MANDATE STATEMENT

City Charter Section 9.118(b) states that any contract entered into by a department, board or commission that (1) has a term of more than ten years, (2) requires expenditures of \$10 million or more, or (3) requires a modification of more than \$500,000 is subject to Board of Supervisors approval.

BACKGROUND

Adults, Older Adults, and Transitional Age Youth (TAY) Contract (File 20-0164)

The Department of Public Health (DPH) selected Richmond Area Multi-Services, Inc. (RAMS) to provide behavioral health services for adults, older adults, and Transitional Age Youth (TAY) as a result of five competitive solicitations conducted between 2013 to 2017. The Board of Supervisors had previously approved in December 2015 extending an existing contact with RAMS for these services through December 2017 (File 15-1048); the extension was to allow the Department of Public Health sufficient time to plan services to meet the requirements of the Affordable Care Act and the California Department of Healthcare Services Medi-Cal waiver pilot.

In 2018, DPH awarded a new contract to RAMS to provide behavioral health outpatient services, peer counseling, employment readiness, outreach and engagement, and residential services for adults, older adults and Transitional Age Youth, focusing on Asian and Pacific Islander (including Chinese, Filipino, Samoan, Cambodian, Laotian, and Vietnamese adults) and Russian-speaking communities for the period of July 1, 2018 through June 30, 2020 for a total contract amount not to exceed \$9,995,228. Because the contract was less than \$10 million and less than 10 years, the contract did not require Board of Supervisors' approval.

The scores for the Request for Proposals/Qualifications are shown in Table 1 below. As shown below, RAMS scored the highest on all the competitive solicitations except for one, RFP 8-2017, Mental Health Outpatient Programs for Adult/Older Adult System of Care, where it scored second highest. According to the Department of Public Health, multiple contractors were selected for City funding from that solicitation, including the top scoring entity and RAMS.

According to Ms. Michelle Ruggels, DPH Business Office Director, the Department of Public Health may issue solicitations that specify that multiple funding awards will be issued within the same category and sub-category of services, and then select multiple contractors to deliver these services. Ms. Ruggels states this practice is most commonly utilized for services delivered by non-profit organizations to ensure that the Department of Public Health is able to meet the cultural, linguistic and service needs of behavioral health clients served throughout San Francisco's diverse neighborhoods. Ms. Ruggels states that in some cases, all responders to an RFP are selected in the categories for which proposals were submitted, and sometimes not all responders are selected. DPH may award multiple top scoring qualified applicants of a specific sub-category depending on the needs of the community and the needs of the project. All responders must meet minimum requirements to be reviewed and scored by a review panel.

Ms. Ruggels states that the original contracts were approved to be two years to provide time for the completion of all pending solicitations in order to allow services to be revised, if needed, to reflect new service models resulting from the newer solicitations during the start-up phase. Terms of both contracts are being extended three years to June 30, 2023 to enable the continuation of services.

¹⁰ The existing agreement for FY 2018-19 through FY 2019-20 is \$9,995,228, however DPH expects to spend \$7,734,995 over that period. The remainder of \$2,260,233 is budgeted for the following three fiscal years (As noted

changes in the scope of work or level of services for the proposed contract amendment. The increased contract amount is necessary to allow for the continued provision and payment of services, as authorized under the original RFP, and the addition of an annual Cost of Doing Business (CODB) for projected cost escalation, which is subject to appropriation by the Board of Supervisors. The CODB is 3 percent in FY 2019-20 and 2.5 percent in subsequent years. below, the FY 2018-19 budget was reduced by \$1,910,221, from \$4,407,067 to \$2,496,846 because the funding and services were re-allocated to another contract).

¹¹ This is Federal Medi-Cal funding, in which for every dollar billed, DPH is reimbursed 50 cents for eligible clients. In this program, every client is Medi-Cal eligible. To be reimbursed by Federal Medi-Cal, DPH submits a claim representing 100 percent of the cost, of which Federal Medi-Cal will reimburse 50 percent and DPH must provide an equal 50 percent of matching funds.

¹² This is State Realignment funding provided to DPH, and used as a match to draw down the Federal Medi-Cal funding (i.e. the other 50 cents).

¹³ According to Ms. Ruggels, one-time funding was added in the FY 2019-20 budget which was not carried forward into future years.

¹⁴ According to Ms. Ruggels, funding was reduced by \$1,190,221 in FY 2018-19 for the transfer of functions to an interim contract.

Children, Youth and Families Contract (File 20-0165)

The proposed resolution would increase the not-to-exceed amount of the contract by \$16,390,571, for a total not to exceed \$26,069,776.¹⁵ According to Ms. Ruggels, there are no changes in the scope of work or level of services for the proposed contract amendment. The increased contract amount is necessary to allow for the continued provision and payment of services, as authorized under the original RFP, and the addition of an annual Cost of Doing Business (CODB) for projected cost escalation, which is subject to appropriation by the Board of Supervisors in the annual budget. The CODB is 3 percent in FY 2019-20 and 2.5 percent in subsequent years. The sources and uses of funds for the proposed contract to RAMS to provide behavioral health services for children, youth and families are shown in Table 6 below.

¹⁵ The existing agreement for FY 2018-19 through FY 2019-20 is \$9,679,205 however DPH expects to spend \$8,835,333 over that period. The remainder of \$843,873 is budgeted for the following three fiscal years.

¹⁶ Ms. Ruggels states that while the RAMS-CYF contract received a CODB allocation of 2.5 percent in FY 2018-19 in the amount of \$66,580, (\$33,494 in General Fund CODB and \$33,086 in Work Order CODB), this amount is not reflected in the subject table in the CODB line-item. Instead, these funds have been allocated so the budget presented for each program in FY 2018-19 incorporates the FY 2018-19 CODB allocation.

¹⁷ According to Ms. Ruggels, there was a reduction of funding in FY 2018-19 in the amount of \$1,613,513 from the full NTE Amount request. That is because that amount, while part of the full funding expended for the fiscal year, was paid for via an interim contract and therefore was not included in the proposed contract amount. DPH experienced a transition phase in FY 2017-18, during which time existing Behavioral Health Services (BHS) were subject to multiple solicitations to continue contracted services. To prevent a gap between the expiration of the existing contract and its ongoing services, and the continuation of these services under a new contract, many vendors received an interim contract for the period of January 1, 2018 – 12/31/18. At the same time, new and ongoing contracts were effective July 1, 2018, thereby replacing the interim contract. If the existing vendor was awarded the services via the applicable solicitation, then this vendor would have had both an interim contract and a new contract with a six month overlap period between 7/1/18 and 12/31/18 of the FY 2018-19 term. In some instances, including for the subject contract, the vendor was paid during this period utilizing the authority of the interim contract, and not the subject contract. As such, the value paid for via the interim contract for the first six

Expiration of Solicitation Authorization

DPH included proposed ongoing funding for two programs for adults and older adults in FY 2021-22 and FY 2022-23 that are subject to new solicitations to continue after June 30, 2021. This includes the solicitation for vocational rehabilitation employment and training services (RFQ 11-2015) and peer to peer employment and peer specialist mental health certificate (RFP 18-2014). Consequently, the Budget and Legislative Analyst Office recommends removing the funding for the two-year period following the expiration of the solicitation authorization period for the following services:

- 1) Outpatient Peer Counseling Services: \$50,562 in FY 2021-22 and FY 2022-23 for a total of \$101,124
- 2) Employment Development Program: \$133,649 in FY 2021-22 and FY 2022-23 for a total of \$267,298

The total reduction for both programs would be \$412,633, which includes a reduction of \$44,211 to adjust the proposed contract contingency amount (\$2,291,101 to \$2,246,890). Consequently, the Budget and Legislative Analyst Office recommends amending File 20-0164 to reduce the proposed not to exceed amount from \$23,880,457 to \$23,467,824, a reduction of \$412,633, to ensure that programmatic funding does not extend beyond the period authorized by the enabling solicitations. This amendment will also reduce the proposed increase of \$13,885,229 between the current contract and the proposed contract to an increase of \$13,472,596.

RECOMMENDATIONS

1. Amend the resolution in File 20-0164 to reduce the proposed not to exceed amount by \$412,633 from \$23,880,457 to \$23,467,824 and reduce the proposed increase of \$13,885,229 to \$13,472,596.
2. Approve the resolution in File 20-0164, as amended.
3. Approve File 20-0165.

6. Methodology:

Indirect Services (programs that do not provide direct client services): Describe how the program will deliver the purchased services.

Direct Client Services: Describe how services are delivered and what activities will be provided, addressing, how, what, and where for each section below:

A. Outreach, recruitment, promotion, and advertisement

RAMS' responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency's approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to Outpatient Program services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families, annually serving approximately 18,000 adults, children, youth & families at over 90 sites, citywide.

The RAMS Outpatient Services Program conducts outreach on an ongoing basis, in the most natural environments as possible, through various activities including but not limited to: sponsoring or coordinating cultural events, conducting psycho-educational & informational workshops or activity groups, and providing services in the client's natural environments. Outreach activities are facilitated by staff, primarily the Behavioral Health Clinicians/Counselors (including psychologists, social workers, marriage & family therapists, etc.) as well as Peer Counselors (separate contract). The varying activities, topic foci, and location also engage those who may not necessarily self-initiate counseling services. The Program's workshops may use alternative references to behavioral health topics such as having workshops titled Wellness and Recovery instead of using "loaded" words and language. While serving all ethnicities and populations, there are also targeted outreach activities to ethnic groups including Chinese, Cambodian, and Russian. The Outpatient Program also conducts formal presentations at community health fairs and events raising awareness about behavioral/mental health issues and resources, taking into consideration cultural aspects. For instance, as requested by the community, RAMS conducts outreach at a Buddhist temple for Cambodians and has also invited a Buddhist monk to RAMS in order to promote resiliency and spirituality. Another example is that the program has participated in a neighborhood community event for seniors providing service information. Also, program and psycho-educational material is developed and reviewed for content, literacy, culturally appropriate representation, and word usage, in an effort to increase the "reader-ability" (e.g. using plain language instead of field terminology) and willingness to incorporate it in a meaningful way into her/his life.

B. Admission, enrollment and/or intake criteria and process where applicable

RAMS accommodates referrals from the BHS Behavioral Health Access Center. As RAMS provides services in over 30 languages and, in order to support “advanced access,” the agency deploys mechanisms to effectively make accessible the many dialects fluent amongst staff. The Outpatient Program maintains a multilingual Intake/Resource Schedule, which is a weekly calendar with designated time slots of clinical staff (and language capacities) who consult with the community and conducts intake assessments (with linguistic match). The intake/initial risk assessments are aimed to determine medical necessity for services and assess strengths & existing resources, co-occurring issues/dual diagnosis conditions, medication support needs, vocational readiness/interest (and/or engagement in volunteer activities, school), primary care connection, and other services (e.g. residential, SSI assessment). There is a designated intake coordinator for scheduling assessments and maintaining the documentation, thus supporting streamlined coordination; staff (including Program Director) work closely with the referring party. Following the intake, engagement and follow-up is made with the client. RAMS has been acknowledged as a model for its intake practices (“advanced access”) and managing the demand for services, which is a consistent challenge for other clinics.

C. Service delivery model

To further support accessibility of services, the Outpatient Program throughout the years has maintained hours of operation that extend past 5:00 pm, beyond “normal” business hours. The Program hours are: Monday (9:00 am to 7:00 pm); Tuesday to Thursday (9:00 am to 8:00 pm); Friday (9:00 am to 5:00 pm).

The Outpatient Program’s design and strategies are culturally competent behavioral health and mental health outpatient & prevention services that include, but are not limited to: individual & group counseling, family collateral counseling; clinical case management; crisis intervention; psychiatric evaluation & medication management; psychological testing & assessment; psycho-education; information & referral services; and consultation as well as peer counseling (separate contract). Psycho-educational activities have included topics such as holistic & complementary treatment and practices, and wellness recovery groups/workshops. Services are primarily provided on-site and/or in least restrictive environment including: clients’ home, hospital, another community center, and/or primary care clinic. The type and frequency of services are tailored to the client’s acuity & risk, functional impairments, and clinical needs, with review by the clinical authorization committee and in consultation with SFDPH BHS.

The Behavioral Health Clinicians/Counselors provide clients with on-going individual integrated behavioral health counseling, case management services, and as needed, conduct crisis intervention and collateral meetings. Having counseling and clinical case management services provided by the same care provider streamlines and enhances care coordination. During the treatment planning, the counselor and client discuss how strengths can be used to make changes to their current conditions and to promote & sustain healthy mental health. An integrated plan of care with goals (includes stability in community goal) is formally developed and updated at least annually. It is a collaborative process (between counselor & client) in setting goals and identifying strategies that are attainable & measurable. As needed, other support services are provided by other staff, in collaboration with the Behavioral Health Clinician/Counselor. RAMS conducts home visits and linkages for client support services (e.g. senior day program, childcare,

transportation) to other community agencies and government offices. Throughout the counseling process, staff continuously assesses the client's interest/readiness to engage in vocational, trade schools, and/or other educational activities (e.g. RAMS Hire-Ability Vocational Services, volunteerism, RAMS Peer Specialist Mental Health Certificate). Doctoral interns, closely supervised, are also available to conduct comprehensive batteries of psychological testing and evaluation.

The RAMS Outpatient Program offers structured groups (i.e. therapy, support, and psycho-education) as a component of treatment services to clients. Facilitated (or co-facilitated) by Behavioral Health Clinicians/Counselors, and Peer Counselors, the groups provide positive peer support, focus on interpersonal relationships, provide a support network for specific problems or challenges, and assist individuals in learning about themselves and how they can relate better with other people. Groups are offered in languages besides English. Medication management, including culturally competent psychiatric evaluation & assessment and on-going monitoring of prescribed medications (e.g. individual meetings)), is provided by a licensed psychiatrist and nurse practitioners. The Outpatient Program psychiatry staff capacity & coverage offers daily medication evaluation & assessments during program hours of operation, in order to increase accessibility. Furthermore, the Outpatient Peer Counseling Services component (separate contract) offers peer-based support from Tuesdays to Thursdays from 9 am to 5 pm.

D. Discharge Planning and exit criteria and process

The type and frequency of services are tailored to the client's acuity & risk, functional impairments, and clinical needs, with review by the clinical authorization committee and in consultation with SFDPH BHS. Because of limited behavioral/mental health resources, coupled with the need to promptly serve many newly referred acute clients, the program consistently applies utilization review and discharge/exit criteria to alleviate increasing caseload pressure, and to prioritize services to those most in need. Providers consider such factors as: risk of harm, functional status, psychiatric stability and risk of decompensation, medication compliance, progress and status of Care Plan objectives, and the client's overall environment such as culturally and linguistically appropriate services, to determine which clients can be discharged from Behavioral Health/Case Management Brokerage level of services into medication-only, or be referred to Private Provider Network/Primary Care Physician/Beacon.

E. Program staffing

Program staff include: Management - Program Director, Clinical Manager, Medical Director, Clinical Supervisors; Clinical – Mental/Behavioral Health Counselors (unlicensed/ pre-licensed), Mental/Behavioral Health Clinicians (licensed), Mental/Behavioral Health Workers, Interpreters (as needed and contracted), pre-doctoral interns; administrative support – Office/Intake Manager, Administrative Assistants, Janitor.

(Not funded by this contract) Peer Counselors; practicum trainees and volunteers.

7. Objectives and Measurements:

All objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS Adult & Older Adult Performance Objectives FY 19-20.

8. Continuous Quality Improvement:

1) Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about recording referrals to vocational rehabilitation services in Avatar. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director monitors treatment progress (level of engagement after intake, level of accomplishing treatment goals/objectives), treatment discharge reasons, and service utilization review. RAMS also conducts various random chart reviews to review adherence to objectives as well as treatment documentation requirements.

2) Quality of documentation, including a description of frequency and scope of internal audits

The program utilizes various mechanisms to review documentation quality. At least every other week (may be weekly), clinical documentation is reviewed by the PURQC committee which is comprised of the Chair, Clinical Manager (a licensed psychologist who is a clinical supervisor and direct service practitioner), Program Director, Training Director, and two licensed clinicians. Based on their review, the committee determines service authorizations including frequency of treatment and modality/type of services, and the match to client's progress & clinical needs; feedback is provided to direct clinical staff members. Because the Program Director is involved in the PURQC review, general feedback and summaries on documentation and quality of care topics can be effectively integrated throughout staff meetings and other clinical discussions. Furthermore, clinical supervisors monitor the treatment documentation of their supervisees; most staff meet weekly with their clinical supervisors to review caseload with regard to intervention strategies, treatment plans & progress, documentation, productivity, etc. The program also conducts an annual self-audit in which all direct service providers review all their own charts to ensure documentation standards compliance. For all case reviews, a checklist is utilized. Psychiatry staff also conduct a comprehensive biannual chart peer review, consisting of randomly choosing three medical records from each practitioner and having mutual reviews and feedback based on the guidelines provided by San Francisco Health Network Behavioral Health

Services Psychiatric Peer Review Protocol. In addition to the program's documentation review, the agency's Quality Council conducts a review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback will be provided directly to staff as well as general summaries at staff meetings.

3) Cultural Competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes weekly in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles), monthly case conferences, and an annual roundtable discussion to share practice-based cultural competency strategies. Trainings are from field experts on various clinical topics; case conference is a platform for the practitioner to gain additional feedback regarding intervention strategies, etc. Professional development is further supported by individual clinical supervision (mostly weekly; some are monthly); supervisors and their supervisees' caseload with regard to intervention strategies, treatment plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of treatment indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of treatment engagement (intake show rate; referral source; engagement after intake; number of admissions; treatment discharge reasons; and service utilization review).
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed.

- Development of objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction).
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency disseminates staff satisfaction surveys and Human Resources conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO meets with the RAMS Board of Directors on a regular basis (approximately monthly) and provides an update on agency and programs' activities and matters.

4) Satisfaction with Services

RAMS adheres to the BHS satisfaction survey protocols which include dissemination annually or biannually. Results of client surveys are shared at staff meetings, reviewed by the RAMS Quality Council, and reported to executive management as well as posted on the agency website and other materials. Furthermore, the Program Director has conducted focus groups with the current clients to collect feedback. All satisfaction survey methods and feedback results are compiled and reported to executive management along with assessment of suggestion implementation. Anonymous feedback is also solicited through suggestions boxes in the two client waiting areas; the Office Manager monitors the boxes and reports any feedback to the Program Director who also includes it in the monthly report to executive management.

5) Timely completion and use of outcome data, including CANS and/or ANSA

As described in the previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive treatment outcomes. Furthermore, in regards to ANSA data, upon receipt of BHS-provided data and analysis reports, the Program Director along with RAMS

executive management reviews and analyzes the information. Specifically, management reviews for trends and any significant changes in overall rating scales. Analysis reports and findings are also shared in staff meetings and program management/supervisors meetings. The analysis may also assist in identifying training needs.

6. Methodology:

Indirect Services (programs that do not provide direct client services): Describe how the program will deliver the purchased services.

Direct Client Services: Describe how services are delivered and what activities will be provided, addressing, how, what, and where for each section below:

A. Outreach, recruitment, promotion, and advertisement as necessary.

RAMS' responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency's approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to Outpatient Program services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families, annually serving approximately 18,000 adults, children, youth & families at over 90 sites, citywide.

RAMS conducts outreach on an ongoing basis, in the most natural environments as possible, through various activities including but not limited to: sponsoring or coordinating cultural events, conducting psycho-educational & informational workshops or activity groups, and providing services in the client's natural environments. Outreach activities are facilitated by staff, primarily the direct services providers (e.g. peer counselors, psychologists, social workers, marriage & family therapists, etc.) with varying activities, topic foci, and location. RAMS also conducts formal presentations at community health fairs and events raising awareness about behavioral/mental health issues and resources, taking into consideration cultural aspects. Also, program and psycho-educational material is developed and reviewed for content, literacy, culturally appropriate representation, and word usage, in an effort to increase the "reader-ability" (e.g. using plain language instead of field terminology) and willingness to incorporate it in a meaningful way into her/his life.

To engage the RAMS outpatient clients in participating in the Outpatient Peer Counseling Services program, the following takes place:

- Peer Counselors attend monthly RAMS Adult Outpatient Program staff meeting to disseminate program information to direct service providers
- Clinical Manager of the RAMS Outpatient Clinic meets with peer counselors weekly for individual supervision to discuss referral information, program services, events, etc.
- Peer Counselors develop promotional flyers about Peer Counseling activities and display them in the program wait areas as well as disseminates them to all Outpatient Clinic direct services providers
- Peer Counselors collaborate with Outpatient Clinic direct service providers in working with clients to ensure a team-based treatment approach. This allows Peer Counselors to develop

close working relationships with direct service providers, supporting streamlined referrals from direct service providers to the Peer Counseling Program.

B. Admission, enrollment and/or intake criteria and process where applicable

There are two ways in which clients are admitted into the Outpatient Peer Counseling Program. For those clients who are new to the RAMS outpatient clinic, upon completing an intake (risk assessment), a client is referred to meet with a Peer Counselor (when appropriate) for an orientation of services. During this time, Peer Counselors have the opportunity to assess and discuss with clients whether they would be interested in continuing their participation in services offered by the Outpatient Peer Counseling Program (e.g. as needed individual counseling, case management, groups, events, activities, etc.).

For existing RAMS clients, they are admitted into the Peer Counseling Program should they express interest in participating in the services and events provided by the program. Clients can simply contact one of the Peer Counselors and schedule to meet with them or sign-up to participate in a group or event. Clients can also be connected to the Peer Counseling Program via referral from their direct service provider (e.g. clinician, case manager, psychiatrist, etc.).

- C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.**

The Outpatient Peer Counseling Services is integrated into the RAMS Adult/Older Adult Outpatient Services Program. To further support accessibility of services, the RAMS Adult/Older Adult Outpatient Program throughout the years has maintained hours of operation that extend past 5:00 pm, beyond "normal" business hours. The Program hours are: Monday (9:00 am to 7:00 pm); Tuesday to Thursday (9:00 am to 8:00 pm); Friday (9:00 am to 5:00 pm).

The RAMS programs' design and strategies are culturally competent behavioral health and mental health outpatient & prevention services that include, but are not limited to: individual & group counseling, peer counseling, family collateral counseling; clinical case management; crisis intervention; psychiatric evaluation & medication management; psychological testing & assessment; psycho-education; information & referral services; and consultation. Psycho-educational activities have included topics such as holistic & complementary treatment and practices and wellness recovery groups/workshops.

Specifically, the Outpatient Peer Counseling Services offers peer-based support (three days/week) that includes, but is not limited to:

- Orientation to clinic and program services
- Individual Face-to-Face Counseling
- Case Management
- Resource Linkage

- Psycho-social groups
- Socialization groups
- Cultural Awareness Activities (e.g. cultural celebrations)

Furthermore, the three peer counselors (in multiple languages, all part-time) provide needs assessment and orientation for new clients, facilitate support groups, wellness and recovery groups, art groups, movie viewing groups, and drop-in. They also provide field trips and cultural celebration events several times per year.

- D. Discharge Planning and exit criteria and process, i.e., a step-down to less intensive treatment programs, the criteria of a successful program completion, aftercare, transition to another provider, etc.

Participation in the Peer Counseling Program is voluntary. Clients may utilize services as long as they continue to be a client of the RAMS Outpatient Clinic. Clients may also voluntarily terminate services with the program, at any time, should they feel that their needs for peer counseling services have been met and/or if the program no longer meets their needs.

- E. Program staffing (which staff will be involved in what aspects of the service development and delivery). Indicate if any staff position is not funded by DPH.

RAMS Outpatient Peer Counseling Services include three part-time (16 hours/week) Peer Counselors, with special cultural and language capacities – English, Chinese, Russian – to meet the need of the diverse clients at Outpatient Clinic. Peer Counselors are graduates of RAMS Peer Specialist Mental Health Certificate and/or graduates from other Community Mental Health or Peer Certificate Programs, with experience working with the adult populations RAMS Outpatient Clinic serve.

Not funded by MHSA – supervisor and program director who supervise the Peer Counselors and manage the program, are part of RAMS Adult/Older Adult Outpatient Services are funded by SFDPH-BHS.

F. Mental Health Services Act Programs (Outpatient Peer Counseling Program)

- 1) Consumer participation/engagement: Programs must identify how participants and/or their families are engaged in the development, implementation and/or evaluation of programs. This can include peer-employees, advisory committees, etc.

The foundation of the Outpatient Peer Counseling Program is to engage consumers in providing services within the community system of care. This program employs only peers (consumer of behavioral services with lived experience) to be service providers. Peer Counselors have the opportunity to share their personal experience and knowledge that they have gained as consumers to support others in their process of recovery. From the clients' perspective, the intent

Program Name: Outpatient Peer Counseling Services	Contract Term: 07/01/19 – 06/30/20
	Funding Source: MHSA

of the program is to inspire and instill hope as clients receive support and encouragement from providers who once had similar struggles as themselves.

In addition to peers being service providers, the Outpatient Peer Counseling Program engages clients to participate in the development, implementation, and evaluation of the program in several different ways. Client satisfaction surveys are conducted annually to solicit feedback from clients about the services that they have received. Results from client surveys and feedback are compiled and analyzed by program management, presented to staff and RAMS management. The Program Director and RAMS management work together to assess and integrate client feedback into programming. Peer Counselors also facilitate social/recreational activities and events for the clinic that are driven and organized by client participants.

- 2) **MHSA Vision:** The concepts of recovery and resilience are widely understood and evident in the programs and service delivery

The Outpatient Peer Counseling Program was founded based on the Wellness and Recovery Approach. With peers as service providers, the program sets an example for clients that recovery is possible. Peer Counselors are also trained to work with clients from a Wellness and Recovery Approach. Services provided values the fundamental components of the recovery model: client-centered, client-directed, strengths-based, holistic, self-advocacy, etc.

7. Objectives and Measurements:

- 1) The Outpatient Peer Counseling Program will conduct at least 100 psycho-social groups to support clients in developing social connections in the community. This will be evidenced by participation records kept by Peer Counselors as the groups take place. Peer Counselors will also report to the Clinical Manager progress toward this objective via in-person meetings and written reports. Program Director will provide feedback based on these reports to support counselors in meeting this objective.
- 2) At least 80% of the clients will express overall satisfaction with services that they received through the Outpatient Peer Counseling Program. This will be evidenced by client satisfaction surveys administered once each year (only in spring 2020). The collected data will be summarized and analyzed by Program Director and will be presented to program staff and RAMS management.

8. Continuous Quality Improvement:

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about

recording referrals to vocational rehabilitation services in Avatar. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-going collected, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director monitors services progress (level of engagement after intake, level of accomplishing service/treatment goals), discharge reasons, and service utilization review. RAMS also conducts various random chart reviews to review adherence to objectives as well as treatment documentation requirements.

B. Quality of documentation, including a description of frequency and scope of internal audits

RAMS utilizes various mechanisms to review documentation quality. Documentation reviews are conducted by Program Director as part of the PURQC process as well as upon discharging cases; based on these reviews, determinations/ recommendations are provided relating to frequency and modality/type of services, and the match to client's progress & service needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of care topics are integrated throughout staff meetings and other clinical discussions. Furthermore, supervisors monitor the documentation of their supervisees; most staff meet weekly with their supervisors to review activities (e.g. course progress, caseload with regard to intervention strategies and service plans & progress), documentation, productivity, etc.

C. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes weekly in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles), monthly case conferences, and an annual roundtable discussion to share practice-based cultural competency strategies. Trainings are from field experts on various clinical topics; case conference is a platform for the practitioner to gain additional feedback regarding intervention strategies, etc. Professional development is further supported by

individual clinical supervision (mostly weekly; some are monthly); supervisors and their supervisees' caseload with regard to intervention strategies, treatment plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.

- Ongoing review of treatment indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of treatment engagement (intake show rate; referral source; engagement after intake; number of admissions; treatment discharge reasons; and service utilization review).
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed.
- Development of objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction).
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency disseminates staff satisfaction surveys and Human Resources conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and

direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.

- To ensure accountability at all levels, the RAMS CEO meets with the RAMS Board of Directors on a regular basis (approximately monthly) and provides an update on agency and programs' activities and matters.

D. Satisfaction with services

The Outpatient Peer Counseling Services Program gathers feedback through various methods. An annual client satisfaction survey is facilitated by RAMS administrators in spring 2018; collected data is tabulated and summarized. Results of all client surveys are shared at staff meetings, reviewed by the RAMS Quality Council, and reported to executive management. Furthermore, the Program Director has conducted focus groups with the current clients to collect feedback. Adjustment to program is implemented, after Director and staff review, and as appropriate, according to feedback, to better serve the community. All satisfaction survey methods and feedback results are compiled and reported to executive management along with assessment of suggestion implementation. Anonymous feedback is also solicited through suggestions boxes in the two client waiting areas; the Office Manager monitors the boxes and reports any feedback to the Program Director who also includes it in the monthly report to executive management.

E. Timely completion and use of outcome data, including CANS and/or ANSA

ANSA data is not applicable for this contract; however, as described in previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive outcomes.

Indirect Services (programs that do not provide direct client services): Describe how the program will deliver the purchased services.

A. Outreach, recruitment, promotion, and advertisement as necessary.

RAMS' responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency's approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to vocational services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families, annually approximately 18,000 adults, children, youth & families at over 90 sites, citywide.

B. Admission, enrollment and/or intake criteria and process where applicable.

RAMS accommodates referrals from the BHS and other community agencies within the System of Care. All requests for services are directed to the Intake Coordinator, who schedules and conducts integrated assessments/intakes and processes the documentation, thus supporting streamlined coordination; staff (including Employee Development Coordinator/Manager and Director of Vocational Services/Program Director) works closely with the referring party. The initial assessments are aimed to determine program eligibility, vocational readiness/interest, suitability of program services, strengths & existing resources, level of functioning & needs in consultation with behavioral health services provider, primary care connection, substance use/abuse, and other services (e.g. residential). The Intake Coordinator makes a referral to one of Hire-Ability programs, including Employee Development. As RAMS have unique expertise in providing services to the APIA-speaking communities, Hire-Ability can provide services in Cantonese, Mandarin, Toisanese, and Tagalog. Upon referral to Employee Development, clients may "visit" and participate in the program, on a trial basis, for the first two weeks where they will participate in paid work site experience as well as unpaid classroom training. This supports overall retention and program completion goals, as consumers are fully aware of the program structure and expectations.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

Hire-Ability Vocational Services program hours are Monday to Friday (9:00 a.m. – 5:00 p.m.). The program design includes providing culturally competent, consumer-driven, strengths-based vocational services including but not limited to: vocational assessments, job skills training, paid on-site work experience as well as unpaid classroom and group training sessions, vocational counseling & job coaching, and classes/workshops aimed at building strengths towards employment readiness. The program improves, maintains, or restores personal independence and functioning, consistent with requirements for learning and development, which provides services to a distinct group of beneficiaries. Employee Development's main component is *Production &*

Fulfillment Services, a workshop setting and on-the-job training in the fulfillment services industry (packaging, assembling, labeling, sorting, mailing) with paid work experience Services are primarily provided on-site and/or in least restrictive environment in the field including: clients' employment site, community center, home, etc. Hire-Ability features a structure program in which clients participate at least three days a week (Monday to Friday) from 9:30 a.m. to 12:30 p.m.

Each consumer is assigned a Vocational Rehabilitation Counselor/Trainer who conducts a vocational assessment, facilitates vocational orientation & exploration, performs vocational counseling (case management & linkages), supports and identifies strengths & areas of employment interest, and also provides job training, job search and placement assistance, and job coaching, counseling & guidance. Having a single provider for these services streamlines and enhances care coordination. The vocational assessment is a comprehensive process that systematically utilizes an interview to assist the consumer in the identification of goals leading towards vocational development. These areas, as they relate to employment, include: work needs (e.g. reasonable accommodations), identifying community supports (therapists/case managers, support groups, family & friends), collateral information (therapists/case managers), cultural and/or language issues, work-related issues (concentration, stress, retention of instruction, safety habits, work behavior), psychiatric functioning (behavioral health condition), appearance & grooming, and external factors (financial concerns, living arrangement, medical care). A written report is developed summarizing the assessment, findings & recommendations, which informs the vocational plan and structure for job skills training.

During the vocational services planning, the counselor and consumer discuss how strengths can be utilized to make changes of their current conditions, to promote & sustain healthy mental health, and obtain & retain employment. The counselor also gathers relevant information from the client and other service providers and/or family members, as it relates to employment. An integrated vocational plan for goals is formally developed within the first month of participation, with ongoing monitoring of progress at each meeting/vocational activity, and formally reviewed at the third month. This comprehensive plan considers the client's environment and entire support structure as well as specific employment goals, and takes into account collateral information (e.g. behavioral health treatment plan incorporates vocational goals). Staff are also trained to identify signs of psychiatric relapse and, through collaboration with the client's therapist, implements the appropriate interventions. Together, the counselor & client set goals and identify strategies that are attainable & measureable. The plan includes consumer's input through self-evaluation & rating as well as the counselor's appraisal. RAMS also facilitates linkages for support services (e.g. transportation, child care).

Vocational training and skills building is provided through various capacities. The Vocational Rehabilitation Counselors serve as the primary trainers and maintain written evaluations & progress reports on client skills and vocational goals. These include, but are not limited to, productivity, work quality, attendance, punctuality, dress & grooming, communication with others, group participation, and work endurance. As the primary trainer, Counselors are thoroughly familiar with each individual's daily progress and can provide consistent feedback and support. Training is offered in specific industries, further supporting consumer choice & empowerment and likelihood of transferable skills for gaining competitive employment.

For all Employee Development Program participants, RAMS Hire-Ability offers structured groups (i.e. vocational counseling, training, psycho-education) as a core component of services to clients. Facilitated by Vocational Rehabilitation Counselor, the groups provide positive peer support and pressure, focus on interpersonal relationships, a support network for specific problems or challenges, and can assist individuals to learn about themselves and relate better with other people. Groups can be jointly run with collaborative partners (e.g. behavioral health counselors), taking place at RAMS and/or the partner's site, depending on client feedback & indicated preference, and offered at various hours of the day throughout the week.

- D. Discharge Planning and exit criteria and process, i.e., a step-down to less intensive treatment programs, the criteria of a successful program completion, aftercare, transition to another provider, etc.

Clients successfully complete the program when: (1) 85% attendance rate, and (2) Vocational Development Plan goals are achieved. Upon discharge, referral can be to competitive employment, volunteer internships, education, college enrollment, or salaried employment including higher wage and skilled jobs in industries which are experiencing shortages such as the healthcare field. In this pursuit, the Vocational Rehabilitation Counselor may assist with job search & placement assistance and provide job coaching, counseling, and guidance. As Hire-Ability offers a full spectrum of vocational services, consumers may transition into Employment Services, which is funded through a contract/agreement with the California State Department of Rehabilitation. This program provides a higher level of individualized job preparation using classroom and individual meetings, job development, individualized plans & job placement, and follow-along services to consumers. Hire-Ability also maintains a cooperative agreement with California Department of Rehabilitation (since 1998) to connect employers with trained individuals; thus, supporting job placements for program participants with employment. Consumers may also enter the RAMS Peer Specialist Mental Health Certificate Program (funded by SFDPH-BHS-MHSA), which offers entry and advanced level courses in peer counseling as well as a monthly training series.

E. Program staffing.

Contractor Name: Richmond Area Multi-Services, Inc.	Appendix A-3
Program Name: Employee Development	Contract Term: 07/01/2019 – 06/30/20
	Funding Source: General Fund/ MH realignment

All applicable objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS AOA Performance Objectives 19-20.

B. Individualized Program Objectives

To further support outcomes, RAMS has established the following objectives for FY 2018-2019:

1. 65% of clients who complete the visitation period will successfully complete the program, as evidenced by program case closure records and reasons for discharge.
2. 75% of surveyed clients who complete the program will indicate improvement in their coping abilities. This is evidenced by items on program feedback tools.
3. 75% of surveyed clients who complete the program will report an improvement in work readiness abilities (soft skills) to use toward future opportunities (work/education/volunteering). This is evidenced by the items on program feedback tools.
4. 75% of surveyed graduates will express motivation in being engaged in vocational/educational-related activities, e.g. obtain employment, referral to Hire-Ability Employment Services, volunteerism, or training/educational programs. This will be evidenced by exit interviews and items on the program feedback tools.

8. Continuous Quality Improvement:

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and service outcomes. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director monitors vocational service progress (level of engagement after intake, level of accomplishing vocational goals/objectives), service discharge reasons, and service utilization review. RAMS also conducts various random chart reviews to review adherence to objectives as well as treatment documentation requirements.

B. Quality of documentation, including frequency and scope of chart audits.

Contractor Name: Richmond Area Multi-Services, Inc.	Appendix A- 3
Program Name: Employee Development	Contract Term: 07/01/2019 – 06/30/20
	Funding Source: General Fund/ MH realignment

The program utilizes various mechanisms to review documentation quality. Chart review by supervisors, at the very minimum, is reviewed during the first 30 days of a case opening, every 30 days thereafter, and within a week of case-closure. Based on their review, determinations/recommendations are provided relating to service authorizations including frequency and modality/type of services, and the match to client's progress & vocational/clinical needs; feedback is provided to direct staff members. Furthermore, clinical supervisors monitor the service documentation of their supervisees; staff meet weekly with their supervisors to review caseload with regard to service strategies, vocational plans & progress, documentation, productivity, etc. On a quarterly basis, the Program Director or Manager/Coordinator conducts a review of randomly selected charts (up to 10 charts, program-wide) to monitor quality & timeliness and provide feedback directly to staff as well as general summaries at staff meetings. The selection is such that each individual provider is reviewed at least annually.

In addition to the program's documentation review, the RAMS Quality Council formally conducts an annual review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback is provided directly to staff as well as general summaries at staff meetings.

C. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by individual supervision (mostly weekly); supervisors and their supervisees' caseload with regard to service strategies, vocational plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of vocational services indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of service engagement (referral source; engagement after intake; number of admissions; service discharge reasons; and service utilization review)
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration

Contractor Name: Richn . Area Multi-Services, Inc.	Appendix A- 3

language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.

- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed.
- Development of annual objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction).
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency disseminates staff satisfaction surveys and Human Resources conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO meets with the RAMS Board of Directors on a regular basis (approximately monthly) and provides an update on agency and programs' activities and matters.

D. Satisfaction with services

RAMS adheres to the BHS satisfaction survey protocols which include dissemination annually or biannually. In addition, the Hire-Ability administered its program-developed client satisfaction surveys at case closure or upon request of the client. Furthermore, client feedback is obtained during post-program evaluations, quarterly client advisory council meetings, daily community meetings at the vocational services program, individual meetings between direct service staff and clients, and through a confidential telephone hotline. Results of the survey methods are shared at staff meetings, reviewed by the RAMS Quality Council, and reported to executive management. Furthermore, the program facilitates focus groups with clients. All satisfaction survey methods

and feedback results are also compiled and reported to executive management along with assessment of suggestion implementation. On an annual to biennial basis, clients attend RAMS Board of Directors meetings to share their experiences and provide feedback.

E. Timely completion and use of outcome data, including CANS and/or ANSA

ANSA data is not applicable for this contract; however, as described in previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive outcomes.

3. Goal Statement:

To transition & stabilize adults with serious & persistent mental illness and who may have a physical health condition to long-term housing in the community, maintain stability and live in the community and/or reduce the level of care and services. Additionally, goals include: improved emotional/physical well-being and quality of life, positive engagement in the community, awareness and appropriate use of resources, minimizing harm and/or establishing supportive networks to sustain recovery.

4. Target Population:

Adults ages 18-59 years old, with serious & persistent mental illness, including those with co-occurring disorders (mental health and substance abuse), and who may or may not have a physical health condition. The primary sources of resident referrals are from social workers or case managers from acute care or hospital settings or other community residential programs where the client has had difficulty remaining stable due to lack of either clinical or medical support. All residents require the level of treatment care from a licensed Adult Residential Facility (ARF) setting, but not a Skilled Nursing Facility (SNF) level setting.

RAMS Broderick Residential Program serves the 33 adults residing at the Broderick Street Adult Residential Facility (BSARF), an adult residential facility offering permanent housing, funded through the SFDPH Long Term Care. There is a special focus on serving the Asian and Pacific Islander American (APIA) communities, both immigrants and U.S.-born – a group that is traditionally underserved.

6. Methodology:

Indirect Services (programs that do not provide direct client services): Describe how the program will deliver the purchased services.

Direct Client Services: Describe how services are delivered and what activities will be provided, addressing, how, what, and where for each section below:

A. Outreach, recruitment, promotion, and advertisement as necessary.

BSARF outreach and promotion of the program and services are primarily conducted through Richmond Area Multi-Services, Inc. (RAMS) promotional material, such as agency profile sheets and the website, which describes its history and wide scope of clinical and culturally competent services for consumers as well as other constituents. Agency and program services are also promoted through various community & resource manuals and databases. RAMS has a community organizing component as well as clinical staff, who actively and consistently outreach to monolingual communities and participate in various neighborhood meetings, community events, and informational workshops/fairs. RAMS promotes program services through its active involvement in community partnerships, coalitions, and collaborative agreements with other city contracted agencies, community-based organizations, and affiliates. Additionally, the BSARF program has a brochure that is specifically developed for the program

and it is available, upon request. It is the intake structure of BSARF that all referrals are directed to the SFDPH Transitions /Placement Office, who receives and reviews, in collaboration with RAMS-BSARF management, the application/intake packet and information. Because the BSARF program is a long-term housing placement and a Direct Access to Housing (DAH) site, there is low turnover and a wait list is not maintained.

B. Admission, enrollment and/or intake criteria and process where applicable.

Long Term Care:

All referrals to the BSARF program are directed to and assessed by the SFDPH Transition team, in collaboration with RAMS-BSARF. Most frequently, the referrals to the Transition team come directly from case managers/social workers from hospitals, acute care facilities, or other community providers who complete and submit a Referral Packet to the team. The Referral Packet includes the following information about the applying resident:

- Demographic information
- Adult and Older Adult Residential Care Facility Referral
- Previous Needs and Service Plan, if available
- MHS 140 (BHS system of care history), if available
- Proof of SSI Eligibility and San Francisco resident status
- Physician's Report for Community Care Facilities, including TB clearance, and diagnosis
- Functional Capability Assessment
- Pre-placement Appraisal Information form
- Additional medical or clinical information as needed

The SFDPH Transition team along with BSARF intake team, consisting of Administrator/ Program Director, Clinical Manager, and Nurse Manager, reviews the Referral Packet to initially determine if the applying resident meets eligibility requirements and if he/she potentially matches the level-of-functioning of the facility's current residents. At least one member of the BSARF intake team then visits and interviews the applicant at his/her current placement. After this meeting, the applicant is invited to visit the BSARF site and, as possible meet some of the staff and see the room they will potentially be moving into. An Initial Risk Assessment is completed by the Clinical Manager to gather the necessary clinical information to assess the clinical needs of the potential resident.

The result of the Referral Packet review, interview, and program visit is discussed at the next immediately scheduled Clinical Meeting, which includes participation of the BSARF Administrator, Clinical Manager, Nurse Manager, and Psychiatric Nurse Practitioner as well as the program Behavioral/Mental Health Counselors. Concerns, issues or the need for additional information are addressed by phone with either the referring agency/referral source or the SFDPH Transition Coordinator. Finally, the applying resident and case manager are notified of the intake team's decision for admittance to the BSARF program. When appropriate, a move-in date is also scheduled. The following documents are completed during the new resident intake process:

- Summary DPH Notice of HIPAA Privacy Practices
- BSARF Admission Agreement
- BSARF House Rules
- Consent for Behavioral Health Services
- Resident Rights & Grievance Procedure and Acknowledgement of Receipt of Materials
- Advance Care Directives
- Insurance/Medi-Cal/Medicare information (Printout or BIC Card)
- Authorization for Use or Disclosure of Protected Health Information
- Initial Psychiatric Evaluation
- Consent for the use of Psychotropic Medication (if applicable)
- Photograph of the resident

Each referring agency/referral source is responsible for arrangement & coordination of the resident's SSI payments, while the Office Manager tracks each resident's monthly rent payment and in collaboration with the Administrator addresses any concerns with the referring agencies/referral source.

Behavioral Health Services:

Once clients enter BSARF, they are assigned a Behavioral/Mental Health Counselor who provides an orientation to the program structure (e.g. building/room locations, groups and activities schedule, meal and snack times, emergency procedures). The residents/clients are formally introduced to the house community (other residents) at the next community meeting (which occur twice-weekly).

- C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

Long Term Care and Behavioral Health Services:

The Broderick Street Adult Residential Care Facility (BSARF) is located at 1421 Broderick Street in San Francisco and is a partnership between Richmond Area Multi-Services, Inc. (RAMS) and Behavioral Health Services (BHS) Transition Team of the San Francisco Department of Public Health (SFDPH). The program is an adult residential facility that operates 24-hours, 7-days-a-week, and serves individuals, ages 18-59 years, with the intention that the facility is the resident's long-term and permanent place of residence. Additionally, the facility can retain up to 25% of its total population for those who surpass the 59 year old age limit, provided their required care does not exceed what the facility can provide. The BSARF is licensed by the California Department of Social Services (CDSS) Community Care Licensing Division (CCLD) and can accommodate up to 33 occupants, at any given time. All the residents of BSARF are also considered clients of BHS, and care-managed through RAMS Outpatient Services.

The program at BSARF includes a wide variety of services for the 33 residents. As required by the CDSS-CCLD for adult residential facilities, the program offers basic care & supervision, lodging, nutritious meals & snacks, van transportation to/from appointments, and various activity groups that focus on specific symptom and behavior issues leading to enhance socialization and healthy expressions of emotions/needs. To further support the rehabilitation of the residents, outpatient behavioral health and medication support services are provided on-site, and funded through the BHS portion of the contract. BSARF weekly programming of client activities which includes the following: individual and group therapy; structured weekly social and engagement activities including: art, music, relaxation/meditation, healthy lifestyles, twice weekly community meetings, as well as activity and movement groups, etc. The program recognizes that each resident has different interests, abilities, ways in expressing needs and emotions, learning processes, and knowledge. Clinical staff members facilitate the therapeutic groups that provide additional structure for residents, address specific symptom and behavior issues, and promote socialization and a sense of community. Residents' participation in the groups is voluntary, and attendance and applicable progress records are documented and maintained according to regulations. The Community Meetings are a general venue where residents have the opportunity to have their voices/concerns heard and give input as to the quality of their living environment and services provided. Residents are also encouraged and educated on how to utilize and access resources that already exist within the City & County of San Francisco. A more detailed description of these additional services can be found in the RAMS contract with SFDPH-BHS.

Medication management, including culturally competent psychiatric evaluation and assessment and on-going monitoring of prescribed medications is provided by nurse practitioners, registered nurses, and licensed vocational nurses. The program's medication support services staff offers daily medication evaluation and assessments, with capacity and coverage to increase accessibility.

D. Discharge Planning and exit criteria and process, i.e., a step-down to less intensive treatment programs, the criteria of a successful program completion, aftercare, transition to another provider, etc.

Long Term Care:

The BSARF facility is a permanent housing site; there is low turnover and a wait list is not maintained. Assessment for the appropriateness of services to the residents' level of functioning is continually conducted, on an on-going basis. If a resident ages out of the program or requires care beyond what the facility can safely provide due to physical or psychological decline, the SFDPH Coordinator for Placement Support will be notified as well as the residents conservator or family member. Typically, a case conference will be held to discuss the resident's emergent level of care needs and to identify a plan for a transition to an appropriate level of care. Additionally, as mandated by the state, the resident will be given a 30 day notice. The RAMS-BSARF Behavioral/Mental Health Counselor will assist with appropriate service linkages in the community and will provide support and assistance during the transition process. Should a client be stabilized and progressed enough to live more independently, then the RAMS-BSARF Behavioral Health Counselor, along with program management, will also assist appropriate service/housing linkages in the community and will provide assistance during the transition process.

Behavioral Health Services:

The primary program goal is to support the client’s ability to maintain stability and live in the community and/or reduce the level of care and services. As such, exit criteria would include moving out of the Broderick Facility to either a higher/lower level of care and services.

- E. Program staffing (which staff will be involved in what aspects of the service development and delivery). Indicate if any staff position is not funded by DPH.

All staff at the BSARF site are employees of RAMS; however, the funding is collaboratively provided by Behavioral Health Services (BHS) and Long Term Care. The BHS contract provides the funding for the Broderick Street Residential Program staff, which provides outpatient behavioral/mental health and medical support services; the Long Term Care funds the staff of the residential services component, which includes basic care and supervision, lodging, nutritious meals and snacks, van transportation to/from appointments, and various activity groups.

Additionally, BSARF has a Doctoral Psychology Intern of the RAMS Training Center who participates in the delivery of services at this site (position is funded by SFDPH BHS Adult/Older Adult Outpatient Services contract).

7. Objectives and Measurements:

All objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS Adult & Older Adult Performance Objectives FY 19-20, and Adult Residential Mental Health.

8. Continuous Quality Improvement:

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed (e.g. via weekly clinical staff meetings, etc.) about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about recording referrals to vocational rehabilitation services in Avatar. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director and Clinical Manager monitor treatment progress (level of accomplishing treatment goals/objectives), treatment discharge reasons, and service utilization review. RAMS also conducts weekly chart reviews to review adherence to objectives as well as treatment documentation requirements.

B. Quality of documentation, including a description of the frequency and scope of internal chart audits

The program utilizes various mechanisms to review documentation quality. The Nurse Manager reviews documentation of services for long term care. On a weekly basis, the Clinical Manager conducts a review of (Avatar) charts (3-5 cases) to monitor quality & timeliness and provide feedback directly to staff and, as needed, general themes/summaries may be reported at staff meetings. This ongoing review method results in each client case being reviewed multiples times, annually. In addition, direct services providers meet weekly with their clinical supervisors to review caseload with regard to intervention strategies, treatment plans & progress, documentation, productivity, etc. Furthermore, clinical documentation is reviewed by the service utilization committee, led by the Program Director (Licensed Marriage & Family Therapist). Based on the review, the committee determines service authorizations including frequency of treatment and modality/type of services, and the match to client's progress & clinical needs; feedback is provided to direct clinical staff members.

In addition to the program's documentation review, the agency's Quality Council conducts a review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback will be provided directly to staff as well as general summaries at staff meetings.

Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of treatment indicators is conducted by the Program Director (and reported to executive management) on a monthly basis; data collection and analysis of treatment progress, treatment discharge reasons, and service utilization review.
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed.

CONTRACTOR understands that, of this maximum dollar obligation, \$2,291,101 is included as a contingency amount and is neither to be used in Appendix B, Budget, or available to CONTRACTOR without a modification to this Agreement executed in the same manner as this Agreement or a revision to Appendix B, Budget, which has been approved by the Director of Health. CONTRACTOR further understands that no payment of any portion of this contingency amount will be made unless and until such modification or budget revision has been fully approved and executed in accordance with applicable CITY and Department of Public Health laws, regulations and policies/procedures and certification as to the availability of funds by the Controller. CONTRACTOR agrees to fully comply with these laws, regulations, and policies/procedures.

(1) For each fiscal year of the term of this Agreement, CONTRACTOR shall submit for approval of the CITY's Department of Public Health a revised Appendix A, Description of Services, and a revised Appendix B, Program Budget and Cost Reporting Data Collection form, based on the CITY's allocation of funding for SERVICES for the appropriate fiscal year. CONTRACTOR shall create these Appendices in compliance with the instructions of the Department of Public Health. These Appendices shall apply only to

the fiscal year for which they were created. These Appendices shall become part of this Agreement only upon approval by the CITY.

(2) CONTRACTOR understands that, of the maximum dollar obligation stated above, the total amount to be used in Appendix B, Budget and available to CONTRACTOR for the entire term of the contract is as follows, notwithstanding that for each fiscal year, the amount to be used in Appendix B, Budget and available to CONTRACTOR for that fiscal year shall conform with the Appendix A, Description of Services, and a Appendix B, Program Budget and Cost Reporting Data Collection form, as approved by the CITY's Department of Public Health based on the CITY's allocation of funding for SERVICES for that fiscal year.

CONTRACTOR understands that the CITY may need to adjust sources of revenue and agrees that these needed adjustments will become part of this Agreement by written modification to CONTRACTOR. In event that such reimbursement is terminated or reduced, this Agreement shall be terminated or proportionately reduced accordingly. In no event will CONTRACTOR be entitled to compensation in excess of these amounts for these periods without there first being a modification of the Agreement or a revision to Appendix B, Budget, as provided for in this section of this Agreement.

3. Services of Attorneys

No invoices for Services provided by law firms or attorneys, including, without limitation, as subcontractors of Contractor, will be paid unless the provider received advance written approval from the City Attorney.

4. State or Federal Medi-Cal Revenues

A. CONTRACTOR understands and agrees that should the CITY'S maximum dollar obligation under this Agreement include State or Federal Medi-Cal revenues, CONTRACTOR shall expend such revenues in the provision of SERVICES to Medi-Cal eligible clients in accordance with CITY, State, and Federal Medi-Cal regulations. Should CONTRACTOR fail to expend budgeted Medi-Cal revenues herein, the CITY'S maximum dollar obligation to CONTRACTOR shall be proportionally reduced in the amount of such unexpended revenues. In no event shall State/Federal Medi-Cal revenues be used for clients who do not qualify for Medi-Cal reimbursement.

B. CONTRACTOR further understands and agrees that any State or Federal Medi-Cal funding in this Agreement subject to authorized Federal Financial Participation (FFP) is an estimate, and actual amounts will be determined based on actual services and actual costs, subject to the total compensation amount shown in this Agreement."

5. Reports and Services

No costs or charges shall be incurred under this Agreement nor shall any payments become due to CONTRACTOR until reports, SERVICES, or both, required under this Agreement are received from CONTRACTOR and approved by the DIRECTOR as being in accordance with this Agreement. CITY may withhold payment to CONTRACTOR in any instance in which CONTRACTOR has failed or refused to satisfy any material obligation provided for under this Agreement.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi Ada,
My name is Michelle and we are RAMS' insurance broker. Quality Comp is the name of the Self-Insured Program and they are the only ones that have the authority to issue a Waiver of Subrogation since they are the carrier. Although they aren't an actual insurance company, they are the program managers and have full authority over the program.
Please let me know if you have any questions.
Thank you!

Recitals

WHEREAS, the Department of Public Health ("Department") wishes to provide mental health services; and,

WHEREAS, this Agreement was competitively procured as required by San Francisco Administrative Code Chapter 21.1 through a Request for Proposal ("RFP") RFQ 11-2015 issued on 1/1/16 and RFP 8-2017 issued on 8/23/17 in which City selected Contractor as the highest qualified scorer pursuant to the RFP/RFQ; and

WHEREAS, there is no Local Business Entity ("LBE") subcontracting participation requirement for this Agreement; and

WHEREAS, Contractor represents and warrants that it is qualified to perform the Services required by City as set forth under this Agreement; and

Article 1 Definitions

The following definitions apply to this Agreement:

1.1 "Agreement" means this contract document, including all attached appendices, and all applicable City Ordinances and Mandatory City Requirements which are specifically incorporated into this Agreement by reference as provided herein.

1.2 "City" or "the City" means the City and County of San Francisco, a municipal corporation, acting by and through both its Director of the Office of Contract Administration or the Director's designated agent, hereinafter referred to as "Purchasing" and Department of Public Health."

1.3 "CMD" means the Contract Monitoring Division of the City.

1.4 "Contractor" or "Consultant" means Richmond Area Multi Services, Inc., 639 14th Avenue, CA 94118 ("Contractor") and City.

1.5 "Deliverables" means Contractor's work product resulting from the Services that are provided by Contractor to City during the course of Contractor's performance of the Agreement, including without limitation, the work product described in the "Scope of Services" attached as Appendix A.

1.6 "Effective Date" means the date upon which the City's Controller certifies the availability of funds for this Agreement as provided in Section 3.1.

1.7 "Mandatory City Requirements" means those City laws set forth in the San Francisco Municipal Code, including the duly authorized rules, regulations, and guidelines implementing such laws, that impose specific duties and obligations upon Contractor.

1.8 "Party" and "Parties" mean the City and Contractor either collectively or individually.

1.9 "Services" means the work performed by Contractor under this Agreement as specifically described in the "Scope of Services" attached as Appendix A, including all services, labor, supervision, materials, equipment, actions and other requirements to be performed and furnished by Contractor under this Agreement.

Article 2 Term of the Agreement

2.1 The term of this Agreement shall commence on the latter of: (i) July 1, 2018; or (ii) the Effective Date and expire on June 30, 2020, unless earlier terminated as otherwise provided herein.

Article 3 Financial Matters

3.1 **Certification of Funds; Budget and Fiscal Provisions; Termination in the Event of Non-Appropriation.** This Agreement is subject to the budget and fiscal provisions of the City's Charter. Charges will accrue only after prior written authorization certified by the Controller, and the amount of City's obligation hereunder shall not at any time exceed the amount certified for the purpose and period stated in such advance authorization. This Agreement will terminate without penalty, liability or expense of any kind to City at the end of any fiscal year if funds are not appropriated for the next succeeding fiscal year. If funds are appropriated for a portion of the fiscal year, this Agreement will terminate, without penalty, liability or expense of any kind at the end of the term for which funds are appropriated. City has no obligation to make appropriations for this Agreement in lieu of appropriations for new or other agreements. City budget decisions are subject to the discretion of the Mayor and the Board of Supervisors. Contractor's assumption of risk of possible non-appropriation is part of the consideration for this Agreement.

THIS SECTION CONTROLS AGAINST ANY AND ALL OTHER PROVISIONS OF THIS AGREEMENT.

3.2 **Guaranteed Maximum Costs.** The City's payment obligation to Contractor cannot at any time exceed the amount certified by City's Controller for the purpose and period stated in such certification. Absent an authorized Emergency per the City Charter or applicable Code, no City representative is authorized to offer or promise, nor is the City required to honor, any

offered or promised payments to Contractor under this Agreement in excess of the certified maximum amount without the Controller having first certified the additional promised amount and the Parties having modified this Agreement as provided in Section 11.5, "Modification of this Agreement."

3.3 Compensation.

3.3.1 **Payment.** Contractor shall provide an invoice to the City on a monthly basis for Services completed in the immediate preceding month, unless a different schedule is set out in Appendix B, "Calculation of Charges." Compensation shall be made for Services identified in the invoice that the Director of Health, in his or her sole discretion, concludes has been satisfactorily performed. Payment shall be made within 30 calendar days of receipt of the invoice, unless the City notifies the Contractor that a dispute as to the invoice exists. In no event shall the amount of this Agreement exceed **Nine Million Nine Hundred Ninety Five Thousand Two Hundred Twenty Eight Dollars (\$9,995,228)**. The breakdown of charges associated with this Agreement appears in Appendix B, "Calculation of Charges," attached hereto and incorporated by reference as though fully set forth herein. A portion of payment may be withheld until conclusion of the Agreement if agreed to by both parties as retainage, described in Appendix B. In no event shall City be liable for interest or late charges for any late payments.

3.3.2 **Payment Limited to Satisfactory Services.** Contractor is not entitled to any payments from City until Department of Public Health approves Services, including any furnished Deliverables, as satisfying all of the requirements of this Agreement. Payments to Contractor by City shall not excuse Contractor from its obligation to replace unsatisfactory Deliverables, including equipment, components, materials, or Services even if the unsatisfactory character of such Deliverables, equipment, components, materials, or Services may not have been apparent or detected at the time such payment was made. Deliverables, equipment, components, materials and Services that do not conform to the requirements of this Agreement may be rejected by City and in such case must be replaced by Contractor without delay at no cost to the City.

3.3.3 **Withhold Payments.** If Contractor fails to provide Services in accordance with Contractor's obligations under this Agreement, the City may withhold any and all payments due Contractor until such failure to perform is cured; and Contractor shall not stop work as a result of City's withholding of payments as provided herein.

3.3.4 **Invoice Format.** Invoices furnished by Contractor under this Agreement must be in a form acceptable to the Controller and City, and must include a unique invoice number. Payment shall be made by City specified in Section 3.3.6, or in such alternate manner as the Parties have mutually agreed upon in writing.

3.3.5 **Reserved. (LBE Payment and Utilization Tracking System)**

3.3.6 **Getting paid for goods and/or services from the City.**

(a) All City vendors receiving new contracts, contract renewals, or contract extensions must sign up to receive electronic payments through, the City's Automated Clearing House

(ACH) payments service/provider. Electronic payments are processed every business day and are safe and secure. To sign up for electronic payments, visit www.sfgov.org/ach.

(b) The following information is required to sign up: (i) The enroller must be their company's authorized financial representative, (ii) the company's legal name, main telephone number and all physical and remittance addresses used by the company, (iii) the company's U.S. federal employer identification number (EIN) or Social Security number (if they are a sole proprietor), and (iv) the company's bank account information, including routing and account numbers.

3.3.7 Grant Funded Contracts.

(a) **Disallowance.** If Contractor requests or receives payment from City for Services, reimbursement for which is later disallowed by the State of California or United States Government, Contractor shall promptly refund the disallowed amount to City upon City's request. At its option, City may offset the amount disallowed from any payment due or to become due to Contractor under this Agreement or any other Agreement between Contractor and City.

3.4 **Audit and Inspection of Records.** Contractor agrees to maintain and make available to the City, during regular business hours, accurate books and accounting records relating to its Services. Contractor will permit City to audit, examine and make excerpts and transcripts from such books and records, and to make audits of all invoices, materials, payrolls, records or personnel and other data related to all other matters covered by this Agreement, whether funded in whole or in part under this Agreement. Contractor shall maintain such data and records in an accessible location and condition for a period of not fewer than five years after final payment under this Agreement or until after final audit has been resolved, whichever is later. The State of California or any Federal agency having an interest in the subject matter of this Agreement shall have the same rights as conferred upon City by this Section. Contractor shall include the same audit and inspection rights and record retention requirements in all subcontracts.

3.4.1 Contractor shall annually have its books of accounts audited by a Certified Public Accountant and a copy of said audit report and the associated management letter(s) shall be transmitted to the Director of Public Health or his /her designee within one hundred eighty (180) calendar days following Contractor's fiscal year end date. If Contractor expends \$750,000 or more in Federal funding per year, from any and all Federal awards, said audit shall be conducted in accordance with 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Said requirements can be found at the following website address: https://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl.

If Contractor expends less than \$750,000 a year in Federal awards, Contractor is exempt from the single audit requirements for that year, but records must be available for review or audit by appropriate officials of the Federal Agency, pass-through entity and General Accounting Office. Contractor agrees to reimburse the City any cost adjustments necessitated by this audit report. Any audit report which addresses all or part of the period covered by this Agreement shall treat the service components identified in the detailed descriptions attached to Appendix A and referred to in the Program Budgets of Appendix B as discrete program entities of the Contractor.

3.4.2 The Director of Public Health or his / her designee may approve a waiver of the audit requirement in Section 3.4.1 above, if the contractual Services are of a consulting or personal

services nature, these Services are paid for through fee for service terms which limit the City's risk with such contracts, and it is determined that the work associated with the audit would produce undue burdens or costs and would provide minimal benefits. A written request for a waiver must be submitted to the DIRECTOR ninety (90) calendar days before the end of the Agreement term or Contractor's fiscal year, whichever comes first.

3.4.3 Any financial adjustments necessitated by this audit report shall be made by Contractor to the City. If Contractor is under contract to the City, the adjustment may be made in the next subsequent billing by Contractor to the City, or may be made by another written schedule determined solely by the City. In the event Contractor is not under contract to the City, written arrangements shall be made for audit adjustments.

3.5 **Submitting False Claims.** The full text of San Francisco Administrative Code Chapter 21, Section 21.35, including the enforcement and penalty provisions, is incorporated into this Agreement. Pursuant to San Francisco Administrative Code §21.35, any contractor or subcontractor who submits a false claim shall be liable to the City for the statutory penalties set forth in that section. A contractor or subcontractor will be deemed to have submitted a false claim to the City if the contractor or subcontractor: (a) knowingly presents or causes to be presented to an officer or employee of the City a false claim or request for payment or approval; (b) knowingly makes, uses, or causes to be made or used a false record or statement to get a false claim paid or approved by the City; (c) conspires to defraud the City by getting a false claim allowed or paid by the City; (d) knowingly makes, uses, or causes to be made or used a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the City; or (e) is a beneficiary of an inadvertent submission of a false claim to the City, subsequently discovers the falsity of the claim, and fails to disclose the false claim to the City within a reasonable time after discovery of the false claim.

3.6 **Reserved. (Payment of Prevailing Wages)**

Article 4 Services and Resources

4.1 **Services Contractor Agrees to Perform.** Contractor agrees to perform the Services provided for in Appendix A, "Scope of Services." Officers and employees of the City are not authorized to request, and the City is not required to reimburse the Contractor for, Services beyond the Scope of Services listed in Appendix A, unless Appendix A is modified as provided in Section 11.5, "Modification of this Agreement."

4.2 **Qualified Personnel.** Contractor shall utilize only competent personnel under the supervision of, and in the employment of, Contractor (or Contractor's authorized subcontractors) to perform the Services. Contractor will comply with City's reasonable requests regarding assignment and/or removal of personnel, but all personnel, including those assigned at City's request, must be supervised by Contractor. Contractor shall commit adequate resources to allow timely completion within the project schedule specified in this Agreement.

4.3 **Subcontracting.** Contractor may subcontract portions of the Services only upon prior written approval of City. Contractor is responsible for its subcontractors throughout the course of the work required to perform the Services. All Subcontracts must incorporate the terms of Article 10 "Additional Requirements Incorporated by Reference" of this Agreement, unless inapplicable. Neither

Party shall, on the basis of this Agreement, contract on behalf of, or in the name of, the other Party. Any agreement made in violation of this provision shall be null and void.

4.4 Independent Contractor; Payment of Employment Taxes and Other Expenses.

4.4.1 Independent Contractor. For the purposes of this Article 4, "Contractor" shall be deemed to include not only Contractor, but also any agent or employee of Contractor. Contractor acknowledges and agrees that at all times, Contractor or any agent or employee of Contractor shall be deemed at all times to be an independent contractor and is wholly responsible for the manner in which it performs the services and work requested by City under this Agreement. Contractor, its agents, and employees will not represent or hold themselves out to be employees of the City at any time. Contractor or any agent or employee of Contractor shall not have employee status with City, nor be entitled to participate in any plans, arrangements, or distributions by City pertaining to or in connection with any retirement, health or other benefits that City may offer its employees. Contractor or any agent or employee of Contractor is liable for the acts and omissions of itself, its employees and its agents. Contractor shall be responsible for all obligations and payments, whether imposed by federal, state or local law, including, but not limited to, FICA, income tax withholdings, unemployment compensation, insurance, and other similar responsibilities related to Contractor's performing services and work, or any agent or employee of Contractor providing same. Nothing in this Agreement shall be construed as creating an employment or agency relationship between City and Contractor or any agent or employee of Contractor. Any terms in this Agreement referring to direction from City shall be construed as providing for direction as to policy and the result of Contractor's work only, and not as to the means by which such a result is obtained. City does not retain the right to control the means or the method by which Contractor performs work under this Agreement. Contractor agrees to maintain and make available to City, upon request and during regular business hours, accurate books and accounting records demonstrating Contractor's compliance with this section. Should City determine that Contractor, or any agent or employee of Contractor, is not performing in accordance with the requirements of this Agreement, City shall provide Contractor with written notice of such failure. Within five (5) business days of Contractor's receipt of such notice, and in accordance with Contractor policy and procedure, Contractor shall remedy the deficiency. Notwithstanding, if City believes that an action of Contractor, or any agent or employee of Contractor, warrants immediate remedial action by Contractor, City shall contact Contractor and provide Contractor in writing with the reason for requesting such immediate action.

4.4.2 Payment of Employment Taxes and Other Expenses. Should City, in its discretion, or a relevant taxing authority such as the Internal Revenue Service or the State Employment Development Division, or both, determine that Contractor is an employee for purposes of collection of any employment taxes, the amounts payable under this Agreement shall be reduced by amounts equal to both the employee and employer portions of the tax due (and offsetting any credits for amounts already paid by Contractor which can be applied against this liability). City shall then forward those amounts to the relevant taxing authority. Should a relevant taxing authority determine a liability for past services performed by Contractor for City, upon notification of such fact by City, Contractor shall promptly remit such amount due or arrange with City to have the amount due withheld from future payments to Contractor under this Agreement (again, offsetting any amounts already paid by Contractor which can be applied as a credit against such liability). A determination of employment status pursuant to the preceding two paragraphs shall be solely for the purposes of the particular tax in question, and for all other purposes of this Agreement, Contractor shall not be considered an employee of City. Notwithstanding the

foregoing, Contractor agrees to indemnify and save harmless City and its officers, agents and employees from, and, if requested, shall defend them against any and all claims, losses, costs, damages, and expenses, including attorneys' fees, arising from this section.

4.5 **Assignment.** The Services to be performed by Contractor are personal in character and neither this Agreement nor any duties or obligations hereunder may be assigned or delegated by Contractor unless first approved by City by written instrument executed and approved in the same manner as this Agreement. Any purported assignment made in violation of this provision shall be null and void.

4.6 **Warranty.** Contractor warrants to City that the Services will be performed with the degree of skill and care that is required by current, good and sound professional procedures and practices, and in conformance with generally accepted professional standards prevailing at the time the Services are performed so as to ensure that all Services performed are correct and appropriate for the purposes contemplated in this Agreement.

Article 5 Insurance and Indemnity

5.1 Insurance.

5.1.1 **Required Coverages.** Without in any way limiting Contractor's liability pursuant to the "Indemnification" section of this Agreement, Contractor must maintain in force, during the full term of the Agreement, insurance in the following amounts and coverages:

- (a) Workers' Compensation, in statutory amounts, with Employers' Liability Limits not less than \$1,000,000 each accident, injury, or illness; and
- (b) Commercial General Liability Insurance with limits not less than \$1,000,000 each occurrence for Bodily Injury and Property Damage, including Contractual Liability, Personal Injury, Products and Completed Operations; and
- (c) Commercial Automobile Liability Insurance with limits not less than \$1,000,000 each occurrence, "Combined Single Limit" for Bodily Injury and Property Damage, including Owned, Non-Owned and Hired auto coverage, as applicable.
- (d) Professional liability insurance, applicable to Contractor's profession, with limits not less than \$1,000,000 each claim with respect to negligent acts, errors or omissions in connection with the Services.
- (e) Blanket Fidelity Bond (Commercial Blanket Bond): Limits in the amount of the Initial Payment provided for in the Agreement.

5.1.2 Commercial General Liability and Commercial Automobile Liability Insurance policies must be endorsed to provide:

- (a) Name as Additional Insured the City and County of San Francisco, its Officers, Agents, and Employees.
- (b) That such policies are primary insurance to any other insurance available to the Additional Insureds, with respect to any claims arising out of this Agreement, and that insurance applies separately to each insured against whom claim is made or suit is brought.

5.1.3 All policies shall be endorsed to provide thirty (30) days' advance written notice to the City of cancellation for any reason, intended non-renewal, or reduction in coverages. Notices shall be sent to the City address set forth in Section 11.1, entitled "Notices to the Parties."

5.1.4 Should any of the required insurance be provided under a claims-made form, Contractor shall maintain such coverage continuously throughout the term of this Agreement and, without lapse, for a period of three years beyond the expiration of this Agreement, to the effect that, should occurrences during the contract term give rise to claims made after expiration of the Agreement, such claims shall be covered by such claims-made policies.

5.1.5 Should any of the required insurance be provided under a form of coverage that includes a general annual aggregate limit or provides that claims investigation or legal defense costs be included in such general annual aggregate limit, such general annual aggregate limit shall be double the occurrence or claims limits specified above.

5.1.6 Should any required insurance lapse during the term of this Agreement, requests for payments originating after such lapse shall not be processed until the City receives satisfactory evidence of reinstated coverage as required by this Agreement, effective as of the lapse date. If insurance is not reinstated, the City may, at its sole option, terminate this Agreement effective on the date of such lapse of insurance.

5.1.7 Before commencing any Services, Contractor shall furnish to City certificates of insurance and additional insured policy endorsements with insurers with ratings comparable to A-, VIII or higher, that are authorized to do business in the State of California, and that are satisfactory to City, in form evidencing all coverages set forth above. Approval of the insurance by City shall not relieve or decrease Contractor's liability hereunder.

5.1.8 The Workers' Compensation policy(ies) shall be endorsed with a waiver of subrogation in favor of the City for all work performed by the Contractor, its employees, agents and subcontractors.

5.1.9 If Contractor will use any subcontractor(s) to provide Services, Contractor shall require the subcontractor(s) to provide all necessary insurance and to name the City and County of San Francisco, its officers, agents and employees and the Contractor as additional insureds.

5.2 Indemnification. Contractor shall indemnify and hold harmless City and its officers, agents and employees from, and, if requested, shall defend them from and against any and all claims, demands, losses, damages, costs, expenses, and liability (legal, contractual, or otherwise) arising from or in any way connected with any: (i) injury to or death of a person, including employees of City or Contractor; (ii) loss of or damage to property; (iii) violation of local, state, or federal common law, statute or regulation, including but not limited to privacy or personally identifiable information, health information, disability and labor laws or regulations; (iv) strict liability imposed by any law or regulation; or (v) losses arising from Contractor's execution of subcontracts not in accordance with the requirements of this Agreement applicable to subcontractors; so long as such injury, violation, loss, or strict liability (as set forth in subsections (i) – (v) above) arises directly or indirectly from Contractor's performance of this Agreement, including, but not limited to, Contractor's use of facilities or equipment provided by City or others, regardless of the negligence of, and regardless of whether liability without fault is imposed or sought to be imposed on City, except to the extent that such indemnity is void or otherwise unenforceable under applicable law, and except where such loss, damage, injury, liability or claim is the result of the active negligence or willful misconduct of City and is not contributed to by any act of, or by any omission to perform some duty imposed by law or agreement on Contractor, its subcontractors, or either's agent or

employee. Contractor shall also indemnify, defend and hold City harmless from all suits or claims or administrative proceedings for breaches of federal and/or state law regarding the privacy of health information, electronic records or related topics, arising directly or indirectly from Contractor's performance of this Agreement, except where such breach is the result of the active negligence or willful misconduct of City. The foregoing indemnity shall include, without limitation, reasonable fees of attorneys, consultants and experts and related costs and City's costs of investigating any claims against the City.

In addition to Contractor's obligation to indemnify City, Contractor specifically acknowledges and agrees that it has an immediate and independent obligation to defend City from any claim which actually or potentially falls within this indemnification provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Contractor by City and continues at all times thereafter.

Contractor shall indemnify and hold City harmless from all loss and liability, including attorneys' fees, court costs and all other litigation expenses for any infringement of the patent rights, copyright, trade secret or any other proprietary right or trademark, and all other intellectual property claims of any person or persons arising directly or indirectly from the receipt by City, or any of its officers or agents, of Contractor's Services.

Article 6 Liability of the Parties

6.1 Liability of City. CITY'S PAYMENT OBLIGATIONS UNDER THIS AGREEMENT SHALL BE LIMITED TO THE PAYMENT OF THE COMPENSATION PROVIDED FOR IN SECTION 3.3.1, "PAYMENT," OF THIS AGREEMENT. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, IN NO EVENT SHALL CITY BE LIABLE, REGARDLESS OF WHETHER ANY CLAIM IS BASED ON CONTRACT OR TORT, FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOST PROFITS, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT OR THE SERVICES PERFORMED IN CONNECTION WITH THIS AGREEMENT

6.2 Liability for Use of Equipment. City shall not be liable for any damage to persons or property as a result of the use, misuse or failure of any equipment used by Contractor, or any of its subcontractors, or by any of their employees, even though such equipment is furnished, rented or loaned by City.

6.3 Liability for Incidental and Consequential Damages. Contractor shall be responsible for incidental and consequential damages resulting in whole or in part from Contractor's acts or omissions.

Article 7 Payment of Taxes

7.1 Except for any applicable California sales and use taxes charged by Contractor to City, Contractor shall pay all taxes, including possessory interest taxes levied upon or as a result of this Agreement, or the Services delivered pursuant hereto. Contractor shall remit to the State of California any sales or use taxes paid by City to Contractor under this Agreement. Contractor

agrees to promptly provide information requested by the City to verify Contractor's compliance with any State requirements for reporting sales and use tax paid by City under this Agreement.

7.2 Contractor acknowledges that this Agreement may create a "possessory interest" for property tax purposes. Generally, such a possessory interest is not created unless the Agreement entitles the Contractor to possession, occupancy, or use of City property for private gain. If such a possessory interest is created, then the following shall apply:

7.2.1 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that Contractor, and any permitted successors and assigns, may be subject to real property tax assessments on the possessory interest.

7.2.2 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that the creation, extension, renewal, or assignment of this Agreement may result in a "change in ownership" for purposes of real property taxes, and therefore may result in a revaluation of any possessory interest created by this Agreement. Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report on behalf of the City to the County Assessor the information required by Revenue and Taxation Code section 480.5, as amended from time to time, and any successor provision.

7.2.3 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that other events also may cause a change of ownership of the possessory interest and result in the revaluation of the possessory interest. (see, e.g., Rev. & Tax. Code section 64, as amended from time to time). Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to report any change in ownership to the County Assessor, the State Board of Equalization or other public agency as required by law.

7.2.4 Contractor further agrees to provide such other information as may be requested by the City to enable the City to comply with any reporting requirements for possessory interests that are imposed by applicable law.

Article 8 Termination and Default

8.1 Termination for Convenience

8.1.1 City shall have the option, in its sole discretion, to terminate this Agreement, at any time during the term hereof, for convenience and without cause. City shall exercise this option by giving Contractor written notice of termination. The notice shall specify the date on which termination shall become effective.

8.1.2 Upon receipt of the notice of termination, Contractor shall commence and perform, with diligence, all actions necessary on the part of Contractor to effect the termination of this Agreement on the date specified by City and to minimize the liability of Contractor and City to third parties as a result of termination. All such actions shall be subject to the prior approval of City. Such actions shall include, without limitation:

(a) Halting the performance of all Services under this Agreement on the date(s) and in the manner specified by City.

(b) Terminating all existing orders and subcontracts, and not placing any further orders or subcontracts for materials, Services, equipment or other items.

(c) At City's direction, assigning to City any or all of Contractor's right, title, and interest under the orders and subcontracts terminated. Upon such assignment, City shall have the right, in its sole discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts.

(d) Subject to City's approval, settling all outstanding liabilities and all claims arising out of the termination of orders and subcontracts.

(e) Completing performance of any Services that City designates to be completed prior to the date of termination specified by City.

(f) Taking such action as may be necessary, or as the City may direct, for the protection and preservation of any property related to this Agreement which is in the possession of Contractor and in which City has or may acquire an interest.

(a) The reasonable cost to Contractor, without profit, for all Services prior to the specified termination date, for which Services City has not already tendered payment. Reasonable costs may include a reasonable allowance for actual overhead, not to exceed a total of 10% of Contractor's direct costs for Services. Any overhead allowance shall be separately itemized. Contractor may also recover the reasonable cost of preparing the invoice.

(b) A reasonable allowance for profit on the cost of the Services described in the immediately preceding subsection (a), provided that Contractor can establish, to the satisfaction of City, that Contractor would have made a profit had all Services under this Agreement been completed, and provided further, that the profit allowed shall in no event exceed 5% of such cost.

(c) The reasonable cost to Contractor of handling material or equipment returned to the vendor, delivered to the City or otherwise disposed of as directed by the City.

(d) A deduction for the cost of materials to be retained by Contractor, amounts realized from the sale of materials and not otherwise recovered by or credited to City, and any other appropriate credits to City against the cost of the Services or other work.

8.1.4 In no event shall City be liable for costs incurred by Contractor or any of its subcontractors after the termination date specified by City, except for those costs specifically enumerated and described in Section 8.1.3. Such non-recoverable costs include, but are not limited to, anticipated profits on the Services under this Agreement, post-termination employee salaries, post-termination administrative expenses, post-termination overhead or unabsorbed overhead, attorneys' fees or other costs relating to the prosecution of a claim or lawsuit, prejudgment interest, or any other expense which is not reasonable or authorized under Section 8.1.3.

8.1.5 In arriving at the amount due to Contractor under this Section, City may deduct: (i) all payments previously made by City for Services covered by Contractor's final invoice; (ii) any claim which City may have against Contractor in connection with this Agreement; (iii) any invoiced costs or

expenses excluded pursuant to the immediately preceding subsection 8.1.4; and (iv) in instances in which, in the opinion of the City, the cost of any Service performed under this Agreement is excessively high due to costs incurred to remedy or replace defective or rejected Services, the difference between the invoiced amount and City's estimate of the reasonable cost of performing the invoiced Services in compliance with the requirements of this Agreement.

8.1.6 City's payment obligation under this Section shall survive termination of this Agreement.

8.2 Termination for Default; Remedies.

the right (but no obligation) to cure (or cause to be cured) on behalf of Contractor any Event of Default; Contractor shall pay to City on demand all costs and expenses incurred by City in effecting such cure, with interest thereon from the date of incurrence at the maximum rate then permitted by law. 8.2.4 Any notice of default must be sent by registered mail to the address set forth in Article 11.

8.3 **Non-Waiver of Rights.** The omission by either party at any time to enforce any default or right reserved to it, or to require performance of any of the terms, covenants, or provisions hereof by the other party at the time designated, shall not be a waiver of any such default or right to which the party is entitled, nor shall it in any way affect the right of the party to enforce such provisions thereafter.

6. Methodology:

Indirect Services (programs that do not provide direct client services): Describe how the program will deliver the purchased services.

Direct Client Services: Describe how services are delivered and what activities will be provided, addressing, how, what, and where for each section below:

A. Outreach, recruitment, promotion, and advertisement

RAMS' responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency's approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to Outpatient Program services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families, annually serving approximately 18,000 adults, children, youth & families at over 90 sites, citywide.

The RAMS Outpatient Services Program conducts outreach on an ongoing basis, in the most natural environments as possible, through various activities including but not limited to: sponsoring or coordinating cultural events, conducting psycho-educational & informational workshops or activity groups, and providing services in the client's natural environments. Outreach activities are facilitated by staff, primarily the Behavioral Health Clinicians/Counselors (including psychologists, social workers, marriage & family therapists, etc.) as well as Peer Counselors (separate contract). The varying activities, topic foci, and location also engage those who may not necessarily self-initiate counseling services. The Program's workshops may use alternative references to behavioral health topics such as having workshops titled Wellness and Recovery instead of using "loaded" words and language. While serving all ethnicities and populations, there are also targeted outreach activities to ethnic groups including Chinese, Cambodian, and Russian. The Outpatient Program also conducts formal presentations at community health fairs and events raising awareness about behavioral/mental health issues and resources, taking into consideration cultural aspects. For instance, as requested by the community, RAMS conducts outreach at a Buddhist temple for Cambodians and has also invited a Buddhist monk to RAMS in order to promote resiliency and spirituality. Another example is that the program has participated in a neighborhood community event for seniors providing service information. Also, program and psycho-educational material is developed and reviewed for content, literacy, culturally appropriate representation, and word usage, in an effort to increase the "reader-ability" (e.g. using plain language instead of field terminology) and willingness to incorporate it in a meaningful way into her/his life.

B. Admission, enrollment and/or intake criteria and process where applicable

RAMS accommodates referrals from the BHS Behavioral Health Access Center. As RAMS provides services in over 30 languages and, in order to support "advanced access," the agency deploys mechanisms to effectively make accessible the many dialects fluent amongst staff. The

Outpatient Program maintains a multilingual Intake/Resource Schedule, which is a weekly calendar with designated time slots of clinical staff (and language capacities) who consult with the community and conducts intake assessments (with linguistic match). The intake/initial risk assessments are aimed to determine medical necessity for services and assess strengths & existing resources, co-occurring issues/dual diagnosis conditions, medication support needs, vocational readiness/interest (and/or engagement in volunteer activities, school), primary care connection, and other services (e.g. residential, SSI assessment). There is a designated intake coordinator for scheduling assessments and maintaining the documentation, thus supporting streamlined coordination; staff (including Program Director) work closely with the referring party. Following the intake, engagement and follow-up is made with the client. RAMS has been acknowledged as a model for its intake practices (“advanced access”) and managing the demand for services, which is a consistent challenge for other clinics.

C. Service delivery model

To further support accessibility of services, the Outpatient Program throughout the years has maintained hours of operation that extend past 5:00 pm, beyond “normal” business hours. The Program hours are: Monday (9:00 am to 7:00 pm); Tuesday to Thursday (9:00 am to 8:00 pm); Friday (9:00 am to 5:00 pm).

The Outpatient Program’s design and strategies are culturally competent behavioral health and mental health outpatient & prevention services that include, but are not limited to: individual & group counseling, family collateral counseling; clinical case management; crisis intervention; psychiatric evaluation & medication management; psychological testing & assessment; psycho-education; information & referral services; and consultation as well as peer counseling (separate contract). Psycho-educational activities have included topics such as holistic & complementary treatment and practices, and wellness recovery groups/workshops. Services are primarily provided on-site and/or in least restrictive environment including: clients’ home, hospital, another community center, and/or primary care clinic. The type and frequency of services are tailored to the client’s acuity & risk, functional impairments, and clinical needs, with review by the clinical authorization committee and in consultation with SFDPH BHS.

The Behavioral Health Clinicians/Counselors provide clients with on-going individual integrated behavioral health counseling, case management services, and as needed, conduct crisis intervention and collateral meetings. Having counseling and clinical case management services provided by the same care provider streamlines and enhances care coordination. During the treatment planning, the counselor and client discuss how strengths can be used to make changes to their current conditions and to promote & sustain healthy mental health. An integrated plan of care with goals (includes stability in community goal) is formally developed and updated at least annually. It is a collaborative process (between counselor & client) in setting goals and identifying strategies that are attainable & measurable. As needed, other support services are provided by other staff, in collaboration with the Behavioral Health Clinician/Counselor. RAMS conducts home visits and linkages for client support services (e.g. senior day program, childcare, transportation) to other community agencies and government offices. Throughout the counseling process, staff continuously assesses the client’s interest/readiness to engage in vocational, trade schools, and/or other educational activities (e.g. RAMS Hire-Ability Vocational Services, volunteerism, RAMS Peer Specialist Mental Health Certificate). Doctoral interns, closely

supervised, are also available to conduct comprehensive batteries of psychological testing and evaluation.

The RAMS Outpatient Program offers structured groups (i.e. therapy, support, and psycho-education) as a component of treatment services to clients. Facilitated (or co-facilitated) by Behavioral Health Clinicians/Counselors, and Peer Counselors, the groups provide positive peer support, focus on interpersonal relationships, provide a support network for specific problems or challenges, and assist individuals in learning about themselves and how they can relate better with other people. Groups are offered in languages besides English. Medication management, including culturally competent psychiatric evaluation & assessment and on-going monitoring of prescribed medications (e.g. individual meetings), is provided by a licensed psychiatrist and nurse practitioners. The Outpatient Program psychiatry staff capacity & coverage offers daily medication evaluation & assessments during program hours of operation, in order to increase accessibility. Furthermore, the Outpatient Peer Counseling Services component (separate contract) offers peer-based support from Tuesdays to Thursdays from 9 am to 5 pm.

D. Discharge Planning and exit criteria and process

The type and frequency of services are tailored to the client's acuity & risk, functional impairments, and clinical needs, with review by the clinical authorization committee and in consultation with SFDPH BHS. Because of limited behavioral/mental health resources, coupled with the need to promptly serve many newly referred acute clients, the program consistently applies utilization review and discharge/exit criteria to alleviate increasing caseload pressure, and to prioritize services to those most in need. Providers consider such factors as: risk of harm, functional status, psychiatric stability and risk of decompensation, medication compliance, progress and status of Care Plan objectives, and the client's overall environment such as culturally and linguistically appropriate services, to determine which clients can be discharged from Behavioral Health/Case Management Brokerage level of services into medication-only, or be referred to Private Provider Network/Primary Care Physician/Beacon.

E. Program staffing

Program staff include: Management - Program Director, Clinical Manager, Medical Director, Clinical Supervisors; Clinical – Mental/Behavioral Health Counselors (unlicensed/ pre-licensed), Mental/Behavioral Health Clinicians (licensed), Mental/Behavioral Health Workers, Interpreters (as needed and contracted), pre-doctoral interns; administrative support – Office/Intake Manager, Administrative Assistants, Janitor.

(Not funded by this contract) Peer Counselors; practicum trainees and volunteers.

8. Continuous Quality Improvement:

1) Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about recording referrals to vocational rehabilitation services in Avatar. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director monitors treatment progress (level of engagement after intake, level of accomplishing treatment goals/objectives), treatment discharge reasons, and service utilization review. RAMS also conducts various random chart reviews to review adherence to objectives as well as treatment documentation requirements.

2) Quality of documentation, including a description of frequency and scope of internal audits

The program utilizes various mechanisms to review documentation quality. At least every other week (may be weekly), clinical documentation is reviewed by the PURQC committee which is comprised of the Chair, Clinical Manager (a licensed psychologist who is a clinical supervisor and direct service practitioner), Program Director, Training Director, and two licensed clinicians. Based on their review, the committee determines service authorizations including frequency of treatment and modality/type of services, and the match to client's progress & clinical needs; feedback is provided to direct clinical staff members. Because the Program Director is involved in the PURQC review, general feedback and summaries on documentation and quality of care topics can be effectively integrated throughout staff meetings and other clinical discussions. Furthermore, clinical supervisors monitor the treatment documentation of their supervisees; most staff meet weekly with their clinical supervisors to review caseload with regard to intervention strategies, treatment plans & progress, documentation, productivity, etc. The program also conducts an annual self-audit in which all direct service providers review all their own charts to ensure documentation standards compliance. For all case reviews, a checklist is utilized. Psychiatry staff also conduct a comprehensive biannual chart peer review, consisting of randomly choosing three medical records from each practitioner and having mutual reviews and feedback based on the guidelines provided by San Francisco Health Network Behavioral Health Services Psychiatric Peer Review Protocol. In addition to the program's documentation review, the agency's Quality Council conducts a review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback will be provided directly to staff as well as general summaries at staff meetings.

3) Cultural Competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes weekly in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles), monthly case conferences, and an annual roundtable discussion to share practice-based cultural competency strategies. Trainings are from field experts on various clinical topics; case conference is a platform for the practitioner to gain additional feedback regarding intervention strategies, etc. Professional development is further supported by individual clinical supervision (mostly weekly; some are monthly); supervisors and their supervisees' caseload with regard to intervention strategies, treatment plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of treatment indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of treatment engagement (intake show rate; referral source; engagement after intake; number of admissions; treatment discharge reasons; and service utilization review).
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed.
- Development of objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction).

- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency disseminates staff satisfaction surveys and Human Resources conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO meets with the RAMS Board of Directors on a regular basis (approximately monthly) and provides an update on agency and programs' activities and matters.

4) Satisfaction with Services

RAMS adheres to the BHS satisfaction survey protocols which include dissemination annually or biannually. Results of client surveys are shared at staff meetings, reviewed by the RAMS Quality Council, and reported to executive management as well as posted on the agency website and other materials. Furthermore, the Program Director has conducted focus groups with the current clients to collect feedback. All satisfaction survey methods and feedback results are compiled and reported to executive management along with assessment of suggestion implementation. Anonymous feedback is also solicited through suggestions boxes in the two client waiting areas; the Office Manager monitors the boxes and reports any feedback to the Program Director who also includes it in the monthly report to executive management.

5) Timely completion and use of outcome data, including CANS and/or ANSA

As described in the previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive treatment outcomes. Furthermore, in regards to ANSA data, upon receipt of BHS-provided data and analysis reports, the Program Director along with RAMS executive management reviews and analyzes the information. Specifically, management reviews for trends and any significant changes in overall rating scales. Analysis reports and findings are also shared in staff meetings and program management/supervisors meetings. The analysis may also assist in identifying training needs.

6. Methodology:

Indirect Services (programs that do not provide direct client services): Describe how the program will deliver the purchased services.

Direct Client Services: Describe how services are delivered and what activities will be provided, addressing, how, what, and where for each section below:

A. Outreach, recruitment, promotion, and advertisement as necessary.

RAMS’ responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency’s approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to Outpatient Program services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families, annually serving approximately 18,000 adults, children, youth & families at over 90 sites, citywide.

RAMS conducts outreach on an ongoing basis, in the most natural environments as possible, through various activities including but not limited to: sponsoring or coordinating cultural events, conducting psycho-educational & informational workshops or activity groups, and providing services in the client’s natural environments. Outreach activities are facilitated by staff, primarily the direct services providers (e.g. peer counselors, psychologists, social workers, marriage & family therapists, etc.) with varying activities, topic foci, and location. RAMS also conducts formal presentations at community health fairs and events raising awareness about behavioral/mental health issues and resources, taking into consideration cultural aspects. Also, program and psycho-educational material is developed and reviewed for content, literacy, culturally appropriate representation, and word usage, in an effort to increase the “reader-ability” (e.g. using plain language instead of field terminology) and willingness to incorporate it in a meaningful way into her/his life.

To engage the RAMS outpatient clients in participating in the Outpatient Peer Counseling Services program, the following takes place:

- Peer Counselors attend monthly RAMS Adult Outpatient Program staff meeting to disseminate program information to direct service providers
- Clinical Manager of the RAMS Outpatient Clinic meets with peer counselors weekly for individual supervision to discuss referral information, program services, events, etc.
- Peer Counselors develop promotional flyers about Peer Counseling activities and display them in the program wait areas as well as disseminates them to all Outpatient Clinic direct services providers
- Peer Counselors collaborate with Outpatient Clinic direct service providers in working with clients to ensure a team-based treatment approach. This allows Peer Counselors to develop

Program Name: Outpatient Peer Counseling Services	Contract Term: 07/01/18 – 06/30/19

close working relationships with direct service providers, supporting streamlined referrals from direct service providers to the Peer Counseling Program.

B. Admission, enrollment and/or intake criteria and process where applicable

There are two ways in which clients are admitted into the Outpatient Peer Counseling Program. For those clients who are new to the RAMS outpatient clinic, upon completing an intake (risk assessment), a client is referred to meet with a Peer Counselor (when appropriate) for an orientation of services. During this time, Peer Counselors have the opportunity to assess and discuss with clients whether they would be interested in continuing their participation in services offered by the Outpatient Peer Counseling Program (e.g. as needed individual counseling, case management, groups, events, activities, etc.).

For existing RAMS clients, they are admitted into the Peer Counseling Program should they express interest in participating in the services and events provided by the program. Clients can simply contact one of the Peer Counselors and schedule to meet with them or sign-up to participate in a group or event. Clients can also be connected to the Peer Counseling Program via referral from their direct service provider (e.g. clinician, case manager, psychiatrist, etc.).

- C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.**

The Outpatient Peer Counseling Services is integrated into the RAMS Adult/Older Adult Outpatient Services Program. To further support accessibility of services, the RAMS Adult/Older Adult Outpatient Program throughout the years has maintained hours of operation that extend past 5:00 pm, beyond “normal” business hours. The Program hours are: Monday (9:00 am to 7:00 pm); Tuesday to Thursday (9:00 am to 8:00 pm); Friday (9:00 am to 5:00 pm).

The RAMS programs’ design and strategies are culturally competent behavioral health and mental health outpatient & prevention services that include, but are not limited to: individual & group counseling, peer counseling, family collateral counseling; clinical case management; crisis intervention; psychiatric evaluation & medication management; psychological testing & assessment; psycho-education; information & referral services; and consultation. Psycho-educational activities have included topics such as holistic & complementary treatment and practices and wellness recovery groups/workshops.

Specifically, the Outpatient Peer Counseling Services offers peer-based support (three days/week) that includes, but is not limited to:

- Orientation to clinic and program services
- Individual Face-to-Face Counseling
- Case Management
- Resource Linkage

- Psycho-social groups
- Socialization groups
- Cultural Awareness Activities (e.g. cultural celebrations)

Furthermore, the three peer counselors (in multiple languages, all part-time) provide needs assessment and orientation for new clients, facilitate support groups, wellness and recovery groups, art groups, movie viewing groups, and drop-in. They also provide field trips and cultural celebration events several times per year.

- D. Discharge Planning and exit criteria and process, i.e., a step-down to less intensive treatment programs, the criteria of a successful program completion, aftercare, transition to another provider, etc.

Participation in the Peer Counseling Program is voluntary. Clients may utilize services as long as they continue to be a client of the RAMS Outpatient Clinic. Clients may also voluntarily terminate services with the program, at any time, should they feel that their needs for peer counseling services have been met and/or if the program no longer meets their needs.

- E. Program staffing (which staff will be involved in what aspects of the service development and delivery). Indicate if any staff position is not funded by DPH.

RAMS Outpatient Peer Counseling Services include three part-time (16 hours/week) Peer Counselors, with special cultural and language capacities – English, Chinese, Russian – to meet the need of the diverse clients at Outpatient Clinic. Peer Counselors are graduates of RAMS Peer Specialist Mental Health Certificate and/or graduates from other Community Mental Health or Peer Certificate Programs, with experience working with the adult populations RAMS Outpatient Clinic serve.

Not funded by MHSA – supervisor and program director who supervise the Peer Counselors and manage the program, are part of RAMS Adult/Older Adult Outpatient Services are funded by SFDPH-BHS.

- F. Mental Health Services Act Programs (Outpatient Peer Counseling Program)

- 1) Consumer participation/engagement: Programs must identify how participants and/or their families are engaged in the development, implementation and/or evaluation of programs. This can include peer-employees, advisory committees, etc.

The foundation of the Outpatient Peer Counseling Program is to engage consumers in providing services within the community system of care. This program employs only peers (consumer of behavioral services with lived experience) to be service providers. Peer Counselors have the opportunity to share their personal experience and knowledge that they have gained as consumers to support others in their process of recovery. From the clients' perspective, the intent

Contractor Name: Richmond Area Multi-Services, Inc.	Appendix A-2
Program Name: Outpatient Peer Counseling Services	Contract Term: 07/01/18 – 06/30/19
	Funding Source: MHSA

of the program is to inspire and instill hope as clients receive support and encouragement from providers who once had similar struggles as themselves.

In addition to peers being service providers, the Outpatient Peer Counseling Program engages clients to participate in the development, implementation, and evaluation of the program in several different ways. Client satisfaction surveys are conducted annually to solicit feedback from clients about the services that they have received. Results from client surveys and feedback are compiled and analyzed by program management, presented to staff and RAMS management. The Program Director and RAMS management work together to assess and integrate client feedback into programming. Peer Counselors also facilitate social/recreational activities and events for the clinic that are driven and organized by client participants.

- 2) MHSA Vision: The concepts of recovery and resilience are widely understood and evident in the programs and service delivery

The Outpatient Peer Counseling Program was founded based on the Wellness and Recovery Approach. With peers as service providers, the program sets an example for clients that recovery is possible. Peer Counselors are also trained to work with clients from a Wellness and Recovery Approach. Services provided values the fundamental components of the recovery model: client-centered, client-directed, strengths-based, holistic, self-advocacy, etc.

7. Objectives and Measurements:

- 1) The Outpatient Peer Counseling Program will conduct at least 100 psycho-social groups to support clients in developing social connections in the community. This will be evidenced by participation records kept by Peer Counselors as the groups take place. Peer Counselors will also report to the Clinical Manager progress toward this objective via in-person meetings and written reports. Program Director will provide feedback based on these reports to support counselors in meeting this objective.
- 2) At least 80% of the clients will express overall satisfaction with services that they received through the Outpatient Peer Counseling Program. This will be evidenced by client satisfaction surveys administered once each year (only in spring 2019). The collected data will be summarized and analyzed by Program Director and will be presented to program staff and RAMS management.

8. Continuous Quality Improvement:

- A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about

recording referrals to vocational rehabilitation services in Avatar. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director monitors services progress (level of engagement after intake, level of accomplishing service/treatment goals), discharge reasons, and service utilization review. RAMS also conducts various random chart reviews to review adherence to objectives as well as treatment documentation requirements.

B. Quality of documentation, including a description of frequency and scope of internal audits

RAMS utilizes various mechanisms to review documentation quality. Documentation reviews are conducted by Program Director as part of the PURQC process as well as upon discharging cases; based on these reviews, determinations/ recommendations are provided relating to frequency and modality/type of services, and the match to client's progress & service needs. Feedback is provided to direct staff members while general feedback and summaries on documentation and quality of care topics are integrated throughout staff meetings and other clinical discussions. Furthermore, supervisors monitor the documentation of their supervisees; most staff meet weekly with their supervisors to review activities (e.g. course progress, caseload with regard to intervention strategies and service plans & progress), documentation, productivity, etc.

C. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes weekly in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles), monthly case conferences, and an annual roundtable discussion to share practice-based cultural competency strategies. Trainings are from field experts on various clinical topics; case conference is a platform for the practitioner to gain additional feedback regarding intervention strategies, etc. Professional development is further supported by

individual clinical supervision (mostly weekly; some are monthly); supervisors and their supervisees' caseload with regard to intervention strategies, treatment plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.

- Ongoing review of treatment indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of treatment engagement (intake show rate; referral source; engagement after intake; number of admissions; treatment discharge reasons; and service utilization review).
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed.
- Development of objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction).
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency disseminates staff satisfaction surveys and Human Resources conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and

direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.

- To ensure accountability at all levels, the RAMS CEO meets with the RAMS Board of Directors on a regular basis (approximately monthly) and provides an update on agency and programs' activities and matters.

D. Satisfaction with services

The Outpatient Peer Counseling Services Program gathers feedback through various methods. An annual client satisfaction survey is facilitated by RAMS administrators in spring 2018; collected data is tabulated and summarized. Results of all client surveys are shared at staff meetings, reviewed by the RAMS Quality Council, and reported to executive management. Furthermore, the Program Director has conducted focus groups with the current clients to collect feedback. Adjustment to program is implemented, after Director and staff review, and as appropriate, according to feedback, to better serve the community. All satisfaction survey methods and feedback results are compiled and reported to executive management along with assessment of suggestion implementation. Anonymous feedback is also solicited through suggestions boxes in the two client waiting areas; the Office Manager monitors the boxes and reports any feedback to the Program Director who also includes it in the monthly report to executive management.

E. Timely completion and use of outcome data, including CANS and/or ANSA

ANSA data is not applicable for this contract; however, as described in previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive outcomes.

Indirect Services (programs that do not provide direct client services): Describe how the program will deliver the purchased services.

A. Outreach, recruitment, promotion, and advertisement as necessary.

RAMS' responsibility and commitment to mental health care quality and education extends beyond its own walls to reach people of all ages and backgrounds in its community through outreach and serving them in their own environments. This philosophy of care has always been central to the agency's approach. RAMS is uniquely well-positioned and has the expertise to outreach, engage, and retain diverse consumers, underrepresented constituents, and community organizations with regards to vocational services & resources and raising awareness about mental health and physical well-being. As an established community services provider, RAMS comes into contact with significant numbers of consumers & families, annually approximately 18,000 adults, children, youth & families at over 90 sites, citywide.

B. Admission, enrollment and/or intake criteria and process where applicable.

RAMS accommodates referrals from the BHS and other community agencies within the System of Care. All requests for services are directed to the Intake Coordinator, who schedules and conducts integrated assessments/intakes and processes the documentation, thus supporting streamlined coordination; staff (including Employee Development Coordinator/Manager and Director of Vocational Services/Program Director) works closely with the referring party. The initial assessments are aimed to determine program eligibility, vocational readiness/interest, suitability of program services, strengths & existing resources, level of functioning & needs in consultation with behavioral health services provider, primary care connection, substance use/abuse, and other services (e.g. residential). The Intake Coordinator makes a referral to one of Hire-Ability programs, including Employee Development. As RAMS have unique expertise in providing services to the APIA-speaking communities, Hire-Ability can provide services in Cantonese, Mandarin, Toisanese, and Tagalog. Upon referral to Employee Development, clients may "visit" and participate in the program, on a trial basis, for the first two weeks where they will participate in paid work site experience as well as unpaid classroom training. This supports overall retention and program completion goals, as consumers are fully aware of the program structure and expectations.

C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

to a distinct group of beneficiaries. Employee Development's main component is *Production & Fulfillment Services*, a workshop setting and on-the-job training in the fulfillment services industry (packaging, assembling, labeling, sorting, mailing) with paid work experience Services are primarily provided on-site and/or in least restrictive environment in the field including: clients' employment site, community center, home, etc. Hire-Ability features a structure program in which clients participate at least three days a week (Monday to Friday) from 9:30 a.m. to 12:30 p.m.

Each consumer is assigned a Vocational Rehabilitation Counselor/Trainer who conducts a vocational assessment, facilitates vocational orientation & exploration, performs vocational counseling (case management & linkages), supports and identifies strengths & areas of employment interest, and also provides job training, job search and placement assistance, and job coaching, counseling & guidance. Having a single provider for these services streamlines and enhances care coordination. The vocational assessment is a comprehensive process that systematically utilizes an interview to assist the consumer in the identification of goals leading towards vocational development. These areas, as they relate to employment, include: work needs (e.g. reasonable accommodations), identifying community supports (therapists/case managers, support groups, family & friends), collateral information (therapists/case managers), cultural and/or language issues, work-related issues (concentration, stress, retention of instruction, safety habits, work behavior), psychiatric functioning (behavioral health condition), appearance & grooming, and external factors (financial concerns, living arrangement, medical care). A written report is developed summarizing the assessment, findings & recommendations, which informs the vocational plan and structure for job skills training.

During the vocational services planning, the counselor and consumer discuss how strengths can be utilized to make changes of their current conditions, to promote & sustain healthy mental health, and obtain & retain employment. The counselor also gathers relevant information from the client and other service providers and/or family members, as it relates to employment. An integrated vocational plan for goals is formally developed within the first month of participation, with ongoing monitoring of progress at each meeting/vocational activity, and formally reviewed at the third month. This comprehensive plan considers the client's environment and entire support structure as well as specific employment goals, and takes into account collateral information (e.g. behavioral health treatment plan incorporates vocational goals). Staff are also trained to identify signs of psychiatric relapse and, through collaboration with the client's therapist, implements the appropriate interventions. Together, the counselor & client set goals and identify strategies that are attainable & measureable. The plan includes consumer's input through self-evaluation & rating as well as the counselor's appraisal. RAMS also facilitates linkages for support services (e.g. transportation, child care).

Vocational training and skills building is provided through various capacities. The Vocational Rehabilitation Counselors serve as the primary trainers and maintain written evaluations & progress reports on client skills and vocational goals. These include, but are not limited to, productivity, work quality, attendance, punctuality, dress & grooming, communication with others, group participation, and work endurance. As the primary trainer, Counselors are thoroughly familiar with each individual's daily progress and can provide consistent feedback and support. Training is offered in specific industries, further supporting

consumer choice & empowerment and likelihood of transferable skills for gaining competitive employment.

For all Employee Development Program participants, RAMS Hire-Ability offers structured groups (i.e. vocational counseling, training, psycho-education) as a core component of services to clients. Facilitated by Vocational Rehabilitation Counselor, the groups provide positive peer support and pressure, focus on interpersonal relationships, a support network for specific problems or challenges, and can assist individuals to learn about themselves and relate better with other people. Groups can be jointly run with collaborative partners (e.g. behavioral health counselors), taking place at RAMS and/or the partner's site, depending on client feedback & indicated preference, and offered at various hours of the day throughout the week.

- D. Discharge Planning and exit criteria and process, i.e., a step-down to less intensive treatment programs, the criteria of a successful program completion, aftercare, transition to another provider, etc.

Clients successfully complete the program when: (1) 85% attendance rate, and (2) Vocational Development Plan goals are achieved. Upon discharge, referral can be to competitive employment, volunteer internships, education, college enrollment, or salaried employment including higher wage and skilled jobs in industries which are experiencing shortages such as the healthcare field. In this pursuit, the Vocational Rehabilitation Counselor may assist with job search & placement assistance and provide job coaching, counseling, and guidance. As Hire-Ability offers a full spectrum of vocational services, consumers may transition into Employment Services, which is funded through a contract/agreement with the California State Department of Rehabilitation. This program provides a higher level of individualized job preparation using classroom and individual meetings, job development, individualized plans & job placement, and follow-along services to consumers. Hire-Ability also maintains a cooperative agreement with California Department of Rehabilitation (since 1998) to connect employers with trained individuals; thus, supporting job placements for program participants with employment. Consumers may also enter the RAMS Peer Specialist Mental Health Certificate Program (funded by SFDPH-BHS-MHSA), which offers entry and advanced level courses in peer counseling as well as a monthly training series.

7. Objectives and Measurements:

A. Standardized Objectives

All applicable objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS AOA Performance Objectives FY18-19.

B. Individualized Program Objectives

To further support outcomes, RAMS has established the following objectives for FY 2018-2019:

1. 65% of clients who complete the visitation period will successfully complete the program, as evidenced by program case closure records and reasons for discharge.
2. 75% of surveyed clients who complete the program will indicate improvement in their coping abilities. This is evidenced by items on program feedback tools.
3. 75% of surveyed clients who complete the program will report an improvement in work readiness abilities (soft skills) to use toward future opportunities (work/education/volunteering). This is evidenced by the items on program feedback tools.
4. 75% of surveyed graduates will express motivation in being engaged in vocational/educational-related activities, e.g. obtain employment, referral to Hire-Ability Employment Services, volunteerism, or training/educational programs. This will be evidenced by exit interviews and items on the program feedback tools.

8. Continuous Quality Improvement:

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed about objectives and the required documentation related to the activities and service outcomes. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director monitors vocational service progress (level of engagement after intake, level of accomplishing vocational goals/objectives), service discharge reasons, and service utilization review. RAMS also conducts various random chart reviews to review adherence to objectives as well as treatment documentation requirements.

B. Quality of documentation, including frequency and scope of chart audits.

The program utilizes various mechanisms to review documentation quality. Chart review by supervisors, at the very minimum, is reviewed during the first 30 days of a case opening, every 30 days thereafter, and within a week of case closure. Based on their review, determinations/recommendations are provided relating to service authorizations including frequency and modality/type of services, and the match to client's progress & vocational/clinical needs; feedback is provided to direct staff members. Furthermore, clinical supervisors monitor the service documentation of their supervisees; staff meet weekly with their supervisors to review caseload with regard to service strategies, vocational plans & progress, documentation, productivity, etc. On a quarterly basis, the Program Director or Manager/Coordinator conducts a review of randomly selected charts (up to 10 charts, program-wide) to monitor quality & timeliness and provide feedback directly to staff as well as general summaries at staff meetings. The selection is such that each individual provider is reviewed at least annually.

In addition to the program's documentation review, the RAMS Quality Council formally conducts an annual review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback is provided directly to staff as well as general summaries at staff meetings.

C. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular training schedule, which includes in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles). Trainings are from field experts on various topics. Professional development is further supported by individual supervision (mostly weekly); supervisors and their supervisees' caseload with regard to service strategies, vocational plans & progress, documentation, etc. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of vocational services indicators is conducted by the Program Director (and reported to executive management) on monthly basis; data collection and analysis of service engagement (referral source; engagement after intake; number of admissions; service discharge reasons; and service utilization review)

- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed.
- Development of annual objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction).
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency disseminates staff satisfaction surveys and Human Resources conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO meets with the RAMS Board of Directors on a regular basis (approximately monthly) and provides an update on agency and programs' activities and matters.

D. Satisfaction with services

RAMS adheres to the BHS satisfaction survey protocols which include dissemination annually or biannually. In addition, the Hire-Ability administered its program-developed client satisfaction surveys at case closure or upon request of the client. Furthermore, client feedback is obtained during post-program evaluations, quarterly client advisory council meetings, daily community meetings at the vocational services program, individual meetings between direct service staff and clients, and through a confidential telephone hotline. Results of the survey methods are shared at

staff meetings, reviewed by the RAMS Quality Council, and reported to executive management. Furthermore, the program facilitates focus groups with clients. All satisfaction survey methods and feedback results are also compiled and reported to executive management along with assessment of suggestion implementation. On an annual to biennial basis, clients attend RAMS Board of Directors meetings to share their experiences and provide feedback.

E. Timely completion and use of outcome data, including CANS and/or ANSA

ANSA data is not applicable for this contract; however, as described in previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive outcomes.

3. Goal Statement:

To transition & stabilize adults with serious & persistent mental illness and who may have a physical health condition to long-term housing in the community, maintain stability and live in the community and/or reduce the level of care and services. Additionally, goals include: improved emotional/physical well-being and quality of life, positive engagement in the community, awareness and appropriate use of resources, minimizing harm and/or establishing supportive networks to sustain recovery.

4. Target Population:

Adults ages 18-59 years old, with serious & persistent mental illness, including those with co-occurring disorders (mental health and substance abuse), and who may or may not have a physical health condition. The primary sources of resident referrals are from social workers or case managers from acute care or hospital settings or other community residential programs where the client has had difficulty remaining stable due to lack of either clinical or medical support. All residents require the level of treatment care from a licensed Adult Residential Facility (ARF) setting, but not a Skilled Nursing Facility (SNF) level setting.

RAMS Broderick Residential Program serves the 33 adults residing at the Broderick Street Adult Residential Facility (BSARF), an adult residential facility offering permanent housing, funded through the SFDPH Long Term Care. There is a special focus on serving the Asian and Pacific Islander American (APIA) communities, both immigrants and U.S.-born – a group that is traditionally underserved.

6. Methodology:

Indirect Services (programs that do not provide direct client services): Describe how the program will deliver the purchased services.

Direct Client Services: Describe how services are delivered and what activities will be provided, addressing, how, what, and where for each section below:

A. Outreach, recruitment, promotion, and advertisement as necessary.

BSARF outreach and promotion of the program and services are primarily conducted through Richmond Area Multi-Services, Inc. (RAMS) promotional material, such as agency profile sheets and the website, which describes its history and wide scope of clinical and culturally competent services for consumers as well as other constituents. Agency and program services are also promoted through various community & resource manuals and databases. RAMS has a community organizing component as well as clinical staff, who actively and consistently outreach to monolingual communities and participate in various neighborhood meetings, community events, and informational workshops/fairs. RAMS promotes program services through its active involvement in community partnerships, coalitions, and collaborative agreements with other city contracted agencies, community-based organizations, and affiliates. Additionally, the BSARF program has a brochure that is specifically developed for the program

and it is available, upon request. It is the intake structure of BSARF that all referrals are directed to the SFDPH Transitions /Placement Office, who receives and reviews, in collaboration with RAMS-BSARF management, the application/intake packet and information. Because the BSARF program is a long-term housing placement and a Direct Access to Housing (DAH) site, there is low turnover and a wait list is not maintained.

B. Admission, enrollment and/or intake criteria and process where applicable.

Long Term Care:

All referrals to the BSARF program are directed to and assessed by the SFDPH Transition team, in collaboration with RAMS-BSARF. Most frequently, the referrals to the Transition team come directly from case managers/social workers from hospitals, acute care facilities, or other community providers who complete and submit a Referral Packet to the team. The Referral Packet includes the following information about the applying resident:

- Demographic information
- Adult and Older Adult Residential Care Facility Referral
- Previous Needs and Service Plan, if available
- MHS 140 (BHS system of care history), if available
- Proof of SSI Eligibility and San Francisco resident status
- Physician's Report for Community Care Facilities, including TB clearance, and diagnosis
- Functional Capability Assessment
- Pre-placement Appraisal Information form
- Additional medical or clinical information as needed

The SFDPH Transition team along with BSARF intake team, consisting of Administrator/ Program Director, Clinical Manager, and Nurse Manager, reviews the Referral Packet to initially determine if the applying resident meets eligibility requirements and if he/she potentially matches the level-of-functioning of the facility's current residents. At least one member of the BSARF intake team then visits and interviews the applicant at his/her current placement. After this meeting, the applicant is invited to visit the BSARF site and, as possible meet some of the staff and see the room they will potentially be moving into. An Initial Risk Assessment is completed by the Clinical Manager to gather the necessary clinical information to assess the clinical needs of the potential resident.

The result of the Referral Packet review, interview, and program visit is discussed at the next immediately scheduled Clinical Meeting, which includes participation of the BSARF Administrator, Clinical Manager, Nurse Manager, and Psychiatric Nurse Practitioner as well as the program Behavioral/Mental Health Counselors. Concerns, issues or the need for additional information are addressed by phone with either the referring agency/referral source or the SFDPH Transition Coordinator. Finally, the applying resident and case manager are notified of the intake team's decision for admittance to the BSARF program. When appropriate, a move-in date is also scheduled. The following documents are completed during the new resident intake process:

- Summary DPH Notice of HIPAA Privacy Practices
- BSARF Admission Agreement
- BSARF House Rules
- Consent for Behavioral Health Services

- Advance Care Directives
- Insurance/Medi-Cal/Medicare information (Printout or BIC Card)
- Authorization for Use or Disclosure of Protected Health Information
- Initial Psychiatric Evaluation
- Consent for the use of Psychotropic Medication (if applicable)
- Photograph of the resident

Each referring agency/referral source is responsible for arrangement & coordination of the resident's SSI payments, while the Office Manager tracks each resident's monthly rent payment and in collaboration with the Administrator addresses any concerns with the referring agencies/referral source.

Behavioral Health Services:

Once clients enter BSARF, they are assigned a Behavioral/Mental Health Counselor who provides an orientation to the program structure (e.g. building/room locations, groups and activities schedule, meal and snack times, emergency procedures). The residents/clients are formally introduced to the house community (other residents) at the next community meeting (which occur twice-weekly).

- C. Service delivery model, including treatment modalities, phases of treatment, hours of operation, length of stay, locations of service delivery, frequency and duration of service, strategies for service delivery, wrap-around services, residential bed capacity, etc. Include any linkages/coordination with other agencies.

Long Term Care and Behavioral Health Services:

The Broderick Street Adult Residential Care Facility (BSARF) is located at 1421 Broderick Street in San Francisco and is a partnership between Richmond Area Multi-Services, Inc. (RAMS) and Behavioral Health Services (BHS) Transition Team of the San Francisco Department of Public Health (SFDPH). The program is an adult residential facility that operates 24-hours, 7-days-a-week, and serves individuals, ages 18-59 years, with the intention that the facility is the resident's long-term and permanent place of residence. Additionally, the facility can retain up to 25% of its total population for those who surpass the 59 year old age limit, provided their required care does not exceed what the facility can provide. The BSARF is licensed by the California Department of Social Services (CDSS) Community Care Licensing Division (CCLD) and can accommodate up to 33 occupants, at any given time. All the residents of BSARF are also considered clients of BHS, and care-managed through RAMS Outpatient Services.

The program at BSARF includes a wide variety of services for the 33 residents. As required by the CDSS-CCLD for adult residential facilities, the program offers basic care & supervision, lodging, nutritious meals & snacks, van transportation to/from appointments, and various activity groups that focus on specific symptom and behavior issues leading to enhance socialization and healthy expressions of emotions/needs. To further support the rehabilitation of the residents, outpatient behavioral health and medication support services are provided on-site, and funded through the BHS portion of the contract. BSARF weekly programming of client activities which includes the following: individual and group therapy; structured weekly social and engagement activities including: art, music, relaxation/meditation, healthy lifestyles, twice weekly community meetings, as well as activity and movement groups, etc. The program recognizes that each resident has different interests, abilities, ways in expressing needs and emotions, learning processes, and knowledge. Clinical staff members facilitate the therapeutic groups that provide additional structure for residents, address specific symptom and behavior issues, and promote socialization and a sense of community. Residents' participation in the groups is voluntary, and attendance and applicable progress records are documented and maintained according to regulations. The Community Meetings are a general venue where residents have the opportunity to have their voices/concerns heard and give input as to the quality of their living environment and services provided. Residents are also encouraged and educated on how to utilize and access resources that already exist within the City & County of San Francisco. A more detailed description of these additional services can be found in the RAMS contract with SFDPH-BHS.

Medication management, including culturally competent psychiatric evaluation and assessment and on-going monitoring of prescribed medications is provided by nurse practitioners, registered nurses, and licensed vocational nurses. The program's medication support services staff offers daily medication evaluation and assessments, with capacity and coverage to increase accessibility.

D. Discharge Planning and exit criteria and process, i.e., a step-down to less intensive treatment programs, the criteria of a successful program completion, aftercare, transition to another provider, etc.

Long Term Care:

The BSARF facility is a permanent housing site; there is low turnover and a wait list is not maintained. Assessment for the appropriateness of services to the residents' level of functioning is continually conducted, on an on-going basis. If a resident ages out of the program or requires care beyond what the facility can safely provide due to physical or psychological decline, the SFDPH Coordinator for Placement Support will be notified as well as the residents conservator or family member. Typically, a case conference will be held to discuss the resident's emergent level of care needs and to identify a plan for a transition to an appropriate level of care. Additionally, as mandated by the state, the resident will be given a 30 day notice. The RAMS-BSARF Behavioral/Mental Health Counselor will assist with appropriate service linkages in the community and will provide support and assistance during the transition process. Should a client be stabilized and progressed enough to live more independently, then the RAMS-BSARF Behavioral Health Counselor, along with program management, will also assist appropriate service/housing linkages in the community and will provide assistance during the transition process.

Behavioral Health Services:

The primary program goal is to support the client's ability to maintain stability and live in the community and/or reduce the level of care and services. As such, exit criteria would include moving out of the Broderick Facility to either a higher/lower level of care and services.

- E. Program staffing (which staff will be involved in what aspects of the service development and delivery). Indicate if any staff position is not funded by DPH.

All staff at the BSARF site are employees of RAMS; however, the funding is collaboratively provided by Behavioral Health Services (BHS) and Long Term Care. Additionally, BSARF has a Doctoral Psychology Intern of the RAMS Training Center who participates in the delivery of services at this site (position is funded by SFDPH BHS Adult/Older Adult Outpatient Services contract).

7. Objectives and Measurements:

All objectives, and descriptions of how objectives will be measured, are contained in the BHS document entitled BHS Adult & Older Adult Performance Objectives FY 18-19, and Adult Residential Mental Health.

8. Continuous Quality Improvement:

A. Achievement of contract performance objectives and productivity

RAMS continuously monitors progress towards contract performance objectives and has established information dissemination and reporting mechanisms to support achievement. All direct service providers are informed (e.g. via weekly clinical staff meetings, etc.) about objectives and the required documentation related to the activities and treatment outcomes; for example, staff are informed and prompted about recording referrals to vocational rehabilitation services in Avatar. With regards to management monitoring, the Program Director reports progress/status towards each contract objective in the monthly report to executive management (including Deputy Chief/Director of Clinical Services and Chief Executive Officer). If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action. The data reported in the monthly report is on-goingly collected, with its methodology depending on the type of information; for instance, the RAMS Information Technology/Billing Information Systems (IT/BIS) department extracts data from the Avatar system to develop a report on units of service per program code/reporting unit. In addition, the Program Director and Clinical Manager monitor treatment progress (level of accomplishing treatment goals/objectives), treatment discharge reasons, and service utilization review. RAMS also conducts weekly chart reviews to review adherence to objectives as well as treatment documentation requirements.

B. Quality of documentation, including a description of the frequency and scope of internal chart audits

The program utilizes various mechanisms to review documentation quality. The Nurse Manager reviews documentation of services for long term care. On a weekly basis, the Clinical Manager conducts a review of (Avatar) charts (3-5 cases) to monitor quality & timeliness and provide feedback directly to staff and, as needed, general themes/summaries may be reported at staff meetings. This ongoing review method results in each client case being reviewed multiples times, annually. In addition, direct services providers meet weekly with their clinical supervisors to review caseload with regard to intervention strategies, treatment plans & progress, documentation, productivity, etc. Furthermore, clinical documentation is reviewed by the service utilization committee, led by the Program Director (Licensed Marriage & Family Therapist). Based on the review, the committee determines service authorizations including frequency of treatment and modality/type of services, and the match to client's progress & clinical needs; feedback is provided to direct clinical staff members.

In addition to the program's documentation review, the agency's Quality Council conducts a review of randomly selected charts to monitor adherence to documentation standards and protocols. The review committee includes the Council Chair (RAMS Director of Operations), Deputy Chief/Director of Clinical Services, and another council member (or designee). Feedback will be provided directly to staff as well as general summaries at staff meetings.

C. Cultural competency of staff and services

RAMS philosophy of care reflect values that recovery & rehabilitation are more likely to occur where the mental health systems, services, and providers have and utilize knowledge and skills that are culturally competent and compatible with the backgrounds of consumers and their families and communities, at large. The agency upholds the Culturally and Linguistically Appropriate Services (CLAS) standards. The following is how RAMS monitors, enhances, and improves service quality:

- Ongoing professional development and enhancement of cultural competency practices are facilitated through a regular agency-wide training schedule, which includes weekly in-service trainings on various aspects of cultural competency/humility and service delivery (including holistic & complementary health practices, wellness and recovery principles); trainings are from field experts on various clinical topics. BSARF also holds weekly clinical meetings which include case conferences, a platform for the practitioner to gain additional feedback regarding intervention strategies, etc. Professional development is further supported by individual weekly clinical supervision. Furthermore, RAMS annually holds an agency-wide cultural competency training. Training topics are identified through various methods, primarily from direct service staff suggestions and pertinent community issues.
- Ongoing review of treatment indicators is conducted by the Program Director (and reported to executive management) on a monthly basis; data collection and analysis of treatment progress, treatment discharge reasons, and service utilization review.
- Client's preferred language for services is noted at intake; during the case assignment process, the Program Director matches client with counselor by taking into consideration language, culture, and provider expertise. RAMS also maintains policies on Client Language Access to Services; Client Nondiscrimination and Equal Access; and Welcoming and Access.
- At least annually, aggregated demographic data of clientele and staff/providers is collected and analyzed by management in order to continuously monitor and identify any enhancements needed.
- Program structure integrates clients' cultural and holistic & complementary health beliefs such as monthly cultural celebrations, weekly group schedule includes, mindfulness meditation, and regular outings for cultural experiences (e.g. festivals, music, meals).

- Development of objectives based on cultural competency principles; as applicable, progress on objectives is reported by Program Director to executive management in monthly report. If the projected progress has not been achieved for the given month, the Program Director identifies barriers and develops a plan of action.
- Strengthening and empowering the roles of consumers and their families by soliciting feedback on service delivery and identifying areas for improvement (see Section D. Client Satisfaction).
- RAMS maintains policies and procedures to recruit, retain, and promote at all levels a diverse staff and leadership (including Board of Directors) that reflect the multi-cultural, multi-lingual diversity of the community. Other retention strategies include soliciting staff feedback on agency/programmatic improvements (service delivery, staffing resources); this is continuously solicited by the Program Director and, at least annually, the CEO meets with each program to solicit feedback for this purpose. The agency disseminates staff satisfaction surveys and Human Resources conducts exit interviews with departing staff. All information is gathered and management explores implementation, if deemed appropriate; this also informs the agency's strategic plan.
- RAMS Quality Council meets quarterly and is designed to advise on program quality assurance and improvement activities; chaired by the RAMS Director of Operations, the membership includes an administrator, director, clinical supervisor, peer counselor, and direct services staff. Programs may also present to this council to gain additional feedback on quality assurance activities and improvement.
- To ensure accountability at all levels, the RAMS CEO meets with the RAMS Board of Directors on a regular basis (approximately monthly) and provides an update on agency and programs' activities and matters.

D. Satisfaction with services

BSARF annually administers its own multi-lingual Resident Satisfaction Survey. Ongoing client feedback is solicited in the twice weekly community meetings. After reviewing with staff, program adjusts practice to better providing services to residents as appropriate, e.g. cultural food preference, holiday celebrations, group ideas, etc. Results of the surveys and other feedback are shared at staff meetings, reviewed by the RAMS Quality Council, and reported to executive management. Assessment of feedback implementation is conducted by program management and, in discussion with executive management. On an annual to biennial basis, clients attend RAMS Board of Directors meetings to share their experiences and provide feedback.

E. Timely completion and use of outcome data, including CANS and/or ANSA

As described in the previous CQI sections, RAMS continuously utilizes available data to inform service delivery to support positive treatment outcomes.

"General Fund Appendices" shall mean all those appendices which include General Fund monies.

(1) Fee For Service (Monthly Reimbursement by Certified Units at Budgeted Unit Rates):

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month, based upon the number of units of service that were delivered in the preceding month. All deliverables associated with the SERVICES defined in Appendix A times the unit rate as shown in the appendices cited in this paragraph shall be reported on the invoice(s) each month. All charges incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

(2) Cost Reimbursement (Monthly Reimbursement for Actual Expenditures within Budget):

CONTRACTOR shall submit monthly invoices in the format attached, Appendix F, and in a form acceptable to the Contract Administrator, by the fifteenth (15th) calendar day of each month for reimbursement of the actual costs for SERVICES of the preceding month. All costs associated with the SERVICES shall be reported on the invoice each month. All costs incurred under this Agreement shall be due and payable only after SERVICES have been rendered and in no case in advance of such SERVICES.

B. Final Closing Invoice

(1) Fee For Service Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those SERVICES rendered during the referenced period of performance. If SERVICES are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY. CITY'S final reimbursement to the CONTRACTOR at the close of the Agreement period shall be adjusted to conform to actual units certified multiplied by the unit rates identified in Appendix B attached hereto, and shall not exceed the total amount authorized and certified for this Agreement.

(2) Cost Reimbursement:

A final closing invoice, clearly marked "FINAL," shall be submitted no later than forty-five (45) calendar days following the closing date of each fiscal year of the Agreement, and shall include only those costs incurred during the referenced period of performance. If costs are not invoiced during this period, all unexpended funding set aside for this Agreement will revert to CITY.

C. Payment shall be made by the CITY to CONTRACTOR at the address specified in the section entitled "Notices to Parties."

D. Upon the effective date of this Agreement, contingent upon prior approval by the CITY'S Department of Public Health of an invoice or claim submitted by Contractor, and of each year's revised Appendix A (Description of Services) and each year's revised Appendix B (Program Budget and Cost Reporting Data Collection Form), and within each fiscal year, the CITY agrees to make an initial payment to CONTRACTOR not to exceed \$446,820 (25%) of the General Fund and Prop 63 portion of the CONTRACTOR'S allocation for the applicable fiscal year.

CONTRACTOR agrees that within that fiscal year, this initial payment shall be recovered by the CITY through a reduction to monthly payments to CONTRACTOR during the period of October 1 through March 31 of the applicable fiscal year, unless and until CONTRACTOR chooses to return to the CITY all or part of the initial payment for that fiscal year. The amount of the initial payment recovered each month shall be calculated by dividing the total initial payment for the fiscal year by the total number of months for recovery. Any termination of this Agreement, whether for cause or for convenience, will result in the total outstanding amount of the initial payment for that fiscal year being due and payable to the CITY within thirty (30) calendar days following written notice of termination from the CITY.

2. Program Budgets and Final Invoice

A. Program Budgets are listed below and are attached hereto.

Budget Summary

- Appendix B-1 Adult Outpatient
- Appendix B-2 Outpatient Peer Counseling Service
- Appendix B-3 Employee Development
- Appendix B-4 Broderick Residential HUH

B. COMPENSATION

Compensation shall be made in monthly payments on or before the 30th day after the DIRECTOR, in his or her sole discretion, has approved the invoice submitted by CONTRACTOR. The breakdown of costs and sources of revenue associated with this Agreement appears in Appendix B, Cost Reporting/Data Collection (CR/DC) and Program Budget, attached hereto and incorporated by reference as though fully set forth herein. The maximum dollar obligation of the CITY under the terms of this Agreement shall not exceed **Nine Million Nine Hundred Ninety Five Thousand Two Hundred Twenty Eight Dollars (\$9,995,228)** for the period of July 1, 2018 through June 30, 2020.

CONTRACTOR understands that, of this maximum dollar obligation, **\$1,070,917** is included as a contingency amount and is neither to be used in Appendix B, Budget, or available to CONTRACTOR without a modification to this Agreement executed in the same manner as this Agreement or a revision to Appendix B, Budget, which has been approved by the Director of Health. CONTRACTOR further understands that no payment of any portion of this contingency amount will be made unless and until such modification or budget revision has been fully approved and executed in accordance with applicable CITY and Department of Public Health laws, regulations and policies/procedures and certification as to the availability of funds by the Controller. CONTRACTOR agrees to fully comply with these laws, regulations, and policies/procedures.

(1) For each fiscal year of the term of this Agreement, CONTRACTOR shall submit for approval of the CITY's Department of Public Health a revised Appendix A, Description of Services, and a revised Appendix B, Program Budget and Cost Reporting Data Collection form, based on the CITY's allocation of funding for SERVICES for the appropriate fiscal year. CONTRACTOR shall create these Appendices in compliance with the instructions of the Department of Public Health. These Appendices shall apply only to

the fiscal year for which they were created. These Appendices shall become part of this Agreement only upon approval by the CITY.

(2) CONTRACTOR understands that, of the maximum dollar obligation stated above, the total amount to be used in Appendix B, Budget and available to CONTRACTOR for the entire term of the contract is as follows, notwithstanding that for each fiscal year, the amount to be used in Appendix B, Budget and available to CONTRACTOR for that fiscal year shall conform with the Appendix A, Description of Services, and a Appendix B, Program Budget and Cost Reporting Data Collection form, as approved by the CITY's Department of Public Health based on the CITY's allocation of funding for SERVICES for that fiscal year.

July 1, 2018 through June 30, 2019	\$ 4,407,067
July 1, 2019 through June 30, 2020	\$ 4,517,244
Subtotal - July 1, 2018 through June 30, 2020	\$ 8,924,311
Contingency	\$ 1,070,917
TOTAL - July 1, 2018 through June 30, 2020	\$ 9,995,228

CONTRACTOR understands that the CITY may need to adjust sources of revenue and agrees that these needed adjustments will become part of this Agreement by written modification to CONTRACTOR. In event that such reimbursement is terminated or reduced, this Agreement shall be terminated or proportionately reduced accordingly. In no event will CONTRACTOR be entitled to compensation in excess of these amounts for these periods without there first being a modification of the Agreement or a revision to Appendix B, Budget, as provided for in this section of this Agreement.

To provide for continuity of services while a new agreement was developed, the Department of Public Health established a contract with Richmond Area Multi Services, Inc for the same services and for a contract term which partially overlaps the term of this new agreement. The existing contract shall be superseded by this new agreement, effective the first day of the month following the date upon which the Controller's Office certifies as to the availability of funds for this new agreement.

3. Services of Attorneys

No invoices for Services provided by law firms or attorneys, including, without limitation, as subcontractors of Contractor, will be paid unless the provider received advance written approval from the City Attorney.

4. State or Federal Medi-Cal Revenues

A. CONTRACTOR understands and agrees that should the CITY'S maximum dollar obligation under this Agreement include State or Federal Medi-Cal revenues, CONTRACTOR shall expend such revenues in the provision of SERVICES to Medi-Cal eligible clients in accordance with CITY, State, and Federal Medi-Cal regulations. Should CONTRACTOR fail to expend budgeted Medi-Cal revenues herein, the CITY'S maximum dollar obligation to CONTRACTOR shall be proportionally reduced in the amount of such unexpended revenues. In no event shall State/Federal Medi-Cal revenues be used for clients who do not qualify for Medi-Cal reimbursement.

B. CONTRACTOR further understands and agrees that any State or Federal Medi-Cal funding in this Agreement subject to authorized Federal Financial Participation (FFP) is an estimate, and actual amounts will be determined based on actual services and actual costs, subject to the total compensation amount shown in this Agreement."

5. Reports and Services

No costs or charges shall be incurred under this Agreement nor shall any payments become due to CONTRACTOR until reports, SERVICES, or both, required under this Agreement are received from CONTRACTOR and approved by the DIRECTOR as being in accordance with this Agreement. CITY may withhold payment to CONTRACTOR in any instance in which CONTRACTOR has failed or refused to satisfy any material obligation provided for under this Agreement.

APPENDIX E

San Francisco Department of Public Health Business Associate Agreement

This Business Associate Agreement (“BAA”) supplements and is made a part of the contract by and between the City and County of San Francisco, the Covered Entity (“CE”), and Contractor, the Business Associate (“BA”) (the “Agreement”). To the extent that the terms of the Agreement are inconsistent with the terms of this BAA, the terms of this BAA shall control.

RECITALS

A. CE, by and through the San Francisco Department of Public Health (“SFDPH”), wishes to disclose certain information to BA pursuant to the terms of the Agreement, some of which may constitute Protected Health Information (“PHI”) (defined below).

B. For purposes of the Agreement, CE requires Contractor, even if Contractor is also a covered entity under HIPAA, to comply with the terms and conditions of this BAA as a BA of CE.

C. CE and BA intend to protect the privacy and provide for the security of PHI disclosed to BA pursuant to the Agreement in compliance with the Health Insurance Portability and Accountability Act of 1996, Public Law 104-191 (“HIPAA”), the Health Information Technology for Economic and Clinical Health Act, Public Law 111-005 (“the HITECH Act”), and regulations promulgated there under by the U.S. Department of Health and Human Services (the “HIPAA Regulations”) and other applicable laws, including, but not limited to, California Civil Code §§ 56, et seq., California Health and Safety Code § 1280.15, California Civil Code §§ 1798, et seq., California Welfare & Institutions Code §§5328, et seq., and the regulations promulgated there under (the “California Regulations”).

D. As part of the HIPAA Regulations, the Privacy Rule and the Security Rule (defined below) require CE to enter into a contract containing specific requirements with BA prior to the disclosure of PHI, as set forth in, but not limited to, Title 45, Sections 164.314(a), 164.502(a) and (e) and 164.504(e) of the Code of Federal Regulations (“C.F.R.”) and contained in this BAA.

E. BA enters into agreements with CE that require the CE to disclose certain identifiable health information to BA. The parties desire to enter into this BAA to permit BA to have access to such information and comply with the BA requirements of HIPAA, the HITECH Act, and the corresponding Regulations.

In consideration of the mutual promises below and the exchange of information pursuant to this BAA, the parties agree as follows:

1. Definitions.

a. **Breach** means the unauthorized acquisition, access, use, or disclosure of PHI that compromises the security or privacy of such information, except where an unauthorized person to whom such information is disclosed would not reasonably have been able to retain such information, and shall have the meaning given to such term under the HITECH Act and HIPAA Regulations [42 U.S.C. Section 17921 and 45 C.F.R. Section 164.402], as well as California Civil Code Sections 1798.29 and 1798.82.

2. Obligations of Business Associate.

Changes to section 2 (a) or to the referenced attachments must be reviewed and approved by your Department's staff member responsible for data privacy and/or security. In some cases, any one or more of the three attachments may not apply, but that decision must be made in consultation with the privacy/security officer or the City Attorney's Office. If a Contractor has questions about a specific attachment, contact your Department's data privacy or security director/officer.

a. **Attestations.** Except when CE's data privacy officer exempts BA in writing, the BA shall complete the following forms, attached and incorporated by reference as though fully set forth herein, SFDPH Attestations for Privacy (Attachment 1) and Data Security (Attachment 2) within sixty (60) calendar days from the execution of the Agreement. If CE makes substantial changes to any of these forms during the term of the Agreement, the BA will be required to complete CE's updated forms within sixty (60) calendar days from the date that CE provides BA with written notice of such changes. BA shall retain such records for a period of seven years after the Agreement terminates and shall make all such records available to CE within 15 calendar days of a written request by CE.

Changes to section 2 (b) must be reviewed and approved by your Department's staff member responsible for data privacy and/or security. Business Associates are required to train their staff (as necessary and appropriate for the members of their workforce to carry out their function within the BA) on HIPAA requirements and the BA's policies and procedures with respect to the HIPAA requirements and retain documentation for seven years.

b. **User Training.** The BA shall provide, and shall ensure that BA subcontractors, provide, training on PHI privacy and security, including HIPAA and HITECH and its regulations, to each employee or agent that will access, use or disclose Protected Information, upon hire and/or prior to accessing, using or disclosing Protected Information for the first time, and at least annually thereafter during the term of the Agreement. BA shall maintain, and shall ensure that BA subcontractors maintain, records indicating the name of each employee or agent and date on which the PHI privacy and security trainings were completed. BA shall retain, and ensure that BA subcontractors retain, such records for a period of seven years after the Agreement terminates and shall make all such records available to CE within 15 calendar days of a written request by CE.

c. **Permitted Uses.** BA may use, access, and/or disclose Protected Information only for the purpose of performing BA's obligations for, or on behalf of, the City and as permitted or required under the Agreement and BAA, or as required by law. Further, BA shall not use Protected Information in any manner that would constitute a

violation of the Privacy Rule or the HITECH Act if so used by CE. However, BA may use Protected Information as necessary (i) for the proper management and administration of BA; (ii) to carry out the legal responsibilities of BA; (iii) as required by law; or (iv) for Data Aggregation purposes relating to the Health Care Operations of CE [45 C.F.R. Sections 164.502, 164.504(e)(2), and 164.504(e)(4)(i)].

d. Permitted Disclosures. BA shall disclose Protected Information only for the purpose of performing BA's obligations for, or on behalf of, the City and as permitted or required under the Agreement and BAA, or as required by law. BA shall not disclose Protected Information in any manner that would constitute a violation of the Privacy Rule or the HITECH Act if so disclosed by CE. However, BA may disclose Protected Information as necessary (i) for the proper management and administration of BA; (ii) to carry out the legal responsibilities of BA; (iii) as required by law; or (iv) for Data Aggregation purposes relating to the Health Care Operations of CE. If BA discloses Protected Information to a third party, BA must obtain, prior to making any such disclosure, (i) reasonable written assurances from such third party that such Protected Information will be held confidential as provided pursuant to this BAA and used or disclosed only as required by law or for the purposes for which it was disclosed to such third party, and (ii) a written agreement from such third party to immediately notify BA of any breaches, security incidents, or unauthorized uses or disclosures of the Protected Information in accordance with paragraph 2 (n) of this BAA, to the extent it has obtained knowledge of such occurrences [42 U.S.C. Section 17932; 45 C.F.R. Section 164.504(e)]. BA may disclose PHI to a BA that is a subcontractor and may allow the subcontractor to create, receive, maintain, or transmit Protected Information on its behalf, if the BA obtains satisfactory assurances, in accordance with 45 C.F.R. Section 164.504(e)(1), that the subcontractor will appropriately safeguard the information [45 C.F.R. Section 164.502(e)(1)(ii)].

e. Prohibited Uses and Disclosures. BA shall not use or disclose Protected Information other than as permitted or required by the Agreement and BAA, or as required by law. BA shall not use or disclose Protected Information for fundraising or marketing purposes. BA shall not disclose Protected Information to a health plan for payment or health care operations purposes if the patient has requested this special restriction, and has paid out of pocket in full for the health care item or service to which the Protected Information solely relates [42 U.S.C. Section 17935(a) and 45 C.F.R. Section 164.522(a)(1)(vi)]. BA shall not directly or indirectly receive remuneration in exchange for Protected Information, except with the prior written consent of CE and as permitted by the HITECH Act, 42 U.S.C. Section 17935(d)(2), and the HIPAA regulations, 45 C.F.R. Section 164.502(a)(5)(ii); however, this prohibition shall not affect payment by CE to BA for services provided pursuant to the Agreement.

f. Appropriate Safeguards. BA shall take the appropriate security measures to protect the confidentiality, integrity and availability of PHI that it creates, receives, maintains, or transmits on behalf of the CE, and shall prevent any use or disclosure of PHI other than as permitted by the Agreement or this BAA, including, but not limited to, administrative, physical and technical safeguards in accordance with the Security Rule, including, but not limited to, 45 C.F.R. Sections 164.306, 164.308, 164.310, 164.312, 164.314, 164.316, and 164.504(e)(2)(ii)(B). BA shall comply with the policies and procedures and documentation requirements of the Security Rule, including, but not limited to, 45 C.F.R. Section 164.316, and 42 U.S.C. Section 17931. BA is responsible for any civil penalties assessed due to an audit or investigation of BA, in accordance with 42 U.S.C. Section 17934(c).

San Francisco Department of Public Health

Business Associate Agreement

g. Business Associate's Subcontractors and Agents. BA shall ensure that any agents and subcontractors that create, receive, maintain or transmit Protected Information on behalf of BA, agree in writing to the same restrictions and conditions that apply to BA with respect to such PHI and implement the safeguards required by paragraph 2.f. above with respect to Electronic PHI [45 C.F.R. Section 164.504(e)(2) through (e)(5); 45 C.F.R. Section 164.308(b)]. BA shall mitigate the effects of any such violation.

h. Accounting of Disclosures. Within ten (10) calendar days of a request by CE for an accounting of disclosures of Protected Information or upon any disclosure of Protected Information for which CE is required to account to an individual, BA and its agents and subcontractors shall make available to CE the information required to provide an accounting of disclosures to enable CE to fulfill its obligations under the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.528, and the HITECH Act, including but not limited to 42 U.S.C. Section 17935 (e) as determined by CE. BA agrees to implement a process that allows for an accounting to be collected and maintained by BA and its agents and subcontractors for at least seven (7) years prior to the request. However, accounting of disclosures from an Electronic Health Record for treatment, payment or health care operations purposes are required to be collected and maintained for only three (3) years prior to the request, and only to the extent that BA maintains an Electronic Health Record. At a minimum, the information collected and maintained shall include: (i) the date of disclosure; (ii) the name of the entity or person who received Protected Information and, if known, the address of the entity or person; (iii) a brief description of Protected Information disclosed; and (iv) a brief statement of purpose of the disclosure that reasonably informs the individual of the basis for the disclosure, or a copy of the individual's authorization, or a copy of the written request for disclosure [45 C.F.R. 164.528(b)(2)]. If an individual or an individual's representative submits a request for an accounting directly to BA or its agents or subcontractors, BA shall forward the request to CE in writing within five (5) calendar days.

i. Access to Protected Information. BA shall make Protected Information maintained by BA or its agents or subcontractors in Designated Record Sets available to CE for inspection and copying within (5) days of request by CE to enable CE to fulfill its obligations under state law [Health and Safety Code Section 123110] and the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.524 [45 C.F.R. Section 164.504(e)(2)(ii)(E)]. If BA maintains Protected Information in electronic format, BA shall provide such information in electronic format as necessary to enable CE to fulfill its obligations under the HITECH Act and HIPAA Regulations, including, but not limited to, 42 U.S.C. Section 17935(e) and 45 C.F.R. 164.524.

j. Amendment of Protected Information. Within ten (10) days of a request by CE for an amendment of Protected Information or a record about an individual contained in a Designated Record Set, BA and its agents and subcontractors shall make such Protected Information available to CE for amendment and incorporate any such amendment or other documentation to enable CE to fulfill its obligations under the Privacy Rule, including, but not limited to, 45 C.F.R. Section 164.526. If an individual requests an amendment of Protected Information directly from BA or its agents or subcontractors, BA must notify CE in writing within five (5) days of the request and of any approval or denial of amendment of Protected Information maintained by BA or its agents or subcontractors [45 C.F.R. Section 164.504(e)(2)(ii)(F)].

k. Governmental Access to Records. BA shall make its internal practices, books and records relating to the use and disclosure of Protected Information available to CE and to the Secretary of the U.S. Department of Health

APPENDIX E

San Francisco Department of Public Health
Business Associate Agreement

and Human Services (the "Secretary") for purposes of determining BA's compliance with HIPAA [45 C.F.R. Section 164.504(e)(2)(ii)(I)]. BA shall provide CE a copy of any Protected Information and other documents and records that BA provides to the Secretary concurrently with providing such Protected Information to the Secretary.

l. Minimum Necessary. BA, its agents and subcontractors shall request, use and disclose only the minimum amount of Protected Information necessary to accomplish the intended purpose of such use, disclosure, or request. [42 U.S.C. Section 17935(b); 45 C.F.R. Section 164.514(d)]. BA understands and agrees that the definition of "minimum necessary" is in flux and shall keep itself informed of guidance issued by the Secretary with respect to what constitutes "minimum necessary" to accomplish the intended purpose in accordance with HIPAA and HIPAA Regulations.

m. Data Ownership. BA acknowledges that BA has no ownership rights with respect to the Protected Information.

Contractors sometimes want to limit section 2(n)'s notice requirement below to "Successful Security Incidents" or exempt "Unsuccessful Security Incidents" from the notice requirement, and define the terms themselves. If so, please contact the City Attorney's Office and your department's IT department.

n. Notification of Breach. BA shall notify CE within 5 calendar days of any breach of Protected Information; any use or disclosure of Protected Information not permitted by the BAA; any Security Incident (except as otherwise provided below) related to Protected Information, and any use or disclosure of data in violation of any applicable federal or state laws by BA or its agents or subcontractors. The notification shall include, to the extent possible, the identification of each individual whose unsecured Protected Information has been, or is reasonably believed by the BA to have been, accessed, acquired, used, or disclosed, as well as any other available information that CE is required to include in notification to the individual, the media, the Secretary, and any other entity under the Breach Notification Rule and any other applicable state or federal laws, including, but not limited, to 45 C.F.R. Section 164.404 through 45 C.F.R. Section 164.408, at the time of the notification required by this paragraph or promptly thereafter as information becomes available. BA shall take (i) prompt corrective action to cure any deficiencies and (ii) any action pertaining to unauthorized uses or disclosures required by applicable federal and state laws. [42 U.S.C. Section 17921; 42 U.S.C. Section 17932; 45 C.F.R. 164.410; 45 C.F.R. Section 164.504(e)(2)(ii)(C); 45 C.F.R. Section 164.308(b)]

o. Breach Pattern or Practice by Business Associate's Subcontractors and Agents. Pursuant to 42 U.S.C. Section 17934(b) and 45 C.F.R. Section 164.504(e)(1)(iii), if the BA knows of a pattern of activity or practice of a subcontractor or agent that constitutes a material breach or violation of the subcontractor or agent's obligations under the Contract or this BAA, the BA must take reasonable steps to cure the breach or end the violation. If the steps are unsuccessful, the BA must terminate the contractual arrangement with its subcontractor or agent, if feasible. BA shall provide written notice to CE of any pattern of activity or practice of a subcontractor or agent that BA believes constitutes a material breach or violation of the subcontractor or agent's obligations under the Contract or this BAA within five (5) calendar days of discovery and shall meet with CE to discuss and attempt to resolve the problem as one of the reasonable steps to cure the breach or end the violation.

APPENDIX E

San Francisco Department of Public Health
Business Associate Agreement

Contractors sometimes want to limit the Section 3, Termination, to breaches of “material provisions,” or include an opportunity to cure. A breach of PHI is very different than a breach of a contract, so we may not want to allow them cure period or we may want to require that the “cure” is satisfactory to the City. If so, please contact the City Attorney’s Office.

3. Termination.

a. Material Breach. A breach by BA of any provision of this BAA, as determined by CE, shall constitute a material breach of the Agreement and this BAA and shall provide grounds for immediate termination of the Agreement and this BAA, any provision in the AGREEMENT to the contrary notwithstanding. [45 C.F.R. Section 164.504(e)(2)(iii).]

b. Judicial or Administrative Proceedings. CE may terminate the Agreement and this BAA, effective immediately, if (i) BA is named as defendant in a criminal proceeding for a violation of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws or (ii) a finding or stipulation that the BA has violated any standard or requirement of HIPAA, the HITECH Act, the HIPAA Regulations or other security or privacy laws is made in any administrative or civil proceeding in which the party has been joined.

c. Effect of Termination. Upon termination of the Agreement and this BAA for any reason, BA shall, at the option of CE, return or destroy all Protected Information that BA and its agents and subcontractors still maintain in any form, and shall retain no copies of such Protected Information. If return or destruction is not feasible, as determined by CE, BA shall continue to extend the protections and satisfy the obligations of Section 2 of this BAA to such information, and limit further use and disclosure of such PHI to those purposes that make the return or destruction of the information infeasible [45 C.F.R. Section 164.504(e)(2)(ii)(J)]. If CE elects destruction of the PHI, BA shall certify in writing to CE that such PHI has been destroyed in accordance with the Secretary’s guidance regarding proper destruction of PHI.

d. Civil and Criminal Penalties. BA understands and agrees that it is subject to civil or criminal penalties applicable to BA for unauthorized use, access or disclosure of Protected Information in accordance with the HIPAA Regulations and the HITECH Act including, but not limited to, 42 U.S.C. 17934 (c).

e. Disclaimer. CE makes no warranty or representation that compliance by BA with this BAA, HIPAA, the HITECH Act, or the HIPAA Regulations or corresponding California law provisions will be adequate or satisfactory for BA’s own purposes. BA is solely responsible for all decisions made by BA regarding the safeguarding of PHI.

Contractors sometimes want to make section 4 a mutual ability to terminate. If so, please contact the City Attorney’s Office.

4. Amendment to Comply with Law.

The parties acknowledge that state and federal laws relating to data security and privacy are rapidly evolving and that amendment of the Agreement or this BAA may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, the HIPAA regulations and other applicable state or federal laws

APPENDIX E

San Francisco Department of Public Health
Business Associate Agreement

relating to the security or confidentiality of PHI. The parties understand and agree that CE must receive satisfactory written assurance from BA that BA will adequately safeguard all Protected Information. Upon the request of either party, the other party agrees to promptly enter into negotiations concerning the terms of an amendment to this BAA embodying written assurances consistent with the updated standards and requirements of HIPAA, the HITECH Act, the HIPAA regulations or other applicable state or federal laws. CE may terminate the Agreement upon thirty (30) days written notice in the event (i) BA does not promptly enter into negotiations to amend the Agreement or this BAA when requested by CE pursuant to this section or (ii) BA does not enter into an amendment to the Agreement or this BAA providing assurances regarding the safeguarding of PHI that CE, in its sole discretion, deems sufficient to satisfy the standards and requirements of applicable laws.

Contractors sometimes want to delete section 5 because they claim the indemnification and liability sections in the main agreement cover this issue. If so, please contact the City Attorney's Office.

5. Reimbursement for Fines or Penalties.

In the event that CE pays a fine to a state or federal regulatory agency, and/or is assessed civil penalties or damages through private rights of action, based on an impermissible access, use or disclosure of PHI by BA or its subcontractors or agents, then BA shall reimburse CE in the amount of such fine or penalties or damages within thirty (30) calendar days from City's written notice to BA of such fines, penalties or damages.

Privacy Policy Compliance Standards**

As part of this Agreement, Contractor acknowledges and agrees to comply with the following:

In City's Fiscal Year 2003/04, a DPH Privacy Policy was developed and contractors advised that they would need to comply with this policy as of July 1, 2005.

As of July 1, 2004, contractors were subject to audits to determine their compliance with the DPH Privacy Policy using the six compliance standards listed below. Audit findings and corrective actions identified in City's Fiscal year 2004/05 were to be considered informational, to establish a baseline for the following year.

Beginning in City's Fiscal Year 2005/06, findings of compliance or non-compliance and corrective actions were to be integrated into the contractor's monitoring report.

Item #1: DPH Privacy Policy is integrated in the program's governing policies and procedures regarding patient privacy and confidentiality.

As Measured by: Existence of adopted/approved policy and procedure that abides by the rules outlined in the DPH Privacy Policy

Item #2: All staff who handle patient health information are oriented (new hires) and trained in the program's privacy/confidentiality policies and procedures.

As Measured by: Documentation showing individual was trained exists

Item #3: A Privacy Notice that meets the requirements of the Federal Privacy Rule (HIPAA) is written and provided to all patients/clients served in their threshold and other languages. If document is not available in the patient's/client's relevant language, verbal translation is provided.

As Measured by: Evidence in patient's/client's chart or electronic file that patient was "noticed." (Examples in English, Cantonese, Vietnamese, Tagalog, Spanish, Russian will be provided.)

Item #4: A Summary of the above Privacy Notice is posted and visible in registration and common areas of treatment facility.

As Measured by: Presence and visibility of posting in said areas. (Examples in English, Cantonese, Vietnamese, Tagalog, Spanish, Russian will be provided.)

Item #5: Each disclosure of a patient's/client's health information for purposes other than treatment, payment, or operations is documented.

As Measured by: Documentation exists.

Item #6: Authorization for disclosure of a patient's/client's health information is obtained prior to release (1) to non-treatment providers or (2) from a substance abuse program.

As Measured by: An authorization form that meets the requirements of the Federal Privacy Rule (HIPAA) is available to program staff and, when randomly asked, staff are aware of circumstances when authorization form is needed.

THE DECLARATION OF COMPLIANCE

Each Fiscal Year, CONTRACTOR attests with a Declaration of Compliance that each program site has an Administrative Binder that contains all of the forms, policies, statements, and documentation required by Community Behavioral Health Services (CBHS). The Declaration of Compliance also lists requirements for site postings of public and client information, and client chart compliance if client charts are maintained. CONTRACTOR understands that the Community Programs Business Office of Contract Compliance may visit a program site at any time to ensure compliance with all items of the Declaration of Compliance.
