MEMORANDUM

Date: June 1, 2015
To: Honorable Members, Board of Supervisors
From: *AN* Angela Calvillo, Clerk of the Board
Subject: Notice of Transfer of Function Under Charter Section 4.132

Pursuant to Charter Section 4.132, Mayor Edwin Lee has issued a notice to the Board of Supervisors, dated June 1, 2015, announcing a plan to reorganize duties and functions between departments and other units of government within the executive branch. The notice attached describes the specific position being transferred.

Such reorganization shall become effective 30 days after its issuance unless disapproved by the Board of Supervisors during that time. If you would like to hold a hearing on any of these transfer of function items, please let me know by Friday, June 5, 2015.

RECEIVED
MAYOR OF SAN FRANCISCO
JUN 1 2015
1:05 PM

To: Angela Calvillo, Clerk of the Board of Supervisors
From: Kate Howard, Mayor's Budget Director
Date: June 1, 2015
Re: Notice of Transfer of Function under Charter Section 4.132

Madam Clerk:

This letter constitutes a notice to the Board of Supervisors under Charter Section 4.132 of a transfer of function between departments within the Executive. All positions are regular positions unless otherwise specified. The positions include the following:

One position (1.0 FTE 1043 IS Engineer Senior) will transfer from the Department of Public Health (DPH) to the Department of Technology (DT). This 1043 IS Engineer-Senior has been working with DT on the Data Center consolidation and virtualization project which began in 2011. At the time of the project's inception, staffing support was partially sourced through other departments, with reimbursements via workorders from DT. This 1043 in the Department of Public Health budget has been working on the project and supported by a workorder from DT. This movement of position recognizes the permanent nature of the function within the DT to maintain and increase the virtualization capacity of the City.

If you have any questions please feel free to contact my office.

Sincerely,

A handwritten signature in cursive script that reads "Kate Howard".

Kate Howard
Mayor's Budget Director

555 Franklin Street
San Francisco, CA 94102

Re: 16th & Mission Project (1979 Mission Street)

Dear President Murase:

The Sierra Club supports the efforts of the community-led Plaza 16 Coalition to replace the inappropriate and out-of-scale development plan at 1979 Mission Street with a development that has most-to-all affordable housing and no parking. The process should allow the community to determine how their neighborhood will evolve in a way that protects community interests and addresses community needs.

The Sierra Club does support infill development in transit rich areas as a way to protect undeveloped land from urban sprawl, minimize the transportation-related use of limited resources, and minimize transportation-related pollution. However, we believe that infill and other development plans must strengthen local communities and promote equal opportunity. We do not believe that the 10-story, luxury housing project now planned for the corner of 16th and Mission Streets (1979 Mission Street) meets either of these criteria, primarily because it doesn't meet community needs for affordable housing. In addition, the proximity of neighborhood services and the density of transit nearby eliminate the need for private car ownership and therefore the need to include parking in the project.

It was nice to meet you at the recent Plaza 16 Coalition meeting at PODER. We hope to work with you on other matters in the future.

Sincerely,
Susan Elizabeth Vaughan
Chair, San Francisco Group of the Sierra Club

Subject: Moratorium

Dear Mayor Lee and Supervisors:

I am a five generation San Francisco. My daughter is near getting her paralegal degree she works full time, a widow with a 10 year old son and homeless. She simply can not afford \$300 for a studio. Her son has a work permit and still they can't afford to live near their family. He had to give up his dog, his school, his friends, his room.

You probably are thinking just go somewhere else. I suggest you just go somewhere else. I'm embarrassed to call myself a San Franciscan. There are 2000 homeless children here. How do you sleep at nights? All of you. You have made our beloved city an international embarrassment.

We are in a crisis and desperately need affordable housing. There is no excuse for homeless families in this city.

Please support Campos Ordinance #150461 - Declaration of an emergency and a request for a moratorium on market rate housing and PDR conversions.

This is a PAUSE for reflection that ultimately affects the entire City. Let's take some time to assess where we are at (horrible situation) and figure out where we all want to be not just those with resources but all San Franciscans.

Thank You,
Susan Suval

in fact, please go further and support a general halt to market rate housing construction, which is code for luxury housing construction. There is more than enough of that already. Let's talk about a tax on empty units that radically escalates the longer they are left empty, culminating in an eminent domain procedure whereby the City takes control of "abandoned" units and makes them available to victims of Ellis and OMI evictions at 1/4 of their income. In cities such as Amsterdam such laws have gone a long way to stop the "safety deposit box in the sky" logic that finances our current speculative building boom.

Dear Mayor Lee and Supervisors:

I am a concerned San Francisco resident and I agree with Supervisor Campos. I own multiple properties in San Francisco and have a basic understanding of economics, so I fully support ridiculous efforts by progressive politicians to artificially reduce supply while imposing price controls. As has been proven over and over again, such policies inevitably result in inflation, which progressives would understand if they could do math and studied history. But progressives prefer to smoke unicorn farts, and thank god for that, because it's so easy to make money by betting on their stupidity.

Subject: Campos Emergency Ordinance

Dear Mayor Lee and Supervisors:

I listened to the KQED Forum discussion on Friday, May 29, between Sup. Weiner and Sup. Campos, and i believe Weiner is not listening to the people of this city. San Francisco needs to implement this moratorium. City government needs to re-examine its affordable housing policies, therefore I am in FULL SUPPORT of Supervisor Campos' proposal. Even though its temporary, I believe it is an excellent first step to addressing the serious lack of affordable housing in the Mission.

I am a very concerned San Francisco resident and I agree with Supervisor Campos that we need to take emergency actions to stop displacements.

Please support Campos Ordinance #150461 – Declaration of an emergency and a request for a moratorium on market rate housing and PDR conversions.

My hope is that Scott Weiner will change his position and see that his blanket approach of just building, building, building more and more housing does not serve the needs of long-time San Francisco residents. At times, as I listened to the radio broadcast yesterday, it sounded like even he was just touting some party line and didn't half believe what he was saying.

Please, Scott Weiner, vote with Campos on this. You're my supervisor. I'm a renter in Glen Park for 15 years now. Greedy landlords in my neighborhood are charging astronomical prices for newly vacant units. On the 200 block of Chenery (my block) a 3 bdr apartment is currently listed for \$6000 per month, an unheard of amount up until this year. Your oft repeated point on Forum to build more luxury and market-rate housing attracts only rich people to this city, forcing the rest of us out by enticing landlords to abuse the system, bump up rents, not to mention creates a housing market with prices unattainable for regular, middle income people.

The moratorium is not a crazy idea. The out of control housing market in San Francisco is what's crazy. Please, do the right thing for the people of San Francisco, support the Moratorium!

Thank You,
Sarah Smith

Subject: YES to Supervisor Campos' Emergency Ordinance

Dear Mayor Lee and Supervisors:

I am a concerned San Francisco resident and agree with Supervisor Campos that we need to take emergency actions to stop displacements. I believe in the community organizations and government officials committed to supporting policy evolution, and that the moratorium will result in useful understanding and more diversely helpful solutions currently out of reach.

Please support Campos Ordinance #150461 – Declaration of an emergency and a request for a moratorium on market rate housing and PDR conversions.

Thank You,

Benoit Lacasse

Subject: NO on Ordinance #150461 (Campos) - I DO NOT SUPPORT THIS MORATORIUM

Dear Mayor Lee and Supervisors:

As a Mission resident, property owner and small business owner since 1998, I do **NOT** support a moratorium on new development in San Francisco's Mission District.

I do support smarter neighborhood planning and enjoy the changes in my neighborhood (North East Mission). I feel much safer and appreciate being able to walk to various cafes, restaurants and shops without having to drive.

Thank You!
Susette Blackwell
3178 17th Street, Studio 3

Subject: I'm the 49th signer: "Save the San Francisco Mission."

Dear Board of Supervisors,

I just signed a petition addressed to you titled *Save the San Francisco Mission.* So far, 49 people have signed the petition.

You can reach me directly by replying to this email. **Or, post a response for MoveOn.org to pass along to all petition signers by clicking here:** http://petitions.moveon.org/target_talkback.html?tt=tt-93420-custom-58344-20250601-6eOAuR

The petition states:

"As residents and taxpayers of San Francisco we respectfully request that you support David Campos Ordinance #150461 - Declaration of an emergency and a request for a temporary moratorium on market rate housing and PDR conversions in the designated area of District Nine. We support: 1. A temporary moratorium on market rate development 2. A temporary moratorium on PDR demolition and conversions 3. Development of 100% affordable units during the moratorium"

My additional comments are:

Give peace a chance. Try something different and this is it.

To download a PDF file of all of your constituents who have signed the petition, including their addresses, click this link: http://petitions.moveon.org/deliver_pdf.html?job_id=1529086&target_type=custom&target_id=58344

To download a CSV file of all of your constituents who have signed the petition, including their addresses, click this link:

This City's housing is **unaffordable**. Affordable housing doesn't even come close to what I can afford so it is NOT affordable. **Stop taking care of the 1%** of our City & start taking of the majority of the residents of San Francisco.

Also STOP the temporary rental of apartments. Pass a REAL law that will stop this loss of our rental units in San Francisco. One of these companies is Air B&B & it is taking over the city for the Greedy people of which there are too many

Subject: Campos Emergency Ordinance

Dear Mayor Lee and Supervisors:

I am a San Francisco resident, and an artist with a studio in the Workspace building in the Mission. I agree with Supervisor Campos that we need to take emergency action to stop displacements. The vibrant cultural tapestry of the Mission, represented by working class residents and artisans, among others, is rapidly being divided by double-decker buses into alternating streets of remarkable affluence or those with vast homeless encampments.

Please support Campos Ordinance #150461—Declaration of an emergency and a request for a moratorium on market rate housing.

I am also, however, very concerned that there is language in this ordinance that seems to allow PDR conversion to make room for affordable housing. Our artists are essential to our vibrant cultural diversity, giving San Francisco it's unique edge. If we lose that edge, we'll have destroyed what residents, businesses, and tourists love about San Francisco. To ensure that we continue to be a city of neighborhoods, diversity, and community, we must prioritize investment in cultural, community, and artistic spaces.

I strongly urge you to support both this moratorium legislation AND a change to our current zoning laws that will designate, preserve, and develop the vital "cultural and community spaces" that form the soul of our city.

Sincerely,

Subject: In Favor of Campos Emergency Ordinance

Dear Mayor Lee and Supervisors:

I am a concerned San Francisco resident in favor of ordinance #150481.

I agree with Supervisor Campos that we need to take emergency actions to stop displacements and take a pause to rethink current city policy and planning.

Increased Density and new construction are inevitable and essential to providing a home for all in San Francisco.

But we have not been able to rely on developers and current incentives or exactions to even come close to meeting the balanced housing goals.

We are allowing the destruction of our neighborhoods, communities and the essential cultural fabric of San Francisco for the sake of local and international speculation. Little more it seems. The new market rate developments have not been helping alleviate our housing shortage, they only further drive up the cost of surrounding land for the potential of its future speculation as a resource for ROI. Southbeach is a sterile excuse for a planned San Francisco and we cannot let that thinking completely demolish such cultural treasures to San Francisco as the Mission District. Build Baby Build with no process is blind and dumb to the goal of driving down bulk housing costs and maintaining opportunities for a diverse economic system. Amanda Burden, the planning director for New York City has shared that even significant amounts of new construction there were not able to increase affordability.

<http://www.citylab.com/housing/2013/10/what-we-havent-figured-out-question-gentrification/7166/>

Peoples lives are being wrecked from having their lives homes community and occupations wiped out.

I have witnessed the whole scale exodus of the artists and creators who have been displaced from their studios homes and theaters and have no options left. Many of the PDR sites that might have served these communities are aligned for destruction, with no plans to ever create replacement space to incubate opportunities for the next generation.

As we are on the brink of demolishing an entire block on Bryant st, losing long time Mission District creative culture center CELLspace in the process, the quote from the developer when asked about the loss of this arts resource was, "The new building is the Art I'm offering the community." There is a significant disconnect if that's allowed to be the answer.

Know that there is a crisis in the arts and creative lifeblood of SF, along with the non profits, social services and almost all the blue collar sector.

Please stop, and think about solutions if we're going to continue our march towards density.

Demand space replacement for arts groups, and required community facilities on large sites or as part of conditional use authorizations in addition to setting the affordable housing goal at 33% as mandated by voters in prop K. If parcels are to be up zoned then there must be new cultural space created and increased requirements for affordable units. And the city MUST hold onto its property and use it's land for the public good. 100% affordable housing would be an example.

I would like these concepts to be considered in the upcoming Central SoMa plan when the Service Arts Light Industrial zoning is replaced.

Please support Campos Ordinance #150461 – Declaration of an emergency and a request for a moratorium on market rate housing and PDR conversions.

Subject: File 150461 FW: Moratorium is needed, for discussion and solutions.....

From: Aaron Goodman [<mailto:amgodman@yahoo.com>]
Sent: Tuesday, June 02, 2015 8:48 AM
To: Board of Supervisors, (BOS)
Subject: Moratorium is needed, for discussion and solutions.....

A reminder that in order to plan for the future, you need to think about and create the designs for the future.

One groups solution, (real estate/banks/developers/lobbyists/private interests) does not always equate good government and the real support of communities and the general public.

The consistent growth promoted by SFBARF, GROW SF, SFHAC, SPUR and other private monied interests ignores the premise of sound policy and infrastructure development built prior to or alongside the growth created.

Louise Renne submitted a key opinion piece in the SF Chronicle that highlighted a number of projects in the D10 BVHP and mission bay, mission areas, out to Vistacion Valley.

Those projects don't even discuss or include all of the recent proposed projects, pipeline projects, and soon developer creep in terms of new projects identified along the already problematic traffic and transit issues in the city TODAY!

In order to get ahead of the curve and impacts, and address the needs. We need to buy land as a public entity (government) and look seriously at solutions on transit the link and loop and connect both bi-county and internally.

The infrastructure needs are not just housing, or transit even, but schools, parks, libraries, public pools, and community facilities, supportive services, and green infrastructure.

Please put a hold on the development and follow Supervisor Campos's lead on this issue. There are solutions, but it will take serious effort on all sides to develop a sound solution for all of our futures! It will take an ear, some time, conversation, and planning, lets open the door at the planning department to a more community based urban planning process, or even invite some outside planners/architects to take a stab at the alternative more far-reaching solutions. SPUR could once again help on this note, if they include the design international community, the local neighborhood community organizations and lists of issues communities feel are real concerns needing address. Lets plan the bay area and the city for all of us, and not just the investor groups salivating at the next round of high-end housing....

Sincerely

Aaron Goodman

Subject: Support the Campos temporary market rate moratorium in the Mission

Everyone agrees we have a displacement problem that needs to be fixed. The whole nation is struggling under the same burden. There are many clear indications coming from many sources that indicate overbuilding market rate housing is directly linked to displacement and the dwindling middle class. There are even whispers of a glut of office space now that companies are downsizing.

Not only are we pushing people out of their city and destroying our rich cultural heritage, but we are also tearing apart communities and lifelong friendships that allowed many to age in place.

So far the only solution we have seen come out of SF City Hall is the Campos Ordinance that would set aside a test area by declaring a temporary moratorium on market rate development.

As Campos stated, the Board has allowed other districts to carry out other protections. Why not allow the Mission to try something new? San Francisco could lead the way to discovering the fix for displacement.

Let's give this one a chance. Vote YES of the Campos Ordinance.

Concerned Citizen, long time
San Francisco resident

Subject: Vision Zero

Please put our students first in upcoming transit projects.

The City's new Vision Zero sets forth achievement by 2024 of the following goals:

Eliminate all traffic deaths

Reduce severe and fatal injury inequities across neighborhoods, transportation modes, and populations

<http://www.sfmta.com/projects-planning/projects/vision-zero><http://www.sfmta.com/projects-planning/projects/vision-zero>

We ask that Vision Zero focus on teaching kids to safely walk, ride bikes, and use MUNI all over the city. Focus Vision Zero on school families and by the time they are adults in 2024 the city will be filled safe streets and adults accustomed to the ease of public transit and biking. Parents are your partners in safe transit and educating our kids on proper pedestrian behavior.

We ask the City to fast track all traffic calming on streets surrounding schools; especially measures supporting the East/West flow of traffic for kids and transitional age youth attending SF State, City College and the 30+ public and private schools south of Twin Peaks.

We ask the City to prioritize increasing service and improving safety along the MUNI K & M lines! An unprecedentedly large population of kids are entering their teen years and will be commuting across the city to Lowell, Lincoln, St. Ignatius, Mercy, Riordan, Denman, Balboa, and Aptos; in addition to City College and San Francisco State University. Safety along the K/M corridor must be improved. The first week of October, 2014 an Aptos student was hit by a car at the MUNI island on Ocean Avenue and Aptos waiting to ride MUNI home after school. Now our community is mourning the tragic death of Andrew Wu, hit on San Jose and Lakeview trying to catch the M Ocean 40 minutes before school started. Run more trains between West Portal and Balboa during commute hours and either start the evening rush hour commute earlier or increase service around school schedules.

Let's all hit the ground running in August! San Francisco Department of Environment, Department of Public Health, SFUSD, SFMTA, SFPD the San Francisco Bike Coalition, Shape Up San Francisco, Walk San Francisco, Y(MCA)Bikes wisely participate in the Safe Routes to Schools Program. Focus your efforts based on SFUSD Middle School Feeders and High School attendance patterns – SFUSD has the data and knows where kids live and attend school. Safe Routes to Schools is a great program and AGENCIES SUPPORT OR PROMOTE IT BECAUSE WE KNOW THE DANGER EXISTS.

Let's work together, public and private schools, parents, students, and SFMTA to make student safety a cornerstone in the Vision Zero campaign and we'll all celebrate in 2024 when there are ZERO traffic fatalities.

Sincerely,
Diane Tateishi

Dear City Officials. I am a concerned citizen, mother and grandmother. The recent death of a young middle school boy in my neighborhood has caused me to be doubly concerned about the safety of our children and all pedestrians as we try to move people about in our ever more crowded city. Our own children commuted on MUNI throughout their school years. I feel the enormity of this death very profoundly. My husband and I join with others who ask that Vision Zero focus on teaching kids to safely walk, ride bikes, and use MUNI all over the city. Focus Vision Zero on school families and by the time they are adults in 2024 the city will be filled safe streets and adults accustomed to the ease of public transit and biking. Subject: Andrew Wu and Vision Zero

Dear Sirs and Madams,

I had the very sad duty and privilege of attending the funeral of 11-year old Andrew Wu today. This is a tragedy that may have been prevented with the timely implementation of proposed traffic calming and other traffic safety measures in San Francisco. . Too many children are dying at the hands of drivers in San Francisco; at the hands of both privately owned vehicles AND city-owned vehicles! There should be ZERO deaths at the hands of city-owned vehicles. Those drivers are supposed to be professional drivers. They should always be looking ahead and in full control at all times. A young child pinned to the wall in the mission district, a young mother run over in a park in the Bernal Heights district right next to her baby, a young child run over by the Muni train he was running to catch so he wouldn't be late for school; none of these should have happened given the fact that these are supposed to be professional drivers. Do something about it! Make a move in the right direction! Don't let the excuse of politics and union jargon be the cause of any more deaths of any of our children, let alone ANYONE in our fair city. You are all entrusted with the welfare and wellbeing of the citizenry of San Francisco. We depend on you and we trusted you when we voted for you or applauded your assignments. You have a direct hand in the employment of the drivers of city-owned vehicles. You can also work to implement safety measures in an expedient manner.

Please put our students first in upcoming transit projects.

The City's new Vision Zero sets forth achievement by 2024 of the following goals:

- Eliminate all traffic deaths
- Reduce severe and fatal injury inequities across neighborhoods, transportation modes, and populations

Subject: I'm the 4,117th signer: "Stop SFMTA (San Francisco Municipal Transportation Agency)"

Dear San Francisco Board of Supervisors,

I just signed a petition addressed to you titled Stop SFMTA (San Francisco Municipal Transportation Agency). So far, 4,117 people have signed the petition.

You can reach me directly by replying to this email. **Or, post a response for MoveOn.org to pass along to all petition signers by clicking here:** http://pac.petitions.moveon.org/target_talkback.html?tt=tt-23483-custom-54063-20250530-BQGqTC

The petition states:

"As residents and taxpayers of San Francisco we believe that the SFMTA's first and foremost responsibility is to improve MUNI and to make MUNI a more desirable means of transportation. It is not SFMTA's job to make owning and driving a motor vehicle more expensive and difficult. The SFMTA needs to be accountable to all the citizens of San Francisco. We need a balanced, unbiased municipal transportation policy. We respectfully request that the Mayor and District Supervisors immediately stop the SFMTA from: 1. Installing new parking meters and extending the hours of enforcement 2. Enforcing Sunday parking meters 3. Increasing meter rates, fees and fines "

My additional comments are:

Between lanes that are designated just for buses and bike lanes that are 10 & 12 feet across, a four lane street was halved. Now it takes 20 minutes to leave SF via the GG.

To download a PDF file of all of your constituents who have signed the petition, including their addresses, click this link: http://petitions.moveon.org/deliver_pdf.html?job_id=1527136&target_type=custom&target_id=54063

This is terrible! The root of the problem is SFMTA has been running as an oligarchy for years. SFMTA serves themselves and not the view of all the travelers in the city. We, the voting citizens of SF, should be available to vote on who serves on this board and on transportation matters since these matters are so important to all of us. These city officials aren't elected to office. One thing that's consistent is SFMTA has been riding the back of motorist for decades: parking fines, fees, metered spaces, and removal of parking spaces.

We can do better as a city. Why can't the SFMTA find ways to do street improvement activities and maintain a net parking neutral!

Personally, I've been recently handicapped and sensitive to ADA issues. Do you not realize how few blue parking spaces there are in this city? Now you're removing more spaces. How are disabled people suppose to have a sense of freedom and independence while living in this city? Again I ask, who is SFMTA serving?

I love this city, but the politics are terrible in San Francisco. You must do better!

PROOF OF SERVICE

Superior Court of California, County of *San Francisco*

Case No.:

I, Betzy Lesser, declare that:

I am employed in the County of San Francisco, State of California. I am over the age of 18, and am not a party to this action. My business address is 235 Montgomery Street, Suite 400, San Francisco, California 94104.

On May 21, 2015, I served:

NOTICE OF INTENT TO FILE CEQA PETITION

in said cause addressed as follows:

City & County of San Francisco 1 Dr. Carlton B. Goodlett Place, City Hall Room 200 San Francisco, CA 94102	San Francisco Board of Supervisors San Francisco City Hall, 1 Dr. Carlton B. Goodlett Place, Room 244 San Francisco, CA 94102
San Francisco Planning Department 1650 Mission Street, Suite #400 San Francisco, CA 94103	San Francisco Department of Building Inspection 1660 Mission Street San Francisco, CA 94103
San Francisco Building Inspection Commission 1660 Mission Street San Francisco, CA 94103	San Francisco Board of Appeals 1650 Mission Street, #304 San Francisco, CA 94103

/XX/ (BY MAIL) By placing a true copy thereof enclosed in a sealed envelope. I placed each such sealed envelope, with postage thereon fully prepaid for first-class mail, for collection and mailing at San Francisco, California, following ordinary business practices.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed on May 21, 2015 at San Francisco, California.

Betzy Lesser

Subject: BOARD OF SUPERVISORS INQUIRY

This is a request from the Board of Supervisors.

Requested by Supervisor(s): Avalos, John (BOS)

Please forward your response to:

- Board.of.Supervisors@sfgov.org
- john.avalos@sfgov.org

If you do not copy Board.of.Supervisors@sfgov.org on your response, you may receive unnecessary over due notices for this request.

Response Requested by: 4/15/2015

Request description:

Supervisor Avalos requests that the Controller provide information related to the collection of court-ordered debt, including the following:

- Per contract, how much does the City pay AllianceOne for its contract for collection services? CON: We have no information.
- o What is the total cost of the contract? CON: We have no information.
- o How is that total calculated? CON: We have no information.
- o How much revenue has the City received from AllianceOne? CON: We have no information in the City's Financial System, except the very limited transaction detail noted below for AllianceOne, so would respectfully refer you to Mike Yuen or Sue Wong at the Courts for further information.
- o How much total revenue does AllianceOne keep from collections? CON: We have no information, and would refer you to Mike Yuen or Sue Wong at the Courts for further information.
- o What triggers debt to be transferred from AllianceOne to the Franchise Tax Board? CON: We have no information.
- How much money is budgeted to agencies/departments related to the administrative costs of suspending driver's licenses and related to collecting court fines/fees? CON: The City's SB90 Administrative License Suspension Claim for Repayment from the State of California totaled \$13,726 for FY 2013-14. It is attached for your review.
- Which entities have primary authority for collection of court-ordered debt? How has that authority been delegated among entities/agencies? CON: We have no information that addresses this question, but would refer you to both Mike Yuen and Sue Wong at the Courts, as well as the Treasurer-Tax Collector's Bureau of Delinquent Revenue (Director Margarita Rodriguez) for further inquiry.
- Allocation of court-ordered debt CON: We have no information that addresses this question.
- o Of all of the court-ordered debt monies collected in San Francisco, how is the money allocated among the court, the County, and the State? CON: We have no information, but recommend you contact Mike Yuen or Sue Wong at the Courts.
- o Are particular fines dedicated to certain entities? CON: We have no information, but recommend you contact Mike Yuen or Sue Wong at the Courts.
- o Please provide an accounting of the types of fines collected, the entity receiving the revenue, and the amounts collected in 2014. CON: FAMIS, the City's Financial System, showed only 4 transactions under this name- a) 1 one-time payment of the City to Alliance One (\$539) and b) 3- revenue refund transactions for a total of \$1,974. There is little detail otherwise noted in the FAMIS transaction.

RE: North Coast Counties Marijuana Policy Statement

To whom it may concern:

On March 5, 2015, Supervisors, Chief Administrative Officers, and other staff from each of the north coast counties (Del Norte, Humboldt, Lake, Mendocino, Sonoma and Trinity) met in Santa Rosa, California to discuss the potential economic, environmental and regulatory impacts of legalized adult use cannabis in the event of state-wide legalization as a result of an anticipated measure on the November 2016 ballot.

The goal of the summit was to develop a regional and unified position statement to help shape state legislation in order to influence cannabis policy and potential legalization with appropriate local control. The enclosed document titled, "North Coast Counties Marijuana Policy Statement," was the subsequent product of that summit. This Policy Statement has been adopted by the respective Board of Supervisors from each of the north coast counties.

North Coast Counties support a comprehensive state regulatory framework that explicitly preserves existing local control, while protecting the environment, local economies and quality of life. As legislation progresses addressing this highly sensitive and critical public policy, we strongly encourage the legislature to incorporate the principles expressed in this Policy Statement in current and future proposed legislation. We urge you to consider adopting this Marijuana Policy Statement to advocate for local control in the discussion, creation and implementation of a statewide marijuana policy. It is imperative that counties retain local control to address impacts appropriately from rural to urban communities. We welcome the opportunity to provide additional language and information that supports these policy concepts.

Thank you for your thoughtful consideration.

Sincerely,

Del Norte County Board of Supervisors

David Finigan, Chair

Humboldt County Board of Supervisors

Estelle Fennell, Chair

Lake County Board of Supervisors

Anthony Farrington, Chair

Mendocino County Board of Supervisors

Carre Brown, Chair

Sonoma County Board of Supervisors

Susan Gorin, Chair

Trinity County Board of Supervisors

Judy Morris, Chair

North Coast Counties Marijuana Policy Statement

Preamble

North Coast Counties have unique insight into the significant problems and opportunities posed by statewide regulation and potential legalization of adult recreational use of marijuana. Inconsistent State and Federal laws and existing ambiguities in State law have caused significant economic, environmental, and public safety impacts to North Coast Counties related to the cultivation and distribution of marijuana. We strongly encourage the adoption of comprehensive State marijuana policies that will protect local communities and governments and also respect local control.

There is a need for certain and uniform state regulation while at the same time allowing local governments the flexibility to address individual community needs. State regulation should set clear minimum guidelines and should expressly not preempt local government control. State law and policy should reflect the basic reality that economic effects, environmental impacts, and community sensitivity vary widely from rural to urban areas and from one area to another, and have a direct impact on local quality of life. It is imperative that counties retain local control to address impacts appropriately from rural to urban communities.

Policy Statements

I. Local Control

- State leadership is critical to provide a comprehensive regulatory framework which clearly delineates the roles of local and state government.
- Minimum statewide standards on a range of issues including licensing, safety, accounting, state taxation, cultivation standards, distribution and consumer standards should be developed with local input.
- A statewide regulatory program must explicitly preserve the right of local jurisdictions to regulate items of local concern including authority to: issue business licenses and impose local taxes to produce funding streams to fully cover local costs; to enact land use regulations; and to enact other restrictions applicable to the cultivation, distribution, and sale of marijuana based on a local governing body's determination of local needs.
- Existing local authority to regulate or prohibit the indoor or outdoor cultivation of marijuana and the establishment of dispensaries in certain areas must be explicitly preserved.
- The right of local jurisdictions to provide for the health, safety and welfare of their constituents must be respected within an overall state regulatory framework.

II. Revenue & Taxation

- Counties must have the ability to impose fees and fines to recover direct costs of local regulation and code enforcement with respect to all aspects of marijuana cultivation, sales and distribution.
- Counties must have the option to adopt local excise and sales taxes to recover enforcement, environmental and other costs, subject to uniform statewide tax cap limits.

- State and local marijuana related excise and sales tax limits must be set at a level that does not discourage transition to a regulated market.
- Counties must be granted flexibility to further incentivize the transition to a regulated market, for instance, by deferring full imposition of the adopted local tax structure.
- Marijuana, no matter its use (medical or recreational), must be subject to state and local taxation in the same manner and at the same level in order to provide regulatory certainty and avoid the difficulties inherent in establishing a dual system of administration.

III. **Environmental Protection**

- Environmental protection and remediation shall be paramount in any regulatory and/or funding framework.
- Best management practices must be developed and adopted.
- Current environmental enforcement should remain the responsibility of existing regulatory agencies.
- Adequate and flexible enforcement tools must be available to local jurisdictions, including the availability of incentives to encourage responsible environmental practices.
- Counties must receive adequate funding from the state to compensate for local environmental enforcement and remediation including legacy impacts.

IV. **Economics**

- Legalization of marijuana for adult recreational use will have economic implications for North Coast Counties. To mitigate negative effects, the state must allocate a portion of state revenue to assist counties.
- A statewide regulatory program must provide economic development assistance including job training to help North Coast counties of origin successfully rebuild their traditional resource based economies while transitioning to a fully regulated legalized marijuana industry.
- State leadership is also necessary to address larger education and research programs beyond the purview of individual counties. Much like tobacco, the state must allocate funds to implement research, education and prevention programs, particularly for youth, to mitigate marijuana abuse and dependence.
- To ensure that counties can differentiate their products in the marketplace a statewide chain of custody certification program is needed to allow local branding that highlights regional strains, sustainable environmental practices, responsible processing, and ethical business behavior. Chain of custody certification will increase value to local producers and encourage consumers to make responsible purchasing decisions.

Conclusion

North Coast Counties support a comprehensive state regulatory framework that explicitly preserves existing local control, while protecting the environment, local economies and quality of life. We welcome the opportunity to provide additional language and information that supports these policy concepts.

North Coast Regional Summit on the Economic Impacts of Legalized Cannabis

Overview

Over the past year, the North Coast Counties have been informally discussing the possible impacts of legalized cannabis on the economies, the environment and public safety. With a desire to coordinate a larger discussion and possible action, a small group of supervisors and CAOs decided to move forward with a regional summit to share information and ideas and if possible, develop a unified regional public statement.

On March 5, 2015, the North Coast regional summit on the Economic Impacts of Legalized Cannabis was held at the City of Santa Rosa Utilities Field Operations Center. The goal of the Summit was to develop a regional and unified position statement to help shape state legislation in order to influence cannabis policy and potential legalization with appropriate local control. Supervisors and Chief Administrative officers (CAOs) attended from the counties of Del Norte, Humboldt, Lake, Mendocino, Sonoma and Trinity (Attachment A). In addition, legislative representatives, California State Association of Counties, Rural County Representatives of California and county staff participated in the summit.

Guest speakers at the event included:

- David Baumgarten, Esq., from Gunnison County, Colorado: Keynote presentation entitled, "Lessons Learned: A Colorado Attorney Perspective Regarding Legalization Recreational Marijuana."
- Assemblyman Jim Wood, 2nd District: Update on Assembly Bill 243
- Representatives from California State Association of Counties (CSAC), Rural County Representatives of California (RCRC) and legislative advocacy firm Shaw/Yoder/Antwih, Inc. provided updates on marijuana-related legislation.

The majority of the day was spent in breakout groups and a roundtable discussion between the Supervisors from the participating counties. While the primary focus of the Summit was on potential economic impacts to the region, participants also discussed important impacts on local governments that need to be addressed in a regulatory framework. Breakout group topics consisted of the policy areas of local control, revenue and taxation, environment and economics.

The results from the breakout groups were compiled to craft a working outline for a regional policy statement. Subsequent to the Summit, the Supervisors and CAOs have collaborated repeatedly to create a uniform policy statement that reflects the priorities identified through the event. Comments and feedback were solicited and incorporated into the development of the statement from the entire group of Supervisors, CAOs and the larger participant group. On April 22, 2015 the group of Supervisors approved a final North Coast Counties Marijuana Policy Statement. Adoption of a unified regional statement provides the opportunity for counties to come together and influence the state legislative process to protect, support and enhance our economies, environment and quality of life, while retaining local control. The North Coast Counties Marijuana Policy Statement will go before each County's respective board in May for possible adoption as a companion statement to the individual Board of Supervisors Legislative platforms on Marijuana, coupled with the marijuana platforms from CSAC and RCRC. Upon regional adoption the Policy Statement will be sent to CSAC, RCRC and all rural counties for consideration.

Subject: FW: Catholic Schools - your opinion of the Morale Clause for the Teachers

From: LOUIS RENNER [<mailto:louisrenner@sbcglobal.net>]
Sent: Saturday, May 30, 2015 12:15 PM
To: Board of Supervisors, (BOS)
Subject: Catholic Schools - your opinion of the Morale Clause for the Teachers

Dear Board of Supervisors,

A practicing Catholic which it stated Supervisor Farrell is and a faithful Catholic (one who believes and follows Catholic tradition and theology) are two separate things. Maybe you should refer to the Catechism of the Catholic Faith where you will find the true answer instead of the practiced or political answer.

The board was quoted as saying "the moral clause for the Catholic teachers was "contrary to shared San Francisco values of non-discrimination, women's rights, inclusion and equality for all humans." Do any of you actually go outside? There are no shared values in San Francisco, there are people running around naked, urinating and defecating everywhere, there is rampant drug use, homeless, mentally ill and this is just in the first block. Then you get the LGBT crowd who are doing things I won't discuss. This is however, what you call values and non-discrimination? Letting people do whatever they want? Sexual preference is not a right by any stretch of the imagination.

Only in America is pregnancy considered a disease. Only in America can we kill the unborn even on the day of birth. We turn our heads at the millions of lives that have been taken from us because we don't want to take the responsibility we should. God has sent plenty of brilliant people to aid us and their reward is they are killed in the womb and treated as a disease so we can tout sexual freedom.

Remember separation of church and state moves in both directions. You all should be ashamed of yourselves. I know I will certainly pray for you cause it is clear you definitely need prayers.

May 25, 2015

Dear Members of the Board of Supervisors Budget Committee;

For the past two years, our group of dedicated volunteers has worked tirelessly to provide community concerts at the Jerry Garcia Amphitheater in John McLaren Park. We have produced 13 quality, family friendly Saturday afternoon programs. They have been provided FREE of charge to our community. Our attendance has been around 200-300 people per show-- even without funding for publicity. We have grown our Facebook page to over 1,000 "likes". We continue to build support and excitement. The amphitheater is perfect for community gatherings. We hope that you and your families will be able to join us this year for a concert. The Jerry Garcia Amphitheater is truly a hidden gem in a bigger gem— McLaren Park. We are proud to have showcased local talent and represented a wide variety of music and dance genres. Everything from Classical Chinese Folk Music to Rock and Roll for the toddler set. We have also created a unique volunteer docent program that has been able to address public safety at the venue and customer service. We greet our "guests" as they arrive for the concerts with helpful directions and a printed program. We monitor the parking lots and assist guests with disabilities. Everyone feels very welcomed when they come to one of our shows. Each year we have trained over 50 regular volunteers with the help of SF SAFE and Castro Community on Patrol. We are happy to report that our programs have remained incident free. Our biggest joy is showing the amphitheater and the park off to people who are discovering it for the first time--and that happens all the time!

As we enter our third season, we find ourselves once again struggling for funding to produce another year of programming. The shows have been very well received and the public is very excited about continuing the series. We operate these programs with an all-volunteer staff and value every dollar of donations and funding we are able to produce. For the past two years we have been fortunate to have received a share of our operating budget through the City budget. We have collaborated with the Recreation and Parks Department, who have assisted us on many levels. The various departments – Reservations, public relations, volunteer services and upper management have been incredibly supportive. They have encouraged us at every turn. We are fiscally sponsored by the San Francisco Parks Alliance. We produce this series as a registered Park Partner with SFPA as: Friends of the AMP-Jerry Garcia Amphitheatre

In 2013, we received \$15,000 in city funds-thanks to help from your office, Supervisor Avalos and Supervisor Campos; in 2014 the amount was \$10,000 and for the 2015 fiscal year, we are scheduled to receive \$5,000. This is funding that Supervisor Avalos put into the budget and we are most appreciative. We are hoping you can help by advocating for adding \$5,000 added to the budget. This would restore us to the 2014 level. We are hard at work to produce the remaining money needed in our budget. We are proposing a total budget of \$20,000.

We are also continuing to seek out sponsors and benefactors so that programming could be provided without City funding and have a sustained future. Golden Gate Park and Stern Grove have such benefactors.

I have included a photo collage from our past performances. This will give you a glimpse into what we were able to produce. The smiles on the children's faces as they scamper around the stage, is the best reward of all. This special place needs our help. Our will do all the heavy lifting but it would be such a relief to have the funding levels restored to their 2014 level for this current season.

Please let us know if you need additional information or we could speak with you on this matter or connect with your staff.

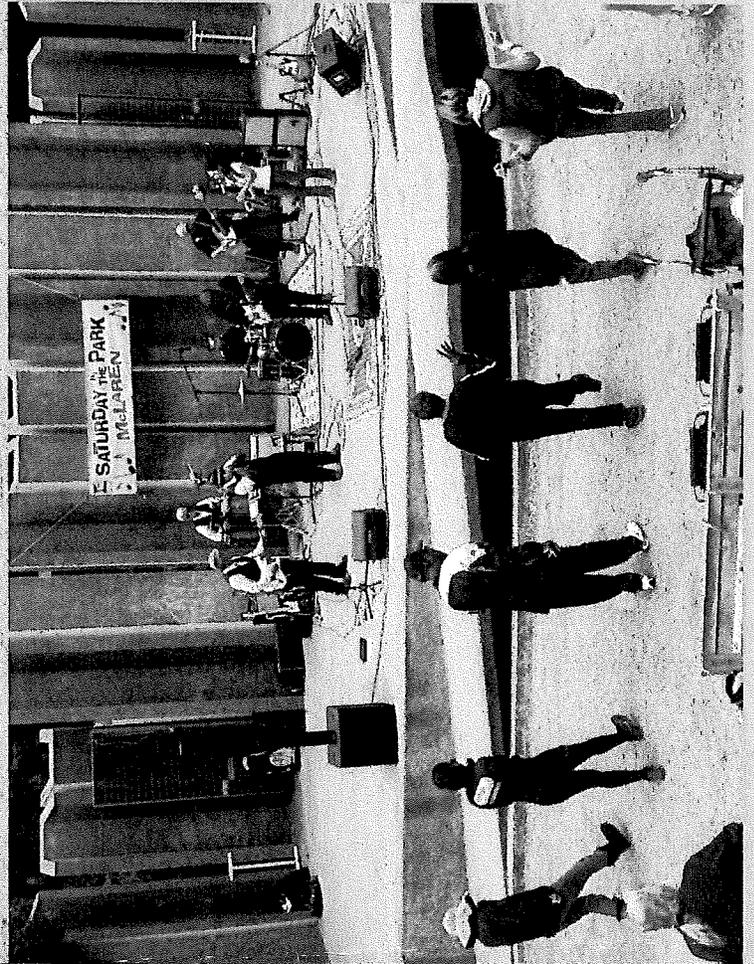

A handwritten signature in cursive script that reads "Linda Litehiser".

Subject: Looking at local November 2015 elections for SF Blacks

Attention: All Members of the San Francisco Board of Supervisors,
Saying four more years with a, no pun intended straight face.

I discovered that the San Francisco Human Rights Commission was first formed in 1964 to address discrimination against Blacks living in the city at the time. Fifty year later, I discovered discrimination against Blacks by this same commission and indifference by an elected leader.

Criticizing LGBT politics in San Francisco is a no-no. Nevertheless, in July 2012, Mayor Ed Lee warned Chick-fil-A against moving here because its owners oppose gay marriage. However, if you are LGBT; more specifically, a White transgender executive director of the Human Rights Commission, you get a pass.

In April 2013, director Theresa Sparks cost the city \$210,000.00 in a race and "reverse sex discrimination" lawsuit by a former Black heterosexual staffer.

The current chair of this commission is a Black lesbian whose allegiance is with the mayor. And a former Human Rights Commissioner who hosted a campaign debt retirement party for Mayor Lee in the same month of her reappointment that raised more than \$8000.00 reeks pay-to-play.

"Economics my foot", SF Blacks are leaving the city because they are being 'squeezed out by City Hall LGBT politics and a weakened Black community that has declared, "What's the use?"

The above mentioned conduct is more than reprehensible when you consider that Mayor Ed Lee was once the executive director of the SF Human Rights Commission for five years.

However, what I find to be worse is that this mayor, along with his LGBT supporters; who should know discrimination when they see it, have managed to dupe this city into chasing away any real challengers in the November 2015 elections with his 21st century brand of racism.

At a time of heightened racial tensions between Blacks and Whites all over this country, can you really say with a straight face, Ed Lee deserves four more years?

Re: Sugar-Sweetened Beverage Advertising and Purchasing Legislation

Dear Board President Breed and the San Francisco Board of Supervisors:

The American Heart Association is proud to support the legislation put forth by San Francisco Supervisors Malia Cohen, Eric Mar and Scott Wiener to: ban sugar-sweetened beverage advertisements on public property; require health warnings on all posted sugar-sweetened beverage advertisements; and ban city spending on sugar-sweetened beverages. Reducing consumption of sugar-sweetened beverages is an important way to improve health.

Soda and other sugar-sweetened beverages are the number one source of added sugar in the American diet, and are linked to increased risk of diabetes and other serious diseases such as heart and liver disease, obesity and tooth decay. Definitive scientific studies have concluded that a major cause of the dramatic increase in diabetes and the equally significant increase in California's obesity rate is that most people consume nearly 300 more calories per day than 30 years ago and 43 percent of that caloric increase comes from the consumption of sugar-sweetened beverages.

The American Heart Association recommends that adults consume no more than five to nine teaspoons of added sugar per day, and that children consume even less. A 20-ounce bottle of soda contains the equivalent of approximately 17 teaspoons of sugar.

Added sugars are associated with many of the major risk factors for heart disease including overweight and obesity, dyslipidemia including elevated triglycerides, chronic inflammation and hypertension.

The AHA has an aggressive goal of improving the cardiovascular health of U.S. population by 20% by 2020, and we are measuring our achievement of that goal through seven heart health factors, including blood pressure,

glucose, cholesterol, physical activity, tobacco use, body weight, and healthy diet. An important component of the AHA healthy diet metrics is to limit sugar-sweetened beverages to 36 ounces or 450 calories a week, based on a 2000-calorie diet, scaled accordingly for other levels of caloric intake. Policies such as the three being considered in San Francisco are steps in the right direction, providing public education and changing the environment to support health-promoting beverage choices.

Supervisors Cohen, Mar, and Wiener have put together a package of legislation that will educate communities on the danger of overconsumption of sugar-sweetened beverages. We support their efforts because it is sensible public policy. The adverse health effects of the overconsumption of sugar-sweetened beverages are harming our communities. For these reasons, we are proud to support them and urge you to join them in their efforts to improve the health of San Francisco by voting to support these important measures.

Sincerely,

Patricia Sprincin, Chair

Re: Sugar-Sweetened Beverage Advertising and Purchasing Legislation

Dear Board President Breed and the San Francisco Board of Supervisors:

The California Center for Public Health Advocacy (CCPHA) supports the legislation put forth by San Francisco Supervisors Malia Cohen, Eric Mar and Scott Wiener to address the epidemic of type two diabetes, obesity and other diseases related to the consumption of sugar-sweetened beverages. Their legislation will ban sugar-sweetened beverage advertisements on public property, require health warnings on all posted sugar-sweetened beverage advertisements, and ban city spending on sugar-sweetened beverages. These important policies will send a clear message that San Francisco understands the impact the consumption of these beverages has on its residents, will improve the health of people living in San Francisco, and will serve as a model for the rest of the country to follow.

CCPHA is a nonpartisan, nonprofit organization that tackles the underlying factors that perpetuate childhood obesity and diabetes. We advocate for policy change simultaneously at state and local levels, we network local efforts together for statewide impact, and we support our work with grassroots organizing, strategic research, media advocacy, and direct lobbying. We successfully helped establish nutrition standards for foods in schools and helped California become the first state to require menu labeling. We also have a history of working toward requiring health warning labels on sugar-sweetened beverages at the state level.

The facts related to the consumption of sugar-sweetened beverages are clear. One-third of today's youth—and one-half of African-American and Hispanic youth—will become diabetic if actions aren't taken. Drinking just one 12 ounce can of soda a day can increase your chance of getting type 2 diabetes by 25%. This is a public health crisis, and local policy leaders must take the lead to put forth innovative solutions to address the consumption of these drinks.

Please join supervisors Cohen, Mar and Wiener in their efforts to improve the health of San Francisco by voting to support these important measures. These are vital policies to the future health of San Francisco and the rest of the country.

Sincerely,

Subject: Re: Sugar-Sweetened Beverage Advertising and Purchasing Legislation

Dear Board President Breed and the San Francisco Board of Supervisors:

I am writing to support the legislation put forth by San Francisco Supervisors Malia Cohen, Eric Mar and Scott Wiener to address the epidemic of type two diabetes, obesity and other diseases related to the consumption of sugar-sweetened beverages. Their legislation will ban sugar-sweetened beverage advertisements on public property, require health warnings on all posted sugar-sweetened beverage advertisements, and ban city spending on sugar-sweetened beverages. These important policies will send a clear message that San Francisco understands the impact the consumption of these beverages has on its residents, will improve the health of people living in San Francisco, and will serve as a model for the rest of the country to follow.

I am an active resident of District 5, a former public school teacher, and the father of a 4-month-old. I want my daughter to grow up in a San Francisco that prioritizes health and its children over the interests of big corporations.

The facts related to the consumption of sugar-sweetened beverages are clear. One-third of today's youth—and one-half of African-American and Hispanic youth—will become diabetic if actions aren't taken. Drinking just one 12 ounce can of soda a day can increase your chance of getting type 2 diabetes by 25%. This is a public health crisis, and local policy leaders must take the lead to put forth innovative solutions to address the consumption of these drinks.

Please join supervisors Cohen, Mar and Wiener in their efforts to improve the health of San Francisco by voting to support these important measures. These are vital policies to the future health of San Francisco and the rest of the country.

Sincerely,

Elliot Haspel
