Planning Code Section 101 Findings

Planning Code Section 101.1 establishes Eight Priority Policies and requires review of discretionary approvals and permits for consistency with said policies. The Project is found to be consistent with the Eight Priority Policies as set forth in Planning Code Section 101.1 for the following reasons:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

The Project would not negatively impact existing or future neighborhood-serving retail uses. The building to be purchased includes ground-floor retail space which is currently vacant and would be preserved for future use.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

The Project would conserve and protect existing housing. It would protect neighborhood character by allowing San Francisco households that have experienced homelessness to continue living in the City, thus preserving the neighborhood's cultural and economic diversity.

3. That the City's supply of affordable housing be preserved and enhanced;

The Project would enhance the City's supply of affordable housing. The Project is the acquisition of an existing privately-owned predominantly residential building to provide affordable supportive housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking;

The Project is the acquisition of an existing building. It would not result in commuter traffic impeding MUNI transit service or overburdening streets or neighborhood parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from

displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

The Project is the acquisition of a predominantly residential building with vacant ground-floor retail space which would be retained. The Project would thus not cause displacement of businesses in the industrial or service sectors and will have no impact on future opportunities for resident employment or ownership in these sectors.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The Project is the acquisition of an existing recently built structure which was constructed according to all applicable safety standards. It would not have an adverse effect on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

The Project is the acquisition of an existing building which is not a landmark nor historic. It would have no impact on the City's Landmarks and historic buildings.

8. That our parks and open space and their access to sunlight and vistas be protected from development;

The Project is the acquisition of an existing building. It would have no impact on the City's parks and open space and their access to sunlight and vistas.

Recommendation: Finding the project, on balance, is in conformity with the General Plan
