

- 1) **Check the validity of the concerns raised here:** Ask the SFPUC to present to you a risk analysis on rate projections. This should NOT be a review of the budget but a review of the underlying assumptions to the rate projections. What are the underlying assumptions for demand, population and housing? How do rates change if those projections are off? How do rates change with project overruns (a common occurrence)? How do rates change if additional investments are needed, such as for alternative water supplies? How do the affordability limits change if household income grows more slowly than projected? The presentation should have charts addressing each of these risks along with how rates are affected if two or more risks materialize.
- 2) **Understand risk mitigation strategies:** What actions can be taken if risks start to materialize? What's the relationship between capital investment and rates? If an additional \$1 billion of capital investment is needed (for project overruns or otherwise), how much would rates change? What is the financial impact of each risk mitigation strategy, including exactly how much rates would be offset?
- 3) **Invite an independent financial expert to the meeting:** The expert would help evaluate the quality of the materials being presented. An independent financial expert could be the City's Controller (or someone else who's not associated with the SFPUC).

## Recommend Improvements

- 4) **Provide guidance on how much of a cushion there should be between projected rates and affordability limits:** In the past there's generally been a 40% cushion between rates and affordability limits, much more than the 1% cushion currently projected.
- 5) **Recommend content changes to next year's financial plan materials presented for approval:** Financial plans submitted for approval should include rate risk analyses, similar to what is being requested in items #1 and #2 above. Without such information, approvers have little understanding of the risks to the plans they are approving.
- 6) **Recommend timing changes:** For this year's budget approval, SFPUC Commissioners didn't get a sense of the size of the budget and 10 year capital plan until the final version was presented on February 2<sup>nd</sup>, only 11 days before the February 13<sup>th</sup> approval meeting. Recommend that Commissioners review capital budget targets and their impact on rates early in the budget process so that if there are concerns, they can be addressed long before the plan is finalized.

**Bumping up against affordability limits is new for the SFPUC.** They don't appear to understand that the risk to ratepayers is much greater than what they are presenting. Please help them understand by asking questions and making recommendations as a result of what you learn. There needs to be a strong voice, such as that of the CAC, pressing this issue.

**It will take persistence.** In November Commissioner Ajami asked staff for information on how lower water sales would impact the budget and has repeated the request several times since then, but staff has yet to produce anything.

For reference, below are selected slides that help demonstrate the risk.

## A Discussion of Selected Slides Highlighting Ratepayer Risk

- 1) This slide is taken from the SFPUC January 22<sup>nd</sup> budget presentaFon. It projects that 20 years from now there will be just a 1% cushion between rates and affordability. It is very difficult to project that accurately 20 years out. When there is uncertainty to a projecFon, a best pracFon is to increase the cushion/allowable margin of error.

### Ratepayer Affordability Projected 20 Years Out: No Margin for Error

**Assumes increases in water demand, housing/population  
Big risk if the future is different than projected**

Source: Slide 45 of January 22, 2024 budget presentation

- 2) This slide shows the SFPUC's track record of projecting water demand. The dashed lines reflect the projections from the Urban Water Management Plans. The dotted lines reflect more conservative projections from the finance department. The solid black line is actual demand. It is difficult to accurately project demand even 5 years out, much less 20.

## Water Demand Declining Population Growth May Be Small

- **Per Capita Demand:** Many, including SFPUC Commissioner Ajami and the Pacific Institute, believe San Francisco per capita demand will continue to decline. *We're not close to "demand hardening"*
- **Population:** The California Department of Finance in July 2023 projected San Francisco's 2045 population at ~850,000, much lower than the SFPUC 2020 Urban Water Management Plan projection of ~1,250,000
- **Projections:** Demand continually overestimated. *Reliability at any cost*

3) This slide is derived from a public records act request. It turns out that a primary driver of the affordability calculation is the number of single-family households. The table at the top shows what 2044 rates would be under various assumptions for the number of single-family households. \$436 is the projected monthly bill and \$440 is the affordability limit (shown with yellow shading). The table in the lower left corner shows that from 2010 to 2020 the number of single family households grew only 1% while San Francisco's population grew 8%.

In its affordability analysis the SFPUC assumed the number of households will grow by 12% in the next 20 years. Given the recent population decline and the 2010-2020 1% growth in single family accounts, 12% is risky. If single family housing growth followed the 2010-2020 trend, then the \$436 rate 20 years from now would instead be \$484, well above the \$440 affordability limit. The SFPUC should provide this kind of risk analysis for all the major factors that affect affordability.

This is just one example of multiple risks that would likely cause rates to exceed affordability limits. The SFPUC should make such risks transparent to both approvers and its constituents.

## An Example of Affordability Risk: Single Family Accounts

*The more accounts, the more costs can be distributed, lowering the average bill*

Single Family Accounts Didn't Grow with Population

	2010	2020	10 Year Growth
Single Family Accounts	109,644	110,791	1%
Population	806,000	870,000	8%

- SFPUC affordability model assumes single family accounts grow 12% over next 20 years
  - Account projection not consistent with history, despite large population growth
- Higher rates leads to lower sales which leads to higher rates, etc.. Leads to a death spiral where the SFPUC can't reduce its fixed costs as demand declines

**Re: Water Enterprise Drives Astonishing Growth in the Price of Water**

Dear SFPUC Commissioners,

The SFPUC's water enterprise division continues to drive astonishing increases in the price of water through its continued massive capital investments.

The chart below shows cumulative compound annual water rate increases since 1980 and projected through 2044 as compared to historical and projected inflation rates.<sup>1</sup>

The chart shows that not only have water rates been rapidly climbing well above the inflation rate for the last 20 years, but they are projected to continue to do so for most of the next 20 years. Rates are likely to go even higher as the red dotted line shows if single family housing growth rates are lower than projected.

As mentioned in an earlier letter,<sup>2</sup> when combined with increases in sewer rates, the projected rates (blue dashed line) come within 1% of the SFPUC's affordability policy limit, erasing what

<sup>1</sup> Historical water rates determined from CCSF public records request 24-2552. Projected water rates determined from CCSF public records request 24-1528. Lower housing growth rates were calculated also from public records request 24-1528. Historical inflation data taken from Investopedia article, "U.S. Inflation Rate by Year: 1929 to 2024 by Haranmayi Srinivasan updated May 2, 2024. Projected inflation rates taken from Statista Research Department, "Projected annual inflation rate 2010-2028" dated November 30, 2023.

<sup>2</sup> See attached letter dated February 12, 2024.

today is about a 40% cushion between rates and affordability limits. Should rates follow the red dotted line, the affordability policy limit will be exceeded.

**Water Enterprise is the Biggest Contributor to the Jump in the 10 Year Capital Plan**

While much attention has been given to the \$3 billion jump from last year’s 10 year capital plan (now projected to be \$11.8 billion) and how sewer enterprise projects are critically needed including denitrification, much less has been discussed regarding the big one year jump in the water enterprise capital plan.

10 Yr Capital Plan (\$ millions)				
	2024	2025	Yr/yr Increase	Percent increase
<b>Water</b>	\$ 3,241	\$ 4,489	\$ 1,248	38%
<b>Wastewater</b>	\$ 4,879	\$ 6,040	\$ 1,161	24%
<b>Power</b>	\$ 669	\$ 1,283		
<b>Total</b>	\$ 8,788	\$ 11,812		

The table to the left shows that Water Enterprise’s year over year jump in the 10 year plan was bigger dollar-wise than Wastewater’s increase and on a percentage basis much bigger than Wastewater’s increase (38% versus 24%).

With Wastewater we know that denitrification driven by regulatory requirements is a primary driver of the jump, perhaps accounting for more than 80% of the increase. The reasons for Water Enterprise’s plan needing to jump so much this year are less clear. Should some of the Water Enterprise projects be deferred or reduced in size? That would take some pressure off the sustained large rate increases.

**Water Enterprise’s Capital Plan Makes Alternative Water Supplies More Difficult**

With little investment in Alternative Water Supplies (AWS) in the 10 year capital plan and with rates already increasing at an alarming rate, there’s little ability to invest in AWS in the next 10 years without causing rates to jump even further. While it is accepted that AWS such as potable reuse are a reliable water supply, the SFPUC is constrained in its ability to adapt and produce more AWS.

**Debt Exacerbates the Problem**

Increasing levels of debt is driven by the capital plan. As previously mentioned in the attached letter, by 2044 SFPUC debt service costs alone will exceed the entire SFPUC-wide 2023 operating budget. In less than 10 years debt service costs will make up more than half of Water Enterprise’s annual operating budget. Of course the \$4.8 billion Water System Improvement Plan (WSIP) was and is needed which started the growth in debt, but imagine if the debt service costs didn’t exist. Water rates would be less than half of what’s projected today.

It appears that an unintended consequence to the WSIP was the SFPUC becoming addicted to debt. An analogy might be auto loans for consumers. Once a consumer has a car loan, perhaps out of a need for a car for work, it can become a never-ending cycle of paying for cars with increasing levels of debt. A good financial planner would say to build personal finances to a place where one day a car loan won’t be needed. Perhaps the SFPUC should take such advice for its debt. The first step is to reduce how much additional debt is needed.

## The Water Enterprise 10 Year Capital Plan Needs to be Revisited

Ways need to be found to reduce the size of the Water Enterprise 10 year capital plan.

Opportunities to explore:

- 1) Is the regional water system designed to provide more water than needed? Would reducing the volumes carried in the RWS reduce the size and urgency of the proposed projects? In the long term, as demand may continue to decline, the cost of maintaining a massive system to import water from the Tuolumne will increase on a per unit basis. Developing a strategy now to right size the RWS will save ratepayers for decades into the future.
- 2) How can we leverage investing in AWS now to reduce the need for some of the capital investment in the 10 year capital plan? What projects could be deferred under the assumption that AWS will take up the slack?
- 3) The design drought is a once in 25,000 year event, even when factoring in scientists' best estimates of the impact of climate change (per the SFPUC's Long Term Vulnerability Assessment (LTVA)). How can adjusting the design drought to a more reasonable level of risk help reduce the need for capital investment?

The projected astonishing retail water rate increases are an example of how staff hasn't developed a vision other than more of the same for the 21<sup>st</sup> century. The LTVA warned us about the risk of exceptionally high water rates.

## Re: Proposed Budget has Significant Issues and Risks, Mostly to Ratepayers

Dear SFPUC Commissioners, Bay Area Water Stewards participants and Citizens Advisory Committee members,

The massive proposed budget and financial plan you are being asked to approve has significant risks and issues that mostly affect ratepayers. This letter provides a summary that not only covers concerns raised before but adds others, including a hidden rate increase without public input, and suggesting another revenue source that would both reduce pressure on rates and reduce the regressive nature of having stormwater related investments charged to ratepayers. **As much as not approving the budget will put the budget calendar into disarray, it is much better than subjecting ratepayers to the risks the budget and financial plan presents. Please choose to NOT approve either the proposed budget or financial plan. Many good things will come out of doing so.**

### Issue 1: Uncertainty – The 1% Affordability Cushion is Too Small

If the pandemic has taught us anything, it would be that it is difficult to predict the future. San Francisco's population, median income and water use all declined. For example, in its 2020 Urban Water Management Plan, the SFPUC projected that in 2025 San Francisco's population would be 1.0 million. As of the end of 2023 the population was 848,000<sup>1</sup>. It's unlikely the population will grow by 150,000 in less than two years. Making accurate projections 20 years from now is even more difficult.

Projecting average water and sewer bills coming in 1% below the affordability limit 20 years from now, as the chart below shows, is highly unlikely. If the population or housing units grow less than projected, average monthly bills will need to go higher. If we need to make unplanned

<sup>1</sup> As reported by the California Department of Finance.

investments, average monthly bills will go higher. For enterprises with relatively fixed water and sewer usage, their bills will increase even more as per capita demand declines.

### Issue 2: A highly constrained future with little flexibility/adaptability

Having the affordability cushion as small as 1% is a demonstration of how the SFPUC is severely impacting its flexibility and adaptability for decades with this budget and financial plan. Worse is the impact that the 10 year financial plan has on debt service costs (annual interest and principal payments needed to pay for debt). By 2044 debt service costs alone will exceed the entire, SFPUC-wide, 2023 operating budget.

The chart below shows how highly constrained we will be. Debt service costs don't start to decline

until after 2050, which limits our ability to make additional investments for the next 25+ years compounded by the fact that combined water and sewer bills will be bumping up against affordability limits.

### Issue 3: Affordability Risk Increases When Projections are Overestimated

The size of average combined water and sewer bills is highly dependent on the amount of new housing built. If less housing is built than projected, there are fewer customers, hence combined bills need to increase further to offset the associated revenue shortfall.

### Issue 4: Projecting Additional Rate Increases Without Public Input

The above slide shows the combined monthly bill impact averaging 8.1% per year over the next 10 years, for a cumulative 10 year impact of 117%. One needs to go back to the February 2023 budget presentation to see that the combined monthly bill impact was then projected to average 6.6% per year for a cumulative 10 year impact of 90%. **There should have been a slide calling out the rise so that commissioners and the public clearly understand that another rate increase is being considered as part of these financial plans.**

One might argue that public input isn't needed, as the rates for years 3 through 10 are not being formally approved. The argument seems disrespectful, as approval of the underlying financial plans requires the additional increases to water and sewer rates. Look at last May's rate hearings as an example. The rates approved were the same rates shown in the February 2023 budget hearings.

### **Issue 5: Need to Understand Alternative Water Supply Plan Risk**

The final Alternative Water Supply (AWS) Plan is expected to be presented soon, perhaps this month. The draft called for needs of additional supply of 92 mgd more in the next 20 years. But the 10-Year Financial Plan has no significant investment in AWS. How should decision makers and the public think about this? Is it expected that some AWS investment will be needed? If so, how will AWS investments affect the projections and affordability? A \$5 billion investment in AWS, even if two thirds is borne by BAWSCA, would have a significant impact on affordability, and further constrain any remaining flexibility.

### **Remember Proposition H and the Ratepayer Revolt of 1998**

In 1998, San Francisco voters passed proposition H, which froze rates for a number of years. This was a big contributor to where we are today – the need to make infrastructure investments that should have been done years ago. We certainly don't want that to happen again. At what point will ratepayers revolt again?

### **Consider Another Revenue Source for Stormwater and other Public Good investments**

Property value based parcel tax assessments can be a more progressive way to fund needed improvements in that the residents with more expensive properties pay more. Stormwater related investments are good candidates for such a revenue stream given that all parties benefit independent of water use. There is also time to get such a measure on the November ballot. You likely know that the Santa Clara Valley Water District has done this as recently as November 2020 with their measure S approved by voters by a wide margin. They use the funds for a range of projects including pipeline restoration, seismic retrofits and flood control. And they have issued bonds against the property tax revenue stream to access funds sooner. The SFPUC doing similarly would take pressure off affordability, low income households and businesses.

### **Saying No Has Many Good Benefits**

Not approving the budget and financial plan has many positive benefits. Two big benefits are that you are saying that affordability and the ability to be flexible are important. Saying no will require staff to take a harder look at prioritizing and searching for innovative ways to do more with less and consider funding some investments through other revenue sources such as parcel taxes. You're not saying that we can't invest. You are instead saying we can't invest as fast as we'd like using ratepayer sourced funding.

**Saying no is also not telling staff that they have done a bad job. Instead, staff has done a remarkable job in understanding needed investment priorities in our challenging situation of years of underinvestment.** But you are telling them to sharpen their pencils. Come back with a

plan that puts less risk on ratepayers. In my experience as a CFO, being a backstop that says no, that we can't afford this, can have exceptional results.

### **Consider Getting Board of Supervisors Input Before Making a Decision**

It may be worthwhile to speak to one or more of the Board of Supervisors to get their perspectives on the challenging situation prior to making a decision. If you were to approve the budget and the Board of Supervisors later does not approve, it could be viewed that the commission is not doing its fiduciary duty to the public and raise questions about the effectiveness of the commission as an independent oversight body. Of course if the Board of Supervisors supports your decision, it is a job well done. This is a particularly challenging budget situation.

### **Recommendations to Commissioners**

Please consider asking General Manager Herrera and his staff to:

- 1) Come back with a plan that reduces risk to ratepayers and gives us better flexibility and adaptability.
- 2) Come back with an affordability cushion that is more appropriate for a 20 year projection.
- 3) Call out specifically, in one or more slides, any potential changes in 10 year rate projections over last year.
- 4) Call out specifically, in one or more slides, of how we should think about AWS investments and numerically how they might affect financial planning going forward.
- 5) Please provide a quantified risk analysis in one or more slides. What are key underlying estimates for 20 year projections, and how would affordability be impacted if these estimates are overly optimistic? It isn't a fault that such information wasn't provided before, but in this environment where we want to make big investments and with tight limits to our ability to invest, we should understand underlying risks.
- 6) Provide an initial evaluation of other funding sources, such as property valuation based parcel taxes and how rates could be favorably affected.

Yes, you will be exercising your team and causing disarray to the schedule, but it's a capable team that should be able to take it. The beginning of the next fiscal year is more than 4 months away.

### **An example of the Long Term Impact**

Given the large debt financed investments recently made and along with those contemplated in the financial plan, combined with the fact that debt obligations can't easily be unwound, this budget as proposed will affect San Franciscans for decades. Slide 11, from Tuesday's upcoming budget presentation, shown below, already demonstrates the loss of flexibility due to prior capital commitments.

The slide shows that the budget is growing 18% over the next two years, but only 1.5% is from new proposals contemplated by this budget. In other words, the budget is already growing 16.5% over two years and there is little that can be done to reduce that growth. While the slide mentions that power purchases are partly responsible for the growth, the majority is from

capital commitments already made.

You don't have an easy decision. San Francisco has needs that this financial plan wants to address. Is it the right thing to pursue such an increase in investment and De up our future this way for decades to come? Are the risks, particularly to ratepayers, fully understood? Have all options been adequately explored including other revenue streams?

For such a consequential budget and financial plan it is worth directing staff to take another pass at it.

Kind regards,

Dave Warner

Hello - I am an SFPUC customer because I live in Palo Alto and we drink Hetch Hetchy water - thus our water costs are impacted by SFPUC's budget.

I am writing to ask the Budget and Appropriations Cmte to review not just the finances but also the policies of the SFPUC. I'm particularly concerned about their "Design Drought". From research I've read, their figures are higher than needed. If it is done right, an audit will show that the length of the Design Drought could be reduced by a year without risking water shortages. Also their water demand projections are not based on current activity - people are conserving water (we Californians care about water!). Both of these corrections to SFPUC's budget policies would drop the "needed" cost increase noticeably. Given that SFPUC's rates are already highest in Calif, a thorough look at their policies is warranted. Yes of course they need to catch up on deferred maintenance (and institute policies to prevent such future deferment!) But re-thinking how they calculate what's really needed, seems a prime target.

Not incidentally, such adjustments would benefit the source of that water - the Tuolumne River - and all its inhabitants and environs, which are part of the ecosystem in this center of California and affect everything from the salmon spawning areas to the Bay where we live. So reforming that "Design Drought" scenario would have a very broad positive impact.

Sincerely,

May 20, 2024

Dear Budget and Appropriations Committee Members,

I am a resident of San Francisco (District #3 — Aaron Peskin) and a utility ratepayer. I have been following the SFPUC's management of our utilities and am extremely concerned by what appears to be a lack of oversight and an unexamined approach to decision-making. In other words, mistakes are piled on top of mistakes and ratepayers bear the burden. The Board of Supervisors must conduct an audit of the SFPUC ASAP.

Such an audit must evaluate the SFPUC's finances as well as its policies. Ill-conceived water demand projections, specifically the SFPUC's Design Drought, have resulted in soaring water rates which look to continue to increase at levels that cannot be justified. (Our water rates are already the highest in CA.) The problem with the SFPUC's Design Drought is that it is arbitrary and unscientific. With this deeply flawed basis we are set to see pointless and wasteful future financial decisions — decisions that will needlessly and unfairly impact ratepayers.

For instance, on the horizon is the SFPUC's very expensive Alternative Water Supply Plan. This is what I mean when I say mistakes are piled on top of mistakes. Projected future water needs that are way off-base set the stage for extremely expensive (and unnecessary) new water supplies and spiraling water bills for us ratepayers.

An audit of the SFPUC is important and urgent and should start with a good look at the Design Drought. Water demand projections should be reasonable and defensible; the SFPUC's are neither. Ratepayers, Native communities, and the environment are being asked to pay the price of the SFPUC's mistakes and mismanagement. An audit is urgent.

Thank you for the opportunity to comment.

Sincerely,

Dear Committee Clerk Brent Jalipa

I am writing to ask you , to insist really, to audit the SFPUC, and specifically its ``Design Drought" operation. The SFPUC have close to the highest water rates in the state despite their direct conduit to Yosemite. They continue to overcharge, and ask for more water and funds, all this likely largely due to deferred maintenance.

My interests in this process are three-fold: one: I have many relatives and friends living in your service area, specifically in Alameda and Santa Clara counties. Second, the Tuolumne River is an essential and beautiful river coming out of the Sierras which I love. Third, to ignore this process is to disrespect tribes and environmental justice communities.

SF Board of Supervisors  
Budget and Appropriations Committee

Dear Supervisors:

There is an urgent need to audit both the finances and policies of the SFPUC - specifically its seriously flawed Design Drought.

San Franciscans already pay the highest water and wastewater rates in CA due to SFPUC mismanagement.

A thorough audit will reveal that the Design Drought can be reduced by one year without risking water shortages.

We do not need to invest in expensive and unnecessary alternative water supplies.

Reforming the Design Drought will protect ratepayers, our San Francisco Bay and our fisheries.

Thank you.

*To the SF Board of Supervisors Budget and Appropriations*

*I am not a financial expert, I am a Landscape Architect based in Palo Alto. Our Palo Alto utilities rely on the SFPUC water allotments, and I have followed the SFPUC policies and actions for many years because of my concern over the state of the Tuolumne River and environs.*

*I request that the S.F. Budget and Appropriations Comm. audit the policies as well as the finances of the SFPUC. For example, because of the out-of-date Design Drought numbers that SFPUC staff is working from (8.5-year drought plan scenario), their proposed budget includes unnecessary and costly constructions that will impact customers. The Design Drought already impacts the Tuolumne River because the SFPUC insists on a low water flow allowance for the river based on the 8.5 number.*

*Folks in the bay area have been consistently using less water than the SFPUC has predicted, and yet the SFPUC continues to project unrealistically high mgd numbers going forward to 2045. For example, for the past 9 years the total mgd has been below 200. The mgd in 2018 was 196. This was 31% less than SFPUC projected. Also, from 2000 to 2015 water demand in the bay area went down by an average of 25%. The SFPUC Design Drought is higher than the water districts of EBMUD, Santa Clara Valley and Alameda County.*

*The SFPUC also uses inaccurate predictions for population growth in the Bay Area. The Urban Water Plan that SFPUC uses projects a population of 1.25 million by 2045. The California Dept. of Finance predicts .85 million.*

*By correcting the mgd projections, the population projections, and the Design Drought, the data would then show that the SFPUC could increase the flows to the Tuolumne River. It would also mean that many of the projects for water storage etc. which the SFPUC can't afford without customer rate increases would not be necessary*

**Re: Item 3 – Need to Audit the SFPUC**

Dear Committee Members:

It's imperative that you rein in SFPUC spending. The agency is already facing a financial death spiral in which skyrocketing rate increases send a price signal to customers to use less water, which forces further rate increases as less water is sold. Water sales projections in the current 10-Year Financial Plan are highly likely to be inflated (as they have been every year in the past), which will make the SFPUC budget even more precarious than what has been presented to you.

A lot has changed just since you approved last year's SFPUC budget. The 10-Year Capital Plan has grown by \$3 billion. Combined water and sewer bills are now projected to be 43% higher in 10 years than in last year's projection. Despite the fact that water sales were the second lowest on record last year, current SFPUC sales projections for 10 years out are now 9 million gallons per day higher than they were last year. If they are wrong, which is likely, there will be budget shortfalls.

It's highly unlikely the SFPUC will be able to keep rates below the established affordability target. The budget approved by the SFPUC three months ago had less than a 1% cushion in 2044. That budget showed an 18% rate increase over the next two years. The Mayor's budget now shows a 20% rate increase.

Source: Mayor's Budget

The current financial crisis was primarily caused by deferred maintenance. Capital costs that should have been spread out over many decades must now be covered in a very short timeframe. While you can't reverse this past mistake, there's something you can do now to prevent a future mistake of even greater magnitude.

Please commission an independent audit the SFPUC, not just for financials, but also their Design Drought, which harms ratepayers as well as the Tuolumne River and San Francisco Bay-Delta. The Design Drought must be reviewed and corrected before the SFPUC over-invests in a tremendous amount of expensive and unnecessary alternative water supplies.

The Design Drought arbitrarily combines two of the worst droughts from the last century to create a manufactured mega-drought. As a result, water needed to cover a six- or seven-year drought now must be stretched to cover an unheard of 8.5-year extremely severe drought. The SFPUC is now planning to cover the perceived deficit by developing expensive alternative water supplies. The SFPUC's recent Alternative Water Supply Plan suggests that full implementation of the Plan would cost \$17 to \$25 billion, doubling the SFPUC budget.

An internal SFPUC document uncovered through a Public Records Act request suggests the chances of the Design Drought occurring (even with climate change) is 1-in-25,000. Consultants who produced the SFPUC's Long-Term Vulnerability Assessment (climate change study) reviewed 100 years of observed data, 1,100 years of tree ring data, and generated 25,000 simulated model runs, but could not produce a single drought as severe as the Design Drought.

We can demonstrate that the SFPUC could manage a drought far more severe than any on record with a much more modest investment in alternative water supplies, saving billions of dollars.

Attached, please find our letter to the SFPUC regarding their budget and Alternative Water Supply Plan. It will give you a better sense of our concerns.

Please commission an audit of the SFPUC. We would be very interested in providing information and analysis.

Thank you for serving as our watchdog over the SFPUC!

**Re: Items 8-11 on the February 13, 2024 Agenda.**

Dear President Paulson and Commissioners:

First of all, I'd like to commend your finance team for doing a good job at presenting the SFPUC Operating Budget and 10-Year Financial Plan. The materials are more transparent than in previous years, especially when it comes to debt service. I have grave concerns about the SFPUC's precarious financial position, but my comments should not be misconstrued as criticism of the messengers.

The SFPUC Budget and 10-Year Capital Plan are alarming, as evidenced in the staff presentation.<sup>1</sup> For example:

- The operating budget will grow by 18% over the next two years (slide 11).
- The 10-Year Capital Plan will grow by \$3 billion to \$11.8 billion (slide 21).
- Average combined water and sewer bills are projected to increase by 8.1% annually, tripling from \$142 to \$436 in 2044 (slide 34).
- Last year, the average combined water and sewer bills were projected to be \$305/month in 2033.<sup>2</sup> This year combined bills are projected to be 43% greater by 2034.
- The SFPUC is entering this budget cycle with \$8.5 billion in outstanding debt.<sup>3</sup>
- By FY 2034, the debt service will increase to 54% of the water budget, and 58% of the wastewater budget.<sup>4</sup>

## Water Sales and Affordability

In the proposed budget, Regional Water System (RWS) sales are projected to be 197 million gallons per day (mgd) in 2034 (slide 29). Last year sales were projected to be 188 mgd in 2033.<sup>5</sup> Someone should explain why sales projections increased by 9 mgd despite the fact that RWS sales were the second lowest on record in FY 2022/23 (172 mgd)<sup>6</sup> and the California Department of Finance revised its population growth projections downward last summer.<sup>7</sup>

If sales are below 197 mgd, which is likely, the SFPUC will not meet its affordability target. A July 5, 2022 SFPUC report<sup>8</sup> acknowledged that both Water Enterprise and Finance Bureau demand/sales projections have always exceeded actuals, significantly in the case of the Water Enterprise, which produces the Urban Water Management Plan.

On November 28, 2023, while discussing affordability, Commissioner Ajami pointed out that if water use goes down further, the SFPUC will have a very different revenue projection, which would impact rates. She directed staff to run a scenario under that situation.<sup>9</sup> Staff has yet to respond to this request, which would have been helpful prior to the budget hearings. The lack of follow through on this request is inconsistent with the statement on slide 4 of the budget presentation that states, “Commission follow up questions answered.”

What happens when actual sales are below projections? We received an example in December in the 1<sup>st</sup> Quarter Budget Report.<sup>10</sup> Due to lower-than-projected water sales, water revenues are projected to be \$25 million below budget (slide 3), and wastewater service charges \$26 million below budget (slide 4).

## How Did We Get Here, and Where Are We Headed?

The SFPUC’s current financial situation is the result of many decades of deferred maintenance that now require catch-up. The SFPUC finally began to address the backlog of capital projects with the \$4.8 billion Water System Improvement Program (WSIP) approved in 2008. Much of the SFPUC’s current debt is due to debt financing for the WSIP. The Sewer System Improvement Program (SSIP) is responsible for most of the projected new debt.

When the WSIP was being considered, RWS demand projections for 2018 were 285 mgd. Under the leadership of GM Ed Harrington, the SFPUC capped water sales at 265 mgd as a compromise to avoid lawsuits over the proposed diversion of an additional 25 mgd from the Tuolumne River. Between 2008 and 2013, prior to the 2012-16 drought, water demand dropped from 257 mgd to 223 mgd. As water rates soared (now more than triple what they were), consumers took advantage of opportunities to reduce their water use and keep their bills manageable. Actual demand in 2018 was 196 mgd, 31% below the projection. For the past nine years, RWS demand has been under 200 mgd.

The proposed rate increases will continue to drive per capita water use downward. As a result of rising system costs and decreasing sales, the SFPUC is likely headed toward an economic death spiral – rates will continue to increase to cover fixed costs, driving consumption down, increasing rates further. This should be of major concern to the SFPUC, Capital Planning Committee, Board of Supervisors and Mayor.

### Alternative Water Supply Plan

While we can't reverse past mistakes, there's still time to avoid a potentially catastrophic future mistake. If implemented as proposed, the SFPUC's Alternative Water Supply (AWS) Plan would double the budget, producing expensive new water that will not be needed. The SFPUC must make a thorough review of the AWS Plan a top priority.

AWS can be extremely expensive. The Peninsula and South Bay purified water projects would be similar to what Valley Water is proposing at the Regional Water Quality Control Plant in Palo Alto. Valley Water projects their project will produce purified water at a cost \$7,842 per acre foot of water.<sup>11</sup> The current price per acre-foot of SFPUC water is approximately \$2,000.

Before embarking on an extremely expensive AWS Plan that would require additional funding on top of the already astronomical SFPUC budget, it's imperative that the SFPUC be confident about projected future water needs. The numbers used in the AWS Plan are based on the SFPUC's 2020 Urban Water Management Plan. These Plans have historically over-projected demand in the range of 25%.<sup>12</sup>

The draft AWS Plan projects the SFPUC will need to develop between 92 mgd (demands) and 122 mgd (obligations) of new water supplies. According to the report, developing 22 mgd to 48 mgd of AWS would cost \$4 billion to \$10 billion.<sup>13</sup> Based on these figures, one can project that developing the full AWS Plan would cost between \$19 billion and \$25 billion.

SFPUC staff project that budgeting \$209 million (approximately 1% of the full cost of the AWS Plan) would increase retail rates by 0.9% above the current rate plan,<sup>14</sup> suggesting that full buildout of the AWS Plan would increase retail rates by 90%.

### **Need to Reevaluate the Design Drought and Demand Projections**

The SFPUC's Design Drought combines two of the worst droughts from the 20<sup>th</sup> century – the six-year drought of record from 1987 to 1992, and the driest two-year period on record, 1976/77 – to produce an artificial 8.5-year megadrought. It assumes demand will increase dramatically to 265 mgd (274 mgd if San Jose and Santa Clara are made permanent customers).

However, if we accept the fact that water demand will remain at 200 mgd or below, as believed by experts in the field, the amount of new AWS needed would be reduced by 44 to 73 mgd. Shortening the Design Drought to 7.5 years would shave off an additional 25 mgd or more. We explained this at the SFPUC Design Drought workshop in 2022.<sup>15</sup>

Much has changed since the Design Drought was conceived following the 1987-92 drought of record. For example:

- Water demand peaked at 293 mgd immediately prior to the 1987-92 drought. Demand has been below 200 mgd for the past nine years. In FY 2022/23, water sales were just 172 mgd.
- Following the 1987-92 drought, the SFPUC adopted its “Water First” policy, prioritizing water supply over hydropower generation. 2020 and 2021 were almost as dry as 1976 and 1977, yet on June 10, 2021, the SFPUC had 350,000 acre-feet more in storage (enough to last 1.5 years) than on June 10, 1977.<sup>16</sup>
- The SFPUC's Cherry Lake reservoir, with three-fourths the capacity of Hetch Hetchy, was drained in 1989, reducing storage significantly.
- The SFPUC's recent Long-Term Vulnerability Assessment (climate change study) – using 100 years of observed data, 1,100 years of tree ring data, and 25,000 simulated model runs – could not produce a single drought as severe as the Design Drought. A document uncovered through a Public Records Act request showed that the consultants who prepared the study projected the Design Drought might occur once-in-25,000 years.

A clear example of how the Design Drought hurts ratepayers began on November 23, 2021, when the SFPUC declared a Water Shortage Emergency. At the time, the SFPUC had enough

water in storage to last 4.5 years.<sup>17</sup> By declaring an emergency, the SFPUC was able to impose a drought surcharge on ratepayers of 5% in April 2022. During the three-year drought, the SFPUC never had less than four years-worth of water in storage, yet consumers were required to conserve and then make up for the lost revenue through higher rates.

Please make reevaluation of the Design Drought a top priority. Ratepayers are in desperate need of relief, and amending the Design Drought would have a huge positive impact on skyrocketing water rates.

Dear Ms. Melgar and Mr Jalipa.

Our water and sewer bills are already the highest in the entire state, and now the SFPUC plans to raise them another 8% per year indefinitely to make up for maintenance issues they have been ignoring for decades.

Keeping our water flowing is of major importance, so the cost of these deferred maintenance projects might be unavoidable, but the SFPUC **ALSO** wants to spend a fortune arranging for alternative water supplies for a drought which is, essentially, scientifically impossible.

We consumers do not have bottomless purses...

The SFPUC needs to be reined in and not just their financial practices audited, but their policies as well. Their "Design Drought" proposal is a disaster for Tuolumne River and the entire San Francisco Bay ecosystem. Saltwater is infiltrating further and further up the Delta. The animals, fish and people who depend on healthy flows in the river and to the Bay are suffering greatly. Fishermen/women have lost their livelihoods because there are no salmon to catch. Orcas are starving, Native communities' traditional ways of life and actual **FOOD SUPPLIES** are in jeopardy.

We San Franciscans and other Bay Area residents have shown that we are willing and happy to cut back on our water use for the common good to the tune of 25% over the past several decades, yet we still pay enormous water and sewer bills, and if not constrained the SFPUC is going to demand **billion\$** more to create water storage/supplies that we do **NOT** need!

This is an incredible waste of our money, a fiscal and environmental emergency, and **must be examined seriously by the Board of Supervisors!!!**

Respectfully,  
LaVive Kiely

Greetings Brent Jalipa, thank you for coordinating this testimony. NJ

I write as a third generation San Franciscan and great granddaughter of Avelina Cornates Marine, the only Native American woman with a marked grave at Mission Dolores (set in place by cousins Andy Galvan and Vincent Medina). We are Ohlone, Patwin and Bay Miwok. My (original) tiny house is in Golden Gate Heights. This is my perspective.

I ask you to conduct an audit of the SFPUC, both the numbers they use, the sense of their planning AND the relationship between their Design Drought and reality.

I use 15 gal per day. My native plants need No Irrigation. As stated, I grew up in the '70's drought and know how to conserve.

I saw little to no real effort by SFPUC to transform public perspective from abusing water to treating it like GOLD. Water is Life. Reduce water allowances, restrict access.. but please stop spending money on useless projects which benefit the construction companies and decimate indigenous lands, species and cultures.

When I move to take required SSI next year, I will go off ACA and have increased expenses. And now the SFPUC wants to make it MORE expensive, event and especially for low income low users specifically by ignoring science. Shall I sell the home owned by our family since 1958 because I cannot afford useless water projects? That is my reality.

For years, which now seem like time immemorial, I have attended SFPUC meetings, in person and, after COVID, online. I have attended, I have participated, I have spoken from my experience growing up during the 1970s drought: the Pee Don't/Poo Do philosophy, the Brown Lawn as Point of Pride ethic which PERVADED San Francisco, the town which, per Herb Caen, "Knows How."

Somewhere, we lost it all. Perspective, Knowledge, Respect for the past AND the future.

Ask yourselves why the amazing, dedicated resident Sophie Maxwell quit the commission. Attendees know. SFPUC Staff regularly ignored her input, comments, even direction.

Great that City insider Dennis Herrera leads the SFPUC. Knowledgeably about the City certainly. But about water, wastewater, environmentalism, not aware. SFPUC must represent the citizens, not a few powerful entities which stand to benefit from contracts. Ms. Maxwell provided key representation.

The majority of speakers (perhaps 95%) testify in hopes of preserving what little habitat and relative river life remains in the Tuolumne.

SFPUC continues to obfuscate, deny, and ignore ALL this community input and seems determined to spend spend spend on bigger and bigger CEMENT projects - costly to the budget and the planet. Where is the sense of humility? Where is the respect for the community it purportedly reflects? Where is the sense of professionalism which would be attentive to scientific input?

Instead of partnering with the community to achieve goals, the SFPUC maintains its priority of deafness to community concerns, including How to Pay for Their Infrastructure.

When do we decide to live within our means anyway?

N.J. Wallace

Re: Agenda Item 240449 for May 22, 2024

As a resident in the SFPUC service area, I am writing to urge you to audit the SFPUC's policies as well as their finances, with focus on the Design Drought.

Due to deferred maintenance, water and wastewater rates have risen exponentially, and if the SFPUC gets its way, they will go up even more. We don't need expensive and unnecessary alternative water supplies. We need an audit.

It is time to right the ship, and it can be done. A thorough audit will show that the length of the Design Drought could be reduced by a year without risking water shortages. By using reasonable water demand projections, the SFPUC could reduce the need for future alternative water supplies.

Auditing and reforming the Design Drought is a win-win for a sensible plan. These winners include ratepayers, the Tuolumne River, commercial and recreational fishers, and the San Francisco Board of Supervisors.

With appreciation for your consideration of the above urgent recommendation,

Linda Liebes

Dear Budget and Appropriations Committee Members,

I've lived in San Francisco since 1977 and have been a year-round SF Bay swimmer since 1984. Recently we open water swimmers have had to deal not only with pollution, caused in large part by the PUC's antiquated mixture of sewage and stormwater that they routinely release into the Bay, but toxic algae blooms as well, due to the PUC's "hoarding" of water behind dams when they should be releasing water into the Delta and Bay.

The so-called "Design Drought" is misguided, dangerous to people, animals, and our habitat, and is frankly false. It is based on unscientific assessments of projected population growth, water use, and future droughts, none of which are based on fact. Yet the SFPUC holds fast to this fixed idea.

Please audit the PUC — not only their sky-high budget, with rates about to climb into the stratosphere, but also the assumptions upon which it's based. Lop a year or two off the "Design Drought" and save money for ratepayers as well as saving the Bay.

Thank you,

I write as a senior Asian American resident of D1 inner Richmond to encourage a concurrent BOS review of sfpuc design drought planning goals in addition to financial audits.

Like the westside water projects in the Central Valley we need smart regulation to engage the most obvious source of additional water for SF residents through conservation.

I do not support ongoing water rate hikes to build alternative source capacity for SF water. Moreover I support reduced hetch hetchy draws to encourage salmon recovery in the San Joaquin basin.

Please pass these views along to SFPUC members as I understand they are seeking BOS support soon for additional water capacity expansions and related funding.

Best regards.

Dear San Francisco Public Utilities Commission:

I am a former resident in the Mission District of San Francisco, and for the past several decades have lived in Redwood City, whose sole source of drinking water is purchased from the SFPUC. About 85% of that supply comes from the Tuolumne River through the Hetch Hetchy Reservoir.

I write as a concerned customer and as someone committed to sane conservation measures that will accomplish two apparently (but only apparently) contradictory goals: 1) keep water rates as low as reasonably possible 2) maximize the flow of the Tuolumne River, for the sake of salmon and other wildlife and for the health of the SF Delta and Bay Area.

Where I live, water and wastewater rates have shot up, and rates in the Bay Area are the highest in the state and are set to increase even higher. Retirees and other long-time residents in parts of my neighborhood struggle to meet their payments. One sure way to get at the heart of the problem is to undergo a thorough audit of SFPUC. That will reveal where mismanagement has occurred and may show us a better way forward.

One suggestion that in my view should be implemented right away is for the Commission to re-think and reform the SFPUC Design Drought. As it currently stands, it proposes an unnecessary investment in expensive – and by any reasonable projection *unnecessary* - Alternative Water Supplies. Reducing that Design projection by a year would greatly reduce the projected costs, and it would stop the Commission from preparing for a "disaster" that is *extremely* unlikely to occur. Don't use rate hikes to cover unnecessary Alternative Water Supplies, given the slowing rate of water usage, and the slowing of population growth and subsequent water usage needs.

We all win with a reformation of the Design Drought - ratepayers, fish, fisheries, normal people who don't want the Bay filled with algae, people like me, who see a set of interconnected forces at work. Implementation of the Bay Delta Plan, combined with an audit of the SFPUC and the reformation of the Design Drought, using the best data, will help us all in the Bay Area enjoy where we live, and why.

Thank you,

Rush Rehm

Hello San Francisco Board of Supervisors Budget and Appropriations Committee,

My name is Jakob Evans and I am a Policy Strategist with Sierra Club California. In collaboration with William L. Martin of the Sierra Club San Francisco Bay Chapter Water Committee, I'm writing today to request an audit of the San Francisco Public Utilities Commission (SFPUC).

The SFPUC is planning to triple combined water and wastewater bills by 2044 due to the massive amount of debt service caused by deferred maintenance. While it may not be possible to change the mistakes that led to this, the SFPUC's finances and policies must be examined to prevent further financial and environmental harm. Low-income San Franciscans are already burdened with the highest water rates in California and our communities in need should not have to pay the price for the mismanagement of the SFPUC.

The SFPUC's "Design Drought" must be examined. This 8.5-year megadrought is predicted to occur once every 25,000 years and is well beyond the 5-year drought management plans that most other water agencies in California, including [Valley Water](#) and [Metropolitan Water District](#), utilize. By planning around this "Design Drought," the SFPUC has identified a need for between 92 and 122 million gallons of water per day (mgd) in alternative water supply (AWS). The [AWS report](#) notes that the development of 22 to 48 mgd of AWS would cost \$4 to \$10 billion, meaning the development of the entire AWS plan would cost upwards of \$25 billion. Reexamining the "Design Drought" and utilizing reasonable demand predictions would provide a more realistic (and affordable) picture of needed AWS.

An examination of the "Design Drought" and the SFPUC's AWS plan would also allow the Commission to drop its opposition to the updates to the Bay Delta Plan – a much-needed environmental decision that the SFPUC has opposed due to fear of water supply insecurity. An audit of the SFPUC including an examination of the "Design Drought" is a win-win-win for the environment, ratepayers, and the environmental justice, fishing, and tribal communities that depend on the SFPUC's watershed.

Thank you for your consideration of an audit of the SFPUC.

Best,
